

The Protector Novel Levi Garrison Chapter 2159 – 2160

Chapter 2159

Others who don't know are confused.

“Is the blood ancestor very powerful?”

Someone asked.

As a result, everyone looked at him like a fool.

“It's more than a terrible problem! If you tell the great generals, they will all feel terrified...”

Hearing this, the man closed his mouth obediently.

Stop talking.

Everyone also knows that the blood ancestor is terrible!

It is the great horror that can make the gods tremble!

It turned out to be this kind of thing on Golden Harbor Island...

“Now that the blood ancestor is gone, you are okay, isn't the blood ancestor solved by you?”

Everyone asked in astonishment.

“There is no solution! He ran away... The danger of Golden Harbor Island was solved!”

Levi approached.

Huoyun Cthulhu added: "It was actually beaten away by us! That thing can't be killed at all! It's too strong!"

Everyone was taken aback first.

Then they all reacted.

"After a long time, you didn't solve the blood ancestor, so you let him run away? Did he really run? Maybe he is still on Golden Harbor Island? Maybe he went to other places in Morendam..."

"Do you know what you are doing? Are you solving the problem? You have planted a hidden danger! You have angered him! God knows how he will retaliate next?"

"Can you be sure that he ran away? Instead of hiding for an opportunity to retaliate? Instead of going directly into the interior of Morendam? Can you be sure? Can it?"

...

This group of people is just like crazy, asking questions again and again.

Pushing everything on Levi and Huoyun Cthulhu.

Instead, they blamed them for not directly solving the blood ancestor, but for letting him run away.

Both Levi and Huoyun Cthulhu were dumbfounded.

At a loss.

They never expected this situation.

Can it be like this?

What a shame!

“Levi, I find that you always take the lead in this kind of thing. What kind of savior are you doing? Wouldn't it work without you?”

“It's okay now, you didn't solve the blood ancestor, but let him run away! Can you bear the responsibility for future accidents?”

“You are sabotaging our Tiance Mansion's plan! To tell you the truth, we are an advance team! The current leader of Tiance Mansion will come here! He wants to solve this matter himself!”

“Yes! The blood ancestor is very strong! No one can deal with it! But the marshal of Tiance can solve it! He is to handle the matter personally!

If he comes, the blood ancestor will definitely die! There will be no escape!

But you are now arbitrarily in charge and feel that you can deal with it? Now it's a disaster! “

Senseless.

Levi and Huoyun Cthulhu were all dumbfounded.

This this this...

Obviously they took the initiative and tried their best to solve the danger of Golden Harbor Island.

How could it be their fault?

Obviously they came too late, but they blamed Levi.

Blame them for not solving the blood ancestor and let him go.

Can't understand!

“Are you okay? When you arrive, the entire Golden Harbor Island has fallen. It can even be said that all the people on Golden Harbor Island have been killed! They saved the Golden Harbor Island! How come you are so embarrassed?”

“Where were you when thousands of us were torn apart by our blood ancestors and sucked up our blood? Where were you when Golden Harbor Island was threatened?”

“Big talk? Who wouldn't say it! I would also say it! Everything is your incompetence! That led to the blood ancestors coming here! Everything is your incompetence! It is only your incompetence that makes Da Xia fall into crises again and again! It's all of you trash! “

He Qingxue scolded angrily.

As soon as these words came out, everyone in the Tiance Mansion present blushed with thick necks.

It's going to explode!!!

He Qingxue smiled: “Listen to me, you are comfortable? Cool? Who wouldn't say bad things?”

This group of people became more and more angry, and they wanted to kill He Qingxue.

After all, she was stabbed in the pain by her words.

Chapter 2160

He Qingxue continued to irritate them: “Why? You still want to kill me? Come on! Anyway, you are the least capable! You can't deal with the blood ancestors, so you can only cast your anger on small people like me! Kill! This kind of thing is What you do best!”

Now, this group of high above, “god”-like beings are going to explode.

But they can't do it yet.

Can only hold back!

If He Qingxue is killed, everything she just said is correct!

They will not take the initiative to admit it.

Levi and Huoyun Cthulhu both wanted to laugh.

This group of lofty guys, who could not tolerate anyone in their eyes, were severely taught by a little girl.

But unable to refute.

I can only smash my teeth and swallow it in my stomach.

Extremely embarrassed!

A dozen people's faces are as uncomfortable as eating flies...

Today they lose face!

“This matter is your business! It has nothing to do with me! I can only wipe my ass up to here, and you can solve the rest by yourself! Go away!”

Levi left a word and left with Huoyun Cthulhu.

They have to look for the Eighteen Dark Angels and Sarah.

“Don't go! You have to go after a disaster?”

Someone wants to stop.

The leader yelled angrily: “Stop it all, don’t you think it’s not enough to be ashamed?”

“I want to say a fact that you don’t want to admit! This time it really depends on Levi! If it weren’t for him, it would be a dead island!”

“That is our responsibility! It is our late arrival! It is he who helped us take the responsibility!”

...

Hearing these ear-piercing words, everyone clenched their fists, their faces flushed, and the top of their heads seemed to be smoking.

shame!

Great shame!

For the Baolong clan of Tiance Mansion.

Since birth, they have a sense of superiority.

This is their subconscious concept.

These ordinary people in Morendam are guarded under them.

All belong to surrendering them...

But now ordinary people they guarded jumped out, doing all the earth-shattering things.

Grabbed one after another of their credit.

They did everything that belonged to them.

They are out of balance.

Especially they are saying that Levi is better than them.

They don't even admit it!

No matter how powerful Levi was, no one would sincerely convince him.

It will only deepen the hatred!

Dissatisfied!

Everyone is not convinced!

But they knew in their hearts that they really depended on Levi to come today.

They came too late.

Since then, their hatred and anger towards Levi has deepened.

In the future, they were determined not to let Levi steal the slightest limelight from them.

Each of them clenched their fists, and they vowed that they would never let this sort of thing happen again.

“Buzzing...”

Shortly after Levi and the others left, a huge roar suddenly came from the sky.

A huge flying machine is coming.

Fall on Golden Harbor Island.

Everyone in Tiance Mansion immediately greeted him.

As the hatch opened.

The passage slowly spread out.

An eternal figure slowly stepped out.

As soon as he appeared on the stage, a suffocating coercion swept across.

It seems that a Taishan Mountain has fallen on Golden Harbor Island.

The visitor wore a long gown.

Carry your hands.

Slowly walked down.

Like a god descending from the sky.

He has a cold face, a handsome and resolute face!

It seems to be around 30 years old!

Young Lord Tiance!

At present, the helm of Tiance Mansion appeared.

He returned from the far north ice sheet ahead of schedule, just to control the situation.

Now that he heard that there was a major event in Golden Harbor Island, he came non-stop.

“What about that thing?”

Marshal Tiance couldn't help asking.

“Enjoy the marshal, that thing is the ancestor of the ancient Western blood race, and it is expected to be within the first five generations! But it has been beaten away by Levi!”

Everyone immediately explained the situation.

“Levi? Is that the father of that gifted child?”

Young Lord Tiance obviously knew about Levi.

Chapter 2161

“Yes, that’s right!”

“What about others?”

Asked the marshal Tiance.

“Others have gone!”

“What? Already gone? I still want to see what kind of character can steal the limelight of my Tiance Mansion again and again? I want to see what kind of strong person can push back the blood ancestor?”

Marshal Tiance said.

“Marshal! There is a Fire Cloud Cthulhu beside Levi, it is not a rare thing for the two to join forces to force the blood ancestor to retreat!”

Other humane.

Marshal Tiance frowned: “No, you are wrong! More than two of them! I can smell a lot of people! One, two, three... 18!”

“There are eighteen others!”

Everyone was stunned when he said this.

There are still eighteen people?

They don't know.

As expected to be the young Lord of Tiance!

The handsome man of Tiance Mansion in the future!

Sure enough!

Even know this!

But after hearing this, everyone felt relieved.

It turned out that a total of twenty strong men forced the blood ancestors back together.

Levi is not alone!

In this way, everyone's hearts are much more balanced.

If Levi were really alone, they would have to die of depression.

“They have gone far! Follow me to find where the blood ancestors ran!”

Marshal Tiance ordered.

“In addition, there is news that the blood ancestor has been repelled! If the news is released later, it is the Tiance Mansion that repulsed the blood ancestor!”

Marshal Tiance ordered again.

All the credit is blocked on themselves.

“Huh? Does the marshal mention Levi?”

Someone asked.

“What do you mention him for? Do you still want to shame Tiance Mansion? Isn't it enough once or twice?”

“What's more, Levi's daughter is a member of Tiance Mansion, and he is half of it! It is reasonable that the credit is blocked on us!”

After Major Tiance said this, no one had any objections.

But Levi didn't care about it.

After all, in the eyes of outsiders, he is dead.

It is not good to say that he repelled the blood ancestors.

...

Soon news of Golden Harbor Island spread.

The world is shocked!

It turns out that the raging alien is the ancestor of the blood race!!!

The empire couldn't keep it from setting the sun this time, and came out to speak out, sure to be the ancestor of the blood race!

The catastrophe that claimed that the sun never sets will end soon!

But the world still shocked Morendam's strength!

Solved the problem in such a short time?

This is too scary, right?

"What??? The danger of Golden Harbor Island is lifted?"

"Where did the blood ancestor go??"

When receiving the news, the man in the suit looked surprised.

I thought that the blood ancestor would become a disaster for Morendam.

Didn't expect it to be solved so quickly?

Faster than the sun never sets in the empire?

In the end what happened?

"I don't know! The blood ancestor just ran away! I'm still investigating what it was like! I never thought Morendam was the fastest to solve it!"

The man in the suit has a hint of anger. Such a good layout has been solved like this?

"How can the blood ancestor be forced back so easily? Unbelievable!"

"Mr. I got the news again! It was Tiance Mansion who repelled it! It was heard that Tiance Mansion, the son of the helm of the helm of Tiance Mansion, came directly to Jingang Island! Repulse the blood ancestors!"

After listening to the suit man, he was relieved: “Oh, okay, then it’s okay!”

“Tiance Mansion is really a hidden dragon and a crouching tiger. The female ancestor is unfathomable. Now a young Lord of Tiance with unknown strength has emerged! Normal, normal! Next, you only need to pay attention to who is in the Kangaroo country to know!”

Men in suits.

...

Besides, Levi came after the Huoyun Cthulhu left.

They joined the eighteen dark angels.

“You know our purpose is to join the Bible organization!”

The eighteen dark angels made a fighting pose.

Unexpectedly, Levi smiled: “Well, I promised. Let’s go and lead the way!”

“This...”

Everyone looked shocked.

Chapter 2162

They even said they were dumbfounded!

He originally thought he would go back only after a fierce battle or something that threatened Levi.

But he didn’t expect Levi to agree with just one bite.

Incredible!

Everyone looked at him incredulously.

So happy to agree?

What's going on here?

unusual!

Absolutely not normal.

Seeing their doubts, Levi smiled and said: "To be honest, my wife is in your hands, can I not agree?"

"A person who knows the current affairs is a good man! Dealing with smart people is refreshing!"

When Levi said the real reason, everyone no longer doubted it.

Of course it is true.

Levi was dyed for plums.

"What about him?"

Everyone looked at the evil god of fire cloud.

"I am Mr.'s servant, where does he go, where do I go!"

Huo Yun Cthulhu answered.

"okay."

"Go, go!"

The group rushed to the Bible Organization.

...

The other side.

The cruise ship that sailed on the sea for a long time finally arrived in Kangaroo Country.

No one knows about this cruise ship.

After drifting over, some people went straight up to check.

Who wants to have a blood ancestor inside!

The blood ancestor started killing.

From the cruise ship to the harbor, from the harbor all the way to the center of the city.

Numerous casualties.

There is no limit at all.

Kangaroo country quickly sent the strong to solve it.

But after going batch after batch, there is no way to solve it.

Kangaroo country itself is relatively weak in terms of warriors and superpowers.

So there is no way to get the blood ancestor for a while.

Their modern weapons and the major powerhouses have used them all.

It's useless!

The blood ancestor's physique is against the sky, no matter what tricks are of no use to him.

Moreover, his awakening time is longer and more terrifying.

Much better than Levi and what they saw on Golden Harbor Island.

Kangaroo country was at a loss for a while.

There is no way to deal with it!

At this time, the international community already knew about the disaster in Kangaroo Country.

Several neighboring countries and major forces that have good relations with the kangaroo will provide support.

After all, the lips are dead and the teeth are cold.

If the Kangaroo country falls completely, it will be their turn.

But the same is still useless!

To die as much as possible.

Can't even fight a wave.

...

In despair.

The kangaroo country had no choice but to appeal to the world for help, begging the powerful from all over the world to come to rescue.

Once the prestige of the Kangaroo country is resolved, there must be a generous gift to send.

But after the call for help was sent, there was no response.

After all, everyone now knows that the blood ancestor is too strong.

Who is going to die?

Not a fool!

There are only a few places that really have the ability to deal with—Warhawk Nation, Morendam, etc.

Now the times are turbulent, and everyone is just taking care of their own affairs.

Originally, Colin intended to ask Tiance Mansion to support it.

But he was rejected by the marshal of Tiance.

The meaning of Young Lord Tiance is very simple-Tiance Mansion is only to protect Morendam, as for other messy things, they will not take care of it, not to mention that this is out of the country.

They can't manage it anymore.

“Take care of your own affairs!”

Marshal Tiance warned Colin.

...

Morendam doesn't care.

Other regions also have an attitude of managing their own affairs.

Wouldn't care about it at all.

The negotiations of the sun never set empire reached the later stage. Although the situation was basically stable, there was absolutely no experience in helping others.

...

The Lab of the Gods.

They have been paying attention to the state of affairs in Kangaroo Country.

“Sir, the Kangaroo country is helpless now! No one is going to ask for help for a long time!”

Said the clown emperor.

The male code name of the suit is Mr. x.

He sneered: “I just want this effect!”

“Help me get through the phone of the principal of Kangaroo Country! I want to talk to them!”

Mr. X said.

The great clown smiled: “Sir, I understand, you are asking to help solve their crisis! But you need conditions!”

Mr. X nodded: “Yes, if I can fulfill my condition, I will help them solve it!”

The Protector Novel Levi Garrison Chapter 2163 – 2164

Chapter 2163

Soon the Gods Lab contacted the Kangaroo Country.

At first, it is the laboratory of the gods, and the Kangaroo country attaches great importance to it.

“We can help with the blood ancestors! But we have the conditions!”

Mr. X directly expressed his attitude.

“Okay! We can agree to any conditions!”

The Kangaroo country immediately agreed happily.

Mr. X smiled: “Don’t promise so quickly! Listen to me first what the conditions are...”

“what?”

“I will help you resolve the crisis, you need to open the doomsday seed bank to us!”

When Mr. X raised this question, the other side apparently fell silent.

Kangaroo Nation’s doomsday seed bank is notorious.

All kinds of seeds are stored in it, both past and present.

There are hundreds of thousands of years old, millions of years old, and even millions of years old.

According to the grapevine, there are blood vessels of ancient seeds, gene banks and so on.

...

There are many very rich resources.

Many countries do not have the unique resources of Kangaroo Country.

There are even many leftover civilization products...

The Doomsday Seed Bank is the cornerstone of the future of Kangaroo Country.

In fact, the Kangaroo country is considered middle among many countries.

It is impossible to enter the magic eye of the war eagle country.

Because the kangaroo country's doomsday seed bank is too rich.

The value is too high.

Therefore, many national forces are coveting it.

But the Doomsday Seed Bank is the most important thing in Kangaroo Country, and it is guarded by the whole nation.

Even if it is as strong as the laboratory of the gods, it dare not collide easily.

The Doomsday Seed Bank of Kangaroo Country has been given by the Lab of the Gods for a long, long time.

Over the years, they have obtained resources from many national forces such as the Doomsday Seed Bank.

Now focus on Kangaroo Country.

But Kangaroo Nation regards this thing as more important than fate, and there is no chance at all.

Now there is finally a chance to negotiate.

"It's okay, I will give you time to think about it slowly! As long as you can afford it!"

Mr. X smiled and hung up the phone.

Now is not the time for him to be anxious, it is the time for Kangaroo Country to be anxious.

The longer the time, the greater the harm of the blood ancestor.

The most unwilling situation in Kangaroo Country...

“Wait! They will call!”

Soon after, the Kangaroo country called and started negotiations with Mr. X.

The Doomsday Seed Bank can be opened, but there is a time limit.

In the end, the two sides negotiated for three months.

“Three months is enough for us. With our technology, the entire seed bank can be replicated!”

Mr. X agreed.

Ready to go to Kangaroo Country.

Mr. X brought the Great Clown and a wizard.

“No, let’s go to Kangaroo Country slowly! Let them bear the pressure again!”

Mr. X didn’t want to solve the blood ancestor early.

It is slowly consuming.

...

The Kangaroo Nation has sent a message that the Lab of the Gods will solve the problem for them.

Many people were surprised.

They all understand that there is a high probability that the Lab of the Gods has reached an agreement with the Kangaroo Country.

There must be some kind of benefit.

The Tiance Mansion was unbalanced.

Several representatives of Colin directly blamed the Marshal Tiance.

“Marshal, now the times have changed! You are not only thinking about taking action when the Great Xia is in crisis, you also have to intervene in some affairs, you have to make arrangements in advance! In this way can you adapt to the changes of the times!”

“For example, the laboratory of the gods and the kingdom of kangaroos, there is a high probability that the doomsday seed bank of the kingdom of kangaroos is opened to the laboratory of the gods. If it is opened to us, it will definitely be a huge help to us!”

...

A few words, the marshal Tiance listened.

“These words are correct! But now it’s too late to say anything! I can only watch the Gods Lab come!”

But he sighed.

...

On the other side, Levi followed the eighteen dark angels on the way to the Bible organization.

It just so happens that the Bible organization is also in Southern Continent.

They passed by in Kangaroo Country.

Chapter 2164

“Huh? What happened to Kangaroo Country?”

Seeing the devastated scene, everyone was shocked.

“Let me check...”

Huoyun Cthulhu checked, and soon learned all the news.

“The blood ancestors are raging here, and the Kangaroo Nation has no strong people and can't be suppressed. I don't know why the Gods Laboratory agreed to take the shot!”

Huoyun evil divine way.

The Underworld God smiled: “Your news is not complete. The Gods Laboratory agreed to take the shot because it got the Doomsday Seed Bank of Kangaroo Kingdom!”

“you...”

...

Levi was used to the quarrels between the two former Lords and apprentices.

“It doesn't matter to us, let's go ours anyway!”

Levi was anxious to see Sarah.

No interest in these things at all.

If Morendam's he would take care of it.

Kangaroo country, his ass.

Levi's idea more catered to the idea of the Eighteen Dark Angels.

They only wanted to take Levi back, so as not to have many dreams in the night.

“Go straight through here!”

“go!”

Everyone interspersed directly from this city.

But the more I went, the more secluded, and the last area in the center of the city, there was no sound at all.

Not to mention someone is there.

An inexplicable fear is spreading.

“The busy people wait to evacuate...”

At this time, the helicopter hovered in mid-air and issued a warning sound.

It turned out that this area was a dangerous closed area, and everyone was evacuated.

As for the evacuation, the reason is simple.

The blood ancestor is here!

The helicopter quickly left after warning Levi and others to fail.

“Should we not be so unlucky, have we run into blood ancestors again?”

The evil god is surprised.

“What’s up to us, let’s go ours...”

Levi and the others continued to walk without paying any attention to them.

“boom!”

The next moment, a bloody smell surged into the sky.

Overwhelmed here.

At the entrance of the street not far away, the figure of the blood ancestor appeared.

Seeing Levi’s group, his eyes were shining.

Due to the evacuation of Kangaroo Country, after a long time, the blood ancestors have not seen anyone, let alone suck blood.

Seeing Levi these big living people now, the blood ancestor was immediately excited.

With a proud cry, he rushed over immediately.

He wants to suck up Levi’s blood.

Levi looked at each other and sighed: “Hey!”

“We don’t bother you, do you still want to drink our blood?”

“What should I do? Brothers!”

“Beat him! What else can I do?”

...

The blood ancestors happily killed.

But the popularity in front of them changed suddenly.

They are not ordinary people.

But one powerful warrior.

This time, even the blood ancestors were dumbfounded.

None of the Lords who came to stop him from the Kangaroo Nation is so strong.

“boom!”

The blood ancestor was too late to react.

Levi fisted and flew away.

Others also bullied themselves and did not give the blood ancestor a chance to breathe.

The blood ancestor was quickly beaten back.

Although he is stronger than Golden Harbor Island.

It doesn't make much sense!

In the face of Levi's lunatics, there was only one who was beaten.

After a while, the blood ancestor was beaten and was going crazy.

The blood ancestor is very smart, knowing that these people are not easy to provoke, and immediately retreat.

“Want to run? It's not that easy!”

Before, the two sides could well water without violating the river water.

But now you provoke us and want to run? That's impossible!

A group of people all chased up, and it was bound to discuss an argument with the blood ancestor.

All parties in Kangaroo Country were dumbfounded.

The first time I met someone who didn't run away from the blood ancestor, the first time I saw someone who could beat the blood ancestor away.

"Is this from the Lab of the Gods?"

Someone from the kangaroo country asked.

"No! I don't know my current identity! The Lab of the Gods hasn't come yet!"

"Okay, temporarily block the news! Let's see what the blood ancestor was chased into..."

The blood ancestor has never been so miserable...
