

# The Protector Novel Levi Garrison Chapter 2051 – 2052

## Chapter 2051

Jimson, Rex and others are dead.

Brought a huge blow to the Blackwater Company.

As a result, the business of Heishui Company in Morendam was temporarily shelved, and everything stopped.

The Four Young Lords and the family behind them were completely dumbfounded and dumbfounded.

The head of the Blackwater Company received the news of the death of his son and his good partner. He was furious and his heart was dripping with blood.

“I want someone to get it out!!!”

On the other side, Richard finally got over.

But suffered the accusation from the top of the laboratory of the gods.

After the final discussion, Richard was given one last chance.

Richard’s eyes were red, and the whole NPC changed.

“I have written down this hatred!”

“It’s time for the world to see the true power of the Gods Lab!”

There was a cold light in Richard’s eyes.

Now that the Gods Laboratory has been hit repeatedly, this time the supply station was destroyed, and one arm was broken.

The Lab of the Gods is no longer as mysterious and powerful as it used to be in the eyes of the world.

Even most people think that the Lab of the Gods is nothing more than that.

To be played with in this way, let alone fight back, you can't even find it.

The Lab of the Gods has become a shameful joke.

Even if they had seen the laboratory of the gods and their longing for the gambling king's family before.

It seems that the Lab of the Gods is not that strong?

The meaning of the Lab of the Gods is a bunch of gods, but they are played by a mortal.

Recently, one after another, the reputation of the Gods Laboratory has plummeted.

Originally the most mysterious resource, Sun Stone, is now known to the world.

Not only was Morendam unable to mine, but even their original mining base didn't dare anymore.

The loss is too great.

If this continues, no one will be afraid of the Lab of the Gods anymore.

The first thing Richard had to do was to re-certify the Lab of the Gods and let the world know how terrible the Lab of the Gods was.

Let the world see the horror of the Lab of the Gods!

Richard has already thought about the place to show the world the horror of the Lab of the Gods.

“Unfortunately, there is no opportunity. If there is an opponent now, how good should we directly show the power of the Lab of the Gods?”

Richard muttered to himself.

Logan Shiji said next to him: “Mr. Richard, we can pick an opponent at will, and call them opponents against the Gods Lab. Let’s destroy them first.”

Richard nodded: “Well, yes. Then who should I choose?”

“It’s better to choose Morendam, or something related to Morendam!”

Logan Shiji said.

“Morendam is not moving! Then choose one related to Morendam!”

Richard said.

Logan Shiji immediately said: “Mr. Richard, I have a choice, that is, the Tianzhan organization of the Zion Kingdom that has made a good relationship with Morendam! They have provided Morendam with a lot of help! They are Morendam’s good teammates!”

“This is okay! The Tianzhan organization has long been included in our kill list! It just happened to use this opportunity to get rid of them!”

Richard immediately said: “Give my order and set off immediately to the bear country! Destroy the Sky War organization! I want the world to know the horror of the Gods Lab!”

“In addition, I have to bring secret weapons and secret Lords, you all wait.”

...

Richard personally led the Lord to the Zion Country to organize the Battle of Heaven.

It also released news to the outside world: The Gods Laboratory found several times that the mysterious forces targeted were related to the Sky War organization, and they were one of the accomplices.

Everyone knows it well.

The intentions of the Lab of the Gods are sinister.

Obviously, it is to use the Heavenly War organization to operate.

But everyone dare not say anything.

...

On the other side, Sarah set off.

I heard that Richard and the others are coming to Bear Country.

She changed direction and went to the bear country.

She wants to kill Richard with her own hands to avenge Levi...

## Chapter 2052

The Tianzhan organization of the Zion Kingdom had received news, and just as they were preparing, the bad news came.

The Lab of the Gods appeared with a thunderous momentum.

Defeat the Tianzhan organization with a blitzkrieg.

It only took a minute before and after.

Shock!

The world is shocked!

Such a terrifying existence of the Sky War organization was destroyed in a minute!

What kind of terrifying strength does the Lab of the Gods have!

Scepter of God!

The name spread all over the world overnight!

This is also the first time that the Lab of the Gods has shown the scepter of God in front of the world!

After the God's Scepter weapon system is activated, it will destroy the huge sky war organization within one minute.

To put it bluntly, it is actually a few seconds.

It's just that the remaining time to clean up adds up to one minute.

The Scepter of God is the proud work of the Gods Lab, and it is also one of the trump cards.

Originally, Levi was going to use it when the Eagle Nation was rioting.

However, Richard deliberately sabotaged and did not allow the Scepter of God to appear.

However, many people in the Lab of the Gods thought that it was not time for the scepter of God to appear.

The timing is not right!

Now the Lab of the Gods is in a difficult stage, and its majesty is lost.

It's time to use the scepter of God.

The use of the scepter of God alarmed the world.

Destroy the sky war organization in one blow.

Let all countries and forces be amazed!

Return to the fear of the laboratory of the gods.

This weapon is unheard of.

But this is just one of the cards of the Lab of the Gods.

God knows what trump cards are still holding in the hands of the Gods Lab...

Although the key god scepter is used, no one knows what it is...

This is the most terrible.

No one dared to think about it.

In case of confrontation with the Lab of the Gods that day, how to guard against this kind of weapon?

As a result, he didn't even know what this weapon was.

In the endless desert in the northern part of the bear country.

Richard and his party appeared.

They just killed the Sky War organization, and everyone looked smug.

Their fighting power is still super terrifying.

Richard admired the work triumphantly, and smiled: "If I show the pure energy body again, what will the world do?"

"Haha..."

Everyone laughed.

Richard immediately said: "Let the experimental team speed up, I want to see those relatives of Levi transform into pure energy bodies as soon as possible!"

"I want them to become Morendam's nightmare!"

...

"By the way, the Sky War organization is still too weak! Next we still have to continue to show the power of the Gods Lab! This time it is not thorough enough!"

Richard said.

"What does Mr. Richard show next?"

Logan Shiji asked.

A harsh look flashed across Richard's face: "We have a top-secret experiment with Star Country's Sanxing Group. I feel it's time to show the results."

"No, someone is approaching us!"

At this time, Richard's men suddenly issued a warning sound.

Their detection device detected someone approaching.

"Huh? Isn't it a mysterious force coming to us?"

“Yes, our whereabouts this time is equivalent to being transparent! Everyone knows it!”

The complexion of Logan Shiji and others changed drastically.

Richard smiled: “They appeared? That’s great! This time I show the strength of the Lab of the Gods on the one hand, on the other hand I want to attract them out!”

Logan Shiji nodded: “From the previous confrontation, the mysterious forces absolutely have a deep hatred with us! Mr. Richard has exposed his whereabouts, there is no need for them not to come! This is their great opportunity!”

“Yeah, if it were them, that would be great!”

“Everyone listens to my orders and prepares to meet the enemy!”

Richard was well prepared long ago, and the Lords around him are like clouds.

“I’m coming...”

But when people showed up, everyone was taken aback.

It turned out to be a woman!

## The Protector Novel Levi Garrison Chapter 2053 – 2054

### Chapter 2053

“is her?”

After seeing the woman’s face clearly, everyone was shocked.

“Sarah? Levi’s wife?”

Even Richard was taken aback.

After everyone was shocked, Sarah had already come here aggressively.

“Richard!!!”

Seeing Richard, Sarah immediately recognized it.

She pretended to be a doctor, and she remembered that face very deeply.

“it’s me!”

“It was you who killed my husband, and I will take revenge!”

Sarah said word by word.

“Huh? What?”

Richard and others thought they had heard it wrong.

Want revenge for Levi?

Everyone was shocked.

Richard frowned.

He suddenly smiled.

Because Sarah’s appearance dispelled one of his doubts.

The strength of the mysterious force and Jimson’s rumors that Levi was alive fell into Richard’s ears.

It made him wonder if Levi was really alive?

After careful analysis, his hunch became stronger.

But now Sarah has come to him for revenge.

His doubts were dispelled.

Yeah.

Levi can't live!

Richard's mood instantly became very good.

Dispelling doubts, Sarah still seeks revenge at his door. Isn't this just enough for him to show the power of the Lab of the Gods?

Kill two birds with one stone!

Richard has made an assessment of Sarah's force value.

Super strong!

It would be quite threatening to be able to kill the Destroyer.

However, it is precisely because of Sarah's strength that this battle can demonstrate the strength of the Gods Lab.

He just lacks such a test product.

As a result, plums were dyed.

"kill!!!!"

Sarah didn't talk nonsense, and killed him directly.

"Stop him!"

Richard gave an order, and the strong around him rushed forward.

“boom!”

Sarah shook with a superpower.

The fists of both sides slammed together.

“Rumble...”

The mountain shook suddenly.

“Crack!”

But the superpower’s fist and arm burst open, followed by his body, and his head all burst.

Sarah punched him abruptly.

Everyone present gasped.

Although this superpower is not the strongest, his template is the destroyer, with 70% to 80% of the strength of the destroyer.

He was beaten by Sarah with such a punch.

“Exciting, but it just fits!”

Richard shouted as he stepped back.

“boom!”

But he still underestimated that the plum was dyed.

Sarah started instantly, turned into a flash of lightning, passed through a large group of strong men, and appeared in front of Richard in an instant.

Just want to tear Richard.

Richard was frightened.

“Crack, click, click...”

Fortunately, the mechanical armor emergency system on him was activated, instantly forming a shield in front of him to protect him.

“boom!”

But he was also hit and flew far, far away.

The others reacted and all rushed to protect Sarah.

“You all have to die! I will not only avenge my husband! I will also inherit his mission to destroy the Gods Lab!”

Sarah stared at everyone like a Valkyrie descending from the sky.

...

“boom!”

“boom!”

...

A big melee began, and Sarah fought with the powerhouses in the Lab of the Gods.

Sarah was already very strong, and the destroyer could only escape.

Now she is in retreat for a period of time, not to mention Lording all the strength of the body, at least 70% to 80%.

I have to say that Tiance Mansion is terrifying.

There are special teachers in this area to guide Sarah on how to control the body's power and fully develop the body's potential.

“puff!”

“puff!”

...

Sarah is simply too scary.

The Lord of the Lab of the Gods was constantly torn apart by her, without the strength to fight back.

The fallen, no, it should be disappearing more and more.

Every time Sarah makes a shot, he kills people.

“No, she is too strong, stronger than I expected! Stop her immediately!”

Richard shouted.

## Chapter 2054

Plum dye is too strong.

The Lords around Richard couldn't stop them at all, and even if they added up, they were just delaying time.

It doesn't play a big role at all.

“I want the world to know about this battle! It just so happens that plums can be used to show our strength!”

Richard shouted.

Great summer capital.

“Huh? No good! Sister Wen Lei, my sister-in-law is gone!”

Regina and the others finally discovered that Sarah had disappeared.

“No, she must take revenge!”

Wen Lei exclaimed.

Regina also reacted quickly: “Yes, it just so happens that Richard seems to be in Zion Country! My sister-in-law must go to Richard!”

“Hurry up, let’s go to Zion Country! How dare she fight the Lab of the Gods alone?”

“I will notify Tiance Mansion again! Sarah can’t be in danger!”

...

After receiving the news, Tiance Mansion immediately sent people to Zion Country.

On the one hand, Sarah is Levi’s wife.

On the one hand, Sarah is very strong and has great potential. Tiance Mansion doesn’t want her to have trouble now.

Soon, news of the battle between the Gods Lab and Sarah was released.

The whole world knows that Sarah avenged her husband and wanted to kill Richard to destroy the laboratory of the gods.

This is the first time Sarah has demonstrated force in front of the world.

“What? Levi’s wife is also so strong?”

“This family is ruthless, and his daughter is even more talented than ever!”

“But their family is going against the laboratory of the gods, maybe the family will destroy Richard’s hands!”

...

The news came out.

The whole world is boiling.

They all set their sights on the desert of Zion Country.

Come pay attention to this battle.

There is even a great power who can get real-time battle conditions so that everyone knows how far the battle is going.

...

Kill indiscriminately!

Sarah faced the Lords in the laboratory of the gods and killed them all!

Hundreds of Lords have died.

The quantity does not sound shocking at all.

The previous wars were tens of thousands and hundreds of thousands.

But you must know that these hundreds of people are all strong in the Lab of the Gods!

Everyone is super strong.

It's not comparable to leftovers.

The Lab of the Gods has a rating for everyone's strength.

Like Richard, the combat power rating is only c, but he is s-level in the special armor.

Before that, Richard sent out to kill Levi's s? level powerhouse.

For example, the destroyer is even ss-level.

This time Richard brought out at least s-level powerhouses, and the terrifying thing was that s-level ones accounted for one-third.

There are dozens of people who personally protect Richard Richards at the SS level.

There are even sss levels.

That is to say, as a senior, Richard has the authority to activate so many powerful people.

Before, he could only mobilize a small amount of s? and s's strong.

Every strong man of this level is regarded as a treasure.

Therefore, Sarah killed so many s-level and s-level powerhouses in one breath, he was already shocked.

Except for Levi, no one can do this before!

Sarah became more brave as he fought, showing an invincible posture.

More and more strong men are falling.

Even the people around Richard couldn't stand it anymore.

“Mr. Richard just let Sarah kill him? The s-level and even the s? are not her opponents! Sending all this level, isn't it just to die if you meet her?”

Someone asked anxiously.

Richard sneered: “Of course I know! Even the SS Destroyer is not her opponent! How can these people be her opponent?”

“Ok?”

Everyone was taken aback.

Now that you know, why not let the super strong?

Sacrificing so many powerhouses in vain?

Everyone simply couldn't understand Richard's approach.

Logan Shiji smiled: “Everyone heard about me, in fact, Mr. Richard's meaning is very simple...”

## The Protector Novel Levi Garrison Chapter 2055 – 2056

### Chapter 2055

“Ok?”

Everyone looked over.

“Let Sarah kill the Quartet first, and show all his strength and skills! The more comprehensive and detailed the better! This will kill two birds with one stone for us!

First, Sarah showed strong enough strength, and we will get rid of her later, isn't this better to highlight the power of the Gods Lab? "

Everyone nodded fiercely: "Yes, the stronger Sarah is, the more powerful we are."

Logan Shiji smiled: "Secondly, letting Sarah fully demonstrate her strength is also an analysis of her combat power, so that we can make a specific assessment of her strength. The more detailed the display, the better we can find her shortcomings! This will help us get rid of her later !"

After listening, everyone looked shocked.

Unexpectedly, Richard's arrangement was so detailed.

But the cost is too great.

Too many people died.

Every strong man is a treasure.

So many died.

Seeing everyone's intentions, Richard smiled: "Sometimes you have to pay a price for doing things! During this period of time, I have indeed killed too many powerful people! But I have to complete the experiment, and then batches of pure energy bodies. When I come out, the senior management of the laboratory will praise me instead."

Everyone nodded.

Everyone knows that if pure energy embodies the world, just one can withstand all the losses now.

In the field.

Sarah continued to show his strength.

More and more people are dying in her hands.

Richard's team used the most advanced equipment and the strong to watch the battle from the side to conduct a detailed analysis and evaluation of Sarah's strengths and weaknesses.

"Go! s? grade powerhouse!"

Richard ordered.

Several Lords and Sarah trembled and fell again.

Sarah's true combat effectiveness has not yet been fully demonstrated.

It shows that the opponent's oppression is not enough!

"Use the upgraded version of the killer weapon!"

Richard also ordered people to release Wood Zhengjie's proud work-an upgraded version of the killing weapon.

In order to continue to oppress Sarah, to stimulate her stronger strength, to expose more.

The killing weapon targeted Sarah again and again and bombarded her again and again.

However, Sarah's body burst out with a powerful invisible force, which can always block the killing weapon.

Her mighty power can tear it apart when the god-killing weapon strikes it.

"Have you seen it? God-killing weapons have no effect on this level of power!"

Richard said.

“Mr. Richard, we are still developing the third version of the killing weapon! It will be successful soon!”

The men wiped cold sweat.

“Continue to use other weapons, continue to oppress!”

Richard commanded calmly.

Apply high-intensity compression to the plum dye again and again.

But Sarah is really too strong.

Over and over again Richard’s expectations.

No matter how strong the obstacle, Sarah can always be easily resolved.

...

“Strong! Sarah is too strong, right?”

“There are thousands of strong men who died in her hands! Those are all s-level strong men in the Lab of the Gods! There are so many powerful weapons that can’t stop her!”

“I’m going, the female version of Levi! That’s too strong! These two guys are going to be against the sky!”

...

The whole world was amazed when seeing Sarah’s fighting power.

Even surpassing Levi before.

After all, Sarah is the first person to shake the laboratory of the gods!

Who else is going to kill the Lab of the Gods single-handedly?

Sarah's birth turned out, letting everyone see how strong an ordinary person can be...

This kind of combat power is like a god.

Richard's goal has been achieved.

Let the world know how strong plum dye is.

In this way, the Lab of the Gods will contaminate the plum again, and the world will know how powerful the Lab of the Gods is.

"It's time to do it, Sarah must die!"

There was a cold light in Richard's eyes.

## Chapter 2056

"Sent for SS!"

Richard gave an order, and the four strong men rushed forward.

These four singles are no weaker than the destroyer.

Although the Destroyer was the only one who succeeded in the God Creation Project, it was thirty years ago.

In the past thirty years, the development of the Lab of the Gods has not known what level it has increased.

So the Destroyer is not the strongest in the Lab of the Gods, just a card.

The four powerhouses shot together.

Sure enough, this time plum dyeing is not so easy.

Before the strong men encountered Sarah, they were almost always killed in seconds.

But this time the four Lords instantly locked Sarah.

The two sides began to blast.

The nature of these superpowers is similar to that of Sarah becoming a strong one.

The methods of using power for both sides are also very similar.

It's just that who is stronger than whoever is faster, and who reacts faster.

Therefore, Sarah is not so easy to deal with these four Lords.

It's hard to get rid of it for a while, it's hard to kill.

And Sarah lacks actual combat experience.

It's okay to deal with one person alone.

When the four people go together, her shortcomings are exposed.

...

All the shortcomings of plum dyeing are now exposed.

First, lack of experience!

Second, the means of attack and defense are still limited!

Third, I still can't use all my power!

...

The disadvantages are increasing.

But Sarah's combat power is still super strong!

Although the four Lords entangled Sarah, they were all injured to varying degrees.

If this continues, they too will die.

In a word: Although Sarah has shortcomings, she is strong.

Long time to attack.

Been pestered by four people all the time.

Plum dye is in a hurry.

"Dead! Die to me!"

Sarah became angry, his momentum rose, and his strength also increased.

Suddenly raise to another level.

...

"That's not right, emotions can affect a person's combat effectiveness! But she has reached this point, and emotions can affect her so much?"

"Unbelievable! What is going on? Her strength is directly linked to her emotions?"

...

Richard's subordinates detected the strength of Sarah through the instrument, accompanied by a sharp rise in anger.

Presenting an impossible phenomenon.

“boom!!!”

Sarah blasted out with a violent punch, and one of them was directly defeated and flew out.

Half of the body exploded, blood flying all over.

“boom!”

Another person was hit and flew away.

...

This time the four powerhouses suffered terribly heavy losses.

The eyes of the four of them were full of shock.

They were able to entangle the plum dye just now.

Why did it suddenly become like this?

“kill!”

Sarah, like a god of death, continues to kill Richard, who is not far away.

The four powerhouses quickly blocked.

But now Sarah is one level higher than them.

The four were beaten out again.

Can't stop it at all!

“Go, stop her! Don't let her come here!”

Richard ordered again.

The rest of the ss-level powerhouses all come to stop Sarah.

Richard had a sullen face.

Originally, he wanted to use these SS-level powerhouses to kill Sarah.

No other trump cards and big moves are needed.

Unexpectedly, a strong man of this level can't even stop it.

“Improve Sarah's assessment of strength to another level and use God's scepter directly!”

Richard ordered immediately.

“Understand, God's scepter system is activated!”

“Aim for launch in one minute!”

...

Richard immediately contacted the base of God's Scepter Weapon System and prepared to launch it to kill Sarah.

“Release the mechanical team! Cover our retreat!”

After Richard gave the order.

A total of ten large robots over two meters in size appeared.

It turned into ten streams of light and appeared in front of Sarah, surrounding her round and round.

Under the cover of the robot, the remaining SS-level Lords immediately fled here.

Although I know that machinery can't stop Sarah.

But what everyone wants is to postpone the plum here to facilitate the launch of the scepter of God.

Everyone knows how terrifying the scepter of God is, so Richard took everyone to flee for the first time.
