#### **Chapter 2311**

has not found the longevity pool, but has already experienced nine deaths.

No wonder so many people have been pursuing the longevity pool throughout their lives, but they have never been able to. This kind of danger, if you are an ordinary person, you don't know how many deaths.

Even if they are as powerful as Andrew and Greedy Wolf, the two teamed up and used their abilities to walk here, it was also thrilling.

“Let's go.”

Greedy Wolf doesn't have so much patience. He is worried that there will be other changes in the outskirts.

The top priority is to find the longevity pond as soon as possible. Nothing is more important than this.

Andrew didn't say anything, followed behind Tanlang and continued to move forward.

He exhausted a lot of physical strength, was slightly exhausted, and went through two crises in succession, let Andrew also know that this road is not so easy to walk, perhaps more dangerous, just behind.

He needs to regain his strength and spirit as soon as possible.

Andrew looked up at Greedy Wolf, Greedy Wolf was in good condition, after all, the mountain and stone formation just now had no effect on Greedy Wolf.

He doesn't know why the mountain stone formation is only aimed at him. This is really strange. Just like Greedy Wolf said, is there anything special about him?

Andrew couldn't think of it for a while.

But after experiencing this, Greedy Wolf's heavy pupil couldn't hide it. Andrew saw it, and Jiang Ning's control of Zhenwen was also known to Greedy Wolf.

It can be said that the hole cards of the two people have already shown some. When the critical moment is reached, it may be the key point of the decisive battle!

Always be on guard against him? Shan'er loves dyeing Yiyi Shan'er?  
This is what both people think in their hearts.

As we continue to deepen, the surrounding environment changes again.

Andrew became vigilant when he felt the surrounding fog gradually thicken.

“Is there any problem with these fog?”

The greedy wolf walking in front shook his head: “I didn’t feel it.”

He had been exposed to the fog, but he didn’t feel it. It hurts them, but it feels so comfortable to breathe, and it makes people wake up instantly.

Andrew slowly took a breath, and also felt that the exhaustion of his body seemed to be swept away in an instant.

What a magical mist, can it be said that, unlike the dead mist before, the mist now contains a lot of vitality?

“These fogs are getting thicker and thicker.”

The perplexed fog makes the visibility in front of him less than five meters, and Andrew is even a little fuzzy, so that you can see the back of the greedy wolf.

This cloud-shrouded place makes people feel as if they are in the clouds, with a sense of emptiness and mistiness.

“What is that?”

Suddenly, Greedy Wolf spoke.

Andrew looked up and saw it vaguely. It seemed that there was a gate. It was very unclear from a distance. The gate like a white jade merged with the fog. It was not the double pupil of the greedy wolf. It was really unclear. I can see it so far away.

The two are very alert and dare not approach easily.

In this passage, almost every place has hidden murderous intentions!

“It seems to be a city gate.”

Andrew Road.

Greedy Wolf didn't speak, and cautiously approached the past, his double pupil reappeared, not daring to be careless.

The two people kept getting closer and confirmed that there was nothing unusual around them, but this atmosphere still made the scalp numb.

The surrounding area is empty, it seems to be on a huge grassland, there are only two of them, the feeling of emptiness, in itself, can give people a huge pressure!

As the two people get closer and closer to the gate, there is a kind of majestic oppression, gradually increasing!

Greedy wolf's face was solemn, and he walked ahead, looking at the city gate in the mist, only half was left. The other half had collapsed and fell to one side, even the stone pillar was broken.

“Here, there seems to be a fierce battle.”

Even the stone pillars were overturned, and there were a lot of blood on the city gates!

Jiang Ning's breathing suddenly stopped, and his heartbeat was fierce looking at the blood on the city gate!

## Chapter 2312

“A lot of blood!”

He was shocked, “Where is this?”

Looking at the scene, This is not a one-sided massacre, but a fierce fight. On the scattered stone pillars, there are long coagulated blood stains. Andrew can even imagine that it was cut through the throat with a knife. , Just splashed out.

I don't know what happened here and there, it would be so miserable.

Andrew has experienced wars and can imagine that terrible picture.

Greedy Wolf also didn't speak, apparently shocked by what he saw in front of him.

The passage is dangerous, and he is prepared. Walking along the way, encountering a crisis, Greedy Wolf is also aware of it, but it is just the tip of the iceberg towards the passage of the Chang Sheng.

But the traces left behind after a fierce battle in front of him are still a little unimaginable.

“What happened here?”

He muttered to himself, “How is it different from what is recorded on the handwriting.”

He has read many handwritings, and all the passages to the longevity pond. There are records, and he has basically seen it. Over the years, he has made preparations for the longevity pool.

But I did not expect that there is still a battlefield here.

“What is that?”

Andrew suddenly looked up and saw a few words on the city gate. <br>“Nantian?”

It's the Nantian Gate.” Greedy wolf looked down again, and there was a seal-writing door on the fallen piece on the ground.

Nantian Gate!

It turned out to be Nantian Gate here?

Andrew felt a buzzing in his head, and the images from the TV series immediately appeared in his mind. The fairy-tale Nantian Gate, a group of gray-haired old men flying in the sky, fairies singing and dancing...

What a joke!

“Why is Nantian Gate here?”

How do I know.”

Greedy wolf shook his head, he also felt incredible.

“Maybe it’s just the same name that someone deliberately took.”

He didn’t dare to connect with that place in the legend. It was a fantasy, something more unreal than Chang Sheng. .

Neither of them spoke, but in such a place, the faint murderous aura is still floating in the air!

This battlefield is real!

The faint smell of blood can still penetrate their noses and tell them that terrible battles have taken place here. Many people died and a lot of blood shed...

It's getting thicker.

The gate of the city is in this mist, faintly wrong, and it looks very unreal.

But Andrew didn't feel that these were all fantasies. His heart was beating violently, and there was a sad emotion in his heart.

For a strong man like him, his mind is extremely tenacious and he will not be easily affected by the external environment, but that feeling is extremely real, and Andrew can't control it at all.

"What the hell is going on?"

Andrew looked up, and the wolf was gone.

The thick fog has already led the greedy wolf to where it went.

Andrew yelled a few times but didn't respond. He had to walk into the Nantian Gate cautiously, staying vigilant and not daring to be careless.

This place is very dangerous. He can feel that it will definitely not be safer than the place before, where there is no human presence, and there is not even any breath of life, but Jiang Ning's intuition tells him that it is very dangerous!

May die at any time!

“The man is gone.”

Andrew looked around, the fog was still thick and he couldn't see anything. He walked carefully every step, not daring to be careless.

He can't see Greedy Wolf, and Greedy Wolf can't see him either. If the fog clears, they will find that the two people are walking in completely opposite directions.

Andrew continued to walk, feeling that the exhaustion on his body has disappeared. These mists seem to have a very special effect, allowing one's body to always be in an optimal state!

“Huh?”

He suddenly felt his eyes widened, “The mist is going to disperse?”
