

The Protector Novel Levi Garrison Chapter 2267 – 2268

Chapter 2267

Levi showed a smile.

This rule of Orion Group is very exciting and effective.

Opening a door in an hour is simply perfect.

Survival of the fittest!

This kind of experience can achieve the greatest effect!

This is much better than today's quick methods.

Whoever is strong can escape, whoever is strong can survive.

There is no fairness at all!

It depends on who is strong! ! !

Of course there is a small part, which may depend on luck.

Maybe there are a few people who are lucky, they just stay in the position where the door is opened, and they ran out easily.

But after all, this is a minority of the minority.

Ninety-nine percent depends on strength!

Li Chengmin also became nervous.

I thought that my parents had arranged that they could take Levi away safely.

Now it seems that it is very difficult.

After all, Li Dazhong was not sure, let alone other people.

“You follow me! Be sure!”

Before departure, Li Dazhong also reminded Li Chengmin.

Everyone began to advance slowly.

Of course, there are dozens of people betting that the door behind will be opened in an hour. They will hide nearby and wait for an hour.

Most of them left with Li Dazhong.

Along the way, everyone became more and more frightened.

There were bones everywhere, and stinking bodies.

And no corpse is complete.

It was torn apart and scattered everywhere.

Everyone can think of what kind of devastation they suffered before they were alive...

“Those monsters are terrifying! Once caught by them, the body cannot be left intact! Even if it is me...”

Li Dazhong’s words made everyone feel cold again.

But there is no way, you have to keep going.

Without taking a few steps, a super large container appeared in front of him.

They knew this container, it was thrown in earlier.

Li Chengmin almost became one of them.

“Generally, the reaction will not appear until one hour after being injected with the drug...according to the time it should be...”

“We go around quietly!”

Li Dazhong said vigilantly.

Everyone nervously followed Li Dazhong.

“boom!”

Suddenly there was a loud noise from the container.

Everyone stopped.

All staring at the container.

In the next moment, the movement grew louder and louder.

“boom!”

“boom!”

...

Everyone clearly saw the fist marks protruding out one by one.

more and more.....

Apparently someone was bombarding inside.

“Crack!”

“Crack!”

...

The next moment, someone was tearing open the container.

With a harsh sound, the container was torn apart. All the people inside came out...

“what!!!”

When everyone saw these people clearly, they all let out screams.

Li Chengmin was also scared and screamed!

Obviously, everyone who came out was shocked.

...

And the thirteen people hiding in the abandoned house near the east gate, they waited for the next hour to open the gate behind them.

They feel that their position is the safest.

Hiding here, you will be able to escape after an hour steadily.

At this time, they heard miserable screams in the distance, and more than a dozen people smiled.

“Hahaha... laughed so hard that you didn’t listen to us! Isn’t it all right now? Run to die for nothing!”

“That’s right! If you follow the leader of the gods, you think you are safe? When the real danger comes, people will take care of you? Dreaming!”

...

In the originally tense atmosphere, everyone heaved a sigh of relief after hearing the movement not far away.

They are all fortunate to hide here.

Otherwise, I'm afraid it would have been torn apart by the monster.

But what they didn't expect was that a bunch of things had come quietly behind them, staring at them.

"Huhuhu..."

These things made a panting sound, accompanied by a stench.

Chapter 2268

"I....."

At this moment, the thirteen finally noticed something behind them, the stench entered their noses, and their breath hit their heads.

At this moment, everyone's body was tense, cold sweat broke out, and their souls were frightened.

They slowly turned around, and they saw terrifying figures in their eyes.

"what!!!"

Everyone screamed in fright.

These people in front of them are actually monsters.

Their eyes are scarlet, and their faces are black and white, without any bloodshot eyes. The most important thing is that everyone's body has doubled.

The arms and legs are as thick as a tree trunk...

They exude a terrible breath.

After these people were injected with the medicine, they were just like variants.

Extremely terrible!

Otherwise, Orion Group will not lose control.

“Snapped!”

“Shit!”

...

One of them was suddenly picked up by the monster and torn in half abruptly.

Other monsters swarmed.

The remaining twelve people were torn apart abruptly.

None of them survived.

If you don't listen to the old man, you will suffer.

Li Dazhong has come in here many times.

He is experienced.

Know that these monsters can be found no matter where you hide.

As long as they smell a bit of vitality, they can definitely find it.

It doesn't matter where you hide.

The only luck is that the distance is too far to smell...

At this moment, Li Dazhong's large army encountered the same situation.

However, the monster he encountered was an experimental product that had just been injected with medicine for an hour.

This is still the case of Maya Industry's improvement agents. They want to continue the experiment to see if it can be controlled.

The result was miserable—uncontrollable.

After these experimental products mutated, their bodies swelled, their eyes were scarlet, and they became more brutal.

It turned out that the container was not protruding and torn just now.

It was caused by their soaring body, and the container could not hold up, and it broke.

This time the experimental product is not only uncontrollable, but also more powerful than the previous experimental product variants.

The large army led by Li Dazhong happened to encounter them.

The result is heavy damage.

The general strong can't handle it at all.

Everyone's most ruthless move, hitting these mutants with powerful weapons in their hands, had no effect at all.

Instead, if they were caught, there was no hope of surviving.

Will be torn on the spot, even every bone will be broken.

Only Li Dazhong, who is the strongest of the gods, can still play.

They forcibly cut a way out and beat these mutants into the air, and they killed their way out.

Li Dazhong took Li Chengmin and others to escape.

Levi was pulled by Li Chengmin and followed him to escape.

Levi was just studying these mutants...

It was pulled away without warning.

The other strong players in the god list also showed their strengths and smashed out from all directions.

After all, there are still fewer mutants in the container, about a hundred.

Can't stop them.

In this wave, a dozen people were torn apart here, and all the others ran away.

The situation is much better than those of those who hid.

But the biggest problem is that the movement here completely shocked the entire town, and tens of thousands of mutants all over the small towns came from all over the place.

Their first feeling is because of the sound, and the second feeling is of course the smell of people.

In just one round, everyone was dispersed.

Hundreds of people were divided into ten teams.

The number of people who followed Li Dazhong is quite large, there are more than forty people.

“Now is the most dangerous time! Thousands of monsters will come!”

Li Dazhong glanced at Li Chengmin and exhorted: “Follow me!”

Next.

Li Dazhong walked with everyone.

Originally, he was experienced, and would not hide when encountering monsters, but would rush to find combat experience.

But now with Li Chengmin, he wants to get away as far as possible and wait for three hours to send Li Chengmin out.

He can start killing unscrupulously...

The Protector Novel Levi Garrison Chapter 2269 – 2270

Chapter 2269

I have to say that Li Dazhong has rich experience, every time he can avoid the monster group, or encounter very few monsters, everyone can handle it.

But others are not so lucky.

Even if there is a strong player in the ranks of the gods, they will always encounter monsters.

At the beginning, it may be dozens, then hundreds, or even thousands.

Those who are strong in the gods list have to avoid their edge and dare not make a head-on shake.

They also have to avoid as many monster groups as possible, and hide as much as possible.

However, other people are not so lucky, if they encounter a group of monsters, after being entangled, they can't escape in time.

Then there is only death.

There will only be more and more mutants.

In the end there may be thousands...

Can't resist it at all!

And the newcomers have also seen the terrible monsters.

Not to mention being wiped out, all kinds of attacks hit the monsters without any effect at all, let alone penetration.

Their bodies will generally skyrocket and become indestructible.

I don't know what Maya Industry's medicine is, but it has such a miraculous effect.

The monsters in almost the entire town were in action.

Experienced people fell one by one...

Time also passed by one minute and one second.

It's an hour.

The west gate opens...

After the newcomers who came in got the news, they ran to the west gate.

But they were followed by a large number of monsters, chasing after them.

“These idiots! Bring too much! Closed!”

The Orion Group outside immediately closed the west gate.

In the end only two people escaped.

No one else escaped.

Most of the people ran away, and a few were surrounded by monsters.

...

Levi wanted to see what these mutants had been injected, but Li Dazhong had too much experience.

Every time he could avoid the monster, Levi couldn't observe it.

Can only continue to walk with them.

time flies.

The strong are all practicing.

More and more people fell.

Two hours.

Seven people escaped.

...

Others either didn't go out and continued to practice, or they just couldn't escape.

In the laboratory of Orion Group, they analyzed some data.

“After the variant of the experimental product that just went in the container, it is really powerful! It’s difficult even for the strong of the gods to parry!”

“Look at the stats! It is very difficult to deal with the four strong players! Except for Li Dazhong, no one else can!”

“So the difficulty they face now is even higher! The current seven hours may be even more terrifying than the past eight hours!”

...

The experimental product is getting stronger and stronger.

Everyone is mixed.

The worry is that they can’t control these mutants yet.

“What the hell is this Maya industry going to do? If this continues, I am afraid that it will test out a group of undead strong people. Who can stop this?”

“Yes, shouldn’t the problem that should be solved now be how to control these mutants? We have been working on this project!

But Maya Industry doesn’t seem to have any thoughts in this regard! They are still increasing their potions, and the mutants they experimented with are getting stronger and more violent!

This is to create the most violent brain and the strongest physique! “

...

This group of testers began to speculate that Maya Industry’s test was not so simple.

“Do you think Maya Industry has long been in control of how to control these mutants? Just didn’t tell us?”

“Well, it’s possible!”

...

At this moment, the high level came, and everyone stopped talking.

And the time came to three hours in a blink of an eye.

That is the longest time that the senior management of Orion Group promised Li Chengmin to hold on.

As long as she survives, let her go.

Li Chengmin in the metal fortress was excited and frightened.

Three hours finally arrived.

What opened this time was the gate to the north.

Li Chengmin drank the medicine given by his parents and eagerly rushed to the north gate.

Chapter 2270

“King’s Landing, three hours have arrived! As long as we rush out, we will be safe! They will let us go too!”

Li Chengmin was extremely excited.

The parents’ arrangement was indeed correct.

As long as you follow Li Dazhong, you can easily survive for three hours.

They weren’t experienced, and as soon as three hours arrived, they rushed to the north gate.

During this period, Li Chengmin gave all the remaining medicine to Levi.

Let him take it in times of crisis, and he can become super powerful.

“Go! Follow me! Go to the north gate!”

Li Dazhong led the way, and Li Chengmin dragged Levi to follow.

...

About ten minutes later, everyone came to the north gate and opened a gap for only one person to pass through.

“We will withdraw first!”

Seven or eight people rushed out immediately.

Three hours is enough for them.

Of course it's also stained.

If it weren't for Li Dazhong, they would have died early.

“You leave too!”

Li Dazhong said to Li Chengmin.

“go!”

Li Chengmin ran out excitedly.

“boom!”

She received a huge force behind her, pushing her to a place a few hundred meters away, directly out of the gate.

“The door is closed!!!”

After Li Chengmin went out, the gate closed quickly.

“You can’t go out!”

Li Dazhong stood in front of Levi, blocking the way he left.

Li Chengmin, who was already outside the gate, was dumbfounded when she saw this scene.

Levi hasn’t come out yet?

“You...what are you doing?”

She exclaimed again and again.

Li Dazhong said without looking back: “I promised your parents, only to send you out safely! My task is completed! But he is not included in my task!”

Li Chengmin wanted to rush in again, but the door was closed.

And there are more and more mutants coming around.

It is absolutely impossible to open the door again.

She could only watch Levi disappear before her eyes.

After Li Chengmin went out, her parents rushed over immediately.

“Fortunately, Levi appeared and saved you, otherwise you will become a monster too!”

The parents are very excited.

“You can trade his life for mine, can I survive?”

Li Chengmin was about to cry.

“Anyway, Levi will definitely die, isn’t it the same if you die sooner or later?”

Everyone dismissed it.

The executives of Orion Group were all excited collectively.

“Levi, we finally waited for this opportunity! Think about how miserable it was for you to crush those years!”

“It’s in our hands now, right? Let me see how you can escape!”

“How is it possible to escape from birth? It depends on how long he can hold it?”

“Ha ha ha ha.....”

...

For them, it was so cool.

Torturing the king who had pressed them in the past is really the happiest time in life.

At the north gate of the metal fortress, Li Dazhong stared at Levi and the others.

“From now on, I will act alone! No one will follow me! Whoever follows me, I kill who!”

Li Dazhong stared at Levi: “Especially you! Never follow me!”

Li Dazhong is about to really start to experience.

So definitely not let people follow.

He flew away from the other direction immediately.

Levi and twenty or thirty people remained.

“Rumble...”

There were waves of shaking and shaking.

The hordes of mutants are coming.

There are thousands of them, and they are densely packed in all directions.

This frightened everyone.

“Run! Run quickly!”

But before leaving, they pushed Levi forward.

“Let him block us! Let’s run first!”

Levi was pushed to the forefront.

All this group of people ran away.

Let Levi block them for a while.

Thousands of mutants rushed in front of Levi like crazy.

But Levi looked at them with a smile on his lips.

Li Chengmin’s burden is finally gone.

He wants to see what these monsters are like...

The Protector Novel Levi Garrison Chapter 2271 – 2272

Chapter 2271

Everyone ran away, and no one would care about Levi's life and death.

One by one, they were afraid that Levi would follow them and hurt them.

Soon, the huge group of mutant monsters drowned Levi.

“Ha ha ha ha.....”

Everyone in Orion Group laughed.

Levi was overwhelmed by the monster group, that would definitely die.

It is estimated that not even a corpse will be left behind.

In the end they just wanted to see Levi's torn apart body...

No one pays attention to him anymore...

Of course, once the gate of this metal fortress was closed, they could only determine their position based on the chip marks left on the mutant monsters.

After the experienced powerhouse enters, there will be corresponding chips and live devices on his body.

Can know the situation inside in real time.

Originally, Levi had such a device on his body, but he threw it away early.

So no one knows what is happening to Levi now.

But before everyone knew that he had been submerged by a group of monsters, and he would definitely die forever.

The strong like Li Dazhong began to experience...

Time passed by every minute.

The fourth hour is here!

This time the gate to the south opened, and the powerhouses who lasted for four hours rushed here one after another.

“Quick...look...that’s...”

At this time, someone saw a figure not far away-Levi.

He was covered in blood, he didn’t know whether it was his own or a mutant monster.

“This.....”

Everyone looked incredible.

Levi actually used his own strength to hold on for an hour before coming to the south gate.

“We still underestimated Levi’s strength, even if he is not the top strength! He is still medium! And he has rich combat experience and deep scheming! It is not a problem to hold on for an hour!”

“What’s more, these mutant monsters are not very intelligent, and Levi has a great chance of surviving!”

“But how will he support it next?”

“Stop him! Never let him out! Close the door!”

...

After Li Chengmin and the others found out, her parents asked, “Did you give Levi all the medicine we secretly gave you?”

Li Chengmin knew that he couldn’t hide it, so he could only tell the truth: “There are a total of six tubes of medicine, and I only used one tube! The rest is for Levi.”

“No wonder! I said that Levi can’t last an hour! It must have taken the medicine we gave before his strength soared, and he made a bloody path among the monsters!”

Everyone was relieved.

Moreover, this kind of medicine is made by Maya Industry, which can greatly improve the strength in a short time.

It’s horrible to terrible!

“Hmph, when he runs out of potion, what else will I do if I see him?”

Everyone does not believe in evil.

...

Five hours.

Very few people can survive this time.

...

Six hours.

The rest are basically the strongest of the gods.

But everyone found that Levi was still alive.

The whole audience was stunned.

Even the eyeballs of a few strong people in the gods list are about to fly out.

What strength is this Levi?

Is it the same as them?

But after hearing the explanation of the medicine, everyone was relieved.

After all, the potion is so overbearing, everyone has experienced it.

Levi can sustain it normally!

What's more, Levi's words started from the fourth hour.

After all, Li Dazhong protected them for the first three hours.

Levi lasted for three hours on his own.

“Well, you Levi, do whatever you want with the potion? Let me see how much you have left?”

Everyone outside does not believe in evil anymore.

Seven hours.

It lasted for seven hours.

At the last moment, there were only seven people left, Jiaye Junlin.

These six powerhouses in the god list want to continue to attack higher levels and last more time.

“Levi’s potion should also be used up? Why is he still alive?”

Chapter 2272

“It shouldn’t be. It takes only half an hour for a tube of potion. He has been four hours. How can a total of five tubes of potion last?”

“Probably not! Levi is extremely cunning! He may have some tactics, such as hiding behind the strongest man!”

...

“Why don’t it be like this! Let Li Dazhong and other strong people leave! We will directly close all the doors and not open anymore!!!”

Someone suggested.

As soon as this suggestion came out, everyone’s eyes lit up fiercely.

“Yes! This is a good way! Keep Levi alone in the metal fortress and keep him for a day and night! I don’t believe he can survive?”

“Okay, just do it!”

...

As soon as the plan came out, everyone took action.

The six Li Dazhong received the notice, came to the east gate that they opened privately, and all left.

“boom!!!”

Finally the gate closed.

“Crack!”

“Crack!”

...

All facilities of the Metal Fortress were closed.

Because various devices are turned on, they actually have a certain inhibitory effect on these mutant monsters.

What's more, the top experts of Orion Group have placed various experimental equipment around the metal fortress, specifically for experimenting how to control this group of mutant monsters.

But how to control it, there is no effect at all.

But the inhibitory effect is always there.

More or less have the effect of suppressing this group of mutant monsters.

Data shows that when all the experimental devices are turned on, the strength of this mutant monster can only be used by 70% to 80%.

Not their complete strength!

The experimental theories created by Maya Industry itself are the most violent brain and the most violent physique.

Now they are more or less restricted, so that their strength is greatly reduced.

Now that the equipment settings are all closed, the mutant monsters are not restrained at all.

They can play 100% strength!

The all-out mutant monster is super scary!

“my God!!!”

Li Dazhong was shocked when he saw it.

Never felt the strength of a 100% mutant monster...

Now that all the monsters are 100%, he is also afraid.

“Maybe if I go in now, I won’t be able to hold on for five hours! Even my life is in danger!”

Li Dazhong sighed.

“Well, we estimate it for three or four hours! It’s really life-threatening! The strength of the mutant monster with full force is far from what we can match! Kill and kill! It can’t even hurt...how to fight...”

“This time Levi is miserable! There are tens of thousands of mutant monsters with 100% strength! He has potions and it is useless! Not to mention they are gone!”

“Yeah! Don’t open the door! Close him for twenty-four hours!”

“Frankly speaking, the top ten on the list won’t work, right?”

...

“Well, we close everything anyway! We can wait until tomorrow to open it for Levi’s body collection!”

Of course, after all the devices are closed, they can’t know what’s going on inside.

But everyone didn’t want to look at it. There was already a picture in his mind, knowing that Levi was being abused.

...

When Li Chengmin learned about this, he was directly frightened.

Orion Group is too cruel, right?

In order to torture Levi, he actually used this method.

The metal fortress is closed for twenty-four hours.

No one can survive twelve hours!

What's more, they are all monsters with full force now!

The time is greatly reduced, and I have never lasted five hours.

This is to make Ye Jun die without a corpse!

Li Chengmin fainted directly.

...

Inside the metal fortress.

Levi also noticed that these mutant monsters became more irritable.

Obviously someone out there used a method.

But to him, it doesn't matter.

He smiled at the dense monsters in front of him.

Now these irritable mutant monsters basically all gathered around him.

"Who said they can't kill it?"

Levi sneered.
