

The Protector Novel Levi Garrison Chapter 2045 – 2046

Chapter 2045

He has been depressed for many days.

What kind of pressure is he under!

Repeated failures caused his position in the laboratory of the gods to drop sharply.

If you fail again, you will face the risk of a meeting and reprimand.

He is more stressed than anyone.

He kept taking a breath.

In the final analysis, it is to transport the sun stone back.

Now he succeeded.

Richard clenched his fists tightly, and he cried with joy.

Everyone was excited.

Everyone cheered.

A lively scene.

“Hurry up and spread the news! To the whole world! The Sun Stone is shipped back!”

Richard said excitedly.

He arranged for Logan Shiji and others to take photos and videos of the scene.

Soon news spread.

The Lab of the Gods successfully transported the Sun Stone from Morendam.

The mysterious forces were stunned, and in the end they didn't dare to make a move, so they could only give the Sun Stone to the Lab of the Gods.

For most forces, they are sad.

They are still waiting for the emergence of mysterious forces.

In order to get clues or grasp, where to go to the Gods Laboratory to invite credit and reward.

The results did not appear.

They are very depressed.

The most depressing is Morendam.

They watched as the Sun Stone was transported to the other side of the ocean, but there was nothing they could do.

That came from the land of Morendam.

It is very likely that the Lab of the Gods will deal with Morendam in the future.

“Can't keep it! Unless we forcibly tear our faces! But how can this work?”

“Hey, I hope they can come out to stop it! But after all, the pressure is too great!”

...

Reactions across the world are mixed.

Some are sad and some are happy.

But they all agreed that the mysterious forces were stunned, afraid, afraid.

After all, as long as you act, it must be under the nose of the world.

They can easily be dug out directly.

No one in this world can fight against the Lab of the Gods!

From now on, the Lab of the Gods can unscrupulously mine Sunstone from Morendam.

No one can stop the footsteps of the Gods Lab!

...

When Suzaku saw the news, they were so angry that they were about to explode.

The boss really didn't prepare anything this time.

Let the laboratory of the gods transport the sun stone away.

They were angry and helpless.

Why can't they be stronger?

If it is strong enough, then everything can be ignored.

They can stop everything openly.

But not now!

Can only watch.

Everyone clenched their fists and vowed to keep themselves strong.

“Where is the boss? Where did the others go?”

Suzaku noticed that Levi had disappeared.

“Hey, I guess the boss is more annoying than anyone else!”

“Yes, the boss is under the greatest pressure. Now that the Sun Stone is transported away, he must be the most uncomfortable!”

“Life is like this! You will always face things you can’t do!”

“Everyone had better not bother him now!”

...

Richard is really excited here.

“Let Rex and the others continue to mine! Let go and do it! Everyone has a reward!”

Richard shouted.

The senior management of the Gods Lab praised Richard specifically.

Some high-tech things were given and some permissions were opened up.

Let Richard get closer to the top.

“Come on, count the number! Load it directly into the energy system!”

Richard ordered.

Now that the sun stone is shipped back, it must be used immediately.

After everything was arranged, Richard left with Logan Shiji's group with a smile on his face.

Others began to count the number of sun stones...

But is this over?

No!

"Rumble..."

"boom!"

"boom!"

Richard did not take a few steps, and suddenly there was an earth-shattering explosion.

The entire base was shaking vigorously, and everyone was almost lifted off...

The flames are soaring into the sky...

But this is only the beginning...

Chapter 2046

"boom!"

"boom!"

"boom!"

...

The base composed of eight islands exploded at the same time.

Waves of serial explosions.

The soaring fire light shines here as bright as day.

“Rumble...”

The main reason is that this base is one of the energy supply stations of the Gods Laboratory.

In addition to the sun stone, there are too many energy materials on the base.

Once exploded, not only will the energy material be destroyed, some will also explode, and the power will increase dozens of times, even hundreds of times thousands of times.

The terrible energy radiated out was almost all devastating.

So the explosion just now is just the beginning, one explosion can cause a chain explosion.

And the power is getting more and more terrifying!

“boom!”

...

At first, one island exploded, and now three islands exploded.

Followed by four islands;

Five islands

...

In the end, the eight islands and all connected areas all exploded.

The terrible power affects the surrounding seas.

The sea began to tremble, and there were waves everywhere at a height of 100 meters, huge vortexes were surging, and the seabed changed, as if a tsunami was coming.

“Hurry up and protect Mr. Richard! Escort Mr. Richard out of here!”

Everyone shouted.

A strong rushed over to protect Richard.

At the same time, the special aircrafts of the Gods’ Laboratory were activated one after another, allowing the major senior and core personnel to ride.

“Hurry up! Stop it!”

Richard didn’t want to leave for the first time, but wanted to stop all of this.

“It’s too late, Mr. Richard! When the incident happened suddenly, we had no chance to react at all!”

“Our facilities are destroyed too much! In addition to the leakage of energy materials! The power is so amazing that we can’t stop it at all!”

...

Now the entire base is helpless, the only way is to evacuate and minimize losses as much as possible.

“not good!!!”

Richard suddenly remembered something.

“Sun Stone!!!”

“The sun stone is still there!”

...

As soon as Richard reminded, everyone reacted.

The sun stone has not been installed, if the energy of the sun stone is excited.

The consequences will be unimaginable...

“Hurry up...”

Before Richard’s words fell, he saw with his own eyes that the explosion range spread to the area of the Sun Stone...

“No, withdraw!”

As soon as Richard finished shouting, there was silence between heaven and earth.

All voices are covered up.

The mushroom cloud rises!

“boom!!!”

The sun stone exploded.

The terrible energy overflowed for the first time, destroying everything.

All the buildings on the island instantly turned into nothingness.

The personnel on the island disappeared instantly, with no bones left.

terrible!

It's terrible!

Richard opened the special mecha on his body for the first time and protected him tightly.

He saw with his own eyes that the people around him disappeared one by one.

The island was torn apart, and the base building was directly ground down.

Doomsday sight!

The Lab of the Gods has simulated apocalyptic scenes many times!

The one in front of you is!

Even more terrifying, this is just the beginning...

The sun stone exploded one after another, and all the energy inside radiated out.

“boom!”

Richard saw with his own eyes that the islands were torn apart and disappeared under the immense power.

The remaining seven islands either tore or sank directly.

The sun stone exploded one after another, and its power gradually increased, each time getting stronger.

It is simply unstoppable, to destroy everything.

“puff!”

Richard only felt that the pressure in his body was so great that it was about to burst.

His special mech was also shattered every inch.

This is the latest generation of battle armor of the Gods Laboratory, and it can't stop this terrible power.

The mechas of Logan Shiji and others around him were also shattering little by little.

So many sun stones are shattered, the power is too terrifying.

Can't hold it!

Nothing can hold it!

That's it!

Something is going to happen!

Richard's face changed drastically!

The Protector Novel Levi Garrison Chapter 2047 – 2048

Chapter 2047

If it goes on like this, it won't last long.

Everyone's mechas have to be shattered.

It's all going to die!

“help me!!!”

Richard pressed a distress button at a critical moment.

Thirty seconds.

Eight superpowers thus appeared in front of Richard, and their superpowers were displayed.

Light shields stood in front of them, stubbornly blocking the energy diffusion of the sunstone.

“Wow!”

At the critical moment, Richard felt lighter.

He was dragged away by his men.

Logan Shiji and others were also rescued.

This is the privilege of Richard as the core staff of the Lab of the Gods.

You can press this button at the most critical moment to get the limit for help.

Unless the core personnel of the Lab of the Gods can use this privilege, no one else has the opportunity.

If it's the situation just now, I can only die.

Richard used the privilege to rescue him from the mysterious eight powers who descended from the sky.

This is the ultimate rescue system of the Gods Laboratory.

But the speed is so fast, mainly because the rescue team is nearby and close.

If it is too far, it is absolutely impossible to arrive so quickly.

Looking at the doomsday-like scene below.

The fire has spread for thousands of miles, and the explosion can continue. The mushroom cloud has been soaring, and the thick smoke obscures the sky.

Richard's brain was blank and his eyes were empty.

With such a large base, how could the huge area composed of eight islands be smoothed out? ? ?

More than that!

There are fewer than five hundred survivors of the tens of thousands of people on the base.

Either it runs fast.

Either the strength is strong enough to survive the explosion.

If he is not qualified to ask for help at the limit, he will also have to die.

The most frightening thing is that so many energy materials are all destroyed.

The sun stones that could be supplied for half a year and the sun stones that were just shipped back were all destroyed.

There is nothing left...

Although there was a loss before, it was just a small mess.

Basically, it tickles the Lab of the Gods.

Not even tickling enough!

But this time is different!

The loss is too great!

Unable to bear the loss!

The key, this base is one of the largest energy supply stations in the Gods Laboratory...

The arm equivalent to the laboratory of the gods was chopped off.

Since the establishment of the Lab of the Gods, it has never suffered such a big loss!

Everyone in the Lab of the Gods was dumbfounded.

Silence!

I thought it was a success, but the Sun Stone was transported from Morendam, and it can be quarried well in the future.

That's the sunstone energy that can supply a hundred years.

But I didn't expect it to be gone in a blink of an eye!

The sun stone is gone!

All energy materials are gone!

The eight islands are gone!

A huge base is gone!

...

The changes before and after are so great that people are caught off guard and simply unacceptable.

One day, one place...

A pair of eyes in the sea of fire kept watching everything.

It was Levi.

Seeing everything destroyed, he turned and left.

That's right!

Levi did everything!

He said he would not let a sun stone fall into their hands!

Since the robbery does not go away, then it will be destroyed.

Don't even think of using a little bit in the Lab of the Gods!

So from beginning to end, Levi didn't want to stop it.

All he has to do is destroy!

Another point is that when they were looking for Levi in the Richard Gods Laboratory, Levi was also looking for them.

The Lab of the Gods has always been mysterious, and the real headquarters, branches and real core bases are not found.

The people sent by Levi have been looking for them, but the effect has been minimal.

There are almost no clues.

What Richard and the others never expected was that the repeated transportation actually exposed themselves.

Such as this supply station!

It's so mysterious.

Normally, I can't find it at all, let alone approach it.

But the transportation of Sun Stone this time exposed the base instead.

Chapter 2048

After all, he wants to transport the sun stone to a location.

It is precisely the Lab of the Gods who is making a big fanfare, waiting for the emergence of the mysterious forces, and also allowing the major forces of the world to supervise and escort.

It is equivalent to completely exposing this base to the eyes of the whole world.

Everyone didn't realize this at all.

Everyone has preconceived notions, and their thinking is in the laboratory of the gods, and they are all thinking about how to dig out the mysterious forces.

But I didn't expect to expose myself first.

And I didn't expect that the other party was also looking for your secret base.

Levi searched for a long time and didn't find it, but this time following the trail of the transportation team, he found it easily.

This is something no one expected...

Levi gained too much this time.

It's not just that Morendam's Sun Stone was prevented from getting into the hands of the Gods Lab.

It also destroyed a super important supply station of the Gods Laboratory.

This time Levi really hurt the Lab of the Gods.

It was also considered the most vicious counterattack since being persecuted by the Gods Lab for a long time.

It really hurts to the point.

Levi left, and no one found them.

Even the eyes of the major forces in the world are staring.

But they all stared at the transportation route, not at this base.

What's more, Levi was acting alone, and they couldn't find out anyway.

Richard and the others were taken to a certain part of the Eagle Nation.

“Puff!”

After landing, everyone fell to the ground softly.

Like a living dead, Richard has no consciousness, and his eyes are not moving.

The same is true of Logan Shiji and them.

Lying on the ground motionless, just like a dead body.

This devastating explosion directly wiped out everyone's hearts.

This time the blow was too big and too big.

Hit Richard directly and shut himself down.

“Come on, check the extent of their physical damage first!”

“Check again what happened to the explosion, and is there any possibility of retrieving the loss!”

...

The Lab of the Gods is completely messed up.

When the whole world was immersed in the shock of bringing the Sun Stone back from the Lab of the Gods, suddenly the dark web released a message...

The news is a video-a terrible video of the explosion at the supply station of the Gods Laboratory.

Probably all the scenes of the sinking and blowing up of the eight islands are included.

Registered netizens on the dark web have raised questions.

“What’s going on here???”

“This is too scary, right?”

“Where is the incident?”

...

“One of the bases of the Gods Laboratory is also the place where the Sun Stone was just transported back from Morendam!”

Someone on the dark web answered this question.

“what???”

“How can it explode? And this power is too terrifying? Watching the video spread for thousands of miles is not a problem, right?”

...

Netizens on the dark web continue to ask questions.

“It is the explosion of the sunstone and energy materials! It is so powerful! Not only the sunstone transported back from Morendam in the Gods Laboratory is destroyed! The sun stone and a large number of energy materials in the base are all destroyed! What! Nothing left!”

“I’m sure this is the biggest blow in the history of the Lab of the Gods! No one! They are hurt!”

“Isn’t it? Although the previous secret bases of the Gods Laboratory were destroyed all over the world, the scale was too small, and it was not painful to destroy! This time it is the core base! It hurts to the point!”

...

This piece was fermented on the dark web in advance and soon went viral all over the world.

The Lab of the Gods came from Morendam Sunstone.

But it was completely ruined before it was warm.

Not only that, but also a huge base was completely destroyed.

Nothing is left.

It is also rumored that the senior management of the Lab of the Gods was injured in the explosion.

At this moment, the whole world was shocked.

Mysterious forces still shot...

The Protector Novel Levi Garrison Chapter 2049 – 2050

Chapter 2049

All parties in Morendam are boiling!

It turns out that the mysterious forces have shot at the last moment!

Although failed to keep the Sun Stone.

But the Sunstone Gods Lab didn't get it either.

They also suffered a great loss!

The various forces who were helping to stare were dumbfounded.

Is the mysterious force taking action?

But why didn't they see it?

They have been staring.

As long as the other party is moving, it is impossible for so many people to see no movement at all.

Wherever they wanted it, Levi was the only one to do it.

It's not a multi-person action, they certainly can't catch it.

“The Lab of the Gods thought it was in control of the whole situation, but I didn't expect that it was the mysterious forces that controlled the whole situation!”

“I see! The Lab of the Gods is so fanciful that they want to attract the mysterious forces out to find them! But the mysterious forces are also looking for the Lab of the Gods!”

“You are looking for me, and I am looking for you too! When you stare at the abyss, the abyss is staring at you too!”

...

The Lab of the Gods was completely hit.

Richard fell ill directly.

The rest of Logan Shiji and others were also traumatized to varying degrees.

It was hit directly.

Faceless!

Mining on Morendam’s side also stopped.

Even if they were mined, they couldn’t be shipped back. Instead, they exposed their location.

The loss is even greater!

Levi frightened the Lab of the Gods with his own power.

I dare not mine Morendam’s Sunstone.

Together with some bases all over the world, they dare not mine anymore.

I’m afraid that Levi will come here...

This wave of Levi not only hit the Gods’ Laboratory, but also made them scared.

The Lab of the Gods is powerful, has the most advanced technology, and may even have the most powerful force on the planet.

But so what?

People still bully you and hit you in the same way.

But the point is that you can't even find where people are, and you have nothing to do with it.

...

Morendam's four young Lords are a bit depressed.

Obviously cooperating with Heishui Company, it suddenly became the envy of everyone.

But who knew this happened.

All the plans have been ruined.

Jimson's whole spirit has become more and more abnormal these days.

Always tell people that Levi is still alive and that everything is done by Levi.

But no one would listen to him, and Rex scolded even more when he heard it.

Jimson even shouted to go back.

He can't stay any longer.

I was afraid that Levi would appear.

"You are really sick now! Let me tell you, Levi can't live! This is definitely not what Levi can do alone!"

Rex said angrily.

Others also said: “Yes, according to your assumptions, Levi is alive. But these recent things are clearly done by a big power! The whole world initiates actions together, can Levi do it alone? Impossible? ?”

“Yes, Levi had a lot of subordinate forces before! But we are all staring at all of Levi’s forces, Mr. Richard has repeatedly confirmed! These forces are all in Morendam, and they all know that Levi is dying... “

...

Jimson was silent.

This is indeed the case.

How could Levi do it alone?

The main reason is that the people like Wesley are too weak (before) and can’t attract anyone’s attention at all.

Times have changed, and Wesley has been eliminated...

Richard even found out that Levi’s secret team was staring at it. ?????

However, people like Wesley looked like ordinary people in their eyes, and they didn’t need to stare at all.

...

“But I feel that Levi is still alive, he is by our side!”

Jimson believed in his own feelings.

“Boss! Shame! The one who lost your father!”

“I don’t believe that Levi is still alive, do you have the ability to come to us?”

Rex roared.

Jimson was even more frightened.

“Don’t, Levi might really come to us!”

“Then come to me, I’m afraid he won’t be a dead man?”

Chapter 2050

“I want to go home, I want to go home now.”

When Rex said this, Jimson became more frightened.

He immediately wanted to go home.

“Trash, what a trash! How can my brother have a son like you?”

Rex was going to explode.

He told the news to Jimson’s father, who was at the helm of the Blackwater Company.

They were very angry at Jimson’s speech and behavior.

Especially Jimson’s father felt that Jimson was ashamed of him again.

At this juncture, Jimson deceived the crowd and had to say that Levi was still alive.

It is to disrupt the military’s mind.

Not to let Jimson go back.

Just stay in Morendam!

“I just won’t go back, I want to see, will Levi come to look for it?”

Rex sneered.

...

Then the gods’ laboratory fell silent.

Rex and they are also waiting.

A few days passed, and nothing happened.

Rex found Jimson, who was almost in a state of collapse, and sneered: “Where is Levi? I have been waiting for several days, why hasn’t he appeared yet?”

“Do you still give you dreams every day?”

Jimson looked at him pale: “Don’t talk nonsense! He will appear! I have a strong hunch!”

“Mr. Richard’s younger brother Jefferson was like that! Levi was always staring at him!”

...

“Hahaha...”

When Rex heard this, they couldn’t help laughing.

“I really laughed at me! A dead person will appear? Do you see too many movies or too many novels? Why don’t you say that Levi is a fairy of Morendam Mythology?”

“Appear? Come on, give me a try?”

Rex laughed.

“Yeah, isn’t Levi alive? Come and kill us? We’ll be wild on the land of Morendam, if you have the ability, come and kill us!”

Others also clamored.

“Ohhah

At this time, Jimson, who was facing Rex and the others, suddenly looked at them and yelled like crazy behind them.

It’s like hell.

He was trembling, pointing to the back, looking terrified, choking, and unable to make a sound for a long time.

“After and after...”

Jimson wanted to talk, but he couldn’t make a sound at all, like something stuck in his voice.

He was sweating profusely, just like it was raining.

“Uuuuu...”

Jimson was just as scared as crazy, the whole person was not right.

“Hahaha...”

At first Rex and the others continued to laugh.

Gradually they realized something was wrong.

Jimson seemed to see something, what was behind them?

The five of Rex slowly turned around, almost frightened by the look.

There is one of them!!!

Levi!!!

Everyone in the Lab of Gods and the Blackwater Company remembers that face!

Is he alive?

Is he really alive?

Jimson is right?

“People can’t stand up talking, and they will come if they talk too much, understand?”

Levi’s voice sounded.

Let Rex and others split their livers and gallbladders.

Everyone fell to the ground in fright.

“Have I told you not to hang around in Morendam?”

Levi looked at Jimson again.

“vomit...”

Jimson didn’t catch his breath, and was scared to death on the spot.

“You are still alive, it’s incredible!”

Rex looked shocked.

“Yes, and I do everything!”

Levi smiled.

...

Soon, only a pile of corpses remained in the room.

Soon after, news of the deaths of Rex, Jimson and other Blackwater executives spread.

Add haze to the laboratory of the gods.

The mysterious forces continue...

It seems that everything about them is under the surveillance of mysterious forces.

...

It just so happened that Sarah's retreat ended today.

"What? Jimson is dead? No, I don't allow others to avenge me! I want to avenge myself!"

Sarah looked into the distance.

Her retreat was over, and she felt that she had enough strength, and it was time to avenge Levi.
