

The Protector Novel Levi Garrison Chapter 2069 – 2070

Chapter 2069

“Boss, we will arrive at the designated location in five minutes! What should we do?”

“The other party also blocked the air!”

...

Everyone asked anxiously.

“When will Richard arrive?”

Levi asked.

“Ok?”

Everyone was taken aback.

At this time, Levi actually asked Richard.

“Here in half an hour!”

But Suzaku still inquired and answered.

“Hold him as much as possible! Extend his time here!”

Before the words fell, Levi had already stood up.

Go to the door of the cabin.

“Boss, what are you...”

Everyone was puzzled.

“Just follow my command!”

Levi opened the hatch and jumped straight down.

Everyone was dumbfounded.

That’s right.

Levi jumped from a height of several kilometers.

It turned into a meteor and swooped down.

The speed is getting faster and faster, like a bright flame.

Logan Chengmin and other troops were guarding the periphery. At this moment, someone exclaimed: “Look at the sky!”

This sound made everyone look up to the sky.

The streamer falling from the sky is terrible!

Across that distance, everyone can feel the momentum of the thunder.

No matter what it is, even if it is a big rock, the power is amazing when it is dropped from such a high place.

“It’s a person! It’s an individual!”

Soon Logan Chengmin’s men detected that it was a person.

“what???”

Everyone was shocked.

Some people fall from the sky.

“Block him in mid-air!”

Logan Chengmin ordered.

“It’s late, no chance!”

Suddenly, Levi in mid-air accelerated and fell from the sky at a speed that his weapon could not catch.

In the blink of an eye, a figure on the retina of everyone’s naked eye gradually became clear.

“Rumble...”

Levi landed.

The ground shook the mountain.

Levi unbiasedly landed on the truck roof of the Sanxing Group’s magnetic field device.

“boom!”

“Crack!”

The power that fell from the sky was too amazing.

It smashed the magnetic field device and the truck directly.

Not only that, but the power was also dissipated.

The earth appeared fine cracks like spider webs, and they continued to extend out.

“Kacha Kacha...”

The surrounding Sanxing Group and other forces' vehicles or machines exploded one after another.

“boom!!!”

Not only that, but the sea next to it was thrown into waves, and all ships were overturned.

Because of Levi's landing, this area has become a ruin of the doomsday.

Panic!

Everything is messed up!

Everyone who was guarding the periphery and who was arresting Alton was in a mess.

Especially when the people inside didn't know what was happening, the ground was shaken.

It's like being bombarded by super weapons here.

However, only Levi landed.

“Stay steady, steady!”

Logan Chengmin shouted.

Richard and the others who rushed to the other side immediately rushed in after they learned the news here.

Only halfway there was harassment by unmanned aerial vehicles.

“OK?”

“No, the other party is here prepared!”

“Clear all obstacles and move forward at full speed!”

...

Under Logan Chengmin’s command, the perimeter line of defense was soon restored to order.

Everyone rounded up Levi.

The three layers inside and the outside are impervious to water.

“You finally showed up! I’ve been waiting for a long time!”

Logan Chengmin looked excited.

If she can accomplish everything before Richard and the others come, she will become the biggest hero.

Whether in Sanxing Group, or in the laboratory of the gods.

She can even replace Richard.

Standing on a high place, Levi said coldly: “Woman, it’s better not to fight and kill!”

“Hehe, then you can’t control it!”

“Don’t you say that you are Levi? The last time you appeared in Zion Country, right?”

Logan Chengmin stared at Levi.

Levi smiled and said, "It's me! But I didn't appear in Zion Country last time! It wasn't me!"

Chapter 2070

Levi simply and generously admitted.

But no one believes it!

I thought he was a fake!

Just like the last time the Underworld God faked Levi, no one would believe it.

In everyone's consciousness, Levi was dead. Even if he didn't die, it would be too late for Tibet. How could he report his family?

No one would believe that he called himself Levi these days.

Even if you have the exact same face as Levi, no one will believe it.

Disguise.

Whether it is the ancient disguise technique or modern technology, disguise is completely possible.

So imitating Levi is too simple.

Instead, Levi told the truth, no one would believe it.

Even if he showed his true face, no one would believe it.

But at this moment, Levi concluded that Logan Chengmin was the leader of these people.

The so-called catching the thief first catching the king, Levi did not hesitate at all, and turned into a flash of lightning to burst into the crowd.

Levi's speed was so fast that everyone didn't react at all.

Through the crowd.

He appeared directly in front of Logan Chengmin.

Logan Chengmin is also a superpower, and his strength is extremely terrifying.

But her superpower is not attack or defense, but manipulation.

For example, why can she control a group of young people known as the devil?

Are they really afraid?

Do not!

She can control it!

Her superpowers can control them!

No matter how powerful they are, they can be firmly controlled by her.

But in the face of Levi's sudden attack, she didn't have the strength to fight back at all.

She was captured by Levi in an instant.

"Flap!"

Levi tapped acupuncture points on her body a few times, and Logan Chengmin couldn't move, even her superpowers could not be used.

This...

Logan Chengmin's face changed drastically.

Levi actually used Morendam's ancient acupuncture skills.

This is from Lord's ancient books.

It is different from traditional acupuncture points.

The one left by the Lord is stronger.

In the beginning, Levi's acupuncture skills were just to control people.

But there was an extra note beside it, it turned out that Levi didn't care.

But later he realized that tapping the acupuncture points can still control the powers, making their powers unusable.

It is mainly used to seal the meridians of the acupoints, so that your power and abilities cannot be used.

Levi didn't know what Logan Chengmin's power was, so just in case, he directly sealed the acupoints to lock the meridians.

Make her unusable!

Logan Chengmin was captured, and everyone around him reacted.

Thousands of people panicked immediately and stared at Levi.

"Hurry up and let the people go!!!"

...

Judging from the crazy reactions of these people, Levi caught the right person.

This is their boss!

Facing these people, Levi sneered: “Don’t move, whoever touches me will squeeze her head!”

The words came out.

Several of Logan Chengmin’s subordinates immediately panicked. They waved their hands and shouted: “Calm down, all calm down!”

“Be careful, don’t hurt the team leader, otherwise you will die without a place to bury your life!”

Several people also warned at Levi.

Levi sneered: “Really? Then I will kill her, try?”

With that, Levi clasped Logan Chengmin’s neck and slowly exerted force.

Logan Chengmin’s beautiful face gradually disappeared and turned pale.

Behind, she was breathing fast, her face turned purple.

“Uuuuu...”

There was a choking sound in her mouth.

Everyone is anxious now.

As long as Levi tried hard, Logan Chengmin’s neck would definitely burst open.

This is something no one wants to see. .

“Wait, wait! Don’t do it!”

“Be careful, don’t hurt the team leader!”

...

Logan Chengmin's men were completely panicked this time.

Did not dare to threaten Levi the slightest.

“What conditions do you want, we will agree!”

The crowd shouted.

Logan Chengmin, who was controlled by Levi, also asked, “What on earth are you going to do?”

The Protector Novel Levi Garrison Chapter 2071 – 2072

Chapter 2071

Levi smiled: “It's very simple, let my people go and take away all the sun stones at the same time!”

“No way!!!”

As soon as this was said, someone immediately rejected it.

“No way, can you? Then I will kill her!”

Levi wanted to kill Logan Chengmin simply and rudely.

“Promise him!”

Logan Chengmin shouted.

“Is the group leader real? This is a once-in-a-lifetime opportunity! Are we really going to let it go?”

“Yes, this opportunity is gone, it will be difficult next time. Moreover, the Lab of the Gods also left immediately. It is difficult for us to explain!

...

Everyone looked embarrassed.

Logan Chengmin stared at everyone: “Then you want me to die?”

“Huh? It’s not, we...”

Everyone began to struggle.

It’s not to let it go, it’s not to keep it going.

“Hurry up, my patience is limited!”

Levi said.

“Let it go! Let it go!”

Several senior executives immediately shouted.

“No, I want to watch people leave with my own eyes!”

Levi took Logan Chengmin to the hiding place of the Sun Stone.

“Human and Sun Stone will come out soon, please pay attention to it!”

Levi contacted Zhuque and the others.

Finally, Levi watched Alton and the others leave with the Sun Stone.

“I don’t have much time for you, and it’s all up to you now, don’t shame me!”

Levi said.

indeed.

He could only use Logan Chengmin to threaten him for a short period of time.

Especially after Richard arrived, even if Logan Chengmin died, he would do it.

So the time is less than half an hour.

After half an hour, the Sanxing Group will chase it, and Richard and the others will chase it even more.

At that time, they could only rely on themselves.

Regarding the strength of Wesley Alton and their strength, he is still at ease.

Not to mention avoiding it permanently, it's okay to avoid it for a while.

“Huh? I want to track it secretly, stop it all! And hand in all your deployment plans! Including personnel and equipment!”

In order to prevent everyone from being tracked, Levi also made some follow-ups.

These deployment plans were given to Alton.

Allow them to escape further.

Time passed by every minute and every second.

Alton and them all withdrew with the Sun Stone, and successfully reunited with Suzaku and them.

In a short period of time, they have disappeared from the sight of Sanxing Group.

“Huh? Obviously we could detect it just now! Why did it suddenly disappear?”

“Where did they go, are we staring at it?”

...

Sanxing Group will never let Alton and the others leave.

There are trackers on the transported ships or devices, even if the Alton and the others leave, the position is always locked.

But everything disappeared just now.

Alton these people disappeared out of thin air.

Levi felt relieved when he heard this.

Sure enough, these guys still have two brushes.

But if this is not possible, his efforts will be wasted.

Then he can come at his own pace.

He still has to procrastinate.

Otherwise, the Lab of the Gods will still be frantically looking.

Wesley and the others still suffer from Shang Richard.

Don't be afraid of 10,000, just in case.

“We have all done according to your requirements, can people let it go?”

Logan Chengmin's men said.

Levi smiled: “Yes!”

It's just that he hasn't moved.

At this moment, Richard and the others arrived early.

In the case of blocking, they still arrived five minutes earlier.

Faster than Levi thought!

They already knew what happened just now.

Richard has arranged the deployment, and most of them are chasing Kirin.

They directly invaded the Lord control of the Sanxing Group, but they also found that the Alton had disappeared.

“He must not let go!”

“Even if you kill Logan Chengmin, you still have to keep him!”

...

Richard ordered that all the Lords of the Gods Lab stared at Levi.

Waiting for Levi to come is a net of heaven and earth.

Chapter 2072

Levi can actually go.

But he can't go.

If he leaves.

Richard will definitely send all the power out to find Alton and them.

When the time comes, the pressure on their side will be too great.

Maybe it will lose everything.

Therefore, he cannot go.

He is going to hold Richard down here.

He hijacked Logan Chengmin and looked at Richard with a smile: "Richard, your movements are a bit slow, much later than I thought."

"Ok?"

Richard was not far away for a moment.

He didn't expect the other party to call his name directly.

And listening to this tone, it seemed that it was Levi.

"Who are you? Why do you pretend to be Levi?"

Richard said coldly.

"I am Levi, why should I pretend to be?"

Levi smiled.

Richard stared at Levi tightly: "Do you think I will believe it? I already know that you are that power! When I catch you and tear off your disguise, you will know who you are."

"Everyone is ready to take him down! Never let him go!"

"Mr. Richard don't... the composition is still in his hands! If we are in a hurry, the team leader's life is in danger!"

"Mr. Richard, don't..."

...

Logan Chengmin's subordinates pleaded.

They don't want the team leader to have trouble.

It's just that Richard's face is cold and he doesn't care about Logan Chengmin's life or death.

"Go! Just a mere team leader! Let alone her, even if it is the true head of the Sanxing Group, I will not care about his life or death!"

Richard roared.

In the eyes of the Gods Lab, Sanxing Group is just a dog raised.

He doesn't care about anyone's life or death.

He wouldn't care even if he was at the helm of Sanxing Group.

Not to mention the leader of a security group.

In the Sanxing Group, it is a high position, but in his eyes, it is like an ant.

It's impossible to threaten her.

"Take it! Don't worry about her life or death!"

Richard ordered.

At this time, everyone in the Sanxing Group did not dare to say anything, and could only execute orders.

Logan Chengmin was also shocked.

In Richard's eyes, she was not worth mentioning.

“Hahahaha...Did Leader Logan see it? You gave people your life, and they don't even care about your life!”

Levi laughed.

Logan Chengmin's face became more and more ugly.

“Fortunately, you have already become my inner ghost! Otherwise you will die in vain.”

Levi's next sentence came out.

Everyone in the audience was stunned.

Even Logan Chengmin himself was taken aback.

The speaker has no intention, the listener has the intention.

Everything tonight looks weird.

Why was Logan Chengmin so easily captured by Levi?

She did not resist at all?

The senior management of Sanxing Group and the Lab of the Gods knew that Logan Chengmin was very powerful, especially her control ability.

Can control everything, including human minds and so on.

Even that group of demons can control.

But why not use Levi?

Let him catch it?

Then cooperate with Levi to make people and Sun Stone all escape.

Is Logan Chengmin involved in all this?

If not, it looks a bit too smooth.

In addition, Logan Chengmin is the commander-in-chief of this operation, which is even more suspicious.

It's obviously a crucified thing, why is it so easy to be transported away.

And in accordance with the order issued by the Lab of the Gods, at all costs.

In other words, even if Logan Chengmin died, he would not let those people and Sun Stone leave.

Even if it was just a suspicion, everyone saw that Logan Chengmin's expression was not right.

Especially people like Richard.

Levi smiled again: "Why do we dare to put the sun stone here? Think about it for yourself. If there is no one, do you dare to do this?"

Levi wanted to hammer Logan Chengmin to death.

In this way, Logan Chengmin must follow him so that he can continue his plan.

Levi's purpose has been achieved.

The Protector Novel Levi Garrison Chapter 2073 – 2074

Chapter 2073

That's a pure energy body!

Even Richard himself doesn't know how to deal with them?

Fortunately, he controlled their consciousness in advance.

These people are used by them.

Richard once imagined that if his opponent had a pure energy body, how would he deal with it?

How should the Gods' Lab deal with it?

Richard conceived according to everything he knew, and the end result was that he could not deal with pure energy bodies.

There is no way.

Encounter is helpless.

The only thing we know is how Wood Zhengjie died.

But how to restore that environment?

The other party will not let you get rid of it stupidly, and he can't restore the terrible degree of that experiment.

He doesn't have that kind of super particles.

So for a period of time, Richard was melancholy about this matter.

Even if the other party does not have a pure energy body, what if the pure energy body that you experimented with turns back?

How should he deal with it?

He has to figure out his future.

In the end, one of the real seniors in the Lab of the Gods, Richard's immediate boss, told him.

Feel free to experiment and produce pure energy bodies.

The Lab of the Gods has a solution to the pure energy body, but this is confidential.

Since then, Richard has let go.

At the same time, there was a little more fear in the laboratory of the gods.

I thought he had already touched the core of the Gods Laboratory.

Unexpectedly, it still didn't.

Even the pure energy body could be removed, he couldn't imagine.

How strong is the true core of the Lab of the Gods?

How many secrets do they have?

What are they controlling?

Richard vowed to continue to work hard to gain access to the true core of the Lab of the Gods.

He wants to reach the level of his immediate boss.

...

That's why Richard went to do this experiment frantically.

After all, there are people on the bottom.

The pure energy body joined the battle group, which greatly enhanced the combat power of the Gods Laboratory.

Richard personally led the team to hunt down.

On the one hand, he paid close attention to the news about Sun Stone and Alton.

It's just that Alton and the others slipped too fast, and they disappeared without knowing what method they used.

Although most of the power of the Gods Laboratory was overwhelmed.

But there is really not much gain for a while.

...

Levi dragged as much as possible to help them disperse their strength.

Others have to look at themselves.

He is now running wildly with Logan Chengmin.

Has entered the center of Star City.

This is the advantage of bringing Logan Chengmin.

She knows everything and knows where to go and where not to go.

"I just notified by the secret line that Richard had almost sent all his power to block the star country. He did everything at all costs in order to catch you! It is said that he sent two super Lords! It is comparable to the existence of the Scepter of God! It is Richard! Germany's biggest killer!"

"We are in big trouble now."

Logan Chengmin's face was solemn.

I used to hear that Richard had a lot of hole cards, but he had to add one behind the strongest.

But the two sent out this time turned out to be Richard's strongest killer, none of them.

This is serious.

Levi's expression also changed after hearing this.

No matter how he fought Richard before, he wouldn't show the real hole cards.

But this time he was completely pressed.

It turned out to be the biggest killer.

"Then what are these two killers?"

Levi asked.

"I don't know, my people can't touch this! But I'm checking, I hope we don't encounter it!"

Logan Chengmin took Levi to her refuge in Star City.

No one knows except for a few of her most trusted men.

"We won't stay here for long, we will be discovered soon. Think of a way how can we escape?"

Logan Chengmin was so nervous that he was sweating.

But Levi looked relaxed, admiring it in the room, looking at this, moving that.

I didn't even think about how to escape.

Although Levi was afraid of Richard's hole cards, he wanted to touch it in advance.

Chapter 2074

After this period of contact, Levi discovered that Richard, even though he was known to the outside world as the top of the Lab of the Gods.

But he still did not touch the core of the Gods Lab.

The Lab of the Gods has to dig further.

Even the strongest killer is nothing.

So he must touch Richard's strongest killer.

"Ok?"

Seeing Levi's leisurely appearance, Logan Chengmin couldn't help being stunned.

"What do you mean? It's all this time, not nervous at all?"

Levi smiled and said, "What are you nervous about, aren't you? Now we are grasshoppers on a rope."

"Who are you? Where are you from?"

Logan Chengmin sensed something else and couldn't help but doubt Levi's identity.

"I am Levi!"

With that said, Levi pulled down his hat, revealing his original face.

"Don't pretend, you can easily..."

Logan Chengmin just wanted to say disguise, but suddenly he remembered something.

“Aren’t you really Levi?”

Logan Chengmin opened his mouth slightly, surprised.

“it’s me!”

Levi didn’t need to hide from Logan Chengmin.

Logan Chengmin’s brain is running fast, thinking a lot, and accepting that the person in front of him is Levi.

“Gosh, how did you survive?”

Logan Chengmin looked incredible.

Levi is too amazing, right?

Just a little bit of her finger just blocked her ability to use.

She wanted to know why Levi was still alive.

Levi smiled: “Sometimes what you see may not be true!”

“Fake, everything we see is fake?”

Logan Chengmin thinks he is also the group of people standing at the top of the world.

But she couldn’t imagine how Levi could deceive the world.

“Don’t worry, you and I will be able to safely escape from the star country!”

Levi also checked Logan Chengmin’s information just now.

This woman is a cruel person.

And the status of Sanxing Group is extremely high.

Once he found out Richard's real hole cards, he had to withdraw.

Relying on his strength and Logan Chengmin's whole body to retreat is no problem.

...

Richard and the others quickly shrunk the encirclement circle and tightly guarded the surroundings of Star City.

With the patience of the Gods Laboratory, it is really possible to achieve the level that a fly can't fly out.

"Go find it!"

"Find them all! Remember that Logan Chengmin is very familiar with everything about Star Country, and even knows our deployment! You must look carefully!"

...

Richard ordered.

Each department conducts a carpet search in Star City.

Especially the frantic search for places related to Logan Chengmin.

...

Time passed by every minute and every second.

Levi was even so bored that he lay on the sofa, flipping through some information about Sanxing Group.

There is even Logan Chengmin's collection of red wine next to it.

Logan Chengmin didn't have any thoughts, on the contrary, she was so busy to death, she kept paying attention to the outside dynamics.

She didn't understand Levi's intention to stay inactive.

In fact, Levi was waiting for her Charitable's biggest killer.

"Inquired, Richard's biggest killer is the pure energy body! The pure energy body comes from Wood Zhengjie's experiment, and Wood Zhengjie treats himself..."

Logan Chengmin finally found the information of the pure energy body and told Levi all of it.

"Fuck, Wood Zhengjie's Lordpiece!"

Levi knew a little about Wood Zhengjie, and Wen Lei caused the experiment accident to get rid of him.

Unexpectedly, this laboratory was restored by Richard.

This...

Even the low-end version is terrifying.

Levi's expression became solemn: "Next, we must be careful. You have to use all your resources. We can hide if we can!"

...

Richard searched a lot, but he still couldn't find anyone.

"I searched it all over, but I couldn't find anyone!"

Everyone started to worry.

It's just that Richard smiled: "I have a way, I can definitely find someone!"
