

# The Protector Novel Levi Garrison Chapter 2075 – 2076

## Chapter 2075

On the other side, Levi was as calm as ever.

Logan Chengmin was still anxious: “Richards are now frantically searching, our place will be found after one day at most.”

“Don’t you want to think about how to leave?”

Levi smiled and said, “Don’t worry, it won’t take a day or an hour to find it! Don’t underestimate Richard!!”

...

“Go, call all Logan Chengmin’s cronies!”

Richard ordered.

Soon, a dozen of Logan Chengmin’s cronies were called to Richard.

“Where is Lee Sung Min?”

Richard asked.

Logan Chengmin’s cronies are all dumbfounded.

Why would you ask them?

“We don’t know Mr. Richard! Aren’t we looking for it too?”

Everyone is puzzled.

Richard smiled: “Well, I know you are in touch with her! You are providing her with news and convenience!”

“boom!”

As soon as these words were spoken, everyone’s expressions changed drastically.

Just when they were sophistry, Richard immediately shouted: “I’ll give you a chance! If anyone tells where Logan Chengmin is, I will not only spare him not die, but also reward him! I even let him join the Lab of the Gods!”

“Don’t say, kill without mercy!”

Richard gave everyone two paths.

Either die, or speak out and enjoy the glory and wealth.

As soon as they heard joining the Lab of the Gods, some people showed enthusiastic expressions on their faces.

Joining the Lab of the Gods should be the dream of each of them.

Who doesn’t want to?

A dream thing!

“Don’t say it! Richard will kill you too!”

“Yes, are you still not sure about Richard’s style?”

...

There are a few people who want to be tight-lipped and protect Logan Chengmin.

And they knew it was a dead end.

“kill!”

Richard gave an order to directly kill these people who disturbed the military's morale.

The others were terrified.

“Not to mention that is the end, I said to join the Lab of the Gods! How can I kill you when I use people!”

Richard smiled.

Logan Shiji echoed: “Yes, am I just an example?”

“As long as it is valuable and useful! Absolutely reuse!”

Several people looked at each other and finally decided to confess.

Soon according to the address given by several people, Richard's men locked Logan Chengmin's position.

“It has been determined that Logan Chengmin and that person are there!”

Richard's expression suddenly changed: “Okay! Order everyone, surround here! Immediately, immediately, let's go!”

Several of Logan Chengmin's close friends said excitedly: “Mr. Richard, do you think we can join the Lab of the Gods?”

Richard smiled, smiling like a devil.

The few people seemed to realize something and wanted to run away immediately.

But how could Richard's men let them go?

Soon several people fell in a pool of blood...

In Logan Chengmin's secret hideout, Logan Chengmin suddenly lost contact with his cronies.

At this time, Levi was counting down: "3, 2, 1!"

boom!

Suddenly the house suffered a terrible bombardment!

"They are coming! What should I do?"

Logan Chengmin's face faded.

"Kill out!"

Levi immediately killed the two.

At the forefront of the attacks are the Mythology Organization, the Black Hand Organization and the Sanxing Financial Group.

Richard naturally wants to use this group of cannon fodder.

Try to consume Levi's two people as much as possible.

But with these leftovers, want to consume Levi?

impossible things!

This group of leftovers had no effect on Shangye Levi.

In just one round, the Sanxing Group suffered countless deaths and injuries, and many people fell.

Logan Chengmin is also more and more confident in Levi's strength.

But soon Richard arrived with an army.

“You can’t run away! You are destined to fall into my hands today!”

Richard smiled.

He is not nonsense.

Directly send out the Lords of the Gods Lab and the two pure energy bodies.

He couldn’t make any mistakes this time.

Levi must be taken down.

## Chapter 2076

“coming!”

Levi got serious.

From the tens of thousands of people in front of him, he has felt two very different existences from the others.

Whether it is a super power or a warrior.

Both are different from these two people.

How do you describe these two people?

Correct!

Sun Stone!

These two people are pure energy bodies just like the Sun Stone.

There is terrible energy in it.

They can't feel their organs, blood, muscles and veins at all.

Pure energy body?

It seems to be composed entirely of energy.

As expected of Wood Zhengjie!

If this lunatic is alive, it is probably more terrible than Richard!

Fortunately, he died.

Before Levi could think more, all the Lords in the Lab of Gods came up.

Even though there were two pure energy bodies in the battle, Richard was still worried and needed a large number of Lords to assist.

Levi and Logan Chengmin joined forces.

I have to say that Logan Chengmin has two tricks, especially her control ability, which is simply the nemesis of the superpower.

Always restrain them.

Logan Chengmin immediately entangled dozens of Lords and shared a lot of pressure for Levi.

Levi also fought with a large number of Lords.

...

Richard was always paying attention to the situation, and this matter was immediately fixed, but he still couldn't ignore it.

But at this moment, he received the news.

People like Sun Stone and Alton chased and disappeared.

They disappeared completely, no matter what method they used to find them.

“Are those machines?”

Richard asked.

“Using it, it’s so weird, it disappeared for no reason! The other party’s method is a bit powerful!”

Richard thought for a while, and said, “Forget it, according to their strengths in the previous few times, we must not be able to find it this time! Some people are left to look for, and some people come to Star City! Here! There is one person who must be caught!”

The team that followed the Alton Sun Stone returned and pressed up here.

It will be difficult for Levi to leave when that happens.

Unless abruptly to open a bloody path.

...

In the field, Levi had already fought against the pure energy body.

“boom!”

“boom!”

...

Both sides played back and forth.

Although it is a low-profile version of pure energy body, the power is too fast.

Can actually fight Levi!

Don't let the wind fall at all!

However, the rest of the Lords suffered. Levi slammed it down with a punch, and they couldn't bear it.

Either the body explodes, or a blood hole is exploded...

Although they are also strong.

But between Levi and the two pure energy bodies, it still seemed weak.

Not one level.

If you insist on getting involved in this level of battle, there is only one dead end.

What Richard originally wanted was to use the two pure energy bodies as the main combat power, and the other Lords to consume and harass.

Now it seems to be of little effect.

It had little effect on Levi.

The casualties were heavy.

More and more Lords fell.

These people can also stalemate with Logan Chengmin.

“boom!”

“boom!”

...

Along with Levi's horrible two punches, all those who consumed and harassed him were beaten away.

Only two pure energy bodies are left.

"Lord, there is no need to send someone, the two of us are enough!"

The two pure energy bodies waved their hands and signaled Richard not to send anyone.

The two of them can solve Levi.

"boom!"

"boom!"

The two big moments started and turned into lightning, killing Levi one after another.

The speed is much faster than the destroyer before.

Not an order of magnitude at all.

Richard also installed suitable armor for them to increase their power and speed.

The two start hands at eight times the speed of sound.

Two terrible punches came.

The speed is almost impossible for the machine to capture.

But Levi actually avoided these two punches.

"boom!"

"boom!"

At the same time, two punches hit the two pure energy bodies.

These two punches contain multiple strengths...

Levi will kill with one blow!

## The Protector Novel Levi Garrison Chapter 2077 – 2078

### Chapter 2077

“boom!”

“boom!”

Levi was strong enough, as strong as a pure energy body, flew out horizontally under his two punches.

“Crack!”

“Crack!”

...

The armor on their bodies burst apart every inch.

They backed up hundreds of meters and didn't stop.

A look of hideous pain appeared on his face even more.

This is the first time everyone has seen a pure energy body like this.

Seeing everyone was frightened.

This is too strong, right?

At first, everyone thought that the pure energy body encountered anyone was a unilateral crush and slaughter.

Unexpectedly, this time the opponent is so strong, so that it can suppress the pure energy body.

...

After the pure energy body exited more than one hundred meters, it finally stabilized.

But they became weird in the next second.

“Boom boom...”

A burst of crackling like firecrackers came from their bodies.

Multiple strengths broke out!

Second strength!

“Boom boom...”

The third strength!

...

Five strengths!

One heavy force followed by another heavy force completely exploded in the body of the two pure energy bodies.

There were horrible sounds.

And their bodies were also blown through thousands of holes, torn apart, and extremely deformed.

This is the second display of Levi's multiple strengths.

The first time it was to kill the Destroyer, no one knew.

This time it is equivalent to showing it to the world.

Is it amazing to everyone?

There is this kind of exercise?

what is this?

Everyone is unheard of!

Especially the pure energy body can be beaten without the power to fight back!

It's terrible!

Seeing the embarrassed look of the pure energy body, the body is about to explode.

Everyone was dumbfounded.

Could it be that Richard's biggest killer was abused the first time it appeared?

That will become the biggest joke!

Even Logan Chengmin was excited.

As expected, Levi was able to beat Richard's biggest killer.

She became more and more confident about surviving.

No way?

Is the pure energy body going to lose?

Logan Shiji looked at Richard.

They are also scared.

If you lose, it would be too shameful.

It's just that Richard had a calm face and said coldly: "Let's watch!"

He was surprised only because of the multiple strengths Levi had just used.

He even appeared in a trance in front of him. What if this person is really Levi?

But now the doubts are dispelled.

This man used a method he had never seen before.

Exclude Levi!

...

"boom!"

Multiple strengths broke out completely.

The bodies of the two have been severely deformed.

Just when Logan Chengmin thought he was going to win, Levi's expression changed: "Not good."

Sure enough, in the next second, the bodies of the two Lords deformed and returned to their original positions.

They are exactly the same as before.

There was no sign of injury at all.

This is the terrible thing about pure energy bodies!

They are energy bodies, not entities.

So the attack is useless.

Only temporarily can suppress them.

“I do not believe!”

This time, Levi took the initiative to attack.

“boom!”

“boom!”

...

There are multiple vigors again, this time six vigorous vigors!

The two were still as embarrassed as before, and their bodies were about to explode to pieces.

But it's almost.

Finally they recovered.

There is no sign of injury.

“Come again!”

Levi exerted seven strengths this time.

The power continues to double, terrifying.

But it's still useless.

In the end, the pure energy body can still recover, with no effect at all.

This...

Levi finally saw the terrible pure energy body.

In a short time, it must be impossible to eliminate.

They are immortal.

Unless special methods are used.

But where can I think of a special way at a time.

If the entanglement continues, then the Lab of the Gods must be overwhelmed by an army, and more experts will come to support it.

Can't run anymore.

withdraw!

"It's time for us!"

Seeing Levi escape, the two pure energy bodies attacked.

## Chapter 2078

Such is a rascal!

No matter what method you use, you can't kill them.

Play!

It consumes all the energy to kill you!

What's more, these two are extremely powerful.

Can completely threaten Levi!

And as it drags on for a long time, the army that Richard brings will all be overwhelmed.

Even the Lab of the Gods will send Lords.

At that time, Levi hadn't talked about retreating all over his body, it was the same thing whether he was alive or not.

If it is dragged by the pure energy body, there will be constant danger.

Seeing that Levi was about to run, the two pure energy bodies tried their best to entangle him.

Richard sent more people to hinder Levi.

"Go, strengthen manpower, and take Logan Chengmin down!"

Richard wanted to test whether the person in front of him would leave Logan Chengmin and run away alone.

He sent more people to besiege Logan Chengmin.

There are also a few wizards among them.

Logan Chengmin can control others, so he does the opposite.

Use wizards to control or disturb Logan Chengmin.

Soon Logan Chengmin fell into a disadvantage.

“boom!”

She was beaten out.

Even Logan Chengmin felt that she was going to be abandoned by Levi.

After all, she is a burden in this situation.

...

“Mr. Richard and our people will arrive in three minutes!”

At this time, the returning army arrived immediately.

That’s all Richard’s power.

Although the two pure energy bodies are immortal.

But the main fighting power depends on these people.

When they came, Levi couldn’t escape anyway.

Unless everyone is killed.

But that is impossible.

“Two minutes!”

...

The clock is ticking.

Logan Chengmin seemed to be controlled.

Levi returned suddenly and rescued Logan Chengmin.

This woman can't die.

Still useful!

“Hahaha... now it seems that he is not separating us. They are really a group! But now it's fine, none of them can leave!”

In Richard's view, Levi's behavior in rescuing Logan Chengmin only shows that they are a group.

But this is a great opportunity for him.

Levi dragged a burden, absolutely unable to escape.

“Go on! Take him down!”

As soon as Richard waved his hand, everyone went crazy and besieged the two Levi.

At this moment, Logan Chengmin had been seriously injured and was almost useless.

Only slightly better than cumbersome.

...

“One minute! In one minute, our large forces will arrive! At that time they will never be able to escape!”

Listening to the sound in his ears, Richard was excited.

Finally able to catch an enemy.

Grasping one can definitely pull out the entire force.

“Rumble...”

Richard's army is about to arrive, and the voice from a distance has been heard.

The aircraft team has arrived.

Form a blockade in the air.

The same advanced weapons all aimed at Levi.

...

"They are here! After a few tens of seconds, we will be surrounded! We can't go out at that time, unless everyone is killed!"

Levi said solemnly.

Now he is not as strong as this laboratory of the gods, so he is not sure whether he can kill it once he is surrounded.

Really not sure.

So try to escape before Richard's army encircles.

The time is only tens of seconds.

But the biggest problem today is the entanglement of two pure energy bodies.

They are simply death entanglement.

Although they couldn't cause any harm to Levi, they could entangle Levi tightly.

Can't get rid of it at all.

You can't beat you to death at all. After a punch, they will immediately get entangled.

There are countless experts on the periphery to obstruct harassment.

It's so annoying.

But the chance is only a few tens of seconds.

After dozens of seconds, Levi will fall into an unprecedented predicament.

How to do?

How to do?

Levi was anxious and looked at Logan Chengmin.

The two looked at each other.

Time is passing by a little bit.

“Thirty seconds!”

“Twenty seconds!”

...

Time is really coming...

## The Protector Novel Levi Garrison Chapter 2079 – 2080

### Chapter 2079

The time until the encirclement of the army is about to count down.

Levi still couldn't get rid of the pure energy body.

“Hurry up and find a way!”

Levi yelled at Logan Chengmin.

Logan Chengmin's face changed.

In the next second, a group of young people rushed out of the crowd.

To be precise, they are boys and girls aged 13 or 4 years old.

That is, the young people of Sanxing Group who are afraid of fear, they are known as the "devil".

They suddenly lost control, and even killed the Lords of the Gods Lab.

These young people had never had time to show their strength before.

Especially they only listened to Logan Chengmin's words,

After Logan Chengmin was taken away, they have been standing still.

Of course, no one in Sanxing Group dared to order them.

Don't dare to provoke.

Plus Richard didn't pay attention at all, so they kept hiding in the corner.

But now after hearing Logan Chengmin's order, this group of people actually killed the Lord of the Gods Laboratory.

This group of young girls is simply terrifying.

Some of the super Lords in the Lab of the Gods could not stop them at all.

They soon came to Levi in front of the two.

They separated six people and actually entangled two pure energy bodies.

This is the opportunity.

A chance to get out!

In ten seconds, Levi took Logan Chengmin away.

At this time, before the army of the Gods Lab was encircled, Levi still found a gap and rushed out.

The two pure energy bodies wanted to catch up, but they were tightly entangled.

These young boys and girls are all powerful and terrifying.

There were a total of 13 people, and the shots together were earth-shattering, and they suppressed the Lords of the Gods Lab, including the two pure energy bodies.

Of course, everyone did not react.

Attention was all on Levi.

Suddenly someone came out, so naturally they couldn't care about it.

“Huh? This is...”

Richard was stunned.

He didn't expect that Sanxing Group would still exist like this?

Logan Shiji said immediately: “Mr. Richard seems to be the finished product of the magic project developed by Sanxing Group and the laboratory together.”

The Gods Lab created the “God Creation” project thirty years ago.

Together with Sanxing Group, they developed the “Making Devil” plan.

In fact, it is almost the same as the God-making plan.

It's just that the technology is a little more advanced, but Zhu Shane Lab only provides partial technical support, not all of them to Sanxing Group.

The Gods Lab estimated that the murderous weapons created by the Sanxing Group's Demon-making Project were at best a little stronger than the Destroyer.

How do they know that Sanxing Group's own technology is also advanced, although it has not reached the level of the Gods Laboratory, but it is close.

Therefore, the success rate of the Magic Project is very high, with 13 people succeeding.

And much better than Destroyer.

It's just that Sanxing Group has concealed it itself, including data.

So the Lab of the Gods did not pay attention.

Only the insiders of Sanxing Group know what kind of demons this is.

Too strong, too violent and bloody.

After the initial success, no one can control it.

Almost overturned Sanxing Group.

Fortunately, Logan Chengmin can control them.

Therefore, Logan Chengmin also became the leader of the security team.

After knowing everything, Richard almost died of anger.

All are bad things about Sanxing Group.

Now Levi ran away.

“Chasing! Send everyone to chase!”

Richard was crazy.

All armies from all sides pursued the two Levi.

“What do they do?”

Logan Shiji asked.

“Let Sanxing Group solve it by itself, the two of them must go with me!”

Richard took away the two pure energy bodies and let Sanxing Group solve the 13 people by itself.

It's just that these thirteen people don't have the concept of enemy or me, and only obey Logan Chengmin's orders.

They fought like crazy...

On the other side, Richard was in a cold mood.

In this way, I can't catch up.

At this moment, the Evil God Huoyun came with a message: “Don't worry, I will stop him!”

## Chapter 2080

“Haha, good! I forgot about him!”

Richard was surprised and delighted.

I thought I couldn't catch up with Levi.

Unexpectedly, the evil god Huoyun appeared.

Every time Huoyun Cthulhu shows his power at a critical moment!

This time he has done something again.

“I want to owe him a favor! Go catching up at full speed!”

Richard sighed.

After Levi led Logan Chengmin to break through the line of defense, he fled frantically.

Only then did Logan Chengmin understand.

It's not that Levi can't escape, he doesn't want to escape!

He had escaped long ago if he wanted to.

In fact, he stayed to hold down Richard and part of the power of the Lab of the Gods.

To make it easier for others to escape.

Now his goal has been achieved, so he withdrew directly.

It turned out that Levi was so calm and laid back in her safe house. He was delaying time and was waiting for Richard and them.

Richard now understands Levi's purpose.

Just to delay him.

So he couldn't let Levi go.

Fortunately, there is Fire Cloud Cthulhu!

...

Levi ran away with Logan Chengmin, and asked: "Unexpectedly, you still kept one hand!"

Logan Chengmin understood that Levi meant that when she was captured, he let him lead her nose.

But in fact, she can control that group of demons to save her.

But she didn't.

It was not until the end that she showed her hole cards.

"I just want to see what you are doing? I want to know who you are! I want to get rid of everything before Richard arrives!"

"But I underestimated you, and underestimated your people! I underestimated my position in Richard's eyes! I never thought you were Levi! By the time I wanted to control everything, it was too late!"

...

After listening to Logan Chengmin's explanation, Levi understood.

She wants to solve everything by herself.

Unexpectedly, the situation could not be controlled in the end...

But the thirteen young people she controlled were indeed terrifying.

Soon Levi and the two fled out of Star City.

It's very close to the harbour.

As long as he enters the sea, Levi can definitely escape.

Along the way, the Lords of Zhushen Lab and Sanxing Group have met a lot.

But they couldn't stop Levi's footsteps.

Unless the collective encirclement.

Otherwise, if you stop him like this, gourd baby saves grandfather and sends them one by one.

But Levi, who was far away, noticed a powerful breath.

It seems to be waiting for him deliberately.

"I'm in big trouble!"

Levi said in a deep voice.

Logan Chengmin looked puzzled: "Trouble?"

"Maybe more difficult than pure energy bodies!"

Levi's face became serious.

"Are we detouring?"

Logan Chengmin asked.

"It's too late, he's been eyeing us long ago! Going around to other places, you may be surrounded by front and back! You can only rush through from the front and solve the battle as quickly as possible!"

Levi's face was cold.

When the two came to the beach.

I saw a person sitting on a big rock in front of him.

A black robe covered his face.

It's a bit similar to Levi's dress.

"This road is nowhere!"

An old but powerful voice came.

It seemed as if thunder exploded.

Logan Sungmin's heart seems to burst...

The strong!

Super strong!

The deterrence given by this person in front of him is no less than two pure energy bodies...

Even more than.

Logan Chengmin finally knew why Levi said that this opponent was difficult.

Now it seems to be really difficult.

"Ok?"

Levi faced such a powerful and mysterious opponent for the first time.

He stood there and brought too much pressure to Levi.

And there is a very familiar breath.

"You...you are the Fire Cloud Evil God..."

Levi finally found out where the familiar aura on this person came from.

He is the evil god of fire cloud!

Similar to the seven evil spirits!

Especially Levi can feel the same feeling!

It can only be him!

“Ok?”

Levi shouted out the title directly, making Huo Yun Cthulhu amazed.

The other party actually recognized him.
