

The Protector Novel Levi Garrison Chapter 1763 – 1764

Chapter 1763

“Levi? We don’t care who you are! We will kill these people!”

The swordsmen of the Baolong clan have eyes higher than the sky, and all of them are Laozi’s best in the world.

Levi didn’t pay attention to it at all.

“That’s only a fight!”

Levi is not nonsense.

Do it directly.

Although these eight people were extremely powerful, they almost wiped out the clan behind the Northern Demon.

But against the current Levi, he was still vulnerable.

The eight people were cleared out by Levi as if the autumn wind swept fallen leaves.

At this time, Colin had sent back news, saying that the Baolong clan would not stop, and all these evil ways must be eliminated.

“Xiao Feng, didn’t you say that these people are mine?”

Levi asked.

“That said, but Colin said that the danger of the capital was solved by the Baolong clan at all, and it has nothing to do with these evil ways!”

Hearing Xiao Feng’s explanation, Levi’s face turned black.

“Well, I will save people myself!”

Levi set off immediately and soon came to a deep mountain somewhere in the north.

The major forces that once surrendered to him are now defeated. They gathered together and lingered.

In a short period of time, the major forces have lost half.

Hundreds of Lords from the Baolong clan pressed in front of him.

All it takes is a wave of attacks, and all the rest will be destroyed.

At the moment of crisis, Levi came.

“It was they who relieved the danger of the capital city, and it is considered that the merits and demerits are equal!”

“Kill them, just don’t give me Levi face!”

Levi was very angry when he saw the heavy casualties.

“They must die! Who blocks and kills who!”

The Baolong clan does not matter who it is.

No one can change what they believe.

“It’s him, it’s him that injured eight of us!”

At this time, someone pointed to Levi.

“It turned out to be you! Okay, let’s not let go of you now!”

.....

The atmosphere of tension on both sides is on the verge of breaking out.

In order to be afraid of the trouble, Colin and the others also hurried over.

“Misunderstanding, misunderstanding!”

“We have found out that they are indeed the ones who relieved the danger of the capital! They are now the kings of the same word!”

Colin explained this matter.

The leader of the Baolong clan sneered and said: “Then they are also persecuted by the king to do this thing! These crooked ways are a scourge, and it is best to eradicate it. If you keep it, it will definitely cause endless trouble!”

Levi sneered: “That’s my own business! You can’t control it!”

...

In the end, under the negotiation of Colin, the Baolong clan let go of the remaining evil demons.

The Lords of the Baolong clan finally left.

“This person is the king of the word side by side? He defeated the Domination Alliance before!”

“Yes, it’s him!”

“But I’ve seen this man’s shots, and his techniques look like a demon!”

Someone doubted.

“Yes, that’s right! It’s exactly the same as that big demon! The key is that he still mixes with these crooked ways, and I begin to doubt his identity!”

“If it is said that such an important identity as the king of the word side by side is controlled by a demon, then wouldn’t Da Xia be in crisis long ago!”

“We will go back as soon as possible and tell the owner what happened, and I think we should notify Tiance Mansion!”

...

What the Baolong clan said was the same as what the Beimo clan said before.

All mentioned a demon.

Levi never expected that the meeting with Baolong clan today would bring him much disaster in the future.

Chapter 1764

“From then on you follow me!”

Levi wants to organize them into his secret team.

On the one hand, it improves combat effectiveness, and on the other hand, it also gives Colin a pill.

After all, the people the Baolong clan said before are hidden dangers.

If they were allowed to leave, Colin might really be worried.

But Levi took care of them, but there was no worries.

Colin was also very happy.

Levi's ability to regain these people is also the enhancement of Morendam's combat effectiveness.

Levi did not return to Jiangbei directly. He led the way through Colin and came to the secret base of the Shenlong Technology Alliance.

The Dragon Technology Alliance represents the most advanced technology of Morendam.

Involving aviation, weapons and other fields.

As soon as he arrived at the base, Levi found that he was staring at a lot of eyes.

But the people who stared at him were not humans, they were ruthless machines...

The dark iron laboratory base that Jefferson had hidden before was also considered top-notch, but compared with the present, it was completely pediatric.

This base is definitely the most advanced technology base.

Even a warrior attack can't take it.

Soon, Wen Lei came to the court.

"You came to see Wood Zhengjie's situation, right?"

Wen Lei was straightforward.

"Yes."

"He is very responsible, and he hasn't seen anything unusual so far! He is also the most talented person I have ever seen! How long has this been, he has helped us solve many problems!"

Wen Lei said.

Levi frowned, “The more you are, the more you have to be on guard! This person is wrong!”

“First, something that might endanger Morendam!”

“Second, you represent Morendam’s most advanced technology. What if you let him leak it?”

...

Wen Lei listened carefully to what Levi said, and it made sense.

But Wen Lei is a very arrogant person.

Since she was a child, she has existed like stars holding the moon, and now she is the strongest female scientist.

Even if Levi was right, she would not approve it.

Especially she was a little bit uncomfortable with Levi’s way of pointing Jiangshan.

“Don’t we know it ourselves?”

She asked rhetorically.

“I advise you to send someone to take care of it, in case something happens, it will be too late to regret it!”

Levi reminded me.

Wen Lei said nothing this time.

Because what Levi said was the same as she thought.

She made many suggestions that someone should take care of Wood Zhengjie, but they were all rejected.

But no one else agreed.

“You are deliberately making trouble, right? What is special care? Wood Zhengjie is our compatriot, our comrade!”

“Yes, yes, Comrade Wood Zhengjie has deeply realized that he was wrong. The contributions he made these days are enough to prove everything!”

“Who are you? What does it mean to come to our base? Even wrong a good comrade!”

...

These people were completely convinced by Wood Zhengjie.

Now Wood Zhengjie has a very high position in this base.

In the eyes of these scientific and technical personnel, there is not much intrigue, everyone worships the strong.

Wood Zhengjie is strong enough for them to worship and admire.

So now when I heard Levi talking about Wood Zhengjie, no one agreed.

Wen Lei smiled helplessly.

Based on this, her suggestions have been rejected again and again.

The most important thing is that Wood Zhengjie's performance is very peaceful, without any flaws.

She is not good to continue talking.

“Isn’t this an old classmate? Why did I hear someone say that I need someone to look after me?”

At this moment, Wood Zhengjie walked out and looked at Levi with a smile on his face.

The Protector Novel Levi Garrison Chapter 1765 – 1766

Chapter 1765

“Everyone is a compatriot, why bother?”

“Not to mention that I knew I was wrong! Just yesterday, I donated all my assets to make up for my mistakes and make me feel better!”

Wood Zhengjie blamed himself.

“Everyone applaud!”

The crowd began to applaud.

Yesterday Wood Zhengjie did donate all his assets.

A sky-high number.

People admire and trust Wood Zhengjie like this.

But the more he was like this, the more abnormal it became to Levi and Wen Lei.

The path of geniuses is the most extreme.

Donating all your assets is an extreme behavior.

Wood Zhengjie looked at Levi and said, "I know you have been suspicious of me, if you don't worry about it, just kill me!"

"I know it's easy to kill me with your strength!"

"Dare he? He wants to kill you unless he kills all of us first!"

"Yes, we protect you!"

...

These technologists are all crazy.

Wood Zhengjie looked at Levi triumphantly.

It seemed to say to Levi: "Now you can't kill me even if you want to kill me!"

"Sooner or later will kill you!"

Levi sneered.

"You quickly leave our base, you are not welcome here!"

"I hope I won't see you in the future!"

The crowd began to drive Levi away.

"Boy, any changes you make, I will know, and then I will kill you."

Levi gave a warning and left with Wen Lei.

"Don't worry, I am watching!"

When sending Levi away, Wen Lei couldn't help but say something.

"It seems that there are still smart people!"

Levi smiled.

“you...”

Wen Lei was going crazy.

This base wins over talents with the highest IQs in the entire university.

Almost all well-known scientists are here.

It is no exaggeration to say that the smartest people in the country are here.

As a result, Levi said so.

He is deliberately sarcastic!

But looking at Levi's back, Wen Lei showed a smile.

As a scientist, her philosophy has always been to save the country with science and technology.

In her eyes, these warriors are reckless.

But this time the danger of Great Xia, but these warriors solved it.

She still admires it!

It's just that she doesn't say it out of her mouth!

Not far away, Wood Zhengjie stared at the back of Levi's departure. He sneered and said, “Levi is right. These people with high IQs are very low in EQ and are very cheating! Levi, you wait, I will definitely make a wave big!”

...

Although many days have passed since the Battle of Eagle Nation.

But this is the topic the world talks about.

The Eagle Nation has lost all of its people.

Their hatred with Da Xia is getting deeper and deeper.

However, the entire Warhawk Nation suddenly lost its voice, so calm and low-key was terrifying.

But a big event happened suddenly in Morendam.

Before the Baolong clan surfaced.

In fact, the Baolong clan does not refer to a single clan, it has a total of nine ancient guardian clans.

The origin of the ancient tribes has to be traced back to a long time ago.

Some things have never been recorded in history.

However, the nine ancient guardians are not a whole, but they control Morendam's secrets and guard the most important things.

Therefore, there is another institution that has always existed in Morendam to restrict them.

This strongest institution is called Tiance Mansion.

It is also known as the foundation of protecting the country.

The institution of Tiance Mansion is also composed of many small institutions.

Among them, Tianji Pavilion is the most complete secret and intelligence in the world.

On this day, Tianji Pavilion made an earth-shattering event.

Chapter 1766

A sensation throughout Morendam, and even the whole world.

Because Tianji Pavilion has reopened the very old list-Daxiaxiadi list.

What is the Big Summer Land List?

It was a long time ago, much earlier than before the covenant of the gods came out, the ranking of the strong Morendam.

The so-called land list is the list of young powerhouses under the age of 30, also called the Tianjiao list, the potential list.

The sky list is the ranking of all the strong.

Because for such a long time, there is no real strong person who is really qualified to be on the list.

So the big summer rankings have been silent for too long too long.

Except for some ancient tribes, basically no one has heard of it.

But the times have changed drastically now.

The covenant of the gods is torn up.

The strong flooded into the world like a cloud and entered everyone's eyes.

In particular, Levi led his army to defeat the Domination Alliance, even after the Eagle Nation successively beheaded five Seventh Heavenly Powers.

This situation has changed drastically.

Now there are people who can qualify for the Great Summer Land List.

Besides, Tianji Pavilion almost controls all the secrets and intelligence of time.

Morendam's potential hidden Lords are also recorded.

Although there are still many forces and strong people that have not appeared, or that they are hidden very deeply.

But Tianji Pavilion knew everything about them, including their strength ratings.

Let me put it this way.

Almost all the combat power of Morendam Lords are under the control of Tianji Pavilion.

That's why they can rank the most just world ranking!

As soon as the world list came out, Morendam and the whole world were shocked.

But most of the strong on the list are unknown to everyone.

Most of them are just names.

Of course, the real name is even less known.

The only person who is familiar with the list is the mysterious man who successively beheaded the five great and seven heavenly powerhouses in the Eagle Nation.

Although many people knew that person was Levi.

But in order to avoid spreading to Levi's relatives and friends.

Colin still hides everything.

Otherwise it will be too much trouble.

The code name of the mysterious man-Zhentianwang.

The meaning is taken from the Zhentian Temple.

But what is shocking is—

The King of Heaven, who has slaughtered the five Seventh Heavenly Powers in a row, is only ranked 20th at the end of the Heaven List!

terrible!

All this is terrible!

This shocked Morendam and the whole world.

A strong man who makes the war eagle country out of nowhere is only ranked 20th, so how strong should the people in front be?

Especially how strong are the top three?

Isn't it going to destroy the world!

This list was singled out, and everyone was shocked.

The World Ranking is a warning to the world.

Let you know how strong Morendam is?

There are at least 19 people who are better than Zhentianwang!

There is also that the powerhouse of the seventh heaven is not even qualified to be on the list!

this is too scary!

Who dares to invade Morendam again?

Are you looking for death?

You can't say that this list is fake.

Because this was discharged from the Tianji Pavilion!

Other countries are recognized!

For a time, the Morendam martial arts world was in full swing, showing unprecedented glory.

Other overseas countries are even more desperate.

This time, Da Xia was completely pulled away.

Levi also quickly learned about the world rankings.

He wasn't interested in his rank.

I'm just more curious about this list.

He also asked Colin.

Colin's answer is that it does have the meaning of shocking other countries, and the other is that they can't control the affairs of Tiance Mansion.

Tiance Mansion and Colin are equal organizations and can cooperate with each other, but cannot command each other.

Levi opened up the ranking of the land list again.

The local rankings are all young people on the rankings, and Levi didn't know them.

But when he saw the end, his face changed drastically.

The Protector Novel Levi Garrison Chapter 1767 – 1768

Chapter 1767

There is no other reason.

Because the person at the bottom of the list is Junjun.

His daughter.

The name at the end is too dazzling!

Levi Lin didn't get over it for a long time.

Who leaked the matter of Junjun's talent?

In fact, Logan and Mann's family had deliberately blocked them. As for Wushuang City, they couldn't wait to hide Junjun, let alone leak it out.

Who would leak it out?

What's more, Levi was sure that Junjun would never make it to the rankings if he relied on pure strength.

He has been laying a solid foundation for Junjun, but he has not allowed her to increase her strength.

The only reason that Junjun was on the list was Junjun's potential.

Someone discovered Junjun's talent!

That's why Jun Jun is at the bottom of the list!

And the most frightening thing is that Tianji Pavilion marked the reason for being on the list-this child's talent is the strongest in the millennium of Morendam.

In this way, Jun Jun became completely famous.

If she grows up, she will be number one in the future and number one in the sky.

Levi thought that someone had leaked the gift of Junjun.

In fact, all of this is under the control of Tiance Mansion Tianji Pavilion.

It was Tianji Pavilion who ranked Junjun on the earth list.

Levi smiled helplessly.

Both father and daughter are on the list.

One day list, one place list.

The ridiculous thing is at the end.

The King of Zhentian's ranking shocked the world.

Junjun's ranking shocked Morendam.

The ranking list is the ranking list of Tianjiao, even if it is under 30 years old.

But Junjun is too young.

On the list at a few years old.

Everyone was shocked after seeing the list.

Whose kid is this?

This talent is terrible, right?

Even Junjun's reputation spread abroad.

The great summer is like a cloud, and there are such potential children, who can stop in the future?

After Levi hurried back to Jiangbei.

The house is also upset.

Because everyone knows the world list, Sarah knows all of them.

Logan and Mann's family, and many people from the Western Shu family came one after another.

This is simply a big deal.

"Do you know King's Landing?"

Sarah hurriedly asked when Levi was coming.

"Well, I know, it was my fault, I didn't keep a good secret!"

Levi blamed himself.

As a father, I naturally want to protect Jun Jun for a lifetime. This secret can be kept for as long as possible.

Unfortunately, I still didn't keep it.

Then Jun Jun's danger is more.

There must be a sect force who wants to bring Junjun back to train.

Similar to Wushuang City Black God Sect.

There is also the overseas powerhouses who definitely don't want Junjun to grow up.

Once Junjun grows up, it will be a threat to overseas countries.

So they will find ways to get rid of Junjun and kill him in the bud.

Everyone present knew that this event was not a happy event.

Jun Jun is still too young to protect himself.

They have no ability to protect the king.

If danger comes, who can stop it?

“Don't worry, with me, who dares to move Junjun?”

Levi said coldly.

“You can pull it down, this matter of Junjun is equivalent to stabbing Louzi! I don't know how many people are rushing to ask Junjun? In the future, we may not even see the children!”

“Hey, my poor Junjun, isn't it good to be an ordinary person?”

...

Several old people hugged Junjun distressedly.

“If you are the King of Zhentian, it's okay! But I heard that King of Zhentian belongs to the Baolong clan!”

Several people sighed.

Because of Colin's secrecy, the news of Zhentianwang cannot be leaked.

Levi said coldly: “But I am the king of the word side by side, who would dare to touch my daughter?”

Chapter 1768

As soon as Levi said this, almost no one paid any attention to him.

Everyone is still discussing.

The old lady suggested: “How about this? Let’s find a big power for Junjun in advance! In this way, Junjun’s danger will be eliminated and a good future can be obtained!”

“This is a good way, I agree!”

“I agree!”

...

Almost everyone agreed with the old lady’s proposal.

“But first of all, this big power must be super powerful, to ensure the safety of the king. Second, it must be decent, otherwise it is equivalent to pushing the king into the fire pit.”

“This is true, if Jun Jun is sent to those crooked ways, it will be completely over!”

...

Everyone was discussing.

Levi sneered: “Where there are good and evil in the world of warriors, only the weak can eat the strong! The crooked ways are not necessarily bad people!”

How about Wushuang City?

In their eyes, it is considered decent, right?

But it's not the same, they are all using Junjun.

Being good to Jun Jun is entirely because of her value.

Of course, the evil ways of the Black God Sect should be eliminated directly.

“Levi, what nonsense are you talking about? Are you going to personally send Junjun into the hands of a crooked door?”

Everyone angered.

Levi stopped paying attention.

As long as he is there, Jun Jun is safe.

Sarah and the others negotiated to find a powerful force to be a teacher for Junjun.

Levi is not interested in blending.

He began to write a series of techniques and combat skills.

His next plan is not only to train the secret team, but also to improve the overall level of the Morendam fighters.

Levi combined all the factors to write different exercises and combat skills for Morendam fighters for their practice.

For example, a general fighter must be an entry-level cultivator.

For example, if the King of the Five Great Wars has the basics, he has to practice a little more advanced.

For the Five Great War Kings, Levi specially wrote different exercises for them according to each person's situation.

Even in today's era of the strong, Levi has to create an invincible division.

This time.

Zhentianwang and Junjun are really famous.

More and more people know.

There are also more people who come to mine their information.

The information about King Zhentian and Junjun on the dark web of the Dark World has been sold at sky-high prices.

But hundreds of people still buy it.

It shows everyone's curiosity about these two people.

Levi could also clearly feel that there were more and more people nearby.

It seems that many people are already eyeing Junjun.

Another person stared at Jun Jun.

That is Wood Zhengjie.

In the base, in his room.

Three photos are posted on one wall.

It belongs to Levi's family.

The photos of Levi and Junjun have been stabbed with countless knives.

“Levi, do you think you are so strong that I can’t kill you? Wait, it will be soon!”

“And your baby girl, how cute and talented. I can’t imagine how happy you will be in the future! But I will end your happiness with my own hands!”

Wood Zhengjie said frantically.

On his desk there is an experimental map with dense lines and formulas all over it.

Wood Zhengjie stared frantically, as if this was the only way to defeat Levi.

That’s right.

Soon, Wood Zhengjie will conduct a crazy and great experiment.

The main base of the Shenlong Science and Technology Alliance satisfies all the conditions for his experiment.

If this experiment is successful, it will shock the world and it will also be a catastrophe.
