

The Protector Novel Levi Garrison Chapter 2063 – 2064

Chapter 2063

Every word of the Dark God pierced the heart of Sarah.

Sarah's body trembled.

It seems that some factors deep in my heart have been aroused.

She clenched her fists tighter.

“I can't guarantee anything else! I will only guarantee that you will be strong, strong enough, and strong enough to challenge the Lab of the Gods! Let you kill Richard yourself! Kill the people in the Lab of the Gods one by one, Take revenge for your husband!”

However, Sarah still had doubts. She still couldn't believe the person in front of her at all.

There must be a reason for the other party to do this.

The Dark God saw her doubts and smiled and said: “First, I like your talent and need you to join the Bible Organization and become my disciple! Second, the Gods Lab is an enemy and not a friend, and I also want to overthrow it.”

“But it doesn't matter if you don't agree, I can send someone to send you away right now, but it will be very difficult for you to get revenge in your lifetime.”

“You can leave, but you can come back at any time after you think about it. The door of my Bible organization is open for you at any time.”

...

Sarah hesitated.

The other party even let her leave?

However, after she left, if she wanted to avenge Richard and the Lab of the Gods, there was almost no hope.

This time she deeply felt the strength of the other party.

Leave, the chance of revenge is gone.

If you stay, it is very hopeful.

After all, the ability of the Bible Organization to rescue her so easily shows that it is very powerful.

No matter what the purpose of the biblical organization is to recruit itself, as long as you are strong enough to avenge Levi.

After thinking for a moment, Sarah shouted: "I am willing to join you!"

"good very good."

"Next, you have to go through rituals and baptism before you can truly become a member of the Bible organization!"

...

Sarah officially joined the Bible organization.

Even people like the Dark God do not know what the purpose of the Dark God is.

Originally, they thought that Sarah was brought in to force Levi to join the Bible organization.

Unexpectedly, the Dark God didn't mention it, and instead let Sarah join the Bible organization.

The most important thing is that the dark god himself cultivated plum dye.

Since the establishment of the Bible Organization, the Dark God has personally trained only one person.

Sarah received this honor as soon as he joined.

Underworld God they couldn't figure it out.

They all dream of being nurtured by the Dark God, even if they are instructed once.

But Sarah has not only been trained, but looking at this posture, he is likely to become the helm of the future Bible organization.

This is the most critical and the most terrifying.

But they dare not question.

In the biblical organization, no one has ever questioned the decision of the dark god.

...

the other side.

Levi has sent people out to check the whereabouts of Sarah as much as possible.

However, his manpower is limited.

And Wesley and the others can't expose too much.

Yes.

Suzaku was right.

The other party knew that he was alive and rescued Sarah. There is a high probability that he will come to him.

But what if you don't come to look for it?

The other party didn't think about targeting himself, so he wanted to make a fuss about Sarah?

Levi was very upset.

"Well, Richard is definitely looking for Sarah's whereabouts now. Suzaku, send someone to watch their movements!"

Levi ordered.

"Understood, we have been staring at it. As soon as they have news, we will know immediately."

...

Richard is also very distressed here.

He was furious: "Trash, a bunch of trash!"

"This time they have all exposed their whereabouts, why haven't you found any clues? What's the use of you?"

After Sarah was taken away, Richard sent everyone to find him.

The result was nothing.

The other party does not appear and cannot be found.

The other party appeared under his nose, but still couldn't find it.

"Mr. Richard, the evil god of fire cloud is looking for you! He has a clue..."

Chapter 2064

"Hurry up!"

"Connect!"

Richard shouted anxiously.

After the two connected, the voice of Huoyun Cthulhu came from there.

"Does Mr. Richard call himself Levi?"

Richard immediately replied: "Yes, but how could it be Levi, Levi died!"

The evil god of fire cloud replied: "Well, Levi can't live! But are the techniques used by that person the same as Levi?"

The question of Fire Cloud Cthulhu surprised Richard.

Richard began to recall the scene of the man's shot with his men.

I have to say that the Lab of the Gods still possesses a lot of high technology.

I didn't see how the Underworld God took action before, but it was restored later.

Including where the evil god is hiding, how to make a move, and how to appear.

All have been restored one by one.

"It seems to be a bit like Levi?"

Everyone was surprised to find that the other party not only said that he was Levi, but the key behavior was also Levi.

“Send to Huoyun Cthulhu!”

Richard ordered.

After reading it, Huoyun Cthulhu said, “It looks alike! But this is not Levi! It is an imitation of him! I have doubts about his identity, but I have to check it out! I’ll give you the exact information!”

The Underworld God was once the closest person to the Huoyun Evil God, and he was well versed in the techniques of the Huoyun Evil God.

So he can also imitate Levi.

It can be imitated almost exactly the same.

Now Huoyun Evil God suspects that the Underworld God came to save people.

However, there is no conclusive evidence, and he dared not insist on it.

“It seems that you are already sure, how much is it at present?”

Richard is also a wise man, so he can’t read the mind of the evil god Huoyun.

“50%, I will give you a definite answer as soon as possible!”

...

After hanging up the call, Richard smiled.

Huo Yun Cthulhu was able to give him this answer, basically it was done.

They now believe that the one who rescued Sarah was the mysterious force.

Thinking that the mysterious force will be uprooted soon, Richard and others can't restrain their excitement.

"Let's go, the mysterious forces will surface soon! We have to be prepared too!"

Richard needs to improve his strength.

He aimed at pure energy body.

As long as pure energy manifests in the world, he will be proud of the world.

"Tomorrow will be the experiment of Logan and Mann's family. I have to stare at it myself, and there must be no problems!"

Richard's face was full of expectation.

Although so far no pure energy body can reach the level of Wood Zhengjie.

After all, Wood Zhengjie is the originator, and the super-energy particles colliding in the laboratory are different.

Wood Zhengjie discovered that it was natural, but they were man-made.

All aspects are greatly reduced.

But even the pure energy body with a low-profile version is invincible.

Not to mention that Richard is in mass production.

He currently has twenty-four pure energy bodies.

In addition, if the Logan and Mann family succeeded, it would be more than thirty.

He believes there will be more in the future.

However, such super-energy particles are also super troublesome to manufacture.

Consume a lot of resources...

the other side.

Levi has tried his best to find the whereabouts of Sarah.

But he can be sure that Sarah will be fine.

After all, they are all valuable.

He began to ask Suzaku and others to study God's scepter weapon.

After all, the Gods Laboratory exposed this weapon this time, and it can only be used as a frontal killing weapon in the future, not a secret weapon.

So everyone must study thoroughly.

Destroy as much as possible.

If it can't be destroyed, it will figure out how to prevent this weapon's attack.

Where Levi sat cross-legged, he still recalled analyzing the moves of the four Lords who blocked him.

Trying to find some clues from the four.

"Huh? I have a clue..."

Levi thought of something.

"It's not good, something has happened, the boss has something wrong!"

At this time, someone hurried in.

The Protector Novel Levi Garrison Chapter 2065 – 2066

Chapter 2065

It just happened to disrupt Levi's thoughts.

The thoughts captured at that point are gone.

“what's up?”

Levi asked with an unhappy expression.

“Boss, the sun stone we hid should have been discovered.”

“what?”

Levi's face changed.

The first few batches of Sun Stone were robbed by Levi, but the time was tight and they were not transported too far.

And uncharacteristically transported to the Star Nation to befriend the Battle Eagle Nation and the Lab of the Gods.

The Star Kingdom is basically the site of the Gods' Laboratory.

In addition, the star country was close, so Levi hid all of the sun stones in the star country.

After the incident, the Lab of the Gods searched it all over, but Star Kingdom basically ignored it.

After all, in their view, this is their own territory.

This is black under the lights.

Levi knew that this trick would work temporarily, but over time, he would definitely be discovered.

He still has to find a way to transport it to other places.

I didn't expect it to be exposed so soon.

"It was mainly an experiment in a laboratory of Sanxing Group that exploded, and it happened to spread to the place where we hid the sun stone! They sent someone to investigate, it should have been exposed..."

Levi immediately stood up: "Transfer! Move quickly! If it doesn't work, it will be ruined!"

...

The other side.

Richard is checking Mike's physical condition.

At this time, Logan Shiji came quickly: "Mr. Richard is surprised! The sun stone that was robbed in front has been found!"

"What??? You say it again!"

Richard almost jumped up excitedly.

"The Sun Stone has been discovered! In Star Country! Sanxing Group discovered it by accident!"

Logan Shiji was also a member of the Sanxing Group before, so he got the first-hand news.

“Hurry up and let Sanxing Group and Star Country take down this batch of sun stones in the name of the Lab of the Gods! Use all means! Grab the people and leave the sun stones!”

“Tell them that the Lab of the Gods will promise what they want!”

“In addition, we are also going to the Star Country, at the fastest speed!”

“Come here, bring me two pure energy bodies! You can control it!”

...

Richard hastily ordered to go to the star country desperately.

Even if the pure energy body is formed, it is actually in the experimental stage.

Because you can't fully control your thoughts yet.

Regardless of everything, Richard took two with him.

Star country.

The Sanxing Group and related departments received the news from the Gods Laboratory. To be precise, it should be an order.

“Immediately, immediately, everywhere! No one can escape from the star country, and the sun stone cannot be thrown away!”

“Once successful, the Lab of the Gods will satisfy what we want! This is a great opportunity!”

“Hurry up and send someone to send our hole cards!”

“In this era, our Sanxing Group has to intervene to let them know how strong our Sanxing Group is.”

...

Sanxing Group is really low-key.

It has always been based on power and wealth.

But they do a lot of things secretly.

Such as engaging in technology, such as genetic modification, etc...

In fact, Sanxing Group is a hidden dragon.

They are very tolerant.

Before Levi was forced to do that, none of them revealed their secrets and hole cards.

They endured it for so long in order to adapt to the current era.

The heir of the Sanxing Group who was beheaded by Levi at the beginning was actually on the surface.

The true core members of the Sanxing Group have been doing genetic modification and bloodline modification experiments since they were young, even in their mother's womb.

After these core members were born, each of them awakened their super abilities.

It's just that the outside world doesn't know it at all.

The Sanxing Group and the major forces of the Star Country went to the hiding place of the Sun Stone non-stop.

Where will be thoroughly surrounded.

On the other side, Levi also sent someone to take away the Sun Stone.

Chapter 2066

An unprecedented conflict will arise.

Richard and the others arrived at the fastest speed in a flying vehicle.

They can arrive in two hours at the earliest.

As for the vicinity of the Star Nation, all the forces that could be used by the Lab of the Gods or the Eagle Nation were sent out.

Stop the Sun Stone from being shipped out at all costs!

Both sides are racing in time.

“It really doesn’t work! Let Sanxing Group come up with the hole card, which is the one developed with the Lab of Gods!”

Richard issued another order.

The products developed by Zhushen Laboratories and Sanxing Group’s laboratories, Richard wanted to use before in Zion Country.

It’s just useless, Sarah was rescued.

Richard will use it this time.

“Not only that, by sending a message on the dark web in the name of the experiment of the gods, anyone who helps us will be rewarded! Let all the nearby forces or people go to the star country!”

Richard issued the order again.

Richard could not wait to use all his hole cards this time.

Now more and more forces and people all rushed to the star country.

Once something happens, Richard will not give a chance.

...

Levi personally led people on the way to the star country.

“The boss is not good, the Sanxing Group and the major forces of the Star Country have been madly dispatched, and they have surrounded the place where the sun stone is hidden. The Alton Warlord are in trouble and are trying to find a way!”

The hiding place of the Sun Stone of Sanxing Group was the closest to Alton, so after the accident, Alton was the first to take charge of the overall situation.

But now it is surrounded.

Levi's face was gloomy.

He is thinking about countermeasures.

Who would have thought that an experimental error in Sanxing Group would blow up the location of the Sun Stone.

People are really not as good as heaven.

“This time we have to be exposed anyway, and we can't even destroy the sun stone!”

Everyone looked gloomy.

Levi said with a cold face.

The situation is severe to the extreme.

It's more difficult than ever.

...

the other side.

The major forces of the star country are madly dispatched.

The largest consortium, the largest dark force, and the strongest supernatural organization have all been dispatched.

Sanxing Group is understandably, the leading consortium of Star Country.

The black hand group, the biggest force in the dark world of the star kingdom, has countless Lords.

The Mythical Organization, the strongest organization of super-powers in the Star Nation, encompasses super-powers in the Star Nation and the entire world.

There are other forces all on the way.

Surrounding the hiding place of the Sun Stone is impenetrable.

Among them, the team of Sanxing Group has arrived near the place where the Sun Stone is hidden.

The team of Sanxing Group is very large, and there are large ships parked in the harbor not far away.

The big ship shook violently from time to time, raising waves, as if there was something in it, and it was angry.

Not surprisingly, it contained the secret weapon of Sanxing Group, and even what Richard said-the trump card developed by Zhushen Lab and Sanxing Group together.

On land, the Sanxing Group's team of hundreds of vehicles all stopped.

There are a few armored vehicles at the end, which are still special armors.

Can block the attacks of super warriors and super powers.

After the armored car was opened, boys and girls came down one by one.

The oldest is estimated to be twenty-four-five.

But these young people are cold and terrible one by one.

They turned their eyes, ignoring sentient beings, and their faces were cold and unfeeling, without a trace of human feelings.

Like cold-blooded animals!

But each of them exudes an aura of bloodthirsty and terror.

Other people in the Sanxing Group saw these boys and girls subconsciously avoiding, they were in fear.

Among them are some powerful warriors and super powers.

They are actually afraid of these young people.

It's incredible.

"Is it necessary to make the battle so big this time? Release all these "devils"..."

Someone looked at them and murmured in horror.

The Protector Novel Levi Garrison Chapter 2067 – 2068

Chapter 2067

It can be seen how terrible these young people are.

He is called the “devil” by his own people.

I don't know if they are the trump cards developed by Sanxing Group and Zhuo Shane Lab.

As soon as these young people appeared on the stage, even their breath changed.

Everyone only feels depressed, the feeling of being pulled away from the soul.

Only the people of Sanxing Group know what kind of perverted group this is.

They are the demons from hell.

and also...

Everyone glanced at the big ships in the nearby harbor.

This is also the super secret of Sanxing Group, the super hole card.

Take it out all at once.

“Rumble...”

Suddenly a few super long trucks in the distance arrived carrying the device.

These vehicles are unprecedented in length and width.

Apparently, there are hundreds of meters.

Still a few.

I don't know what the devices on these cars are for.

It's just that after everyone saw it, their faces changed drastically.

"Even it was taken out? Terrible!"

"We Sanxing basically took out everything we should take!"

"I don't believe that Sun Stone can fly away this time?"

It seems that the Lab of the Gods is crazy this time and wants Sanxing Group to ignore all costs.

Soon, the Lords of the Mythology Organization and the Black Hand Organization all arrived.

There is nothing wrong with the mythology organization possessing superpowers, very strong and super strong.

The black hand organization is the boss of the dark world, and black hand means that one hand controls the world.

They also have a lot of hole cards.

When the three major forces of the Star Kingdom came out, it was simply terrifying.

Surrounded here tightly on a large scale.

The air was also blocked, the ground was blocked, and even the sea was blocked.

Now the probability of transporting the Sun Stone out is zero.

Even the unicorns can't run away.

After determining the encirclement, the Sanxing Group ordered them to further narrow the encirclement and kill the people inside.

now.

In the hiding place of Sun Stone.

Alton stayed with hundreds of people.

These are the brothers of Xuan Zijun and Huang Zijun.

When they wanted to take the Sun Stone away, it was too late.

The Sanxing Group was too powerful and reacted too quickly.

So that Alton and the others are now surrounded.

Can't get out at all.

"What will the Alton King do now? The opponent is accelerating to shrink the encirclement. Soon we will all be exposed, and the Sun Stone will not be able to keep it."

The boss of Xuan Zijun asked.

"Yeah, if the other party is pressing, we can't get out, and people outside can't get in. In the end we all stayed here."

Huang Zijun's boss also said.

Alton looked ruthless: "It really can't, destroy all the sun stones!"

“I can only take this step in the end!”

“However, we can reduce casualties! We break a blood path, and the Alton King, we will cover you and evacuate! We will die with the Sun Stone!”

“Yeah, let us take the Kylin War King. You are better than us, and staying with the boss has a greater effect. We are willing to coexist and die with the Sun Stone!”

Everyone said.

Alton glared at everyone: “Fuck! I can still abandon you and go? Then am I still called Alton? Look at it! Anyway, the Sun Stone can’t be shipped out, we have to destroy it all! We can run away for a few minutes. One!”

“Row!”

Everyone was waiting in unison.

“Rumble...”

At this moment, the earth rumbling suddenly.

The earth shook and the mountains shook.

“this is...”

At this moment, everyone felt a change in their bodies.

It seems that the blood flow has slowed down, the heartbeat has slowed down, and breathing has become difficult.

Everyone is a warrior, and is very sensitive to physical feelings.

The key is that everyone feels that they can’t use true qi, and can’t use the powerful power in the body.

“No, even the sun stone doesn’t emit energy! What they should use is a device that isolates energy to prevent us from destroying the sun stone!”

Kylin is aware of the seriousness of the problem.

Chapter 2068

Before Levi destroyed the sun stone very simple, as long as detonate any sun stone, once the terrifying energy is emitted, it can cause successive reactions, and all the sun stones will explode.

But now, the other party uses a device that isolates energy.

The terrifying energy in the Sun Stone was isolated and blocked, and could not explode at all.

Alton and the others wanted to destroy the Sun Stone, they had to break it piece by piece.

It’s very difficult.

Maybe this time, the opponent has all rushed in.

And they themselves are also affected, unable to display their true strength.

“What kind of device is this? It’s terrible, isn’t it?”

Everyone was shocked.

In fact, this device is a device that disturbs or even changes the magnetic field.

So as to achieve the effect of isolating energy and affecting the strength of martial artists.

This device came from the several hundred-meter-long trucks just now.

Sanxing Group and Richard had long expected that Alton might destroy the Sun Stone.

So start this device specifically.

After the device was activated, Sanxing Group immediately ordered it.

“Rush in and protect the Sun Stone! Capture all the enemies alive, don’t kill them!”

“Remember, don’t let them destroy the Sun Stone!”

“Hurry up!!!”

...

With an order, all the Lords rushed in.

All of the black hand organization and the myth organization sent Lords to enter.

In addition to a middle-aged man, Logan Zaiwan, the principal of Sanxing Group also has a young and beautiful woman in a windbreaker, as cool as the wind.

Her name is Logan Chengmin, regardless of her youth, but she has a high position in the Sanxing Foundation.

He is the leader of the security group of the Sanxing Foundation.

This is an extremely high position in Sanxing Group.

The institution that truly controls the force!

Logan Chengmin looked cold, and beckoned at the young people called “devil”:
“You all go too!”

“Remember not to kill! Grab everyone!”

These young people nodded one after another and proceeded obediently.

Everyone around was amazed.

Admired and looked at Logan Chengmin in horror.

Because she is the only one who can dominate this group of demons.

This group of young people would not listen to any orders, only listen to Logan Chengmin's.

After Logan Chengmin gave the order, this group also joined the battle group.

“Report to Mr. Richard, ten minutes to solve everything, and soon we will know the identity of the mysterious force!”

Logan Chengmin smiled.

The encirclement has been completed, and the next step is to arrest.

Richard received the news, but was not happy.

He was very cautious and asked Logan Chengmin to stare outside.

He determined that someone would come to the rescue.

There may even be a head-on collision with mysterious forces.

“Mr. Richard is not so exaggerated? To put it more exaggeratedly, we are almost a nationwide power. Are you still so cautious?”

Logan Chengmin is not arrogant. It is mainly in this posture, who can escape?

“Listen to me right! Even the Lab of the Gods has suffered! Not to mention you!”

Logan Chengmin's face changed now.

“Okay, I understand. Come here, give me an order...”

Logan Chengmin ordered to guard against outside rescues at all times.

This is basically foolproof.

...

“No, people from Sanxing Group rushed in!”

Alton stood up and shouted: “Everyone is beginning to destroy the Sun Stone! Never leave it to them!”

“Remember! You ruined my face before you die or before you get caught!”

“Even blew himself up!”

Alton shouted.

Even if they die, they cannot reveal their identity.

It is best to blow up and leave nothing.

“understand!”

The brothers of Xuan Zijun and Huang Zijun shouted together.

The crowd began to destroy the Sun Stone.

“boom!”

But the Lords of these forces in the star country came too fast.

They didn’t give Alton a chance at all.

“Surrender, you can’t get out!”

...

On the plane, everyone panicked.

After hearing the news from Alton, everyone's faces became ashamed.
