

# The Protector Novel Levi Garrison Chapter 2303 – 2304

## Chapter 2303

“I found that the boss has residual medicine in his body, and there are a lot of them! I understand why the boss hasn’t had an attack in the past nine days! The residual medicine still has an inhibitory effect! The effect of this medicine is even better than we thought!”

Tylera explained.

Levi looked helpless.

That’s because these boys forced him to take medicine all day long, and he couldn’t vomit anymore.

You can only drink it.

But his body can’t tolerate these foreign substances now.

So it remains in the body.

He must be forced out every short time.

This time it hasn’t had time to be discharged.

Tylera found it.

I mistakenly thought that these medicines suppressed it.

“That’s great! The boss has always had good luck! This is so lucky!”

Everyone looked ecstatic.

“Now with the medicine and method we found, it is absolutely no problem to keep the boss from attacking for a period of time!”

Tylera said in surprise.

“This is really great!”

Levi smiled bitterly: “I’m really fine! You don’t have to toss about it!”

“Boss, just listen to our arrangements! By the way, you have practiced these exercises recently, and it also has a restraining effect!”

...

Everyone did what they should do.

“On the one hand, we continue to suppress, on the other hand, Tylera produces medicine...”

Looking at this group of good brothers, good apprentices, and good subordinates.

Levi was a little touched.

They really do everything for themselves!

But what he said now, these people didn’t believe it either.

After waiting, just make up for them.

...

“What? Levi is okay? What’s the matter?”

Ye Wudao and Lawrence were shocked when they found out.

For nine days, Levi stopped abruptly without taking any medicine.

“How is this possible? How can there be nothing wrong with the weapons of Maya Industry? Even if I was stabbed, I would definitely die!”

Ye Wudao’s eyes were full of disbelief.

“Yeah! It’s not possible! It stands to reason! What they saw was a corpse that was extremely decomposed! It turned out to be okay?”

Lawrence didn’t believe in all this either.

They clearly cut off all Levi’s life.

As a result, Levi changed his fate against the sky!

Nothing at all!

How can this be?

No one wants to believe it!

“Impossible! There must be a reason! Maybe they are alive!”

Ye Wudao said.

Lawrence nodded: “There is such a possibility! But then I see how he can survive it! It will take dozens of days for Tylera to produce the medicine!”

Although Tiance Young Marshal did not ask about it.

But what is the matter.

He knows it all.

“Levi’s fate is too hard, right? It’s all right? Nothing at all?”

After knowing the situation, the Marshal Tiance was stunned.

“what’s the situation?”

He had the same idea as Ye Wudao, he was hit by a weapon of Maya Industry, and he was dead.

Tiance Mansion has nothing to do!

“Tylera said that there seems to be residual medicine in Levi’s body, which has always been inhibiting!”

Someone explained.

“That means Levi will still have an attack next time?”

Asked the marshal Tiance.

“Yes, yes, yes! Absolutely! Let’s wait! Some people estimate it will only take three days!”

Other humane.

“Okay, then let’s wait and see! I don’t believe it! Levi is fine!”

No one believes in evil.

Must wait for Levi’s injury to strike.

...

In fact, Tylera is also very nervous here.

indeed.

The residual medicine and various methods would last Levi for three days at most.

What should I do in three days?

That is a problem!

Three days soon arrived.

Everyone is watching Levi on this day to see if he will have an attack.

Everyone is so nervous to sweat...

At this moment, the Evil Sword God and others came back.

“Good news! Great news!!!”

The sword evil god said excitedly.

## Chapter 2304

The Sword Evil God was panting for breath.

Obviously went a long way.

It is estimated that after learning the news, they came non-stop.

Tell everyone the good news as soon as possible.

“what happened?”

Everyone got together one after another.

Even Levi came along with great interest.

Want to know what's good.

“We have found a solution to the Mayan industrial weapons!”

The Sword Evil God breathed heavily and said something shocking.

“What??? Found a solution???”

Everyone present was shocked.

Their eyes are about to fly out!

Because this thing seems to everyone, it is absolutely impossible to achieve at this stage!

But now some people say yes.

How can you not be shocked?

“What’s the solution? Say it! Say it!!!”

Everyone is excited.

Tears filled his eyes one by one, unprecedented excitement.

Who is not shocked about this?

Even Levi was a little curious.

What is the solution to the weapons of Maya Industry?

He has checked that special element, but he has never seen a toxin.

Neither he nor the poisonous god could develop an antidote.

“What? Say it!”

Levi also urged.

“The way is that someone has discovered a substance that can dissolve this special element! After repeated experiments, this new substance can dissolve the special element of Maya industry!”

The Evil Sword said excitedly.

“what???”

Everyone was shaking with excitement.

“There is this kind of substance? It’s amazing, isn’t it? The first time I heard that there is a substance that can dissolve the special elements of the Mayan industry!”

“Where did you find it? Who found it? Hurry up! The boss has hope of surviving! It’s great! The boss is lucky, the boss is not dead!”

...

The Evil Sword explained: “It is the doomsday seed bank of Kangaroo Nation. They found this rare substance in the deep sea near the Kangaroo Nation! One test found that it has a dissolving effect on Maya Industry’s weapons! It’s amazing! !”

“But this kind of deep-sea material is extremely scarce! They have spent a lot of time searching in other seas, and almost nothing! The total may be only a few hundred grams. It is regarded as a treasure by the Kangaroo Nation, and it is stored in the Doomsday Seed Vault!”

The evil god of poison then said a piece of news that made everyone’s heart cool.

The solution is there.

The new substance has been found.

But it's too scarce.

It is regarded as a treasure in the Doomsday Seed Vault.

Once placed in this place, it is difficult to do.

It's hard to get!

The faces of the people who had just been excited turned gloomy.

Still a problem!

The Evil Sword God said helplessly: "After learning the news, we contacted Kangaroo Nation as soon as possible, and wanted to get this substance at any cost! But they rejected it on the spot!"

"Yes, we negotiated in good faith! They asked them to make terms, but these people didn't get in! They didn't give us any chance at all! They just drove us away!"

"We didn't have time to think of his way, so we ran to find you first, tell you the news, and see what you can do?"

...

Hearing this, everyone felt cold again.

How is this whole?

I was given hope and despaired instantly.

People treat this substance as a treasure.

It must be difficult to get!

You have to come up with things that people like and feel beyond the new material value.

“Don’t be discouraged, everyone! Now that the new substance has been found, the next step is the question of getting it!”

“Think about it, everyone, or discuss with the Kangaroo country! They must have weaknesses! They must have something in need! We just need to take it out!”

Wesley looked at the people and said, “This is a solution to the boss’ situation, once and for all! We will do whatever it takes! Understand?”

## The Protector Novel Levi Garrison Chapter 2305 – 2306

### Chapter 2305

“Yes! This opportunity is rare! We have to fight! No matter what conditions the other party offers! We have to agree!”

Everyone worked together.

“By the way, this news was just discovered! I guess other people will soon find out that they may be stopped at the boss at that time! Even get this substance first! Then it will be completely over!”

Sword Evil God said.

“So from this moment on, we must be ahead of them and get the new substance first! There is no time to delay! Let’s go directly to the Kangaroo country!”

“In order to have more dreams at night! Boss, you go directly to Kangaroo Country with us! After you get the new substance, use it directly! To prevent other situations from appearing!”

...

Wesley and the others arranged in an orderly manner, and Levi didn't even have a chance to interrupt.

“Okay, let's go now!”

Everyone is about to set off immediately.

But at this moment, Tylera held his cell phone gloomily and exclaimed: “No! The dark web has released news...”

“what?”

“The dark web released a news that the Doomsday Seed Bank of Kangaroo Nation has found deep-sea substances that restrain the special elements of Mayan industrial weapons! And it has detailed information and experimental data! Now the world has spread madness!!!”

When Tylera told the news.

Everyone shook their hearts.

What are you afraid of...

Just talking about it, you have to be one step ahead and have the advantage of knowing the news first.

In a blink of an eye, the advantage is gone.

Now as soon as the dark web news is released, the whole world knows it.

And it's the big news that blasted the world!

Almost every corner in the shortest time!

“Dark Web???”

Levi muttered silently.

Three years ago, the dark web was a mysterious existence.

No news can escape the dark web.

To be honest, the dark web is the top power in the world...

Unexpectedly, three years later, the dark web is still so strong.

As soon as there was news over there, the dark web knew it immediately.

I don't know what kind of existence is controlling the dark web...

“Do you know what the dark web comes from?”

Levi asked.

“The boss is at this juncture, you are still entangled in the dark web! Let's think about how to get the new substance!”

“Now as soon as the news comes out! It is estimated that many people have gone to Kangaroo Country to find new substances! Maya Industry will definitely go too! After all, they don't want others to know how to restrain themselves!”

“The boss's opponent will go there as soon as possible! Even if they don't get it, they will be destroyed! After all, the boss can't get it!”

...

indeed.

They are right.

Ye Wudaozhi and his ilk rushed to Kangaroo Country immediately after learning about this.

They would never let Levi get a new substance.

He must die!

Even Marshal Tiance is very interested.

“Forget it, we don’t need to go, many others have gone! Levi don’t want to get this new substance!”

...

Maya Industry.

The major forces of the East Island countries.

The major forces of the Eagle Nation.

...

One after another rushed to Kangaroo Country.

This new substance will directly affect the new situation in the future and the status of Maya industry and so on.

A group of people also went to join in the fun.

The leaders of some big forces have already discussed with Kangaroo Country.

...

Although hope was slim, Wesley and the others set off with Levi.

Speed of life and death.

They have to work hard.

Get this new substance at all costs.

Levi was very moved.

Everything is in my heart.

“Do you really want this new substance?”

Levi asked suddenly.

“what?”

This made everyone stunned.

“Of course! Boss, you don’t want to, this is something to save your life!”

Everyone answered.

“By the way, I remember, three years ago, I helped the Kangaroo country beat the blood ancestors, and they owed me a kindness! Let them take this thing back!”

## Chapter 2306

Levi said this.

Now these brothers and apprentices care about themselves so much and work hard for themselves.

He really couldn’t stand it.

I don’t want them to worry about themselves so much.

So simply take advantage of the kindness owed by the Kangaroo country to exchange for the new substance.

In this way, the brothers and apprentices know that they are in good health.

I won't continue to worry about it, and turned around myself.

This is what Levi thought.

"It turns out it was the boss that you resolved the crisis in Kangaroo Nation! It was said that it was Tiance Mansion. It seems that you did it, and then Tiance Mansion took the credit!"

Everyone was shocked.

"Yes, that's right! I fought off the blood ancestors of Golden Harbor Island and Kangaroo Country! I helped them resolve the crisis, and they owed me a kindness! No matter what the conditions are, they can agree!"

Levi smiled.

"Okay! That's great! Kangaroo country owes you a kindness, so they must get new substances out!"

"call!"

Everyone breathed a sigh of relief.

With Levi's relationship, they would take it out anyway.

Now everyone's haze was swept away.

Everyone went to Kangaroo Country with ease.

on the other hand.

Many forces have already arrived in Kangaroo Country.

Negotiate with representatives of Kangaroo Country.

However, the Kangaroo country still refused.

They are unmoved by any conditions.

After all, this new substance is too important and too scarce.

In so many places in the world, only kangaroos are owned.

The value is too precious.

Coupled with the weapons that can restrain the Mayan industry, it solves a problem that has headaches all over the world.

Therefore, the new substance has become a hot commodity.

It's no less than the divine weapon Heavenly Sword before.

Many people went directly to looting after discussing it incorrectly.

There are also some who use force directly, or sneak in secretly, wanting to steal new substances directly.

But what no one had expected was that in everyone's eyes, the relatively weak Kangaroo country would come out with dozens of strong men comparable to the forefront of the gods' list.

Kill all of these people who came to steal, leaving no one behind.

For the first time, Kangaroo Nation demonstrated its superior combat power and shocked the world.

So they are so strong?

All the people or forces who had ideas about the Seed Bank of Kangaroo Doomsday were all shocked.

In this way, who would dare to grab it directly!

Ye Wudao was also there at the time, and he was directly suppressed by the mysterious powerhouse of Kangaroo Country.

Everyone then realized that there are still many strong players in this world who have never taken a shot.

Therefore, all of them are dumbfounded.

The kangaroo country is deeply hidden.

Not only does it have this new substance, but it also has such a terrifying guardian of the strong.

It's getting more difficult to get affirmation.

Unless the kangaroo country can not refuse conditions.

Otherwise, no one can think of this material.

“As for you, are you also here for this material?”

The representative of Kangaroo country looked at Ye Wudao and others.

Ye Wudao smiled and said, “You have misunderstood, in fact, we are here to discuss other things with you!”

“other things?”

Everyone was taken aback.

“We are not interested in this new substance! But we must ask for something-don’t give it to Levi! Don’t! We agree to any conditions! Don’t give it to Levi!”

Ye Wudao and the others were excited. The reason they came here was to stop Levi.

Don’t let him get new substances.

“It turned out to be for this reason...”

The representatives of Kangaroo Nation smiled and did not speak.

Ye Jun came on the way for a group of people.

Encountered batches of interceptions.

This is Ye Wudao’s arrangement.

But everyone settled it calmly.

Anyway, don’t worry now.

The Kangaroo country owes Levi a kindness.

You can go anytime.

The new substance is in their bag.

Ye Wudao, how quickly they go? ? ?

It’s not useless!

# The Protector Novel Levi Garrison Chapter 2307 – 2308

## Chapter 2307

Wesley and the others also found out what happened that year.

Levi, who fought off the blood ancestor, was called a hero by the Kangaroo Kingdom.

There will also be a celebration.

But Levi refused.

The Kangaroo Kingdom promised Ye Jun a condition-owing him a kindness, as long as Levi opened his mouth, the whole Kangaroo Kingdom would help him without hesitation.

Compared with all the efforts of a country to complete a kindness, the matter of taking out new substances is too simple.

Although the value is precious.

But it's easy to complete.

And according to Levi's situation, only less than half of the new substance is needed.

For Kangaroo Nation, it kills two birds with one stone.

Not only has it returned Levi's kindness, but also can continue to keep the new substance in the seed doomsday library.

Very simple thing.

Therefore, Wesley and others looked so relaxed.

Come to Kangaroo Country in no hurry.

Compared to Ye Wudao's speed, Ye Jun came to the Kangaroo Country where a group of people arrived six hours later.

“Unexpectedly, this kangaroo country in the past has changed so much! Especially in the past, there was no strong man who was bullied by a blood ancestor to almost annihilated. But now you look at this powerful aura!”

“I just got the news that the Kangaroo Doomsday Seed Bank is guarding more than a dozen powerhouses in the forefront of the god list! I'm afraid it is stronger than the strongest unicorn, the evil sword god, and Xiao Feng among us!”

...

Everyone began to discuss the top powerhouses in Kangaroo Country.

Levi smiled.

When he came out of the dark prison, the first place to set foot in the inhabited place was Kangaroo Country.

At that time, as soon as he felt it, he discovered that there are indeed many strong people in Kangaroo Country.

There are dozens of them with aura stronger than Qilin.

Levi guessed that the emergence of these powerhouses should have something to do with the Doomsday Seed Bank.

Because he felt the power of the doomsday seed bank.

There are many unknowns in it.

It is not surprising that there are so many strong players.

“You are finally here!”

At this moment, a joking voice sounded.

Ye Wudao, Lawrence and his party appeared.

“It’s much slower than we thought! You don’t seem to be anxious at all!”

Lawrence smiled.

Ye Wudao said directly: “How can the trash I arranged have the strength to stop you for so long? Are you deliberately slowing down?”

Ye Wudao’s eyes fell on Levi’s body: “Do you mean you want Ye Jun to die? Deliberately delaying time? Don’t want him to get new substances to save his life? Hahaha...”

“Hahaha.....”

Lawrence and the others laughed.

But everyone glanced at him contemptuously: “What do you know? We are not in a hurry at all.”

Bai Hu smiled and said, “Ye Wudao is not afraid to tell you! Three years ago, the boss killed the blood ancestor and solved the danger of Kangaroo country! They owed the boss a kindness, no matter what conditions, as long as the boss opens his mouth, Kangaroo country will Do everything to fulfill his request!”

“what???”

When Ye Wudao and others heard the news, they were shocked.

This is something they never expected.

Levi is so kind to Kangaroo!

The Kangaroo country owes Ye Jun a condition!

Now as long as Levi speaks, isn't that new substance in his hands?

No wonder the representatives of Kangaroo Country just showed a weird smile...

Thousands of calculations, I didn't expect this to happen.

Seeing Levi and his party leave.

Ye Wudao ordered: "Go, let's follow. Once they get the new substance, we will grab it or destroy it!"

They have been following in the dark, following Levi's group.

Ye Jun came to the agreed place with them.

The representatives Bogut and Nelson in front of them were the two who made the promise.

Levi said: "Three years ago, I solved the crisis of the Kangaroo country and smashed the blood ancestors! Your Kangaroo country owes me a kindness, and I have come to honor it!"

## Chapter 2308

Ye Wudao secretly began to get nervous.

I'm afraid no one thought of this scene.

Levi actually begs the kangaroo.

Then they are about to get the new substance.

Ye Wudao was already arranging how to snatch or destroy the new substance.

It was mainly Levi's masters like Qilin who were all there.

It's also a bit difficult to snatch.

...

Levi looked at these representatives of Bogut and said: "This kindness can't be owed by you all the time! Now you can divide the new deep-sea substance you discovered into 200 grams and give it to me! Don't make it difficult for you, the matter between us is wiped out!"

Qilin and they all looked expectantly at Bogut and others.

Ye Wudao also became nervous.

People from other major forces panicked when they heard that the Kangaroo Nation owed Levi a kindness.

Now it's time for the new substance to return to Ye Jun.

Everyone looked at Bogut and other Kangaroo delegations with breathlessness.

"Grace? What kind of gratitude?"

But suddenly Bogut said something like this.

Senseless!

Everyone is dumbfounded!

Especially Levi, Wesley and others were completely dumbfounded.

Don't admit it? ? ?

have no idea? ? ?

If others said they didn't know, Levi would still understand.

But Bogut was the person who witnessed the events back then, and even the party who verbally owed Levi.

How could he not know?

There is another Nelson, who wanted Levi to be called the hero of Kangaroo country, and he also threatened to celebrate Levi with a nationwide celebration.

Should he remember?

Levi looked at Nelson slowly.

But Nelson also agreed: "Yeah! What kindness? Why don't I know, is this person talking nonsense?"

Nelson and Bogut looked at each other and said in unison: "Yeah, I don't know what he is talking about?"

The two looked at the people behind them again and asked aloud: "By the way, do you know what's going on?"

"have no idea!!!"

Everyone shook their heads.

"boom!!!"

Levi and Wesley were going to burst into anger.

on purpose!

Bogut, Nelson, these people are deliberate! ! !

How could the person not know?

Amnesia?

It's absolutely impossible!

They just pretended not to know on purpose!

"Who are you? We know? Have we met?"

Bogut looked at Levi and asked suspiciously.

"This is the famous Levi, we know, but we haven't seen it before, we've never seen it before, this is the first time we see you?"

Bogut and Nelson sang and got together.

Levi smiled without anger. He looked at the two of them and smiled, "Listen! I am Levi! The blood ancestors accidentally landed in Kangaroo Country! Massacre in Kangaroo Country! When you are driven to a desperate situation, when you have nothing to do, It was I who appeared, killed the blood ancestors, and saved you!"

"In return, you have to hold a celebration, but I refused. But you said that you owe me a kindness! As long as I speak, no matter what the conditions, you will help me complete it without hesitation!"

"Now I just want you to repay the kindness! Just give me a little new substance! Understand?"

Wesley and others echoed: "It was the boss who helped you solve the national crisis and killed the blood ancestors! You owe a kindness to the boss! Now hurry up!"

Everyone also felt more in the mirror.

After investigating now, this is indeed the case.

Kangaroo country owes Levi a great kindness.

Also promised by these two representatives.

Now people are coming to honor the kindness.

But no one thought it was Bogut and Nelson who said, “Fart!!! When did you Levi help us solve the crisis? You are really shameless! Why are you everywhere? I dare to take any credit for it. ?”

The language is not surprising and endless.

The words came out.

Exploded...
