The Return of the God of War [The Protector]

Chapter 3541 - 3542

Facing the attack and killing of the top ten talents.

Levi Garrison stood still, as if he was frightened.

“boom!”

Bai Xinghe seemed to hold the power of overturning the galaxy and bombarded Levi Garrison with a bang.

A sword condensed by Chu Qingshuang’s qi refining technique also stabbed Levi Garrison.

The tricks of the other eight geniuses also hit Levi Garrison one after another.

This gave them hope.

Be able to defeat Levi Garrison.

Even the corners of Bai Xinghe’s mouth showed a smile.

This time, Levi Garrison was either dead or injured.

One on one, they are not rivals.

But how can Levi Garrison be an opponent when the top ten talents are united?

“Die!”

Bai Xinghe showed a hideous color, and the terrifying power was going to smash Levi Garrison apart.

And Chu Qingshuang's Sword of Refining Qi also stabbed fiercely.

...

"Um?"

But the next moment, Chu Qingshuang's face showed surprise.

Because the invincible sword condensed by her qi refining technique was blocked, she could no longer move forward.

Not to mention penetrating Levi Garrison's body.

"this....."

Others have found it too.

Levi Garrison's physical strength exceeded everyone's expectations.

Any attack seems to be useless!

They encountered the same situation as Chu Qingshuang.

The power of the overturning of the galaxy in Bai Xinghe's hand actually disappeared like a mud ox into the sea.

surprise!

Shock!

What's going on here?

Today, everyone is within easy reach of Levi Garrison.

You can even see the smile on Levi Garrison's face.

The corners of Levi Garrison's mouth rose, revealing a meaningful smile.

"Boom..."

Immediately, it was like a star shattered.

Levi Garrison's body is like a vast and boundless universe, bursting out with terrifying power.

"puff!"

"puff!"

"puff!"

...

The top ten Tianjiao suffered from this terrifying force and were no longer invincible.

Not even a chance to block.

Everyone's body was thrown high and flew out.

The top ten Tianjiao flew out again and fell to the ground again.

This is still the case of Levi Garrison's mercy.

Otherwise, the top ten Tianjiao will definitely be smashed to pieces.

The town hall artifacts were not seen.

How could Levi Garrison let them die?

Shocked!

So shocking!

It was almost the most terrifying combined blow of the top ten Tianjiao.

May not be useful at all.

Levi Garrison couldn't be hurt at all.

So what level of horror does he have?

More terrifying than you might imagine.

In the town magic department, it is definitely in the top few.

No one can even do anything to him.

It's outrageous.

Who would have thought that a monkey outside was in such a situation?

Who would have thought of this?

The key point is that he can't even see through his tricks and strength.

Pure body repair?

Is there such a pure body repair?

At this time, the army of the Town Demon Division and the mysterious forces had already arrived.

"Come on, kill yourself!"

Levi Garrison entered the battle group with a pair of iron fists.

"boom!"

"boom!"

"boom!"

...

His pair of iron fists are like magic weapons, unmatched.

Everywhere he went, there were corpses flying around.

The Qi refining techniques of these masters are useless at all.

The defense can't prevent it, and the attack and kill are useless.

Apart from the large number of people, there is no advantage at all.

Tens of thousands of people are disappearing at a speed visible to the naked eye.

No matter how you unite, no matter how you form a battle formation.

There is nothing to do with Levi Garrison.

On the contrary, more and more people were killed and injured.

Levi Garrison has nothing else but to fight you head-on.

Directly to the bomb!

in a blink.

Half of them don't have it.

The top ten Tianjiao were seriously injured, and they immediately took the panacea.

This was absolutely impossible before.

It's a shame for them to take this elixir.

To deal with a monkey, do you still need to take an elixir?

Isn't that a shame?

It's rumored that they are still hanging out?

After taking the elixir, the ten Tianjiao's injuries recovered quickly.

They also immediately gathered together.

Looking at Levi Garrison who was fighting in front of them, their hearts were full of fear.

This is too strong!

If you don't act, these people will be killed in front of you.

I thought it would be useful to combine so many masters.

Now it seems that to Levi Garrison, it is an existence like an ant.

Step on as much as you want.

There is no threat to Levi Garrison at all.

"what to do?"

Han Jiuxiao asked.

"Prepare to activate the town hall artifact!"

"Levi Garrison is too powerful! If you don't use the divine artifact of the pavilion, there is absolutely no way to take him!"

Bai Xinghe and Chu Qingshuang said in unison.

This is their only hope.

If the town hall artifact can't do anything to Levi Garrison, they can't imagine it.

The Zhenge artifact must kill Levi Garrison.

Soon they found the attendants and took out all the four wooden boxes.

“Boom...”

Immediately, a vast breath rushed in.

The previous use was when fighting against the Xuanming alien race.

put on hold for so long.

It's that there is no one who is qualified to let the Town Demon Division dispatch them.

Now Levi Garrison is the first.

“With the use of the four town pavilion artifacts, Levi Garrison is sure to die!”

This is their slaying belief.

Gong Qianqiu, who was observing secretly, was immediately excited.

“Come on! They are starting to use the artifact of the town hall! Let all parties prepare! Ready to shoot!”

The four artifacts of the town pavilion are about to come out, and the terrifying movement is raging around.

They also felt Levilia, who was hiding in the ground.

Levilia’s little face tensed: “Dad may face the most difficult battle! I feel that there are hidden masters in the dark!”

Xiao Feng was also anxious: “What should we do? Shall we go out and help Master?”
