

Chapter 731 – 736 of Punished by His Love Novel

Chapter 731

Suzi nodded.

Suzi slept peacefully in the hotel this afternoon.

It was night before I woke up.

Opened his eyes, but did not see the husband and daughter.

Suzi thought to himself, it must be the only one who pestered Arron to go downstairs and go out to buy something.

At exactly this time, her cell phone rang again. Suzi shuddered subconsciously. The call in the morning was from Lanita, but now, is it still Lanita?

If so, Suzi could not remain calm.

So no answer.

Suzi left the phone ringing, but didn't answer it.

As a result, within a minute, the phone rang again.

She picked it up, and reluctantly connected: “Hey!”

“What’s wrong with Suzi?” Galia’s gentle and caring voice came from the other end.

“Galia, it’s you! Why do you remember calling me at this time?” Suzi was in a much better mood when she heard Galia’s voice, and she was simply pleasantly surprised.

“You are not in the company all day, and I and Rayna feel like we are missing something. Are things going well in your hometown?” Galia asked.

Suzi: “...”

Is it going well?

It’s hard to say.

However, Suzi didn’t want these things to let Galia know that Galia was a happy little girl, and Rayna was just better. So Suzi couldn’t tell them.

Otherwise, the two of them will be in a bad mood. “Everything went well.” Suzi said calmly.

“Then when are you coming back?” Galia asked again.

Suzi: “...”

Speaking of going back, she can go back now. Dad’s ashes have been picked up anyway, but it depends on Arron’s arrangement.

Originally, the family of three thought that they would spend a week in their hometown, and then Arron would teach Suzi to consolidate his car skills. But

now, Arron has dealt with Shen Cuishan's affairs by thunder means, and I don't know if it can be over, so Suzi doesn't. I know when Arron can go back.

As far as Suzi is concerned, the sooner the better.

She wanted to go back to Nancheng to find her mother.

"I don't know." Suzi replied.

At the other end, Galia said with a grinning tone: "Suzi, my mother wants to invite you to dinner. Tell me when you come back. She said she would make you dumplings with sauerkraut flavor from the Northeast. My mother made dumplings that are delicious. ."

Hearing Galia's words, Suzi suddenly understood why Galia called her at this time. Christopher must have told Galia what happened, so Galia was specifically asked to comfort her.

Suzi's heart suddenly warmed.

"Thank you, Galia, I will definitely eat when I go back." Suzi said.

"Yeah, I'm dead, bye."

"Bye."

As soon as the line was closed, Suzi's cell phone rang again, and Suzi immediately connected with a smile: "Do you want me to bring you something back?"

On the phone, it was Arron's voice: "I'm in the restaurant box downstairs. When you wake up, come down to eat."

"Oh, I'll come down right away."

After closing the thread, Suzi didn't change her clothes either. She only wore floral home clothes and walked to the lobby except for the guest room.

She collided with someone just as soon as she was in the lobby.

"Don't you walk with eyes long!" a sharp female voice immediately yelled.

Chapter 732

It was Suzi who hit someone else first and stepped on the woman's foot.

So she repeatedly apologized: "I'm sorry, I'm sorry! Your foot hurts when I stepped on it?"

The woman looked at Suzi disgustingly, and said in a tone like scolding cats and dogs, "Wearing a pajamas, unkempt, where did you come from! Sell it? You stepped on my foot? Do you have any ills? No infectious disease? Huh... Disgusting, get up and drive!"

The woman pinched her nose, and after backing up a few steps, she continued to scold Suzi: "You woman, stay away from me! I said you give me a stinky breath when you talk to me! You give me a long time! Disgusting! Up!"

Suzi: "..."

She suddenly looked up at the woman again.

The woman looks in her thirties, with chestnut-colored hair, well maintained hair, and slightly darker skin. This is due to the climate here, which is dry and sandy, and people who live here for a long time have slightly poorer skin.

But Suzi is an exception.

Suzi's skin follows her mother. Since she was a child, she has been silky, white and tender like milk. When she was a child, others also called her "drag oil bottle" "Xiaoyezhong" because of Suzi's skin, because her skin is not like a local, but even more so. Like a Jiangnan woman with a humid climate.

And the woman in front of her was an out-and-out local skin, dark and rough.

However, Suzi can still see that the woman is taking good care of her. An exquisite cashmere coat for women, high-heeled half boots in lambskin, this outfit is not as fashionable, elegant and diverse as the women in the international metropolis of Nancheng.

But Suzi can also see that this woman is definitely the top person in this county.

Suzi sees more acrimonious women, and there is not one more woman in front of him.

Besides, she picked up her father's ashes. He doesn't want to cause trouble anymore, and Arron manages everything every day, so he can't spend his time here.

Suzi once again said sincerely: "I'm sorry, I can accompany you to the hospital if you step on your foot. If you step on your shoes, I can accompany you. Please also leave Germany."

"Yo! Do you still know what is lingering virtue? Where did you come from, babble here, I didn't read the almanac today, I was so unlucky! You are going to die!" The woman rushed. Suzi scolded.

Suzi: "You are too much!"

"Yo!" The woman put her bag on the sofa next to her, and raised her hand to poke Suzi: "You are really shameless! I have something to tell you today, I

have no time to tear you up here. You're still kicking your nose, let me see, let me see what kind of stuff you are?"

Suzi: "..."

She felt that she didn't read the almanac when she went out.

She just came down to have a meal with her husband and daughter. Who is she getting in the way?

Suzi glared at the woman.

At this moment, the woman also saw Suzi clearly: "Is it you?"

Suzi was startled: "Do you know me?"

Although she has lived in this county for twelve years, she has not been here for fifteen years. She has no friends in this county, and some are just humiliation. She doesn't know anyone.

"You really are Suzi!" The woman's tone became even more arrogant.

"I heard Shen Cuishan say it early in the morning, saying that you are back and that you are living in a high-end hotel and doing that kind of work. I thought she was talking about it. It turns out that you really came back and lived here. You really dare to wear it, running out wearing pajamas, Suzi, people still say that rabbits don't eat grass around the nest, you ran to the door of your native home to sell it?" The woman crocheted her waist and walked back and forth. He abused Suzi.

Suzi: "..."

Chapter 733

She suddenly felt that this woman was a bit familiar.

But, she really couldn't remember who this woman was?

To be precise, she should have met this woman when she was a child, but now each other has grown up and they are all different.

"Who are you?" Suzi asked quietly.

"Xu Haili!" The woman sneered, "You don't even remember me, Suzi, how ungrateful you are!"

Xu Haili?

This is really a narrow road for Yuanjia.

Yes, looking at this woman now, it is indeed Xu Haili.

When I was a child, Xu Haili's family lived in the county seat, and both parents had positions. If people were really classed, Xu Haili would be the top nobleman in the county.

But Suzi is the most inconspicuous civilian in this county.

Even lagging behind the civilians.

Because Suzi's family was very poor when he was young.

Originally, Suzi lived in the countryside of the county, and Xu Haili should not have any intersection.

However, when Suzi was twelve years old, one of the best primary schools in the county held an interaction that recalled bitterness and sweetness. One of the projects was that children in good conditions in the county town should go to the township to experience life and experience life. It's not easy to taste the hardship of rural families. At the same time, letting children from rural families go to the county family to experience it is a benefit for rural children. It's a trip to enrich your life and broaden your horizons. When you come back, you still have to write an essay.

Suzi was honored to go to Xu Haili's house.

To be precise, Xu Haili's parents should have chosen Suzi's family.

At that time, because of his father's illness, Suzi's house was really a mess. The house was leaking and there was no money to repair it. The shoes that Suzi wore were all showing his toes.

In order to show their kindness and increase their political achievements, Xu Haili's parents specially selected Suzi's family.

They sent their daughter to Suzi's house and received Suzi to their own house. Originally, Xu Haili's parents thought that a poor rural girl in Suzi would definitely not take a bath for a year, with lice and nasal mucus. , They also asked the media to report on what Suzi looked like before and after they went.

As a result, the media came. Xu Haili's mother took off Suzi's hair, only to find that Suzi was very clean.

Suzi's clothes were poor. The autumn clothes and long trousers in it were all made from mother's clothes, with patches, but the twelve-year-old girl was clean from the inside out, and even the hair was pierced. A scent of jasmine. That's because the family is really poor and has no money. When her mother was washing her hair, she went to the house and picked wild jasmine flowers and soaked in the water. This way, it can get rid of mosquitoes, nourish the hair, and make the hair smell good. Is not reached.

At that time, Xu Haili's mother was embarrassed.

Those reporters who came to want to use the dirty and sloppy girl in the rural area of Suzi as a gimmick were also embarrassed.

However, what made them even more embarrassing was that no one thought that when Suzi took a bath and changed into Xu Haili's mother to put on Suzi's clothes that Xu Haili didn't need, everyone in the audience was stunned.

The reporter present couldn't help but say: "This little girl is so beautiful, she can be a child star, she is much more foreign than your daughter."

Xu Haili's parents could only laugh awkwardly: "..."

After the reporter left, Xu Haili's mother raised her hand and slapped Suzi severely on the face: "You mean embryo!"

Chapter 734

The twelve-year-old girl's face suddenly swelled when she was beaten, and the marks on her five fingers were striking.

Suzi didn't dare to cry so frightened.

She looked at Xu Haili's parents with only horrified eyes.

She didn't intend to come to the rich man's house.

She has to take care of her father after school every day, help her mother to carry water, and have a lot of homework to do.

However, the family selected her. If she does not come to experience life in this house, she will not even be able to submit her composition. Not only that,

but father's 30 yuan a month for poor household medical expenses will not be repaid.

Under the persuasion of his mother, Suzi came.

She didn't expect this family to be so fierce, Suzi didn't dare to tell her parents, fearing that they would feel bad.

Fortunately, after Xu Haili's mother slapped her, she coaxed her again: "Little girl, auntie is also for you. You are a little girl from the countryside who doesn't understand anything and shy away. The reporter just wants to help her. You report it and want to improve your plight. How rude you are to be uncooperative like this.

Auntie usually beats you Xu Haili sister. They are so strict. Auntie couldn't hold it back all of a sudden. Don't blame Auntie, OK? "

Suzi nodded: "It's okay, Auntie, I don't blame you, I will be very well-behaved, I just can't cook, but I can wash clothes, clean the room, and fold the quilt. Everything is good."

Suzi is a smart kid.

In order to live smoothly in this home for a week, and in order to avoid being beaten, Suzi really used all eighteen skills.

She woke up in the morning and dragged the living room again, and then boiled the water for her home, and she didn't need Xu Haili's mother to get up to cook for her. She only heated a steamed bun in the pot, ordered pickles and boiling water, and could go to school with her schoolbag on her own. Up.

After school at night, she can wash all the clothes and smelly socks that Xu Haili's parents took off.

For this, she was praised by Xu Haili's mother.

Suzi was very happy.

Seeing that Suzi is so behaved, Xu Haili's mother also had a smile on her face. She smiled and said to Suzi, "Suzi, dear boy, there are guests at home today. You don't want to do these housework. Follow mother Xu to see how. Entertaining guests, this is also out of the reach of your rural children, you can be regarded as an eye-opener like this." Suzi nodded: "I will appear to be very good."

Although her parents are in the countryside and the family is very poor, her mother has always taught her etiquette.

My mother often tells her not to snoring or snoring when eating, do not make noises, do not smash your mouth, adults do not move chopsticks and children cannot use chopsticks, children must sit upright when they are at the table, and no leftovers should be left after the meal.

Therefore, when Suzi stayed in Xu Haili for the sixth day, that day was also a weekend, Xu Haili's house had several guests. In Suzi's eyes, those people were all high-ranking officials. Xu Haili's mother also dressed Suzi as Xu Haili for the sake of face. One of the skirts was not very beautiful, and Xu Haili didn't usually wear a skirt, which brought Suzi out to meet guests.

Among these guests, one of them is a young man who has just been transferred from another place.

When he saw Suzi, he couldn't help but praised: "Oh, Xu Chu, I didn't expect your daughter to be so beautiful, Xu Chu, you have such a beautiful daughter, why don't you send her to the provincial capital for art? Affiliated high school and so on, let her take the road of art, saying that she can't grow up to become a big star.

You see, your daughter, who has white skin, is really not like our child in this small county.

In our small county, the weather is too bad and the sand is heavy. The children here love the skin of the village, and the skin of the village is like a monkey's butt.

But your daughters are different. Your daughters are all very beautiful girls in big cities. “

The young man wanted to compliment Director Xu.

He didn't even know that the child was not Chief Xu's family, and no one dared to remind the young man at this moment.

Due to the large number of people and face, Xu Haili's parents can only smile.

Xu Haili's mother went on to boast: “Our family Suzi is sensible and has a very good self-care ability.”

“Hey, what a good boy, little girl, tell your uncle, do you have any other talents?” the young man asked Suzi again.

Suzi is not stupid.

She first looked back at Xu Haili's mother.

Xu Haili's mother said gently: “Suzi, you have to be generous. Tell your uncle what talent you have.”

Xu Haili's mother thought at the time, anyway, a movie of a poor girl in the countryside. Apart from studying, washing clothes and cleaning, she has no talents anymore.

Chapter 735

Unexpectedly, Suzi said: "I can play the piano."

Playing the piano was taught by her mother.

In that rural area, when all three of their Shen family were criticized and bullied by others, no one knew that Suzi could play the piano.

And playing the piano is actually Suzi's greatest joy.

There is no piano in their house.

But my mother is a person who knows music. She drew the piano keys for Suzi with paper, and let her practice empty-handed on the paper.

Suzi is also clever, even if it is a fake exercise, Suzi also learns with interest.

On weekends, Suzi's mother puts on Suzi's new clothes that she is willing to wear only once a week, and takes Suzi into the city, finds the only church in the county, and talks to the choir staff. , They will let Suzi and Suzi's mother practice the piano when there is no one in the church in the afternoon.

The piano music that Suzi played was taught by his mother.

To Alice.

The imprint of the rain.

Turkish March.

Wait a minute.

Mother told her not to tell anyone.

Suzi never told anyone.

On the sixth day of Suzi's life at Xu Haili's house, in front of the guests at the time, she said for the first time that she could play the piano.

A twelve-year-old girl really wants to be recognized. A ten-year-old child does not know the sinister thoughts and the ferocious jealousy in the adults' hearts.

Suzi only knew that Xu Haili's house had a piano, and she thought that she could play it by herself.

Maybe Xu's father and Xu's mother would like herself more.

As soon as Suzi's words were spoken, many guests wanted to see Suzi playing the piano.

There was a moment of displeasure on Xu Haili's mother's face, and then she said with a smile: "Okay, let everyone listen, what kind of tune our Suzi will play."

With that, she turned on the piano.

Suzi was extremely surprised when he saw the piano.

She couldn't help but pursed her lips, took a deep breath, and then sat down in front of the piano.

At that moment, let alone the young man, everyone in the room could see that the little girl sitting in front of the piano was really a noble little princess, with a straight back and a slender neck like a swan. The skirt is very plain and very light.

It is very elegant.

Especially when a little girl is playing the piano, her slender fingers are really the most beautiful beating in the world.

Suzi played three pieces in a row.

After playing, the audience was stunned.

Then came the thunderous applause, and the praise full of praise.

At that moment, Xu Haili's parents looked embarrassed and angry.

But they couldn't have a seizure until the guests were gone, and the moment Xu Haili's parents closed the door, Suzi thought he would be praised.

However, this time it was Xu Haili's father, who lifted his foot and put it on Suzi.

"Aw..." Suzi vomited blood on the spot.

Chapter 736

The twelve-year-old was kicked and curled up on the ground, blood gurgling out of his mouth.

She doesn't know what happened to Xu's father and Xu's mother?

Has she always performed well?

"Get out of here! You ba5tard! Get out! Get out of my house right now!" The 12-year-old kid was kicked out by the Xu family in the evening.

Suzi walked home from the county seat alone.

It was already midnight when I got home.

The father and mother who were still working on the hospital bed watched their daughter come back in the middle of the night, with a pale face and blood on their lips. They beat their chests and feet with distress.

Dad rolled off the bed at once.

“My child! My child! Who has bullied my child!” The father who fell on the ground beat his fist to the ground, and the skin on his hand broke. The blood is flowing.

Suzi calmly looked at his parents: “Xu Haili is not in our house?”

Mother cried and shook her head: “She is a child in the city, how can she endure such suffering, just doing things every day, and staying in a hotel in the city at night.”

Yubi, my mother shook her head again: “Don’t talk about Xu Haili, talk about you, tell your mother what’s wrong with you, who was beaten, why are you bending over and holding your belly? Who bullied you? Your lips still have blood. Tell mom, what’s wrong with you?”

Suzi shook his head: “It’s okay mom, Dad Xu Haili just kicked me. My chest hurts a bit, but I can keep walking back. It’s okay. I’m fine. Mom, let’s put my dad into bed quickly.”

When Suzi bent down to help his father up, he felt the pain in his chest.

She: “Oh” cried out.

Mom and Dad discovered that the matter was serious.

That night, my mother borrowed a floor car from Shen Er's grandfather's house and took Suzi to the county town to see the orthopedics department, only to find that Suzi's ribs had been kicked off by Xu Haili's father.

The doctor asked Suzi to stay in the hospital, and his mother had no money.

Fortunately, the doctor sympathized with their family very much. He confiscated the money and aligned Suzi's bones so that she could stay at home.

Because of this, Suzi's father became more ill.

Suzi also cultivated at home for two months before going to school again.

In two months, Suzi, who had good grades, couldn't keep up.

Not only that, Xu Haili, who swapped families with her, also came to Suzi's elementary school to find fault with Suzi.

At that time, Suzi was kicked out by Xu Haili's father. She was still wearing Xu Haili's skirt, which was originally a skirt that Xu Haili didn't wear.

Suzi didn't want to wear it either.

No matter how good other people's clothes are, if it weren't for Suzi's, she would be very rare.

But Suzi had no choice. Her own clothes, the only decent clothes, were left at Xu Haili's house. She could only go to school in Xu Haili's skirt.

Because of this, Xu Haili went to the elementary school to find fault with Suzi.

Said she was a thief.

Xu Haili also called her good friends to play in the city to beat Suzi and wipe her shit on Suzi.

Twelve-year-old Suzi, outside the school, was surrounded by a group of fourteen- or five-year-old girls who were bullying.

Those children laughed at Suzi enough. After being tired, Xu Haili still stepped on Suzi's face and scolded her: "Little b!tch! You stayed and ate in my house for a week, and you infected our house with lice everywhere, mine. The bedroom still smells like you. You still wore my skirt and broke my piano. You are such a sc*mbag!

Little ba5tard! "

Suzi: "..."
