

# The Protector Novel Levi Garrison Chapter 1787 – 1788

## Chapter 1787

The sky is falling!

For Levi, the disappearance of Junjun was like the sky collapsed.

This group of people are still here to wrong him.

Levi can't wait to slap all of them to death!

He stared at the Tianlong four angrily: "My daughter let the enemy take away! I have no time to talk nonsense with you!"

"Let the enemy take it away?"

Everyone was taken aback.

Then Tianlong sneered: "Impossible! How could the child be taken away? Really if the four of us don't exist?"

Earth Tiger looked arrogant: "Yes! We are in the courtyard, and the distance between the child and us is no more than 100 meters, which is equivalent to under our noses. No one can take people away from under our four eyelids!"

"Yes, you underestimated us? With us, how could the enemy quietly take people away?"

The yellow fox also echoed.

Xuan Lang looked at Levi with cold eyes: "No one can snatch someone away under our noses, and it's still unaware. That can only mean that you are lying!"

“Yes, unless there is only one possibility-you hide the child silently by yourself, and then blame other people who don’t need it!”

The Tianlong four pointed to Levi.

Levi was the last to see Junjun.

Moreover, the Four Heavenly Dragons knew his identity as the Heavenly King, and it was no problem to do all this with his strength.

Levi smiled: “It can only take away people from under your noses!”

“You are looking for death!!!”

Xuan Lang said word by word.

The whole body exudes a cold killing intent.

In any case, everyone present believed that it was Levi who hid the monarch.

After all, it was almost the same as the previous massacre at Grand City Mountain Villa.

“I don’t have time to talk nonsense with you, I’m going to find Junjun!”

Levi ignored the others and was about to leave.

“you dare?”

Xuan Lang stopped in front of Levi.

“Get out of me, otherwise don’t blame me for killing you!”

The killing intent in Levi’s eyes was gushing.

“Xuanlang get out of the way!”

The voice of Tianlong sounded.

Only then did Xuan Lang slowly let go.

“Why don’t you let me shoot, I won’t lose! And there are you guys!”

Xuan Lang obviously refused to accept Levi.

Even if he is the strongest in the sky list.

Xuan Lang is the best fight among the four.

The strength far exceeds the Seventh Heaven!

“We’d better not conflict with him, don’t force him!”

Tianlong explained.

“Then what to do?”

“Staring at him! Staring at him from now on! As long as you follow him, you can definitely find the child!”

Tianlong ordered.

“Four adults, don’t worry, we must let him hand over the child! Sarah, you must let him hand over the child!”

Logan and Mann expressed their good wishes.

“You don’t need to do this, we will solve it!”

The Tianlong four left here.

“Next, Levi may make big moves. He doesn’t want the child to go with us. The reason is very simple. He doesn’t want this child to let us cultivate decent characters! He wants to cultivate it himself!”

Tianlong analyzed.

“We have to stare at him, and then get the baby back! This is very important!”

“We have to seek support, otherwise Levi won’t be able to deal with it!”

“Okay, immediately contact Tiance Mansion and report the news truthfully!”

...

After Levi left here.

Immediately contacted the old ministries of all parties and began to search for Jun Jun’s whereabouts.

He sent all the strongest Western Heavenly Kings out, just to find out the whereabouts of Jun Jun.

Others are anxious like ants on a hot pot.

But the good point is that the other party did not directly attack Junjun, but took her away.

Obviously they have other plans.

Maybe it was for yourself.

Thinking of this, Levi was a little relieved.

Junjun at the moment did not leave Morendam.

She was taken somewhere in Morendam.

At this moment, the group of people appeared.

The most important thing is this group of people...

## Chapter 1788

Levi has seen this group of people...

It was in the cemetery near Fengtian City.

The Higashishima samurai entrained in the Anjia family.

When Levi was asked to face him upright, the group of people were strange and forced An Jia to apologize.

At that time, Levi realized that this group of people might have a conspiracy.

Let the Western Heavenly King send someone to stare at him.

But until now, this group of people hasn't shown any strangeness in the slightest.

Therefore, the observation of the Western Heavenly King has always been stable.

But these people are only planners, not implementers.

They didn't do anything, so the West Heavenly King's intelligence department would not find out.

It turned out that everything in Grand City Villa was planned by this group of people.

Now, they sent a strong man to capture Junjun.

"Ono-kun is fortunate!"

The crowd bowed to a shadow.

There was a shadow in the faint light.

That is Ono-kun in the crowd-Ichiro Ono.

He has a nickname called Shadow Warrior.

It means that he is like the shadow.

In addition to practicing Higashishima Kendo, Ono Ichiro also practices a special technique-ninjutsu!

If he hides, basically no one can find him.

He can hide anywhere, almost blending with the environment.

It is a bit like the leader of the God Killing Organization that Levi killed in the War Eagle Nation.

But when it comes to hiding technology alone, Ichiro Ono is stronger.

The powerful shadowman is the assassination technique, and Ono Ichiro's powerful is the invisibility technique.

So when Ono Ichiro captured Junjun, the four Lords of Tianlong did not respond.

Even Levi, who was relatively far away outside, didn't notice it either.

After all, Levi didn't notice a trace of energy fluctuations.

"My princes, my mission is complete! Now it's up to you all!"

Ono Ichiro quickly retreated.

After taking a look at Jun Jun, several Samurai Warriors of Toshima said in unison: “Okay, let’s start!”

Levi had a foreboding that this group of East Islanders had a premeditated plan, but he didn’t expect this group of guys to move so much.

Or come directly at him!

...

On the other side, Levi sent out all the forces that could be sent out.

Almost the entire Morendam was frantically looking for Junjun’s whereabouts.

Levi knew it was useless to worry.

He sat, calming his mind.

But my heart hasn’t calmed down.

He is forcibly calming himself down.

He regrets now and should continue to install the location tracking chip on Jun Jun.

Otherwise, he would already know where Junjun is.

regret!

After rescuing Jun Jun, he will implant the chip again.

The people in Tianlong were still staring at Levi.

“No? My daughter is lost, he is so calm?”

Looking at Levi, who was calmly meditating, the Earth Tiger was dissatisfied.

“That means his daughter was not lost at all!”

“I can’t stand it anymore!”

Finally they couldn’t help but walked out.

“Levi, you keep saying that your daughter was taken away by the enemy! Shouldn’t you go all over the world in a hurry to find it? How can you calmly meditate here?”

Huang Austin asked directly.

Levi didn’t open his eyes and said: “My Levi’s affairs are not your turn to take care of!”

“I’m in a bad mood, get out!”

Hearing Levi’s strong attitude, the Tianlong four became angry.

When have they been treated this way?

As the strongest Guwu institution in Morendam!

They are almost outside any rules, even Colin can’t order them.

Such status determines their nobility.

Who dares to talk to them like this?

Dare to tell them to go?

Eat the bear heart and leopard courage!

“Levi, I will warn you one last time, hurry up and hand over the child! Don’t force me to do it, I have tolerated you for a long time!”

Xuan Lang couldn't bear it anymore.

He wanted to challenge the King of Heaven for a long time.

“boom!”

Suddenly, Levi opened his eyes: “Then stop talking nonsense and start fighting!”

## The Protector Novel Levi Garrison Chapter 1789 – 1790

### Chapter 1789

This was Levi's most annoying moment, but Xuanlang Tianlong kept buzzing in his ears like flies.

Levi had the heart to kill.

He wants to shoot these four people out.

The Tianlong three wanted to stop it, but it was too late.

The rattling atmosphere is on the verge.

Xuan Lang looked very excited and sneered: “Let me try how strong is the top twenty?”

“One punch for you!”

Levi has raised his fist and is about to blast out.

“Rumble...”

Levi raised this fist.

The earth was trembling, and the wind gradually condensed.

An overwhelming momentum is coming!

The complexion of Tianlong people changed drastically.

The strong one in the sky list is really strong enough!

Even Xuan Lang's face changed drastically.

But he became more and more excited.

The stronger Levi is, the more interested he is.

Xuan Lang also began to run the strongest technique.

I am going to compete with Levi!

At the very moment of his death, the Western Heavenly King suddenly ran in in a hurry.

"Wang, there is news!"

She shouted at Levi.

A big battle was abruptly destroyed.

Hearing that, Levi abruptly retracted his fist and hurriedly left with the Western Heavenly King.

"Next time you won't be so lucky!"

Before leaving, Levi left a word for Xuan Lang.

Xuan Lang would be half to death with anger.

“Listen to him? I suspect he didn’t dare! Just avoid me like this!”

Xuan Lang said angrily.

Tianlong looked at each other.

“Is that really the case? Is he scared?”

They can’t think of other reasons.

After all, they always thought that Levi had hidden Junjun, not lost it.

“Go, let’s follow, continue to stare at him, see what tricks he has?”

On the other side, Levi followed the Western Heavenly King to Jiangbei Base.

“Wang, we just got information! Someone took Junjun to a small island in the East Velador Sea of Morendam, to openly find a Lord for Junjun!”

Levi frowned: “My daughter has someone else’s turn to find her a Lord? Has my consent been obtained?”

“Yes! And the condition for accepting the king as a disciple is to take out the treasure! Whose treasure is more valuable! Who can accept the king as a disciple!”

The words are not astonishing and the death is endless, when the Western Heavenly King said this.

Levi’s face changed wildly.

“What? How about accepting my daughter as a disciple like this?”

“You are challenging my bottom line!!!”

Levi's whole person is hostile, and there is a solemn killing between the world and the earth.

Everyone around him suddenly had difficulty breathing, or even suffocated.

The terrible hostility and murderous intent overwhelmed the sky.

After the Tianlong people arrived, they felt terrified.

"This, this... Isn't this evil? This terrible evil!"

This was the first time they had personally felt the hostility emanating from Levi.

He increasingly regarded Levi as a demon.

"If you don't get rid of this demon, Morendam will be messed up sooner or later!"

Several people of Xuan Lang had already given birth to a strong killing intent.

In the base.

Levi shouted wildly: "Quickly check it out! The specific island! What time is it! Check it out for me as quickly as possible!"

"I don't care who it is! You really provoke me this time, Kill Without Mercy! Kill Without Mercy!"

...

Levi was very angry, very angry!

How could he not be angry when his daughter was taken into a disciple like this?

"Everyone is dispatched, find it for me!"

Levi also asked Xiao Feng and his secret team to find someone.

He even gathered all the evil ways to recover.

Let them find it too.

Perhaps these people are more informed.

It just happened that the gathering of evil sects and crooked ways was really seen by the Tianlong four.

“What does Levi want to do? With so many evil sects, is he going to turn around?”

The Tianlong four were frightened.

“Immediately notify the Tiance Mansion and the Baolong clan, let them send someone! Hurry up, hurry up! Levi is here to make a big move!”

...

That's right.

Jun Jun is to be accepted as a disciple.

This is their plan.

## Chapter 1790

With Junjun's super talent, once the news of his apprenticeship is released, everyone is afraid that everyone will be snatching it!

Whether it is Morendam's power, or global power.

Everyone wants it!

However, the news of Jun Jun's apprenticeship did not spread to the East Island on a large scale.

Even secret to the extreme.

No news will be released.

And what about the forces that want to accept disciples?

It was they who sent out the invitation letters one by one.

The forces receiving the invitation, for their own benefit, naturally kept silent.

Therefore, no one knew about the news of Junjun's apprenticeship except for those who were actively invited.

Although the news of the apprenticeship reception this time is closed, there are still many people invited to participate.

On an unknown island somewhere in the East Velador Sea, it is in the depths of the East Velador Sea, where storms converge.

This place happens to be in the restricted area.

Most of the time, even satellites cannot be detected.

Airplanes and ships generally avoid this area deliberately.

But the warriors of Toshima chose to accept the monarch on this small island.

Therefore, even if the Western Heavenly King has the strongest intelligence agency, it is difficult to find here the first time.

On the island.

The Samurai of Higashishima came here early.

A helicopter fell, and several Lords brought Junjun here.

The venue has long been set up.

Jun Jun was locked up in the background.

Junjun blinked his big eyes without making a sound, crying, or making trouble.

Seeing her serious attitude looking around, she seems to be thinking of a way.

Although Junjun is young, she is a sensible child.

The experience that was different from that of other children since childhood has made her mind far more than ordinary people.

Jun Jun held his small hand tightly, and sighed that he was still not strong enough.

The only thing she was waiting for was Levi's rescue.

But she also needs to do what she can.

Like remembering everyone present.

Even if they are all masked, she still has to remember the characteristics.

Even their own words, Jun Jun must remember all of them.

When the time comes, let Dad have more clues.

The leader of the Toshima Samurai, covering his face, sneered: "Let's take a look at the first genius seedlings of the summer. How much value can it bring us?"

"Hahaha, wait and see!"

Everything is ready.

Then wait for the forces that want to accept disciples to come.

“Rumble...”

Soon after, there was a rumbling sound over the island.

A helicopter arrived.

The first one entered.

From the ancient power of the Great Dragon Palace in Morendam, the lord of the mad dragon war god.

The strength is close to the eight heavens!

The nineteenth strongest in the summer!

One rank higher than Levi!

In fact, after the covenant of the gods and various disturbances, various ancient forces have emerged one by one.

But the stronger and more ancient forces are still in a state of seclusion.

Never appeared.

I don't know where this group of East Island invited them from!

It is enough to show that they are great!

“Rumble...”

The second one entered.

Venerable Xuan Lei, the lord of Xuan Lei Palace.

The 15th strongest in the summer list!

...

The third entry.

The lord of Fenglei City, Fengleijian Supreme!

Thirteenth on the Big Summer List!

...

The fourth place enters.

The fifth entry.

...

Soon representatives of more than a dozen forces entered the venue.

Almost the eleventh to twentieth on the Big Summer Ranking are here.

“The sixteenth person enters!”

“He is the Xuanming Sword God from Xuanming Hall, ranking twelfth in the Great Summer List!”

“The seventeenth person enters!”

“He is a Wulong Taoist from Wulong Mountain, famous for his spells! Ranked eleventh in the summer list!”

...

After the two entered the arena, everyone gasped.

Except for the top ten in the summer, all the others are here.

Half of the sky list, this is terrible!

Not only Morendam forces came.

Together with the neighboring countries around Morendam, dozens of powerful ancient forces have also arrived.

Most of the invited forces have come...

## The Protector Novel Levi Garrison Chapter 1791 – 1792

### Chapter 1791

It can be said that the strong are gathered.

One power is greater than one power, and one is older than the other.

Most people in the world have never heard of it.

But all of them are terrifying to death.

Especially half of the big summer list has come.

Think how terrifying Jintianwang is?

But here is someone who ranks above him!

They are so scary!

After another half an hour, all the disciples to be accepted finally arrived.

A grand gathering of apprentices is about to begin.

Only Jun Jun is to be accepted.

This is clearly the conspiracy of the Samurai Toshima.

The specific conspiracy has not been revealed yet.

Jun Jun's talent is too high.

Known as an unparalleled genius.

Even the top players in the sky list want to bring them back to train and become the cornerstone of their power in the future.

So Junjun was mentioned in the invitation letter, and half of the summer list came one after another.

"I want to take away this little baby to accept a disciple. What are your conditions?"

Venerable Xuan Lei, the Lord of the Palace of Xuan Lei, said coldly.

This sound came out as if thunder was roaring.

It shook everyone's ears buzzing.

"Hello, Lord Xuan Lei, the conditions for accepting this little baby as a disciple are very simple, it depends on what you change? Everyone present is the same! Whoever exchanges the most value, who belongs to this child!"

"And we guarantee that after accepting this child as an apprentice, we can leave this island safely!"

After hearing the explanation of this group of forces, everyone gradually understood.

Many people are also relieved.

Some are slightly weaker, afraid that they will be robbed directly by the strong after taking the emperor as a disciple.

But with the promise of the East Island forces, they were relieved.

After accepting the apprentice monarch, they can leave safely.

Because so far, everyone does not understand the power of this arresting Junjun.

But the other party has all their information.

So everyone is sure that even the most powerful Wulong Taoist will not easily challenge this mysterious force.

Therefore, after accepting the monarch as a disciple, it is absolutely safe.

In this way, the apprenticeship gathering is the most fair.

After they formulated the rules, everyone began to think, what on earth should they take to accept the monarch as a disciple?

The people present are all super-big people, and there are certainly not few treasures in their hands.

It depends on who has the greatest value.

The apprentice-receiving conference is about to begin here.

Levi and the others haven't found where the island is.

Especially the Western Heavenly King they are looking for like crazy.

Levi was anxious like an ant on a hot pot.

During this period.

Many people have looked for him.

For example, Sarah dyes them and asks him to hand over the children and stop making trouble.

Colin also approached him and asked him what's going on.

...

The more this time, the more people asked, the more annoying Levi was.

If there is a provocative person like Xuan Lang, Levi guesses that he will really kill.

However, Tianlong's request for support is already in place.

The Lords of Tiance Mansion and Baolong clan had already arrived on the road.

They still stared at Levi.

Whenever there is a turmoil, they will act first to stop Levi.

Hurry!

The cold sweat on Levi's forehead!

Knowing a little clue, but can't find it, how anxious this is.

At the same time he blames himself very much.

At the beginning, he shouldn't be soft-hearted, and he shouldn't let Levi come to Tiance Mansion, otherwise this stall happened.

This also blames these guys in Tiance Mansion.

"Ahh!"

Levi roared angrily.

If Junjun made any mistakes, he would never forgive himself in his life.

Jun Jun was obviously lost, and many people wronged him and hid him.

But at this time, Levi didn't care about all of this.

“puff!”

Anxiously, Levi couldn't hold back his heart, he opened his mouth and shot out blood.

“Check, I found it! Wang, the island has finally been found!”

At the moment of despair, news of the Western Heavenly King came.

## Chapter 1792

“The location is on an island somewhere in the East Velador Sea... the specifics are all inside!”

The Western Heavenly King marked the location.

“Go, immediately arrange the fastest transportation for me!”

Levi couldn't wait to fly over immediately.

It's just that his strength hasn't reached that level yet.

Soon, King Xi Tian arranged a supersonic fighter plane to carry Levi to the small island in the East Velador Sea.

As soon as Levi moved here, the Tianlong four immediately became alert.

“Hurry up and find out where Levi is, let's follow!”

“Also, let the support of Tiance Mansion and Baolong clan divert the way and keep up with us!”

...

Tiance Mansion also chased up immediately.

After all, Levi’s whereabouts were not a secret.

If they forcefully use commands or means, it is easy to know all this.

Levi is in front, and they are behind.

Levi on the plane had only one belief, quickly reached the island and rescued Junjun.

On the small island, the apprenticeship meeting began.

The various forces displayed valuable things one by one.

“My treasure is a top combat skill... Cang Ming combat skill!”

“hiss!”

After hearing this, everyone took a breath.

Have you taken out this combat skill?

too frightening!

“My treasure is a celestial spear!”

“hiss!”

Looking at the dazLawrenceshen Gun, everyone took another breath.

The god spear is cast from meteorite iron from the outer world, and is known to pierce everything.

Whoever owns it will definitely increase in strength.

“The things I took out are some priceless treasures...”

...

Then the major forces began to show their treasures one after another.

Each piece is invaluable, and the sound of cold breath is endless.

But the Higashishima samurai looked calm.

Obviously none of these things are what they want.

The really powerful characters haven't shot yet.

Dozens of forces in the countries around Morendam also showed their trump cards one by one.

The apprenticeship meeting has gradually reached a climax.

The value of their treasures is also greater than that of one item, and they are all treasures that have caused a sensation when they are taken out.

But the leaders of the Toshima samurai still shook their heads.

After all, these things still fell short of their expectations.

“I come!”

At this time, the lord of Fenglei City Feng Lei Jian Zhizun stood up.

“My treasure is a Heavenly Frost Sword! It is cast from the fusion of thousands of years of profound ice, and it is comparable to my Wind Thunder Sword!”

Feng Lei Jian Zhizun took out a sword.

Suddenly, the temperature in the entire area dropped, and everyone felt a deep chill.

Seeing this sword came out, the eyes of the Samurai Higashishima slowly lit up.

This is what they are interested in.

“My treasure is a magic medicine! It can transform an ordinary person into a Seventh Heavenly Powerhouse!”

After Xuanming Dao Shane, the Lord of Xuanming Hall, appeared on the stage, everyone was suffocated.

Isn't this magic medicine terrible?

The eyes of the Higashishima samurai were bright again.

They are more interested in this.

The usefulness of this magic medicine is too great...

The efficacy of the medicine can be said to be amazing!

But then, everyone turned their attention to one person.

The eleventh Five Dragon Taoist in the Big Summer!

He is different from the martial artist, he is practicing Taoism.

But strong warriors have to bow their heads.

Otherwise, it won't be eleventh on the list.

Now he is the only one left in the court without any treasures.

Taoist Wulong had a cold face, he had a look in his eyes.

The apprentice next to him immediately took out a wooden box.

“My Lord's treasure is one of the magic weapons of Wulong Mountain-God Lei Yin!”

The little apprentice said.

The magic weapon of this kind of Taoism is the same as the weapon of the warrior, which adds to the combat effectiveness.

In fact, the magic weapon is easy to understand.

In ordinary people's lives.

For example, the elderly like to go to temples and Taoist temples to ask for something, pray for fortune and increase luck.

This is actually the same as the magic weapon.

It's just that the god Lei Yin of Wulong Taoist is here to kill...
