

# The Charismatic Charlie Wade Chapter 1726 – 1730

## Chapter 1726

This night, the four of them took two-by-two shifts, with another person watching every four hours to ensure that all four of them could get a certain rest.

They thought everything they did was perfect, but they didn't know that everything was under Charlie's control.

The reason why Charlie didn't do any performance was mainly that he wanted to make plans first, and at the same time, he didn't try to get rid of them.

He doesn't want to do anything to these ninjas in Tokyo, mainly because he will go to several cities next. If the Takahashi family's ninjas are killed now, then the Takahashi family will definitely stick to him like dog skin plasters. Will bring a lot of inconvenience and trouble to him.

Instead of this, it's better to let these four ninjas follow him all the time, and then look for opportunities to defeat them one by one.

Eight o'clock in the morning.

Charlie got up to wash, and after breakfast, Issac's motorcade was ready downstairs.

Paul's work has ended, so Charlie arranged for him to return to Aurous Hill first, so as not to delay other work in his law firm.

After the convoy sent Paul away, carrying Charlie, Orvel, Liang, Issac, Ichiro and others, left Tokyo directly for Yokohama.

Tenglin and his younger brother followed along in two commercial vehicles. Originally thought that Charlie was just coming to the airport to see Paul off, but unexpectedly, the convoy did not return to downtown Tokyo, but went directly to Yokohama.

So he immediately called Machi Takahashi and reported Charlie's departure from Tokyo.

Machi Takahashi instructed him to continue to follow, not to act rashly for now.

At the same time, Zhifei and Zhiyu had a formal meeting with Machi Takahashi.

They met in the property owned by the Takahashi family in Ginza, Tokyo, and Machi Takahashi enthusiastically invited the two to sit in his office.

Afterwards, he said very religiously: "I wanted to have a simple exchange with the two yesterday, but I didn't expect the accident happened to the boy, so I neglected the two, and please forgive me."

As the eldest son of the Su family, Zhifei took the initiative to smile and said: "Mr. Takahashi is too polite. don't know what happened to Young master's injury?"

Machi Takahashi sighed and said, "He received surgery on his arms and is also put in a cast. It may take some time to recover."

Zhifei nodded lightly, and said politely: "It's a pity that Eiki encountered such a thing. If Mr. Takahashi needs our Su family's help, please don't hesitate, we will definitely go all out!"

Although Takahashi really knew that Zhifei was only being polite to him, he still said gratefully, "Thank you, Mr. Su for your concern!"

Zhifei smiled and said: "Mr. Takahashi does not have to be so polite. If our two can finally reach a cooperation, then we are each other's strategic partners. Our family attaches great importance to strategic partners, and I communicated with my father last night. On the phone, he is also very concerned about Eiki's body, and he has repeatedly asked you whether it is useful to Su's family. If the Japanese orthopedic doctor is not good enough, he can send several orthopedic experts from Eastcliff."

Machi Takahashi said flatteredly: “That’s really thank you Mr. Su, if I have this need, I will speak to you at that time!”

After talking, Takahashi sighed: “The Su family’s sincere attitude towards its partners makes the Su family admire, and at the same time more fascinated. If there is a chance to reach a strategic cooperation with the Su family, the Takahashi family will definitely go all out and never disappoint Su’s expectations!”

Zhifei nodded lightly and smiled: “That’s good! In that case, let’s talk about the details of cooperation next.”

Takahashi Machi suddenly said with a cold face at this time: “Mr. Su, Miss Su, before we start talking, I want to give our cooperation a temporary precondition!”

Zhiyu frowned: “Mr. Takahashi, temporarily increase the conditions, some are not suitable, right?”

Takahashi said sincerely: “Ms. Su, the condition is not to raise the price from the Su family, but to ask the Su family to agree to me and cooperate with us to help completely eradicate the Ito family!”

## Chapter 1727

Zhiyu frowned as soon as Takahashi’s words were spoken.

She couldn’t help but wonder: “Yesterday my dad just said in a video conference that he would unite with one of them and kill the other. Why did Takahashi take the initiative to join us to kill the Ito family?! Isn’t it a coincidence? Is it true that Takahashi eavesdropped on the video conference of the family of three last night?”

Zhiyu felt that her speculation was not impossible.

She thought to herself: “Although the bodyguards who accompanied her had been tested when she checked into the hotel yesterday and confirmed that there were no bugs and cameras in the room, this is after all in Tokyo, in the site of Machi Takahashi. If he wants to find a way , It should not be difficult to eavesdrop on me and my brother...”

Zhifei also had some surprises and doubted whether it was tapped by Takahashi.

However, because Takahashi Machi was right in front of him, Zhifei couldn't communicate with his sister, so he winked at her.

Zhiyu nodded quietly, and then asked Machi Takahashi with a calm expression: "Mr. Takahashi, why are you completely eradicating the Ito family?"

Takahashi said furiously: "That d\*mn Takehiko has been working against me. If it's just normal business competition, it doesn't matter, but he has risen to the level of personality insult to me and my family!"

With that said, Takahashi Machi told the story of Takehiko Ito sending flowers and fruit baskets yesterday, and calling to mock him.

After speaking out of righteous indignation, he still cursed in annoyance: "This Takehiko, joking with my son, and ridiculing us all, is too much! So I made up my mind when I was in the hospital yesterday. There is him without me, or there is me without him!"

Takahashi is not stupid. He knows that if he rashly offered to join forces with the Su family to destroy the Ito family, the Su family would doubt whether they were being monitored.

Therefore, when he mentioned Takehiko, he deliberately exaggerated his words, and the whole person was extremely angry. The whole performance can be said to have reached the acting skills of a powerful actor.

What he thought was that if the Su family really believed his words, then instead of suspecting that they were eavesdropped on, they would feel more like their natural allies.

In this way, he will definitely become the best candidate for cooperation in the eyes of the Su family.

Zhiyu was indeed relieved when she heard this.

Obviously, she did believe what Takahashi said.

Because all this sounds so natural.

Machi Takahashi's son was injured, and at the same time he became a laughing stock. This in itself already made him very irritated. At this time, Takehiko came to add fuel to the fire, teased him, and irritated him.

Thinking of this, she smiled slightly and said to Takahashi Machi: "Mr. Takahashi, let's talk about cooperation first. As for the matter you just said, if the cooperation itself is okay and everyone can reach an agreement. This matter can also be discussed."

Machi Takahashi immediately said excitedly: "That's really great! Don't worry, Miss Su, I have shown 200% sincerity this time. I believe the Takahashi family must be the best choice for the Su family!"

.....

When Machi Takahashi had detailed negotiations with Zhifei and Zhiyu, Charlie and his party had already arrived in Yokohama and went straight to Kobayashi Pharmaceutical's production base in Yokohama.

Qin Gang's medicinal materials had also been delivered two hours ago.

Therefore, Ichiro and Liang began to organize workers at the Yokohama production base to conduct trial production of JX Weisan.

The trial production went very smoothly. At four o'clock in the afternoon, the first batch of qualified JXwei Powder was produced in batches from the assembly line.

After that, Charlie and his party immediately drove to Nagoya, the most important city in central Japan.

When they arrived in Nagoya, it was late.

## **Chapter 1728**

Issac had already booked the best hotels in Nagoya.

Charlie could also detect that the four ninjas who had been following him had followed him all the way to this hotel.

After Charlie and others checked in, Tenglin, headed by the four ninjas, also brought the other three to the front desk of the hotel.

They booked two rooms on the same floor as Charlie.

Moreover, they are very clever to book four different rooms, these four areas are next to two elevators, and the escape stairs at both ends.

Japan is a country prone to earthquakes, so when designing their buildings, they fully considered the issue of escape.

A building with two sets of escape stairs is really rare in other places.

The reason why they want to arrange the room in this way is that they can firmly control Charlie's every move, so that it can also facilitate their monitoring.

As for why not live directly around Charlie, it was mainly because the rooms around Charlie were all covered by Issac's men.

Not long after Charlie rested in the room, he noticed that the breath of the four people was getting closer, and after knowing that they were also living on this floor, he had a plan in his heart.

Tonight, he wants to try the depth of these Japanese ninjas first.

At dinner, Issac's men, Jones Luo and everyone ate the most distinctive local eel rice at the most famous restaurant in Nagoya.

After dinner, Orvel proposed to go to Nagoya's Rong Business District together. Charlie deliberately said: "You go, I want to walk around alone."

Orvel hurriedly said: "Master, we are not familiar with this place in life, you should not act alone, or say where you want to go, we will accompany you."

Issac nodded again and again: "Yeah, Master, let's stay with you!"

Charlie waved his hand and said with a smile: “No one in Nagoya knows me, what are you worried about? Besides, I think I still have some ability to protect myself, so you don’t have to worry about it.”

When Issac heard this, he knew that Charlie would not let everyone follow him, so he respectfully said: “Master, don’t go too far. If you have any needs, remember to call us!”

Charlie nodded: “Okay, you play yours.”

After speaking, he walked away alone.

At this time, in a car across the street, Tenglin’s junior asked him: “Brother, do you want to follow him?”

Tenglin sneered and said, “He has already checked in at the hotel, and he will definitely go back. He won’t run away.”

Another junior asked: “Brother, do you mean we don’t need to follow?”

Tenglin said: “The follower still needs to follow. I promised Mr. Takahashi not to let him leave the control area, so I will let the fourth child follow him. Let’s quickly put a bug in their room.”

A man in his thirties sitting in the back row immediately said: “Okay brother, I will follow him!”

Tenglin gave a hum, and said, “You can just follow him far away, but don’t lose him. If there is any abnormality, call in time, understand?”

“Understood brother!”

## **Chapter 1729**

The reason why Charlie wanted to leave Issac and Mr. Orvel aside was to find a chance to act alone, so as to try to track these ninjas, how many of them there are.

Moreover, he knew very well in his heart that since the other party had followed him to the hotel, he would definitely think that no matter where he went now, he would definitely return to the hotel.

Therefore, there is a high probability that they will not follow him with four people.

It's not that Charlie was afraid of the other party's group, but he felt that there were only four people who followed all the way from Tokyo. If they were all alone, Machi Takahashi might have no one available.

If you solve all your opponents in one go, the rest of your time in Japan will be boring.

Therefore, Charlie hopes to give them a "break down one by one."

Only by breaking through them one by one can the opponent's fears continue to increase, and the fears of Takahashi Machi can be continuously increased.

When leaving the hotel, Charlie had already noticed that the other party only sent one person to follow him in secret this time.

So, he planned to take this single guy first.

The guy who was alone, named Tenglin Qingtian, was a distant relative of the Tenglin family. He learned ninjutsu from Tenglin Zhengzhe's father when he was young, so he was commensurate with Tenglin Zhengzhe's brother.

Among the four brothers of Tenglin Zhengzhe, although Tenglin Qingtian's strength is not the strongest, but his talent is extremely high, especially very good at concealment and tracking. He debuted for many years and has never been escaped by the other no matter who is being tracked.

Tenglin Qingtian followed Charlie all the way, and followed him away from the downtown area and the residential area with a high density of living. The distance from Charlie was always between one hundred and two hundred meters.

His figure is very hidden, and his aura is very well controlled. People with less strength may not notice that he has been eyeing.

After leaving the city, Charlie went straight to a park by the river.

As it was already night, the weather was cold, and it was in the suburbs, the park was empty.

Seeing that Charlie entered the park he followed him all the way into the park.

But what made him dream of was that Charlie, who had been under his nose, suddenly disappeared after entering the park!

As a master of ninjutsu all year round, Tenglin Qingtian's senses of hearing, sight, smell and touch are much more sensitive than ordinary people. He can hear sounds that ordinary people can't hear; he can also see things that ordinary people can't see.

His most powerful thing is that he is beyond ordinary hearing.

Ninja tracking in the middle of the night relies on hearing the most.

Tenglin Qingtian can hear the sound of crickets crawling in the grass and the movement of ants crawling out of the cave within a radius of two to three hundred meters.

Because of his good hearing, he can hear everyone's breathing and heartbeat within a radius of 500 meters.

When people are hiding, they can stay still or speak, but breathing and heartbeat cannot be avoided anyway. Therefore, it is impossible for ordinary people to escape the surveillance of Tenglin Qingtian.

However, Charlie, who was still within his sight and hearing range, suddenly disappeared without a trace, no footsteps, no breathing, and no heartbeat!

It's not difficult to hold your breath for a short time, but you can't make your heart stop beating, right? This is obviously beyond human control!

This made Tenglin Qingtian suddenly nervous.

Because he realized that this thing is unusual!

He immediately suppressed his breath to the extreme with extreme vigilance, and then remained motionless, carefully listening to the surrounding sounds.

At the same time, he has pulled out two dark shurikens from his arms.

The shuriken is one of the most commonly used weapons by Japanese ninjas. The length of this weapon is about fifteen centimeters. It has symmetrical blades on both sides and a short grip, which looks like a dagger.

## Chapter 1730

However, the use of this shuriken is quite different from that of a dagger.

The use of daggers is mostly piercing and cutting, but the use of shuriken is throwing.

In martial arts ninjutsu is sinister and vicious.

Ninjas don't like to compete face-to-face with their opponents. They like to hurt people with dark arrows. It's best if the opponent doesn't find them until death. This is the ultimate ninja pursuit.

They like to use weapons like shurikens, darts, and blow arrows, and they will smear highly toxic substances on the sharp blades, so as to ensure that as long as the opponent is broken by the sharp blade, they will be over.

One minute later, Tenglin Qingtian still did not catch any movement of Charlie!

His hearing almost covers the entire park, and he can also conclude that there is only him alive in this park.

Tenglin Qingtian couldn't help but wonder: "Where did the man go? Did he escape or hide?!"

"If he escaped, how did he escape in an instant? Could he fail to transfer in an instant? Or did he not pay attention just now and be distracted by him?"

“If it is hidden, how can he not move at all for a minute? It is understandable to control his breathing, but it is a bit unrealistic to control his heartbeat?”

If it is the former, most of the responsibility lies with me, and I can't find the other party, so I should go back and report the penalty and pay more attention next time.

But if it is the latter, then the strength of this person is simply unfathomable!

Thinking of this, a cold sweat broke out behind him!

As a result, Tenglin Qingtian gripped the shuriken tighter, and slowly turned his body silently under his feet, carefully staring at the surroundings, for fear that the other party would suddenly appear.

After watching two laps, he was a little relieved to make sure that there were no ghosts around.

When he was about to leave quickly, he suddenly felt that someone patted his left shoulder lightly!

At this moment, his whole body was frightened and his hair exploded, and the whole person turned around like crazy, and the two poisoned shurikens were thrown out behind him with a scream.

However, the sword in the two hands did not hit any target. After flying dozens of meters away, it was firmly nailed to the wall!

d\*mn it!

People? !

Tenglin Qingtian was shocked, but he didn't dare to delay his hands. As soon as he stretched out his hand, he took out two swords from the cowhide cover on his waist!

Tenglin Qingtian, holding a shuriken, shouted with fear: “Who is it?! Get out of for me!”

At this time, he felt that his right shoulder was tapped twice!

At this moment, Tenglin Qingtian almost freaked out!

He took a violent step forward when he was crazy, and at the same time turned his head angrily, and threw the sword in both hands again!

However, this time it was still empty!

Behind him, he couldn't even see a ghost!

Tenglin Qingtian was shocked, and hurriedly took out the last two swords in his hands.

At this time, he heard a man behind him sneered: "It seems that ninjas are nothing more than this! It's really disappointing!"
