

# The Protector Novel Levi Garrison Chapter 2165 – 2166

## Chapter 2165

Kangaroo country was stunned.

Many people saw the scene of the blood ancestors fleeing, and their eyes were about to fly out.

This this this...

Is it still a blood ancestor?

Where does this fierce man come from?

Beat the blood ancestor like this?

unimaginable!

Really absolutely!

The blood ancestor ran away from most of the Kangaroo country, and was eventually caught up by Levi and the others, beating him severely.

Blame the blood ancestor himself.

They obviously just passed by, and didn't plan to deal with you at all.

It just happens that you are crazy like catching up online!

Also suck the blood of others!

It was you who provoked you, who would you beat if you didn't beat them?

Twenty top powerhouses besieged the blood ancestors.

Twenty people had already had experience, and the blood ancestors were insufficiently attacked.

Then it can only be beaten.

Although the blood ancestor could not be beaten to death, he was frightened for a while.

Because he has nothing to do with these people.

Although his physique is against the sky, all kinds of strength can't penetrate.

But he hurts!

In the end, the blood ancestors fled like crazy.

Jump directly into the sea.

Never dare to appear in Kangaroo country anymore.

After he beat him away, Levi's popularity almost disappeared.

But they never expected that they would become the heroes of Kangaroo Country.

The representatives of Kangaroo Nation found Levi for the first time and thanked them for lifting the crisis in Kangaroo Nation.

"We must repay you well! You are our hero!"

Levi did not refuse the other party's kindness.

Claiming to be from Morendam, and let them know when needed.

It is equivalent to the kangaroo country owes Levi a favor.

As long as he opens his mouth, the Kangaroo Country will help without hesitation.

Kangaroo Country naturally happily agreed.

He also wanted to hold a celebration for Levi and the others, but he refused.

He was still anxious to see Sarah.

...

Levi and his party left, and the kangaroo nation cheered.

However, they closed the news temporarily.

And they kept releasing news that the blood ancestors were raging, they almost couldn't hold it...

For the time being, the Lab of the Gods cannot know the situation here...

After half a day, Mr. X came slowly with people.

But what puzzled him was that there was no one from Kangaroo Country to greet him.

How is this going?

It stands to reason that this moment is the time of the kangaroo's national crisis, and this group of people should be kneeling and begging to go by themselves.

There was not even a person to greet him.

It's weird!

What went wrong?

“Contact them quickly and let them come to see me!”

Mr. X was angry.

The clown emperor immediately contacted the Kangaroo country.

No one for five minutes.

No one for ten minutes.

Half an hour.

An hour passed before the Kangaroo country sent someone to come.

This makes Mr. X very angry.

When have they been so angry?

He suppressed his anger and asked in a cold voice: “What are you doing? I haven’t seen anyone for so long! Do you still want me to solve the problem???”

“We are dealing with something!”

Several people said.

“Handling things? Isn’t the problem your country facing right now the blood ancestors? What are you dealing with?”

Mr. X is close to a state of anger.

Several people looked at each other and said embarrassedly: “It’s nothing, just deal with some damages and casualties!”

“Is there something wrong with you? When are you doing these trivial things!”

“Blood ancestors are your number one major event! We will not be far away to help you solve the blood ancestors! What about you? You don’t even greet you, don’t know what to do!”

Mr. X roared: “Do you still want me to help you solve the blood ancestors???”

But the other side replied: “Oh, no, no need for you to solve it! Go back!”

Mr. X: “...”.

Clown King: “...”.

...

Everyone in the Lab of the Gods was stunned.

This...

## Chapter 2166

They are dumbfounded.

They came so far.

Let them go back?

This...

Everyone is vomiting blood!

“Are you sure you want us to go back?”

Mr. X asked.

He stared at everyone in Kangaroo Country.

“Yes, you go back! Just let you go back, didn’t you just hear it?”

The opposite said naturally.

I didn’t treat them as the same thing at all.

Mr. X is really angry.

“Okay, let’s go! Blood ancestors, solve it by yourself! My Gods Lab will never interfere again!”

Mr. X is determined to teach the Kangaroo country a lesson.

He is going straight away.

A few people in Kangaroo Country smiled and said: “Oh, blood ancestor, you don’t need to solve it! He has been solved by us!”

“what???”

Mr. X and they all turned around.

“The blood ancestor is resolved? How could it be possible? We haven’t taken any action yet?”

Everyone looked incredible.

“What does it have to do with you or not? You never think that only you can solve the blood ancestors in this world, right?”

The representatives of Kangaroo Nation looked at them with disdain.

At this time, the Kangaroo country has released the news that the blood ancestors have been resolved.

The clown emperor quickly determined this matter.

Before they came, someone helped Kangaroo Nation deal with the blood ancestors.

Now the blood ancestor was beaten away and disappeared.

The crisis in Kangaroo Country has been lifted!

“Who? Who helped you solve the blood ancestor?”

Mr. X is very curious.

Others are no exception.

“This is confidential! We don’t actually know who it is! But I can tell you that it belongs to Morendam!”

“boom!”

As soon as he heard Morendam, Mr. X’s eyes fired.

“Morendam! It’s Morendam again!!! Damn!!!”

Mr. X shouted angrily.

The crisis on Golden Harbor Island was resolved so quickly.

By the way, the crisis in the Kangaroo country has also been resolved, and his plan has been directly undermined.

He can’t get the doomsday seed bank in Kangaroo country!!!

Going crazy!

If he knew that everything was done by Levi, he would be even more angry.

“Please go back! As for our doomsday seed bank, no need to think about it! This blood ancestor incident is inseparable from you! We all know it!”

...

Mr. X touched the dust all his life and could only leave in a dingy manner.

As for the doomsday seed bank in Kangaroo Nation, they have to think of other ways...

On the other side, Tiance Mansion Colin already knew that the crisis in Kangaroo Nation had been resolved.

“Morendam people solved it? Who is it?”

Young Lord Tiance, they are guessing who made the shot...

At this time, a message came from an intelligence agent: “Everything was done by Levi! He relayed it to the Tiance Mansion, and let us take the initiative to take the credit!”

In a word, the people of Tiance Mansion were going to explode.

“He’s a ba5tard! When did my Tiance Mansion need him to give us the credit?”

“Levi is really getting too much! He didn’t put Tiance Mansion in his eyes at all!”

“How can we take this credit? Impossible!”

...

But at this time, the Marshal Tiance smiled: “Okay! We take the credit as Levi said! Send a message, saying that the blood ancestor crisis of the Kangaroo nation is solved by us!”

“Marshal, this...”

The others were anxious.

Marshal Tiance smiled and said: “I didn’t see it, is this Levi ridiculing us on purpose? Then let’s follow his meaning! I am really more and more interested in this Levi!”

“We’ll meet sooner or later! Levi, this Liangzi is considered to be settled!”

...

Soon Tiance Mansion released the news that it was they who resolved the crisis in the Kangaroo Country.

Many people are relieved.

Even Mr. X believed it.

Except for Tiance Mansion, no one else has this ability.

As for Levi, who has done all this, is now at the place where the Bible organization is located...

## The Protector Novel Levi Garrison Chapter 2167 – 2168

### Chapter 2167

Even Levi didn’t know where this was.

In short, it is the depths of Southern Continent.

A place where adventurers don’t want to come to death.

It seems that because of the magnetic field, all modern technology and equipment have failed.

And this place is filled with dense fog, and the depth of coverage is unprecedented.

Obviously, even satellite devices cannot detect this.

If someone took it with him, Levi would definitely not be able to come to this place.

This is definitely not found on the map.

This is the missing piece of the world.

Both Levi and Huoyun Cthulhu were admired by the magic of nature.

Levi also found that the dense fog was full of poisonous, no matter what physique, as long as he inhaled it, he would definitely die.

“It’s up to you now! Can you get through here!”

Underworld God they smiled.

Presumably being able to pass this fog is also one of the tests.

But this can be difficult for others, but not for Levi and Huoyun Cthulhu.

After all, the two had a good relationship with the evil god of poison.

Where did you get a little poison power from the evil god of poison.

Although the poison in this thick fog is overbearing, it is hard to reach them.

The group continued on the road.

After passing through the dense fog, his vision finally widened.

But it just opened up a little bit.

Because they are in a dense forest.

The dense forest is filled with black fog, and it is still a place that satellites cannot explore.

...

Finally out of the dense forest, the eyes really opened up.

This world seems to be dark.

Dim and dark, netherworldly.

There is a little faint light, but I don't know where the light comes from.

In the distance are rolling mountains, and you can vaguely see the castles.

Huo Yun Cthulhu was shocked by the scene before him.

Levi smiled: "Pretend to be a god! It's just a good place!"

What is the specific organization of the Bible, we still need to see people.

Eventually, Levi and the others were taken into the dark castle.

"From now on, you are a member of the Bible Organization! By the way, you too..."

Although the Underworld God is extremely reluctant to recognize the Huoyun Evil God.

But when he followed Levi, he could only get him to join the Bible organization.

“Wait a minute, the Dark God will come soon!”

Underworld gods.

Levi sneered in his heart.

Ha ha.

Dark God?

Bluffing?

He most wants to know where plum dye is now?

As long as he saw Sarah, he would immediately take her away.

Ghosts will join the Bible organization!

“Levi, you are finally here!!!”

At this time, a majestic voice sounded.

You can't find the source of the sound at all.

This voice seems to be everywhere...

“And you, Fire Cloud Evil God, I wanted to find you to join the Bible Organization!  
But you are so mysterious that I didn't even find it!”

The voice of the dark god sounded again.

I have to say that Huoyun Cthulhu still has a few brushes.

The hiding technique is indeed in place.

“You are the God of Darkness?”

Levi asked.

“That’s right! It’s me! Now you finally want to join! Even if I know you don’t sincerely want to join, I even want to know what you are going to do...”

Dark God laughed.

Regarding this, Levi was not shocked.

It is easy for the other party to think of his purpose.

It was dyed from plums.

“Yes, I never thought about joining your shit organization! My purpose is very simple, take my wife back!”

Levi spit out everything in his heart in one breath.

This made the Underworld God extremely shocked.

“Levi is here for you... didn’t you want to join? Then why did you promise us?”

The eighteen dark angels are almost dumbfounded.

“If I don’t agree to join, will you bring me here? Can I find it here?”

Levi said this.

“boom!!!”

Everyone understands.

Used by Levi!

“Hand over my wife! Don’t force me to razed this place to the ground by myself!”

Levi roared.

## Chapter 2168

Hearing Levi like this, everyone laughed instead.

It seemed that what Levi did was a stupid thing.

“Levi, you too can overestimate yourself, right?”

“I really think you can take people away here?”

“You really don’t know how deep the water of the Bible Organization is, you can’t grasp it!”

...

The eighteen dark angels all smiled.

Not angry at all about Levi’s use of them.

Because in their opinion, Levi couldn’t take Sarah with him.

“I understand what you mean. When you get here, you will know where plum dye is! But have you ever thought that when you get here, you will never get out, I will keep you here all the time!”

“You think you are in control, but you don’t know that you have fallen into my trap! I deliberately let them bring you here!”

Dark God said with a smile.

“boom!!!”

Levi’s face changed abruptly.

“I can’t control you outside! But when you get here, you can’t escape!”

Dark God laughed.

“Rumble...”

Suddenly, there was a movement of shaking mountains, and a black door rumbling down.

Everything here is closed.

What Levi and Huoyun Cthulhu didn’t know was that another metal wall rose outside the castle, enclosing the entire castle!

“Retreat!”

The dark god gave an order, and the eighteen dark angels quickly retreated.

I don’t know where I went.

In the dark castle of Nuo Da, there are only Levi and Huoyun Cthulhu.

As for the dark god, I don’t know where.

Judging from the previous voices, the dark god seems to be everywhere.

On the mountains in the distance, it seemed to be beside Levi.

...

“Levi starts from this moment, you will be trapped here forever! Until you sincerely want to join the Bible organization!”

The Dark God left a word and disappeared.

There was no more movement.

“We seem to be fooled! This old guy just wants to trap us!”

Huo Yun Cthulhu said in surprise.

Levi looked icy: “Look for an exit first!”

Levi and Huoyun Cthulhu began to look for an exit.

The entire castle is the size of four football fields. Levi and the two searched it, and they were surprised to find it.

The whole place is more like a big square cage!

There is no exit at all.

There are smooth and flat metal walls everywhere!

The previous doors are gone!

This is an agency!!!

But there is no trace of any mechanism inside!

Levi and Huoyun Cthulhu realized that this was a mechanism, and they hurriedly searched for it.

“Levi is not struggling! This place has no organs! Neither inside nor outside can be opened! The only way is to break the wall!

“As long as you agree to join the Bible organization, I will break it myself!”

The voice of the Dark God came again.

“I know you will struggle for a while! Enjoy!”

The Dark God completely disappeared this time.

...

Soon Levi and Huoyun Cthulhu gave up.

This is a metal fortress.

There are no traces of gaps!

“For today’s plan, I can only use my fist to get out of this ghost place and go out!”

Levi wanted to see Sarah’s eagerness, so he raised his fist and slammed out.

“boom!!!”

With this punch, the entire castle was in a sensation, and the entire mountain range was shaking.

There was a wave of air in the air!

But the wall in front of Levi didn’t move.

“boom!”

The Fire Cloud Cthulhu also concentrated his strength to bombard.

The walls are motionless.

Levi was like crazy.

“Boom boom boom...”

A fist hit the wall, but the surrounding mountains were destroyed.

The walls are still fine.

Only a few shallow fist marks are left!

The same goes for the Fire Cloud Cthulhu, no matter how you hit it, the wall will not move.

“The Art of Taboo!!!”

Levi even used the taboo technique of fingering.

To pierce the wall with one finger!

## The Protector Novel Levi Garrison Chapter 2169 – 2170

### Chapter 2169

This is a fingering that concentrates all power on one burst!

Levi is going to break the wall!

“laugh!”

This finger is terrifying!

But it’s still useless!

It just leaves a slightly deeper mark on the wall.

But this metal wall is a metre thick!

This little bit is ignored.

What’s more frightening is that there is a thicker metal shell on the outer layer of the metal wall.

It's not worth mentioning.

The most important thing is that Levi punched the inner wall, and the power was transmitted to the outer wall and dissipated.

The inner and outer walls are designed to eliminate power.

It was equivalent to Levi's punch, the inner and outer walls did not receive any force at all, but were eliminated by the designed device.

Only a little mark can be left on the inner wall.

Levi and Huoyun Cthulhu were anxious.

Hit it with a punch.

I don't know how many punches I smashed.

Both of them are tired.

But the wall still doesn't move!

The fist marks are also shallow.

Basically it can be ignored!

Both stopped.

"What kind of metal is this wall? My power won't deform after eating it?"

Levi was surprised.

The most frightening thing is that he can't use the taboo technique.

This mountain that lies in front of you can't use any means!

This made Levi very disappointed and surprised.

Taboo techniques are not easy to use?

This this this...

In his concept, the use of real taboos is invincible.

But now the taboo technique is not easy to use!

This is desperate!

The taboo technique he had always relied on didn't work anymore, which made Levi's heart complicated.

Huoyun Cthulhu also shook his head: "I don't know! It may be a special metal! This is too hard! We tried all kinds of ways to hurt nothing!"

Huoyun Cthulhu touched the shallow fistprints: "At this speed, we are beating day and night, it is estimated that it will take ten years! But then we will all be exhausted!"

"A direct attack won't work, we have to find a way!"

Levi sat on the ground and sneered: "It's useless to think of a way! This is not a mechanism! The God of Darkness has long thought of it!"

"The only way is to have enough power to destroy everything!"

"At present, our strength is not enough! We need to practice!"

He needs to improve now, to the ultimate state.

Blast this place with the strongest force!

...

Levi was impatient to save Sarah and immediately began to retreat.

Fire Cloud Cthulhu can only protect Levi.

He actually wants to find those ancient races to help.

But who can find it here?

The news can't get out either.

...

Outside, the Dark God and the Eighteen Dark Angels were looking at Levi.

"Then let Levi practice in retreat?"

Underworld God asked.

"Don't worry, he is just holding Buddha's feet temporarily! He is worried about Sarah, and soon he will not be able to hold it! Wait! Sooner or later he will surrender to me!"

The dark god smiled.

...

Disappeared.

Levi just disappeared.

No one knows where he went.

The last clue was in Kangaroo Country.

Only a few people in Tiance Mansion knew about it.

Of course everyone else thought that Levi was dying.

Golden Harbor Island did not die, but died in Star Country.

The marshal Tiance sent someone to find it, but there was no information.

The gambling kings also sent many people to look for it, but they could not find it.

Even those ancient races who had seen Levi were looking for him.

Can not be found.

Disappeared!

Levi has completely disappeared!

Three months.

Half a year.

A full year has passed.

There was still no news from Levi, and he never appeared again.

Levi did not come out again and again to grab the credit of Tiance Mansion.

During the year, Morendam encountered many threats and incidents.

But it was all resolved by Tiance Mansion.

Never saw Levi appear again...

“Disappeared! The big living person has disappeared...”

Chapter 2170

This makes everyone incredible.

It would be nice to say if Levi was dead, but they knew they were not dead.

This guy disappeared for a whole year.

This unscientific!

According to Levi's previous acting style, even if he disappeared, he would silently guard Da Xia.

Always protect Morendam, eliminate foreign enemies again and again, against the laboratory of the gods.

But not this year!

Wesley and the others did not receive any signal from Levi.

Disappeared!

Levi has completely disappeared!

Colin prayed that Levi was still alive.

They all want to know what Levi did?

Why did it disappear?

No one knows now.

Jun Jun and Ollie may know.

But how many ancestors are there, who dares to ask?

Finally, the marshal Tiance visited the female ancestor in person.

For his face, the female ancestor asked Junjun and Ollie to see him.

But the two didn't know what he was doing.

It's just to reunite the whole family.

Marshal Tiance didn't take it seriously, only when Levi was about to die.

...

For Tiance Mansion, it is the same whether there is Levi or not.

Look, this hasn't been in Levi's year.

They can solve anything by themselves.

There is no need for Levi.

But in the year when Levi disappeared.

The world has changed too much.

Warriors, superpowers, and Lords of spells are not uncommon.

And more and more, many ordinary people have also stepped into this ranks.

Almost everyone has to know something in order to adapt to this era.

The strong come out!

Various powerhouses have risen together, and various modern science and technology laboratories have also emerged.

The signs of the ancient races are becoming more and more obvious.

The emergence of ancient races is no surprise.

The four blood ancestors summoned by the laboratories of the gods unexpectedly merged, and they unified the blood races scattered in various places.

A powerful ancient race appeared.

It is said that the enemies of the blood race have also emerged.

As for the laboratory of the gods, it is getting stronger and stronger.

And the emperor's organization gradually showed its domineering posture.

Morendam's God of War Industry has developed rapidly in accordance with the times. When these discoveries are made by the Gods Laboratory, God of War Industry has grown into a super hegemon!

All aspects have been developed to the top level!

In particular, God of War Industry combines Morendam ancient martial arts with modern technology and gene technology to create a unique powerhouse.

It can even combine modern technology with Morendam's spells.

The effect is remarkable!

There are also modern technological mechas and ancient organ techniques that can also be combined...

These are the results that even the Lab of the Gods envy.

The laboratories of the gods, large and small, have acted more than twenty times, and want to get this technology in hand.

But it was either blocked by God of War Industry or Tiance Mansion.

Originally, these were all made by Levi.

But Levi hadn't appeared before, so they were very puzzled.

This is unscientific!

How could Levi not appear.

How did he disappear!

...

But all parties in the world are changing too fast.

Corresponding to the God of War industry in Morendam, Maya industry appeared in the West.

Stronger than ever!!!

But Maya Industry did not appear suddenly.

It has been prepared for a long time.

It is said that the preparation of Maya Industry is the successor of the super financial family.

This kind of hidden tycoons disdain to participate in various lists.

Instead, they have more money, control more forces, and more resources...

...

The various forces fought indiscriminately in order to grab resources.

Resources similar to the Sun Stone are now being snatched wildly.

It is no longer enjoyed by the family of the Gods Laboratory.

In short, the whole world is getting stronger.

Instead, the war has continued...

Almost every day.

The weaker ones can only be swallowed.

Some time ago, maybe everyone was forbearing, but a year later, they all let go...

The war was fought, and the heroes came together...

One by one, famous people all appeared...
