

Chapter 163

Bernard's suggestion left everyone at the scene speechless!

Why did he say that?

The previous deeds obviously revealed the incomparable power and influence of the Genuine Care Medical Center.

Although Felicity had also shown her kindness to everyone earlier on, she was still inferior when compared with the Genuine Care Medical Center.

Why would Bernard make such a decision?

Bernard said in a cold voice, "Although the Genuine Care Medical Center is rich and powerful, the fact that they have monopolized the medicinal herbs cannot be overlooked."

"Only Felicity, from the beginning to now, has shown good conscience and benevolence that a pharmaceutical company should have. So, do any of you have any objections to my suggestion?"

Bernard's words were forceful and unyielding as if no one could oppose what he said.

There was a pregnant pause in the venue.

Well, they did not have any problems in accepting her to be the proposer.

After all, it would be easier for them to accept her

However, her chest was extremely stuffy now as though there were elephants weighing her down.

She finally knew what was wrong with William's reaction a while ago.

At the beginning of the press conference, no matter what had happened, William had been calm and collected. But, for no reason, he had become aggressive and unrelenting a while ago when he was bombarding Bernard with questions.

Obviously, he was trying to get on Bernard's nerves purposely!

Hence, Bernard would never support the Genuine Care Medical Center to take over the Zhaos to become a proposer since he despised William!

Other than the Genuine Care Medical Center, Felicity would be the only person who was qualified to take over the role.

Therefore, Bernard would naturally choose the second-best option, Felicity Bai.

It was because Felicity did not only have a good image, but was also a kind-hearted person. More importantly, she was a woman.

In Bernard's opinion, controlling Felicity was much easier than controlling the Genuine Care Medical Center.

This was what he wanted all along!

The little b*stard had laid out his plan clearly all

rather than the Genuine Care Medical Center to take over the role.

After all, Felicity had a good image and a heart of gold. There would be no problem for the public to accept someone like her to take the position.

But it was a shame that Genuine Care Medical Center couldn't take the spot.

In the end, the fact that they had monopolized the herbs had become their Achilles heel.

Otherwise, the Genuine Care Medical Center should be able to reach a much higher position if they could get an upper hand on this agenda.

Lydia sighed, feeling extremely depressed. "Ah, I'm afraid that the little b*stard has made a mistake. He was too arrogant."

Suddenly, Lydia found that Melissa's hands were extremely cold as she asked concernedly, "Huh, dear, what's wrong with you? Why is your hand so cold? Are you also feeling sad about the loss of Genuine Care Medical Center too?"

Melissa turned her head and looked at Lydia. She gave Lydia a pale, wry smile and whispered, "You think that the little b*stard had made a mistake? Hmph, this is the result that the little b*stard really wanted!"

Lydia was stunned.

Melissa didn't say anything more.

this while!

"No wonder he looked at me with that apologetic look earlier," Melissa thought.

He had turned the table beautifully a while ago, but his goal was clearly different from Melissa's. In the end, the Genuine Care Medical Center was only a stepping stone for Felicity.

"You little b*stard, you are stepping over the line!"

He had caused so much trouble in the city for the past few days, but in the end, it was all to help his wife!

He'd gone too far!

While Melissa was filled with fury, the Bai family was cheering!

They had initially prepared themselves to steel whatever storms that might come hitting on them.

However, things had been reversed and the biggest victory belonged to Felicity in the end!

Indirectly, the Bai family was also the winner!

Haha!

This was something that they didn't even dare to expect!

It was a blessing in disguise!

They were so excited that they clapped their hands in celebration!

The corners of William's mouth curled up as he

looked at the delighted and ecstatic Bai family.

"Huh, I'm afraid it's too early for you all to be happy."

Sure enough, Bernard took a vicious look at the extremely snobbish Bai family and said in a flat voice, "But I have one thing to say first, and please feel free to make any comment."

"Before that, the Bai family had already claimed that they had nothing to do with Felicity and her action of acquiring the Heption Herb. Thus, the fact that now Felicity has received her reward because of her kindness, the reward should not be shared among the Bais. Hence, the proposer should be Felicity alone and not the Bai family. Does anyone have any objection?"

As soon as Bernard finished speaking, the smiles on the faces of the Bai family members froze.

Did this mean that this honor had nothing to do with the Bai family?

What the f*ck!

Each and every one of them felt their blood was quickening with fury!

D*mn it!

"How could it have nothing to do with our family! She is a member of the Bai family!"

"Yes, all of Felicity's previous actions were executed under the guidance of the wise leaders

of our family. Our family should also share this honor!"

The members of the Bai family were about to swear.

However, the fiercer they cursed, the happier the crowd laughed.

Everyone had already had enough of the Bai family's attitude of casting away or betraying someone. They were always using Felicity as a pawn.

In a blink of an eye, almost everyone supported Bernard's words, declaring that it was an extremely wise decision.

The proposer would be signed wholly under Felicity's name and would have nothing to do with the Bai family.

It was a deal done. Yasmine was so angry that she was shaking from rage.

She glared at Steven and hit him with her walking stick. "It's all your lousy idea! You are the one who caused the downfall of our family."

Steven had been miserable because of what happened, and now that he was hit, he was even more furious.

What the f*ck was this old b*stard doing!

When he had brought up the suggestion earlier, why didn't she refute it then?!

"It was obvious that you were the one who made the wrong decision, and now you're putting the blame on me in the end!" He thought.

Felicity was pushed onto the stage with a confused look on her face.

For her, this felt exactly like a dream.

She was just an ordinary member of the Bai family, and there were so many others who were even more capable than her.

However, it just so happened that this unique honor was bestowed on her.

It was not until she signed the agreement and looked at her name on it that she dared to believe that it was true.

She looked at William with a hint of joy, her eyes sparkling with adoration for him. It seemed that she was telling William, "Aren't I awesome?"

She was so awesome that she had become the proposer of this agreement!

William nodded with a grin to show that he absolutely saluted her awesomeness.

Melissa who was standing by his side was once again forced to see their affection for each other. She felt dejected looking at them being lovey-dovey.

"Felicity, when will you realize that all the efforts and cost of your achievements are paid by this

little b*stard in front of you?"

"If you were to know about this, you wouldn't have shown such a silly smile!" Melissa shook her head.

"Your heart will break for this person who has been standing behind you silently. It is going to cause you so much pain!"

Thinking of this, Melissa looked at William again and sighed.

Alas, all William wanted to see was her silly smile. Perhaps, this was the reason he did all this for her.

"What a pair of couples! Tsk!"

After signing the agreement, Bernard held the agreement and said loudly, "Since we have signed the agreement, then it means that we, the Qena City Pharmaceutical Association, will stand together. From now on, we share common enemies. We will definitely not allow the existence of people who ruin the pharmaceutical industry of Qena City. We will put a stop to these people and end their work as a warning to the others!"

When Nathan and Lincon heard this, they were stupefied!

The retribution for their heinous act was finally here!
