

The Charismatic Charlie Wade Chapter 1716 – 1720

Chapter 1716

These four people were covered with black equipment from head to toe, black hats, black robes, black shoes, and even black gloves on their hands.

Moreover, this kind of black equipment is very different from ordinary black cloth. The ordinary black cloth is only black, but the black on their bodies is completely super black, like a black hole.

In fact, the reason why this black equipment has this effect is mainly because a layer of ultra-black material with extremely low light refractive index is attached to the outside.

The scientific name of this super-black material is carbon nanotubes, and its reflectivity to light is only 0.035%, which is 3.5/10,000, which is the darkest material that humans have made so far.

The clothes are coated with this material. In a poorly lit environment, to the naked eye it is almost completely unclear. So for ninjas who are good at hiding, this high-tech material is simply their gospel. Wear such clothes. , The ability to hide them has increased exponentially.

At this moment, one of the men said: “Brother, the guy paused for a second before getting into the car. I looked through the binoculars. He seemed to be looking at us. Could we be discovered by him?”

The black-clothed man he called his senior said coldly: “You are just f@rting! The straight-line distance between us and him is more than 800 meters, even beyond the effective range of most sniper rifles, and our location, altitude About thirty meters taller than that guy, how could he find us?”

“That’s right!” The man on the far left sneered, “This kid is nothing more than a little fight. It is estimated that he is a Chinese master, but the internal power of their master is not supernatural. At most, he is most powerful. No Maybe you can find us even this far away.”

The person asked before, “Brother, the Patriarch does not let us do anything to him now, what shall we do now?”

The brother said, “My second son and I followed the convoy with a powered paraglider. You two drive, and on the radio follow my command.”

The other three agreed in unison.

Immediately afterwards, the brother and the other person pulled a set of powered paragliders also painted with super black material from the roof.

Afterwards, the two men started the engines of the paraglider, and after the dark paraglider was blown up by the wind, they took off directly from the roof and disappeared into the night.

At this moment, Charlie in the car frowned.

Just before getting into the car, he keenly felt that there were people lurking around.

After all, he obtained the good fortune of the “Nine Profound Heavenly Scriptures”, and occasionally got spiritual stones and auras in his body, and then used Rejuvenation Pills as snacks. Not to mention his strong strength, his perception ability is much stronger than ordinary people.

Those four people were on the top of the building in the distance. Not only were they very hidden, they also controlled their breath very well, but they still didn’t hide from Charlie.

Charlie couldn’t help thinking about it in his heart.

First of all, these four people are hiding in the dark, they must be unkind, and ninety-nine percent of them are coming to him;

Secondly, these four people should all be relatively strong masters, not ordinary people;

Again, these four people are very good at hiding their whereabouts.

Therefore, based on the analysis of these three points, he felt that the four people should be the famous ninjutsu masters in Japan, that is, ninjas.

And their master must be the Takahashi family who he just offended!

Chapter 1717

At the same time, two dark silent paragliders are flying fast at an altitude of two hundred meters.

This silent paraglider uses a lithium battery to drive an electric engine, so there is no noise generated when the engine is running.

Moreover, the fan blades of the paraglider have been carefully designed, and the air noise during high-speed operation is also very small.

Using equipment to make up for the lack of strength is also the consistent development direction of Japanese ninjas.

In the early years, Japanese ninjas not only had to practice ninjutsu hard, but they also had to be proficient in chemistry, because they needed to prepare a variety of strange equipment.

On TV, the ancient ninja dropped a ball on the ground, and smoke was instantly ignited. After the smoke disappears, people also disappear. This is not a fictional scene, but a real existence in history.

The round ball used by ancient ninjas is actually a mixture of smoke bombs and flash bombs made with the earth method.

When the explosion occurs, the instantaneous strong light will make the opponent's vision temporarily blind, and the smoke is an excellent cover for retreat, so when the opponent's vision recovers and the smoke clears, the ninja will have run away long ago.

Ninjas are like chameleons, very good at hiding their whereabouts according to their surroundings.

When the target feels that they may have run away, they may hide on the beams of the house, or hide behind the target, or hide in the water, using the thin bamboo strips used to blow arrows to ensure breathing.

Modern ninjas integrate scientific and technological achievements into ninjutsu, which gives them better concealment capabilities.

For example, the super black materials on them, such as this paraglider, are their modern methods.

At this time, the two people on the paraglider were communicating with each other through wireless intercom, and one of them said: "Brother, should we control the distance a little bit? So that the other party will not find us."

"Impossible." The senior said very confidently: "Our current height is two hundred meters, and the straight-line distance from them is almost one kilometer. At such a distance, they can't hear any sound at all, nor can they see anything. Clue, even if the person directly below us looks up, it is impossible to spot us!"

The headed ninja thought he had achieved perfection, but he did not expect that Charlie still noticed the two of them.

After realizing that he was being observed at by the two, Charlie couldn't help but smile sarcastically.

It seems that these ninjas intend to bite him and not let go.

I just don't know when they are going to do it on him.

Not only did Charlie not worry about it, but faintly expecting it.

When he was young, he watched some ninja-related movies and TV series and cartoons, and he was still a little interested in the profession of ninja.

Therefore, he also wanted to compete head-on with Japanese ninjas to see what level of ninja Japan boasted for thousands of years.

So he decided not to change any of his next plans, but always pay attention to the movement of these four ninjas to see what they want to do.

Twenty minutes later.

The convoy stopped downstairs in the building of Ichiro's house.

Charlie entered the building with everyone and came to the top floor.

At this time, two ninjas riding powered paragliders were hovering in the night sky above the building, and the other two also drove downstairs.

Chapter 1718

The leading ninja observed the surrounding environment and saw that the Aman Hotel was not far from this building, so he immediately ordered: "Second, we fell on the top of the Aman Hotel to watch each other, the third, the old Fourth, look for a suitable place to hide downstairs and closely monitor the target first!"

In the intercom, the voice of three people immediately came: "OK, brother!"

The two pitch-black paragliders slowly lowered their height, and finally landed on the roof of the Aman Hotel. After landing, the leading ninja immediately called Eiki's father Machi Takahashi.

Machi Takahashi is in the hospital at this time. His eldest son, Eiki, is still undergoing surgery to implant a steel plate.

After receiving the call from the other party, Takahashi Machi immediately asked, "Mr. Fujibayashi, how is the matter going?"

The one called Mr. Fujibayashi is the leader of these four ninjas.

His name is Tenglin Zhengzhe, and the Tenglin family is one of the four famous ninjutsu in Japan.

In the development of Japanese ninjutsu, there was once a master of ninjutsu named Tengwu.

This Tengwu was once a celebrity of the Tokugawa family, Japan's top family.

In 1676, he wrote a book called "Wanchuan Jihai", which combined the martial arts essence of famous Chinese and Japanese masters, and also referred to the famous "Sun Tzu Art of War" and "Tai Gong Art of War" in Chinese history. "This book was later regarded as the encyclopedia of ninjas.

Since its beginning, the Tenglin family has gradually become Japan's top ninjutsu family.

And Tenglin Zhengzhe is the heir of this generation of Tenglin family.

In Japan, ninjas have always been dependent on top-notch families to survive. There were a large number of ninjas who worked for them in large Japanese families and under the shoguns during the Warring States period.

Although modern ninjas are becoming rarer and rarer, the true masters of ninjutsu are still attached to top big families.

This is mainly because the ninja family lacks sufficient earning power, and modern society is becoming more and more secure and more emphasis on the rule of law, so they cannot make money by killing people and by arson, so they can only continue to adhere to the big family and become A master enshrined in a large family.

Said to be worship, in fact, it is captive.

Raising ninjas in captivity, giving them enough money, enough respect, and letting them work for themselves is also a common hobby of large Japanese families.

Tenglin is a master of the Takahashi family.

On the phone, he reported to Takahashi: "Mr. Takahashi, we have tracked down that guy's address, which is opposite to the Aman Hotel in the city center. Now I am closely monitoring him on the roof of the Aman Hotel. Waiting for your next instructions."

"Good! Great!"

Machi Takahashi finally breathed a sigh of relief and gritted his teeth: "As long as you find him, I don't have to worry that my son's vengeance will not be avenged!"

After that, Takahashi Machi again ordered: "Mr. Fujibayashi, you must keep observing him. Wherever he goes, you will follow him and wait for my next step. But if he wants to leave Japan, Just kill him!"

Tenglin said: "Mr. Takahashi, please rest assured, from now on, I will never let the target leave our control!"

Takahashi really knows: "Mr. Fujibayashi, when things are done, I will give you a generous reward, at least five million USD!"

Tenglin smiled and said, "Thank you Mr. Takahashi in advance!"

Takahashi really knew what he thought of, and hurriedly said: "By the way, Mr. Fujibayashi, the eldest son of the Su family, Zhifei, lives in the Aman Hotel. If possible, please help me monitor him. I want to know if he sees him at the hotel. Who did he call, who called him, and what he said."

Tenglin immediately said: "No problem, I will check it out now!"

Chapter 1719

At this moment.

Aman Hotel Tokyo.

This is one of the most luxurious hotels in Tokyo.

Zhiyu and Zhifei stayed in this hotel at this time.

The two lived in the best room type in this hotel. The rooms are next to each other. Every room here has floor-to-ceiling windows on three sides. You can clearly see the night view of Tokyo, which is truly beautiful.

Zhiyu had just taken a shower at this time, her short hair was wet, so she simply combed all her hair to the back of her head. Looking stunning.

After taking a shower, Zhiyu wiped her body clean, put on the silk nightgown brought, holding a glass of red wine, and came to the huge French window.

She gently lay on the recliner in front of the French window, looking at the night view outside, lost in thought.

In her mind, Charlie could not help but appear again.

Thinking of that man's arrogant and pretentious look, Zhiyu was still angry.

However, when she thought that everything that the man did was to protect an innocent girl, Zhiyu felt a little admiration for him unconsciously.

In a foreign country, most people are more low-key and tolerant, hoping to avoid trouble as much as possible.

In this case, even if you have been bullied, you may choose to endure a moment of calm and take a step back, let alone see others being bullied, and stand up for others.

It can be seen from this point that the man is indeed very nice, and the three views are also very positive, but he is a bit crazy.

Of course, the strength is so strong, there is nothing wrong with madness.

Just thinking about it, she suddenly received a WeChat message on her mobile phone.

After opening it, it was a link sent by her brother Zhifei, and then he sent another voice: "Zhiyu, take a look, things tonight have caused trouble in Japan!"

Zhiyu opened the link and saw that Charlie's video has exceeded 10 million views on the Japanese network, and it is heading towards 20 million, and she can't help but be stunned.

There are more than 120 million people in Japan, and more than 15% of Japanese people have watched this video.

You know, Japan is still a highly aging society. If you remove the elderly, young children, and farmers who rarely go online in rural Japan, the views on this video is already terrifying.

And this is just the beginning.

The ghost knows how much it will be played tomorrow?

Zhifei sent a WeChat message at this time and told her: "Zhiyu, Dad is going to have a video conference. Is it convenient for you now?"

Zhiyu gave a hum and said, "Wait for me for a minute."

After speaking, she stood up, found a shawl, and draped it over her pink fragrant shoulder.

Chapter 1720

Her nightgown is a low-cut and big v-neck sling. She is very comfortable in the room, but it is a bit exposed after all, so she has to cover it.

After the video conference was connected, Zynn asked in the video: "Zhifei, Zhiyu, have you two arrived at the hotel?"

"Yes." Zhiyu and Zhifei nodded in unison.

Zynn asked again: "Have you met briefly with the Takahashi family?"

"Not yet." Zhiyu said: "Originally, we planned to touch the cooperation intention in the hotel's meeting room tonight, but unexpectedly, the Takahashi family had a small

accident and Eiki suffered an injury, his father Takahashi should be in the hospital with him.”

Zynn frowned and asked, “What’s the matter? Will it affect our cooperation with them?”

Zhiyu said: “Eiki was beaten by a passerby, but this incident was just an incident and should not affect cooperation.”

“That’s good.” Zynn breathed a sigh of relief, and said, “You must understand the foundations of these two companies and choose the best one.”

With that said, Zynn continued with a cruel expression: “You must find the strongest and most wolfish company for cooperation, whether it is the Takahashi family or the Ito family, as long as we choose one of them, then we will join forces with them and kill the other one!”

Zhiyu asked in surprise: “Dad, if we choose any company to cooperate with, can we just focus on cooperation? There is no need to help them fight against another company, right?”

Zynn said: “I went to see your grandfather today, and he said that the Wade family seems to want to transport this cake by the ocean, so if we choose the Takahashi family, they will definitely choose the Ito family, and vice versa. also the same.”

Zynn paused, and then said: “What your grandpa means is that if we choose the Takahashi family, then we will join hands with the Takahashi family to kill the Ito family. If we choose the Ito family, we will have to go with the Ito family. Join forces to kill the Takahashi family. In short, you can’t leave the Wade family any chance!”

Zhifei asked in surprise: “The Wade family also wants to get a share of the pie?”

“Yes.” Zynn nodded and said, “I guess they just wanted to follow us because they saw that we started to get involved in this industry.”

Zhifei said coldly: “The Wade family is a little overwhelmed. Many domestic businesses haven’t gotten the order, so they want to come to us to grab overseas markets?”

Zynn smiled: “This kind of thing is also normal. Big families, like big companies, have to do everything possible to steal other people’s business.”

After that, Zynn said: “Look at Tencent and Alibaba. One of them is doing a good job in social networking, but they desperately want to be an e-commerce company; an e-commerce company that is doing well, sharpened their heads, and wants to do social networking, and Ali has become Alipay. , Tencent will do WeChat payment, Ali buys Hungry, Tencent will invest in Meituan takeaway, the two will always be like playing Go, you surround me, I surround you, we are the same as the Wade family, early Wade family When we started a new business, we also united many people to deal with them. Now that we have a new business, they can’t just sit back and watch.”

Zhiyu smiled slightly and said, “Dad, as far as I know, the Wade family’s generation seems to be nothing special. Moreover, the Wade family seems to be getting quieter and quieter in recent years. I think they will be in a difficult situation for a while. Cut into the business of ocean transportation and port operations.”

Zynn said, “I have the same opinion as you on this matter, but your grandpa still hopes to be more cautious.”

Zhifei smiled and said: “Dad, grandpa is old and it is normal to be more conservative and cautious, but we don’t need to worry about this. My view is the same as that of Zhiyu. Wade family should not catch up for a while, and, The gap between them and us will definitely grow.”

Zynn sighed, and said seriously: “Forty years ago, your grandfather treated the Wade family in the same way. He always felt that the Wade family had no successors and would be lonely in a short time, but he never dreamed that there was a person named Changying who was so wise and close to a demon, and brought Wade Family up all at once...”

As he said, Zynn’s expression became extremely serious, and he asked the two: “You must remember that a big family like ours is often the same as the country. In the long history of national development, many times it is to bet on the national fortune. Yes, just like when Germany attacked the Soviet Union, it was betting on national luck. If the bet wins, entire Eastern Europe belongs to Hitler. The Soviet Union’s massive oil, natural gas, and iron ore resources sufficient to support Germany’s rule of Europe; but if the bet lost, it fell into the quagmire of two-front combat and ultimately failed miserably.”

“We are now focusing our efforts on ocean transportation. The Wade family wants to keep up, and they want to take a gamble!”

“If they bet, there is still a chance of not being separated; if they don’t bet, they will definitely be left far behind!”

“So, even if the Wade Family doesn’t have a capable person to pull the flag, they will definitely come in and fight with us! And we, no matter whether the Wade Family will catch up or not, we will cut their way first!”
