

The Protector Novel Levi Garrison Chapter 1871 – 1872

Chapter 1871

Although many geniuses are super powerful!

But the other party specifically targeted, these geniuses only have to be slaughtered!

Except for Fu Jia who was “locked up” by Levi, and Junjun who was taken away by Tiance Mansion.

All other Morendam’s geniuses have received special care.

Together with the legendary top three places, they all encountered assassinations.

However, the top three in the rankings are obviously not at the same level as other geniuses.

These three abruptly killed them.

Despite being seriously injured, they killed all the assassins and escaped.

But he was also hit hard and paid a great price.

...

“What’s the matter? You call it ineffective! You let the top three of the most important rankings escape?”

“You all know that the top three places are extremely scary, why don’t you send more people? What if they are exposed?”

...

The leader of the East Island forces was extremely angry about the escape of the top three on the ground list.

“It’s because the subordinates are not doing things well!”

“However, the top three of the rankings were scattered and disappeared! They can’t return to their respective powers at all now! We still have a chance!”

The leader commanded: “Send someone to destroy them immediately! Find them before others!”

“In addition, news came out immediately! It was said that all this was done by the forces of the evil gods! Levi was defeated and taken away! The seven evil gods were angered! Only then will they retaliate wildly! Abolish the strongest geniuses of Morendam! “

“understand!”

Everyone shouted.

“Now our purpose has been accomplished! Da Xia’s future has been broken! Da Xia’s foundation will also be cut! And now the righteous way and the evil spirit are still in dispute, the Da Xia martial arts world is already badly injured!”

“This is an opportunity for my Higashishima martial arts world to rise! We will surely be above the top of the world!”

There was ecstasy on everyone’s face in the East Island forces.

...

Hundreds of geniuses were abandoned overnight, and when everyone heard the news, everyone would go crazy.

Morendam boiled the fryer for a while.

This thing is terrible!

This is ruining the future of the Morendam martial arts world!

The ancient forces are extremely angry.

Seeing the heirs lying on the ground and becoming a waste, everyone is heartbroken.

“Who? Who did it? I don’t share the same spirit with them!”

...

Colin, Tiance Mansion received this news one after another, which was also shocked.

In particular, the responsibility of Tiance Mansion is to protect the Morendam martial arts world and ensure its prosperity.

Mainly to cultivate and guard the younger generation.

But such a sensational event happened all over the world overnight!

“All geniuses have been abolished? If this is going to break the foundation of my Morendam martial arts world! This, this...who did this? Hurry up and investigate!”

At this moment, the news came out: it was made by the seven evil gods!

The descendants of the Heretic God were arrested, angering the Seven Evil Gods.

They abolished the geniuses of the Morendam martial arts world overnight, in order to retaliate!

As soon as the news came out, no one doubted it.

After all, in Morendam, there are not many forces that can do this overnight.

There are only the Tiance Mansion, the Baolong clan, and the power of the evil gods.

No one wants to go overseas at all.

But where do they know.

During this period of time, when the martial arts world in Morendam was in chaos, the gate of the country was wide open.

The influx of international forces.

The East Island forces even arranged a lot of Lords in Morendam, so there will be such a lightning operation.

This was premeditated.

Everything was arranged early!

“The power of the evil gods must be eliminated! The seven evil gods must die! How dare they ruin the future of the Morendam martial arts world!”

...

Everyone was extremely angry.

“Huh? What? The seven evil gods did it? How is this possible?”

Wen Lei was surprised when she heard the news.

After receiving the order from Levi, the seven evil gods stayed by their side last night.

Chapter 1872

How could they retaliate?

What's more, Wen Lei asked, Levi's order to them was to stop.

They will not retaliate.

Wen Lei immediately realized that someone was framing Levi.

it is as expected!

In the Shenlong base, she had said that Levi would never do anything to endanger Morendam.

Hearing the news, Ichiro Ono, who was locked up, smiled and shouted: "Long live Datoshima! We won!"

"I will kill you!"

Blood Cthulhu furiously said.

"Forget it!"

The others stopped him.

Wen Lei discussed with the seven evil gods: "Now we should tell everyone that you have been wronged!"

"Although we have been collecting evidence, the evidence is insufficient, and now the little Lord has been arrested! It is difficult for us to get rid of the charges!"

"Yes, that's right, we will be surrounded and suppressed like never before!"

...

Everyone didn't notice that there was a ghostly shadow that appeared and secretly rescued Ono Ichiro.

The Oni Samurai spoken by the East Island forces appeared.

Originally, he was going to kill Ono Ichiro, but now he can save it.

“OK?”

“Where is Ono Ichiro? Why is it gone?”

Someone quickly discovered that Ono Ichiro disappeared.

The point is that no one is aware of it.

Also, Wen Lei is still not proficient in using her super powers.

Otherwise, Wen Lei could feel the energy fluctuations.

After all, her current perception ability is already at the top level.

“No accident, he was rescued, our place is also exposed, we must change places as soon as possible!”

Sword Evil God said.

“Okay, withdraw immediately!”

The crowd left quickly.

Sure enough, as soon as they left, a Lord came from this place.

Levi, who was locked up in the jail, was very worried about the situation outside.

He often asked, but no one paid any attention to him at all.

“boom!”

At this moment, the door was kicked open.

Tianlong and his party rushed towards Levi.

“Levi is doing a good job of your subordinates!!!”

Xuan Lang roared.

“what’s happenin?”

Levi asked.

“You were locked up by us, and the seven evil gods wanted revenge! All the 576 geniuses of Morendam were abolished overnight, and they could not cultivate martial arts forever! There is also the top three Tianjiao who is currently seriously injured and whose whereabouts are unknown. !”

“They ruined the future of the Morendam martial arts world almost overnight!”

“Damn! You crooked ways are damned!”

...

The popularity of the crowd was anxious, and they could not wait to kill Levi.

“Hey!”

After Levi heard this, his heart sank.

It turns out that this is the second plan of the East Island forces.

Is to ruin the future of the Morendam martial arts world!

insidious!

Sure enough!

While everyone's attention is on themselves, the East Island forces can implement their plan...

"I told you about this a long time ago. This is a conspiracy of the East Island forces... This is their second plan..."

Levi slowly raised his head, staring at several people with blood red eyes.

"I thought Tiance Mansion was led by some wise people, and now it seems to be a bunch of idiots! A bunch of big idiots!"

Levi roared.

"Levi, you are presumptuous! How could you insult Tiance Mansion?"

...

Levi's words angered everyone.

"Lao Tzu was wronged! Someone instigated discord. How many times do you have to say it before you believe it? A bunch of idiots and idiots!"

...

Levi simply cursed.

"So good, Levi, let's tell you! It is the dragon chain of Tiance Mansion that locks you! Once locked, you will never break free! You must be locked here for the rest of your life!"

"As for your family, don't even want to see it!!! Impossible!"

A few people hurriedly left.

A murderous intent crossed the corner of Levi's mouth: "Have you finally said your true thoughts?"

The Protector Novel Levi Garrison Chapter 1873 – 1874

Chapter 1873

In fact, Levi had guessed it early on.

They just want to trap themselves, and then put out everything about him from their mouths.

But he was betting that he could see his mother and children.

Wrong bet now!

Something happened!

He must resist.

Can't listen to them anymore.

Chain dragon chain, right?

Then I will open it and have a look!

Levi tried his best to break the chain of the dragon.

"Clang Clang..."

But the result was unexpected. The chain dragon chain only made the sound of metal clashing, and the nine iron chains vibrated greatly.

But there was no trace of cracks at all.

On the contrary, the chains that penetrated Levi's bones and flesh became tighter.

Levi's bones were squeezed, and his flesh and blood were squeezed, dripping with blood, and quickly stained his body.

"This..."

Levi's face changed.

This is really invincible!

"Levi, don't waste your effort! No one has ever been able to open the Dragon Chain of Tiance Mansion! Once locked, it will never be opened until you die!"

"What's more, the more you struggle with the lock dragon chain, the tighter it will become! It can even crush your bones!"

Tianlong and the others laughed when they saw Levi breaking free from the chain of dragons.

Levi is wishful thinking, right?

How can it be!

"Levi is struggling slowly! I like to see you struggling!"

Xuan Lang laughed.

...

After Levi struggled a few times, the chain of the dragon became tighter and tighter.

The blood of Levi's wound kept flowing, and a large pool was soaked under his feet.

But Levi didn't hum.

"No! I have to calm down!"

Levi no longer moves.

He was thinking about how to open it.

He must not be trapped here!

He cares about too many people or things...

I can't get stuck here!

Seeing Levi no longer struggling, Tianlong and them all smiled.

"Struggle? Is it useful? No one can escape from the chain so far?"

With that, a few people left.

They no longer looked at Levi.

Let me put it this way.

With the dragon and chain, they don't need to send someone to guard it.

Levi couldn't escape by himself.

Even if someone came to rescue, they couldn't break the dragon chain.

This is a dead end!

On the other side, the top three Tianjiao were hunted down and eventually they were trapped in a deep mountain.

Under persecution and helplessness, I was driven into the cliff and deep valley, and I couldn't find it at all. I don't know if I was alive or dead...

The Lords of the East Island forces searched for a circle, but they didn't find anyone before they left.

They can't find it, so others don't want to find it either.

The chance of survival of the top three Tianjiao is almost zero.

Even if he survived by chance, he would have been seriously injured long ago and would still die if he didn't get timely medical treatment.

The result of nine deaths is enough for them.

They all destroyed Morendam's Tianjiao.

Tiance Mansion and the major forces searched for a circle, but still did not find the top three traces.

This shocked and sorrowed the Morendam martial arts world.

This is hope!

It took great effort to cultivate!

That's it!

Genius can be cultivated again!

Sufficient resources!

But there are no seedlings!

The best seedlings have been destroyed.

There are no more seedlings better than this, at least ten or twenty years have to be waited.

Can't wait!

"I blame Levi! I blame the seven evil gods! If it weren't for their revenge, could there be this situation?"

"I suggest that Tiance Mansion punish Levi and have a death sentence! Let all those outsiders who write about demons have a look!"

"The other seven evil gods and others are all dying!"

...

Badly hurt!

The vitality of the entire Morendam martial arts world is greatly injured!

Especially the younger generation!

After moving to a safe place, Wen Lei found that there was something wrong with Sarah's face.

"Sarah, what's the matter?"

"I just heard the enemy's name!"

Sarah's eyes were full of killing intent.

"Who is your enemy?"

Chapter 1874

“Levi!!!”

Sarah gritted his teeth, and the breath on his body gradually became terrifying.

This stunned everyone.

Isn't Levi her husband?

How did she become her enemy?

This makes the seven evil gods very puzzled.

“No, Miss Logan, isn't your husband...”

They were just about to speak, but Wen Lei stopped them.

“Do you remember Levi?”

Wen Lei asked tentatively.

“I remember he was my enemy! I must kill him when I see him!”

Sarah's eyes were breathing fire.

“I heard that he has been arrested and will be executed another day! What a delightful feeling!”

Sarah was very refreshed when he heard the news.

Wen Lei's observations during this period and the remarks made by Sarah just now.

She has figured out what's going on.

It must be Wood Zhengjie's consciousness that hit Sarah's mind and was merged.

Because of Wood Zhengjie's consciousness, Sarah suffered from memory loss.

He also regards Levi as the ultimate enemy, this is Wood Zhengjie's consciousness at work.

His enemy is determined to be Levi.

This situation is very difficult!

Rao Wen Lei couldn't think of how to do it for a moment.

Especially Sarah is still a superpower now, which is even more difficult.

...

Tiance Mansion.

The high-level thunder is furious!

The Lord of the dark pavilion knelt on the ground.

The Cefu and Baolong clan will be dispatched tomorrow.

Why can this happen.

Who is not angry?

"Now Da Xia Xia arrogance has been abolished! Lin Tianlong and Fu Jia are also in the hands of the evil gods! It is no different from the abolition! Now it seems that only Junjun is left?"

"Pass on my orders from now on! No one can make any idea about Junjun and Regina! Tiance Mansion will gather resources to cultivate them! This is the only hope left in the Morendam martial arts world!"

"No one can touch this child without our orders!"

“And the geniuses who have been abolished should try their best to remedy them. If they can be rescued, one can count one!”

...

The senior officials of Tiance Mansion made such a decision.

Let the dark pavilion’s plan shattered.

Originally, they wanted to use Jun Jun and others to threaten Levi and tell the secret of Huoyun Cthulhu.

If Levi knew, he would surely solve his worries.

At this moment, Levi had been thinking about it for a long time.

There are two reasons why the lock dragon chain cannot be opened.

First: the device of the lock dragon chain. The nine chains are all complementary to each other, and there are exquisite organs designed inside. If you move one chain, the other chains will be punished accordingly, making it tighter and harder to open.

Second: The material of the chain dragon chain is made of rare meteorite iron from the outside world, coupled with the methods of Lords of magic and experts, make the chain dragon chain indestructible! It can’t be opened at all! Whether it is a powerful person, or various artifacts, or modern weapons, they cannot be opened.

That’s why they have such confidence that no one is watching Levi.

Because they knew that they couldn’t escape at all.

Levi took a deep breath.

“Lord is planning for the present! I can’t help it! I can only use taboo techniques!”

Levi muttered to himself.

In fact, the taboo technique was not directly passed on to him by the cheap Lord.

It was left in that ancient book.

It cannot be used despite warnings.

But at this moment, Levi couldn't help it.

Can only be used!

His strength can't shake the chain of the dragon.

The taboo technique should work!

He must try it!

"I don't believe that the dragon chain can't be opened!"

It's a moment of jeopardy.

Outside, explosive news came out.

Commoner Killing God, who is second in the rankings, has come forward.

He made a statement-claiming that Levi was not defeated by him, and he had never encountered Levi.

When the news came out, Quan Morendam was shocked.

It was not Levi who was defeated by Commoner Killing God.

Who defeated him?

The Protector Novel Levi Garrison Chapter 1875 – 1876

Chapter 1875

This is everyone's question.

Who defeated Levi?

Everyone was dumbfounded.

Who made the hand?

The Tiance Mansion and the Baolong clan are not!

Kyushu Xuanzun is still in retreat!

The number one Nandi Bass Nantian disappeared for many years.

In this way, no one seemed to be able to defeat Levi.

So who did all this?

Not just everyone in Morendam was dumbfounded.

Together with the East Island forces, they were also dumbfounded.

Isn't it the commoner to kill the gods?

So who did it?

Is this person from Morendam or overseas?

Is there any benefit to yourself?

Just now they were immersed in the joy of hitting the Morendam martial arts world.

The news came, making them stunned.

At this time, Richard of the Eagle Nation contacted them unexpectedly.

“Man, you did a great job! You are much better than us!”

The leader of the East Island forces smiled and said: “I still can’t compare with you, Mr. Richard! We are just using conspiracy and trickery to shoot cold arrows! You are the bold move!”

“Haha, but we failed, you succeeded! I think we can cooperate more? Because of your actions, we benefited a lot this time and completed our mission in Morendam!”

“Cooperation? Yes! Can’t ask for it!”

Richard smiled: “Okay, happy cooperation! I also send you a message! The one who defeated Levi is actually his wife! She...”

Richard told all this to the East Island forces.

“We understand, it turns out that’s the case!”

“I think we can make a fuss on Levi’s wife! Since she can defeat Levi! With a little use, she can also do a great deal of damage to Morendam!”

“Okay, look forward to the next cooperation! Let’s do a big job!”

...

Two organizations that are good at conspiracy have even cooperated.

This is a disaster for that country and power!

Morendam martial arts world was hit hard.

Next, they will definitely make big moves.

The entire Morendam was in doubt.

I still want to know who defeated Levi!

Levi in the prison finally used the taboo technique.

I have to say that Levi is extremely talented.

Although there is a warning in the ancient books left by the Lord of cheapness.

But one more point was also written.

This taboo technique is very difficult to practice!

Even if the talent is extremely high.

However, Levi was trained.

“The Art of Taboo!!!”

Levi let out a low voice.

Use one of the taboo techniques.

“His hiss...”

A terrible anger erupted from his body.

The infuriating energy turned into black and burned like a raging flame.

The black true spirit enveloped the nine chain dragon chains, which was torn apart by the terrible burning.

About ten minutes later.

A terrible scene appeared.

“Crack!”

“Crack!”

...

Nine lock dragon chains are broken one by one!!!

The implied mechanism is useless at all!

This is not a chain of dragon chains that is split, but nine at the same time, so the mechanism does not take effect.

“Crack!”

As the last chain dragon chain broke.

Levi broke free completely.

“boom!”

He used True Lloyd to shake all the chains stuck in the flesh and bones!

“Chalong chain? That’s it?”

“No one opened anything? That didn’t meet me!”

Levi then left here.

No one happened to watch.

After learning that Levi was not defeated by Common Killer God, Tiance Mansion immediately sent a few people from Tianlong to inquire about Levi.

Who defeated him?

“Huh? There seems to be something wrong!”

Several people felt something was wrong outside the prison.

Everyone immediately ran into the prison.

When they saw that the prison was empty, they were all frightened.

This this this...

People

Where is Levi?

Several people from Tianlong ran to the front and saw the nine broken chain dragon chains completely stunned.

This...

“Levi actually opened the dragon chain? He ran away? My God!”

Chapter 1876

“Puff!”

Tianlong watched the unbelievable scene in front of him, and directly sat down on the ground.

Horrorified!

Everyone's eyes have to fly out!

How is this going?

The chain of the dragon is broken?

how can that be!

Tiance Mansion has always been, no matter how powerful it is, as long as it is locked by the dragon chain, it cannot be opened at all.

There is no possibility!

There is no precedent!

But on Levi's body, the chain of the dragon was broken!

this is too scary!

Xuan Lang carefully looked at the broken part of the chain dragon chain, and whispered: "This was caused by terrible burning and terrifying power! This is too terrible! Who in the world can have such terrifying power? This is impossible. !"

Huang Fox shook his head helplessly: "If you don't believe it, there is no way, the chain of Suolong is broken, and Levi has escaped!"

"Is it Levi's own strength? I don't believe it! I think someone saved him!"

The eyes of the Tianlong people were unbelievable.

"Others rescued? Who dare to ask who has the power to open the chain of dragons?"

"It's better to spread the news as soon as possible!"

...

“Levi has escaped!!!”

“Levi has escaped!!!”

...

The whole dark spot was in a mess.

Tiance Mansion and Baolong clan soon received news that Levi had fled.

Shocked up and down.

The main reason was that the Chain Dragon chain was broken, which is equivalent to defeating the dignity of Tiance Mansion!

No one has ever done it in history!

Their cognition is about to collapse!

They never thought that one day someone would open the dragon chain!

This is equivalent to telling them that the earth is not round, but flat!

Even the facts have already happened!

But everyone still doesn't believe it!

How could the lock dragon chain be opened?

This is impossible!

Resort in the villa.

Several people in Tianlong looked sad.

“Now it’s all right, Levi is gone! The top management has ordered to train Levi’s children and sisters! No one can touch them! We don’t even have the cards to threaten Levi! What should we do now?”

“Our pavilion owner suggested using Junjun and a few people to coerce Levi back, but was rejected by the high-level! The pavilion owner was also punished! We warned everyone not to touch the children! Otherwise, you will kill them!”

“Hey, this is a big trouble! Double blow!”

...

Several people discussed.

Levi did not leave directly, but hid in this holiday villa.

Hearing a few people’s conversation, he secretly breathed a sigh of relief.

that is really good!

The actions of the East Island forces have caused severe damage to the genius seedlings.

Originally, Junjun had the talent to be the only one who had no king. Who would dare to make a fuss about her now?

It must be offered as a treasure in Tiance Mansion!

His worries are gone!

Now that the second plan of the East Island forces had been successful, it would be useless for him to remedy it.

For the present plan, first find Sarah and the others.

Now Levi has established a special contact with the seven evil gods.

After Levi left here, he quickly contacted the seven evil gods.

And hurried to where they are.

Suddenly, an explosive news spread out——

Levi, the descendant of the Heretic God, fled from Tiance Mansion and disappeared!

Not long ago, the news released by Commoner Killing God, everyone was still immersed in doubts.

Now there is another heavy news, everyone is scalp numb.

“What? Levi escaped from Tiance Mansion? Is he really terrifying to this level?”

“Even Tiance Mansion can’t keep him? Then who else can control him?”

“No, who was it that defeated Levi in the first place? I beg him to make another movie!”

...

Richard and the East Island forces are planning the next step for the United States.

Hearing this news, I was shocked.

“What? Levi escaped???”

Richard’s eyes were about to fly out.
