

Chapter 18

Hearing William Lu's words, Felicity quickly waved her hand and said, "Huh? I didn't mean it at all. Besides, we can't afford to buy a house!"

William smiled and asked, "Felicity, isn't your birthday in two weeks' time?"

Felicity's eyes lit up. "You remember my birthday? Are you going to give me a present?"

William put on a mysterious smile. "We'll talk about it when it's time."

Felicity gave William a punch with a glum look. "Sigh, I thought that I can support our family financially for the rest of our lives. But, since Grandma has dismissed me from the company, it seems—"

William interjected, "It seems that I'm now the one who should take over your task and become the breadwinner of this household." William paused for a while and teased, "Sigh, it's not an easy task to be married into the Bai family."

Felicity pouted her lips and replied, "Hmph, are you grumbling about supporting me? There are so many people waiting in line to take care of me. Sigh, it seems that we have to find a job quickly."

William hesitated for a moment and answered,

"Felicity, you should take a break. In fact, I have found myself a job. I'm now working in the Genuine Care Medical Center."

Felicity's eyes widened. "What? Why do you work at the Genuine Care Medical Center?"

William replied to her with a smile.

A sudden thought flashed through Felicity's mind. "Oh yeah! Is Melissa trying to compensate you for taking the blame for her? She'd feel sorry for you."

William was speechless. "Well, you could put it that way."

However, unexpectedly, a hint of disappointment flashed across Felicity's eyes. "Alas, that woman looks prettier than me and is more capable than me. She is also good at seducing men too. If you were to work there..."

Looking at Felicity's cute, jealous expression, William couldn't help but pinch her nose and said, "Do you want to learn how to seduce me then?"

Felicity snorted, "If you cheat on me, I will definitely chop 'your thing' off."

Their so-called quarrel ended up becoming the catalyst that drew them closer to each other, warming up their hearts gradually.

The next day, Fernando was discussing the order he was about to give to the Bais with Yasmine, Rebecca, and the other members of the Bai

family.

He intended to threaten Yasmine with this so she would pressure Felicity and drive William away.

Just as Yasmine was about to agree to his proposition, Fernando received a phone call.

His expression immediately changed when the man on the other side of the phone told him what had happened.

"What? How dare the Genuine Care Medical Center break the contract with us! They want their medical center to close down, don't they?"

Yasmine and Rebecca were stupefied.

The Genuine Care Medical Center was going to break the contract with the Timber Group?

"D*mn it! How dare they accuse us of manufacturing and selling fake products!"

Fernando was so angry that he threw his phone away, his face turning livid.

This contract was the most powerful weapon he had against the Bai family.

However, at this moment, the Genuine Care Medical Center had turned their back against him and terminated their contract with his family.

Plus, they even slandered his family!

This was unforgivable!

Fernando immediately returned home to report this matter to his father.

Fernando's father, Harry Lin, smiled after receiving this news.

Harry knew that the Genuine Care Medical Center was no match for the Lin family if Harper was not on their side.

"I'll leave this to you, Fernando. It's going to be a good opportunity to train yourself up," said Harry.

Fernando nodded his head angrily. The rage within him roared like an untamable storm.

"Hmph, Genuine Care Medical Center! I have been kind to you but you are the one who crosses the line!"

"Spread my words immediately! We will hold a press conference at Milky Way Hotel tomorrow! I will be sure to erase the name of the Genuine Care Medical Center from Qena City!" Fernando instructed his secretary.

When Melissa heard about it, she almost went mad with anger.

To break a contract without prior notification itself was despicable enough. Besides, they even defamed the Lins for manufacturing fake products. It would be strange if the Lins chose to turn a blind eye.

Melissa could tell that the Lins had made their stand very clear by organizing the press conference the next day.

The Genuine Care Medical Center was going to be in serious trouble because of that little b*stard.

At this moment, William was sitting in front of Melissa. After she vented her anger, he mumbled, "Is the press conference going to be held at Milky Way Hotel? Since we are also planning to hold a press conference of our own, why don't we make it at Milky Way Hotel too? The more the merrier!"

Melissa was so angry that she felt that she was going to burst into a pufferfish.

Didn't this little b*stard realize how serious this issue was?

Did he plan to make the scene so big that even his ancestors would know about it?

However, William seemed to have made up his mind. He refused to give in. In the end, Melissa pulled Lydia and stomped out of the room in anger.

She could not stand staying in the same room with William at this very moment.

Felicity was resting at home when she received an unexpected call from Rebecca, asking her to go to Yasmine's house immediately.

When she rushed over to the house, all the members of the Bai family were already there.

All of them were looking at her with a sullen look.

After she clarified with them what had happened,

her expression changed at once. "The Genuine Care Medical Center breaks the contract and slanders the Lins? They're even going to hold a press conference at the same hotel as the Lins tomorrow?"

However, Felicity failed to notice a very important point hidden in Steven's words.

Rebecca sneered. "It seems that the Genuine Care Medical Center is looking for a death wish."

Felicity couldn't help but whisper, "William has just started working there. Should I ask him if he knows any inside story?"

Everyone was stunned.

That good-for-nothing was working at the Genuine Care Medical Center?

Hmph, how could he bite the hand that fed him all these years? What an ungrateful brat!

When Steven heard this news, he, however, immediately exchanged glances with Fernando.

Their eyes sparkled with cunning and slyness.

Fernando had lost his position in the Bai family after he failed to secure this order.

He didn't want to give up.

Therefore, he must make sure to win the battle the next day, regardless of how tough it was.

He had a perfect plan in his hands, which was to

bring the Bai family down together with his family. In this case, he could sing praises for his glorious victory if he won the battle. On the other hand, if he lost, he would not need to mourn over his losses alone.

He was going to use this way to tie the Lins with the Bais forever.

He said to Yasmine, "Grandma Bai, I believe you understand that it is the Genuine Care Medical Center who completely ignores the rules and openly challenges the Lin family. I trust your ability to tell who's to be blamed. The Lin family will not sit idly and do nothing. Tomorrow, the Genuine Care Medical Center will be doomed. However, I want to seek your support."

At this moment, Yasmine hesitated. In truth, this matter had nothing to do with the Bai family.

Besides, she could not forget the advice given by Mr. Wang who came from the research institute. He told them to build a good relationship with the Genuine Care Medical Center.

Fernando's eyes turned cold at once. He added, "Don't worry, Grandma Bai. I've got my father's full support to hold the press conference tomorrow. The chances of our success are 100%. I can assure you if you join arms with us in this battle, which we will certainly win, the Lin family is going to give a ten-million-yuan contract to the Bai family."

Yasmine was almost swayed by Fernando's proposition. She knew that Fernando was trying to get on their good sides. He was planning to use the reputation of his family to bring the Bai family more wealth.

She knew very well that Fernando was just making up an excuse to tie himself up together with the Bai family.

"Are you sure that you're going to win them?" Yasmine asked.

Fernando nodded. "I swear in the name of my ancestors."

Yasmine slammed the table and exclaimed, "Okay, I give you my words! We'll march along with the Lin family tomorrow!"

For the Bai family to regain its long lost glory!

Felicity could not help feeling a little uneasy.

She felt that it was not as simple as it seemed to be.

Felicity went back home after the meeting was over. However, she could not stop worrying.

All of a sudden, she received a call from Steven.

His sweet talks confused Felicity about his real intention of making this call.

After a while, only then he asked, "Did you just say that William is now an employee of the Genuine Care Medical Center?"

Felicity answered his question.

"Haha, Felicity, I have a favor to ask from you. Word has it that the Genuine Care Medical Center has just released a really good beauty product. You know that your sister-in-law always pays a lot of attention to her face. She's been bugging me to get one for her. Can you ask William to bring a bottle for your sister-in-law? But don't tell William I am the one who asks for it. He doesn't seem to have a good impression of me."

Felicity hesitated.

However, after giving it some thought, she still agreed to Steven's request. "I'll talk to William."

If she could take this opportunity to make the relationship between William and the Bai family to be any less tense, it would be a good thing.

When William received the call from Felicity, although he was slightly taken aback, he did not suspect anything. "No problem, I will take it back to you later."

Melissa, on the other hand, was smoldering with anger. "What an uxorious man you are! How could you think of your wife at this moment? Don't you know we are only a day away from the press conference? As soon as the reporters write these stories on the news, our reputation will be ruined! Do you know how difficult it is to deal with those reporters?"

As if he was being enlightened by her, William exclaimed, "Oh, you're right! Get one hundred female reporters here now. I'm going to bribe them."

Melissa's face turned cold instantly.

This little b*stard was hopeless!

Like an impetuous teenager, he had been acting recklessly. Now that there was nothing he could do about it, he was going to resort to bribery!

What a crafty and scheming man!

She could not help thinking, "Forget it! Although I have to sacrifice the clinic, I'll use this chance to discern who you really are, William Lu!"

After the next day, they would have nothing to do with each other.

Melissa glared at William angrily before she turned around and left the room.

However, William turned to Lydia and asked, "Can you do me a favor?"

Chapter 19

On that night.

Fernando gave an order to his company. This was an order that all employees must follow strictly.

He instructed them to grind all their products into powder.

Fernando personally supervised them as various herbs were grounded into powder and mixed with each other. His eyes were as cold as ice.

All pharmaceutical companies would cut corners and skimp on the materials and ingredients.

Fernando would say that the Timber Group was the one who still had some conscience. When it came to using herbs, they combined parts of the quality herbs with those that were less quality. In fact, ninety percent of their products were of good quality. Only one-tenth of them was fake.

Even if an expert came, he wouldn't be able to realize the ingredients they used were fake unless he scrutinized it very carefully.

Now that all their products were already in powder form and were mixed together, no one would be able to tell them apart, not even a god.

Fernando sniggered and thought, "Genuine Care Medical Center, how dare you guys trying to frame

us for making and selling fake products! I'm afraid that it is going to backfire on you!"

After a while, Fernando received a phone call. "Young Master Lin, I've got the product. I also bring a piece of good news for you. We wanted to reformulate their ointment, but it turns out that the ointment itself is already poisonous. Hahahaha! It's so funny! Even God is helping us!"

Fernando's lips curled into a grin.

Haha, even God was helping them!

"You would not believe what I am going to say next! The Genuine Care Medical Center has actually invited countless reporters from the entire city to go to their place. It seems that they are going to bribe these reporters. Just think about it, if we leak out this information tomorrow, how shocking will it be?"

Fernando couldn't help laughing out loud.

He was over cloud nine.

At this moment, he knew that he was not going to lose this battle.

Besides, he had such valuable information on hand!

The next day, he was going to use the Genuine Care Medical Center as a stepping stone and become the greatest emperor in Qena City!

On the evening of the next day, Felicity received a

phone call from her family. They asked her to go to Milky Way Hotel immediately.

After hearing this, William said with a smile, "I'll go with you. I am on my way to there too."

Felicity lowered her head and said, "It's going to be chaos today. The Genuine Care Medical Center, the Timber Group, and the Bai family will definitely make a mess. I'm afraid that you..."

"Don't overthink it. Let's go." William went out of the house while putting on a Bluetooth headset and sped towards the hotel with Felicity.

The two of them arrived at Milky Way Hotel soon. They took a deep breath before they stepped into the hall.

They were greeted by two huge booths in the hall. One was going to be used for the press conference of the Timber Group while another would be for the Genuine Care Medical Center to launch their new product.

The two booths were built right opposite to each other.

Obviously, they were declaring a war against each other.

A lot of reporters had set up their equipment there. The battle which was about to unfold was going to be the most spectacular one in Qena City in recent years.

Although Harper, the man who was in charge of the Genuine Care Medical Center, and Harry from the Timber Group had made it clear that they would not participate in this event, many reporters and busybodies still came and crowded the hall.

Rows of chairs were placed neatly below the stage with a distinct gap between the two booths.

One could tell if a person was a foe or a friend from the seat he chose.

Felicity stared at the sign of the Genuine Care Medical Center as the uneasiness in her heart grew stronger.

Launching a new product...

William did not tell her that the Genuine Care Medical Center was going to hold a press conference to launch its new product the previous day.

As Felicity's brows furrowed, she heard Rebecca's voice from her side. "Felicity, come here quickly."

Felicity turned her head and saw all the members of the Bai family, including Yasmine, were already seated with the Timber Group.

They had made their stand very clearly.

Felicity glanced at William.

William replied to her with a smile, "It's alright. Join them. I don't want to make things difficult for you."

Felicity forced a smile. "Aren't you joining us?"

"I am an employee of the Genuine Care Medical Center." He paused for a while and joked, "You don't want to see me being fired as soon as I got a job, do you?"

Felicity nodded and reminded him worriedly, "Try to stay low later, alright? I'm worried that you'll get involved in this mess."

William said with a smile, "I get it. Go and join them now."

Only then did Felicity go and sit with the Bai family.

When Rebecca saw William walking toward the Genuine Care Medical Center, she sneered and said, "What a traitor! I can't believe that we have raised a back-stabber!"

Melissa was furious when she saw William take his seat below the stage.

What a little b*stard! He was the one who caused trouble. How could he leave her alone on the stage to face all these consequences alone?

Couldn't he please be a decent gentleman and help her out?

As soon as William sat down, he closed his eyes. There were not many people who chose to side with the Genuine Care Medical Center. Compared with the crowd the Timber Group had, they seemed so helpless.

Melissa couldn't stand it anymore. She wanted this press conference to be over as soon as possible.

Regardless of the reporters and guests present, she started the press conference for their new product. It successfully attracted the reporters.

Felicity's heart skipped a beat when she saw the newly-launched product of the Genuine Care Medical Center.

Wasn't that the beauty product that William gave her the previous night?

She handed it over to Steven, who was also present at this very moment.

Could he be scheming something behind her back?

At this moment, Fernando showed up as well.

Steven and he walked side by side and took their respective seats on the stage.

Felicity also saw Mr. Wang of the Rx Pharma slowly walk up the stage and stand beside them.

It seemed that the battle was going to unfold...

It would not cease until one party admitted defeat.

Fernando stared at the other side with total contempt. He crossed his legs while waiting for Melissa to finish her introductory speech on their new product.

Then he declared pridefully, "Alright, let's start since they have finished their speech."

He paused for a moment and chortled, "Haha, what a coincidence! We are going to reprimand the Genuine Care Medical Center today for their unethical behaviors. Why don't you stay and join us since you're here?"

Melissa was frozen to the spot on the stage, undecided if she should leave or stay. She gave an angry glare at William who was under the stage.

"Yesterday, the Genuine Care Medical Center had terminated their contract with them. We demand a reasonable explanation from them. If they could explain themselves well with sincerity, we would choose to move on from this issue and try to be more understanding given our previous collaboration and partnership. However, we do not expect that they would actually make up lies about us manufacturing fake products. They have crossed the line and taint our image as medical practitioners. I'm going to make three announcements today!" said Fernando righteously while he stood up from his seat.

"Firstly, the Timber Group has sworn to always produce authentic medicinal products. Hence, we have invited Prof. Michael Wang from the Rx Pharma. His reputation and prestige in Qena City are unquestionable. Shall we let him examine our ingredients today?"

Everyone looked at Mr. Wang and nodded in agreement.

Mr. Wang was indeed one of the top experts in the pharmaceutical industry in Qena City.

If he declared something to be authentic and real, then it must be true.

On the contrary, if he claimed something to be fake, then it must be fake.

"Bring them in, please!" Fernando shouted.

At this time, a lot of people walked onto the stage with countless bottles and jars in their hands.

Everyone was dumbfounded. What was Fernando doing?

"These are the herb samples that were randomly selected just now from our company under Mr. Wang's supervision. Mr. Wang would be able to prove this," Fernando said.

Mr. Wang nodded. "These are indeed samples I picked an hour ago."

Melissa could not help frowning when she saw the herbs Fernando brought. She mustered up her courage and questioned, "How could you grind all the herbs into powders? You're obviously trying to mislead the public as you dare not show us the actual herbs for cross-examination."

Fernando's mouth curved into a smile. "Haha, these are part of the standard operations the

Timber Group employs. In order to ensure the efficacy of the herbs, we always grind them into powders. Do you have any questions regarding our procedure?"

Stunned by Fernando's answer, Melissa clenched her fists and mumbled helplessly, "No."

The Genuine Care Medical Center would be able to slip through the net if they could identify at least one fake herb in their products.

However, at this moment, all the herbs were all already smashed into powder. It was clear that they came prepared.

William was indeed a b*stard! Melissa really wished to tear his stinky mouth apart!

"Mr. Wang, please lead the other experts and examine the compositions of our products."

Fernando invited Mr. Wang with much respect.

The experts immediately split up and began to test the herb powders in different bottles.

A heavy silence hung in the air.

Melissa's heart was about to jump out of her throat.

After half an hour, Mr. Wang finally finished examining all the herbs.

What he said made Melissa feel as if she had fallen into a giant freezer.

"I now declare that all the herbs used by the

Timber Group are authentic!"

VAAAMP2.0 WORK

Chapter 20

All of a sudden, the crowd burst into an uproar!

Since Mr. Wang had verified that all herbs used by the Timber Group were authentic, this proved that the Genuine Care Medical Center indeed attempted to ruin the reputation of the Timber Group by spreading groundless rumors.

"What's wrong with the Genuine Care Medical Center? How could they falsify stories and say the Timber Group manufactures fake products? Has their conscience been eaten by a dog?" One of the guests shouted.

A reporter then added, "Since Mr. Wang has cleared the rumors, we now know that the Timber Group was framed. It's time for us to see how the Genuine Care Medical Center is going to explain themselves!"

Melissa glanced at William who was under the stage. His eyes remained shut as though all these criticisms had nothing to do with him.

William deserved to be sliced into a thousand pieces!

Melissa yelled secretly, "Why should I take the consequences for your actions after you have vented your anger?"

She took a deep breath and whispered in her heart, "If you are a man, come on stage now!"

"Man up! Challenge them and prove your own claim!"

Melissa glared at William disappointedly, feeling devastated, and with an apologetic tone, she mumbled, "I'm really sorry, the Genuine Care Medical Center has made—"

Fernando interjected Melissa's apology, "Hmph, are you going to apologize to us? Wait a moment. I am not done yet."

Fernando was not going to let her off the hook so easily.

From the moment the Genuine Care Medical Center offended Fernando, he had made up his mind not to let them go until he drove them into a corner.

They should wait and receive their death sentence.

Fernando still had a few trump cards on his hands.

"Fernando, what on earth are you trying to do?" Melissa roared.

"Calm down. I'm just telling the truth. So the first thing that I have proved is, the Timber Group, as one of the pharmaceutical companies, has always acted ethically. We never make fake claims and

we are never afraid of any form of accusations!" Fernando's passionate speech made the crowd roar. They could not stop applauding him.

The applause left the Genuine Care Medical Center in utter helplessness and isolation.

"Secondly, I would want to show everyone a video clip recorded on a surveillance camera." Fernando pointed at the LED screen on the stage.

On the screen, everyone could see the front door of the Genuine Care Medical Center.

It was a recording from the previous day.

Many people walked into the Genuine Care Medical Center, one after another.

The expression of the guests who were present immediately changed upon seeing this.

A few people had already recognized the man in the recording.

"Isn't this Reporter Zhang from the Qena Finances?"

A guest added, "This is Miss Wu from the health channel. I often watch her program."

Melissa froze. Her heart skipped a beat.

This was exactly what Melissa was afraid of.

She knew that William could never hide the fact that he had bribed reporters the previous day.

Look, Fernando had secured the evidence!

The Genuine Care Medical Center would never be able to survive in this disaster...

"I believe everyone has already recognized the people recorded in the video. Besides, I guess many reporters who are present today are also well aware of it, right? In order to sway the public, the Genuine Care Medical Center had openly invited reporters and bribed them yesterday. Hmph, they have clearly failed to observe the code of ethics in the field of medicine. They are trying to win the market by cheating and creating rumors. I believe that the Genuine Care Medical Center is no longer qualified enough to practice medicine!" said Fernando, his speech eloquent and powerful.

Everyone who was present was enraged.

"Young Master Lin is right! It will be a disaster if all the doctors in Qena City behave unethically like them!"

"I suggest requesting the relevant authorities to start a formal investigation on the Genuine Care Medical Center and send these corrupted doctors in jail!" One of them shouted.

"I support Young Master Lin! The Genuine Care Medical Center should be closed down as soon as possible so they could never harm us anymore!"

"Look at that beautiful woman on the stage. I don't expect her to be so scheming and cunning. She

must be the most wicked woman in this world!"
The endless criticism made Melissa's eyes turn moist.

For the last twenty years, she had been a law-abiding and ethical doctor. Why should she be humiliated like this?

Why should she be insulted for William's sake and his own interests? Why should she take this for his ignorance and arrogance?

Alright!

William Lu!

Melissa glared at him and thought, "You are not going to man up, aren't you?"

"I am going to shoulder this on your behalf then!"
Melissa gritted her teeth.

Melissa tried to hold back her tears as she bent down and bowed to the crowd.

However, at this very moment, someone stopped her.

She looked up and found it was Lydia.

Lydia's face was written with fury. "Sister Melissa, wait a minute. They are going to drop another bigger bomb on us."

Without surprise, Fernando continued, "Alright, that's the second issue I would want to bring out. Despite its name, the Genuine Care Medical Center has taken the wrong path and

embarrassed all of us in Qena City."

At this time, Mr. Wang was carefully studying William, who had been keeping quiet under the stage with his eyes closed. Mr. Wang wanted to help the Genuine Care Medical Center and said, "Young Master Lin, although what the Genuine Care Medical Center did was indeed dishonorable, the center has always provided excellent medical services to the public while devoting itself to research..."

However, Fernando interjected Mr. Wang without hesitation. His words made Mr. Wang's expression change right away.

"Mr. Wang, you don't have to put in a good word for them! Well, do you really think so highly of their medical services? Hmph, this brings me to my third point, which is related to the medicines they provided to the patients. Does everyone remember that they are actually launching their new product today?" Fernando asked, his eyes narrowed into slits.

Everyone nodded.

"A new product, huh? Is this new product as amazing as they claimed? I'll prove it to you! Bring her over!" Fernando instructed.

A woman who covered her face with one hand while holding a bottle of green ointment in her other hand walked up to the stage, wailing.

Fernando pulled her hand away from her face and the crowd immediately burst into an uproar.

There was a huge cyst on the woman's face!

It looked exceptionally disgusting!

"As you can see, this is the effect of the Cherry Blossom produced by the Genuine Care Medical Center. Hmph, do you guys dare to try it?" Fernando asked.

All of sudden, Lydia shouted out of anger. "F*ck! You are talking nonsense! I don't even know where you got this. How dare you claim that it is produced by us! You are the one defaming us!"

"Where I got the ointment, you ask? Hmph, I will let Steven explain it on my behalf." Fernando looked at Steven, who had been grinning and keeping quiet.

Felicity had been furious throughout the session. However, her mind immediately went blank upon hearing this.

She realized how stupid she was!

Of course, she knew where this bottle of ointment came from!

Steven!

The previous night, Steven used the name of her sister-in-law and asked Felicity to get this ointment from William.

The Bai family was using William and her.

Thinking of this, Felicity felt as if someone was gouging at her heart with a blade.

Felicity glanced at William apologetically. She wanted to apologize to him.

However, both William's eyes and lips remained shut.

"I got this bottle of ointment from William Lu, who is also present here today. He's an employee of the Genuine Care Medical Center. Does my answer clear your doubt?" Fernando asked pridefully.

With this bottle of ointment, he could crush the Genuine Care Medical Center and make them disappear from the surface of the earth.

Felicity couldn't hold it in anymore. She yelled, "Steven!"

Steven, however, did not even give a glance at Felicity. He even felt empathetic for this stupid woman.

She was used by him and she didn't even know that until this very moment.

"You used me!" Felicity glowered at the Bais.

Xena was the only one who shook her head with a worried face. All the other members of the Bai family were giggling.

So far, the Bai family and the Lin family had joined forces and made a complete victory!

There was hope for the Bai family's revival!

"I believe there's still more of these ointments in the Genuine Care Medical Center. We'll find out more once we start our investigation," said Steven.

But at this moment, Lydia replied coldly, "No, we do not have one, not even a bottle."

Steven burst out laughing. "Do you see that? The Genuine Care Medical Center has destroyed all the evidence. The so-called new product has never existed. What a joke! Are you trying to make a fool out of us?"

"Did you guys see that? The Genuine Care Medical Center is so evil that it develops a drug that is harmful to humans. Do you guys dare to use this kind of ointment? What an immoral, deceitful clinic! We should never let them loose!" Steven screamed loudly, imagining himself as an emperor who was leading the crowd to slaughter a villain.

This felt so great!

It took the crowd one second to compose themselves before they left the hall in anger.

"I can't believe that I have put in so much faith in the Genuine Care Medical Center. I will be the first one to boycott them!"

"Yes! Get out of Qena City, you murderer! Qena City doesn't need a dishonest clinic!"

Some people even threw the mineral water bottles at Melissa.

Tears streamed down Melissa's cheeks right away.

She didn't expect things would turn out this way. They had been completely defeated.

The Genuine Care Medical Center had become burned into a pile of ashes by Fernando's accusations. Her reputation was also ruined too.

Melissa cried, "Grandpa, is this what you want to see?"

She gnashed her teeth. "William, I hate you!"

But at this moment, someone whispered, "Hmm, I don't think we should jump to the conclusion. After all, all these claims were made by the Bai family."

Steven burst out laughing. He was enjoying himself as if he was being worshipped like a king. How could he let it pass?

"Do you want me to prove it? Well, I'll prove it to you! Introducing you to my witness—"

"Felicity!"

Felicity's heart skipped a beat. She looked at Steven in disbelief.

"I got this bottle of ointment from William's wife, Felicity. You guys should trust her words, right?" Steven said.

Everyone looked at Felicity.

Felicity felt suffocated, as if the world had come to an end.

She could not believe it.

Steven wanted her to speak for him.

To make her husband a traitor!

The Bais were so cruel.

Didn't they know that both William and she were innocent?

Didn't they know that she was also a member of the Bai family?

How could they make William and her become each other's enemies?

Like molten lava, anger rolled through Melissa when she saw this scene. Her grievance dissipated at once.

What a family!

They clearly knew that Felicity and William loved each other deeply. However, at this moment, the Bai family asked Felicity to stand out and testify against William!

If she didn't do it, Felicity would not be able to stay in the Bai family anymore.

But if she told the truth, she would have to bid goodbye to her relationship with William.

The vilest and most vicious one was none other

than the Bai family!

Felicity looked at them helplessly.

All of their eyes were full of mockery. It seemed that they had been waiting for this moment for a long time.

Yasmine stood up and said coldly, "Felicity, prove it to everyone! Do you want to humiliate us?"

Felicity's mind was in chaos.

Her heart was bleeding.

Were they forcing her to make a choice?

Alright!

She would make her choice and show it to them then.

Felicity's tears coursed down her cheeks.

She was choking with sobs. But she meant her every word.

"You want to hear my testimony, don't you? Okay, listen up!"

She paused for a while and continued, "I'll keep this short!"

"I brought this bottle of ointment from my husband!" She looked at them with anger.

"It's a shame for me to be born in the Bai family!"

"This is what you want, isn't it?"

As soon as Felicity finished her words, her tears

rolled down her face. Everyone was stupefied. She marched away from the Bais.

Then she strode towards the Genuine Care Medical Center.

She wanted to go to the only person who cared about her the most in this world.

She took a seat at the side of the Genuine Care Medical Center as the crowd chattered in shock.

She sat right beside William.

She threw herself into his arms and burst into tears.

"William, I'm sorry! I have hurt you!"

The crowd was so shocked by this scene that they forgot to breathe.

What a faithful, loyal woman!

At this time, William, who had been keeping silent, finally opened his eyes.

Like a wolf stalking its prey, his eyes sparkled with rage.

There seemed to be a surge of anger in his heart.

Despite being stared at by others, he hugged Felicity and gently kissed on her forehead before he strode onto the stage.

Lydia, who had been on the stage, yelled.

"Are you guys done?"

"So now, it's our turn to talk." Lydia glared at Fernando.

"Let's welcome the new owner of the Genuine Care Medical Center!"

She stretched out her hand and continued, "William Lu!"
