

Chapter 87

William's reply made Melissa see red!

"William, you'd better make it clear. What do you mean by that?" She slammed her fist on the table and jumped down on William's throat. "If we were to lower the price by 10 percent, what profit will we get?"

However, William's eyes remained cold. "Just do as I say."

Melissa wanted to continue to give him the rough edge of her tongue, but she noticed the look in his eyes.

It was merciless and cold!

She felt a chill go down her spine.

Well, William should not have any good feelings for the Bai family.

The Bais were so unreasonable. How could he tolerate them for so long?

There must be something peculiar that was going on!

D*mn it!

Was this little b*stard scheming some nefarious plans again?

Melissa immediately started cracking her head,

trying to figure out William's game plan.

She was a smart person, but William always made her lose her mind, again and again.

After a few moments, she finally calmed down. When she finally understood the rationale of William's decision, her body couldn't help shaking violently!

It seemed to be...

A light bulb went on in her mind.

She stared at William and mumbled, "You so cruel!"

William ate the orange in his hand, as if he was in a trance.

The orange was slightly sour.

That night, the Bai family was celebrating in high spirits!

The Genuine Care Medical Center had agreed to the Bai family's nonsensical request!

Yasmine was over the moon. She jumped into the air as if she had become several decades younger!

She had been a businesswoman all her life, but she never had met such a business deal ever!

This deal was so influential that it could shake the entire Qena City!

This incident deserved to be recorded in the

history books of Qena City!

It was the Genuine Care Medical Center they were dealing with!

It was the most popular company in Qena City at the moment!

However, this big famous company had to accommodate the Bais' request. It had to lower its head to the Bai family!

This proved that the Bai family was more powerful than the Genuine Care Medical Center!

Yasmine exclaimed happily, "See! This is the real strength and power of our family! After tomorrow, the Bai family will be known across Qena City again! We'll be adored and respected by everyone! No one would dare to look down on us after this!"

"Congratulations, Grandma. Thank you for bringing us back to our well-deserved victory!" Steven immediately flattered Yasmine.

The crowd was also lavishing her praises.

Yasmine, who was immersed in the joy of success, exclaimed excitedly, "Steven deserves all the credit! Tomorrow, at the signing ceremony, I will announce that Steven will be the next successor and the head of the Bai family! Does anyone have any objection?"

No one dared to say anything about it.

Steven felt he was on top of the world!

Finally, he made it!

As long as he became the head of the Bai family, he would definitely get rid of...

William and Felicity!

"When that time comes, I'll kill you all!"

During the signing ceremony, the Bai family invited almost all the reporters in Qena City to participate. They wanted to record this glorious moment for everyone to witness.

However, the people from the Genuine Care Medical Center looked solemn. No joy could be seen on their faces.

Steven was pleased to see this scene.

Times had changed.

"The Genuine Care Medical Center, you have humiliated me before. Now, I will see who else in the city dares to look down on me!"

Steven knew clearly that although the Genuine Care Medical Center was unwilling to give in, there was nothing they could do at this moment.

This was because it could no longer find a second pharmaceutical company in Qena City to carry out this dealership.

The Genuine Care Medical Center had to sign the contract with the Bais no matter what.

Melissa looked at their happy faces coldly and handed the contract to Steven.

He looked at it and checked through for any errors.

Melissa said, "We have included an additional term. You have to look at it clearly."

Steven said proudly, "To give you the two hundred million yuan within three days? Haha, don't worry, we can afford it!"

He seemed to be relaxed and in absolute glee.

Steven thought that the Genuine Care Medical Center included this term to save its own face.

The Bai family had made a triumphant victory. The Genuine Care Medical Center was no longer the focus of the reporters. It was merely a backdrop to contrast with the success of the Bai family.

Steven was convinced that Melissa was just setting up an additional clause so as to not embarrass themselves.

However, Steven was overjoyed. The Genuine Care Medical Center would probably never expect that the Bai family could raise enough money within such a short period of time.

As long as they signed the contract, the ten mutual agreements that were chained with each other would come into effect.

After the signing ceremony, Yasmine announced that Steven would be the next successor leading the Bai family and the next president of the Bai

Group.

"Tonight, we will hold a banquet on the second floor. All the reporters, please stay back later, for our sake. We will get everyone a monetary reward to appreciate your hard work!" Yasmine said proudly.

Yes, Yasmine was doing this for the sake of the Bai family's reputation.

All the people present had a thought in their minds.

The Bai family was about to regain its power.

Soon, they would become a huge, influential family in Qena City. Perhaps, their role in Qena City would be equivalent to that of a royal family!

At this moment, the people from the Genuine Care Medical Center left immediately.

Watching them sneaking away, Steven was consumed with joy. It was a pity not to see that good-for-nothing here.

Otherwise, Steven would have humiliated him.

At this moment, that so-called good-for-nothing was in the Genuine Care Medical Center.

Lydia and he were playing with dominoes. The whole office was covered with the tiles.

Melissa came back and saw him. She said coldly, "It's done. The Bai family is so happy that they refuse to leave."

William nodded. He had expected all of this.

Lydia asked curiously, "Hey, are you really not angry? Or are you used to being cowardly? Are you getting numb to all of them?"

William replied to her with a grin.

An evil smile—more menacing than that of William—flashed across Melissa's face. "I'm afraid that the Bai family won't be able to celebrate again after tonight!"

Lydia was stunned. "What do you mean? Please elaborate."

She scratched her head and added, "The Bai family has indeed done a very clever job, hasn't it? They even thought of such a wonderful strategy. Never do I expect that they would protect themselves by using this chain of contracts. Nothing could possibly go wrong, couldn't it? Do we even have any way of countering them?"

Melissa looked at William and said, "This little b*stard in front of you is much more ruthless than you think. I'm afraid that he has already made this trap seven days ago! He's waiting for the Bai family to perish by themselves!"

Hearing this, Lydia's head started to buzz. "Can you say something I can understand, please?"

At this time, William looked at Lydia. The corners of his mouth curled up into a creepy smile.

"A chain of dealerships and contracts, huh? Do

you really think that nothing can go wrong with this plan?"

Lydia nodded. "Since you've signed the contract, what else can you do? If you break the contract, you'll have to pay a huge sum of money!"

William stared at the dominoes in front of him and laughed. "Do you know that a little leak will sink a great ship?"

Lydia shook her head in bewilderment.

William reached out a hand and said, "Then look at this."

His hand gently pushed a tile.

The dominoes were arranged in a line.

All of a sudden, the tiles laid down on the next one!

Soon, all of them were lying flat on the ground.

It only took one tile to shatter the entire row of dominoes.

"It's time, guys. It's time for a showdown." William stood up. When he saw the fallen dominoes that formed a huge beautiful flower in the room, he smiled again.

Chapter 88

Meanwhile in the hotel where the Bais were celebrating.

Both the hosts and guests were enjoying themselves.

Steven's face was flushed red due to alcohol. The more he downed, the happier he became.

Today marked the beginning of his new life, hence he had to celebrate!

There were a lot of small-sized companies coming over as soon as they received the news.

They were aware that the Bai family had signed the dealership with the Genuine Care Medical Center. They knew that the Bais were getting stronger and would soon regain their fame and prestige.

There were 20 tables in the private dining room.

Every guest was flattering the Bais who could hardly contain the glee over their victory.

When Steven was chatting with others over a glass of wine, his cell phone suddenly rang.

He picked up his cell phone and laughed immediately. "Hey, Brother Baxter, I've been wanting to look for you. Why didn't you come to celebrate with us?"

Baxter muttered something through the phone. Suddenly, Steven's body stiffened. He stood rooted to the spot, dumbstruck.

The person who was drinking with him noticed the change in Steven's expression and patted him gently. "Mr. Bai, are you alright? Mr. Bai, can you hear me?"

Steven looked as if he had just woken up from a dream. He stared at his cell phone in disbelief.

He couldn't believe what he had just heard!

He pushed the person drinking with him away and immediately called Baxter back.

However, Baxter had turned off his phone.

Steven's heart felt like it had been pricked by a thousand needles!

He should be the focus of the whole city this evening!

He should be having a whale of a time while giving toast to the guest for his success.

However, this phone call had completely spoiled his mood!

The hangover was slowly getting hold of him; he was becoming giddier.

He keeled over on the ground!

Everyone around him was scared out of their wits and immediately rushed towards him!

Steven got up from the ground, his face as pale as a ghost!

Yasmine asked in concern, "Steven, what's wrong with you? Hey, I know you're happy, but you can't be drinking too much. I want to have another round of feast again tomorrow."

Steven's face was getting even more pallid!

He looked at Yasmine and blurted, "Grandma, the North Wind Fund has broken the contract."

The news was like a clap of thunder!

Everyone was stunned!

Yasmine's face suddenly turned ashen. "Yo-yo-you! What did you say? Say that again!"

"Baxter from the North Wind Fund just called and said that they wanted to break the contract. They don't want to collaborate with us anymore," Steven hissed, his face twitched in fury.

Yasmine was blown away!

Rebecca looked at the crowd gathering around them and immediately shouted, "Okay, the banquet has come to an end. Please go home."

This piece of news began to spread among the crowd, like a wildfire through a forest.

After everyone left, the Bais were the only one left in the room, their faces never so solemn!

Yasmine slammed the table and said, "The North

Wind Fund is going too far! They have signed the contract with us! How dare they break it? Aren't they afraid that we will sue them?"

Steven said angrily, "D*mn it. Baxter said on the phone that if we want to sue him, we're more than welcome to do it. They are ready to play the game with us! What he really means is that he's willing to compensate us despite breaking the contract!"

The Bai family burst into an uproar!

"The North Wind Fund is crazy! They would rather compensate us than break the contract! What on earth are they doing?"

"He must be jealous of our family since we are going to make a triumphant comeback! He wants to sabotage us with this dirty trick!"

"Humph! It's an indisputable fact that we'd signed the dealership with the Genuine Care Medical Center. With our current position, we don't have to be scared of the North Wind Fund!"

The room immediately filled with a tumult of insults and criticism!

Felicity and Xena looked at each other, their eyes full of surprise.

Only the two of them had been feeling uneasy about their deal with the North Wind Fund since the beginning.

This feeling had started when the Bais

collaborated with the North Wind Fund before they signed a chain of contracts with more than a dozen pharmaceutical companies to form an alliance. Both of them were constantly worried even before the Bais threatened the Genuine Care Medical Center to accept their outrageous and unreasonable requests.

Everything seemed to go too smoothly.

It felt that something funny was going on, but the two of them could not pinpoint what it was.

Only those who got carried away by the victory didn't notice it. Without their knowledge, the Bai family had been forced to the edge of a cliff by a mysterious force.

Sure enough, here came the unforeseen crisis!

On the other hand, Xena's heart skipped a beat!

She knew a lot more than Felicity!

She knew that William was the owner of the Genuine Care Medical Center!

She also knew how decisive William was. He would not bear any humiliations!

It seemed that the table had been turned around.

Did it mean that William had begun to take action against the Bais?

Thinking of this, she got goose bumps all over her body.

The issue seemed to come from the North Wind Fund.

She knew that Baxter from the North Wind Fund was one of William's pawns!

Everything seemed to join up by a series of coincidences.

Besides, it was she who mentioned the North Wind Fund and Baxter in front of the Bai family!

Thinking of this, she was completely mind-blown. Goosebumps ravaged all over her body again.

What a coincidence!

This coincidence seemed to be controlled by a pair of invisible hands. He was using Qena City as his chessboard; every element in it – the pharmaceutical companies, the Bais – was merely his pawns!

"D*mn it!" Xena cursed.

She finally discerned the truth.

She finally knew the reason William promised to go to the bar with her previously!

Why did he choose North Wind Bar?

He told her that there was some business he had to attend to there!

William had arranged everything!

That evening she wanted to leave the bar but William insisted on waiting for Baxter to return!

He was not there to wait for Baxter to apologize to her.

He wanted her to meet Baxter so she would have an impression of the North Wind Fund and Baxter!

Then, when the Bai family had a meeting, she would naturally be reminded of the North Wind Fund when they were in need of money!

William had planned everything!

Xena was so shocked by his skill. Goosebumps sprang over her arms, her heart pumping wildly in her chest!

What a terrifying brother-in-law she had!

Not only was he good at using his power...

He could also manipulate people's minds!

It could only mean that the Bai family had fallen into William's trap.

It was not going to be that simple for the Bai family to escape its way out of this set-up.

"Steven, isn't Baxter a good friend of yours? Why did he do that?" Yasmine still refused to believe this disastrous fact.

Steven looked as though he was about to burst out crying. "How would I know that? We had talked through everything, and he did not even hesitate to agree to our terms! What's wrong with him?"

Xena stood aside and looked on at the ongoing

argument and the Bais. She knew that they were no better than the walking corpses at the moment.

The Bais would probably never find out how they ended up like this.

Although she felt that she had been used by William, she somehow felt pleased and gratified.

Well, William used her because he trusted her.

Perhaps the only flaw on that very night was the incident when Baxter trifled with her.

Xena believed that William was a righteous man; he would never ask Baxter to lay a finger on her.

"Humph, the North Wind Fund! They are so heartless! Alright then, without them, we still have nine other companies with us! We have enough money! Since the North Wind Fund decides to turn their back on us, then we won't ask for their help too! I announce that from now on, the Bai family will blacklist the North Wind Fund. We will make all the other pharmaceutical companies follow suit too! We will never collaborate with the North Wind Fund again! Let's see how long they can hold this up!" Yasmine yelled angrily.

When Felicity heard about the chain of nine other companies, she broke out into a cold sweat.

"I know why the North Wind Fund broke the contract."

She muttered, "The Bai Family would be dead!"

VAMP20 WORKS

Chapter 89

Everyone looked at Felicity!

Steven was so angry that he wanted to rush over to give her a slap.

He cursed angrily, "Can't you shut up if you can't say something nice? Are you cursing our family? I'm so going to slap you! Are you suggesting that without the North Wind Fund, we can't sail through this problem? We're just short of 20 million yuan!"

He cracked his knuckles and added, "On the contrary, not only will we not lose the 20 million yuan, but we will also get another 100 million yuan as compensation as they have breached the contract! We are making a profit! Can't you see it?"

Steven's explanation made everyone realize the reality. It was like a huge wake-up call.

They nodded their heads and were overjoyed. "Yeah, why didn't we think of it? They have to compensate us with a hundred million yuan! Haha, I'm so glad that the North Wind Fund breaks the contract. They are giving us free money. Money does grow on the tree, doesn't it? Steven, you're so great!"

The worried expression on the Bais disappeared right away. Instead, the atmosphere had become

lively once again.

Felicity and Xena exchanged glances, their eyes full of shock.

They knew that they were sharing the same thought at this moment. Something horrible was going to happen!

A domino effect!

The most terrifying chain reaction was about to take place!

The Bai family didn't even know that they were on the verge of a cliff!

Felicity didn't say anything. Xena sneered and reminded Steven and the Bais, "Don't get too happy, guys. Do you only see the money? Are you guys that narrow-minded?"

Yasmine's face turned livid right away. "Xena, what's wrong with you? Why are you talking nonsense? Felicity is indeed a bad influence on you!"

Xena shook her head and stared at Steven. "I only have a few questions that will definitely deserve you guys to ponder upon."

She cleared her throat. "Firstly, the contract with the North Wind Fund was the first one we signed, right?"

Steven nodded. "Of course. I couldn't start any of these without the North Wind Fund."

Xena asked again, "Okay, secondly, how did you sign the next few contracts and what benefits did you offer that?"

"I used the North Wind Fund's contract as a means to find the next one..." Steven answered without hesitation.

All of a sudden, his pupils dilated!

When everyone heard this, a chill spread through their bodies.

That was right! Steven had signed a series of contracts that started off from the North Wind Fund!

He used the contract with the first company as collateral so he could sign the next one.

Then he took the second contract to find the third one.

One after another...

The most horrifying thing had happened!

Now that there was something wrong at the first step...

The Bais would have breached all the subsequent contracts too. They would have to be responsible for these contracts.

Everyone's faces turned pale. They finally realized what the terrible thing Felicity and Xena mentioned was!

Xena's voice rang out again.

"It's true that the North Wind Fund broke the first contract, but we broke all the other contracts! We were the ones that loaned the contract to the others! Gone are all the deals we'd made!"

Xena rose from her seat and added, "Nine contracts! We've broken nine contracts in one go! That's 900 million yuan! Didn't I tell you don't get too happy?"

Felicity already knew it.

She had already realized this shocking fact.

Someone was deliberately pushing the Bai family to destruction!

Every tower was built by thousands of stones.

Steven had borrowed a large amount of money for the entire Bai family as 'stones' to rebuild their tower of glory.

However, now that the source of their money was cut off...

It was equivalent to taking away the cornerstone at the bottom of a tower.

The tower they built was like a pavilion hanging in the air.

It was going to collapse soon!

Who on earth would go against the Bai family?

The schemes of this man were simply terrifying!

If it weren't for this unexpected call from the North Wind Fund, the Bai family wouldn't have expected such a problem to occur!

The Bai Family was going to perish as a whole.

At this moment, the Bai family finally understood the seriousness of the matter.

900 million yuan!

They couldn't afford it even if they sold all their houses!

This one call had dragged the Bai family from heaven to hell.

The arrogance in Yasmine's eyes dissipated into thin air. She sat on the ground and burst into tears without looking after her image.

Steven poured a bottle of ice water onto his head. He had been defeated!

He thought that his plan would make the greatest strategy in the history of the business world.

But, at this moment, it had become a lethal plan that destroyed his family!

He had personally pushed the Bai family to the edge of the cliff.

On the other side of the room, Xena fell into a trance.

Oh, William, he was so cunning!

She admired William so much.

He was both wise and brave. He was so talented in so many ways!

However, there was another doubt in her mind.

Why did he do this?

If he wanted to vanquish the Bai family, he didn't need to go through all this trouble.

He could just make a simple move.

Moreover, she did not believe that her brother-in-law would do something so horrifying to the Bai family.

At this time, she looked at Felicity.

She had a strange idea in her mind.

Was William just doing this for the sake of Felicity...

If it was for Felicity, he would definitely leave a loophole in it: a solution!

Where on earth was this solution hidden?

Xena was so smart, but she couldn't find the loophole at all.

"Steven Bai, I'll kill you! You have brought this on the Bai family!" Yasmine roared as she stumbled to get on her feet before she went to Steven and clutched his neck.

It was an eyesore to see a family in such a mess.

The Bai family stared dumbly at Yasmine, who seemed to have gone mad. They did not even dare

to take a deep breath.

Steven was the key to success, but he was also the reason they failed.

Finally, someone decided to go over and restrain Yasmine.

Steven let out a few bouts of cough, completely stupefied.

"What should we do now? Our family is going to perish!" Yasmine sat on the ground and burst into tears again.

"The problem seems to originate from the North Wind Fund. Can we deal with them and figure out what they want? If we make a deal with them, we would be able to come out with a solution," Felicity said calmly.

Everyone was stunned.

That was right. They had to approach the North Wind Fund as it was the source of the problem.

They had breached the contract because of the North Wind Fund!

If they could find a way to secure the contract with the North Wind Fund, then they would be able to keep all the remaining contracts.

Yasmine immediately replied gratefully, "Felicity, thank you. You are the only one who knows what to do now. We will go to them immediately. No matter how much we have to pay, we must let

them continue to collaborate with us."

A glimmer of hope rekindled in Steven's heart, and he got up immediately.

But at this time, his cell phone rang again.

He took out his cell phone and looked at it. He was dumbfounded again.

It was a notification from the bank!

The North Wind Fund just transferred a hundred million yuan to his company.

They were really cruel and merciless! They did not plan to leave any room for discussion.

Seeing this message, the entire Bai family was dumbstruck again.

It was not about this sum of money.

It was because they knew that the North Wind Fund was determined to break the contract with them!

They had made up their mind not to make any future partnership with the Bai family even though they had to compensate them with this amount of money.

The North Wind Fund was going to tear down the Bai family to pieces!

The flame of hope that had just been ignited was extinguished in an instant!

"Why did they do this? What have we done to

offend them? What benefits will they get if they break the contract? Are they doing this just to pull us down?" Yasmine sobbed and flopped onto the ground.

On the other hand, Xena added another line that pushed the entire Bai family into a bottomless abyss!

Her words shattered every hope inside them.

"Did you all forget? We have to pay 200 million yuan to the Genuine Care Medical Clinic in three days."

She shook her head. "We don't have any money now. Besides, we have to compensate the other companies for breaching the contracts too. The pay is as high as..."

She covered her mouth and screamed, "One billion yuan!"

Chapter 90

Xena's words crushed the Bais right away.

They sat motionless, unaware of the time that passed. All of them were left in despair.

Wails and cries started to burst out among them.

They had to pay one billion yuan from breaking the contracts!

In total, it was 19 billion yuan!

19 billion yuan!

How could the Bai family fork out that amount of money?

Why would someone do this to the Bai family?

They were only one step away from success. How could this happen? The damage that the Bai family suffered was so great that it was irreparable.

When Xena said it, she couldn't help but shiver too.

Her brother-in-law was too cruel!

He exploited the possible side effects of the chain reaction that came from Steven's strategy.

All he had to do was to push down the first tile to stimulate a domino effect!

He didn't even need to make any more moves!

All the advantages that the Bai family had once had, at this moment, vanished into the air.

"Why? Why? Why did the North Wind Fund do this? What would they get from this? Why would they do this us when they can't get anything out of it?" Yasmine screamed.

Yasmine's words seemed to wake Felicity up. She said in a trembling voice, "Think about it. Is there any possibility that the ten companies that Steven called are under one person's jurisdiction? This is the only explanation for why the North Wind Fund would do such a reckless thing."

Everyone was stupefied.

Was this true?

What Felicity said was something none of them had imagined!

Was there really such a mighty, influential person in Qena City?

If there was, how could they not know about him?

However crazy Felicity's idea sounded, it was the only one that made most sense!

If the ten companies were under one person, then the North Wind Fund would not hesitate to breach the contract as it could make so much money out of it.

This mighty man could earn 900 million yuan right away!

Xena looked at Felicity in shock.

Felicity didn't know what was going on, but she was able to see through so many things!

Her intelligence far exceeded everyone in the room!

"Who on earth is this man? His scheme is so fearsome! Does he want the Bai family to disappear from Qena City?"

Another man in his forties gnashed his teeth. "People like him should be hacked into pieces when they go to h*ll!"

The Bai family members started to curse this unknown man.

Felicity couldn't help but sigh and shake her head. Now that the Bai family had been defeated, they looked so miserable and pathetic.

They had been using all kinds of tricks to deal with the Genuine Care Medical Center. Everyone in Qena City knew it.

Why wouldn't the Bais start reflecting on themselves? Didn't they know they were the ones who had stepped over the line?

Whenever they encountered any problems, they would always blame and vent their anger on others. The double standard was way too obvious.

At the thought of the Genuine Care Medical Center,

Felicity suddenly froze.

She had an even bolder idea that started forming in her mind.

Why would the Genuine Care Medical Center agree to the Bai family's unreasonable requests?

It didn't make sense at first.

But now that Felicity gave it some thoughts, it seemed to have joined all the dots!

Why did the Genuine Care Medical Center ask for the Bais to pay the 200 million yuan within three days?

The Bais didn't see the hidden agenda previously.

However, at this moment, Felicity finally knew that it was a trap!

If the Genuine Care Medical Center had been having ulterior motives when it included this extra condition, then there was only one plausible explanation!

The whole thing was secretly orchestrated by the Genuine Care Medical Center!

The person behind this was someone from the Genuine Care Medical Center!

The person who unified the ten companies was from the Genuine Care Medical Center!

Thinking of this, Felicity felt a sharp pain that rushed through her body!

The Bai family had provoked a devil!

They were going to pay a terrible price for their arrogance!

Despair washed over the Bais completely. They could not do anything at the moment but to return home.

They couldn't sleep through the night.

As expected, the problems started to blow out to another scale the next morning.

Felicity rushed to Yasmine's house as soon as dawn broke.

However, it was too late.

The door of the Bai family was already crowded by a group of people!

The courtyard of the house was filled with people too!

Xena pulled Felicity into the house and said with a serious face, "These people are from the nine companies. They come to us early in the morning with their contracts with us. They're here to ask us for compensation for breaching the contracts."

Felicity glimpsed at the crowd outside.

Some of them were dressed in suits and ties.

There were also a large number of people who had all kinds of hair-raising tattoos on their arms. Some of them were even wielding baseball bats in their hands. It was obvious that they were not here

for negotiation.

Yasmine was already in the room, looking as though she had lost her soul. She could not even mutter a word.

She seemed to have gained ten years of age overnight.

As the new head of the family, Steven looked like a coward, crouching in a corner, not daring to make a sound.

Felicity sighed. The Bai family was like a bunch of stray dogs that were being chased by the hunters.

She could no longer bear it. She decided to stand up for the Bais.

She shouted, "Stop, everyone. Stop! Can you send a representative to talk to us?"

It was strange. When she gave the order, everyone around her actually quieted down.

Those people looked at each other. Finally, nine people stood out in front of her.

These nine people were the representatives of the nine companies.

Felicity looked at them and apologized sincerely, "I'm really sorry. We don't know things would happen like this, but I promise that I will give you a reasonable and satisfactory explanation soon. Please trust me, okay?"

Felicity didn't sound convincing at all in her

speech.

But they just looked at each other before a person walked towards her.

The Bai family was shocked!

They had just witnessed the arrogance and viciousness in these people.

There were still marks of punches and kicks on Steven's shirt and body.

However, Felicity was so bold that she went towards these rascals. Didn't she know that she could very possibly be beaten to death?

Steven, at this moment, had a sinister look on his face!

He was pleased to see Felicity face these thugs herself.

Since Felicity had stood out, he could use her as his shield!

Felicity was shocked by the man's aura and took a step back.

But the man immediately gave her a gentle smile. "Miss Bai, we apologize if we make you scared. Whatever happens now has nothing to do with you. We'd appreciate it if you can make way for us."

After that, he shouted an order!

A group of people rushed forward, pulled Steven out, and roared fiercely, "Give us the

compensation we deserve! If you don't, we'll disable you!"

After that, they punched and kicked at Steven again!

Steven was being beaten up in the middle of the crowd.

This scene stunned every member of the Bai family.

They finally knew that this group of people must be coming for Steven.

"Stop fighting, stop fighting. I know I was wrong. Please let me go, please!" Steven was choking on his own tears.

"By the way, Felicity was also involved in this matter. It's her fault too. You should hit her as well." Steven suddenly reached out and pointed at Felicity.

Felicity's face froze!

Everyone looked at Felicity!

Her anger made her face turn pale right away.

How could Steven be so shameless?

Wasn't he the one who always took the credit from her? He was the one who always looked down on women!

Besides, Felicity had never been involved in this matter.

How could he frame her like this?

Felicity looked at the group of people and quickly waved her hand. "I didn't..."

But before she could finish her words, the crowd suddenly glared at Felicity fiercely. "Continue, guys!"

Hearing this, Steven was about to let out a sigh of relief.

However, his pupils suddenly dilated!

He was being attacked by them with countless punches and kicks again!

They put in more strength while beating Steven up this time.

Their eyes were sparkling with ruthlessness.

The excruciating pain penetrated Steven's skin till the core of his bone.

Chapter 91

Felicity was also stunned.

It turned out that this group of people only came for Steven.

Before this, Felicity still pitied him.

But now, she only felt that the beating had not been enough!

At this time, outside the courtyard, there was the loud sound of footsteps.

Everyone stopped punching and kicking, looking out at the incoming footsteps.

There were around sixty people rushing over in an aggressive manner.

The Bai family was shocked!

However, when Steven saw those people, he was overjoyed!

He mustered all his strength and rushed to the incoming crowd when his assailants were distracted.

Steven knew these people.

They were the pharmaceutical companies that had formed an alliance with the Bai family.

To Steven, these people were his most reliable allies!

His reinforcements had come!

"Those who attacked me just now, I'll make sure they get chopped into pieces!"

Steven stared at the fierce gang and said angrily, "You came just in time! Quickly! Help me teach them a lesson!"

"I, Steven Bai, swear that we must beat them down today! Else, I'm a dog!"

The Bai family widened their eyes.

Were these people their allies?

Could the Bai family actually be saved today?

Felicity and Xena huddled together. Their eyes were full of worry.

Regardless of whether the other group were allies or not...

The matter seemed to be escalating intensely!

Staring at the group that just arrived, the nine representatives asked, "Are you Steven's allies?"

The group nodded, and their eyes became ferocious.

Upon hearing this, Steven laughed madly. "Kill them all! Hurry up!"

The gazes of the representatives turned cold.

But the leader of Steven's allies suddenly said to Steven, "We can deal with them, no problem. But before that, let's solve a problem first."

"What problem?" Steven looked very displeased. He announced that they were his allies.

But in his mind, he regarded them as his servants! After all, the Bai family was an exclusive distributor, so these people were second class agents!

The leader of the allies suddenly flashed a playful smile. "I also have to ask you to fulfill our contract first, Mr. Bai."

"Contract? What contract?" The Bai family was stunned.

But when Steven heard this, his whole body suddenly trembled.

His eyes gradually lost focus.

Hearing the leader's demand, Steven suddenly thought of a shocking problem.

The group of people were indeed allies of the Bai family...

But now, the situation had changed.

Before this, he had signed agreements to onboard them as second-tier agents.

However, now, the Bai family had no money to even pay for an agent!

They had broken the second-tier agency agreement with the group of people!

Immediately, Yasmine fainted out of anger!

All the members of the Bai family felt completely numb.

They now had more than a dozen breached contracts.

The problem was so massive that they could no longer feel anything...

In any case, they were all doomed!

On the other hand, Xena's heart was beating wildly.

They made mistakes one after another!

The chain reaction was not over yet!

"William, oh, William, how many traps have you set?"

This time, the Bai family could not hold on anymore!

Upon hearing this, Steven's heart sank.

The group of allies had cruel looks on their faces!

"Since you don't have the money, we will vent our anger on you! You dare to fool around with us, right? You dare to take advantage of us, didn't you? Kill him!" the leader shouted.

Steven was instantly attacked by multiple fists.

He was beaten up so badly that his face almost deformed.

Felicity looked at him, feeling tormented.

She had foreseen this!

She had a feeling that the pharmaceutical companies in Qena City would not be so gullible!

Who did the Bai family think they were?!

They were so blind, arrogant and boastful.

Now, they had brought a huge misfortune upon themselves!

After beating Steven up, the group of people looked at the Bai family fiercely!

"Smash them!" the leader ordered.

A group of fierce people rushed into the house!

Felicity was so frightened that her heart beat wildly.

The incoming mob looked angry and ferocious!

However, Felicity was immediately stunned.

The group of attackers passed by her completely. They actually avoided her and went another direction.

It was as if they were trying to escape from her...

"Bang...Bang...!"

All of the items in Yasmine's home were being smashed into pieces.

After smashing all her belongings, the leader said to the Bai family ferociously, "I'll give you two days. If we don't get an explanation, you will be facing a worse outcome!"

The representatives from the nine companies also said the same thing, and then they left.

The entire incident happened like a terrifying dream.

Looking at the dishevelled mess in the home, Steven couldn't stop crying in front of the family.

It was a terrifying dream... A bloody nightmare.

The Bai family stood by Yasmine's side and finally woke her up.

When she woke up and saw the smashed house, she immediately burst into tears.

"What should we do? God wants to destroy the Bai family! Please think of a solution!"

No one dared to speak.

19 billion yuan!

In addition to the breach of contracts...

It had all added up to an enormous figure!

If the Bai family had the ability to turn back time, they wouldn't end up like this.

Xena, on the other hand, was lost in thought.

She knew that this was all because of her brother-in-law, William.

As the saying goes, "From the ashes, a fire shall be shall be woken." When everything was destroyed, there would be a chance at rebirth...

At this moment, the Bai family was finally at a dead end.

But she still believed that William would not really put them to death.

She had been thinking about the solution he had left for them.

What was the way out for the Bai family?

She had not been able to figure it out before.

But just now, she finally saw it.

She saw a solution!

The only way that could make the Bai family escape from death!

It was Felicity!

Xena sighed...

Since she had realized it, it was definitely a hint left by William for her.

Felicity might have realised it as well.

However, she couldn't say it aloud...

So, Xena had to be the one to suggest it...

"William, you really think highly of me!" Xena muttered internally.

Xena stood up with a bitter smile and said, "If the Bai family wants to survive, there is only one way."

Everyone was in despair, and Xena's words brought them hope. All of a sudden, they looked at

Xena delightfully

She took a deep breath and said, "Once I say it, please don't scold nor blame me. We should discuss it rationally."

"Quickly tell us. Why would we blame you?"
Yasmine grabbed her hand.

Xena looked at Felicity.

But Felicity avoided her gaze.

Hence, Xena knew that Felicity also realized what the solution was.

"It's Felicity! All our hopes are in her hands," Xena said, pointing at Felicity.

Everyone was stunned. "What do you mean?"

Xena explained, "As you saw earlier, the two groups of people were very aggressive to our Bai family. But they were so respectful to Felicity. She is our only hope. Let Felicity solve this problem."

The Bai family realized the truth, and gasped in shock.

Felicity had unexpectedly become their savior!

"If we want her to represent us, there's only one thing to do!" Xena looked at Felicity and continued.

"Make her the Master of the Bai family!"

Chapter 92

"What! Felicity? To be the Master of the Bai family?" Everyone screamed.

"No! That is absolutely impossible!" Steven cried out in anguish.

He had suffered so much earlier to get the position of Master!

How could he hand it over to someone else?

No, he just couldn't!

Yasmine immediately shouted, "No! Felicity is still too young!"

She felt a burst of anger inside, but she couldn't vent it out.

The Master of the family?

"Did they think that I'm old and useless now? So I can't handle the situation?" Yasmine fumed.

This was outrageous!

Felicity's eyes darkened. She had foreseen this.

She gently pulled Xena aside, but Xena was very determined.

William intended for her to do this. He gave Xena a hint from a distance, so she had to follow through.

"First of all, let me ask you, who dares to stand out

to represent us now?"

"Secondly, ask yourself. Even if you dare to do so, do you think the other party will accept our requests?"

"Two simple questions. If anyone of you is confident enough to represent our family, then we can forget about my suggestion. Anyway, two days will go by very soon!" Xena then grabbed Felicity's hand to leave.

But they were stopped by Yasmine immediately.

Yasmine looked at Felicity, her face filled with discontent.

However, Yasmine had to accept the reality!

Yasmine was a b*tch...

But she was not stupid!

The Bai family was on their way to their demise!

Yasmine had also noticed their enemies' attitude toward Felicity.

She didn't bring it up because she didn't want to admit it!

Now that Xena had announced it, Yasmine could only recognize the reality.

Only Felicity could save their lives!

"Even if Felicity represents us, she doesn't have to be the head of the family, does she?" Steven was still in denial.

However, Xena sneered. "If she is not the family head, what status does she have to negotiate with those 20 companies? She'd make them feel that our family is being insincere before she even starts speaking!"

"Secondly, if she doesn't become the head of the family, she is only a representative. At such a crucial moment, our family only sends a mere representative? What would they think of us?"

"In the end, if she weren't the family head, who else has the authority to make quick decisions when situations change? Could she purposely come back home to discuss it with us?"

The reason Xena gave was irrefutable.

They had to face the fact that Felicity had to be the head of the family. It was only appropriate to send her out as the leader, and not merely a representative.

Everyone was in dead silence.

Even if they didn't want to, they had to accept this reality.

They needed Felicity's help!

The firm look in Yasmine's eyes softened.

Seeing this, Felicity was a little grateful. She pinched Xena's little hand.

The head of the Bai family...

This was what Felicity had dreamed of since she

was a child, and she had been working hard for it.

Unexpectedly, her dream came true today.

Moreover, she had been ordered to do so in the face of danger.

If William knew that she became the head of the Bai family, how happy he would be....

When Felicity thought of William, her excited face suddenly froze.

William...

All of a sudden, a thought came to her mind!

In her mind, William was holding her hand tightly.

"Give me three months, I'll make you the head of the Bai family!"

"Six months later, I'll let you take charge of the pharmaceutical industry!"

"Within a year, I'll make sure you climb to the peak of Qena City's society!"

Every word was firm and confident!

Now, it had been less than two months!

And Felicity had become the head of the Bai family!

Thinking of this, she shuddered!

Could William have been secretly planning everything from the beginning?

William did all this to fulfill the vows he had made, by making her the head of the Bai family!

It was too much of a coincidence!

Felicity's eyes suddenly reddened.

If it was really his doing, then he had put so much effort and courage into it!

He was willing to create havoc and earn countless enemies just to fulfill her dreams...

This shocking thought flashed through Felicity's mind, and she immediately shook her head.

Although she hoped that William had done all this for her..

However, it was impossible.

Yes, William was capable, and he was smart...

However, if he wanted to do this, he would have to move mountains. Not only did he have to use great power, but he also would have to plan everything out in detail...

This was something that William could not achieve at all.

Felicity smiled bitterly.

Only then did she realize that she had kept everything William said to her in her mind.

Her expectations of him were crazily intense!

Just as Felicity was smiling bitterly, William was in the office on the top floor of the Genuine Care

Medical Center.

Lydia knelt in front of him.

She was completely shocked by what happened earlier.

It was a chain reaction...

William was really a genius.

An ordinary person could never figure this out!

He was a smart devil!

Melissa also shook her head with a wary smile.

She admitted that she had lost to William.

She reorganized the entire flow of events in her mind.

When he released the news from the Genuine Care Medical Center that they were looking for a deal, and the Bai family attempted to take advantage of them, William had decided to change the head of the family.

At that time, he purposely mentioned that he wanted to meet Baxter from the North Wind Fund. That was his first step.

Next, he led Xena to mention the North Wind Fund and Baxter in the meeting. At that time, the Bai family was already on the way to demise.

Then, William strategized the chain of events to lure the Bai family into trap after trap.

He then bribed the other pharmaceutical

companies to accept the alliance with the Bai family.

This increased the Bai Family's problems infinitely.

After that, everything exploded.

Like a balloon expanding indefinitely and eventually bursting... This was the fate of the Bai family.

After breaking the agreement with the North Wind Fund, the Bai family broke the contract with the nine companies, the Genuine Care Medical Center, and their allies.

Each step had to be tread carefully, and was full of obstacles!

At the most desperate moment, William planned an out for the Bai family. He purposely made all the enemies attacking the Bai family respect Felicity.

He wanted Felicity to turn the tide when the family were in danger.

The entire fiasco made everyone panic. It turned out that it was this "foolish" man in love, William, who paved the way for his woman.

This answer made Melissa scoff in exasperation...

This was how extreme a man's love for a woman could be.

He sacrificed everything to make his wife smile. He was a man who would drop a bomb on the world to win her heart .

"Felicity, Felicity, if you knew the whole truth, you'd know how crazy and affectionate he is to you."

For a moment, Melissa looked at William with an inexplicable sense of attraction.

Meanwhile, Yasmine finally sighed and said, "I agree that Felicity should be the head of the Bai family."

Xena and Felicity were delighted!

But what Yasmine said next immediately made them angry!

"But it's just temporary! Felicity, do you really think you can do it? Then you must make an agreement with me! You must solve all the problems smoothly, and not let the Bai family suffer any losses anymore. Otherwise, I will never let you assume the position of family head, even if I risk the life of our entire family!"

"If you can't do it, then you must kill yourself for the sake of the Bai family! But don't worry, I will die with you! Now, you are holding two lives in your hands. It's your choice!"
