

The Protector Novel Levi Garrison Chapter 1717 – 1718

Chapter 1717

Levi was still holding on to the Great Plains alone.

The power of the killing weapon is simply against the sky.

Almost collapsed the plain.

But this is just the beginning.

The upgraded version of the killing weapon, the energy box is filled.

There are always only eight in the upgraded version.

Production costs more money and resources.

The risk is also high.

Especially the upgraded version of the energy box is not easy to control.

Mainly the same equipment, but it needs to play twice the power.

The difficulty is super big.

Especially the technical requirements are higher.

They are also worried that if the control is not good, the energy box will explode, which will be destructive to their own people.

So Wood Zhengjie was also very worried.

Can the upgraded version of the killing weapon work?

It all depends on actual combat.

“Lord, all eight stations are on target!”

Soon, the eight upgraded versions of the killing weapons were all locked on Levi.

“Boom him for me and light up all the energy boxes! I don’t believe he is immortal!”

Wood Zhengjie shouted.

There are only 80 energy boxes in the upgraded version of the God-killing weapon.

Because it’s too difficult to produce.

Only so much.

The upgraded version of the god-killing weapon is theoretically a powerhouse that can destroy the Sixth Heaven in an instant.

It would be unimaginable to hit all the 80 energy boxes on Levi.

“Lord, you can withdraw quickly, you can’t hold it!”

“Yes, Lord! Please, withdraw quickly!”

...

Xiao Feng at the rear couldn’t bear to watch Levi stand in front of him.

“Lord means I know that if he doesn’t block all the weapons of death, he won’t give up!”

“Yes, as long as this weapon still exists, it will be a threat to Morendam! He wants to use his body to make the opponent consume all the energy boxes!”

...

The others were surprised.

“For the opponent to consume the weapon, he would rather be a live target?”

“Yes, this is my Lord!”

Xiao Feng shouted several people.

Their tone was full of pride.

Also reveals three points of sadness.

They can only watch where the Lord is consuming, but they can't help much.

“Everyone is not allowed to step forward without my order!”

Levi's voice was heard in their ears.

“Lord!!!”

“Be sure to hold on!”

...

Everyone clenched their fists tightly.

They expected Levi to hold on.

Everyone knows that next is the bombardment of the upgraded version of the killing weapon.

“Kill! Kill Levi for me!”

Wood Zhengjie shouted.

“boom!”

“boom!”

“boom!”

...

The upgraded version of the killing weapon is launched together.

“Puff!”

“Puff!”

The personnel who fired the weapon, even though they were wearing special protective clothing, were abruptly shredded by the surplus and recoil of the fire.

terrible!

Everyone gasped.

The power of the upgraded version of the killing weapon is amazing!

“boom!”

“puff!”

“boom!”

“puff!”

...

Every bombardment with the killing weapon.

Levi stepped back and shot blood in his mouth.

Obviously he can't hold the upgraded version of the killer weapon.

“Go on, continue to me!”

Wood Zhengjie urged.

“boom!”

“boom!”

“boom!”

...

Wood Zhengjie also struggled.

In the shortest time, all the energy boxes were lighted up.

The power of this weapon is too terrifying and terrifying.

Levi was hit again and again.

“boom!”

“puff!”

Suddenly, when the 67th energy box bombarded Levi's body.

He was directly blasted and disappeared on the spot.

Was beaten and disappeared under the noses of hundreds of thousands of people...

Chapter 1718

“Boom boom boom!”

Only a total of eighty energy boxes are launched almost at the same time.

Levi was bombed, and the remaining thirteen shots were all empty.

But it has been battered here.

It's like a doomsday scene.

“It's gone! Levi was beaten!”

“Successful, we succeeded!”

...

All dominate the alliance cheered.

Just like a big victory...

Wood Zhengjie even shouted: “There is no more Levi in the world!”

“I am the only king in Morendam! Remember my name Wood Zhengjie!!!”

Everyone present looked at Wood Zhengjie in admiration.

No one would have thought that an ordinary person would become an important factor in turning the tide of the war.

Who can think of it?

Levi Linqiang, right?

The hundreds of thousands of the main force in the Western Territory that dominated the Alliance were abruptly defeated by him.

He kills the strong in the fifth or sixth heaven, like killing chickens and oxen.

Wasn't it killed by Wood Zhengjie's god-killing weapon?

From then on, Wood Zhengjie's value will be maximized.

Really become the king that everyone robs.

His dream of becoming a king will be easily realized.

"Won, we won!"

Logan Zhengguo told Richard the news for the first time.

"Won, kill Levi, our biggest obstacle is gone!"

"If Beijing wins again, we will be fully victorious, and Morendam will be in full control!"

...

They have seen the picture of victory.

Richard was very excited.

But at this time, someone came to him.

Everyone is wearing a black suit, and there is a medal with a black shield on his chest.

Richard's face changed when he saw them.

The visitor is impressively the number one mysterious organization of the War Eagle Nation-Sky Shield.

The Sky Shield has a long history, and the agents inside each possess supernatural powers.

They control one of the most mysterious powers and secrets in the Warhawk Nation and the whole world...

They are different from Colin.

They really control the terrible power.

Usually responsible for all kinds of terrible supernatural events.

It is said that the covenant of the gods was sent by the rulers to the Sky Shield...

In the face of the Sky Shield, Richard and the others are also afraid.

“Come on! Morendam is not as unbearable as you think!”

“This sleeping oriental lion should never be underestimated. If you make him anxious, it will wake up!”

The Tianshield agent was straightforward and persuaded.

Richard smiled: “Yes, Morendam was indeed forced out by us! But it is still not our opponent!”

“Next, you will see that we captured Morendam!”

“You guys do it for yourself!”

The Tianshield agent turned and left.

They are just reminding.

On the eastern battlefield.

“Lord!!!”

Xiao Feng and the others watched Levi being bombed out.

Everyone made heart-piercing noises.

Levi just disappeared from under their noses...

All this is too trance.

It has been a long time for them to believe that all this is true.

The other side.

Wood Zhengjie yelled: “Come on, rush for me! Take down the Eastern Frontier Theater immediately!”

Wood Zhengjie gave an order.

The tide of dominating the Alliance army is generally oppressive.

Xiao Feng is weak here.

In addition, everyone was immersed in the pain of losing Levi.

Presumably, within half an hour, they will be wiped out.

“Everyone has it, you can go north to meet up in the capital!”

Wood Zhengjie and the army behind them also began to activate.

After all, Xiao Feng and the others couldn't stand a blow and couldn't stop it.

“How can Da Xia provoke you outsiders?”

At this time, there was a sound of thunder rolling in the sky.

The Protector Novel Levi Garrison Chapter 1719 – 1720

Chapter 1719

The voice seemed to come from nine heavens.

It's as if it was sent by the gods in the sky.

All the army dominating the alliance was stunned and stopped abruptly.

Xiao Feng and the others were all dumbfounded, staring into the air in a daze.

Is Levi still alive?

This is the unanimous idea of hundreds of thousands of people present.

“No? He's not dead?”

Wood Zhengjie was so frightened that he was sweating and his lips turned pale.

Everyone was immersed in the fear of Levi.

He is terrible.

“Rumble...”

Next second.

I saw earth-shaking sounds from both sides of the battlefield.

“Look!”

“Look!”

...

At this time everyone exclaimed.

On the left, a brown-red war horse appeared first. On the war horses were uniform swordsmen.

They were wearing white robes with hats on their heads and long swords on their backs.

Although the number is small, it is close to thousands.

But the momentum is like a dragon, swallowing thousands of miles of mountains and rivers.

On the right is also a war horse splayed out.

Above the war horses were swordsmen wearing black clothes and black scarves.

They also have crossbows on their backs...

Two groups of people appeared suddenly.

Everyone was dumbfounded.

“Morendam still has such reinforcements?”

This is the thought in everyone’s mind.

At this time, he has paid attention to the Colin base in the real-time screen of the battlefield.

See the emergence of these two teams.

The faces of several senior executives changed wildly.

“It’s them! It’s them!”

“They finally showed up!”

“I thought Morendam would be over if I lost Levi!”

“I didn’t expect the legend to be true! They really existed and appeared!”

...

The senior officials of Bass Weizhong cried with joy.

“What’s wrong? What’s the matter?”

“What are their identities?”

Colin and the others were dumbfounded.

“Originally, this legend could not be said, but they have appeared, and everyone has seen it. Then tell everyone!”

“In the legend, there is a Baolong clan in the dark place of Morendam! That is, Morendam’s guardian family! How many specifics are unknown, and where they are, let alone know.

The meaning of their existence is that their duty for generations is to protect the dragon, to guard Morendam, and to ensure that Morendam’s foundation lies.

Only when Morendam appears the most dangerous moment, they will appear, turn the tide and save Morendam from the water and fire! “

...

“Not only that, the major guardian families together control an organ formation, which is said to guard the foundation of Great Xia.”

“I have also heard a rumor that each guardian family is in control of a key, and all the keys together can unlock the biggest secret!”

...

Hearing this, everyone gasped.

“But the Baolong clan only exists in legends, and we just heard about it, even if our predecessors have never seen it before!”

So at the beginning of this war, we just expected the legend to be true. Did not rely on this legend! “

“Even the first thing that happened to Levi was resolved. We thought it was them. The result was Levi himself.”

...

“So the Baolong clan exists, and they have been paying attention to everything in Morendam! Now is Morendam’s most critical moment, they have only appeared!”

Someone concluded.

“Yes, that’s right! I’m afraid that the power of the capital is also their solution!”

A look of hope ignited on everyone’s face in Colin.

They are going to win.

On the battlefield.

After the black and white teams appeared.

No words.

Kill directly to dominate the alliance army.

The war is about to start.

Chapter 1720

Regardless of the two teams that just appeared, they add up to tens of thousands.

Can play against each other.

Each incarnation is a murderous machine of terror.

Dominating the Alliance Army has no power to fight back.

Can only be slaughtered!

The black and white teams seem to be competing in anger.

Bet on who kills more!

Killed one by one...

This is a crushing battle without suspense.

Wood Zhengjie, who had lighted up all the energy boxes, could only watch as the army dominating the alliance fell one by one.

They are helpless.

The battle lasted for a short time.

The Domination Alliance was almost annihilated.

The fighting power of the Baolong clan is simply too terrifying and terrifying.

After defeating the Domination Alliance.

They disappeared without a trace again.

It seems that it has never appeared before.

“Withdraw, withdraw quickly!”

Important figures such as Wood Zhengjie and Logan Zhengguo fled out of Morendam before the danger came.

Lost!

Dominate the Alliance army defeated across the board!

Almost all the four major war zones were annihilated...

Later they received news that the plan to destroy the capital had also failed.

Lost.

The dominance of the league was completely defeated.

This is an alliance of warriors, nothing more than a mob.

This rout.

The Domination Alliance was dissolved on the spot.

This organization, which was formed no more than half a year ago, was wiped out in an instant.

It's really embarrassing!

“Lost, completely defeated?”

Richard did not believe what was happening before him.

“Yeah, at the last moment, Morendam suddenly appeared two groups of unknown teams. It was terrifying. They were all killing machines. So far, we still don’t know who they are?”

Richard was silent.

He thought of what the Sky Shield had warned him.

Urgent, this lion will wake up.

Sure enough, did you wake up?

In any case, he was defeated.

But the good point is that he finally took Wood Zhengjie and his weapons back.

Of course it is an upgraded version of the eight weapons.

There was no chance to take the rest, all stayed in Morendam...

Wood Zhengjie and his core technicians were taken to War Eagle Nation.

This is a blessing in misfortune.

Colin also released news to the world for the first time.

“Morendam announced that the war was defeated by the invading warrior organization to dominate the alliance, and the war Morendam has won!”

“Morendam won!”

...

The news soon spread throughout Morendam and all over the world.

The gongs and drums on the streets of Morendam are noisy, and firecrackers blast.

Everyone began to celebrate.

Organizing activities everywhere is even more ambitious than the New Year.

The feeling of the rest of my life is really wonderful.

A moment ago, Morendam fell into ruin.

Everyone is ready.

Later, he was saved by the unknown heroes abruptly.

Morendam is still an invincible Morendam!

Unite as one, invincible!

All Morendam was immersed in joy.

But overseas countries are dumbfounded.

Morendam won?

Incredible.

The scene they least wanted to see happened.

Morendam actually held it up.

The major countries and forces are desperate to death.

Nothing is more frustrating than those who quit Morendam nationality and join other countries.

They tried their best to escape the chaos of war and to live a stable and peaceful life in the future.

Everyone is looking forward to the demise of Morendam.

But who could have imagined that Morendam won.

Now, they are not of Morendam nationality and can't go back.

regret...

Almost everyone regretted it...

However, Colin and the Morendam soldiers were not happy at all.

They are searching for Levi's whereabouts on the battlefield...

Even if you die, you can leave a memorial.

The Protector Novel Levi Garrison Chapter 1721 – 1722

Chapter 1721

This time the war was won.

Who gets the most credit?

That is definitely Levi!

Despite the emergence of the Baolong clan, victory was achieved.

But their appearance is just the end.

Four-fifths of Levi's things were done.

Especially the most threatening weapon to kill God.

Levi "tested poison with his own body" and consumed all the energy boxes of the killing weapon.

Including the upgraded version.

This allowed the real threat to disappear.

Otherwise, the weapons of killing gods can also pose a great threat to the Baolong clan.

In any case, Levi is the one who has contributed the most.

He led Morendam's passionate daughter to turn the tide.

So everyone wants him to live.

Even if it's dead.

A little trace must be found.

Carpet search by tens of thousands.

But there is no miracle.

Not only did they not see Levi, they didn't even have a trace of it.

"Lord is gone, I saw him get beaten up with my own eyes!"

“The killing weapon is just that terrifying, and it makes people disappear in an instant!”

Xiao Feng and the others were unwilling to accept this result, but there was no way.

“I hope God will take care of Morendam, and let’s have another miracle!”

Everyone prayed silently in their hearts.

“Boom boom...”

Tens of thousands of soldiers opened fire to the sky to pay tribute to Levi.

the other side.

After Wood Zhengjie was taken to the war eagle country, he received the highest courtesy and the most generous treatment.

Richard and the others agreed to all the conditions he put forward.

These islands and land are even more important.

Even the promise of making him king must be fulfilled.

There are many small affiliated countries in the war eagle country.

Under Richard’s lobbying, the Eagle Nation decided to cede one of its largest subject states to Wood Zhengjie and let him be the king.

The ceremony of becoming king will be held in seven days.

Although the battle was not won.

But Wood Zhengjie’s name spread all over the world, making him the hottest character.

Now many international female superstars come to visit him, willing to be his lover.

Some top rich international men came to him, willing to spend huge sums of money to buy the killer weapons in his hands.

There are also more and more people coming to take refuge in Wood Zhengjie internationally.

Wood Zhengjie, an ordinary person, stood on top of the world.

“I also have the credit, at least I killed Levi! I really want to tell Sarah the news personally!”

Wood Zhengjie gave a perverted smile.

Compared with Wood Zhengjie’s excitement, Richard and others are unhappy.

They planned for so long.

Gathered such a powerful force.

But I didn’t expect it to fall short in the end.

Even the younger brother was almost killed.

Seeing Jefferson’s miserable appearance now, he didn’t get angry.

“Brother, fortunately, Levi is dying, and my revenge is revenge!”

After seeing the power of Levi, Jefferson knew that he had little hope of revenge.

Fortunately, there is Wood Zhengjie’s killing weapon.

“Yes, after all, we still took advantage. At least Levi is dying. Otherwise, he will threaten us too much in the future!”

“What makes me wonder is where did Morendam’s last reinforcements come from? Who are they?”

Richard rubbed his chin and thought.

Jefferson was thinking too.

The pictures that flashed in his mind were all Levi.

His body is shaking all the time.

Recalling Levi’s various things, he was really scared.

This is the person he has feared the most since he was a child.

He even had a strong feeling.

Levi was not dead at all.

Levi’s voice lingered in his ears-no matter you escape to the end of the world, I will catch you back.

You can’t escape from my Wuzhishan!

Chapter 1722

Jefferson became more and more frightened.

It seemed that Levi was around.

A pair of eyes were staring at him in the dark.

He soon came to War Eagle Nation and wanted to take him back.

...

Jefferson told his brother all this.

Richard was scolded severely.

“Jefferson, you were frightened by Levi and fell ill. I tell you, Levi is dead, absolutely dead! Hundreds of thousands of people watched him die!”

“You probably have a psychological shadow!”

Subsequently, Richard found several psychologists to enlighten and treat Jefferson.

Wood Zhengjie is also in the same situation.

He is the most concerned existence in the world.

There are positive and negative effects.

Many people called him a traitor, and killed his compatriots.

Sooner or later, he will be caught in Morendam for atonement.

...

I don't know why, Wood Zhengjie felt a little flustered when he heard this.

I always feel that this thing is going to happen the same.

After all, he has a guilty conscience.

He told Richard all this.

Richard called him peace of mind.

He is now a member of the Eagle Nation.

It is necessary to become a king soon.

What are you afraid of?

No one can take him away in the Eagle Nation.

No one in this world dared to go wild in the Eagle Nation.

To arrest his brother and Wood Zhengjie is nothing short of a dream.

Wood Zhengjie also gradually felt relieved.

If you say where is the safest in the world.

There is definitely a war eagle nation in the first three miles.

He is not afraid at all now.

While immersed in joy, Morendam was still dealing with all kinds of troubles after the war.

Including Xiao Feng, they have been looking for Levi's whereabouts.

"Even though we won the war in an all-round way, the enemy still ran away a lot!"

"First, Wood Zhengjie, betrayed Morendam, and killed countless compatriots with special weapons. He is Morendam's sinner. Now he has fled to the war eagle country."

"Second, Richard and Jefferson are two brothers. Richard is one of the planners who dominate the Alliance. His identity is still unknown. They are also in the Eagle Nation."

"Third, Star Country's Sanxing Group, they are also important planners, and almost all of the financial resources this time are from them!"

“Fourth, even a certain faction of the Sky Shield Bureau sent people to participate, and there is also the Apocalypse!”

...

Bass Weiluo lists Morendam’s enemies.

“Maybe we may not be able to do it now, but everybody has to pay for their actions when given the opportunity!”

These enemies were all remembered by Morendam.

“There are also those warriors in Morendam who have not participated in the battle, and those evil sects are also Morendam’s enemies, and they will all die!”

They also listed all the evil ways that are connected with the Domination Alliance.

“Yeah, if there is a Baolong clan to take action! All these evil sects will apologize!”

“But Wood Zhengjie, Richard and these people we can only watch! They are in the War Eagle Nation, how do we do it?”

“Hey! They won’t be able to move for a while, let’s find a chance later. Maybe they won’t be able to move in this life!”

“I heard that Wood Zhengjie will be the king’s ceremony in seven days. We can’t even touch him at that time!”

...

Everyone looked depressed.

“Move, why not move?”

“Jefferson has only been in jail for ten years, so he has to come back to jail honestly!”

“Wood Zhengjie was punished for treason and must be arrested back to Morendam and be sentenced to death!”

“I said you can’t escape from my Five Finger Mountain!”

Somewhere in the northern continent, a voice rang.

Levi appeared...
