The Protector Novel Levi Garrison Chapter 1949 – 1950

Chapter 1949

The undead soldier stood up, wiped the dust off his lower body, and looked at Levi with a smile.

"It's okay? Interesting!"

Levi smiled.

It seems that this guy is not easy to kill.

It was okay to endure a punch like that.

abnormal!

With that punch just now, Kyushu Xuanzun was blasted to death on the spot.

"kill!"

The undead soldier rushed up again.

Head to head with Levi!

"I feel that the undead warrior is enough! No matter what he receives, he will not feel any pain! His self-healing ability is also terrifying!"

"The most terrifying thing is that even if he has only half of his body left, he can still fight! Because his pain nerves have been removed, he can't feel the pain!"

"Unless he is smashed! Otherwise he can fight forever and recover quickly!"

The corners of Richard's mouth rose up, his expression smug.

This is the undead warrior!!!

They don't want the undead soldiers to kill Levi!

But he has been able to contain Levi to death!

The East Island forces looked excited.

There is hope!

The first person is so strong!

Does Levi have a chance?

"It's time for us to shoot!"

The witch said to the god of war.

"it is good!"

The battle armor of the god of war began to move, and the particle cannon on his right arm condensed, and He Qingxue was already locked.

The witch is about to use witchcraft to disrupt Levi.

The death swordsman slowly pulled out the double swords on his back!

These two swords turned out to be laser swords!

One is a blue beam sword and the other is a red beam sword!

In the dim environment, it emits dazzling light and extremely strong energy fluctuations!

The Death Swordsman crossed his double swords and ran quickly, and the target was He Qingxue!

"Go together!"

The samurai of Toshima also took action.

Seven or eight super samurai pulled out katana to kill He Qingxue!

A tall samurai like a small hill also ran, holding a heavy sword of several hundred jin and slashing down fiercely.

The goal is also He Qingxue!

There was also a weird smile from the dwarf warrior, who had been observing Levi's fight against the undead warrior and He Qingxue's position.

"boom!"

He suddenly moved, and suddenly appeared near He Qingxue from a bridge several hundred meters away.

"Hey!"

At the same time he pulled out the samurai sword on his back and stab He Qingxue!

Except that the undead warrior was pestering Levi.

Everyone else killed He Qingxue alone!

Although from the gambling king family, where did He Qingxue experience this?

Anyone here can step on Golden Harbor Island.

After being killed by so many people together, He Qingxue is absolutely unprecedented.

In an instant, He Qingxue's hair was raised, and the roots stood up, as if he had been electrocuted.

At the same time, she had been wet with cold sweat all over her body, as if she was drenched in rain.

She felt her body light and fluttering, as if her soul had separated from her body and floated to the sky.

This is the feeling of death!

He Qingxue felt her throat pinched by a big hand, she couldn't breathe at all, the feeling of suffocation hit, her brain consciousness was gradually blanking…

dying!

He Qingxue closed her eyes in despair!

Levi, who was fighting with the undead warrior, naturally noticed all this.

More understanding of the enemy's intentions!

Just to distract yourself!

Go and save He Qingxue by yourself!

Not to mention knowing He Qingxue, but not knowing, she is a citizen of Morendam, Levi must also go to save.
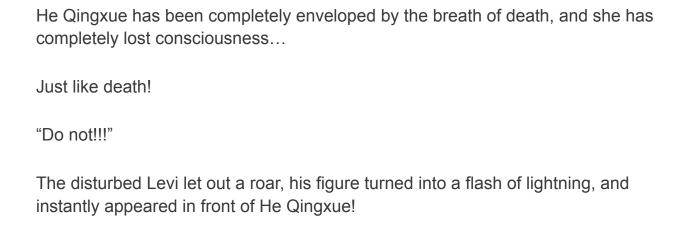

"broken!!!"

Levi began to bombard forcefully!

"Boom boom…"

The undead soldier was smashed into it.

Seeing a gap, Levi rushed over to save He Qingxue!

At the very moment, the witch made her move.

As soon as her weird witchcraft was used, it had an impact on Levi's consciousness!

Levi was in a daze…

At this moment, it was fatal to He Qingxue!

Chapter 1950

The duel between the Lords, the fight is an instant!

The sorceress' interference with Levi at this moment caused him to stagnate.

What's more, Levi still has to worry about the strong in secret!

Their existence is the deadliest!

late!

It's too late!

Let him miss the opportunity to save He Qingxue!

The dwarf warrior and death swordsman were the first to take action.

A katana and two laser swords will tear He Qingxue apart!

He Qingxue has been completely enveloped by the breath of death, and she has completely lost consciousness…

Just like death!

"Do not!!!"

The disturbed Levi let out a roar, his figure turned into a flash of lightning, and instantly appeared in front of He Qingxue!

"laugh!"

"laugh!"

"laugh!"

…

The three swords that the dwarf warrior and the death swordsman killed Xiang He Qingxue were all inherited by Levi.

Just because of being interfered by the witch just now, Levi could only replace He Qingxue to block all the attacks.

If there is no interference from the witch, Levi can save He Qingxue and block all attacks.

Of course, Levi still has to worry about the strong in secret!

If he forcibly blocks all attacks, he will inevitably expose his flaws to the strong in the dark.

It is better to block all attacks by yourself!

On the contrary, he is in a state of vigilance!

In the next instant, the attacks of the other Lords had already arrived.

At this time, Levi had a chance to stop him!

He dragged He Qingxue back for a few steps, blasted out a few punches, blocking all the offensive.

However, the particle cannon of the mecha warrior not far away has been condensed to its maximum power!

"boom!"

This artillery blasted Levi instantly!

"Rumble…"

The particle cannon blasted Levi two hundred meters away.

Everything around was destroyed, all kinds of objects fell apart, not even a scum was left behind.

"puff!"

After landing, Levi took a dozen steps back and stabilized his figure.

But blood spilled from the corner of his mouth!

The clothes were even shattered, with three obvious sword wounds on his body!

He just took over all the attacks on behalf of He Qingxue and was already injured.

Now it's being bombarded by super-energy particles, and it's hurting again!

"Oh yeah!!!"

Seeing the first shot, Levi was wounded, and everyone shouted excitedly.

Richard and the leaders of the East Island forces also exclaimed.

This is the first time they have seen Levi so embarrassed!

The first shot, everyone cooperated with each other tacitly, and Levi was hit hard.

This gave everyone great confidence!

"Hahaha, haven't the three of us secretly shot yet? They are looking for a reasonable time to shot. Once they shot, Levi will undoubtedly die!"

Richard laughed.

He has never been so excited!

Is Levi finally dying?

"kill!"

All the Lords in the field once again attacked and killed Xiang Levi.

Do not!

The same strategy as before, kill He Qingxue and force Levi to come to the rescue!

"Chichichichi…"

Dozens of Dongdao warriors marched side by side, the lights of their swords flickered, intertwined into a net of swords, which enveloped Levi and He Qingxue.

The other Lords also mobilized, killing Levi from all directions.

"go with!"

Levi pushed He Qingxue aside, and he suddenly attacked the oncoming Samurai East Island.

"Ok?"

This behavior made everyone stunned.

Did Levi give up He Qingxue?

impossible!

How could he let He Qingxue die?

"Kill her!!!"

Dozens of warriors were divided into half and directly killed He Qingxue.

Regardless of whether Levi cares about her life or death, they will kill!

The Death Swordsmen behind him felt the same way.

They separated half of them and went to kill He Qingxue!

Others attacked Levi one after another!

When the death swordsman saw Levi's mouth rise, he suddenly understood something.

"No, we were fooled!"

The Protector Novel Levi Garrison Chapter 1951 – 1952

Chapter 1951

The Death Swordsman exclaimed.

The others reacted one by one!

It's a pity it's too late!

Levi, who had clearly abandoned He Qingxue, rushed towards them, suddenly disappeared from the same place!

He turned back!

He used He Qingxue as a bait to seduce the fish to the bait!

He's another killer!!!

He Qingxue, who was originally cumbersome, can also become bait in his hands!

Half of the warriors in Dongdao, the undead warriors and the tall warriors all killed He Qingxue.

After turning back, Levi suddenly appeared behind them!

"boom!"

"boom!"

The undead warrior and the tall samurai suffered heavy blows and flew out.

"Puff!"

"Puff!"

…

The remaining five East Island warriors were slightly weaker, all of them were cut through their throats by Levi's broken Beiming sword and died on the spot!

The tall hill-like warrior was also hit hard. He didn't have a super healing power like an undead warrior.

This time, they lost a lot!

But this is only the beginning!

Levi didn't give everyone time to react, and he turned back, but he appeared again in the front.

There are five Higashishima samurai who are eyeing him!

Levi came back again this time and caught them off guard.

"puff!"

"puff!"

"puff!"

…

Although they have the level of a Lord in the big summer list, they are still much worse than Shangye Levi.

The North Ming Sabre once again took off and killed the five great warriors!

"This…"

The leaders of the East Island forces who saw this scene were so angry that they smashed the table.

At this time, they will lose half of their strength!

Levi is really hard to deal with!

Even Richard didn't smile anymore.

I thought that Levi would be crushed all the way, but now it doesn't seem to be the case.

Levi could even fight back!

This is something they never expected!

After doing all this, Levi quickly retreated to He Qingxue's side.

He never thought of solving so many Lords at once.

That is unrealistic!

Totally impossible!

"kill!"

The death swordsman is holding two beam swords to kill Levi!

The sharpness of these two swords is that Levi has to avoid it!

If he insisted, he would also be injured.

Levi quickly dodged and retreated.

"Buzzing…"

There was a sound of mechanical turning in the air.

That is the armor of the mecha warrior in action!

I saw energy accumulating on his right arm, flashing electric lights.

According to the starting device and power device of the mecha device on his body, it is of aerospace technology level.

The rear wing ejects terrible arrogance and provides terrible power!

The power of instant activation is almost comparable to the moment of rocket launch…

"I come!"

The mecha fighter smashed a fist from mid-air.

The Death Swordsman quickly drew away!

The punch of the mecha fighter is really terrible!

"boom!!!"

Just start it, and it emits terrible exhaust gas, forming a vortex in the air!

The power of this punch is astonishing!

It turned out to be a breakthrough five times the speed of sound!!!

This is the fastest punch Levi has ever encountered!

It was already the limit to be able to break through three times the speed of sound before!

This time is five times the speed of sound!

The power can be imagined!

Modern technology is so strong!

Raise an ordinary person to this level!

Levi couldn't evade at all, and could only bite the bullet to receive this devastating punch!

"boom!"

Levi also blasted a punch that broke the speed of sound!

"boom!"

The fists of the two slammed together.

The collision was an upset, and the sun and the moon were eclipsed.

"Crack!"

The earth directly cracked a rift valley, reaching a depth of hundreds of meters.

"laugh!"

Everything around him fell apart like being destroyed by a tornado.

"Rumble…"

The sea next to it is churning up a hundred meters of huge waves…

The power of destruction is terrifying!

After a punch.

Levi keeps backing away!

"not good!!!"

Levi sensed that the person who had been staring at him secretly was about to take action…

Chapter 1952

This is the deadliest!

The moment the god of war knocked Levi back with a punch, someone secretly shot.

"Wow!"

"Wow!"

"Wow!"

…

It was a trail of afterimages, passing in front of people's eyes.

In an instant, five black shadows appeared on the left and right of Levi's head!

All kill him at the fastest speed!

Levi understood that this was not an illusion created by witchcraft, but a real existence!

Doppelganger!

It was a clone created by someone with speed or magic fighter!

Oni Samurai is ready!

The leaders of the East Island forces clenched their fists tightly, and the Oni Samurai was the most grabbing trump card among their forces.

Oni samurai is not only the Lord of Higashishima Kendo!

Mainly, the weird ninjutsu and special strange techniques he cultivated, making him top-notch in speed and body style!

The most terrifying thing is that his body is like a ghost, and he can split into clones.

Like ghosts!

This is where he is best!

He has been hiding in the dark for a long time.

Finally let him seek the best time!

He shot!

The five clones of Oni Warriors kill Levi together!

The five clones held a black samurai sword and stabbed them at the same speed!

So that Levi couldn't tell which one was the real body at all!

If the judgment is wrong, it will be fatal.

Not dying is a serious injury!

Oni samurai is not easy to make a move, one move is a killer skill!

The five clones of Oni Samurai are also extremely fast!

So that everyone present could not tell the five figures, which one is the real body!

In an instant, the five figures approached Levi at the same time!

The terrible thing is that the five figures are combined into one figure!

"Pouch!!"

The moment they became one, a knife pierced Levi's throat!

Everyone was stunned!

Oni samurai is really amazing!

One shot, Levi would be killed!

terrible!

Levi got pierced through his throat like this?

"It succeeded! We succeeded!!!"

The East Island forces shouted in exclamation one after another.

They stood up and celebrated.

But Richard looked serious.

He noticed something unusual.

"No! This trick is horrible! But for Levi at most, it is impossible to get a piercing throat! There is a problem! Attention everyone!

Richard quickly reminded.

Oni Samurai himself was the first to discover the anomaly!

He felt that he had just stabbed a lonely one!

Obviously it penetrated people's throat, but it didn't seem to hit anything!

No feeling of stabbing anything in kind!

not good!

In the next second, Levi in front of him disappeared!

This is also an afterimage!

It's not Levi's real body at all!

This is the afterimage left by the speed reaching the limit, deceiving people's brain and eyes!

The afterimage he just pierced through was a residual image after all!

Levi was gone long ago!

Others also reacted one after another!

The ghost clone!

This is a stunt that Levi has used several times!

Now that Levi's strength is getting stronger and stronger, it will naturally become more and more terrifying when used.

"boom!"

The instant the ghost warrior realized it, Levi threw a punch.

"puff!"

The Oni Samurai was attacked instead.

"on!"

The Death Swordsman and others rushed forward and immediately killed Levi.

The mech warrior immediately activated the aircraft and turned into a flash of lightning to rescue the ghost warrior!

Everyone was terrified!

Until now, no one dared to despise Levi for half a minute!

He is terrible!

Such a luxurious lineup can be like this!

He is so horrible!

"The Oni Samurai is exposed, one of our swords inserted into the heart is lost!"

Richard not only sighed.

"No, the real power of Guijun has not been revealed yet!"

The East Island forces said coldly.

"Ok?"

With Richard's stunned kung fu, Oni Samurai really started.

"Levi, I've long been looking forward to a fight with you!"

The Protector Novel Levi Garrison Chapter 1953 – 1954

Chapter 1953

Levi also saw the true face of the ghost warrior!

He was shrouded in a special black costume, with a biochemical mask on his face, and he couldn't see anything under the mask.

He was carrying a handful of samurai swords behind him, Levi initially estimated that there should be sixteen!

The whole person exudes a terrifying breath.

Every time he breathed, he made a terrifying sound, like a beast.

"boom!"

A booming sound.

The ghost warrior disappeared into a blue smoke!

Ninjutsu!!!

The ghost warrior instantly appeared around Levi, splitting into eight clones instantly!
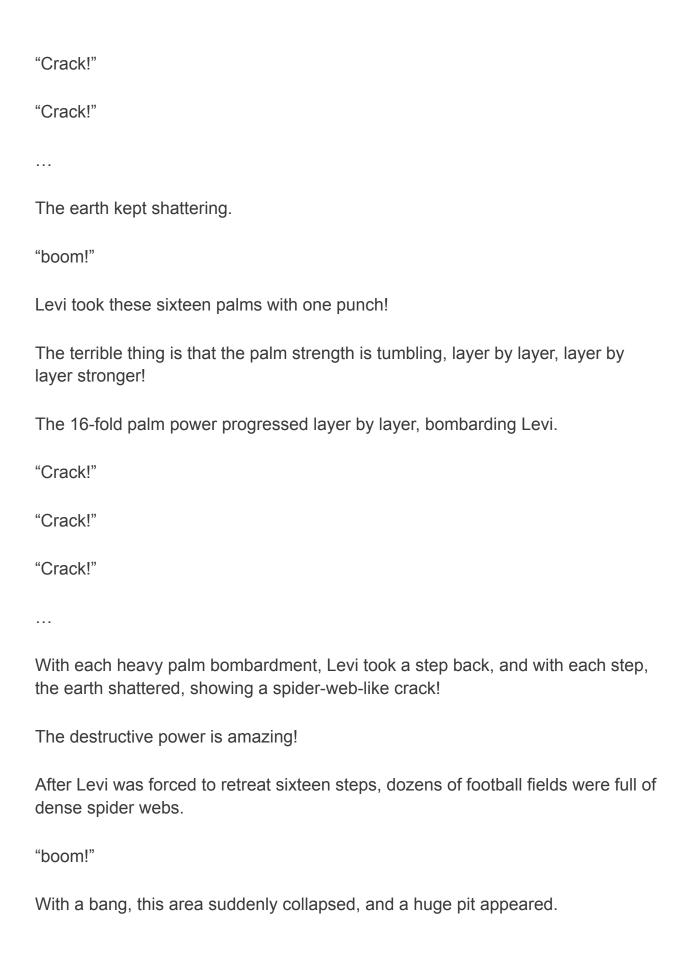

"Boom boom boom…"

Eight doppelgangers took the photo again!

This time it was even more difficult to tell that the figure was real!

Because the heavy palms taken by each figure are powerful!

It seems that his eight figures are real!

There are sixteen palms in a row, endless, palm after palm, one palm is better than one palm!

"Crack!"

"Crack!"

…

The earth kept shattering.

"boom!"

Levi took these sixteen palms with one punch!

The terrible thing is that the palm strength is tumbling, layer by layer, layer by layer stronger!

The 16-fold palm power progressed layer by layer, bombarding Levi.

"Crack!"

"Crack!"

"Crack!"

…

With each heavy palm bombardment, Levi took a step back, and with each step, the earth shattered, showing a spider-web-like crack!

The destructive power is amazing!

After Levi was forced to retreat sixteen steps, dozens of football fields were full of dense spider webs.

"boom!"

With a bang, this area suddenly collapsed, and a huge pit appeared.

If you let ordinary people see it, you might think that there is a pit from the spacecraft when an alien visits it.

"So strong!!!"

Everyone couldn't help but marvel when they saw the Oni Samurai showing their power.

Just now they always thought that Oni Samurai would only assassinate!

I didn't expect to come directly to be stronger!

"Sure! It was you before, right?"

Levi thought of someone staring around the Shenlong Science and Technology Base.

Now think about it, this guy in front of you!

"What are you doing in a daze? Together!"

The Oni Samurai shouted.

The death swordsman and other Lords all reacted.

Let's attack Xiang Levi together!

The eight figures of the ghost warrior are in one, and they follow the others to kill Levi.

The two sides fought hard!

Levi was protecting He Qingxue while fighting with many Lords!

Also be prepared for secret attacks at all times!

"boom!"

The ghost warrior changed again, splitting into eight figures, like eight ghosts roaring to kill Levi.

The Death Swordsman and others also attacked and killed one after another.

The witch on the side tried to use witchcraft to interfere with Levi.

For a moment, Levi was in danger again.

Pulling He Qingxue to avoid constantly, several wounds appeared on her body!

It can be described as dangerous!

"Continue to increase the attack! Don't give Levi a chance to breathe!"

Richard is still directing.

Everyone of the Death Swordsmen showed their skills!

The witch is also trying her best to interfere with Levi's mood and consciousness…

"kill!"

The eight figures in the air of the Oni Samurai suddenly split into two, turning into sixteen figures!

terrible!

terror!

This is the ultimate killing of Oni Samurai!

That is the figure he can differentiate the most!

Sixteen!

In other words, it is twice as strong as before!

Eight clones are enough to make Levi so embarrassed!

How terrible the sixteen clones would be!

As you can imagine!

"puff!!!"

Under the siege of many people, Levi finally couldn't bear it.

Stabbed with a knife by a ghost warrior, blood splashed!

Had it not been for the burden of He Qingxue, Levi wouldn't be like this.

But there is him!

"Go harder! Kill Levi directly!"

Seeing Levi being forced to the point where there was nowhere to escape, everyone showed excitement.
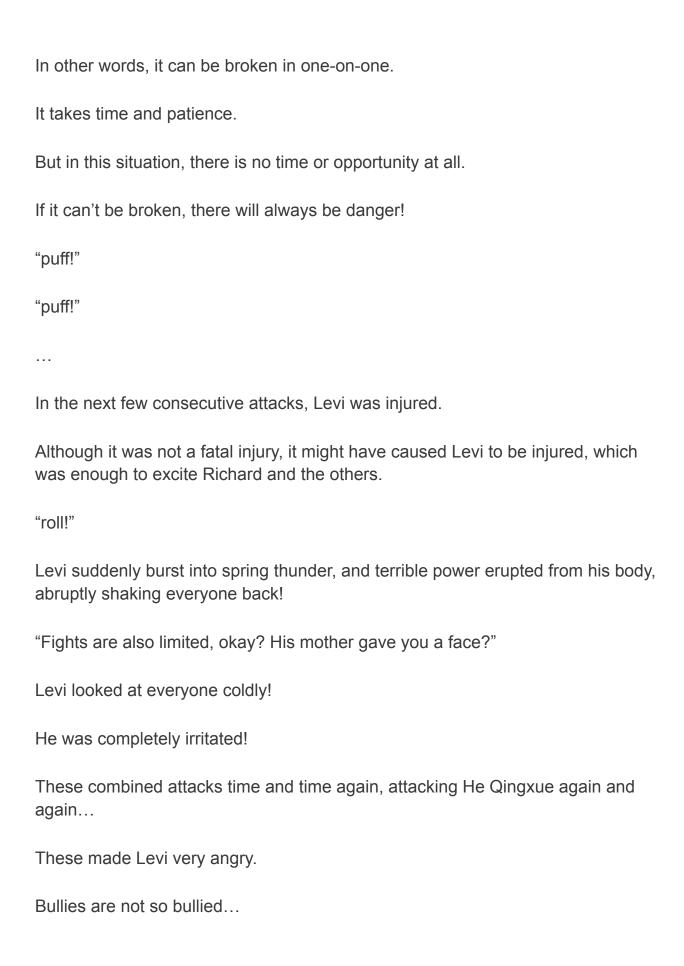

Increased the attack on Levi!

Chapter 1954

Lords such as the Death Swordsman joined forces to attack Levi with a powerful pressure.

The sixteen ghost warriors found the right time to assassinate Levi!

The most terrifying thing is the Oni Samurai, his sixteen clones cannot be broken at all!

In other words, it can be broken in one-on-one.

It takes time and patience.

But in this situation, there is no time or opportunity at all.

If it can't be broken, there will always be danger!

"puff!"

"puff!"

…

In the next few consecutive attacks, Levi was injured.

Although it was not a fatal injury, it might have caused Levi to be injured, which was enough to excite Richard and the others.

"roll!"

Levi suddenly burst into spring thunder, and terrible power erupted from his body, abruptly shaking everyone back!

"Fights are also limited, okay? His mother gave you a face?"

Levi looked at everyone coldly!

He was completely irritated!

These combined attacks time and time again, attacking He Qingxue again and again…

These made Levi very angry.

Bullies are not so bullied…

"Kill! Don't be stopped by him! Don't give him time to breathe!"

The sixteen ghost warriors all killed and approached Levi.

The others also followed, not giving Levi any chance!

"Isn't it a clone? Who wouldn't be the same?"

Levi roared.

The ghost clone!

Levi directly cast the magic shadow clone!

"Wow…"

In front of the ghost warriors, Levi was divided into two, two divided into four… eight divided into sixteen!

Everyone is dumbfounded!

Levi can also differentiate into a clone like the ghost warrior?

how can that be?

Oni samurai is dumbfounded!

All the Lords present were dumbfounded!

Richard and the leaders of the East Island forces who are paying attention to all this are going crazy.

What's going on here?

When they thought that the sixteen figures were already the limit!

Where did you want Levi's figure to continue to divide!

Thirty-two avatars!

Sixty-four clones!

One hundred and twenty-eight avatars!

…

In fact, this is Levi's speed and body style fast to the extreme, coupled with the magic of the magic shadow clone, deceived everyone's eyes and brains.

So that what you see in front of your eyes is one hundred and twenty-eight avatars!

Actually, Levi is alone…

At this moment, everyone was stunned.

It's this moment!

"Puff!"

A blood arrow shot soaring, and the witch was killed instantly!

In fact, she poses a great threat to Levi, as long as she interferes with Levi the slightest, it will be fatal!

So Levi killed him first!

"Puff!"

"Puff!"

…

The next one to be recruited was the tall samurai of Dongdao, who had been hit by Levi seven or eight times in a row!

But his physique is too strong!

He didn't even die!

The next one is Oni Samurai!

Levi didn't care whether his figure was the real one, they were ruined one by one!

The visual effect of the crowd was that of Levi's 128 figures attacking the sixteen figures of the ghost warrior.

Naturally it was crushed!

A clone is shattered!

Two clones are shattered!

…

Fifteen clones are shattered!

The remaining real body also suffered heavy losses!

Oni samurai was beaten back to his original form!

This is the moment!

On the ghost warrior's retina, Levi's 128 clones all killed him!

In the end, two hundred and fifty-six palms came out and patted the Oni Samurai's head.

In an instant, the head of the Oni Samurai was abruptly crushed!

Then the neck, body, legs…

It was slapped into meatloaf by the palm of your hand!

The Oni Samurai was killed instantly!

Levi's one hundred and twenty-eight clones are integrated into one!

His speed and body style have reached the limit!

Just kill the Oni Samurai in one fell swoop!

This scene shocked the audience!

It's going to be silent for an instant!

"boom!!!!"

But at the moment when Levi killed the ghost warrior, he secretly shot a few arrows!

Arrows shot at seven times the speed of sound!

"Puff!"

Was pierced instantly!
