Chapter 2243

The blade was completely submerged in Levi's chest!

Splashing blood!

shocking!

Everyone has a numb scalp.

“Puff!”

When Levi pulled out the knife, the blade had completely changed from black to faint green.

Obviously, the special element of this weapon had been left in Levi's body, and it had reacted with the blood.

“Hahaha.....”

Many people smiled cruelly when they saw this.

In this way, Levi's solution was announced.

Once this vicious weapon of Maya Industry pierces the body, if the special element acts, it will undoubtedly die.

Watching the body corroded day by day, but there was nothing to do.

You can only die in pain.

Qilin and they were unwilling to watch it anymore.

They deeply understand what this knife penetration means...

All of them were full of chagrin and blamed themselves.

They are getting stronger!

But what's the use?

The boss who they say they want to protect is suffering from such extreme pain,

“Keep going!”

...

Everyone urged.

“Puff!”

Levi picked up the knife and dropped it, and the second knife pierced his chest, splashing blood.

Everyone found that the color of the weapon was darker.

It shows that more special elements have invaded Levi's body.

pain!

At this moment, Sarah felt heartache, a feeling he hadn't had in three years.

She seemed to have recovered from the hatred.

“Boss!”

“Master!”

“Cthulhu!”

...

Qilin and they both yelled distressedly.

But Levi wouldn't let them take care of it!

At this time they also understood Levi's intentions, he wanted to bear everything for his wife.

Huoyun Cthulhu understands everything better.

It's not that Levi can't solve it, but he is responsible!

...

“Puff!”

The third cut!

“Puff!”

Fourth knife!

...

Sixty knives have been inserted!

Levi's wounds were already covered with blood, and he became a blood man.

Hundreds of thousands of people present witnessed the whole process.

Everyone!

They all felt the extreme pain and torment, and they all imagined the feeling of so many stabbings on their body in a row.

Can't bear it!

Maybe it hurts alive!

Not to mention that this knife is still a special weapon of Maya Industry, which is more painful and terrifying.

Everyone is thinking about the fact-if it is not possible to remove the pain nerve, few people can hold it!

But Levi's complexion was unwavering, and he didn't even blink his brows.

As if it wasn't him who stabbed!

"Man!"

"It's a guy!"

"Although he is medium in strength! Few people can compare in this respect!"

...

Levi also conquered many people.

"continue!"

There are wounds all over, and there is no place to puncture, what should I do?

“Puff!”

I saw Levi stabbed in the other wounds.

“I.....”

Levi gritted his teeth, but he didn't make a sound.

But other people looked uncomfortable and felt like they were tingling all over.

Isn't it too cruel?

A stab at the wound!

Can't stand it.

Even Ye Wudao Zhiliu gasped.

Obviously they couldn't make Levi hate so much.

But I feel refreshed!

They were really comfortable seeing Levi being tortured like this!

Seeing the former king suffer so much pain, no one is excited.

Levi continued to pierce the knife into the body again and again.

...

Seventy dollars!

...

One hundred dollars!

Levi stabbed a hundred knives!

“Da da da.....”

After stabbing a hundred knives, Levi was already a little unsteady.

After all, this is a real one hundred stabbings on the body.

Someone hurriedly went to Fu Levi.

Levi waved his hand, and he stood firm again.

Spit out a mouthful of congestion, and looked at everyone with a smile.

The smile seemed to be mocking.

It seems to be saying that another thousand dollars will be fine!

“I’ll go, this guy’s life is too hard, right?”

Everyone was shocked.

“But Levi is holding on!”

## Chapter 2244

“After everyone is gone, I bet that Levi will immediately fall down and roll and cry for pain!”

Someone immediately agreed: “Yes, I also think that Levi is holding on! The former kings are more worthy of face than anyone else?”

“Yes, hundreds of thousands of people watch, he won’t cry out in pain! Let alone fall down! He wants to pretend to be shown to us!”

“I am looking forward to Levi’s miserable appearance in private! And the special element of this knife has already invaded his body, Levi will surely be gradually corroded until his death!”

...

Everyone laughed at the thought of Levi’s miserable look next.

At this time, Levi glanced at the audience: “I, Levi, have already stabbed himself a hundred times! Should you let my wife go as agreed?”

If someone says no word.

Levi will really get angry.

Charged up and slapped to death.

“This.....”

Although some people want to say something wrong, it’s not easy to say it in front of so many people.

“Now that you have done it! We have also fulfilled our promise! Let go of your wife!”

Marshal Tiance took the initiative to speak.

“Okay, we agree! This account has been written off!”

...

Everyone agreed.

“Wait! Let me say a few words!”

Ye Wudao stood up at this time.

“Levi now we are talking about the hatred between Sarah and Da Family, and the hatred with the whole world is resolved! You know what I mean?”

Ye Wudao asked.

“Yes, I know!”

Levi nodded.

Already knew what he was going to say.

“Listen to me, this is Sarah’s hatred with the whole world! We let him go! Don’t kill her today!

But the personal enmity between one of us and Sarah is still counted! If you want revenge, you still have to report! You can’t stop Tiance Mansion either! “

Ye Wudao said.

His meaning is very simple.

It is the public who kills plums today, everyone, and the whole world.

This is the hatred of the whole world, and it has nothing to do with private hatred.

Marshal Tiance nodded: “Well, I understand! We don’t care about private enmity!”

This is the word game Ye Wudao played.

For example, the hatred between Ye Clan and Levi, he has to continue.

But Levi didn’t care about it.

Today, I stabbed myself a hundred knives and gave the whole world an explanation.

Levi sneered: "Okay, it's okay! But I have already paid off for my wife! As for personal enmity, you are welcome to report it! I wait!"

Those who come to avenge private revenge, Levi will do it.

"Hahaha....."

Everyone laughed.

Just like Levi, you are welcome to take revenge?

I don't know how to die.

You can hardly protect yourself, and want to keep Sarah?

Dream it!

What's more, you don't have that strength!

"Next abolish Sarah's skill! For justice, let Tiance Mansion execute it!"

Naturally, Ye Wudao and the others would not forget to abolish the plum dyeing skills.

"I come!"

In the end, the marshal Tiance personally abolished Sarah's skills!

But seeing Li Zi spit out blood, Levi felt relieved instead.

It is more likely that the plums will be dyed back.

"Well, everyone's goals have been achieved! The punishment for Sarah and Levi is enough!"

The marshal Tiance shouted.

Hundreds of thousands of people slowly dispersed, half an hour.

Almost all disappeared.

But Levi and the others knew that many people looked like they had left, but in fact they were hiding in the dark, observing Levi all the time.

Among them are Levi's enemies and deceased people.

They wanted to see how long Levi could last, and even more wanted to see his miserable appearance.

However, young marshal Tiance and Ye Wudao really left.

Staying here to watch jokes is detrimental to your reputation.

They have been in control of Levi's news anyway, and there are more opportunities to humiliate and torture.

"Haha... Levi is going to make a prototype, right?"

### Chapter 2245

Now everyone is leaving.

In everyone's opinion, Levi will definitely not continue to pretend.

Secretly everyone is waiting to see!

A smile appeared at the corner of Levi's mouth, and he sat on the mat, letting blood drip and drip.

In the eyes of others, Levi couldn't do it anymore.

He could no longer stand.

Even if he can't be strong anymore.

He has been holding on in front!

Now watching the people go, he finally couldn't stand, and sat down on the ground.

He is the end of the battle.

"Is there any wine?"

Levi shouted.

After being detained for three years, I really miss this bite.

"have!"

Someone brought spirits right away.

Levi gulped directly.

"See? Levi is no longer good! Now I want to use spirits to relieve the pain!"

"Yeah! The front is just pretending! To save face, I don't want everyone to see him in embarrassment!"

"Now his brothers and apprentices are still there, he's still pretending, when these people leave, I guess he will make a scream like a pig?"

...

Everyone in the dark was refreshed.

Tylera was the first to watch Levi drinking strong wine.

She immediately took out a lot of medicines with the Kunlun Industrial logo.

“Boss, take it immediately. This is Kunlun Industry’s painkiller, especially useful! And this is a hemostatic agent! There are healing agents! They have incredible effects!”

Tylera was so excited to give it to Levi.

In this era, ancient miraculous pill and modern medicine are favored.

For example, the medicine produced by Kunlun Industry may be exaggerated to come back to life, but the medicine can basically cure the disease.

“Yes, boss, take it quickly!”

Everyone began to urge.

They are very worried about Levi’s situation.

There was a saying, these brothers felt pain in their hearts when they saw Levi stabbing him with a stab.

But Levi shook his head: “No! I can’t use these!”

...

“Pretend! Start pretending again! In order to pretend to be tough guys for the apprentices! No potions are needed!”

“Should he let his blood drain to death, and see if he still pretends?”

Everyone in the dark began to say that Levi was pretending again.

Everyone has been persuading Levi to take medicine, the Sword Evil God and them are also persuading, even Sarah is also persuading.

“Sir, just take it! This is their heart!”

Huo Yun Cthulhu said.

He could see that if Levi didn't take the medicine anymore, this group of people would have to use tough methods to get Levi to take it.

Levi had no choice but to take the medicine.

The medicine is still effective.

Soon the blood stopped, and the wound was slowly healing.

However, because of the special weapons of the Maya industry, the healing speed is not very fast.

But it eased.

But what they didn't know was that it was the same for Levi.

He is fine at all!

It's just a bit of blood.

“Hey! The biggest problem right now is that Master was injured by the special weapon of Maya Industry! The special elements have already worked in Master's body, and it will soon corrode the body until it is completely ulcerated!”

Xiao Feng said a problem that caused everyone's headaches.

Suddenly everyone's faces collapsed.

I don't want to face this problem, but we must face it all.

Once stabbed by a weapon of Maya Industry, he was declared dead and there was no way to save him.

Kunlun Industry has been studying solutions for a full year and invested a lot of resources, but no results have been achieved.

This is true of other major forces.

At present, being stabbed by a weapon of Maya Industry is totally unsolvable.

“No! I have to find a cure if I die!”

“Tylera, hurry up and study! You must work out a solution!”

“We are all over the world going to Zhao to solve the problem, I believe it will be possible!”

...

Levi’s apprentices and brothers all made up their minds.

## Chapter 2246

A solution must be found to prevent Ye Jun from dying.

They give everything they can to protect Levi.

Everyone looked at each other and determined the next task.

“But everyone must first make sure that the matter of keeping the boss alive has not been resolved, or it is difficult!

However, we can delay the onset of the boss’s injury and buy more time to find a solution! “

Wesley was clear-headed and analyzed rationally.

Others agreed.

“Okay, let’s do this! First delay the onset of the boss’s injury! This is not difficult! Then find a solution!”

Everyone agreed.

...

Everyone in the dark laughed.

“Impossible! It was a wishful thinking! Because until now, no one except Maya Industry knows what this substance is...”

“Want to find a solution? Absolutely impossible!”

...

But at this moment Levi waved his hand suddenly: “No! I’m fine! I can’t be hurt by this point!”

“No, Master, we are talking about the special elements on this knife...”

Before Xiao Feng finished speaking, he was interrupted by Levi, “I know, this thing can’t hurt me, and even said there is no damage at all!”

Levi didn’t joking.

With his current physique, he didn’t even know what level he had reached.

In the past three years, his strength has reached a position above the gods.

A punch casually is the ultimate speed and strength.

But to pursue the ultimate speed and strength, can ordinary physique work?

can not!

Three years ago, Levi's physique couldn't bear such a punch.

It is estimated that his body exploded at the moment when the power was gathered, and he couldn't bear it at all.

Because Levi's physique became super powerful in the process of pursuing ultimate strength and speed.

It can even be said that there is no fear of everything!

The knife stabbed on the body and did not harm Levi in the slightest.

The weapons of Maya Industry could not cause any harm at all, and were dispelled after entering the body, and even said they could not penetrate at all.

Still want to corrode?

Less likely!

Levi's physique was too strong to imagine, and it was definitely not something special elements could corrode.

So Levi is nothing at all!

It's just that they don't understand at all.

"Master, don't hold on! You are all your own, so don't pretend! You are already dying! You have to pretend to be indifferent!"

Xiao Feng couldn't help but said directly.

Others hurriedly said: "Yes, there are no outsiders now! Don't hold on! We know that in your heart you represent Velador, you must not fall, you must not show comfort!"

“But now there are no outsiders, they are all your own! Your brother, your apprentice, your family! You don’t have to face us with a strong side!”

“You don’t have to pretend, there are really no outsiders! I have driven away all the people who lurked around!”

...

Qilin and the others deliberately drove away the people hiding around one by one.

They always thought that Levi was bracing and pretending!

But Levi didn’t have it at all!

He’s okay!

Levi was helpless.

The Huoyun Cthulhu on the side couldn’t stand it anymore, he couldn’t help but said: “Okay, okay, to be honest, sir, there’s nothing wrong with it! You don’t need to use your medicine at all! You don’t need to find a solution, you should do it. Why go!”

Hearing the words of Huoyun Cthulhu, everyone was angry.

“You don’t know how much damage this knife has done, let alone the changes in this era! You should be with...”

Someone excitedly wanted to talk about Huoyun Cthulhu and Levi, but realized that they had missed their words.

Levi sneered: “You still want to say that this era has eliminated me, right?”

## Chapter 2247

“No! We didn’t mean it! Boss just you don’t know how powerful Maya Industries is!”

“Yes, we don’t mean it at all! What’s more, the boss, your strength is medium enough in this era! Eliminating the impossible!”

Everyone began to explain.

“Master, just listen to our arrangements! With us, you will be fine!”

Xiao Feng promised.

Levi’s expression changed: “You all leave first, I want to be quiet!”

“Boss (Master)...”

Everyone has to explain.

“Everyone! Can I be alone?”

Levi scolded loudly.

But everyone still stood hesitantly.

At this time, Commoner Killing God stood up.

“Everyone should leave first, let the gentleman be quiet! What’s more, just after taking the medicine, the injury has stabilized, and there will be no life-threatening for the time being!”

I heard Commoner Killing God say so.

Everyone left one after another.

“You guys leave too!”

Levi ordered.

Sword Evil God and they also left together.

After coming outside.

The God of Common Killer glanced at the people and said, “Do you think your husband doesn’t know how powerful Maya Industry’s weapons are? He is such a clever person who knew Ye Wudao when they chose this weapon!

“And do you think he doesn’t know the current situation? What is his physical condition, he knows better than anyone!”

Commoner’s words to kill the gods are simply initiating.

“So the boss is now in a serious situation! It’s just that he doesn’t want us to worry, he deliberately insisted on it! He kept saying that he was okay!”

Qilin reacted and said in surprise.

“Yes, it must be so!”

“I just don’t want us to worry!”

“He shouldn’t be able to hold it now, so he will drive us away!”

Qilin sighed: “The boss in my memory is the one who broke the bones, and the bones are going to the sky! He doesn’t want us to see his miserable side! However, the boss can rest assured! We will do our best to make you survive. !”

“Yes! Let’s arrange the division of labor! Let’s act from now on!”

Wesley gave these people a task.

Everyone worked hard for Levi to survive.

But after everyone leaves.

Levi smiled and stood up, like a okay person.

The wounds on his body also healed at a speed visible to the naked eye.

“boom!”

An air current burst out of his body, dispelling all the black matter.

This is a special element of Mayan industrial weapons.

He was forced out by Levi.

This is his horror!

The special element in Mayan industrial weapons is pervasive, once invaded, it will spread all over the body.

Even the strong of the gods can’t do it, once they are stabbed, they will undoubtedly die.

But Levi is above the god list!

This element cannot invade his body at all.

Levi reached out and touched the discharged substance, his brow furrowed: “I haven’t seen this kind of poison!”

Levi had a lot of knowledge and learned everything about the evil god of poison.

It's an exaggeration to say that I know the poison in the world, but I have never seen this kind of poison.

But Levi didn't need to know.

There is no threat to him anyway.

Huo Yun Cthulhu smiled: "These children are all confused by these bells and whistles! I don't know that all kinds of things can't resist Mr.'s punch!"

Levi looked at him and smiled and said: "You have to practice too, even if you improve your strength, so as not to make people laugh!"

Huo Yun Cthulhu's expression was shocked: "Understood! I will improve as soon as possible!"

Now Huoyun Cthulhu already knew what was the most powerful.

"Then sir, what plans do you have next?"

Huo Yun Cthulhu asked.

"It is estimated that there are a lot of private revenge! But before that, I will kill the dark god first!"

Levi said it was an understatement.

## Chapter 2248

Now the Dark God is the existence of the ceiling of combat power in this era.

It is rumored that he wiped out the Lab of the Gods!

This is also the biggest force to be wiped out in the new era!

Also the strongest battle!

therefore!

Dark God ranks first in the list of gods!

Therefore, when Levi mentioned that it was a dark God conspiracy before, it attracted strong rebuttal and dissatisfaction from many people.

Because the Dark God is number one on the list of gods, in this age where the power is respected, the Dark God is just like faith in many people's minds.

No one is allowed to say that he is not good at all.

But for Levi and Huoyun Cthulhu, is the number one in the god list a fart?

What is the God of Darkness?

“Okay! Sir, do you need me to go with you?”

Huo Yun Cthulhu asked.

“You should retreat well and improve your cultivation level as soon as possible!”

Levi said.

The evil god Huoyun asked, “How does the gentleman find the place of the dark god?”

Levi smiled and said, “Don't look for it! He will look for it!”

Levi changed into a new dress to cover up the “scars”.

In fact, the scars have completely healed.

After seeing this, Sarah subconsciously said: “Kunlun Industry's medicine is really amazing! I've heard of it before! I didn't expect the wounds to heal in such a short time!”

Seeing the wound healed, she didn't feel surprised, but thought it was Kunlun Industry's medicine.

In the past three years, Kunlun Industry's pharmaceuticals are particularly famous, and are among the top in the world.

It's not just Sarah who thinks this way, others think the same way when they see it.

Including mother Ollie, father-in-law and mother-in-law, etc.

But their eyes are a bit complicated.

The king of the past is worth one million.

But in this era when you can practice martial arts with your full name, one is completely useless, and one day is short, and he will slowly die.

Things are impermanent, good fortune makes others.

However, several elders can only sigh: "This is also very good, you should also rest!"

After Levi pulled Sarah back to the room.

"Wife, do you want to practice martial arts again?"

Levi asked.

"It's impossible! I'm already useless!"

Sarah has no hope anymore.

"I happen to have a repair method here and the exercises you will practice in the future, I promise to get you back to the top!"

Levi excitedly gave Sarah the method and exercises.

But after Levi left, Sarah threw it on the bedside.

She thought the same as everyone else. In this era, everything about Levi was eliminated.

No more practice!

On an uninhabited island in Western Continent, there is a huge base.

There are no creatures in the waters around a hundred li...

The dark god of the biblical organization is here.

Knowing that Levi chose this way, God of Darkness expressed relief at first.

As long as it is not opened by Levi.

But that night, the Dark God tossed and turned, unable to sleep at all.

He desperately wanted to know who had released Levi.

Soon, the dark god gathered all the people together.

The Dark God expressed his thoughts: "I want to know how he came out? Who helped him! Who else in this world can break the dark cage?"

"At the moment I can't think of who it is! It's possible for someone! He is the inventor of the dark cage, he might have a key to open it! But he is dead! I can't figure out who it is!"

The dark god is a little impatient now.

"This is easy to handle, do you know if you catch him and ask?"

At this time, Underworld God paid attention.

Dark God's eyes lit up fiercely: "Yes, you'll know by catching Levi back and asking!"

The dark god is mostly dizzy.

I didn't expect it for a while.

"Go! Hurry up and get Levi back from me! There are many people seeking revenge on him! Don't die!"
