That was Li Genhong they were talking about!

He was the Li family's eldest son and their heir, as well as an influential member in the Chinese Chamber of Commerce!

Jiang Ning probably kicked Lin Group's entire future away. What a great loss that would be.

Everyone looked at Jiang Ning and couldn't help shaking their heads. He was young. He was still too young. Jiang Ning was too hotblooded to suffer any injustice. So what if Lin Group had to give up 20% of profit annually?

One had to spend money to make money!

It was too bad that they weren't in time to teach Jiang Ning and Lin Yuzhen about this.

Dozens of ferocious men had already charged over, and they looked absolutely murderous!

"Wifey, stand back, so the blood doesn't get on you."

Jiang Ning stood there composedly.

BAM!

BAM!

BAM!

Jiang Ning slapped them a few dozen times in a row!

# NH

Each slap sent a man flying right out. After rolling on the ground a few times, they would curl up and howl in agony.

The crisp sound of the slapping made everyone's scalp's go numb!

They could even sense that Jiang Ning's slaps had probably broken their facial bones to bits!

It all happened within 30 seconds. Chen Guo's face turned pale as he looked at the men lying on the ground.

"You...you..." said Chen Guo. His lips parted, but he was unable to utter a word. Chen Guo stood in front of Li Genhong but felt as though his legs were trembling slightly!

Who the hell was he?

He gave each one of them a slap!

These bodyguards were highly skilled fighters but couldn't even withstand a single slap from Jiang Ning!

"How dare you make trouble!" shouted Chen Guo coldly, "Do you know who Young Master Li is?"

"I have no idea. I'm not interested either," said Jiang Ning as he towered over them and looked at them. "I have never met people like you. I said I wasn't interested, but you kept begging us to join the Chinese Chamber of Commerce. Can you have some pride?"

# NH

“You...”

This time, it was Li Genhong and not Chen Guo whose face flushed right after turning pale.

Beg them?

Did the Chinese Chamber of Commerce shamelessly beg Lin Group to join them?

“I think Miss Amelia has been mixing with the wrong company,” said Jiang Ning rudely in a bright voice. “I did her a favor by turning up, but I think my efforts were wasted. It was such a disappointment. I will remind her to choose her friends wisely!”

Then Jiang Ning sneered without speaking further and held Lin Yuzhen’s hand as they turned to leave right away.

Everyone was dumbstruck.

What did Jiang Ning just say?

Was he just doing Miss Amelia a favor by coming here and that the Chinese Chamber of Commerce left him disappointed?

Was he referring to Amelia from the Ceyranka family?

He audaciously said that the Ceyranka family’s princess mixed with the wrong company!

Everyone looked at Jiang Ning and Lin Yuzhen as

they left without even daring to breathe loudly.

Jiang Ning offended Amelia and the Chinese Chamber of Commerce in one fell swoop.

Did Lin Group still want to expand?

Did Lin Group still want to break into the overseas market?

They could dream on!

“Stop them...stop them!” shouted Li Genhong loudly as he watched Jiang Ning leave, but there were no other men left standing. All of them had fallen to the ground and were howling excruciatingly.

“Young Master Li...there is no one else left!” said Chen Guo as he gulped. “Who...who on earth are they?”

He didn't think anyone would dare to touch Li Genhong. Did they have some death wish?

“Lin Group! Lin Group!” shouted Li Genhong as he gnashed his teeth.

“Lin Group?’ asked Chen Guo as his heart hastily palpitated. “How could it be them?”

Then Li Genhong looked at Chen Guo in agony and asked, “Do you know them?”

# NH

Chen Guo was stunned.

PAK!

Li Genhong slapped Chen Guo viciously. Then he said, "What else have you been hiding from me?"

"I..." said Chen Guo as he covered his face angrily without daring to show it.

"Lin Group didn't intend on joining the Chinese Chamber of Commerce to begin with, and their men humiliated me..." explained Chen Guo immediately.

Li Genhong looked increasingly angry.

He turned to look at the businessmen around him, who were all staring at him. Then he immediately realized what had just happened.

Jiang Ning deliberately came to the cocktail party to embarrass him!

Jiang Ning planned on embarrassing him and making him lose respect by rejecting him publicly and even fighting him!

"I don't care what you resort to! The Lin Group absolutely cannot gain a foothold abroad! Absolutely not!"

Li Genhong's eyes were bloodshot, and his eyes looked like they were about to blow up. Then he looked at Chen Guo, who was trembling hard and yelled, "Did you hear me?"

“Yes, Young Master Li!” exclaimed Chen Guo.

Meanwhile.

A black sedan was parked across the hotel inconspicuously in the darkness of the night.

Amelia had yet to leave. She sat in the car and watched as Jiang Ning and Lin Yuzhen walked out of the hotel.

“That’s a lovely dress she’s wearing,” said Amelia as she smiled from a distance without showing any emotion. “But did they finish striking a deal with Li Genhong so quickly?”

DONG DONG DONG!

Someone rapped the car door from outside before opening it.

“Miss Ceyranka, Li Genhong was beaten up.”

Amelia’s subordinate got into the car and immediately reported the incident that just happened at the hotel.

She was instantly stunned.

“What did you just say?” asked Amelia in disbelief. “Are you saying Jiang Ning beat up Li Genhong right in front of all the members of the Chinese Chamber of Commerce and even said he would never work with them?”

“Yes. Also, he said he attended the cocktail party

as a favor to you and said he was disappointed by the wrong company you were mixing with," said her subordinate as he frowned. He couldn't help adding, "Miss Ceyranka, this guy is too reckless."

Amelia didn't utter a word.

Reckless?

She would think it was recklessness if it were anyone other than Jiang Ning. There was no way she would believe he was careless.

Jiang Ning thought several steps ahead, so he had a much larger picture than anyone else. Also, he was always unconventional and impossible to predict.

"He's such a wily man," said Amelia a while later as she bit her red lips. "He fooled us!"

Her subordinate was shocked.

How were they fooled?

Didn't Amelia set this cocktail party up so that Lin Group would get into a conflict with Li Genhong? Didn't she want to use the Chinese Chamber of Commerce to help suppress Lin Group?

Lin Group should have been the one who was deceived.

"He knew I was up to something and wasn't

really trying to help Lin Group gain connections.”

Amelia gritted her teeth. She was keenly aware of this point, but she was also confident that Jiang Ning would come anyway. Since she understood women well, she was certain Lin Yuzhen would come!

If Lin Yuzhen was coming, then so would Jiang Ning.

But it didn't dawn on her that Jiang Ning would come even if Lin Yuzhen didn't!

He had to come!

Jiang Ning didn't come for the sake of Lin Group and its development abroad, but to establish a new order in the business world overseas.

Jiang Ning wanted to defeat the Chinese Chamber of Commerce right in front of all the Chinese businessmen. He wanted them to see that Chinese companies could develop overseas without getting leached by the Chinese Chamber of Commerce!

“This jerk even used me,” said Amelia as she inhaled deeply. She found it both infuriating and hilarious. “Why do I keep underestimating him?”
