

The Protector Novel Levi Garrison Chapter 2321 – 2322

Chapter 2321

fact!

Only cruel facts can make a person sober!

Sarah wanted to use this to make Levi thoroughly recognize the gap!

Only the desperate situation and the cruel facts can let him put his hands behind, he can focus on progress, and he can practice the techniques left by the apprentices.

Otherwise, you just persuade and ridicule.

It doesn't work for Levi!

The so-called penny stumps heroes!

Now Levi has a bit of strength, he is considered a strong man on the quasi god list, and most things can still be solved by himself.

In addition, a group of brothers and apprentices of the strong gods are guarding her, and the daughter of a super strong is also guarding her.

He will not encounter any setbacks now.

Therefore, you can be conservative and don't have to think about how to improve crazy.

Only cruel facts and desperation can push him.

After waiting for a month, Sarah will let him understand his situation first, and then stop his brothers from guarding him.

Let Levi know the difficulties and know that death is coming.

Then he will work hard.

Will abandon everything!

In short, Sarah is looking forward to a month later.

“Well, I’ll wait for a month!”

Levi smiled.

In the following days, all parties are working hard to practice.

Everyone in the Li and Mann also found a clean place to continue practicing.

Wesley and the others have been wasting too much time with Levi recently.

Therefore, after Levi was fine, he immediately went to practice and improved.

Levi continued to practice and search for clues.

after a few days.

Li Chengmin contacted him.

Claiming that there was movement in Maya Industry, they sent people to Orion Group to collect experimental data on all the mutant monsters.

As for the mutant monster locked in the metal fortress before the Orion Group experiment, they didn’t even look at it.

It seems to be not interested at all.

Because Levi killed all the mutant monsters, none of them remained.

If Maya Industry wants to see it, Li Chengmin has to find other ways to find a bunch of people to disguise these mutant monsters.

But the representatives of Maya Industry didn't even look at it.

Perhaps in their eyes, the experimental data is the most important.

"I guess that they took the experimental data. It should be that the mutant monster's experiment has made a major achievement! It is estimated that there will be actions next!"

Li Chengmin said.

Levi also agreed with this statement.

Now it feels that the behavior of Maya industry is more and more like the previous laboratories of the gods.

The things they do and their styles are very similar.

There is no definite evidence to show the relationship between Maya Industry and the laboratories of the gods.

But there are some clues.

They look so alike.

In fact, when there was no progress in the investigation during this period, Levi was directly comparing the similarities between Maya Industry and the Laboratories of the Gods.

Plus what Li Shiji said to him.

It made him believe that there was something tricky in it.

In particular, Maya Industry has been developing variants of Living Dead with the help of Orion Group, which is certainly of ulterior motives.

And the experiment must be more than Orion Group.

Maya Industry also controls many forces.

Orion Group is just one of them.

Levi can easily find this point because of the huge power distribution of the Bible organization.

This project is extremely important for Maya Industries.

It should take a lot of effort.

It is not yet clear what the purpose is.

But as soon as the news of Li Chengmin came out, Levi thought it was possible.

“Okay, next, I want to see what Maya Industries is going to do?”

Levi keeps Li Chengmin and the major forces of the Bible organization concerned.

A few days later, Maya Industry released a news that shocked the world!

As soon as it came out, the whole world exploded.

Including Sarah, Wesley Xiao Fengzhi and his ilk were all excited.

Chapter 2322

Not just them!

The big powers of the world's major forces were alarmed.

All the people who had been retreating did not retreat, and all ran out.

There is no other reason.

Because Maya Industry brought shocking news.

They will launch a series of challenges!

Here, your strength will increase substantially.

Specifically for some strong people who encounter bottlenecks.

Maya Industry has launched a series of challenges before, and it has indeed allowed many people to progress and grow.

Even Wesley has participated in the challenge of Maya Industry.

It's all life and death challenges.

There is a high probability of death.

But if you want to survive, your strength will be greatly improved.

After all, real combat is the fastest way to progress.

In addition, all kinds of improvement methods are quick.

Therefore, after taking part in several challenges, the strength improved super fast.

The most important point is the Maya Industry Challenge series, which is too professional.

Use the top technology to set up a variety of suitable challenges.

There are those that improve defense, offense, offense and defense, and even assassination...

Only you can't think of it, nothing they can't do.

Whether it is special or comprehensive.

You can take part in the challenges of Maya Industry to improve.

It is a pity that Maya Industry's Challenge Series has only been launched once in the past three years.

That was also the beginning of the new era.

Maya Industries is launched.

No one went there at first.

But after someone tasted the sweetness, everyone rushed to it.

One by one, rushed to participate.

Wesley and the others only got a qualitative leap at that time!

It's not just them.

It should be said that seventy to eighty percent of the powerhouses in the gods' list have taken a leap after taking part in the challenge of Maya Industry.

Even Sarah has participated in this challenge.

Strength is also advancing by leaps and bounds!

So now that Maya Industry has a challenge series, Sarah is no longer closed.

Ran out directly.

That time, it only lasted three months.

If you want to participate in the future, there will be no chance.

Everyone has been waiting for Maya Industries to launch new challenges.

But it hasn't happened.

This time it finally came.

And stronger than before!

Suitable for stronger people to participate!

When Levi heard this, the corners of his mouth raised: "Fox tail is finally about to be revealed? I know what the challenge is this time!"

Levi guessed that this time Maya Industry challenged those mutants of the living dead!

Will fight directly with the challenger!

Levi quickly contacted Li Chengmin, and the other party had the same idea.

This challenge must be set up with variants of the living dead.

But no one knows the reason for the specific challenge.

You have to wait until the challenge begins before you may be able to know.

"Although I don't agree with many things in the new era, I have one thing to say, their actual combat experience is indeed sufficient!"

Levi nodded.

Wesley's quick way is to improve quickly.

But they also participated in many actual battles.

It's a battle of life and death.

This is worthy of praise and advocacy!

The challenge of the Maya industry will be carried out in the virgin forest somewhere in the Western Continent in three days.

You can participate in the registration now.

For a while, the whole world went crazy.

Participate in the registration.

Just as Levi was thinking about Maya's industrial intentions.

Sarah and his apprentice brothers came to him one after another.

"What are you doing?"

Levi was taken aback.

"Prepare, let's take part in the challenge of Maya Industry! There is less than a month left. If you want to surpass me, you have to participate in this cruel training!"

Plum dyed.

This time the challenge of Maya Industry, Sarah can both improve.

Levi could feel despair and despair in advance.

She discussed this with Wesley and the others.

Once in the primeval forest, they left Levi alone to hone.

In this way, he will feel the danger and understand everything...

The Protector Novel Levi Garrison Chapter 2323 – 2324

Chapter 2323

Only when he was in desperate situation would Levi know how weak and helpless he was.

His little strength is simply not enough to survive, let alone protect other people.

Only at this moment would Levi wake up.

Only then will you abandon the old things, accept the new things, cultivate and strengthen yourself...

As soon as the Maya Industry news was released, Sarah immediately began discussions with everyone.

Everyone agrees that this method is good.

To challenge, you must take Levi with him.

“You have to go! If you don’t, we have to take you too!”

“There is also Aubrey going too, are you sure not to go?”

Sarah said directly.

In fact, Levi originally planned to find out.

Let’s see what Maya Industries is going to do.

The best way is to go deep into it, and even treat yourself as a prey, in order to understand the situation most truthfully.

Levi is worried, how can I go?

No, a bunch of tool people are here.

“Okay, I’m going to participate!”

Ye Jun approached.

“Okay, you are ready to prepare, we will set out now!”

Everyone.

Levi couldn’t help asking, “By the way, are there many people signing up this time?”

“Is there more? Boss, let’s put it this way! Except for the top ten in the god list, nearly a thousand strong people on the god list and ten thousand strong people on the quasi god list have basically signed up! There are other strong people who add up. There are tens of thousands!”

“To sum up-almost all the best in this world have gone! The top experts have also gone a lot...”

“It is estimated that after this challenge is over, I am afraid that the God List and the Quasi God List will be greatly updated!”

...

Everyone is looking forward to it.

They all want to further improve their strength, and the ranking of the gods is also further improved.

“Basically all the strong in this world will go?”

Levi frowned and touched his chin.

Doesn't this mean that Maya Industry can control the information and data of most of the world's powerful players?

What strength?

What speciality?

...

The advantages and disadvantages will all be exposed under the eyes of Maya Industry.

The projects they set up challenges must be able to control all of this.

Then think about it, this is super scary!

Take control of all the powerhouses in the world.

Once targeted, it's too easy.

Just aim at your shortcomings...

Once there is a large-scale war or other, these strong men are no different from the dead.

At this time, Levi felt vaguely guessing the purpose of Maya Industry.

As for the challenge estimate, it is also very simple.

Everywhere in the virgin forest, mutant living dead are put in.

Manipulate these variants of the living dead to experience the strong, and at the same time you can fully get the information you want, that is, the strengths and weaknesses of the strong.

layout!

This is setting up a shocking overall situation!

The more this happened, the more Levi had to find out.

But before that, he has to do something.

Just as all parties are enthusiastically signing up to participate.

However, one by one, big powers announced their withdrawal from this challenge.

Including super-top forces such as the emperor's organization!

Almost a third of the forces announced their withdrawal from this challenge!

This is an order from Levi to let all the forces and strong people that can be controlled by the Bible Organization to withdraw from the challenge.

The reason is simple, he does not want Maya Industry to collect information about these powerful people.

One-third of the forces withdrew at one time, which was indeed shocking enough.

The world was shocked.

However, all the top powers understand that these are controlled by the Bible organization.

It is normal for this mysterious force to make this move.

After all, no one knows what the dark god is thinking.

And the dark god is the number one god, and no one will doubt it.

It's just that what they didn't expect was that the Dark God was already Levi...

After everyone was ready, they set off together to the virgin forest in the west.

Chapter 2324

“This time nearly one-third of the people quit! But it is estimated that more than 20,000 people participated in the challenge!”

“But this is a good opportunity for us! The more people who quit, the harder and more exciting our challenge will be, and the more benefits will be for our experience!”

“Yes! It must be! When encountering difficulties, the number of people decreases, and the requirements for everyone are correspondingly higher!”

...

Later, another news came out.

The strong from all sides of the Kangaroo country will not participate in this experience.

None of them will come.

This puzzled everyone.

Previously, due to the new substance in the deep sea, everyone knew that kangaroos had many strong players.

But why did you still not participate in such a good opportunity?

What everyone didn't expect was that it had something to do with Levi.

Along the way, Levi also learned about the mechanism of the challenge.

Once it starts.

Maya Industries will not provide any help.

This is different from Orion Group's experience in the metal fortress, where the gate opens every hour.

You can escape if you regret it, or if you are weak.

But the challenge of Maya Industry, as long as you enter, there will be no way out and no one will save you.

It's useless if you regret it.

The only way to survive is to kill it abruptly.

Still cruel!

Levi was thinking about a question.

Perhaps Maya Industry will use this challenge to directly wipe out these top powerhouses, rather than simply collecting information.

Is there any relationship between the purpose of Maya Industry's challenge at the beginning and the challenge now?

No matter what, you can understand it only after you really enter.

However, the style of Maya Industry is more and more like the laboratory of the gods.

Before coming to the virgin forests of Western Continent, many people had already arrived.

Levi met many acquaintances.

Many enemies have come to participate.

They saw Levi was among them.

They discussed one after another.

It is estimated to take advantage of this opportunity to kill Levi inside.

Once in it.

Perhaps the protection of Wesley and others will not be too timely.

At that time, they had a chance to kill Levi.

While improving himself, he smoothly killed Levi.

Kill two birds with one stone! ! !

And many of them have heard of Sarah's plan.

After they enter the primeval forest, they will not always protect Levi.

They want to create a desperate situation for Levi.

In this way, they have more opportunities.

Everyone is looking forward to getting rid of Levi.

I heard that many people wanted to deal with Levi.

Sarah and they got more and more excited.

After all, the more dilemmas created for Levi, the easier it is for him to wake up.

The more that can create desperation, the better!

Of course they will also protect Levi's safety.

When he is most dangerous, everyone will appear.

But at that time everyone's goal has been achieved...

They will unanimously ensure the safety of Levi.

"Dad, mom..."

Soon after, Aubrey also came.

After this time of tempering, the little girl is simply heroic!

The strength is also terrifying!

Not surprisingly, several ancestors followed in secret.

"Junjun, come here, mom will tell you something!"

Sarah called Aubrey aside.

The main thing is to talk about the plan for Levi.

I hope Aubrey will not follow Levi and not interfere in this matter.

"So after entering the primeval forest, you go to experience! Run far away! Leave us alone!"

"If you blindly protect your father, it will not be good for him! We finally found such a good opportunity! But don't worry, we will be there at the critical moment!"

Sarah said.

Junjun nodded: “Okay, Mom, I understand!”

“But Mom, if there is danger, you can call me at any time! Aubrey is strong now!”

The Protector Novel Levi Garrison Chapter 2325 – 2326

Chapter 2325

Another group of people came.

He even ran to say hello to Levi.

It turned out to be Li Dazhong of Orion Group and other strong people on the list of gods.

They also came to experience.

Seeing Levi, several people were scared to death.

But still came over to say hello.

There is no doubt about the relationship between Orion Group and Levi.

“By the way, sir! Ms. Li Chengmin asked me to tell you that she is ready for everything! Maya Industry will always be tested! This is a chip, you can contact her at any time!”

Li Dazhong secretly gave the chip Li Chengmin asked him to take to Levi.

Levi didn't know the purpose of Maya Industry.

After he goes deeper, someone outside will have to stare.

Of course, the biblical organization will be activated, and a huge force will always be watching Maya's every move.

However, Maya Industries also needs to be monitored internally.

The best internal undercover agent is Orion Group.

Li Chengmin is ready.

"Well, good. I get it!"

"After entering, if there is any danger, look for me at any time!"

Levi said.

He didn't want Li Chengmin to be available.

He wants to protect the safety of the strong like Li Dazhong.

"Okay, okay!"

This has greatly benefited Li Dazhong and others.

The promise of this great god.

It is equivalent to crossing out their names on the Hades' Life and Death Book...

Wait until everyone arrives.

The challenge officially begins...

According to the different challenges of each person, they are sent to the designated area.

There are challenges that are biased towards offense, and there are challenges that are biased towards defense...

However, Sarah has their own superb strength and chose the challenge of offensive and defensive integration.

Still the highest level of challenge!

This means that the difficulty encountered is super difficult!

Of course, all areas are in collusion.

Sometimes you will also enter other areas...

“Let’s go! Go in!”

A group of people entered the primeval forest.

The virgin forest of this western continent is too big.

More than 20,000 people entered, and it would not seem crowded at all.

Instead, they are scattered one by one, and the distance between each other will be very large...

After entering the designated area.

Sarah immediately proposed: “In order to improve our combat effectiveness, let’s do it alone!”

She looked at Levi again: “Junlin, you also act alone!”

Levi hesitated: “Is this not good? If you act alone! You cross each other too much, if there is danger, I’m afraid I won’t be able to save you in time!”

This is what Levi worried about.

The real purpose of the Maya Industrial Challenge is not yet known.

In case it is really to use these mutant monsters to kill all the strong.

Plums dyed them instantly would be dangerous.

If Levi ran to rescue one by one at that time, he might not be able to take care of some people because of the long distance.

This is something he doesn't want to see.

What he thinks is the best of these people, who are not far away from him.

After being in danger, he can be saved the first time.

But Levi's worrying words changed their meaning in everyone's ears.

Everyone thought that Levi was afraid.

For fear of going alone, it is dangerous.

Unwilling to be separated from everyone.

It is also high-sounding that everyone should not disperse, but protect everyone.

"Pump!"

...

Many people are holding back and not letting themselves laugh.

One says one.

Today's Levi disappointed everyone.

He was actually scared.

He clearly knew that his strength was weak and he knew that he was in danger.

But why do you still practice the old things conservatively, instead of practicing the more advanced and terrifying things now?

Sarah felt much more comfortable.

Because Levi already showed signs of fear.

This is a good thing!

This has a great effect on his awakening.

Next, as long as he encounters a desperate situation, Levi will completely wake up.

When she thought of this, she strengthened this idea even more.

Chapter 2326

“No! Everyone must act alone!”

“This is the fastest growth and improvement for everyone!”

“Parents, you should also separate and go for your own practice! I tell you from the experience of people who have passed over! This is the fastest improvement!”

As soon as Sarah said this, he was approved by Wesley and the others.

“Yes, we have participated once, and we know the doorway! Experience alone is the best! However, if you encounter danger, you can send a message for help, and then everyone will help each other to rescue each other!”

Wesley said this.

Let everyone put down the grudge.

All agree to the plan of individual experience.

“I still don’t agree! It’s too dangerous! I can’t take care of it then!”

Levi still shook his head.

“Ha ha ha ha.....”

At this time Nick and they all smiled.

“Levi, Levi, are you scared? You want us to follow you to protect you, right?”

“You also protect us? Do you have that strength? You are absolutely afraid!”

“Get out if you are afraid of death! No one here will follow to protect you!”

“Yes, get out if you’re scared! No one is stopping you!”

...

laugh at.

Everyone started laughing.

Many people let Levi get out!

“No! He is here to challenge experience! Can’t let him go back!”

Sarah resolutely refused.

“Let’s do it! If that’s the case, let him die!”

Nick these people don’t care anymore.

They just couldn't understand Levi's big talk.

"Come on, from now on, everyone will act alone!"

Sarah shouted.

Levi sighed helplessly: "Well, then I will try to protect you!"

He can't go far, he has to look at these people all the time.

never mind!

Take one step, count one step!

There is no way now.

If it doesn't work, Levi will use the power of the Bible organization.

Anyway, he had arranged for Underworld God and a large number of powerful men to be outside.

While observing the dynamics of Maya Industry, you can also rush in to save people at a critical moment!

In this way, Levi entered the primeval forest alone.

But he is always watching the plums around them.

He immediately felt everyone's position.

This perception surprised him.

It turns out that Sarah and the others are not very far away from them, and they are all hovering around them.

The furthest Xiao Feng, Qilin and other fighting madmen are also within a hundred miles.

The others are closer.

Sarah was about 30 miles away from Levi.

The others are within thirty distances of one hundred miles...

After noticing everyone's location, Levi smiled.

He immediately understood Sarah's purpose for bringing him here.

It must be to let yourself feel the desperate situation, and after a thorough realization, give up your own exercises and practice modern exercises...

Therefore, although they said they acted alone, let them play by themselves.

But in fact, they have not gone far.

Instead, they were distributed around Levi's left and right sides in an encircling formation, protecting him tightly.

Guarantee his safety!

It made him feel desperate, feel the helpless situation without strength.

But at the same time to ensure his safety.

A group of cute guys!

Levi smiled.

Although these guys are so harsh.

But in fact they protect him one by one...

In this way, it would be good for Levi.

It is convenient for him to protect the plum from dyeing them.

All within a hundred miles.

Once someone has an accident, Levi will arrive as soon as possible.

If the distance is far, he may really not care about it.

“call!”

Levi breathed a sigh of relief.

Next, he can do his own thing with peace of mind.

Look at what the people of Maya Industries are going to do...

In the primeval forest, 20,000 people entered together.

Everything that is unknown and terrifying is waiting for them...
