

The Protector Novel Levi Garrison Chapter 1723 – 1724

Chapter 1723

“The revenge of all the brothers in Zhentian Temple! The revenge of all the brothers who died!”

Levi was holding a black war knife in his hand.

This is the sword of the Northern Heavenly King.

It was made by him using meteorite iron from the outer world.

Named “Bei Ming”.

Now Levi is not only holding a knife, but also carrying the hope of his brothers.

Is Levi dead?

Of course not dead!

Let’s put it this way, Levi is not a fool.

If the killing weapon can really kill him.

Would he really go as a target silly, letting killer weapons hit it?

impossible!

The consumption is not so consumed!

Since becoming a commander, Levi told the soldiers that the important thing is to be alive.

No matter how the battlefield changes.

First think about surviving.

Only if you are qualified to live can you continue to fight...

Therefore, Levi would not consume the opponent's weapons with death.

The killing weapon is indeed amazing and can hurt him.

Can't kill him.

After getting the opportunity from the cheap Lord, Levi's physical strength reached an unimaginable state.

During the bombardment with the killing weapon, he was actually testing his physical strength.

He measured it.

Even the eighty shots of Wood Zhengjie's upgraded version of the killing weapon hit him.

You can beat him to death, but you can't kill him.

At the critical moment, Levi noticed that someone was staring secretly.

In order to force them out, I want to know who they are.

These people are indeed the Baolong clan.

They had been observing everything in secret early on.

But at that time, Levi couldn't judge whether it was an enemy or a friend, so he could only test it.

So when Levi was in his sixties, he created the illusion of being beaten to pieces.

This is difficult for others.

But it's very simple for Levi.

This is a combat technique taught to him by the cheap Lord-the ghost clone.

It is to deceive everything at the extreme speed and appear the illusion of a clone.

So what was smashed was actually a clone.

May deceive everyone in the field.

Including the mysterious Baolong clan.

In their opinion, Levi was also shattered.

The magic shadow avatar Levi is just a starting point, and can currently practice a avatar.

Of course, Levi didn't work hard on this combat technique.

In his opinion, the practicality is not high, and he focuses on other combat skills and exercises.

Now it seems that in the future, you will have to practice more demon shadow clones.

In particular, I heard from Lord Lloyd that if the Demon Shadow clone has reached the top level, hundreds of clones will not be a problem.

That was something Levi couldn't imagine...

Levi asked the cheap Lord curiously, how many clones can he practice?

Lord Lloyd did not answer, but just raised a finger.

At that time, Levi didn't take it seriously.

But every time he thought about it later, he was startled in a cold sweat.

This finger represents...

The cheap Lord can't be described as a strange person.

It's like a fairy.

At this time, Levi was holding the Beiming Sword in his hand and had already arrived in Beifang Continent.

It is very close to the Eagle Nation.

When he heard that Wood Zhengjie was going to be a king, he trembled with anger.

"Wood Zhengjie, I can't spare you!"

"There are also all the evil deeds made by the War Eagle Nation back then, and I have to punish them one by one!"

Levi went to War Eagle Nation step by step.

No one would have thought that the Kingdom of War Eagle is about to usher in a bloody storm.

The most terrifying thing is that only Levi is alone!

One person kills the wind and rain, and there is no god in the world.

Who said no one would dare to be wild in the Eagle Nation?

Have you ever asked me about Levi?

Chapter 1724

Before the big summer, the country was in trouble.

There are not a few people who quit Morendam nationality.

Overseas countries actively accept elite talents from Morendam.

According to the statistics.

The three countries that receive the most talents from Morendam are the War Eagle Country, the East Island and the Star Country.

War Eagle Nation: 570,000 people.

East Island: 420,000 people.

Star Country: 330,000 people.

...

Unimaginable numbers.

These are really a large list of talents recruited by various countries.

More are not found.

This wave of great summer difficulties has detected people's hearts.

How many people were defeated and escaped from Morendam.

But what they didn't expect was that Morendam would win.

So ninety-nine percent of people are facing an awkward situation-can't go back to Morendam?

Before leaving Morendam, it was not because they could live a better life abroad.

But Morendam was in dire straits and was about to perish.

They just left.

In fact, joining other countries will not necessarily develop better than in Morendam.

After all, not everyone is Wood Zhengjie, who can be a king, so that the Eagle Nation can meet all his conditions.

Most people find that after joining another country, they are not as good as they thought.

Countries like the War Eagle Nation did not treat them as their own people at all.

Just fancy their money, resources, talents and so on.

Fortunately, those who are talented and capable can be reused.

But like most people will only be squeezed to a large extent.

When their value is squeezed out, these countries will absolutely kick them away without mercy.

Although everyone doesn't say this point, they feel like Ming Spiegel in their hearts.

Especially Cross Wentao, who came to War Eagle Nation, and Logan and Mann's family.

They understand better.

Because of this period, the War Eagle Nation began to squeeze them in all aspects.

In a short period of time, their money has been squeezed by a third.

These people from the Logan and Mann family who fled were actually nothing in their respective families.

Everyone's abilities are average, and they want to be literary but not literary, but they want martial arts but not martial arts.

It's all relying on the shadow of the family.

Without the family and the Western Shu family, and even Wushuang City, these foundations.

They are nothing.

After Morendam's victory, they became more aware of their situation.

Now they have huge sums of money and even resources.

But all this will be used up.

The family will not provide them with continuous supply.

Cross Wentao, Nick, Mike and others all gathered together to discuss solutions.

Concubine Mann Jun and Katie themselves yearned for a leisurely life abroad.

The two unanimously expressed their unwillingness to leave the war eagle country.

If they can, they will always be in the Eagle Nation.

Nick and Cross Wentao also liked their lives in War Eagle Nation.

“According to the current situation, we can definitely live in Warhawk Nation for four or five years, but what should we do after four or five years?”

Alfred was more sensible and asked everyone.

“This...”

Everyone hesitated.

They all understand that all the resources and money on hand will be exhausted one day.

“Then we go back to Morendam?”

Mike asked tentatively.

“No, it’s shameful! Now they all treat us as traitors! It is very difficult for us to return to Morendam! Besides, the old people in the family disagree, after all, we are unscrupulous descendants!”

“Furthermore, what are we doing back to Morendam? The Eagle Nation is so good!”

...

Seeing that everyone is reluctant to go back.

Mike said: “I have a way!”

“What can I do? Say it!”

Everyone looked forward to it.

The Protector Novel Levi Garrison Chapter 1725 – 1726

Chapter 1725

“We can stay in Warhawk Nation. We can ask for money and resources from the family. I don’t believe it. Can those old guys just watch us die?”

Mike asked.

“Yes, in fact, grandpa and grandma are like knives and tofu hearts!”

“This time we did make them angry! But once we have something, how can they leave it alone?”

“But isn’t it? Once we have an accident, the old guys are still in a hurry to die, why don’t we send it out?”

...

That said, everyone is relieved.

Excitement appeared on everyone’s faces.

They can continue to stay in the Eagle Nation and be their Lords.

Then despise Morendam’s compatriots.

The most important thing is that they can continue to chew on the old.

Everyone is like a mosquito, sucking the blood of the family fiercely.

But they are right.

Once they are in distress, Doug will never ignore them.

This is the confidence that Mike and the others continue to stay in the Eagle Nation.

But after Nick answered a call, his face was gloomy.

“I heard that Junjun is a genius thing. It has been known by Morendam Colin. The next step is to focus on training! Think about it, Junjun is Morendam’s future hope, how high his status is!

The tide will rise, and the status of the Logan family and the Mann family will also skyrocket! It can even seal a family of protecting the country and the like. It was really the peak moment of the family at that time. “

Nick said.

This is the news he inquired just now.

It’s true.

Colin and the others did not find the whereabouts of Levi.

They decided to fully compensate Levi’s family.

Just discovered that Junjun is a peerless genius.

Determined to focus on training.

The news has been released.

“what?”

The expressions of everyone present changed in unison.

If this is the case, then the Logan and Mann family will take off.

Even if they are living well in War Eagle Nation, they are not as supreme as they are in Morendam.

“If that’s the case, what’s the point of staying here? We have to go home quickly!”

“Yes, Morendam is our hometown, we should go back!”

“Even though we are in a foreign country, we are all Morendam people!”

...

The crowd came to make a big turn of one hundred and eighty degrees.

At this moment, I really want to return to Morendam.

“Want to go back to Morendam? Impossible!”

Suddenly a voice appeared.

The next moment, a large group of people entered the manor.

It is Wood Zhengjie headed.

He is now sweet and delicious.

Once out, countless Lords followed.

A helicopter hovered in midair.

The Eagle Nation didn’t want him to die, and he didn’t want him to be taken away by other countries or forces.

Therefore, the defense factor around Wood Zhengjie is the highest.

Follow as many Lords as you can.

“It’s you!”

After Nick and the others saw Wood Zhengjie, everyone’s face changed drastically.

They know Wood Zhengjie.

I also know that Wood Zhengjie is Levi’s classmate.

“From now on, all of you will follow me, and your identity as the nationality of the Eagle Nation will never change!”

Wood Zhengjie smiled.

Alfred looked at each other.

If you really followed Wood Zhengjie.

They are the real traitors.

Like a brand, it is impossible to return to Morendam in this life.

“If you don’t agree, there may not be a place for you in this world!”

“Don’t worry, after following, glory and wealth will accompany you throughout your life, even in the Eagle Nation, you are all Lords!”

...

In the end, everyone agreed to follow Wood Zhengjie.

Chapter 1726

After all, fate is the most important thing now.

If it weren’t for Wood Zhengjie’s promise.

Anyone can predict the end.

So they must follow Wood Zhengjie.

What is Wood Zhengjie's purpose?

It's very simple.

He wants to disintegrate Sarah's family, completely ruining it from the inside out.

Let these people be charged with traitors.

But Wood Zhengjie didn't break his words.

After Alfred and the others agreed, War Eagle Nation immediately gave them the best treatment.

Regardless of status and others, they are all up to the next level.

Wood Zhengjie also promised that after he became king, they would be able to be promoted.

You can even be knighted in the Warhawk Nation...

The future of Mike and others is bright.

Following Wood Zhengjie's words, it is more promising than returning to Morendam.

Back to Morendam, I just lived in the shadow of Sarah, Junjun.

But in War Eagle Nation, everything is completely different. They don't need to rely on others, just follow Wood Zhengjie.

Everyone was jubilant.

After that, Wood Zhengjie's desire to be a king became enthusiastic.

Not only that, there are many former Morendam people who eagerly support Wood Zhengjie.

Everyone is willing to follow Wood Zhengjie.

Because Wood Zhengjie not only contacted Mike and the others, but also many top elites who escaped from Morendam.

Wood Zhengjie's plan is to bring all these people together.

It can be seen that Wood Zhengjie's ambition is huge.

I leave Morendam.

But I want to build another big summer outside!

After Wood Zhengjie had a huge impact.

Colin was furious.

Colin immediately issued a proposal internationally: requesting the war Eagle Nation to hand over Wood Zhengjie and Jefferson, who had been convicted in Morendam.

This proposal was directly rejected!

Colin can only give up!

I can only watch Wood Zhengjie and the others in the Nation of Eagles...

You can't send people directly to War Eagle Nation to bring people back.

Don't say that there is no such strength, if there is strength, no one will dare to go.

Colin tried to contact the Baolong clan and asked them to bring people back.

The Baolong clan's reply is simple: this matter is over.

Colin understood that even the Baolong clan was very afraid of this matter.

Can not cause trouble without causing trouble.

Everyone can only watch Wood Zhengjie show off his majesty.

After learning that Mike and others had taken refuge in Wood Zhengjie, Doug and Melina immediately contacted them.

“Unscrupulous children and grandchildren! The faces of our Logan family (Mann family) have lost all of you!”

“Listen to our persuasion, quickly get out of it, and then return to Morendam!”

“We will pick you up in Morendam!”

...

Now that they have tasted the sweetness, how can they go back.

“Parents, you just listen to me, you also come to War Eagle Nation, I promise to be higher than the status of Morendam! This is paradise on earth!”

“Yeah, what is good about Morendam? You should really come out and see the world outside!”

“You know? Mr. Wood promised to give us two islands, and we will be the island owners in the future!”

...

Not only did Mike refuse to listen to persuasion, but they also tempted the family to move here.

“ba5tard!”

“You will starve to death outside in the future, we won’t care about it!”

Several old people were angry.

“Hehe, mom and dad, don’t worry about us in the future, we’ll be flying right away soon!”

They didn’t care about it at all.

“Go away, we’ll be cut off from now on!”

The Logan and Mann family are determined to break with these people.

“Stupid, rotten, and stubborn!”

“One day you regret it!”
