

# The Protector Novel Levi Garrison Chapter 2057 – 2058

## Chapter 2057

Only Sarah and ten robots were left.

Although the combat effectiveness of the robot is amazing, for Sarah, it is simply not worth mentioning.

They can only delay plum dyeing temporarily.

In the robot's setting program, the plum can be dragged to dye for one minute.

This is enough.

Richard and the others have fled to a safe area.

“God's scepter weapon system is ready, the countdown to launch!”

“three!”

“two!”

“One!”

...

“Rumble...”

Suddenly there was a thunderous roar in the sky, which was more terrifying than the thunder rolling.

That posture will tear this day apart!

In the depths of the vast and vast space, suddenly a beam of light came, and the sky fell!

This beam of light seems to be God's punishment, shattering everything and destroying the world.

Where does the light beam come from?

satellite!

The satellite group launched by the laboratory of the gods!

Use the super laser launched from the satellite to accurately destroy and strike.

The Lab of the Gods claims to have the most powerful technology on the planet and has long been deployed in space.

Satellites and space stations are all essential.

And their proud super weapon-the scepter of God.

It is actually a satellite launch.

The scary thing is the attack range of God's scepter-the whole world.

Because the satellites are launched from high altitude, the satellite population is wide, so every corner of the world can be covered by the scepter of God.

In addition, the weapon of God's scepter is too destructive.

So once it is released and launched, it is world-destroying.

No matter what warrior or superpower you are, once locked by this weapon, there will be no way out.

It's just because it's too scary and too advanced.

So this weapon is the trump card of the Lab of the Gods!

Therefore, it took less than a minute to destroy the Tianzhan organization.

In an instant.

This beam has come, and the target is the area where Sarah is.

The light beam has not yet arrived, and the scorching high temperature will bake this piece of heaven and earth into crimson red.

The terrible high temperature even dissolved the remaining robots on the spot.

You must know that the robots produced by the Gods Lab are all aerospace-grade materials and are resistant to high temperatures.

But it still couldn't stop the high temperature before the beam came, and it dissolved directly on the spot.

I have to say that Sarah's physique has reached the level of guarding the sky.

The machines of this kind of material were dissolved on the spot, but she looked like a okay person.

“boom!”

The beam was about to arrive, and the earth began to tremble, rumbling.

This place is located in the desert, and it began to collapse crazily...

“boom!”

Finally, the beam came and hit Sarah accurately.

It seems that the process is slow, but it is actually instantaneous.

Sarah had no chance to escape.

“laugh!”

As the central point, Sarah was accurately hit by the beam of light.

“Crack...”

This area was forcibly blasted out of a small pit the size of a small town, and mushroom clouds rose up, covering the sky.

The ground vein trend in this area was completely destroyed.

It covers hundreds of miles...

It's as if there was a meteor falling from the sky.

The power is simply terrible.

This is the power of the world that truly comes into contact with the scepter of God.

Before the Tianzhan organization was destroyed, although the god's scepter weapon was also used, everyone hadn't seen it and didn't know what form the weapon was.

This time I saw it really.

Know what the scepter of God is...

This is terrible!

Enough to play a role in deterring the world!

If it is a small country, it may be destroyed by the use of the scepter of God.

Even if there is a war between big forces, the scepter of God is a decisive weapon.

But the Lab of the Gods is now actually using this weapon against a person?

On the one hand, it shows how powerful this person is.

On the other hand, it also shows that the Lab of the Gods is powerful. They have too many cards, and the Scepter of God is not the only one.

The moment the scepter of God was shot by this beam of light, Sarah disappeared on the spot...

## Chapter 2058

“Yeah! We won! Sarah will die!”

“It’s just a mortal body, can bear the scepter of God? It’s ridiculous!”

...

When Richard’s men saw Sarah disappear, they cheered.

They have enigmatic confidence in the scepter of God.

“No one can force the scepter of God to survive!”

There was a triumphant smile on Richard’s mouth.

If it had been used earlier at the border of the War Eagle Nation, Levi would have died long ago.

But Richard did not regret not using the Scepter of God.

If he used it, his brother would be dead.

It's not too late now.

Killing such a powerful plum does not lose money.

...

The secret bases in Morendam have exploded.

“What kind of weapon is this? Have you detected it? Isn't this powerful?”

The bear country, the major countries and the major forces all detected the use of God's scepter weapons for the first time.

The amazing power scared everyone.

“What? Sarah was beaten directly???? How is this possible?”

The Tiance Mansion and other forces received the news as soon as possible.

The plum dye is gone?

The Lords of Tiance Mansion sent out all stopped one after another.

Sarah is dead, what's the point of them going?

“What? Dead?”

Wen Lei and Regina are going crazy.

“I don't believe it, if I don't see it with my own eyes, I don't believe it!”

...

The mushroom cloud skyrocketed, and the scene was still full of smoke.

Richard led his troops to the court.

He is still an idea, to see the corpse in death.

Otherwise he is not at ease.

“Find me! Test me!”

Richard ordered the search for Sarah’s body.

“Dididi...”

At this time, the detector sounded an alarm.

“Alert! What a strong energy fluctuation! Sarah is not dead yet, she is still alive!  
She is still alive!”

Someone exclaimed.

At this time, everyone became vigilant and stared at the pit.

“boom!”

Richard’s men forcibly dissipated the dense smoke, revealing the appearance of a huge pit.

The deep pit is hundreds of meters long, and the deepest point is estimated to be hundreds of meters.

The beam penetrating ability of God’s scepter weapon is too strong.

But they were suddenly dumbfounded.

Because Sarah is still alive.

Although she was covered in blood, there were wounds in her body.

She suffered a very serious injury.

But she abruptly carried the scepter of God and didn't die.

However, this light beam penetrated her body and destroyed her body structure to the greatest extent.

Had it not been for Sarah's body modification in the experimental accident, he would have surpassed the limits of the human body.

Otherwise it is absolutely impossible to live!

Richard and others present were stunned.

Is there really someone who can force the scepter of God to survive?

"We still underestimated her physical strength! Let's put it this way, her physique is about to approach a pure energy body!"

Richard suddenly showed a sneer: "Unfortunately, she is still seriously injured! She is already at the end of the battle!"

"Yes! The energy in her body is losing rapidly! If the energy in her body runs out, she will die!"

Richard's men have been detected.

"Well, let's give her a ride!"

Richard sneered.

Richard waved his hand, and the strong around him immediately swarmed.

"You guys go together too!"

Richard pointed at two people, these two are sss-level powerhouses.

Richard was dispatched at the last moment.

He didn't want to dye plum any way to survive.

Seeing the enemy attack, Sarah stood up forcibly.

Seeing Richard, she was full of anger.

She wants revenge!

Even if she died, she would kill Richard.

“kill!”

Sarah went crazy again.

“boom!”

“boom!”

...

But after all, Sarah suffered too much injury in order to hold the scepter of God.

She was beaten out again and again.

There is no way to get close to Richard.

...

“boom!”

Another round of chaos.

Sarah was beaten out and couldn't get up at all.

She closed her eyes in despair.

“I am here to accompany you in King’s Landing!”

### Chapter 2059

Sarah has already felt the rapid loss of body energy, and her recovery speed can’t keep up.

She can’t even open her eyes now.

She has the heart, but is powerless.

She doesn’t want to die, she still misses Junjun and her family.

But she couldn’t help it.

She underestimated Richard, she underestimated the Lab of the Gods.

She was not strong enough to fight against this behemoth and avenge Levi.

“What about Mr. Richard? Kill her or catch her back? If we catch her back, we can do a lot of articles! Turn her into our person...”

Lee Seki gave a sinister smile.

However, Richard shook his head directly: “No need, just kill! She, like Levi, can’t stay, once there are too many variables! On the contrary, it is a threat to us!”

Levi has brought too many failures to Richard.

Let him understand that some people must be killed as soon as possible.

Can't give a chance at all!

Richard glanced at Sarah: "Kill!!!"

A person next to him stepped forward, and the energy gathered on his right arm. This punch would definitely make Sarah's bones disappear.

Only when there is no bone left, Richard will be relieved.

"Meet Levi in hell!"

The energy gathered on the right arm of the superpower is almost transparent.

He slammed a fist...

"boom!"

At the moment of the smashing shot, suddenly a powerful shot came from a distance.

"laugh!"

This Lloyd Jin directly tore the right arm of the superpower's energy gathering.

"what!!!"

The man let out a scream, and his right arm fell directly.

"No one!"

Richard and his men were alert and yelled loudly.

"Kill her! Kill her quickly!"

Richard shouted immediately, fearing that things might change.

Everyone shot to plum dye one after another.

“puff!”

“puff!”

“puff!”

...

But any Lord who approached Sarah would either explode his arms or legs, and explode his head directly.

No one can get close to one meter away from plums.

This seems to be a restricted area.

Sarah was shocked by the movement, she opened her eyes hard and looked around.

Richard and his men also looked around.

But no one at all.

This is strange.

“Is it a Lord of the Great Summer Policy House??”

This was Richard’s first reaction.

But he had already prepared a countermeasure for Tiance Mansion.

After all, Zion Country is too close to Morendam.

If Tiance Mansion or Morendam Lord wants to act, they will arrive soon.

How could a man who is so cautious as Richard ignore this.

He had already contacted Huoyun Cthulhu before the action.

The Huoyun Cthulhu had already agreed, staring at Tiance Mansion and Morendam's other Lords.

As soon as there is a turmoil, it will be notified immediately.

Not long ago, there was news from the Black Sun of the evil god of Fire Cloud, telling the exact distance between the support Lords of Tiance Mansion and Wen Lei.

It is impossible to reach in a short time.

So who will it be?

“Kill Sarah first!”

Richard knew that someone was coming to rescue, so he would never let Sarah live.

Several SS-level Lords killed Sarah one after another.

“boom!”

“boom!”

...

It's just that they suffered an unprecedented bombardment.

Although he was not dead, his body was full of holes.

Although they are very close to Sarah.

But the distance of this meter is like a chasm, and it cannot be crossed at all.

However, these people's shots will also attract people in the future.

Not far away, a tall figure stood on the top of the huge Gods Laboratory aircraft.

Like a demon looking down on the common people.

Just standing there brings an unprecedented threat to the Lab of the Gods.

Even Richard felt short of breath, even suffocating.

Other people are even more so, it is fear from the depths of the soul.

“who are you?”

Richard shouted.

“Garrison! Jun! Pro!”

## Chapter 2060

The name of the person, the shadow of the tree.

When these three words came out, it was like a bolt from the blue.

“Boom boom boom...”

The soul that blasted everyone was not possessed, and the body was about to explode.

Levi? ? ?

A familiar and terrifying name!

The existence that was previously listed as the number one threat by the Gods Lab!

Mention this critical moment, everyone is going to collapse.

Richard didn't know what was going on. He was soaked in cold sweat and almost incontinent.

The whole person's brain is blank, and it is entirely a subconscious reaction.

Others are basically the same.

After Sarah heard these three words, her whole body trembled, and she seemed to regain strength, who was dying.

...

The sudden three words caused a huge panic.

The impact on the spiritual level is no less than the power of the scepter of God.

But, no.

Levi was dead.

Almost the whole world watched his body dissolved.

Richard was sure again and again for such a cautious person, and even his wife ran for revenge.

How could he still be alive?

Richard laughed suddenly: "You said you are Levi?"

He never expected that someone was stupid enough to pretend to be Levi?

Levi himself?

That is impossible!

I was afraid that the other party wanted to pretend to be Levi and act as a fright in his name.

I have to admit that the moment just now really worked.

Everyone was suppressed.

Including himself!

But how could it be possible to completely scare yourself with the name of a dead person?

“of course!”

The man at the top replied.

“Hahaha... I really didn't expect someone to pretend to be Levi! Levi has no bones left, and those who die can't die again!”

“My friend, I saw through your trick, you are not Levi!”

Richard laughed.

The man smiled: “Who said I was dead? Didn't I live well?”

“Ok?”

As soon as these words came out, the sober-minded Richard was taken aback.

He started to think.

Is there a possibility-Levi is still alive?

At this moment, his brain is running fast, and he has already thought about everything he should think about.

From the perspective of his knowledge, including the technology and secrets of the Gods Laboratory, Levi would never be alive.

Unless he is detached from humanity.

But it's impossible!

Others were also wondering if Levi was alive.

But after thinking about it carefully, Levi couldn't live.

“Who are you? You are not from Morendam, are you the one who has been against me lately?”

Richard asked.

“Guess what?”

The man sneered.

“I think so! I met today, don't want to leave!”

Richard looked angry.

“Bye now!”

But the person on top of the aircraft waved goodbye.

Instantly disappeared from everyone's eyes.

“Huh? Go away?”

“Not good, Sarah!”

Richard exclaimed.

As soon as Richard reminded, everyone looked back.

Where is the shadow of Sarah?

Gone long ago.

The mysterious person just appeared suddenly and said Levi's name again, which attracted everyone's attention.

During this time, no one else would take care of Sarah.

The opponent is a top expert, even more than one, it is normal to take Sarah away quietly.

"I..."

Richard was so angry that he wanted to swear.

The ship capsized in the gutter.

The other party is arrogant.

It's a pity that his attention was focused on the three words Levi, and he completely forgot.

Explain that the other party's mention of the three words Levi is useful.

The other side.

In the desert of Zion Country.

Sarah was rescued.

That's right.

Not just one person, there are others.

Soon they merged with the man before.

Seeing this man, Sarah's face was full of excitement.

"King's Landing! You are still alive! You are still alive!"

"I'm not Levi!"

### Chapter 2061

"what?"

The emotional Sarah was taken aback and looked at the person in front of him incredulously.

Isn't it Levi?

"Then you just said that you are Levi? No, I don't believe it! You are Levi!"

Sarah looked excited.

Because this person is similar to Levi, his voice just now is the same.

Upon seeing this, the man pulled off his mask, revealing his true face.

A strange face appeared before his eyes.

Sarah was stunned.

Who is this?

“You...who are you?”

Sarah asked immediately, and the whole person became vigilant.

“For the sake of Levi’s face, whoever saves you, come with us!”

This person directly did not give Sarah any chance to resist, and took her away.

If Levi or the Seven Evil Gods were here, you would find that this person turned out to be the Underworld God!

It is now one of the eighteen dark angels in the Bible organization.

It turned out that it was the Bible organization that saved Logan Ziyang.

This is the task of the Dark God.

Six of the eighteen dark angels came.

Sarah must be saved.

It is estimated that no one would have thought that they would come out to intervene.

Levi didn’t expect it.

Hearing that Sarah was in trouble, he hurried over.

But he was stopped halfway.

Four top Lords.

Powerful enough to explode.

He had never seen it before.

Can faintly feel a little familiar, but can't remember.

These four people are naturally the remaining four dark angels.

The four of them are responsible for intercepting Levi, while Mingxie and the other are responsible for saving Sarah.

It can be seen that stopping Levi is more difficult than rescuing Sarah.

When Levi was about to forcibly open the four people to intercept, they actually evacuated.

Levi didn't think much, and rushed to the destination.

At this moment, Richard and the others are looking frantically.

Sarah was rescued? ? ?

Seeing this, Levi looked dumbfounded.

He just thought those people belonged to the laboratory of the gods, but now they don't seem to be.

A third party got involved.

It turned out that the four people stopped him just now so that the others could save Sarah away.

They don't want to save Sarah by themselves? ? ?

But they saved it by themselves.

The key is that these people still know that they are alive!

who is it?

Who the hell is it?

What are they going to do?

Think carefully.

Levi was startled in a cold sweat.

He immediately thought of someone helping him when he was almost exposed in front of Sarah when he was on Golden Harbor Island before.

That group definitely knew that they were still alive.

But at that time, Levi judged that they were not malicious and wanted to keep his identity secret and continue his own plan.

The fact that there was no interference or hindrance for a while later proved this point.

But the group of people who appeared now obviously knew their identities.

But to stop themselves, they rescued Sarah.

I don't know what the intention is?

And this group did not reveal that they were still alive.

It is not known whether it is an enemy or a friend.

But Levi can basically tell that these are two groups of people.

It was another group who rescued Sarah.

What is their real purpose?

Richard and the others searched for a long time, but there was no trace of plum dyeing at all.

But most of their goals have been achieved.

Indeed shows the power of the Gods Laboratory.

No one dared to touch the weapon of God's scepter.

Sarah has been labeled as such.

If it weren't for people to save, it would definitely die.

But who saved Sarah?

Richard concluded that it was definitely not Levi.

He really expected it this time.

The whole world is wondering who made the shot?

Is it a mysterious force?

Did they show up?

The Great Summer Policy House is also very confused, who is it?

Levi also knew the whole story.

Pretending to be the person he saved?

"Boss, we are actively searching on the one hand, and on the other hand, I think they will find you! They must have a purpose to take the sister-in-law."

Chapter 2062

Suzaku and others analyzed.

Levi thought for a while, it's probably like this.

The other party knew that he was alive and did so.

That is purposeful.

They are likely to find themselves.

Who is the one?

Levi couldn't think of it temporarily.

He could not imagine that anyone knew he was alive.

There is more than one group.

so horrible.

Why don't you break the news that you are still alive?

In a large sense, it may be that you are weak in the eyes of these people, even like ants.

Of course, it is also possible that they have the value of use, such as dealing with the laboratory of the gods.

...

On the other side, Sarah slowly opened his eyes.

She was surprised to find that her injury was much better, and she was full of energy.

She survived.

But who is the one who saved her?

In the face of her husband?

Sarah opened his eyes and found himself in a dimly lit room.

Everything in the room was strange, especially the murals on the walls and some text symbols, which I couldn't understand.

And it's very scary.

"you're awake?"

A majestic and cold voice came.

"Who are you? Where are you?"

Sarah became nervous.

She couldn't tell where the sound came from.

"Don't be nervous, I sent someone to save you!"

"Your husband and I are acquainted. Before he was alive, I even invited him to join my organization, but he refused."

This voice is not someone else, but the dark God of the Bible organization.

But he didn't tell Sarah Levi was still alive.

Hearing this, Sarah's nervous nerves relaxed a lot.

But she still looked wary: "You save me, not just for my husband's face, right? There must be other reasons!"

"Yes! Let me ask you first, have you seen the power of the Lab of the Gods?"

“Ok.”

Sarah nodded.

“But this is actually just the tip of the iceberg. You can’t imagine the power of the Lab of the Gods! Not to mention you destroying the entire Lab of the Gods, you can’t even kill Richard! It’s hard, hard...”

Hearing this, Sarah dyed his face dejected.

Before, she felt that she was strong, and she was in retreat for a while, thinking that she could get revenge.

As a result, he almost caught up with his own fate.

Sarah clenched his fists tightly, can this revenge be avenged?

The opponent is too strong.

Strong enough to make people desperate.

She didn’t even find out Richard’s hole cards, let alone the Lab of the Gods.

Powerless!

Facing the laboratory of the gods, she felt a deep sense of powerlessness.

He knows who the enemy is, but there is no way to avenge him.

This feeling makes Sarah mad.

Just as she was desperate, a voice suddenly rang in her ear: “I ask you, do you still want to avenge your husband?”

“miss you!”

Sarah is decisive.

“Are you afraid of the Lab of the Gods?”

When the voice sounded, Sarah hesitated, but still shouted: “In order to avenge King’s Landing, I am not even afraid of death!”

“Well, good. Even though you are strong, it’s still too small to meet Richard and the Lab of the Gods.”

“I have observed you, and your potential has been developed up to 70%! Moreover, the cultivation method guided by Tiance Mansion is too old-fashioned! It is impossible to spur your true combat effectiveness. The increase in your strength is mainly derived from your emotions. !”

“It’s too easy to control you. Find a magic Lord or wizard to control your emotions, and your combat effectiveness will be greatly reduced. Killing you is easy!”

...

Hearing this, Sarah’s face was shocked.

The other party knows himself so well, what is he going to do?

“I know what you are thinking? Then I will reveal my identity! This is the Bible organization, I am the helm, they call me the God of Darkness!”

“Congratulations, Sarah, for passing my test, you are eligible to join the Bible organization!”

“Join us, nothing else, you will unleash all your potential, and you can avenge Levi!”
