

The Protector Novel Levi Garrison Chapter 1907 – 1908

Chapter 1907

These people dared to come to Morendam to run wild, and they also asked him for trouble.

Isn't this looking for death?

The rattling atmosphere is on the verge.

The evil god of poison is a bit more worried!

At first, he didn't think there was any problem. After all, Levi's strength was obvious to all, and he ranked first in the summer.

But these five spirits were revealed, and the poisonous god panicked.

These people are too strong and too strong.

Victory is not necessarily true!

What's more, these people are not the core powerhouses of the Bible organization!

They seem to be in trouble!

"Levi, you asked for it!"

Feng Xie Shane shouted angrily, and the wind was raging between his hands and feet, and he wanted to uproot the whole place.

The evil spirits also shot, and the violent fighting spirit broke through the sky.

The other three also took action, they are superpowers who control ice, fire and electricity!

It's just super strong!

When the five people make a move, they are earth-shattering, and they directly control the power of heaven and earth!

Strong wind, ice storm, flame, thunder and lightning, and the invincible combat power of the evil god!

Levi quickly fought with a few people, and the evil spirit poison wanted to intervene, but couldn't get in.

The area where the six people are fighting is surrounded by terrifying wind blades and wind walls!

Even if he rushes up rashly, he will be strangled to death!

His poison is also difficult to use in the first time.

Powerful and terrible!

The five dark angels joined forces, and it was truly terrifying!

The world is discolored!

These are the five dark angels specially tailored by the Bible organization for the first in the summer list!

The five dark angels are not only powerful and extremely powerful, they also cooperate with each other in tacit understanding.

Five people can definitely beat the top ranking list (the number one evaluated by the Bible organization)!

It's a pity that the assessment they made was the first strength in the previous summer.

But this time the person is Levi!!!

After fighting for a while, Levi had already figured out the strength of the five!

Is very strong!

But compared to him after the transformation, he is nothing!

"It's me!"

Levi yelled: "The king is over the world!"

This is a trick he created after reversing the practice.

To converge and compress all the forces into a single burst will destroy the world.

That was the trick that shook the sky of the Excalibur!

Bring all the power together and burst out!

Later, Levi felt again, not only to converge in one spot, but also to compress to the extreme!

This burst out to be stronger!

He named this trick after himself!

"Buzzing..."

Suddenly, the heavens and the earth were all silent, and in an instant, the energy in the heavens and the earth gathered towards Levi!

The power in his body also condenses towards the right fist!

Convergence is complete, and extreme compression begins.

The compression process was about to tear and explode Levi's body.

Especially the right fist is extremely deformed!

“Boom!”

Compressed to the extreme, Levi hit the ground with a fist.

Suddenly, the terrifying energy was released in an instant.

“Rumble...”

The whole earth was trembling, as if the most terrible earthquake was coming.

Tear everything, and the earth will fall apart.

The terrible power burst out.

“puff!”

Wind Cthulhu is seriously injured and flying!

“puff!”

The evil god is seriously wounded and flies away!

...

The five dark angels were bombarded by terrible energy bursts one after another!

Their ice, fire, wind, thunder and other powers of heaven and earth were instantly blasted away...

The five people's physiques specially tempered by the Dark God cracked one after another, and it seemed that they were about to explode.

All five were seriously injured and dying.

The eyes are full of horror!

Is that human being?

It's not that the first strength of the previous big summer rankings is just that, the five of them can completely win it together.

What's wrong with Levi?

Is he invincible?

The evil god of poison was also scared silly.

He had just issued a special distress signal, and the other six evil gods were on their way.

But it was solved so soon?

"The legendary celestial doctor is still an invincible Lord!"

Several people passing by just saw the battle.

Chapter 1908

They just attracted passively.

They didn't hear the conversation between Levi and the five dark angels.

They didn't even know Levi's identity.

But the battle scene can be seen.

The Peerless Heavenly Doctor who has been famous recently in Morendam is actually a super strong?

Isn't Levi, who is the number one in the battle powerful, inferior?

I believe that this news will spread throughout Morendam soon.

...

The five dark angels looked at Levi incredulously, unable to imagine that he was so strong!

It seems that they cannot escape today.

But Levi sneered and said: "This time I will spare your life, and go back and tell you Lord, don't bother Lao Tzu, I won't be so lucky next time, come and kill one! Come and I will kill one pair!"

Levi was in a good mood.

A Lord just tried this trick he created: King Over the World.

If he practiced and improved repeatedly, he might not have the power of taboo.

"Okay, you wait!"

The five dark angels left dingy.

This is the greatest shame in the history of the Bible Organization!

Although they have not been established for a long time, they have never failed each mission.

This is the first failure!

Five people will face severe punishment when they go back!

There is even a danger of death!

...

“Okay, go away!”

Levi left with the evil god of poison.

Seeing the two leaving behind, everyone sighed that Da Xia was saved!

Levi is no longer the only one to dominate!

Now there are dead people coming out of the mountain!

After the two of Levi went back, they told the rest of the matter.

“What? My God! The Bible organization is so terrible? I thought the Evil God was the boss!”

Everyone was very surprised.

“According to what they said! The Evil God is the top eighteen dark angels, but it is by no means a figure in the forefront of the Bible organization! This Bible organization is a bit scary, I hope not to target Morendam! Otherwise, I will fight with it to the end!”

Levi said coldly.

...

At this time, the news that the Peerless Heavenly Doctor was a powerful martial artist had spread throughout Morendam.

“Let me just say it! There are too many strange people and strangers in Morendam! Levi and the others can’t get arrogant!”

“That’s right! Don’t think Levi is the number one in the summer list, someone will clean them up!”

...

For a while, those who wanted to kill Levi clamored again.

Thousands of people even petitioned for this peerless expert to compete with Levi.

Tiance Mansion and Baolong clan have been silent for a long, long time.

Since Suolong Chain was broken by Levi, they never made a sound.

However, they were not very worried about Levi.

After all, Levi’s children are now nurturing.

And Sarah, who regarded him as an enemy, was also in Tiance Mansion.

With these factors, they believed that Levi would never mess around.

Sure enough, Levi’s disappearance during this period proved their idea.

But where do they know, it has nothing to do with people.

No matter what, Levi would never do anything to harm Morendam.

...

In the most mysterious place in Tiance Mansion.

The three characters “Tianji Pavilion” hung high above it!

Pen Feng swept Wanjun!

There was a voice coming from inside.

“Bible Organization?”

“They came to Morendam?”

“What is the Dark God doing?”

“It is said that they have found a peerless heavenly doctor who has recently become famous in Morendam!”

“Isn’t that person Levi? The Bible organization wants to put Levi in the bag?”

“Probably so? Do we need to tell the others in Tiance Mansion?”

“No need! We will not be involved in this matter, and the identity of Tianyi Levi will not be revealed!”

“Naturally know this! The major organizations of Tiance Mansion can find out that it is their ability, we will not say!”

“The people who sent us stare at a little bible organization!”

...

No one thought that Tianji Pavilion would have known Levi’s identity a long time ago.

The Protector Novel Levi Garrison Chapter 1909 – 1910

Chapter 1909

Not only everyone did not expect it!

Tiance Mansion did not expect it!

However, Tianji Pavilion exists independently and is not related to Tiance Mansion.

When other agencies of Tiance Mansion need to provide help, Tianji Pavilion will only provide assistance.

They will not take the initiative to provide anything to Tiance Mansion, nor will they follow orders.

They are only responsible for collecting geniuses and wonders and collecting secrets.

It's not that you don't participate in all disputes.

In layman's terms, the two sides are equal!

They didn't need to tell Tiance Mansion about the news about Levi being a heavenly doctor and many other things.

Therefore, Tiance Mansion currently does not know.

Of course, this is enough to show how terrifying Tianji Pavilion is!

The Evil God Huoyun once said such a sentence-Morendam's real great horror lies in Tianji Pavilion!

This is enough to explain a lot of things!

The conversation in the Tianji Pavilion continues.

"How did Levi's wife Sarah and Wen Lei survive that explosion? Someone saved it? I don't believe it!"

"We looked up all the clues information, but there was no accurate answer!"

“According to what the two described, one person did save them, and there is no other explanation! With their own words, they couldn’t survive the explosion!”

“Who would this person be? Even our Heavenly Secret Pavilion can’t find out! It’s really strange!”

“I’m afraid it’s someone related to Levi! So far we can’t control how Levi becomes stronger...”

...

Extremely shocked!

The identity of Levi Tianyi was easily controlled by Tianji Pavilion.

But his Lord’s identity and whereabouts could not be captured by Tianji Pavilion.

The information revealed was simple-Lord Levi was terrible.

The news of the failure of the five dark angels quickly spread to the Bible organization.

What shocked the five dark angels was that the leaders of the Bible organization were not angry but laughed.

They all wanted to die.

Unexpectedly, the situation is very different.

“Okay, very good! Stronger than we estimated! This is a good thing!”

“This has strengthened our determination to recruit Levi! We must recruit Levi to join! At all costs!”

“Levi has to be tied back! It’s really not good, all the eighteen dark angels will go!”

...

Levi didn't expect that his power had not only failed to shock.

Instead, it made them more determined!

This day.

Levi completely restored the physical strength of the top three Tianjiao!

And the three have improved a lot!

There will be further breakthroughs soon!

"Lord, you are really amazing! In such a short time, all these hundreds of arrogances can be restored! What a miracle!"

Everyone exclaimed.

"I have to wonder if you are a disciple of the old Lord, the old Lord does not have your medical skills!"

The clever sword evil god has already noticed something wrong.

Levi is so different from Huoyun Cthulhu!

Even the exercises are not like it anymore!

They didn't know if it was an illusion or something, they felt that Levi was not a disciple of Huoyun Cthulhu at all.

It's just that everyone dare not speak out.

"Do you care about me, how do you feel now?"

Levi asked.

How about his rules restricting them mainly?

“I think it’s good, and I’m used to it!”

Everyone nodded.

The evil god of poison also smiled and said, “Yes, after my poison experiment was replaced by animals, it’s okay!”

Even the evil god of blood smiled and said, “Since I have used animal blood or artificial blood, I have found that my strength has become stronger, not to mention, it also reduces the probability of getting injured by the devil!”

...

After almost accepting Levi’s rules, everyone felt good.

This is the charm of Levi!

Make a group of evil gods better!

Even the Seven Cthulhus felt that even if Levi was not a descendant of the Cthulhu, it would be nice to follow him.

After a few days, the plans of the East Island forces finally began.

Morendam was shocked...

Chapter 1910

The martial arts circles of Dongdao, Star Kingdom and 38 countries in Brandon Continent are going to resume the former Brandon Continent Tianjiao Tournament!

Except for Morendam, almost all the countries and regions in the Eastern Continent have agreed to restore the former Tianjiao Conference!

The so-called Oriental Continent Tianjiao Conference is a showdown between the young and powerful people from all regions of the Eastern Continent.

There will be a ranking of Dongfangzhou Tianjiao!

The Tianjiao who win over Dongfangzhou are on the list!

Choose the strongest Tianjiao!

The gold content of the list is higher than that of the Daxiadi list!

If the Tianjiao of that country and region is the strongest, that country and region will receive corresponding honors!

But the East Island Star Country they want more than just being on the list!

Their goal is the real key to the Tianjiao Conference!

According to the previous rules of the Dongfangzhou Tianjiao Conference, which country or region has the most Tianjiao on the list!

Then the Guwu institutions in this country or region will have the qualifications to coordinate and order all Tianjiao from other countries!

In other words, once Dongdao obtains this qualification.

Then Morendam's Tianjiao will also be under their jurisdiction, and almost everything must be listened to by them!

It is equivalent to that Dongdao can restrain the development of the tianjiao of other countries, and give their own tianjiao the opportunity to advance by leaps and bounds!

It may sound absurd, but it has always been the way it is!

And this rule was set by Morendam, the overlord of Brandon Continent at the time!

At that time, the Morendam martial arts world was extremely prosperous, and all the other areas of Brandon Continent combined were invincible!

In that era, Morendam Martial Arts was the peerless overlord of Brandon Continent!

Publicly and privately, they don't want to see the rise of martial arts in other regions, especially young seedlings, it is best to control it, which is equivalent to controlling the development of martial arts in other regions!

So Morendam Budo defines this rule!

To control the young talents of other countries and regions!

Since the start of the Dongfangzhou Tianjiao Conference, it has been held every thirty years. Every time it is the strongest of Morendam Tianjiao, not to mention occupying the top three, but also accounting for almost half of the quota.

Until the last session, Morendam has always dominated the East Continent!

The remaining countries and regions have no chance at all!

So East Island and other countries are extremely eager to get this qualification!

Once they get it, they will control the development of martial arts geniuses in all major regions of Eastern Continent!

Especially the super overlord Morendam!

Also be controlled by them!

This is the reason why the East Island forces first framed Levi and severely inflicted Morendam martial arts, and then abolished Morendam's hundreds of Tianjiao!

After restarting the Tianjiao conference in this way, there is no Tianjiao in the Morendam martial arts world to attend the conference!

The top three injuries in the ground list disappeared, and all the martial arts of all the other Tianjiao were abolished, and there was no one that could be beaten!

The only gifted Junjun was too young and was taken away by Tiance Mansion!

Therefore, this Tianjiao Conference Morendam is a situation that no one can do...

No fighting power at all!

It used to be the first!

This time I am afraid that I will become the last one in Dongfangzhou!

This is the malicious plan of the East Island forces!

It's just that Tiance Mansion has been slow to react!

Not only that, Dongdao and other major countries will hold this Tianjiao conference in Morendam!

The intention is extremely obvious!

Kill the heart!

Not only do Morendam have no one to come out, but also hold the Tianjiao Conference on Morendam's land, so that Morendam will lose face!

In front of the 38 countries of Brandon Continent, in front of the whole world!

Morendam has always been a superpower!

If the Tianjiao Conference is held in Morendam as scheduled, both the strength of the martial arts world and the reputation will suffer an unprecedented blow!

Everyone in Morendam will not be able to look up at all!

Have to wait for thirty years!

This trick used by the East Island forces is really terrifying!

Not only to kill, but also to punish the heart!

For a while, Tiance Mansion panicked...

But for Levi, it was indeed strategizing.

“You finally started!”

The Protector Novel Levi Garrison Chapter 1911 – 191

Chapter 1911

Levi was waiting for this moment!

Since there is no stopping, then he tries to make up for it!

As soon as the news of today's arrogance conference came out, Levi and everyone understood what the purpose of abolishing the arrogances was.

All the people who believed in this before, who believed that the seven evil gods had abolished the pride of Great Summer, began to loosen up!

They seem to have no reason to do all this!

Hundreds of Tianjiao were abolished, and the top three missing in the rankings were unclear. The Dongfangzhou Tianjiao Conference began immediately.

This is obviously a conspiracy!

Following this line of thought, thinking of Levi before, he might have been wronged!

Someone is behind it all!

In this case, Levi became the number one in the heavenly ranking list, but he did not do anything to harm Morendam, and even allowed the seven evil gods to change their evil and return to the right...

A series of things can be explained clearly.

Levi was framed at all.

He will not do anything to endanger Da Xia, he even controls the power of the Heretic God for Da Xia's use!

Smart people quickly figured out the stakes.

I was almost certain that Levi was wronged!

But at this moment, everyone can't think of anything else!

Everyone is anxious to follow the ants on the hot pot!

How to do?

what to do?

The Tianjiao Conference is held in Morendam, but Morendam is a situation that no one can do!

The major regions of the Eastern Continent will inevitably send the strongest Tianjiao to compete. What does Morendam use to fight against others?

Take a group of disabled young men in wheelchairs to participate in the competition?

impossible!

This situation can't be solved at all, there is no one to send in Morendam!

At that time, only other ordinary geniuses can be sent to the conference and be brutally abused and humiliated by geniuses from other countries!

Put Morendam's reputation and the dignity of Morendam warriors on the ground!

Let Morendam can't hold her head up for at least 30 years!

Let Morendam become a shame to the whole world!

Let everyone in Morendam become a laughing stock!

...

Once it fails, the situation may be worse than imagined!

Morendam people are not afraid of bloodshed and sacrifice, but dignity and reputation are the most important!

We can stand and die, but we must not kneel and linger and be humiliated!

This is absolutely impossible!

Everyone in Morendam can't accept it!

He knows the serious consequences, but there is nothing he can do!

Because I really can't send anyone!

Hundreds of the strongest Tianjiao have been abolished. Where can I find someone?

But can Morendam sit still?

Can't!

The Tiance Mansion and other organizations immediately introduced plans to find Morendam's talented seedlings as much as possible!

Then, in the shortest time, every method was used to improve their strength.

Whether it is a magical medicine or a variety of modern technologies, you must use it at all costs.

This is about Morendam's reputation!

Everyone is crazy!

Seeing the Tianjiao Conference approaching, the effect was minimal.

The talents of these young people gathered are too ordinary!

It's useless at all!

Anxious!

"If it doesn't work, just borrow someone! Any evil spirits will do! As long as it is related to Morendam!"

"How can this be done? How can we ask those evil demons outside?"

“It really doesn’t work. Use the young Tianjiao from the Tiance Mansion and Baolong clan to pretend to be?”

“No, according to the regulations, we are the Morendam Guwu Organization and absolutely cannot participate! If i let the discovery reveal it, it will make a joke! Don’t even think about it!”

...

Opinions in Tiance Mansion are not uniform!

In the next few days, there was a mess.

These days, tianjiao from other countries in the Eastern Continent came to Morendam one by one.

Especially in the East Island, the young generation with the strongest history has been dispatched from all parts of the star country, which is said to be comparable to the rankings before Morendam.

A few days later, in the anticipation of all the people, the Dongfangzhou Tianjiao Conference is about to begin...

Chapter 1912

The venue is held in Morendam Capital!

The eyes of the whole world gather here!

All the arrogances from all countries in the Eastern Continent are here!

Especially the East Island and Star Country are the most powerful!

The genius they sent just overwhelmed other countries in momentum!

“Star Country has always been weak in martial arts, how come there are so many strong people?”

Everyone was surprised to see the powerful lineup of Star Country.

Never before...

“I heard that Sanxing Group has created a batch of genius seedlings through genetic modification and other technologies!”

“I heard that Sanxing Group has combined the ancient practice methods of various countries with modern scientific and technological biotechnology to cultivate more and more powerful people! Sanxing Group has great ambitions!”

“Even they are still studying the technology to transform the bloodline. Once they are born, they will have the same talent and super strength as a superpower!”

...

After hearing the explanation, everyone instantly understood what was going on.

“And Dong Dao this time is super terrible! It is said that the inheritors of the ancient forces and strong people that exist in Dong Dao legends are here, and they are much stronger than before!”

“Isn't it? The Dongdao royal family personally went to ask the ancient strongmen of Dongdao to come out! That's why they agreed to send the strongest genius out!”

“It shows how confident they are in this!”

This time the East Island and the Star Kingdom are well prepared!

They are all aimed at the strongest!

When everyone in Morendam heard this, their hearts were ashamed, and they became more and more desperate!

Morendam was originally a situation that no one could do!

The forces of the East Island and the Star Kingdom are fully prepared again, and the coming is menacing!

This time Morendam will not only lose its dominant position, but also lose face!

Everyone in Morendam can no longer look up!

The face and reputation are completely gone!

Everyone will mention things like this in the future, just like walking dead!

When you see people from other countries, you can only go around!

Not only that, the abolition of these genius seedlings means that Morendam's future is ruined!

The future will not be comparable to the martial arts circles of these countries!

Will be crushed by others!

Everyone in Morendam present was lifeless, with a face like water, and they didn't even breathe for the atmosphere.

The meaning of this Tianjiao conference is to silently wait for the humiliation and jokes to come!

"Huh? As the host, Morendam, why haven't Morendam's Tianjiao appeared yet?"

At this time, someone brought the topic to Da Xia.

Others said: “Yes, Morendam is the strongest ever! I also heard that they have produced a genius that has been rare for thousands of years, only a few years old! The potential has reached the highest level of Tiance Mansion!”

“Not only that, the Big Summer Land List was announced, and the top three land lists are the strongest in history!”

“Yes, Morendam is number one again this time, right? We should be here again for nothing? Hahaha...”

In the end, almost everyone was laughing.

All deliberately!

Obviously knowing that Morendam’s strongest genius has been abolished, the life and death of the top three in the rankings are unclear, and the whereabouts are unknown, so I said so...

Everyone in Morendam was uncomfortable and angry!

Is there any way?

Others are specifically designed to target, this is cutting off Morendam’s hope for the future!

“People are the host, so naturally they will be the finale! Let’s wait!”

Time passed by one minute and one second, and soon it was time for the Tianjiao Conference to start.

All the next geniuses blindly select groups and draw their opponents!

All the geniuses are here.

Only Morendam’s geniuses are left out of the show!

Everyone in Morendam was sweating in a hurry one by one!

“What about people? Why haven’t they come out? Did you deliberately make everyone wait?”

Everyone began to urge.

“Can’t hide, bring everyone here!”

Tiance Mansion ordered all the geniuses they recruited to call forward.

When seeing these mediocre people, everyone laughed...
