## Chapter 2177

Sarah's murderous intent was violent, and Wen Lei and Regina were both scared as soon as they were displayed.

Is this the coercion from the eighth of the god list?

It's not a level at all!

“You protect the potion and go first, I'll stop her!”

Wen Lei commanded.

Regina and the others could only leave first with the medicine.

“Want to run?”

Sarah rushed to catch up, Wen Lei stood in front of her.

During the days in Kunlun Industry, Wen Lei used ancient martial arts and modern technology to develop her potential to a limit.

This is also an important reason why she was able to rank among the gods.

But against plum dyeing, it's not at the same level at all.

Soon Wen Lei was seriously injured and was beaten out.

Didn't stop many meetings!

Sarah also caught up with Regina and them instantly.

“Hand over things and spare you not to die!”

Sarah stretched out his hand.

Regina looked terrified.

But at this moment, a horrible breath came.

The powerhouse of Tiance Mansion is here.

The marshal Tiance personally led the team.

“We’ve been eyeing you long ago, Empress!”

Marshal Tiance sneered.

“The Marshal Empress Qiqi is actually Levi’s wife, Sarah!”

Someone tells the identity of Sarah.

“Okay! Levi really has you! Haven’t you been fighting for Da Family all your life? Aren’t you taking credit for everything? Look at your wife! Become a murderer!”

Marshal Tiance laughed.

Hearing that, Sarah’s murderous intention is overwhelming.

That posture can’t wait to fight the marshal of Tiance desperately.

But at this time, the voice of the dark god came from her ear, making her retreat.

Sarah obeyed the order of the dark god and immediately retreated.

Tiance Marshal and other strong men pursued for a long time, but let Sarah run away.

“Pass on my order! From now on, Sarah will be Velador’s enemy! He is the first most wanted enemy on the most wanted list! If you see her, I will kill you!”

Marshal Tiance ordered.

From now on, Sarah will be the enemy of Velador.

Everyone will kill when they see it.

“Levi, Levi, you can control the affairs of the world, but you can’t control the house affairs! It’s so funny to me! If you have the ability, you can come out and solve Sarah!”

Marshal Tiance smiled.

In Tiance Mansion, Aubrey is already an older child.

Whether it is appearance or strength, they are all top-notch.

Several ancestors were very satisfied with Aubrey.

“If this goes on, you will be able to go out alone in another year!”

Several ancestors smiled.

“But I’m a little bit reluctant to go out! What a nice boy! How dangerous is outside!”

The domineering female ancestor loved Aubrey too much.

“No! Junjun still has to go to experience, go to trespass! Can’t be the flowers in the greenhouse!”

“But before that we need to teach her all the lessons to make sure she can solve the danger in the future...”

Several old ancestors looked at Aubrey with reluctance in their eyes.

Their lives have been boring for hundreds of years.

But after Aubrey came, everyone's life became brighter.

The smile on everyone's face never broke.

...

Time continues to pass.

The world is changing more and more.

More and more ancient relics were discovered, and more and more ancient tribes emerged.

More and more wars are going on.

All parties are developing faster and stronger.

Compared with the past, it is still improving rapidly.

...

Three years, three years have passed.

It really has undergone earth-shaking changes!

These three years have really changed an era abruptly.

completely different!

This year has changed more severely!

If you have been isolated from the world for the past three years, you will be frightened if you suddenly come out.

What surprised the God of Darkness was that Levi had been in retreat this time for two years, and he refused to wake up.

he.....

What is he doing? ? ?

Is this man crazy?

Three years have passed in a flash.

He has been trapped for three years!

## Chapter 2178

The dark god couldn't figure out what he was doing?

But he can afford it!

Can Levi afford it?

He can't afford it!

"Levi, don't you surrender to me? Do you still want to be trapped?"

The voice of the dark god echoed in the cage.

The Huoyun evil god woke up.

But Levi still did not wake up.

He was immersed in his own world.

The Dark God couldn't help being surprised, and even the Huoyun Cthulhu himself was surprised.

What's wrong with Levi?

What is he going to do?

"Levi, you can slowly retreat! According to your strength, you will not be able to open this place for the rest of your life!"

The dark god smiled.

He was already disappointed with Levi.

Now Sarah meets his conditions.

He has been honed by the great demon of adults who are frightened by the wind.

He has no expectations for Levi.

He left Levi to fend for himself.

Starting today, the Bible organization will move away from here.

Go to another place.

Because in these years, a series of plans of the Dark God have succeeded.

No need to hide in this place anymore.

Everything here has been abandoned.

Including Levi's cage was also thrown here forever.

Levi will be locked here for a lifetime and will never be able to get out.

No one knows how strong this thing is better than the Dark God.

He also knew Levi's hole cards very well.

Even though Levi had an unusual talent, he couldn't face this stuff at all.

I really want to be trapped here for a lifetime.

The Bible organization moved, and the Dark God completely abandoned Levi.

Before leaving, Sarah was still curiously asking the dark god.

Don't worry about the locked up enemy?

"It's okay, he won't be able to get out in this life!"

The dark god smiled.

...

The world is changing dramatically.

Earth-shaking changes have also taken place in the Star Country and East Island near Velador.

Take Xingguo Orion Group as an example, they have planned for the future very early.

In the past three years, they have gained a lot.

Now it truly ranks among the top organizations in the world.

However, in the three years since Levi disappeared, Li Chengmin suffered a lot.

At the time of the Star Kingdom War, Li Chengmin's private hiding of Levi was completely exposed.

There is no need for the laboratories of the gods, and the Orion Group itself must severely punish Li Chengmin.

The senior executives of Orion Group severely accused Li Chengmin face to face: "Even if we are not friends with the Gods Laboratory, we and Velador are enemies! You are helping Velador by helping Levi! You are a traitor of Orion Group! You are a traitor to the star country!"

These words are still deeply engraved in Li Chengmin's mind.

She concealed Levi, which violated the taboo of Orion Group.

But she has a special status and cannot be killed directly.

Therefore, the Li consortium decided to expel Li Chengmin from the Logan status and expelled her from the Logan.

And abolish Li Chengmin's superpowers!

Finally, he was imprisoned in a small black room for ten years as punishment.

In the past three years, Li Chengmin was kept in the dark underground, suffering from loneliness and darkness.

In the Logan, people often ask Li Chengmin whether he regrets it, and let her out as long as she realizes the mistake.

But Li Chengmin never regretted it.

She would do it again if she did it again.

She will always cover Levi.

For no other reason, Li Chengmin has long fallen in love with Levi.

After getting along for a while, Li Chengmin hopefully fell in love with Levi.

Knowing that Levi was dead, she was already dead, and she didn't care how she was punished.

Especially after this matter was known to the senior management, he was even more angry.

Put her in custody and repent.

He used torture every day to punish her, make her confess, and make her confess her mistakes.

Li Chengmin is used to it.

But her body is weak and she can't hold on anymore...

Not many days to live...

## The Protector Novel Levi Garrison Chapter 2179 – 2180

### Chapter 2179

At this time, Li Chengmin's father Li Dong and others came to the place where Li Chengmin was detained.

This is an underground prison.

Li Dongzhong also has no right to open it, and can only communicate directly with Li Chengmin.

“Daughter! Father has a chance for you!”

Li Dongzhong shouted.

“Now as long as you agree, you will be released, and you will be relieved of all guilt! You will be restored to your Logan’s identity!”

But Li Chengmin took a look and didn’t have any interest.

“Now our Orion Group is cooperating with Maya Industry! As long as you marry Maya Industry! You can be released! This is your only chance! It’s the opportunity I grabbed!”

Li Chengmin shook his head: “Father, give up! I won’t marry! I’ll wait to die!”

“What? Are you still thinking about Levi?”

Li Dongzhong couldn’t help asking what he realized.

“Yes, that’s right! I just like Levi!”

Li Chengmin replied.

“You shameless! Levi is our enemy of Orion! He has a wife, how can you like him?”

...

As soon as Li Chengmin said this, everyone immediately drew insults.

“You are still thinking about him! He is dead!”

Li Dongzhong hated iron and yelled.

“Then I won’t marry forever and die with him!”

Like Li Chengmin, Li Dongzhong had no choice but to give up.

“Let her die! Also used to warn everyone in Orion Group!”

...

However, Orion Group and Maya Industrial Co., Ltd. are no longer cooperating with Gods Laboratory.

Maya Industry has become the big backer of Orion Group.

And in these three years.

On the contrary, the Lab of the Gods is very low-key. Except for Lucifer's activities in the first year, after winning the title of the Four Great Gods, in the past three years, the Lab of the Gods has become more and more low-key...

In the past three years, all parties have been developing rapidly. The original major forces have become stronger and stronger, and more forces have emerged, such as Maya Industry.

However, the news of the Gods Laboratory is getting less and less, and the activities are getting less and less, and even the mining of resources such as Sun Stone is not involved.

After three years, the Lab of the Gods completely faded out of the eyes of the world.

So many people do not know or forget the existence of the laboratory of the gods.

Many people are wondering what the Gods Lab is doing?

How could it suddenly disappear?

So that there is no news at all.

The Lab of the Gods simply disappeared.

unusual!

The forces that should have emerged in this era are now hidden from the world...

What are they doing?

Tiance Mansion has investigated the Lab of the Gods more than once, but nothing has been found. The Lab of the Gods has really disappeared.

Other major forces are also investigating the Gods Lab, but there is no result.

This reputedly strongest force in the world has disappeared in this terrifying force...

Not in line with common sense!

But after this era came, more forces emerged.

No one pays attention to the Lab of the Gods anymore.

It can even be said that those doglegs in the Lab of the Gods have also lost contact with the Lab of the Gods.

They can't contact the laboratory of the gods, let alone know where the laboratory of the gods is...

This is also the reason why Orion Group has invested in Maya Industry.

Otherwise, once they betrayed, the Lab of the Gods would destroy them all.

It can be said that the Lab of the Gods has been replaced.

What Maya industry, imperial organizations, Kunlun industry, etc. replaced the status of the previous laboratories of the gods.

The Lab of the Gods and their biggest opponent Levi disappeared together.

The two sides accounted for more than half of the major news that shocked the world three years ago.

But no one mentions them now!

They were completely forgotten!

The times are changing too fast.

What's more, the past three years have been transformed...

Someone once said that even if Levi is alive, he will not adapt to this era...

## Chapter 2180

Because there are too many strong people now, Levi's strength back then is not worth mentioning now.

For example, there are now accurate calculations of combat effectiveness.

If Levi, the top powerhouse, had a combat power of 10,000, it is estimated that it could only be 5,000 in this modern era...

To put it bluntly, Levi's strength in this era can only be considered medium.

Not even the top, let alone the top.

So some people say that Levi will not die, even if there is no news.

With his provocative and trouble-loving character, he could not survive for three days in this era, and he would have killed all the new powerhouses.

So Levi's life is useless.

He is no longer the focus of this era, no one around him anymore, he no longer becomes the savior again and again!

In short, in this era, whether Levi was alive or dead, he had no sense of existence at all.

Tiance Mansion deeply agrees with this point.

Levi can't do it!

Can't get a foothold in this era!

But the Baolong clan of Tiance Mansion is different!

No matter how the times change, no matter how many strong outsiders, Tiance Mansion can still protect Velador.

The strong of Tiance Mansion is like a cloud, and the young commander of Tiance suppresses one party.

But Levi can't...

Not only that.

Many people say that the Lab of the Gods is also a thing of the past...

If it hadn't disappeared quickly, it would have been annihilated by the mighty forces of Maya Industry.

To put it bluntly, the Lab of the Gods does not disappear, it can only be used as cannon fodder in this era...

But I have to say that people in this era are too strong...

There are too many strong people.

Three years ago, the top powerhouse really couldn't adapt to this era...

It's not a level at all.

All parties have developed too fast in three years.

For example, the average strength of the strong in the first year is ten times stronger.

It may be thirty times the next year!

One hundred times in the third year!

Especially this period from the second to the third year is the most terrifying year.

The first two years may not have been a qualitative leap.

This year is a qualitative leap!

This range is simply terrifying to the extreme!

Two worlds are exactly the same as three years ago!

So the strong like Levi back then couldn't do it at all, he could only be medium.

It is even more difficult to enter the god list.

In other words, Levi was alive, or he would not be able to defeat Wesley Qilin and the others!

Because they have simulated the battle of Levi.

Qilin Owen and the others can easily do what Levi did.

So they are better than Levi!

Even they think so.

But what excites Qilin and them is that they can represent Levi and inherit his will!

Come continue to protect Velador!

Levi is always the boss in their minds!

But the times have changed, and they have progressed too fast, faster than they have been in the Rockets.

They are too strong now!

So while they respect Levi as the boss, they also know the fact that they are better than Levi.

“Boss, don’t worry! Velador has us! We can hold on! Boss, we are stronger than you! This era is ours! Boss, you can rest!”

This is a saying that Qilin and they often say.

There are a lot of people in this era who are stronger than Levi back then...

indeed so.

According to Levi’s strength back then, there were indeed too many people who were better than him.

He was eliminated by the times.

Even Qilin and the others have admitted this, which shows the horror of this era.

There are even many enemies who used to be Levi. After getting an adventure and becoming stronger in this era, they want Levi to live, fight with him again, and completely defeat him.

...

Once the lair of the Bible organization.

In a dark cage.

Huoyun Cthulhu's retreat is over.

He followed Levi to retreat for three years, and he was much stronger than before.

But still can't help the wall in front of him.

"How long do you want to retreat, sir?"

The Fire Cloud Cthulhu looked at Levi.

## The Protector Novel Levi Garrison Chapter 2181 – 2182

### Chapter 2181

It's been three years!

Three full years.

No one understands this kind of pain better than Huoyun Cthulhu...

This dark cage is really a test.

Your state of mind, your strength, are the ultimate torture.

Even an old guy like Huoyun Cthulhu couldn't hold it anymore.

This kind of hopeless thing really makes people crazy.

For a long time, the Evil God Huoyun retreated for three months and then woke up.

He has never harassed Levi once.

But now he couldn't help it.

Can't stand this torture anymore.

He tried his best!

Now he just wanted to wake up Levi to see if he could do anything.

He wants to go out!

But Levi was in retreat, immersed in his own world, ignoring Huoyun Cthulhu at all.

“Sir? Mister, do you still have to retreat? How long will you have?”

“Are you going to retreat for several years again?”

...

Levi still did not respond.

After hitting that punch in the first year, Levi has been in retreat for the past two years.

There is no action.

Scared!

Huoyun Cthulhu is really scared!

Because after Levi's retreat, his breath was getting weaker and weaker.

Now Levi's body can be said to be completely devoid of breath!

This made Huoyun Cthulhu very scared...

Other people's retreat breath is getting stronger and stronger, but Levi is getting weaker and weaker, and it's gone now.

The Huoyun Cthulhu itself is an expert!

Of course he could find that Levi didn't deliberately conceal his breath, he just lost his breath.

Just like Taoist Nirvana, Buddha's passing away...

If Levi's breath gets stronger and stronger, Huo Yun Cthulhu still holds a glimmer of hope.

But what happened to Levi now?

Is there any hope if this continues?

Huoyun Cthulhu was very anxious.

In the next few days he was venting frantically...

Use all kinds of tricks to bombard the wall in front of you...

He wants to commit suicide now...

But even bombarding a wall is better than being tortured.

But no matter how the Huoyun Cthulhu tossed, Levi still did not wake up in retreat.

There was no breath at all, just like a dead man.

This made Huo Yun Cthulhu simply assume that Levi no longer exists.

Do your own thing.

...

When the dark god in the new place sensed everything that happened in the dark cage, he couldn't help but sneer: "It's just a dying struggle! No matter how long the retreat is, there will be no result!"

The evil god next to him asked: "God of darkness, how do you open this dark cage? Didn't you say that there is no mechanism? Do you rely on pure strength to open it?"

But the dark god smiled and said: "No! You don't know where this dark cage comes from! I can't open it by pure strength alone!"

"Then if Levi surrendered to you, how would you open it?"

"Yes, won't it be impossible to open it forever?"

Others said one after another.

"No! I can open it with the help of an artifact!"

"I once got a magic sword from Velador! With this magic sword I can split the dark cage! I used this magic sword to kill a founder of the Gods Lab! So the Gods Lab is right I am still afraid!"

"But to be honest, it's the first time I have used the dark cage! Unfortunately, Ye Jun is not what I expected after all! The dark cage is wasted!"

Dark God said.

The evil gods smiled and said, "That means that no one can open the dark cage except this knife, and even someone like Levi who relies solely on his fists?"

The Dark God meditated: "That's right, but it's not all right! As far as I know, Velador also has a magic sword that is comparable to the magic sword in my hand! Having this sword matches my level of strength. You can open the dark cage!"

"That's still the same, Levi doesn't have this divine sword, let alone your strength! He will never come out forever!"

Underworld God smiled.

"I am not interested in Levi now, but Velador's divine sword is said to be coming out..."

The dark god looks yearning.

## Chapter 2182

"Then shall we participate in the competition?"

Underworld God asked.

The Dark God immediately said: "Of course! I searched for this divine sword for a long time, but now it finally appeared. How can I be indisputable?"

"When the time comes, you will all go! Sarah will go too! I will do it when necessary!"

Dark God said.

The eighteen dark angels were stunned.

Since they knew the Dark God, he had never made a move.

This time it's going to be shot?

Doesn't this mean that the Excalibur is very important?

Its value is so great that even the Dark God has been coveted for a long time...

That's right.

In this era, weapons are equally important, even more important than before.

Not limited to modern weapons, there are many ancient artifacts that have been unearthed one by one.

The battle armors and various machines manufactured by major technological forces are indestructible and will not get through at all.

But some people get ancient artifacts, such as Velador's swords and swords, Western spears, etc., which are enough to smash these indestructible armors.

With an ancient weapon, your strength will double.

So whenever the artifact comes out, it attracts frenzied snatches from all parties.

Rumor has it that the sun never sets, the empire's most powerful organization-Excalibur Bureau.

Its treasure is a sword inserted in the stone, called the sword in the stone.

The legend is a divine sword with the power to destroy the world.

But even if someone covets it, he dare not snatch it.

Who would be so stupid as to be an enemy of the most powerful organization of a powerful country?

However, in the past three years, various relics have been unearthed, and pieces of ancient weapons have appeared.

Many people have soared with the strength of ancient weapons and become extremely strong.

Of course, there are some terrifying ancient weapons, which are useless if the ordinary strong get them, and they can't control them at all.

Because the ancient weapon itself is stronger than you!

You need to be stronger or match it, and be recognized by it to control it!

Such ancient weapons attract the existence of great forces and great horrors...

In particular, there are many such ancient weapons in Velador.

Velador's rich resources are not a boast!

The divine sword that will appear in Velador in the mouth of the dark god will cause the biggest sensation (about ancient weapons).

Great Family Kunlun Industry.

today.

The marshal Tiance came to call all the high-level officials together.

"This is the first time I have convened a meeting since I took charge of Kunlun Industry for two years!"

Marshal Tiance smiled.

Many of the Kunlun industrial high-level people have already surrendered to Tiance Mansion, and they should be convinced.

This person is too terrifying in terms of strength and skill.

Bring Kunlun Industry to its current height...

They serve!

However, Qilin, Commoner Killing God, they always believed that the Kunlun industry belonged to Levi.

They all developed to the present according to Levi's layout.

And the Marshal Tiance didn't do anything...

The development of Kunlun Industry until now has nothing to do with him...

They can easily solve the things he can do.

But the marshal Tiance still provided some help.

Qilin's becoming stronger still has something to do with Tiance Marshal...

"I am so happy to see you become so strong!"

Marshal Tiance smiled.

Hearing that, everyone smiled, and everyone was excited to become stronger.

"Especially Qilin, Owen, you guys! It surprised me even more! They are all on the list!"

Young Master Tiance smiled: "This is the benefit of following me! If Ye Jun is here, can you follow him, can you grow so fast?"

Qilin heard the marshal Tiance say that Levi, and just about to repay, the voice of Marshal Tiance came again: "You guys tell me if you are better than Levi back then?"

Qilin and the others were silent and nodded one after another.

This is the truth.

They are indeed better than Levi!

This cannot be refuted at all.
