

The Return of the God of War [The Protector]

Chapter 2721 - 7230

Chapter 2721

This speed is too exaggerated.

The Black Hawk agents were directly numb.

Directly shortened the time by more than half? ? ?

If he hadn't really seen those Big Macs, he wouldn't believe it all.

It was also predicted by Levi Garrison...

Two months is fast enough, right?

I want something faster than a month and a half...

In fact, even Mr. X is numb.

The entire man's laboratory of the gods, including the main divine division, is boiling.

I didn't even think that Doctor Dark could still be ahead, and it was completed in less than forty days.

So they plan ahead.

First, the smoke bomb was released, and then all the real Big Macs were hidden.

This trick is simply absolute.

Originally, the Lab of the Gods was still entangled-how to hide these giants under the energy power station without being discovered by anyone.

It just so happened that Mr. X was going to release this smoke bomb.

So it's a great opportunity!

Now all parts of the world are in turmoil.

Someone there will pay attention to other things.

This time period.

All the Big Macs planned by the Lab of the Gods have been hidden.

Just waiting for the start of the master plan...

After doing all this.

Mr. X also sent someone to observe and search cautiously from other angles to see if he could find it.

After confirming that it was correct, he left.

As for the Black Hawk agent, he was completely put under house arrest.

This plan is not only involved now.

And the timing of the start of the plan has changed early.

All the Black Hawk agents knew about the smoke bombs in advance.

He couldn't let it go.

"Don't worry, Mr. Black Hawk, when we succeed! You are the hero, and you will never be wronged!"

Mr. X smiled.

Everything is under his control.

The Black Hawk agent who was put under house arrest smiled: "Levi Garrison, Levi Garrison, I can't help you this time! I'm not to blame!"

"I wanted to use your hand to severely damage the Lab of the Gods and hurt both of you! Now I am afraid Daxia will be hit by the Lab of the Gods!"

"I can't send a message right now! But that's okay! Daxia is also my enemy! The more ruthless the Gods Lab, the more excited I am! You fight each other, whoever hurts, I am happy!"

Agent Black Hawk raised Erlang's legs.

He did things for Levi Garrison, but he didn't mean the same position.

Both sides are enemies, for him.

Either loss will do.

He just needs to keep his life.

Others do whatever you like.

After thinking about it this way, Agent Black Hawk would not be depressed.

Instead, there is a trace of excitement and anticipation.

...

After leaving here.

Mr. X directly ordered: "Let's get started! Make this world mess, make this world crazy!"

Situations are about to arise everywhere...

Daxia, Kunlun College.

Tiance Shenshuai and others searched for a long time.

Eventually all came together.

“No!”

“I don’t have one here either!”

“No one can be found at all!”

...

The location of Levi Garrison’s retreat has always been a mystery.

No one can find it.

“Now, give up! It would be futile to find someone again!”

The god commander Tiance said: “The king said that he came to deal with the true core of the Gods Laboratory. When dealing with these giants, he cannot reveal his strength.

So in any case, these Big Macs should be dealt with for us! He is or not, it is all us! Do you understand me? “

“Understood!”

Everyone nodded fiercely.

Chapter 2722

So! He’s not here! It’s just a lack of command! We are still us! We will participate in this battle!!!”

“Give my order-disaster is coming! The Baolong clan of Tiance Mansion should shoulder the heavy responsibility of protecting the country! Now the immediate combat power of Tiance Mansion and Baolong clan is set out with me!!!”

The superintendent Tiance ordered.

Except for the advance team sent out in advance, this time, the Tiance Marshal personally led the Tiance Mansion's large forces to the front line of defense.

now.

Coastal defense is on the front line.

All firepower is configured, just waiting to fire.

In particular, the death squad organized by Yanlong Guard is already at the forefront.

Always be ready to charge!

Xiao Liejun's combat philosophy is to take the initiative to attack.

Defense is not enough!

The death squad is one of their big kills!

Not to mention the strength of each of them, they also carry powerful weapons and artifacts.

When the time comes, if the giant creatures are too terrifying, they will choose to die together.

The powerful weapons and artifacts they carry can do this.

Xiao Liejun's idea is that with powerful firepower coverage and the death squad's charge, at least half of the giant creatures will be wiped out in one wave.

"All parties are ready! Our fighters are all dispatched! Just waiting for your order..."

The three heads of Xiao Liejun were serious about it.

"Are we late?"

A voice came.

The god commander Tiance came here with a large number of strong men.

“Hahaha...great! It’s too late!”

“Our monitoring department found them very early and far away...it will take some time for them to get here! But it’s fast too, within a few minutes!”

Xiao Liejun explained.

A bright smile appeared on everyone’s face in Yan Longwei.

Although the deployment is tight.

But they still had no idea in their hearts.

But this is all right.

After the great masters of Tiance Mansion and Baolong clan came.

That’s a different situation.

“Not only that! The masters of the ancient Garrison clan are here too!”

“We will also come with secret foreign aid! We are on the way! If it goes well, we can attack inside and outside!”

Tiance Shenshuai smiled.

Although Levi Garrison was not there.

But he can still use it.

Garrison clan and other forces.

The foreign aid he talked about was the Bible organization led by the Evil God and others, and the Maya industry led by Ye Wudao and Ye Lingtian.

After contacting them.

These people will also come to support one after another.

As for Levi Garrison's real super hole cards, he can't move.

Originally, Levi Garrison didn't plan to use it here.

"Okay! Great!!!"

"We have such a strong configuration, I don't believe they can become a disaster for Daxia? Can they step on the defensive line under our feet? Impossible!!!"

Xiao Liejun is very popular.

Now I am fully confident.

"According to the message-Western countries have already fought against each other! The Eagle Nation has also participated in it!"

At this time, a message came from the rear.

Every other place is fighting.

"It seems that this is a worldwide event! It is not specifically aimed at our great summer!"

"I just said that the king thinks too much about the word side by side, and always feels that only Daxia is the enemy! No, the whole world is suffering!"

Several people discussed with dissatisfaction.

"Come! Coming! Approaching!"

At this time, the monitoring department issued a message.

Chapter 2723

It is expected to reach the attack range in two minutes! The number is uncertain! There are hundreds of them..."

The monitoring department has already monitored it from the sea.

They are actually super fast, and they arrived in the blink of an eye.

"All ministries are ready!!!"

"Everyone listens to my orders!!!"

Xiao Liejun looked serious.

Everyone behind him was nervous enough to sweat.

After all, the enemy is unknown.

No one knows how powerful it is.

"One minute!!!"

Time counts down.

It was like a death bell ringing.

Millions of soldiers on the defensive line were so nervous that they held their breath, and there was a faint sound, to the point where the needle dropped.

You can see how nervous everyone is...

"Thirty seconds!"

"Twenty seconds!"

...

"ten!"

“Nine!”

...

“three!”

“two!”

“one!”

...

“Rumble...”

Amidst the shaking of the earth and the mountains, huge figures emerged from the sea.

The height is about 100 meters and the length is hundreds of meters.

The huge body is as big as a mountain.

The shadow of the figure fell on the sea, and it was all black all at once.

too frightening!

Scared everyone!

When the behemoth emerged, the entire line of defense was shocked.

“hiss!”

Gasping and surprise sounds endless.

The oppression brought by giant creatures is too much.

Anyone must be horrified.

Even the talents of Tiance, the supernatural and handsome, changed their expressions and paid more attention to it.

“Call me!!!”

The moment Xiao Liejun saw the giant creature, he immediately ordered.

“Boom boom boom...”

“Chichichichi...”

...

All deployed modern weapons opened fire.

“Rumble...”

The power is terrifying!

It is completely devastating!

In an instant, the sea in front of him turned into a sea of fire, like billowing magma after a volcanic eruption.

The key is not just a small sea area.

It is the entire sea area in front of the Daxia Coastal Defense Money that has become a sea of flames.

It’s like boiling a pot of steel soup with cannonballs...

The scene is particularly spectacular!

The battle is terrifying to the extreme!

Even the Lab of the Gods was stunned...

If you don’t rely on the strong, is Daxia terrifying to this point with modern weapons alone?

Sure enough, no enemy can be underestimated.

Yanlongwei and modern warriors faded out of everyone's eyes.

But once a war is fought, they are still strong enough to explode.

This firepower turned the sea area in front of the thousands of miles of coastline into a sea of fire, which is too terrifying.

The terrifying fire bombarded the bodies of these giant creatures.

"boom!"

These giant creatures can't bear the mighty power.

One by one was bombed into the sea.

Immediately drowned in the sea of fire.

Chapter 2724

A miserable and angry voice came out, as if the sky was thundering.

The tremor made the world buzzing.

...

Waves of firepower slammed, and the sea of flames continued to expand.

Hundreds of giant creatures were all flooded in front of them, and they couldn't move forward at all.

Moreover, he was extremely embarrassed and hurt a lot.

I can't stand up at all...

"Hahaha....."

"I'll just say it! No matter how powerful it is, it must be afraid!"

"Our powerful weapon passed by, and a hole was still penetrated!"

"The word side by side Wang is too alarmist! The description of this thing is too powerful!"

Seeing the effect, Xiao Liejun laughed.

The others were also encouraged, and one by one began to relax.

It's not as nervous as it was at the beginning.

"Go on! Do them for me!!!"

"Go ahead!!!"

Xiao Liejun shouted.

at the same time.

Tens of thousands of new fighters roared in the air.

"Rumble..."

Waves of coverage bombing were carried out on the sea ahead.

Weapons are pouring down like money.

The sea of flames continued to expand, and even flames rose on the sea.

This group of giant creatures are once again devastated...

Numerous casualties...

The momentum was completely suppressed.

Death squad! Come on!!!"

“Our mech legion is on!”

Xiao Liejun gave an order.

“Let’s join us too! Reduce casualties a little!”

Masters such as Tiance Shenshuai also rushed out to kill the sea ahead together.

The death squad rushed to the forefront frantically...

Followed by the Mecha Legion.

Including various super armors of 100 meters in size, and mechanical beasts!

Also moving quickly.

They are not lost to those giant creatures in size.

The superpowers such as the Tiance Shenshuai who set off at the end are the first to reach the battlefield in the sea ahead.

“Roar!!!”

...

Each behemoth struggled and came out of the sea.

Fight with the people who have been killed.

But the first ones to come out were all bruises all over.

The coverage firepower just now made them complain.

To the new force of God, the God of God, is simply defeated.

One by one fell quickly.

Even the body was torn apart.

The death squads are like lunatics, and they will never leave any way for these giant creatures to survive.

Brutally tore their bodies to pieces...

Various armors have also been put into battle, completely suppressing these giant creatures.

Soon it showed a one-sided situation.

“That’s it? That’s it?”

“Hahaha.....”

“I feel that we have sent so many people out, it’s totally overkill!”

Seeing the previous battle, Xiao Liejun and the others laughed.

So easy?

Chapter 2725

Did they prepare for so long?

Feeling prepared for nothing.

But at this moment, a sudden change was discovered ahead.

A giant creature unexpectedly emerged from the waters behind the Daxia team and attacked them.

“what?”

“this?”

...

Everyone is dumbfounded.

When did you go to the back?

And where did they come from?

Wasn't it all in front just now?

Everyone knows that when the cover bombing was just carried out.

Some giant creatures are on the sea, but more are hidden below.

Let the giant creatures above take the damage and cover them.

They quietly go around behind.

These are all new forces.

For a while, it caused a lot of trouble to the death squads and the people of Tiance Mansion.

“Support! Support now!”

Xiao Liejun's expressions changed.

It is still stronger than imagined and difficult to deal with.

They did so much preparation, but it was still in vain.

Use it all.

“Kill! Kill me!”

Tiance Shenshuai took the lead.

A large number of people charged behind.

...

This battle was so dark that the sun and the moon turned upside down, and the mountains and rivers turned pale.

Both sides are injured.

Available at the end.

Under the leadership of Tiance Superintendent.

This battle is won!

Annihilate all the giant creatures, leaving no one behind.

In the end, more than a dozen of them were captured and taken back.

Despite the casualties, it was much smaller than expected.

The death squad only suffered a third of the casualties.

There were fewer other casualties.

To know.

Yan Longwei's previous expectation was that the death squad would not withdraw alive...

All the mecha legions were destroyed.

I didn't expect to win so easily...

They are not even hurt at all...

"Hahaha... I said it earlier! With Daxia's current strength, these giant creatures are not afraid at all!"

"Have you seen the king of the word side by side? We have defeated these giant creatures! They are not as powerful as you described! They are also flesh and blood, and they can still be killed! One shot can still blast through!"

“They can’t work!!! There is no need for a safety island to prevent, let alone a protective wall to block it!”

“They were defeated by our own hands! Hahaha...”

Xiao Liejun and the others yelled extremely domineeringly.

“Neither can you say that! At least the King of Words side by side discovered these giant creatures in advance! Let us be prepared!”

There is someone on the sidelines.

“That’s true! But these giant creatures are really not strong!”

Chapter 2726

Yes! It’s a bit weak at all! It’s not worth sending so many masters!”

“For the masters of Tiance Mansion, they are just like weak chickens! Let them be dispatched, it’s really a shame!”

“This is a thousand miles away from what Levi Garrison described! That’s it? Need a city wall to block it? What kind of brain can say this kind of thing?”

“Don’t build those safe islands! It’s a waste to build them! Tell Lu Xiong they don’t do it! They are all doing useless work!”

“If we really listened to him, the whole country will build the national defense wall, then we will lose a lot! For these weak things, the whole country’s power? It’s ridiculous!”

“Next time there is such a false message, don’t let Levi Garrison say it! It’s wrong that he knew it in advance, which is a bit of credit.

But think about it, everyone, even if he says, we can’t make a temporary response! “

“This must be! With Yan Longwei’s ability, temporary deployment! The effect is the same! At most one hour!”

...

After winning, everyone thought Levi Garrison's original description was too funny.

It's not in line with reality at all.

One by one blamed Levi Garrison.

Master Taixing moved the crowd.

Obviously a small matter, but coaxed such a big movement.

Thinking of what he said before and his plan, he almost laughed out loud.

These giant creatures are indeed terrifying, but they are far away from the power of the whole country to deal with...

It's ridiculous!

They are discussing one by one.

I feel that Levi Garrison has made a fuss too much.

...

At first some people were arguing, followed by more and more people.

It's going to be a frying pan at the end.

"Well, let's just say a few words! After all, he is still good for Daxia!"

"One word side by side Wang Zhen is wrong! He has been playing for Da Xia! Everything is for Da Xia!"

"And he predicted the arrival of giant creatures right!"

Xiao Liejun calmed everyone down.

Tiance Shenshuai also said: "Yes! It may be that the king made a mistake in the judgment of the word side by side! This kind of mistake sometimes happens!"

"But! As long as there is nothing to do with Daxia! No matter how much preparation, I would rather waste all preparations! Just ask for stability!"

Heard this.

Everyone nodded their heads one after another: "This is indeed! We hope that we can't use it! In this way, none of these things will appear! We have no casualties at all!"

"I have to say! It's better to be prepared than not prepared! It's just that the word side by side is too exaggerated!"

"He shouldn't be blamed, he has merit! But the loss is huge, there is no merit, and there is no mistake!"

...

Everyone was relieved.

Also gradually quieted down.

"Okay, now start cleaning the battlefield and check the casualties!"

"At the same time, let the rear notice to cancel all operations! Let Lu Xiong also cancel the operation and stop the construction! Let him come to us! We told him to stop building the island in person!"

Xiao Liejun ordered the order.

After Tiance Shenshuai heard this, he actually wanted to stop it.

The safety island must continue to be repaired.

He thinks Levi Garrison's statement is still wrong.

After all, he knew Levi Garrison's true strength.

Even if this is the actual situation this time.

But he felt it was wrong to listen to Levi Garrison's words!

But this matter has little to do with him, and he is embarrassed to say.

After all, according to his status, he is similar to the few leaders in front of him, or even lower.

Can only give up.

"Since there is something wrong here! The three leaders, I will take them away first!"

Chapter 2727

Tiance, the superintendent is about to take people away.

"Okay! Thank you!"

Immediately, Tiance God Commander led a large army to leave.

"Rumble..."

At this time, there was a wave of shaking and shaking.

The surface of the sea not far away was already boiling.

"A powerful enemy is coming!"

"A powerful enemy is coming!"

"Attention please!"

The sirens sounded loudly, resounding across the entire defensive line.

"Ready to fight!"

“All are ready to fight!”

Xiao Liejun and the others panicked.

Shouted immediately.

Everyone prepares again, this time it is more terrifying than before.

After all, this is an unexpected situation.

“Could it be that what the king said side by side is right? This giant creature is too strong for us to deal with? There will be even more powerful ones in the future?”

Jiang Ye said this.

No one refuted it.

Waiting silently.

This may really be the case.

In this case, it would be very troublesome.

But everyone responded quickly.

All the defensive lines once again entered the first-level combat readiness state, looking at the sea not far away.

There seemed to be two directions of huge movement.

The momentum is a bit big.

It may be a bit more difficult to deal with than the giant creature just now.

“You are too sensitive! That is not the enemy, it is our reinforcements!”

“The east side is the Bible organization, and the west side is the Mayan industry!”

Tiance Shenshuai quickly explained.

He glanced over, and he could see clearly those people who had come.

“Ah? What? It’s reinforcements, it’s your own people, I’m scared to death!”

“Hahaha, let me just say it!”

Xiao Liejun and their tense nerves all relaxed.

“It’s our reinforcements! Don’t worry, everyone!”

“It’s reinforcements! The enemy is all wiped out! It’s impossible to recover!”

“Everyone retreat, it’s our reinforcements!”

...

Shouting on the defensive line.

Everyone is relieved now.

soon.

Two waves of teams arrived one after another.

It can be seen that Levi Garrison had arranged.

Both sides took out the most elite trump card to support...

The powerful artifacts alone can be seen.

This is to take out all the assets of the family!

Wrong.

The Bible Organization and Maya Industry were arranged by Levi Garrison to deal with the Big Mac.

After the evil gods received the message for the first time, they immediately brought their talents.

The evil spirits and the evil spirits looked different: "Huh? Where are those Big Macs? Where are they? Are they here?"

Ye Wudao and Ye Lingtian, who led the team on the other side, were also astonished: "Yeah, why didn't you see it? I thought you guys broke the ground?"

They are still watching carefully around.

This observation.

Everyone's complexion changed drastically.

The sea is a mess, blood, remnants, etc...

Chapter 2728

Almost covered the sea.

The Underworld God was surprised: "No? Have you already solved all the Big Macs, have you?"

The words came out.

Everyone gasped.

Ye Wudao and the others were shocked.

Xia Liejun and the others smiled: "That's right, it's wrong! We have just solved it! The battle is over!"

"Look here, it's the giant creature we caught!"

Hong Qingcang pointed not far away.

After seeing the Big Mac, the Underworld God and the others opened their mouths wide, and their eyes were full of weirdness.

this.....

Is this Daxia too powerful, or these giant creatures are too weak.

You must know that after they learned the information, they also came with the determination to die together and not leave the battlefield alive.

As a result, they came to support and they ended the battle.

This is too exaggerated.

They are equivalent to a trip for nothing.

Coaxing to play?

“No, are you too strong, or are they too weak? I didn’t come all the way, but supported? Why don’t you go back?”

Ye Wudao and they were also very depressed.

Originally, during this period of time, he and Ye Lingtian and the others had greatly increased their strength, and they were holding artifacts, wanting to show their power.

Let the world know how good they are!

As a result, there was no chance of performance at all.

Isn’t this pissing them off?

Tiance Shenshuai smiled and said: “You guys are late, you can’t catch up!”

“But tell the truth! A bit weak! We all have lost much!”

“Of course the premise is that when the Yanlong Guard puts all his firepower on, this place has become a sea of flames! It is everyone who underestimates the terrible nature of modern weapons!”

After listening to what Tiance superintendent said.

The evil gods felt that something was wrong.

They couldn't believe what Levi Garrison said.

Levi Garrison said that once such a giant appeared, it would be absolutely catastrophic.

But now the fact is that Daxia Yanlongwei and Tiance Mansion can easily solve it.

Even dispatching a powerful person of the level of Tiance Shenshuai, there is a feeling of overkill.

Where is the problem?

Is Levi Garrison wrong?

They still believe in Levi Garrison.

Absolutely what he said is true.

Then there must be some...

But Ye Wudao and the others are different, and they all have regrets.

It is a pity that they have not caught up with this battle.

“Hey, I thought there was a big battle! We came to support the loneliness!”

“Is this thing so weak? It's worth so much excitement? Who said this thing is so powerful!”

Ye Wudao asked.

“It was the king who first discovered this giant creature side by side, and he said that this thing is extremely powerful, and it is necessary to build a defensive wall on the coastline of Daxia...”

Someone in Yan Longwei told everyone the matter.

“Hahaha...you dare to believe what Levi Garrison said?”

“It’s strong enough to need a 300-meter wall to block it? Now, didn’t you solve it easily?”

“He’s just alarmist! You really believe it! Coaxing such a big battle! Anti-aircraft guns hit mosquitoes?”

“Everyone must not tell me about this in the future! Otherwise, it will damage my reputation of Daxia!”

Ye Wudao sneered.

Others also echoed: “Yes! The fact that the king predicts the message side by side must not be spread! It is blocked for me!”

But everyone refuted it.

This is the case!

These giant creatures are afraid that they don’t even have one percent of the strength that Levi Garrison said.

What he said would become a disaster as soon as it appeared.

Chapter 2729

The results of it?

It made everyone excited.

Make one plan after another.

Finally so weak...

Coax it to play?

Only the death squad and the masters of Tiance Mansion resolved it.

We must know that Yanlongwei has deployed the largest number of teams on the defensive line.

As a result, there is no chance to be put into use at all.

And there are millions of reserve teams in the rear.

There are hundreds of thousands of warriors in the dark group, dark whistle and so on.

Not even more useable.

There are also reinforcements from the Bible Organization and Maya Industry. They are too far away and come a little slower.

The battle ended.

It's so funny.

Speaking out will make people laugh.

I think Daxia is sick!

Soon news came from all over the world.

Everyone won.

After the real power of various countries was deployed, this giant creature was completely defeated.

Especially the Eagle Nation solved the battle as quickly as possible.

The disasters all over the world were removed instantly.

However, the preliminary preparations are far greater than the combat needs...

The most unbalanced is Daxia.

They prepared too much, too much, and this is the result? ? ?

“Waste! Too much waste, right? It seems to be ready, but in fact the loss is too great!”

“Who should I look for in this wave of losses? It’s not necessary at all!”

Ye Wudao shouted.

Hear Ye Wudao say so.

Xia Liejun and the others were even more depressed.

The loss is too great!

Not to mention everything that was prepared.

The loss on the safety island is too great.

Human and financial resources are sky-high!

And the materials used to build the island are all traded.

The resources for the construction of safe islands were obtained in exchange for precious resources after the treasury was opened.

The loss is too great.

The point is now not the previous resources.

It is now a semi-finished product, which is equivalent to processing.

To exaggerate it is a waste product.

If you don't use it to build a safe house, it's all wasted.

Distressed!

Xiao Liejun heard someone mention this.

The heart is really bleeding!

The safety island and all kinds of preparations are really costly.

Especially Lu Xiong is really willing to spare it!

Take out all the belongings he can take.

Just believe in Levi Garrison and fight it out at the end.

This time although it is not about the power of the whole country.

But at least a quarter of the power of the treasury and so on...

It hurts vitality...

Especially not available now.

It's even more damaging.

The loss is too great.

Indirectly weakened Daxia's national power...

The problem is big and big!

"Then Daxia can only reduce the loss as much as possible now...All the safety island projects have been stopped! Those unused materials can be sold quickly, and they can be used in other places..."

In short, reduce losses as much as possible! Levi Garrison has already pitted you, so he can only wipe his buttocks! "

Ye Wudao said.

Xiao Liejun nodded their heads: "It can only be so! The best way to reduce losses now is to stop the safe island project!"

"Really ridiculous, half of the establishment of such a large project is about to stop!"

"Ye Wudao, if you don't know how to speak, don't say it! Everything is linked to others!"

Underworld god roared.

Want Ye Wudao to know the true identity of God of Darkness, can he still laugh at him?

"What do you mean, I said Levi Garrison is getting in your way?"

Ye Wudao naturally refused to agree.

He also has a bad temper.

"Are you looking for death?"

Chapter 2730

Seeing that the two sides were about to start a big battle, Xiao Liejun and the others hurriedly stopped it.

"Everyone is on the same front, so there is no need to hurt peace!"

"Since there is nothing wrong! Then everyone should leave!"

"Our line of defense will also be withdrawn! Everything must go back to the past!"

...

Xiao Liejun and the others have already planned to withdraw their troops.

After all, it has been won.

“Ah? Head Xiao, you want to withdraw? Withdraw all the deployed coastal defense lines?”

The Underworld Gods were obviously panicked.

This is a big deal.

Withdraw without thinking?

“Ah? Of course it was withdrawn! We all won this battle! Why do we still have such a long defensive line? It will be a loss for a moment!”

Xia Liejun subconsciously said.

“Ah! No! Now the danger is still not completely eliminated! What if another Big Mac strikes? And even stronger than these! Withdraw the defensive line, isn't this opening the door?”

Underworld god said his worries.

Tiance Shenshuai also nodded.

Although Levi Garrison estimated that the situation did not appear.

But still can't be taken lightly.

What if it's a smoke bomb this time?

Where is the real main dish in the back?

At this time, all the defensive lines are removed, which is equivalent to inviting people in.

After all, everyone still believed Levi Garrison's words.

Xiao Liejun laughed helplessly: “The so-called hearing is false, seeing is believing!”

“These giant creatures are dead! We also caught a dozen of them... We are going to show the King Side by Side a good look at that time! Let him see how strong these giant creatures are? Didn't they all be wiped out by us? so much?”

“What's more, these giant creatures are not only aimed at Daxia, but the Eagle Nation and other places have been attacked! They have all been wiped out!”

“They are really not as powerful as the one-word side-by-side king described! They are really average!”

“Besides, if you don't stand at our angle and position, you don't know how great the loss will be if you don't withdraw the defensive line and stop the safety island!”

...

Several people spoke their thoughts.

Feng Xie Shen stood up and asked again and again: “But have you ever thought about where these giant creatures come from? Do they still have? If so, how many more? Is it stronger? Will they come again? Attack?”

Everyone was silent now.

Just fell into joy, not thinking about these issues.

But these do indeed exist.

No one can guarantee that there is or there is...

And this situation is very likely to be discovered!

“this.....”

Xiao Liejun's trio showed hesitation and embarrassment on their faces.

This question really comes to the point.

They really didn't think about these things.

I just feel that I have won, and I don't need to do anything else.

The problems of the main wind evil spirit hit the key point one by one.

They can't answer

Even Ye Wudao and Ye Lingtian stopped talking.
