

The Charismatic Charlie Wade Chapter 3293

Chapter 3293

When the young people in other countries, holding a few thousand dollars worth of drones, in the outdoor wilderness blindly shoot landscape, Hamid's men, have used this inconspicuous thing, to achieve a local battlefield monitoring with complete stagnation of the device in the air.

The advantage of complete stasis is that the drone can remain stationary in the sky and closely observe the target, unlike the U.S. Global Hawk, which needs to constantly fly in circles around the target.

Hamid, on the other hand, had already made tactical arrangements.

He analyzed that the opponent should not exceed 1,200 people at most, through the picture transmission signals coming back from the sky

They were going to encircle them from the west flank, so he had already sent down orders to send three hundred more soldiers to defend the permanent fortifications on the west flank.

Although three hundred soldiers are not much, but using the timing and location, it is still more than enough to defend against the attack of more than a thousand soldiers.

The permanent fortifications built by Hamid, although not yet fully constructed, were specially camouflaged externally.

The camouflaged fortifications, if it does not fire, even if you pass by it ten times, it is almost impossible to detect.

The firing holes of these fortifications had been blocked in advance with a large number of fist-sized pieces of rubble, and then covered with a layer of loess from the outside.

Moreover, when they did the camouflage, they also left a few doorway-like gaps from the inside.

With this small gap alone, the people inside can easily observe the situation outside.

And this camouflage made of rubble is also very convenient and easy to remove.

Once you want to shoot, you only need to pick up the rubble with your hands, you can pick up all the rubble, and immediately after that you can put the gun out and fire with full force.

If Robin encircled from the west flank, he would just pass through these hidden fortifications, and by then, all of his men would be exposed to the crossfire of the machine guns.

However, he did not know this.

He only thought that he had to hurry to take down Hamid and use a victory to cover up his mistake just now.

This time after coming to Syria, they have been taking it easy.

Always feel that the opposition forces are just a bunch of third-world bandits without much military education, not much stronger than the Somali pirates.

The elite came to fight these guerrillas with AKs, it was as easy as pie.

Therefore, they did not make adequate preparations before the battle, nor did they carry very expensive high-end weaponry.

For the Front soldiers at this moment, the RPG shoulder-fired rocket was the most powerful weapon they had on hand.

However, Robin felt that the RPG was enough.
