

Chapter 897

When she knew that she was about to give birth, she knew that Fu Zhengxiong had a wife and a son in Nancheng.

At that moment, Shanna collapsed.

She didn't understand why Fu Zhengxiong would pursue her, Fu Zhengxiong never said.

It was not until later that Arron gradually understood that the reason why Fu Zhengxiong and Shanna were married at that time was because many local people still supported the Xia family. The reason why Fu Zhengxiong and Shanna were together was The upper ranks of Gasing Island paved their own way.

Later, Fu Zhengxiong and the Pan family fell out.

He was returning from the withdrawal of capital from Jiaxing Island, just at that time Shanna should give birth.

Fu Zhengxiong wanted to bring his wife who was about to give birth back to Nancheng for the next life, but at that time Shanna was already very inconvenient. She could only stay on Gasing Island by herself until she gave birth to Arron, until Arron was already one year old. At that time, Shanna brought Arron to Nancheng to find his biological father.

However, what Shanna never expected was that the Fu family didn't recognize Shanna at all at that time.

He also said that Shanna had a humble background.

Angrily, Shanna wanted to return to Nancheng, but at that time the Fu Group had completely broken with the Pan family, and Shanna could not go back.

She can only take Arron with her, living on the living expenses given by Fu Zhengxiong every month.

Not only that, the older Arron didn't even have the right to inherit, and he had to accept the fate of being exiled abroad.

Although her mother loved Fu Zhengxiong very much, Shanna had to reluctantly leave Fu Zhengxiong and go abroad to accompany her son for the sake of her son.

Provide a superior life for his son.

Until later, her mother returned to China because she missed Fu Zhengxiong, but was framed and imprisoned.

Shanna spent ten years in prison.

Ten years time!

Arron visited the prison several times and said to her mother every time: "Mom, I will take you abroad now and never come back again. My power abroad and my ability are enough for you to enjoy your life. "

But her mother firmly shook her head: "I hope Fu Zhengxiong can give me an explanation. I want to ask him personally if I can enter the Fu family! Qin'er, mom used to oppose you to fight for the Fu family's property, but now mom doesn't Thinking about it this way, the Fu family should belong to you! You must fight back."

These words were all said by her mother to Arron in prison.

In fact, Arron had such a plan.

The Fu family was too unfair to his mother and to him. Of course he wanted to snatch things that belonged to Arron. Now it is good to get the support of his mother.

Arron nodded resolutely.

He thinks that whether his mother is in prison, at least it is a safe place. He will send in a lot of belongings every month and try not to let his mother suffer in it.

It was not until ten years later that he seized the power of the Fu Group.

Then all the remnants of the Fu family were eradicated, only Fu Zhengxiong and the aunt were left.

However, although Arron was in charge of the Fu family, his mother ran out of life.

If you ask Arron what is the saddest and most regrettable thing in his life, it belongs to his mother's early death.

Before his mother died, he told him that he must go back to Jiaying Island, and he must go back! Must!

"Because Gasing Island still has..." This is the mother's death before she said half of the words, and then passed away.

Chapter 898

Arron didn't tell anyone half of what the mother said.

But he knew in his heart that there must be people or things that his mother cares about in Gasing Island, and there must be very important things that have not been completed.

Fulfilling his mother's last wish and going to Gasing Island to find some answers, this is why Arron insisted on conquering Gasing Island.

And Mr. Shu.

Before his mother died, she repeatedly told Arron that she must treat Elder Shu well.

Therefore, this is also the reason why Arron never confronted Elder Shu again and again. In fact, it is plain, as long as Elder Shu protects Lanita's family of three in the Shu family, Arron really has nothing to do with the Lin family.

But now that the Lin family is on Gasing Island, it's hard to say!

It just so happens that Suzi can get revenge.

When Arron finished talking about the reason why he wanted to conquer Gasing Island, She Niang said distressedly: "Arron, I didn't expect my mother to have so many difficulties. She never told me when she was alive, eh. , I knew she was so bitter. When she was alive, I should take better care of her. I think about it now, I really don't spend too much time with my mother.

Too little. "

Speaking of later, Suzi's eyes were red.

Living in this world, Shanna is the person who makes her feel the closest besides her parents.

During the two years in prison, it is not so much that Suzi helped Shanna carry a lot of heavy goods, but it is actually more accurate to say that Shanna

is taking care of her. Shanna is very rich in prison, and has a very high cost of food and clothing. Okay, so she also helps Suzi from time to time.

Later, he also taught Suzi a lot of useful knowledge in architecture.

But now she's mother Suzi, she really took care of Aunt Shanna, she took care of too little and too little, and it's also to blame that she was desperate at that time. If her conditions were better at the time, she would really not look for a job again. , Should be by my mother's side all the time.

It's just that it doesn't make much sense to talk about this at this time.

All she can do now is to accompany Arron to Jiaying Island.

Looking for the mother's last wish.

Then, fulfill the mother's last wish.

She put away her emotions and said to Arron: "Arron, I have to organize my work first. At least some of the tasks I have on hand have to be handled well, otherwise my colleagues can't take over, I will do it now."

Yubing, she looked at Kraig again: "Mr. Jun, I'm sorry you talked to Arronzi's living room. I will sort out my work by the side."

"Good." Kraig nodded.

Suzi got up and left.

When she came to the small studio, she took out her mobile phone and arranged something: "Hey, Zhao Xianda, I would like to trouble you one thing. How about letting Rayna follow you as your assistant in the future? I may temporarily I don't know when I can come back if something is going on."

On that end, Zhao Xianda was naturally very surprised.

However, Zhao Xianda did not force to ask about things Suzi did not want to say.

He only promised on the phone: "Don't worry, Suzi, I will definitely bring Rayna to the top. Rayna is actually very good at right now. He is a person, honest, obedient, hardworking, and very good. The design department likes her like you."

"Then I can rest assured, thank you Zhao Xianda." Suzi said.

"It's okay!"

"I will sort out the work today, and then send an email to you, try to make it easier for you to take over." Suzi said again.

"Good." Zhao Xianda agreed.

After closing the line, Suzi began to deal with it.

Her small studio and living room are only separated by a glass door. She sits on her desk in drawing and tidying up and looks very serious. In Kraig's eyes, she can't help but praise her.

"Arron, your little wife is truly extraordinary. She cherishes everything. Although she is married to you, she doesn't look like a wife at all. She used to suffer too much."

Arron was silent but smiled.

Looking at Dalia who is busy in the kitchen, it looks different.

Chapter 899

The woman in the kitchen is very virtuous. She is busy cooking, and the only kid next to Shen follows behind like a little tail: “Aunt Shanshan, is the steamed shrimp my mother wants? I want to eat one now. .”

“Hehe.” Dalia was amused: “It’s a bit hot. Auntie will give you a piece of cold. Are you eating well?”

Lilly nodded immediately: “Good auntie.”

Dalia really peeled one off for Shen Soong first, and then put it on a small plate to dry. After a minute, she picked it up. Cautiously raced to Shen only’s mouth.

The little girl eats with gusto.

Dalia watched it with gusto.

In the living room, when the two men saw this scene, Arron smiled.

But Kraig has mixed flavors on his face.

Do you say he doesn’t want children?

Think!

However, he really didn’t want to have children with Dalia.

Because I didn’t want to hurt Dalia.

Deep down, he still thought of that woman.

Within an hour, Dalia made a table of dishes.

The dishes on this table are better than those eaten by Suzi and the others in the Food City, and the most proactive thing is that Kraig likes it very much.

Regardless of the fact that Suzi and Shen's only two little beauties are watching, Kraig eats a lot and doesn't cheat at all.

Seeing Kraig eating, Lilly also ate a lot.

This dinner was dubbed the Last Supper by Kraig.

Arron also hit Kraig on the head: "I am going to Jiaxing Island tomorrow, can you say something auspicious!"

Kraig smiled: "Old Fu, when did you believe in this kind of superstition? You used to be, but you are not afraid of heaven and earth!"

Arron used to be fearless, but now with Suzi, he will take care of many things.

This evening, Kraig and Dalia had a meal here, and after a lot of instructions to each other, Kraig and Dalia left.

Arron and Suzi hugged each other for a long time, but they couldn't sleep.

"Arron, the three of us must be together forever." She wanted to say that we must be together in death, but she didn't say.

Arron hugged her tightly: "Go to sleep."

"Yeah." She nestled in the man's chest and slowly closed her eyes.

Next day

Arron and Suzi both woke up very early, Christopher's car was already waiting downstairs, and they were all ready together.

They also carry very little luggage.

The only person around him was Christopher.

Even the old house of the Fu family was not alarmed, and it was not impossible to alarm Elder Shu.

So quietly, the family of three boarded the plane.

When the plane arrived at Gasing Island after three hours, Suzi asked Arron, "Arron, do we first look for a taxi and then a hotel? Or how to arrange it? By the way, are you familiar with the language here? "

Before Arron could answer, they had already heard of a car in front of them.

A person got off the car and said respectfully to Arron: "Good morning, good lady, good little princess, please get in the car!"

Suzi: "..."

Chapter 900

At this time, Christopher said: "Madam, we have come to Gasing Island until now no one knows. The one who picked us up was our internal correspondent from Gasing Island."

Suzi nodded with satisfaction: "I see."

Four people got in the car at the same time, and Christopher sat in the front passenger seat.

Arron, Suzi and Lilly sat in the back row.

As soon as she got on the car, the little princess happily watched the scenery of Gasing Island.

Even if you look at Gasing Island, it is just a small town as big as a small place, but the scenery here is extremely beautiful and the climate is humid and mild.

When I came here, I felt that the air was fresher.

Seeing the little girl exclaiming in surprise, Suzi simply changed positions with Lilly and let Lilly sit by the window, so that it would be more convenient for her to see the scenery outside.

The former driver was driving while reporting to Arron and Suzi.

“Four Lord, Madam, yesterday Jun Chengyin of Kyoto has already put all the weapons allocated to the Pan family in place.”

Hearing what the driver in front said, Suzi immediately looked at Arron in surprise: “Jun, Jun Chengyin...have you allocated weapons to the Pan family?”

Arron smiled slightly.

He raised his arm to hold Suzi, and then asked the driver in a low and steady tone: “Is it all in the treasury?”

The driver nodded and said: “Don’t worry, it’s all in the treasury, and then count it.”

Suzi looked at Arron: “What...what’s the situation?”

Arron looked at Suzi with a loving look, and said mysteriously: “You shouldn’t ask, don’t ask.”

Suzi nodded immediately: “Well! I won’t ask my husband! As long as I am with the only family of three, I will feel at ease. No matter where it is, the three of us are all together!”

Speaking of words, Suzi leaned his head on Arron’s shoulder.

The expression is stable and happy.

She is really not afraid.

What about the swordsmanship? How about extremely dangerous?

As long as the three of them die together, she feels that this is happy.

Especially when she heard Arron’s story about Shanna’s mother when she was young yesterday, Suzi felt that being able to be a family of three is more important than anything else.

More important than death.

However, her cute and contented expression leaning on Arron’s shoulders suddenly gave the driver driving in front of her a lot of dog food.

Driver: “...”

He really felt like his eyes were blinded.

Does he dare to watch it?

But the more he dared not look, the more he wanted to look in the rearview mirror.

By the way, the Fourth Master's expression in the rearview mirror was very ordinary and indifferent, and the lady was still very intoxicated and happy.

This driver hasn't seen Master for a full year. When he saw Master last year, he went back to Nancheng to gather together. At that time, Master still looked cold and cold, but he didn't see him this year. , Master has changed a lot.

Recently, he has been hearing rumors that the Master has a little wife and a little princess by his side, which made the Master change a lot. In the past, the Master was an abstinence system, but the Master is now a fear.

Not only is the fear inside, the fourth master is also a daughter slave.

These subordinates far away in Gasing Island didn't believe it when they didn't see the real person.

Chapter 901

But when I saw him today, the driver really believed those rumors.

Especially the three of Jarod, Lanita and Moira who fled to Gasing Island. Everyone said that the young president's wife was a vixen. As soon as she came to Master, she took away Master's soul, saying that she was originally Master's genuine fiancée.

As a result, the fiancé was snatched away by this vixen.

Whenever they heard Lin Lanitazi say such things on different occasions, their subordinates stationed in Jiaxing Island couldn't help but want to laugh.

Their children are already five or six years old, and you are just a fiancée!

Why did you become your fiancé?

However, on this Jiaxing Island, no one went to talk to Lanita's family of three.

Who made a family of three come to this land and be treated with hospitality from the monarch's mansion?

That Lanita!

No matter how you look at it, it's not as good-looking as his wife, so Fu Siye has a husband and wife.

"That, Master..." In order to relieve his embarrassment of looking at the rearview mirror many times, the driver who drove took the initiative to report: "Now Jarod and Lanita's family have lived in the western courtyard of the monarch's mansion, listen. Recently, Lord Pan Haojing is planning to match Lanita and his fourth brother Pan Haoyang. Lord Pan said this is a strong alliance."

"Heh!" The co-driver's Christopher laughed loudly.

Arron remained calm.

The driver continued: "However, it's not bad to just let them think that. Our purpose here is not to fight with them. We finish our own affairs and then sell the weapons here. Buy a good price. This is the best!"

Hearing them talk about these things, Suzi couldn't understand either.

These are all major events, and she doesn't need her to understand them thoroughly. She only rested her head on Arron's shoulders and looked at her daughter.

Following the girl's eyes, Suzi can also see the scenery outside.

The scenery here is indeed good. No wonder Pan Haoyang told her at the time: "The city scenery of Gasing Island is very good. If she follows him to Gasing Island, I guarantee she likes it very much."

Now that she is here, she really likes it here.

Everyone is drunk.

As a result, Suzi didn't want to worry about what the driver talked about with Arron and Christopher.

Anyway, she knew that the general idea was that she must first enter the monarch's mansion, then look for the secrets of the Xia family, and then take away the things hidden here.

As for the safety issue, she doesn't have to worry at all.

Suzi didn't pay attention to when the car stopped.

The car stopped in a very lively place, and the driver said to Arron as he got off the car: "Siye, this is one of the best hotels in Gasing Island, because considering that the little princess may like lively places, we I chose this place. Come in and take a look. If you, your wife and the little princess are not satisfied, we will change to another place."

Arron nodded: "This is a good place, a lively place is good, the so-called big hidden in the city, this is the truth, just here, don't change places."

When speaking of words, he crossed Suzi and Shen Only, raised his arm to open the door.

Here Christopher had gotten out of the car. He planned to take the little princess down first, and wanted to let Suzi and Arron get down. However, before Christopher bends and frightened, Lilly suddenly ran away.

Not far in front of Lilly, there was a vendor selling toys, with a lot of Monkey King's mask heads and very realistic feathers tied to the vendor.

"Wow. Look, mom! Look, mom, I want to buy one!" Lilly hugged his hug bear, running fast with his short legs.

"The only one! Stop!" Suzi chased after him.

Christopher also caught up.

Just here, a car suddenly stopped next to Lilly's. When the man got out of the car, he bent over and hugged Lilly's car tightly.

Lilly was surprised: "Mom..."

Chapter 902

Suzi was stunned. Without even thinking about it, he rushed towards the door and hugged Lilly who was hugged into the car: "The only one, don't be afraid of baby, don't be afraid, mom is here, mom is here!"

Yubi turned around again, and the car door was closed.

Suzi: "..."

She glanced around.

Sitting next to her and Lilly was a man wearing sunglasses. The man had a faint fragrance, which smelled pretty good.

"You...what are you doing?" Suzi's entire heart jumped into her throat in fright. She tightly hugged Shen Zuo in her arms, her eyes glaring at the man wearing sunglasses.

The man said nothing.

Don't look at men either.

Lilly, who was shrunk in her mother's arms, resisted fear and crying. She glared at the man with sunglasses in front of her, pouting and shouting: "You ba5tard! Quickly let me and my mother go, or I want you to look good!"

The man snorted coldly: "Heh!"

His voice was not loud, it just got stuck in his throat.

But such a voice immediately made Suzi suspect something, she yelled out in an unbelievable way: "You are Pan...Pan Haoyang?"

Pan Haoyang froze for a moment, then took off his eyes and looked at Suzi with a gentle expression: "Suzi, you are finally here."

Suzi: "..."

She was so shocked that she couldn't speak for a long time.

She doesn't know who to blame?

Based on what she knows about Arron, Arron has never been a boastful man. He said that there is no danger here, and it should be because her husband had already set up this place.

But what is the situation now?

How come they were caught by Pan Haoyang just as soon as they got out of the car?

Is there a ghost?

At this moment, Suzi couldn't help but worry about Arron's safety.

Pan Haoyang sighed, "Actually...I didn't expect it."

Suzi: "What!"

"I just want to relax!" Pan Haoyang's tone had an unconcealable disgusting tone: "If I don't come out and breathe, I will have a murderous heart! I let the driver pull me around, and my driver will just Pulling me here, my car has been parked here for a while."

Suzi: "..."

"But, in any case, I didn't think that when I was bored, a little bit came across from the other side. Suzi! We are really fate, do you know how much I like her when I first saw this little bit? It's full of your shadow, I recognized it all at once, this must be your daughter.

Sure enough, you caught up afterwards! "

The curious Lilly interjected: "Who! Who do you think is the little one!"

Of course it's you, baby, tell uncle, are you as tall as a meter now? "Pan Haoyang really likes this little dumpling in front of him.

Perhaps this is because of the relationship between Aiwu and Wu.

Or maybe, Pan Haoyang is also in his early thirties, but he is still alone now?

In short, the first time he saw this little dumpling that hugged and hugged a bear, he looked so fierce and dressed in a western style that he liked it very much.

It is Suzi's child anyway!

He will keep her as a little princess from now on.

When he saw Lilly at that time, Pan Haoyang immediately ordered his subordinates: "Snatch the child!"

Pan Haoyang really didn't know that Arron had invaded Jiagasing Island, and he unscrupulously brought his wife and daughter with him!

Speaking of the Battle of Gasing Island, Arron was indeed ferocious! Then his Pan Brothers are not kind!

Besides, Pan Haoyang has been thinking about Suzi every day recently, thinking about it day and night, and now Suzi has come to him with the child.
