

# Chapter 219

Suzi struggled desperately, but the harder he struggled, the more powerful the man holding her would be. In terms of strength, she was not his opponent at all, and ten Suzi could not break free from Arron's embrace.

Suzi's struggling strength is getting smaller and smaller.

She suddenly felt that her struggle was meaningless. When she followed him back to Nancheng from Quxian County, when he brought her back from the hospital, she was destined to enter his house again with the only one. Now, he will treat her like this.

Suzi asked himself in his heart, you've already thought of it, haven't you?

You have always longed for this, haven't you?

For so many years, even if you avoid him every time, there is still hope in your heart.

You took the only one to escape with Sanford so hard, Sanford was so good to you, but you just made friends with Sanford. You have never forgotten Arron, have you?

Suzi stopped struggling.

The man's lips also covered at this moment.

At this time, Arron finally felt that the woman in his arms was found right.

For a long time, even if Arron knew that Lanita was pregnant with his child, deep down in his heart, he still didn't want to marry Lanita. He has been looking for the feeling of that night in Lanita.

But I haven't felt that way.

The girl that night cried and shrank in his arms, very jerky, but when he attacked the city, she was so strong and stubborn, but when he saw Lanita again, Lanita was not that kind of temperament at all.

Lanita is ostentatious, vain, hypocritical, and loves to lie.

How could it be the girl that night? Arron and Lanita regretted their marriage not because Suzi had a trouble with Lanita. Even if Suzi didn't have a marriage at that moment, Arron would withdraw from the wedding because Arron had promised to his mother that he would be married in this life. We only get married once, we only marry one wife, and I will never find another woman outside.

Since he is only married once in his life, he must not be perfunctory.

Moreover, he is already married.

The person who used to get married was Suzi, the woman who made him feel that night.

From the moment he left the wedding scene, he started looking for Suzi.

However, this search lasted six years!

In six years, she hides and seeks with him like a mouse and cat, but whenever he can find a trace, she will run away without a trace again.

What a cunning fox!

If it weren't for Sanford's house, let him know in advance.

If it weren't for the careful preparation this time, he would come to Quxian quietly without any movement, and then become friends with some local gangsters under the pseudonym, and then cause some trouble in the kindergarten through the son of his friend's younger brother. Arron doubted, could he still see his daughter Lilly in this life?

Can you still see the only woman who has had a substantive marriage with him and has a marriage certificate?

He really wanted to punish her fiercely!

Even if it was a k!ss, he was so overbearing that she couldn't resist it at all.

Just when he k!ssed her and was about to suffocate, he waved her again and threw her into the bathtub with hot water.

A man's bathtub is very large, equivalent to a small bathhouse.

## Chapter 220

There is also a porcelain lounge chair in the bathtub, and people lie on it, enjoying the hot water close to the skin blowing on the body. That feeling is not inferior to the feeling of hot springs.

Suzi had never used such a luxurious bathtub when she was so old. The moment a man threw her into the water, she felt a sense of suffocation. She panicked and climbed up desperately.

The sprinkler in the bathtub happened to spray on her face, and Suzi couldn't open her eyes at all. She waved her hands wildly, shouting in horror: "Help, help."

She was originally a duck, and because she was elbowed by the man, her whole heart contracted, so she noticed that the water in the bathtub reached her thigh at best.

At this moment, the drops of water, sweat, and tears on Suzi's face mixed together, making her look very pitiful.

The man who stepped into the bathtub sneered coldly, and clasped her in his arms to stabilize her: "Look at what you are! It's not like putting you in the

ocean, just such a small bathtub, you are afraid In this way, are you afraid because you can't swim, or because you are afraid of me?"

As he said, his clear breath and his masculine aura came to Suzi.

Suzi's heartbeat speeded up.

She couldn't tell how much jokes there was in his words, and she just replied blankly: "I'm afraid...I'm afraid of you, I'm afraid...I'm afraid of falling into the water."

"What are you afraid of me?" the man asked in a low voice.

Suzi: "..."

What are you afraid of him?

Although she gave birth to a child with him, she has never been alone with a man since that night. Even though she has been living with Sanford for the past six years, they are very innocent.

She and Sanford are brothers and sisters.

Suzi has never been in contact with any man so close, is he still in the bathtub, can you not be afraid?

"Uh! I forgot. You actually never met me six years ago because you were in a dark room. No wonder you were so scared. But if you are scared, you can't escape today."

After she finished speaking, before Suzi could react, the man had grabbed her wrist and usually pulled her into his arms.

Suzi was even more panicked that he didn't know what to do next.

On the surface, he looked cold and cold like the Hell Hell, but when he waited for her to take a bath, he was so delicate and gentle. For a few seconds, Suzi was so drowsy and soaked in hot water. I felt that such Arron and the daytime Arron were not like a person at all.

The degree of relief of the water temperature caused Suzi to lose energy without too much time.

She leaned in Arron's arms.

The man is low and magnetic, ten good to hear the sound that can make the ear pregnant hover in her ears, blowing Suzi's auricle tickling: "Women, it is good for you to serve me, but now, how can it be changed? Become me serving you?"

You really have not changed!

You were so cunning six years ago, six years later, are you still so cunning?

Huh? "

"I...I'm not cunning. I can't fight you at all. I never fight you. Six years ago, I just wanted to marry you and find a safe home for my daughter. I just I don't want my daughter to be under the fence since I was a child. I never thought about fighting with you...uuu." Suzi cried hard.

She looked at him helplessly with a pair of teary eyes.

The man's heart was suddenly poked.

He leaned down and kissed her tears, and asked softly: "In the future, will you still run away?"
