Chapter 2995 - 2996

“One word side by side, the king is the god!”

“And head of land!”

...

Everyone started to talk about Levi Garrison and Lu Xiong!

After all, they built the island with one hand!

It means that everyone’s life is now given by them!

They are their reborn parents!

“How long has it been?”

Xiao Liejun asked immediately.

“Um?”

As a result, at the next moment, everyone found that various instruments were malfunctioning.

Even the most common watches are messed up.

There is no accurate time at all!

Those high-techs are even more anomalous and cannot be activated at all.

It is strange that these instruments are not messed up.

For a while, everyone doesn't even know how long has passed!

Even the conscious perception of the strong has an impact!

"I feel it's been a long time! I don't know what's going on outside?"

Someone raised a question that everyone wants to know.

There is nothing in the safety island.

But what about outside?

What is the outside world like now?

In order to maximize the effect of the island, it was completely blocked.

Leave no gaps.

Cut off from the world!

If you want to know the outside situation, you must use an instrument to detect the outside situation.

For example, leave a special detection device.

Send back the outside picture in real time!

It's just that the magnetic field is completely disordered, and all the instruments are unusable.

Therefore, they cannot know the outside situation.

"Yes, I don't know what's going on outside?"

Everyone asked.

It's impossible to live on the island for a lifetime, right?

"Should we send someone to take a look?"

Someone suggested.

"No!"

"I don't know what's going on outside now. If the island is opened rashly, it is likely to be in great danger!"

Xiao Liejun thought for a while and couldn't help saying."Wait for a while! Can't go out yet! What if there is any danger?"

Others said one after another.

If the energy storm has not stopped.

Then the safe island only needs to open a small mouth, fearing that it will be destroyed instantly!

Even after this catastrophe comes, even if a long time has passed.

As a result, the outside environment makes people unable to survive.

Go out hastily, for fear of death.

So be careful!

Only after waiting for a while.

Only then can we go out to explore the outside situation.

Galactic Guardian Alliance, War Eagle Nation.

They activated the sky-defying device at a critical moment, and even avoided this energy storm.

However, after the anti-sky device was turned on, the transparent and invisible shield protected the entire Warhawk Nation in it.

However, you can clearly see a lot of damage to the device.

The terrible storm is devouring a little.

Thunder and lightning!

Various strange phenomena frequently appear.

There are even many strange and terrible sounds.

It's just that they were blocked and couldn't hear it.

Is this the end?

All looked outside, terrified!

As if there is something in the darkness outside?

"What's the situation outside?"

The Eagle Nation is not idle.

Continue to detect the situation outside.

"No way! All the instruments are malfunctioning! Now everything is abnormal outside! The magnetic field is abnormal, all kinds of energy particles collide randomly, nothing can be detected!"

Even the high technology as strong as the Eagle Nation can't detect what's outside.

"Go on! Go on! Don't go out at this time!"

Smith ordered.

"Although I can't go out, I can still imagine the devastated scene outside! Nothing will be left! Everything is extinct!"

The Polar Bear agent said.

“Blame me, blame me!”

The brain of God looked at all this, and it was caused by his own hands.

He couldn't wait to hit him to death.

“You can't die, you are still useful!”

Agent Black Hawk immediately sent someone to stop him.

The Eagle Nation is unimpeded.

The future of science and technology will be miserable.

In the end, the barrier of the future science and technology nation did not stop the energy storm from attacking.

In the end it was destroyed.

This level of energy storm is definitely not something that the Lab of the Gods can contend.

Moreover, the future science and technology city is protruding, and it is facing the impact of energy storms.

The safety islands in Daxia are built underground or in the sea, or even in depressions in the basin. Did not accept the impact of the energy storm head-on.

Therefore, it will be spared.

Otherwise, the island would not be able to suffer the impact of such a violent energy storm.

On the other side.

The ancient forces that studied ancient monks also survived.

They took the Dark Doctor and a group of people, hiding in a pyramid-like building.
