# The Return of the God of War [The Protector]

## Chapter 3559

Everyone understands.

It turned out that he was in control of the situation.

“But I was afraid that you would hurt my prey Levilia, so I told Levi Garrison the information in advance!”

Bai Xinghe suddenly realized: “So when we went, we didn’t see anyone else, but you actually arranged it?”

“Well, that’s right!”

Gong Qianqiu enjoys sharing her plans with others.

This kind of pleasure cannot be described in words.

Soon, she was swaying in front of the top ten talents.

Take a close look at the roots of this group of people one by one.

“It seems now that I don’t even want to think about the roots of Levi Garrison’s daughter! I can only make up my mind on you!”

Gong Qianqiu tested the bones of ten people one by one.

She kept shaking her head.

Tianjiao is Tianjiao.

Oh shit!

One talent is better than the other!

The spirit root and spirit bones are more against the sky one by one!

All are legendary!

Exist in ancient books!

horrible.

People are more mad than people!

But immediately, she laughed.

But so what?

Now the top ten talents are not in their own hands?

She wants whose roots she wants!

But.....

“Hey! Your spiritual roots and bones are excellent!”

“But after all, it can’t compare to Levi Garrison’s daughter swallowing the spirit root and spirit bone!”

Gong Qianqiu sighed.

“What? Devouring spiritual roots and bones?”

The top ten Tianjiao exclaimed again and again.

All were frightened.

This kind of impossible spiritual root and bone is actually on Levi Garrison's daughter.

"So what are you arrogant about? Compared to Levi Garrison's daughter, you have no talent at all!"

"Now I'm cultivating Levi Garrison's daughter's self-created exercise, and it already feels like swallowing it! But it doesn't match your root bones, or in other words, your spiritual roots and bones are not worthy of this exercise at all! "

This is the reason why Gong Qianqiu is depressed.

She originally thought that there were ten great talents, and they could achieve what she wanted with the combination of their roots and bones.

But still not!

If you want to be the strongest, you have to have Levilia's devouring spiritual root and spiritual bone.

But now that Levi Garrison is so powerful, how can she get Levilia's roots?

That is absolutely impossible!

She didn't even think it was possible.

Unless the sky falls pie.

But she has never extravagantly asked for these illusory things.

You have to figure it out yourself.

"call!"

I heard that Gong Qianqiu looked down on the roots of these people.

The top ten geniuses breathed a sigh of relief.

Finally escaped.

But in the next second, their smiles froze on their faces.

Because Gong Qianqiu smiled and said: "I wonder if you have heard of a more vicious method than transplanting a root bone?"

not good!

Something is wrong!

Something is going to happen!

The top ten Tianjiao all realized it.

Xu Qingya even guessed what it was.

"Have you heard of the practices of some foreign races in the past? They will dig out the spiritual roots and bones of people, then grind them into powder, and make medicines with the treasures of heaven and earth!

After taking it, it will strengthen its own root bones, and even some superb masters can create new root bones! "

A devilish smile appeared on Gong Qianqiu's face.

After saying this, the top ten Tianjiao have already begun to tremble.

This is too scary.

If so.

That's even crueler than a root bone transplant!

Also grind the root bone into powder to use as medicine?

hiss!

Thinking of this, everyone started to shiver.

And Gong Qianqiu can definitely do it!

This is the most terrifying thing!

The three of Xu Qingya sighed helplessly.

This time the top ten talents are going to be bad.

Gong Qianqiu exclaimed again and again as if he had discovered a new continent: "Yes! I can completely transform my root bone into a devouring root bone! Even if it is not as terrifying as Levi Garrison's daughter! But even half of it is enough, at least It can match this technique!"

If it was before.

How can she transform her own roots?

But now it's different.
