

# The Protector Novel Levi Garrison Chapter 2297 – 2298

## Chapter 2297

Ye Wudao smiled: “No, no...I won't give him a chance! What if he survives nine days?”

“I want to leave Levi without a trace of hope! Let him despair!”

Ye Wudao's face was full of viciousness.

Lawrence understood what, and subconsciously asked, “Does Xiaozu say that they will not be allowed to produce medicines? Do not allow them to be produced from the source?”

“Yeah! That's right!”

Ye Wudao nodded.

“But we can't intervene in the Kunlun industrial affairs? Especially Tylera and the others are very high! We can't control it anymore...”

Lawrence raised a question.

“Are they more capable than Marshal Tiance? And they used the highest-level laboratory privately without notifying Marshal Tiance!”

Ye Wudao sneered.

Lawrence became more and more puzzled: “But Young Master Tiance can't control us anymore. How can he listen to us?”

“Ha ha ha ha.....”

Ye Wudao laughed suddenly.

“Don’t you know? Actually, I have long since turned the enemy into a friend with Marshal Tiance. We have reached a consensus in private and cooperated together. In this era, win-win cooperation is the best! As long as I tell him, He will do it!”

“Furthermore, Marshal Tiance doesn’t have a cold with Levi! If you know that Tylera is using the highest-level laboratory to develop medicine for Levi, I’m afraid it will be mad!”

Lawrence smiled immediately after hearing it.

“I’ll contact Young Master Tiance! I don’t want to give Levi at all!”

Ye Wudao sneered.

...

On the way to Case York.

Qilin, Wesley and their faces were gloomy.

Some things are being analyzed.

“Listen to Regina that the ones who destroy the potions are the strongest of the gods! In fact, we can all come out with the reasoning, but it’s not the time for revenge for the time being. Let’s talk about it when the boss is better!”

Kirin said coldly.

“Yeah. When the boss is better, take revenge again!”

Wesley nodded.

“Also, I have sent someone to search for other suppressive potions. I hope there will be news!”

Wesley couldn't pin his hopes on Tylera alone.

They wrote down the hatred.

Levi was dumbfounded when he saw these people running around.

what's the situation?

“Boss, are you okay??”

Several people saw Levi and looked anxiously at Levi.

“Ah? What's wrong? I'm fine!”

Levi was completely stunned.

“It is estimated that the effect of the medicine is still there, and it is estimated that there will be a reaction tomorrow...”

Wesley's faces were gloomy.

“Ah? What's wrong? What happened?”

Their expressions shocked Levi.

I thought someone had something wrong...

“The potion is gone... The potion that was just produced for you was completely destroyed by someone, and there is nothing left...”

“In the next nine days, there will be no medicine to suppress you...”

“It’s very possible that the elements in your body will happen. No one knows what the specific consequences will be...”

...

The Wesley people told the truth, their faces were extremely embarrassed, as if the sky had fallen.

“call!”

“What am I supposed to do? I thought something was wrong, and it scared me to death!”

Levi let out a long sigh of relief.

“Isn’t this a big deal??”

Wesley and Qilin were stunned.

Looking at Levi incredulously.

“Of course, I’m fine again! What a problem... Don’t worry, I can’t explain it clearly...”

Levi looked helpless.

“The boss listened to us, you are okay, that’s because Kunlun Industry’s pharmacy has been suppressing the use of special elements! So you are okay...If there is no pharmacy now, it is estimated that it will happen soon...”

Several people in Wesley said anxiously.

“I hope you can survive the next nine days, Boss! Tylera is already desperate...”

They only expected Levi to be able to hold on and the elements would not occur.

## Chapter 2298

But just looking forward to it.

The probability of an attack is almost 100%!

The probability of a serious attack is 80%.

The possibility of serious death is 50%...

So it is very difficult for Wesley and the others.

It can only depend on luck.

Hope Ye Jun will be lucky!

Through these nine days!

Wait for Tylera's potion to complete.

Levi smiled and said, "Don't worry, I have nothing to do! It's a hard work Tylera!"

"If it's okay, I'm going to sleep, you guys leave too!"

Levi turned and left.

"No...no! Boss, Wesley, I thought of a way to completely prevent him from attacking!"

Qilin said suddenly.

"what?"

Wesley immediately looked over anxiously.

“In these nine days, the boss will be frozen! We can find a top-notch device and let Levi freeze in the dormant cabin, so that his body will stop all operations! After nine days, open the dormant cabin and come out. Potion is on!”

Qilin excitedly spoke out the plan.

“This method can be done!!!”

“Do it right away! I didn’t expect it!”

Wesley was so excited that he was about to cry.

Finally found a way.

“Hey, it’s okay! No! I’m okay...”

Levi said next to him.

But this group of guys didn’t ask Levi’s opinion at all, they just made their own opinions.

These devices are not difficult for them.

I got it overnight.

Levi almost pushed and shoved and installed it into the dormant cabin device.

Soon the program starts, and Levi will soon be dormant and frozen.

All functions of the body will cease.

In this way, special elements will not occur.

When I saw the program was over, I opened it and breathed a sigh of relief.

In this way, Levi would be fine.

It should last until nine days later.

In fact, Levi was not dormant at all, as long as he wanted to, the dormant cabin was useless to him.

But these days he just calmed down to cultivate.

Just retreat...

“Tell Tylera to them, and you can develop potions with peace of mind!”

Wesley they smiled.

Kunlun Industrial Headquarters, the highest-level p6 biomedical laboratory.

Tylera breathed a sigh of relief when he got the news.

...

“Huh? Why are you here, marshal?”

The guards at the headquarter gate were shocked when they saw Marshal Tiance coming.

It's midnight.

The Marshal Tiance never came at this time before.

“I'll come and have a look!”

The marshal Tiance said with a cold face, and led his subordinates all the way to the p6 level laboratory.

After coming outside, Ron and Owen were taken aback.

The two of them turned pale.

They were waiting for Tylera's dispatch, but they didn't expect to wait for Marshal Tiance.

"Less... Young handsome..."

The two greeted awkwardly.

Marshal Tiance sneered and asked: "Has the p6 level laboratory started?"

"Well, marshal, it's activated! Someone is working on it!"

Young Master Tiance's face became extremely gloomy: "I remember to start this laboratory, I need to notify me, and then call everyone to a meeting to vote, right?"

"That's right! This is the only p6 laboratory! It must not be used for major events! This laboratory generally does national-level experiments!"

The people immediately answered.

"Then what are you doing now? Without my authority, no one notified me, no high-level vote, you opened it privately, what are you doing???"

Marshal Tiance asked directly.

Bai Hu and Ron lowered their heads, cold sweat ticking.

"Reporting Marshal! Tylera team leader started the laboratory to develop medicine for Levi! Because the highest-level laboratory can greatly shorten the time!"

Someone reported.

"Asshole!!!"

"I opened this laboratory for a Levi???"

# The Protector Novel Levi Garrison Chapter 2299 – 2300

## Chapter 2299

Marshal Tiance suddenly raised his tone.

Ron and Owen were taken aback.

The two dared to speak more and more, cold sweat kept dripping...

problem occurs!

This time it was a big deal!

Mainly they opened this laboratory privately.

It is indeed a violation of the rules of Kunlun Industry!

“The marshal is not our intention! It was the leader of the Vermilion Bird, the leader of Wesley, and the others forcibly using the laboratory! They also warned us to keep it secret and not tell anyone!”

“Yes, young commander, I don’t dare to tell you! I’m really afraid of them!”

...

Several people in charge of this laboratory immediately filed a complaint.

“Unreasonable!!! Kunlun Industry belongs to Velador! Kunlun Industry belongs to everyone! It is not your private industry!”

“Open the door to me!!!”

The marshal Tiance shouted.

“this.....”

Several people in charge of the laboratory hesitated.

Because Ron and Owen stopped at the door.

They dare not.

“Get away!!!”

The marshal Tiance pushed the two white tigers away.

“boom!”

“boom!”

He stepped forward and kicked the door open.

In an instant, everyone in the laboratory was stunned.

Their experiment was abruptly interrupted.

Tylera also turned her head blankly and looked at it.

When everyone saw the marshal Tiance, they were all in a cold sweat.

“Who gave Tylera the courage to use this laboratory? Has it been approved by me?”

Marshal Tiance looked straight at Tylera.

“boom!”

Tylera was startled at once.

His body was trembling, his face was pale, and his cold sweat broke out.

She almost fell directly to the ground.

“I, I...”

She didn’t know what to explain.

She was caught by the marshal of Tiance on the spot, and she didn’t know what to do.

Don’t dare to look up!

“Who let you use it???”

Marshal Tiance said furiously.

“Master, listen to us! We have no choice but to inform you!”

“The medicine we developed for the boss was destroyed. If there is no medicine to take, the boss will be in danger!”

“So we must be in a hurry to produce new medicines in the shortest time. So we used the laboratory privately...”

...

Bai Hu immediately began to explain.

“Boss? Who?”

Marshal Tiance frowned.

“It’s Levi!”

The others answered.

“So you used this laboratory for Levi and for personal matters???”

Marshal Tiance was completely angry.

“Have you forgotten what this laboratory is for?”

“This is the highest-level laboratory. It should be used only when there is a major crisis or the highest-level experiment in Velador!”

“Now you have to activate this laboratory for your own selfish desires? Just for one person, someone who is of no value to Velador to activate this laboratory?”

“You are too selfish!”

...

Marshal Tiance was completely angry and shouted at everyone.

Tylera lowered their heads and did not dare to speak at all.

They are all wrong...

“Get out! Get out of it all! From this moment on, this laboratory cannot be used! Kunlun Industry and the laboratories and teams affiliated to the major forces, neither can you use it!”

“You can no longer use any resources to develop medicine for Levi! His life and death have nothing to do with us!”

“If anyone breaks the rules, I will kill someone!!!”

...

As soon as these words came out, the Marshal Tiance was equivalent to sentenced Levi to death.

No way to survive!

This is a dead end, and Tylera can't produce medicine for a while.

To find the right laboratory and team, there are resources and so on.

I'm afraid it won't last a month.

But at that time Levi was afraid that he would have rotted to death long ago...

"boom!!!"

At this moment, for them, the sky is falling.

## Chapter 2300

There is no hope at all!

"Puff!"

Tylera collapsed directly to the ground.

His eyes were hollow, like walking dead.

Owen and Ron still wanted to intercede, but Tiance Marshal refused directly:

"This matter is not discussed! I won't save Levi! Let's not let you use any resources of Kunlun Industry!"

"Come here, you keep me staring at them all the time! Keep me informed of any whereabouts!"

The marshal Tiance left angrily.

In fact, Levi is optional for him.

It doesn't matter if Tylera uses the resources of Kunlun Industry to rescue them.

But they were so courageous to use this laboratory to save Levi at all costs.

Come to rescue a dead person!

Moreover, in their minds, Levi was always the boss, even if his strength was destroyed.

They have never admitted their identity as the head of Kunlun Industry...

This is the reason why Tiance Young Marshal is angry.

Following the flow of the boat, he agreed to Ye Wudao's request.

Things that kill two birds with one stone!

The Commander Tiance gave the order, which basically blocked the possibility of the medicine being produced in a short time.

For at least one month, or even three months, there will be no medicine...

On Wesley's side, they had just sent Levi into the dormant cabin, and they were happy.

Suddenly received this bad news!

They were all dumbfounded.

The medicine is gone?

Doesn't this mean that Ye Jun's hope of life is gone?

They were shocked.

Is this someone specifically targeted?

They all looked at the news, how did the Marshal Tiance know?

But now is not the time to think about it.

How to remedy the problem next!

Wesley deserves to be the backbone of the group.

For the first time, he didn't collapse like the others, but he was extremely calm.

“Now the resources of Kunlun Industry are not available, even domestic ones. We have to find a way to go abroad! Use all the connections to let Tylera start to develop medicine as quickly as possible!”

“And we have heard that many forces are developing solutions to the Mayan industrial weapons? I think they may have inhibitors, we can ask them to buy...”

“Next I will arrange tasks...”

Wesley immediately arranged everyone's task to try to remedy it.

Alton is arranged in a protective dormant cabin.

Qilin felt very aggrieved and thought it was the most useless.

Now Levi's dormant cabin is freezing, it's okay at all.

He temporarily brought in his men to watch.

He ran abroad to find a potion for suppression...

They immediately got busy again.

The other side.

Ye Wudao laughed loudly after knowing the command of the young marshal Tiance.

“But Wesley and the others have begun to remedy... they have already sought medicine abroad...”

Lawrence said.

He stared at Wesley and their movements all the time.

Ye Wudao sneered: “Velador is no longer possible. I used means to lock up all of Velador’s resources! They don’t want to produce a shred of medicine in Velador! If you are abroad, you can keep an eye on it and destroy it more! “

“Understood! Anyway, they can’t get or produce potions anyway!”

Lawrence and others nodded.

“Yes, that’s right.”

“By the way, we just got news that Levi has been frozen by Wesley and the others in the dormant cabin! This is to ensure that the situation does not occur...”

Someone said.

Ye Wudao and Lawrence were both taken aback.

“This is indeed a good way! Wesley has a set! They actually used this technique...”

Ye Wudao sighed.

“By the way, where’s the address? Did you find it?”

Ye Wudao asked.

“I have found... the address is...”

The subordinates will tell everything.

Ye Wudao smiled: “Levi, I won’t give you any way out! This time I will shut down his dormant cabin by myself! Let him perish completely!”

## The Protector Novel Levi Garrison Chapter 2301 – 2302

### Chapter 2301

“So, that’s great! They find the dormant cabin, and we destroy it! This thing is scarce everywhere, how long do I think they can last?”

Lawrence also smiled.

Ye Wudao also smiled: “Do you know why I reuse you so much? Because you look like me!”

Lawrence also smiled.

“In fact, Levi can easily kill us! But we just don’t! Because of this, the feeling of hope but instant despair is the most tormented! With physical torture, Levi will die in fear, this That’s what I want!!!”

Ye Wudao’s complexion was grim.

Lawrence was also full of excitement.

The two sides are indeed the same.

late at night.

Ye Wudao appeared where there was a dormant device.

Kirin arranged for dozens of quasi gods to guard.

But these people are like ants to Ye Wudao.

He easily passed everyone and directly entered the base of the dormant cabin device.

This place was explored in advance, and there have been undercover agents among these guards.

So Ye Wudao entered the dormant cabin unobstructed all the way.

After opening, Ye Wudao entered.

Looking at Levi lying inside, he smiled.

“Levi violated the Ye Clan’s house rules! I will torture you slowly! And your daughter, I will capture the Ye Clan! With my Ye Clan’s blood on his body, I deserve to win the Ye Clan honor!”

Ye Wudao said coldly.

He slowly closed the dormancy chamber device.

All effects are lifted.

He also quietly messed up and damaged the dormant cabin.

It’s not obvious on the outside.

In fact, Levi in the dormant cabin knew everything.

But he ignored it.

Ye Wudaozhiliu was in the eye, no different from the ants.

He didn’t even bother to punch someone who was killed by a punch.

therefore.

Levi ignored Ye Wudao the whole time.

Feeling the temperature rise in the dormant cabin, Levi smiled: "It's not that cold anymore!"

After Ye Wudao finished all this, he left quietly.

No one found out the whole time...

...

Because of the dormant cabin, Qilin and Wesley ordered no one to approach.

So no one went to watch it.

Therefore, I don't know the situation inside.

Time passed day by day.

Wesley, Qilin, they crazily tried to remedy it.

The medicine they found was more or less close to what was produced by Kunlun's industry.

Tylera and the team finally found a suitable laboratory, but the resources have not yet been found.

And in the process, they were hindered by numerous obstacles, doing anything unsuccessfully, there were external factors interfering.

Tylera probably calculated it. In this case, it will be at least fifty days after the next batch of medicine is produced...

This meant that Ye Jun had to stay for fifty days.

But at this stage, there is no other way.

Can only wait for the miracle...

“What if there is a medicine for direct treatment?”

Everyone sighed.

“The once-and-for-all method is definitely good, but no one has said that a real solution has been developed yet...”

Wesley looked helpless.

Nine days passed in the blink of an eye.

All return.

After all, the dormancy cabin was set up for nine days.

It started today, and everyone is eager to know how Levi is now.

What’s more, everyone has found some methods and medicines more or less.

Have to come and try to see if it works.

“Huh? Where’s the unicorn?”

When everyone arrived, they found that it was someone else guarding the dormant cabin.

It’s not a unicorn.

At this time, Alton returned from another direction.

He also went to find a way.

“Kirin, do you know that your mission is the most important thing! It’s okay, if there is something, you only ask!”

Several people in Wesley realized that something was wrong.

“Are you okay lately?”

Qilin asked the others.

“It’s alright.....”

Everyone shook their heads.

## Chapter 2302

Qilin breathed a sigh of relief: “Look, you guys have been worrying too much! It’s okay at all!”

“Let’s go and see!”

Several people in Wesley entered the dormant cabin anxiously.

“boom!!!”

After coming inside, everyone was dumbfounded.

The dormant cabin device simply stopped operating.

“Someone has turned off the hibernation chamber device a long time ago!!!”

“Eight days!! The dormancy cabin device has been stopped for eight days!”

...

Wesley roared hoarsely.

The unicorn is like thunder.

I thought it would be okay to call his subordinates to look at it, but no one knew that the device was shut down just as he left.

“No, the inside of the dormant cabin device has been destroyed!”

Someone exclaimed.

“Why didn’t the boss react at all? It should be said that he can wake up as soon as the hibernation chamber device is turned off?”

“See for yourself! The dormant cabin can’t be opened at all!”

“That is to say, the boss has been lying in it for nine days? Not to mention the elemental attack, even the boring can make people suffocate!”

“Look at the boss now, will something happen? You guys don’t move! It’s been so many days!”

Bad news!

One bad news followed by bad news!

...

Everyone glared at Qilin fiercely!

If he was there.

Can it be like this?

Qilin was silly.

Sitting on the ground, like a puddle of mud.

His mind is blank!

If something happened to Levi because of this, he would blame himself for a lifetime! ! !

Even commit suicide on the spot...

“We can’t blame Qilin. It must be a problem with the guards! First, this place is hidden and few people know. Second, it is impossible to enter easily, even the strong. There are traitors in the guards...”

Ron analyzed.

“I killed them!!!”

Qilin was completely angry.

“Look at the boss first...”

Everyone forcibly broke the dormant chamber device and released Levi.

Just as they were about to check Levi’s situation, a voice sounded.

“It’s so noisy, and let people not sleep!”

Levi stood up and looked at everyone speechlessly.

“Boss, are you okay? Are you okay?”

...

One by one looked at Levi in shock.

“What can I do? Do you expect something to do with me?”

Levi glanced at everyone speechlessly.

“Boss, haven’t you seen any health problems in the past few days?”

Everyone asked.

“No, don’t you think I’m fine? It’s okay at all!”

Everyone was shocked.

Levi really didn’t look like something was going on.

This can’t be pretended

Everyone can feel the breath of Levi...

Surging as before.

So he is really fine.

“But just in case, let Tylera check it out for you first. Let’s rest assured!”

Wesley suggested.

“Well, let’s check it out.”

Levi didn’t want to be surrounded by them saying that something was all right.

Just let them check it.

Tylera immediately brought equipment and checked Levi’s physical condition.

Half an hour later, Tylera said in amazement: “Strange! Really strange! Without the restraint of the medicine for nine days, the body of the boss is actually fine! Is there any trace of elemental effect?”

“Everyone who doesn’t know thinks that they don’t have any weapons of Velador Maya Industry...”

Hearing this, everyone else was shocked.

“Impossible! How could it be okay? This is absolutely impossible!”

...

No one believes it.

Levi smiled helplessly: “Now you know I’m okay? Because the toxins on the weapon can’t penetrate my body at all...”

“Huh? Impossible! Boss...”

“If you really can’t invade your body, it’s really against the sky!”

...

Everyone was shocked and suspicious.

“I seem to know the truth...”

Tylera suddenly smiled.

“what?”

Everyone gathered around.
