

## Chapter 1131

At the same time, it caused a sensation on earth.

It turned out that The Great King's first place on the global list was snatched by Tom!

And on the list, there was a "3" after Tom's name, which meant that Tom got three fruits at once!

He easily overtook The Great King.

"What? The Great King's first place was actually snatched by Tom?"

"Damn, Tom had three more fruits in one go. Did he become the Strong of God Becoming Level? Is Tom luckier than The Great King? That's

incredible!"

"It's amazing. Tom actually won first place. Is it true that the rumors outside are all true? It's said that Tom is the chosen son of this era. And it's just that he didn't reveal his true identity."

The great change in the list attracted a lot of attention at once.

In the Clan World, it also gave rise the shock. In particular, the Blood Thirst Sect were still discussing how many fruits The Great King could pick this time. They were not sure if The Great King could get more than ten. However, after only one night, The Great King was surpassed by a secular named Tom. They found it to be rather unbelievable.

"My God, did I see it right? Has The Great King been surpassed? There must be something wrong with the list."

"Yes, The Great King is the chosen son of this era. No one is able to overtake him."

"And Tom seems to be a clown boasted by people from the Secular World. How could he get three fruits?"

At the same time, many senior members of the Blood Thirst Sect were worried about the news.

Cassio and Oliver were still playing chess in the small pavilion of the high mountain. After getting the news, Oliver frowned and asked in a deep

voice, "The Great King was overtaken by Tom. Cassio, what do you think?"

In contrast, Cassio's reaction was much calmer. He just said faintly, "It's just temporary. It doesn't mean anything. It's possible that Tom was just lucky to get three fruits by chance. There's nothing to be worried about."

Kunluo said, "You are really calm. It seems that you are very confident in The Great King."

Cassio said evenly, "Of course. The Great King is the chosen son of this era. Even in the Secret Realm, no one could pose a threat to him. Tom will be killed by The Great King sooner or later."

Oliver nodded approval, "That is true. The Great King has reached an unfathomable realm. As long as he breaks through to the God Becoming Level, his achievements will definitely surpass ours. However, Melvin is also with him. How many fruits can Melvin reap?"

Cassio smiled faintly, "Don't worry about Melvin. He's the fourth Chosen One on the List of Immortals, and The Great King is helping him. In the Secret Realm, no one can threaten him. Tom is not a threat to him at all."

While speaking, he looked calm and proud. Both The Great King and Melvin were his disciples, and he had absolute trust in those two disciples. As their master, he knew well of the

strength of his two disciples.

Among the masters of the God Becoming Level, no one in the world could surpass his two disciples. Even if Emmett and Alistair worked together, they couldn't defeat his disciples.

He really didn't take Tom seriously even though Mr. Howard took the wind for the present.

Not only did he despise Tom, but he looked down upon the Secular World!

In his opinion, the Secular World was going the wrong way. People from the Secular World focused on developing high technology without improving cultivation.

Tom was born in the Secular World. No

matter how talented he was, how could he be so outstanding without the guidance of a famous master?

However, just as he finished speaking, he suddenly heard a wail at the foot of the mountain. The sound was loud. It seemed that something big had happened!

This sound also caught Oliver's attention. He frowned slightly and asked, "What happened?"

Not long after, two Blood Thirst Sect disciples rushed up. Their faces were pale, and they were in fear and panic. They came to Cassio and Oliver and stammered, "Overlord, Supreme Elder. Som, something bad happened..."

Oliver immediately frowned, looked unhappy, and scolded in a deep voice, "There's no need to be so panicky. You are from the Blood Thirst Sect! Overlord and I are able to handle anything!"

Cassio frowned and said, "What's the matter?"

After being reprimanded by Cassio and Oliver, the two disciples' faces turned even paler. It seemed that they had encountered something terrible. They stammered for a moment and did not dare to speak with due consideration.

Oliver immediately scolded, "Say it!"

The two disciples immediately knelt

down and said, "Senior Melvin's token is cracked! His name is no longer on the list..."

"What!?"

As soon as the two disciples finished speaking, they felt a strong wind blowing in front of them. At the same time, a huge pressure also fell on them. Overlord Cassio moved in front of them and said in a deep and cold tone that made them shiver in their bones.

"What did you just say? Say it again!!"

Cassio was not as calm as before.

The two disciples felt the crushing momentum and pressure from Cassio, and their bodies trembled violently. They had never seen

overlord look so terrible!

Even Oliver was shocked by the news.

Was Melvin dead?

It was a piece of shocking news!

Because Melvin was not an ordinary disciple, but a Chosen One with a bright future.

"Tell me exactly what happened to Melvin. Don't make any jokes!" Oliver said fiercely.

The two disciples knelt down and said, "Senior Melvin's token is really cracked. We don't know why. Overlord, Supreme Elder, you can confirm the news!"

After they finished speaking, Cassio

went straight down the mountain.

## Chapter 1132

Not long after, Cassio appeared at the foot of the mountain. When he returned to the sect, he saw that Melvin's token had cracked, which meant that Melvin had lost his vital signs. He was dead!

Moreover, on the List of Immortals and the List of Masters, there was no Melvin's name, which meant that Melvin was truly dead!

Though Cassio was calm, he could not help but tremble after knowing this fact,

He regarded Melvin as both a disciple and a son.

He was also very optimistic about Melvin. Ever since Melvin was young, he had put a lot of effort into cultivating the disciple. And Melvin did not disappoint him, although Melvin was less talented than the The Great King.

But this was not Melvin's weakness at all. In fact, Melvin was already very powerful among his peers. At the same time, Melvin was also cultivated as the next overlord. It could be said that he had high expectations of Melvin!

When Melvin began the trip to the Secret Realm, Cassio had never worried about him at all. In Cassio's opinion, in a place like the Secret Realm, with The Great King's protection, Melvin would be safe.

But now, Melvin was dead...

Even he couldn't accept this fact for a moment!

Almost instantly, Cassio's eyes turned bloodshot!

"Who killed my disciple? Who?!"

Cassio furiously growled.

The temperature suddenly dropped in a short time.

Ice crystals formed.

At Cassio's level, he could already vent his power.

A lot of Blood Thirst Sect's leaders

gathered around and were scared by Cassio. Though they had known Cassio for a long time, they had never seen Cassio so angry!

It seemed that Cassio was really angry.

At the same time, they were extremely shocked. Who had the guts to kill Melvin? This was against the entire Blood Thirst Sect!

"No matter who you are, if you dare to kill my son, you must die!"

Cassio yelled so furiously and powerfully that even the world was shaken and The Blood Thirst Sect suddenly caught a gust of wind...

At the same time, many martial artists

nationwide were cheerful after seeing that Tom became the top one in the List of Masters.

Now that Tom represented the entire H Country and caught everyone's attention.

Especially, the people of Military Intelligence 3 were even more exciting. They were worried about being implicated for Tom was one of their people. But Tom actually became the top-one master overnight. It was too fast and also showed that Tom really did not disappoint them!

"Hahahaha... Tom is indeed at the top! That's great. He made a big difference!"

After knowing this, Marlin immediately laughed excitedly, as if he was the one who reached the top.

Thorn, who was beside him, was extremely happy, "I told you that Tom would definitely not disappoint us. You just didn't believe it. Now, do you see this result? Three fruits! He can step into the God Becoming Level directly! We never heard that a man in his early thirties could reach the God Becoming Level!"

After saying this, Thorn was full of exclamation and admiration.

Many people around them gave an exclamation of surprise. Indeed, they had never even seen that a man in his early thirties could reach the God

Becoming Level.

In fact, not to mention the God Becoming Level, even a man at the age of 30 who became a master of the Innate Realm would be regarded as powerful.

However, Tom directly reached the God Becoming Level. It was simply shocking and made all his opponents despair.

It was conceivable that when Tom broke through to the God Becoming Level and returned to H Country, how powerful he would be.

People believed that by then, he would obtain the title of the name of God of War of H Country.

Tom would directly become the patron saint of H Country and replace Albert!

Who could have imagined that Tom was just a humble instructor when he joined the Military Intelligence 3 three years ago?

"It's not too early to be happy. Although Tom has three fruits now, he is still in the Secret Realm. If he meets the The Great King, he will still be in danger." At this moment, Pence walked out and said in a deep voice.

Hearing Pence's words, the others were indeed calmer, but Marlin still had absolute trust in Tom and said, "I believe Tom. Even if he met the The Great King, he would definitely be able to defeat the The Great King!"

"Yes, have you noticed? On the List of Masters of the Secret Realm, Melvin and the other two Chosen One have been erased, which means that these three people died. Combined with the fact that Tom suddenly got three fruits, I guess that these three people have already died in Tom's hands. From this point of view, Tom had made the breakthrough after reaching the Secret Realm! Even if he meets the The Great King, he may not be defeated."

Thorn was analyzing everything.

Something like this happened all over H Country. No matter what, Tom's achievements greatly encouraged them.

In fact, during this period of time, masters who reached a certain level could feel a sense of oppression.

This was a martial artist's intuition. In fact, many people felt that a war would definitely break out soon. And in this war, many people would definitely die. If they were not strong enough, not only were they unable to protect those around them, but they may die.

At this time, Tom's sudden success was good news for the whole of H Country.

In other words, many people already regarded Tom as the savior.

As the savior, Tom, he did not know that he had already so many responsibilities. Now, three days had

passed since he killed Melvin and Fatty and Skinny and took three fruits.

For the past three days, he kept exploring the Secret Realm

.

Originally, before he got the three fruits, he had no plan, like a headless fly, but now, he found that there was a sense among the fruits!

Now that he had three fruits, he could feel the direction of the next fruit!

## Chapter 1133

This feeling was very subtle. Tom also found that the more fruits he had, the stronger he felt connected to them.

He did not understand why things work this way, but he was sure that the first person who had fruits, or the one who had more fruits, had a higher starting point than others and it would be easier for him to find more fruits.

He would call this feature luck.

And he'd been the lucky one.

He was now curious about how many fruits the The Great King had collected and whether he'd collected more fruits than he had.

In fact, in this trip to the Secret Realm, the The Great King was his biggest enemy. No one else could pose much threat to him.

He continued to walk in the direction where he sensed fruits.

Sure enough, three days later, he found another fruit.

And when he found it, it was held in the mouth of a huge beast.

He didn't know what kind of beast it was, but it was colossal, as big as a villa on earth!

If such a ferocious beast appeared on earth, it would definitely cause a sensation around the world and be brought into labs by scientists.

However, this kind of beast was not rare in the Secret Realm. Tom had seen a lot of them along the way here.

Faced with such a beast, Tom was not nervous at all. To him, it was no different from a chicken. Of course, he did not kill it. He just took the fruit from its mouth and let it go.

Now, Tom got four fruits in his hands.

When he got the fourth fruit, that desire appeared again, stronger. A voice in his mind kept luring him into swallowing the four fruits immediately.

The desire was stronger even than the first time. Thankfully, he was prepared, or he would have given in and swallowed the fruits.

After he narrowly quenched the desire, he'd broke out in a cold sweat.

And he was more certain that these fruits were indeed not ordinary.

There was an indescribable force that was preventing him from getting more fruits and tempting him to eat those fruits he'd got. In other words, it was trying to stop him from improving.

Many people who had entered the Secret Realm before had succumbed to the desire and swallowed the fruits as soon as they found them, which had made further progress impossible.

Before long, Tom found the fifth fruit.

A native had it.

And it was worth mentioning that this native was not a tribesman like Zion, but a man from the city who was as powerful as those in Innate Realm on earth.

In addition, this man had a high status in the local area. But without any doubt, he was no match for Tom. After Tom found his position, he easily snatched the fruit from him.

As Tom had guessed, every time he got a new fruit, the tempting voice would appear again, stronger than the previous time.

Resisting eating the fruits was as hard as an addict resisting heroin.

Even times harder than that!

It'd taken Tom unimaginable effort to fight that voice and resist the desire.

When the voice finally trailed off, he was all wet with sweat as though he'd fallen into a pool.

However, after surviving the temptation, he felt even more connected to the fruits.

If things went smoothly, Tom would soon be able to find more than ten fruits!

As long as he got ten fruits, he could break through to the First Rank Summit of the God Becoming Level and become invulnerable.

He wondered how many fruits the

others in the Secret Realm had gathered.

At the same time, on earth, a great number of the Strong were paying close attention to fruits rank in the Secret Realm, and some organizations began to gamble on who was going to win at last.

Originally, the most favored person was the The Great King, because he had the biggest reputation. The second favored one was Emmett, then Alistair. Tom only ranked fourth.

However, during the past days, Tom had turned the tables by getting five fruits in a short time while the The Great King had only got four.

As for Emmett and Alistair, they only got three.

Some of the others got one and many got none.

Therefore, Tom became a hit.

More and more attention was drawn to him and even some old recluses had noticed him.

A few days later, Tom sensed the sixth fruit, and this time, he met an acquaintance.

That was none other than Legend.

Tom almost couldn't recognize him at the first sight.

It was because Legend looked in a

mess now.

"Legend, is that you? Why happened?"

Tom blinked and looked in surprise at the old man in tatters whose hair had almost been burned. It was hard to believe that he was Albert's junior martial brother Legend.

He looked so miserable now, ostensibly disheveled and spiritually depressed.

He snapped his head up after hearing Tom's voice and the corner of his mouth twitched when he saw that Tom looked so great, even better than on earth. His face fell instantly in resentment.

"You have the wrong person."

Tom was surprised as he watched Legend bypass him with his head lowered. His steps were hasty and wobbly.

Tom gave a start and immediately realized that Legend was injured and was in great dejection.

It perplexed him.

Although Legend was not as powerful as him, at least he'd reached the Half-step God Becoming Level, which meant that no one could hurt him here in the Secret Realm.

Suddenly, he thought of a possibility and frowned...

## Chapter 1134

Could it be that Legend was bullied by other Chosen Ones?

It was possible!

Before Tom had gotten the fruits, he did not know that there was a strong induction force between fruits. At first, he thought that the Secret Realm was so big that it was impossible for only 20 Super Ones to encounter each other.

But now, he knew that there existed induction force between every fruit. It meant that fruit owners would definitely encounter each other.

In other words, he and the The Great King, or other Chosen Ones, would

eventually meet.

So Legend had probably met other Super Ones.

Because Tom has also sensed that Legend had got one fruit.

Tom would definitely stop Legend from leaving here. He grabbed Legend's wrist and asked in a deep voice, "It's me. I'm Tom. What happened?"

Before entering the Secret Realm, Tom had been instructed by Albert to take good care of Legend when he entered the Secret Realm.

Being caught by Tom, Legend was obviously in a panic. He quickly shook off his hand and said, "You are mistaken. I'm not Legend!"

After saying this, he sped up and couldn't wait to leave this place.

According to his movements, Legend was obviously frightened, as if something horrible was coming up.

This made Tom even more curious.

He frowned and stopped Legend directly, raising his voice, and said, "Legend, what happened? Have you met any other Chosen Ones and was bullied by them?"

Tom asked seriously with a murderous aura. In his opinion, since Legend was the junior teammate of Albert, Legend also equated to his own teammate. When Legend was bullied, he must take revenge on them!

Although Tom was not impulsive in character and didn't like fighting or killing, it didn't mean that he was afraid of getting into trouble.

On the contrary, he was actually protective. If Legend was really bullied by other Chosen Ones, he would definitely do something to solve it.

However, Legend's reaction hugely surprised him. Legend said angrily, "I've told you I'm not Legend. You are so annoying. Get away from me!"

Something had happened. Legend had definitely met something!

Tom was completely sure about this. He grabbed Legend's shoulder and said, "Legend, you don't have to be

afraid. I'm here for you. Did..."

However, before he could finish his sentence, there was a strong momentum coming from behind, being accompanied by noises.

Legend's expression immediately changed. He became even more frightened. His eyes widened and his body trembled!

"Damn it! They're coming! We are in trouble now!"

The expression twisted Legend's face. He stared at Tom fiercely and said angrily, "It's all your fault. We will be killed because of you!"

Tom looked back and saw a group of people rushing over.

To his surprise, these people were not those Chosen Ones on earth, but the indigenous people on this planet.

These indigenous people had even achieved the Half-step God Becoming Level!

Tom was really surprised at this finding!

He had always thought that the indigenous people in the world of Secret Realm were not much strong because it was a backward planet where people were still living in a feudal society. Technology had not appeared yet.

There shouldn't have someone strong existing here.

However, the indigenous people who appeared in front of them were all extremely powerful, reaching the level of Half-step God Becoming. Interesting!

Yes, interesting.

When Tom saw these indigenous people, he was not fear, nor excited, but was interested in them, because this was beyond his expectations.

But Legend's face turned pale and his body began to tremble when he saw these people. There was fear in his eyes!

He lamented drawing a long face, "You damned guy! It's all your fault for delaying my time. Now, I'm caught up

by these people. This is awful!"

Tom turned back and looked at Legend's face. He asked, "You're in such a mess. Did these indigenous people make you?"

Legend did not answer directly, but his expression confirmed Tom's conjecture. Legend said, "The intelligence is wrong. There exist not only ordinary indigenous people but also masters at Half-step God Becoming Level! Moreover, they know the existence of the fruits, and are competing with us for them! I've been through thick and thin and finally got one fruit from them. I could have escaped, but I met you, the trouble maker! Now that they have caught up with me, we will all suffer!"

Legend glared at Tom and complained to him, believing that it was Tom who made the trouble.

Hearing Legend's complaint, Tom narrowed his eyes slightly. He got a lot of information.

According to this information, his trip to the Secret Realm was indeed dangerous.

The indigenous people standing in front of them were already tricky questions.

Tom was currently in a city called "Datu". There were many common indigenous people around. When they saw these strong men who had caught up with Legend, their expressions

revealed their reverence and admiration. Obviously, these indigenous strong men were not ordinary people.

Indeed, since these strong indigenous people had achieved Half-step God Becoming Level, they must enjoy a high reputation among local people.

At this moment, those Strong indigenous were also measuring Tom. Found that Tom was also an invader like Legend, the strongest indigenous people started to speak in the language of the earth, "Another intruder. Every once in a while, you, the earthmen, come here to find and seize the treasures of our world. You all deserve to die."

He was murderous when he said this, with strange bloody red appeared in his eyes, making him look scary.

Legend immediately said in fear, "Suck! They are killing us!"

Tom was not panic at all. He said faintly, "Don't be afraid. Count on me."

Legend glared at him and shook his head, thinking that he was ignorant.

## Chapter 1135

Legend was clear that Tom was indeed much more powerful than him. After all, Tom could kill Adam. This was his real strength, obvious to everyone.

However, even if Tom's strength was comparable to the Strong of the God Becoming Level, he was only one person without three heads and six arms. Even with him, Tom was definitely not a match for these native Strongs.

And Legend had fought against these Strongs. The strength of each and every one of them was terrifying!

If he hadn't dodged in time, he wouldn't have been able to escape

lower than or the same as his. Now in this situation, it was obvious that they were at a disadvantage. How could he be proud?

He was not afraid of death, but if he died in a Secret Realm, it would not be worth it!

He gritted his teeth and took out a Fruit from his arms. He said to the indigenous Strongs, "I am willing to give the Fruit to you, but you must let us go. Otherwise, I will swallow it, you will not get the fruit!"

Legend said fiercely.

However, these men did not care about his threat and said coldly, "Invaders, these Fruits belong to us.

from these persons just now, but even so, he had paid a high price.

Now there were five native Strongs. He and Tom were no match for them. In this way, they would be doomed!

These Strongs seemed to be able to understand their words and began to surround Tom and Legend.

"You invaders deserve to die. Hand over the Fruits, I won't let you two die at the painful way!"

Legend felt their murderous intent and the terrifying pressure, and he now didn't have any will to resist now. Although he was a very proud person, this kind of pride was also built on the basis that the opponent's strength was

You dare to come to our world and snatch our Fruits. Damn you. There are many of these Fruits in our world. It doesn't matter if you destroy one."

Hearing this, Legend's face turned paler.

He didn't think that at this time, any miracle could happen. He would die here.

In the beginning, he could have escaped. Because Tom appeared here and delayed him, or else he would have already run away!

Thinking of this, he couldn't help but glare at Tom with resentment.

However, at this moment, Tom smiled. Not only was he not afraid, but he

smiled and said, "I originally thought that you were still a group of uncivilized barbarians in the Secret Realm world. But I didn't expect you would become the Strong. From this point of view, the Fruits of this world really have extraordinary effects."

Tom spoke without a trace of panic, unfazed by the impasse. Instead, he seemed to be very leisure and was sure he could win, as if he had surrounded them.

All of a sudden, these indigenous Strong's frowned and their faces suddenly looked angry. They thought Tom was too arrogant and disrespectful to them, so he should be punished!

As the Strongs of the Half-step God Becoming Level, in this uncivilized world, they were almost like gods, worshipped by countless indigenous peoples, which made them extremely arrogant and couldn't bear to be underestimated.

Tom's actions now, in their eyes, were completely contempt to them!

All of a sudden, the faces of the Strongs darkened. The strongest one in the middle snorted and said, "Invader, how dare you! Originally, I don't want to let you die painedly for the sake you're also a Strong. Since you are so arrogant and dare to blaspheme us, then we won't spare you!"

"Really?" Tom smiled even more

brightly and said, "You guys want to kill me? I don't think you can."

"Damn it!"

Tom's words completely angered them. Now they immediately released the momentum and killing intent all over their bodies, forming a strong storm and pressure, sweeping Tom and Legend!

In an instant, Legend's body shook violently, and his teeth were chattering!

He felt as if he was standing at a volcanic vent, and would be covered by lava and turned into ashes any minute.

But he came to his sense and looked at Tom in disbelief. "Are you crazy?!"

He couldn't understand Tom's behavior. Was he trying to get himself killed? How dared he provoke these Strongs?

Tom was not a fool, was he? Why would he not feel the power of these Strongs? They were not ordinary people in those tribes, but they had eaten a lot of rare and strange Fruits, and they had also cultivated their intelligence, and their strength was terrifying!

In his opinion, Tom was definitely crazy. Only crazy people would provoke them in such a situation!

Tom said calmly, "You are too timid! You actually were scared by them. As a

martial artist, you have to have a strong heart first. Even if you face an enemy stronger than you, you can't be defeated psychologically."

Hearing Tom's words, Legend was stunned for a moment. Then he shook his head and thought that Tom was being stubborn, which was an irrational expression. Facing a stronger enemy, the best way was not to fight, but to escape.

If they could survive, they could come back and gain vengeance.

So he thought Tom's behavior was stupid.

Tom stopped talking to Legend. Instead, he pointed at the indigenous

Strongs in front of him and said with a smile, "You guys can fight me together."

Arrogant, overbearing!

Although Tom's tone was flat, his tone and expression did not show any sarcasm.

However, in this case, his words were very arrogant and insufferable!

It infuriated the five Strongs to the greatest extent.

Their faces darkened all of sudden.

"Since you want to die, we will satisfy you!"

After saying this, one of the men waved his hand and took the lead,

launching the fiercest attack on Tom!

He wanted to kill Tom in the cruellest way!

## Chapter 1136

As the Strong in this world, he had both the dignity and intelligence that ordinary people in many tribes were lacking.

He knew why those invaders kept coming into their world.

They were to seize the treasures of their world, something that the invaders named fruit.

He knew the benefits of fruits. As long as one reached a certain level, he could swallow enough fruits to enter the next level.

And at that level, the person would usher in a new transformation.

Over the years, these invaders had invaded their world every once in a while, raping their treasures, and killing their own kind.

That was a great humiliation and provocation for the Strongs. He swore that he would return this humiliation and provocation to those invaders.

In fact, they all had a common idea that once they found the opportunity to invade earth, they would definitely retaliate.

Tom was so arrogant that he ignited him. If he didn't kill Tom, he wouldn't deserve to be the Strong in this world.

He had absolute confidence in himself. Ever since he had intelligence, he had

swallowed many of the precious fruits in this world, and under the guidance of some invaders, he had learned martial arts and trained until today. Even if he met an invader, he could definitely win the person.

His moves were violent and fierce.

Tom stood there, waiting for the attack of the Strong of indigenous peoples. Tom sensed that the Strong learned his moves from the Strong from the earth, but he also had something special of this world.

The Strong of indigenous peoples was strong in both aura and power, almost at the same level as Fatty.

With such power, he could dominate

even on earth.

Unfortunately, Tom was way better than him.

So, Tom wait for him to come over and launch an attack. Tom did not fight back immediately but tangled with him for a while.

Tom found that the man's martial arts were only average. His power was mostly because of his strength. Such a reckless man was completely not a threat to Tom.

Tom shook his head in disappointment, and soon he fought back.

Tom didn't give the man any chance. He defeated the man with only two moves.

He broke two of the opponent's ribs with one punch.

However, Tom did not chase after the man. After all, he did not have any grudges with that man, and there was no need to kill him.

"You..."

The man had an incredible expression on his face. He looked at Tom in shock and disbelief.

The other four Strongs of indigenous peoples stared at Tom with widened eyes. They were speechless for a moment.

They had met other invaders. In fact, they had killed a few invaders, but the

invaders they encountered were not as powerful as the one in front of them.

Even Legend was pop-eyed. Obviously, he was unable to react. After a while, he came back to his senses and stared at Tom, saying, "When did you become so powerful?"

He felt that Tom's power was much stronger than when they met on earth.

Legend knew well how powerful that the Strong was. Legend had fought with that man not long ago, and he was not a match at all.

But such a Strong could not even fight against Tom.

In this way, how powerful was Tom?

If Legend fought with Tom, wouldn't Legend be defeated in one move?

Legend couldn't accept the fact.

Legend knew that he was currently not Tom's opponent. After all, Tom was the Chosen One on the List of Immortals and killed Adam.

But deep down in Legend's heart, he never conceded defeat, thinking that one day, he would be able to catch up with Tom.

This trip to the Secret Realm was his greatest opportunity.

He thought his luck had always been good. The Secret Realm was a good chance for him to succeed and become famous all over the world.

As long as he collected enough fruits to break through to the God Becoming Level, he would be able to become well-known and become someone like Albert.

But now, Tom's appearance gave him a big blow.

Tom did not pay much attention to that. In fact, he was unclear about how powerful he was. On earth, he felt that he had reached a bottleneck and could not improve himself.

At one time, he thought that was his bottleneck. If he wanted to go further, he would have to break through to the God Becoming Level.

But after he came to the Secret Realm,

his strength, which had reached the bottleneck, actually began to break through and improve constantly. The environment on this planet was greatly beneficial to him, and he could progress slowly every day.

He had been in the Secret Realm for a while, and he was constantly improving, but to what extent?

He didn't know.

So when he met these five Strongs, he was not fear nor nervous but happy.

Now he took a deep breath and pointed at the remaining four Strongs. He crooked his finger and said, "Come on, I'm in a hurry!"

What was arrogance? Just look at Tom

right now.

When the four Strongs heard Tom's words, their faces immediately turned red, and their breathing hastened. They stared at Tom, full of anger and killing intent.

Tom was overbearing and did not take them seriously!

They were not the tribesmen who just broke through but the Strong. In this world, they were even gods. Now, Tom, the invader, ridiculed and despised them, which was unbearable to them.

They were angered and roared, launching the most fierce attacks on Tom. They did not hide their power, and they were going to kill Tom.

## Chapter 1137

Their strength was very strong, especially when they fought together, which caused a huge pressure on Tom.

Legend, who was behind him, saw this scene and immediately changed his expression. He couldn't help but take a few steps back.

He knew very well how powerful these aboriginal Strongs were. If it was just one person, he might be able to compete. However, if the four of them fought together, they could destroy him!

He thought that Tom was doomed because Tom was only a Strong of the Half-step God Becoming Level, not the

God Becoming Level. How could he defeat four equally powerful Strongs?

So at this moment, he even had the idea of retreating and ran away quickly.

However, Tom was not afraid, but excited.

It was a huge challenge for him to face four Strongs of the same level at once. And at the same time, he could better know how powerful his strength was!

This time, he did not wait for them to make a move first. Instead, he had already started to act before they could surround him. He could not fall into the encirclement of the four men. In that case, he would be dangerous.

His movements were faster than those

four aboriginal Strongs.

And his moves were obviously much more subtle than theirs.

The four aboriginal Strongs sneered. If Tom was going to run away, they might not be able to catch up with him. However, if Tom was going to fight them, he would definitely die!

The fact was that they underestimated Tom's strength.

Tom's strength was so strong that he didn't even know where his limit was. His action was unassailable.

It was as if he had turned into a dragon, flying around these four aboriginal Strongs, and his speed was really too fast. He always faced at most two

opponents and threw the other two opponents aside. This was his exquisite skill.

Although the four aboriginal Strongs were at a high level, their mastery of martial arts was much worse than Tom's.

After a while, he was not defeated by the siege of those four aboriginal Strongs, but fought equally with them, which made Legend, who was about to escape, a little stunned.

"How is this possible? Tom can actually beat four people?" Legend said in disbelief.

Not only him, but also the four aboriginal Strongs were also very

surprised, but more felt a sense of grievance.

Tom was too agile and too fast, and his moves were too subtle, as if he had the ability of a prophet. He could always predict their intentions in advance, and walked around them all the time, not allowing them to create a encirclement.

Tom was still a little stressed when facing these four aboriginal Strongs, but soon, he gradually mastered the rhythm. He also gradually found that the martial arts of these four aboriginal Strongs were much worse, and they relied on brute force. Obviously, in the Secret Realm, the time for martial arts to develop was not long enough, and people's knowledge of their own

bodies was not deep enough to make them maximize the strength of their bodies.

Tom, on the other hand, was different. His knowledge of his own body had reached an unfathomable point. Every part of his body could be used as a weapon. Although he was unarmed now, his whole body was his arsenal. His fists, feet, fingers, elbows, head, and waist could be used as a weapon.

His control of his body had reached its peak.

Especially after he came to the Secret Realm. After he had been recuperated in the Secret Realm, his physique had been greatly improved.

Although he had not really broken through to the God Becoming Level, his physical strength was no less than that of many of the Strongs of the God Becoming Level in the world.

This was a terrible thing.

The aboriginal Strong, who had been defeated by Tom in the beginning, was very angry when he saw that none of his four companions could beat Tom down. He thought that his four companions did not use all their strength and immediately scolded, "Stop playing with him and quickly catch this hateful intruder! I sensed that there was a lot of fruit on his body!"

The four aboriginal Strongs only smiled

bitterly and felt helpless when they heard the leader's words. They were not playing with Tom. It was that they could not catch Tom.

But they couldn't say this because it was too embarrassing.

They looked at each other quickly, then gritted their teeth to stimulate their potential, and changed the way to fight. Even if they would get hurt, they had to hurt Tom!

Otherwise, if the four of them couldn't catch Tom, it would be too embarrassing. Their noble status would also be greatly hurt, which was something they would not allow to happen!

When they were fighting hard, the power of the explosion was still very great, and it also caused greater pressure on Tom.

Originally, Tom had gradually gained the upper hand, but now the four of them worked so hard that Tom fell into the lower hand again, and he was more pressured.

However, this was a better thing for Tom. He liked to challenge.

Gradually, he slowly forgot everything and entered a wonderful state.

Now, his pupils slowly turned pale and lost focus, and his expression became frozen without any change. At the same time, his movements became

more fierce and more exquisite, and his whole body became a ruthless machine.

He was like a super intelligent AI.

Soon, he slowly regained the upper hand under this condition.

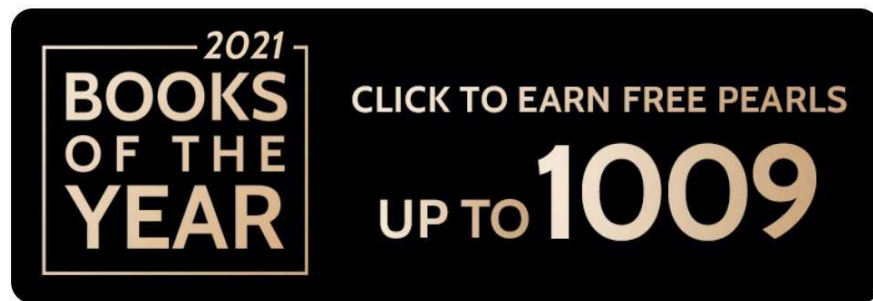

And he quickly found the flaws if these four aboriginal Strongs.

With a bang, he punched out from an extremely tricky, even strange angle.

It landed directly on the chin of the aboriginal Strong who was attacking him. Without any accident, the aboriginal strongman was flying out and dislocated his chin with a crack...No, his chine was broken.

Moreover, this punch also killed the aboriginal attacker.

This change happened so quickly that the other three aboriginal Strongs were all stunned.

## Chapter 1138

In their opinion, Tom was already at a disadvantage. As long as he was secretly attacked by their companion, he would definitely be injured. As long as he was injured, he wouldn't hold on for a long time. He would be killed soon!

However, they didn't expect that Tom wasn't hit but took the chance to break out.

After Tom knocked down the native, his pressure was reduced by more than half. At the same time, he fought back more quickly. He was alone but he was like many people. He pounced on the rest native men.

They immediately felt great pressure.

They felt numb.

Suddenly they wanted to retreat. Tom was so powerful that they couldn't defeat him.

As soon as they had the thought, they failed more quickly with lower spirits.

But they were experienced in fighting, so they adjusted in a moment.

But Tom was a super master and found their fatal flaw.

Tom immediately took the chance and hit them in less than a second. He was like a fierce tiger and bit the native in front of him.

At that moment, he felt that Tom became a fierce tiger and opened his mouth wide to swallow him in one bite.

It was so dangerous that he made a step back reflexively. He looked pale.

When he retreated, he had more flaws.

Tom took the chance and pinched his neck. With a pinch and a crack, he crushed the neck of the man, who reached Half-step God Becoming Level.

Although he did not die immediately, he lost all his strength. His body drooped weakly. He made a sound and opened his eyes wide. He looked at Tom in fear, regret and despair.

Then he died.

It was shocking for everyone present.

The rest men were shocked and felt numb!

They looked at Tom with their eyes wide. They didn't have the courage to fight. They believed that Tom was almost invulnerable!

They only wanted to run as fast as they could!

Legend was the most shocked one. He was completely dumbfounded and couldn't move.

It was so subversive and shocking for him to see it. He wondered if it was his illusion. How could Tom be so powerful?

They were all the Strong who reached Half-step God Becoming Level. They were top. Even though he was a genius, he didn't have the absolute confidence to defeat one of them.

Tom defeated all of them so easily, which was subversive for him. He stood in unprecedented awe of him!

Tom was calm. After he killed the two native men, he didn't hesitate to chase after the rest men.

It seemed that he had limitless strength. After the battle, he was still fast. His breathing was not rapid as well.

In just one breath, he caught up with one of them.

When he was caught up with Tom, he changed his expression. He looked back at Tom as if he had seen the god of death. He was in despair. He wanted to beg for mercy instead of fighting against him desperately.

Tom didn't stop but hit his neck with his hand. With a crack, his neck was broken and he fainted.

The other man was a little far away, but he couldn't run away from Tom.

Tom spent a little more time catching him.

"Let me go, let me go..."

Before he finished speaking, he was killed by Tom.

After killing all the native men, Tom returned to his normal state.

His eyes turned bright and he recovered. And then he took a long breath and opened his pores. He was like boiling water and emitted thick mist.

He looked relaxed just now, but he used much strength to fight against them.

Tom then strode over and looked at Legend. He found that Legend was looking at him with an extremely shocked look. He was in awe of him as if he had known him for the first time. It was a little funny.

"Don't you know me?"

Tom said to him with a smile.

Legend came back to his senses. He felt a chill when he found that Tom gazed at him. He blurted out, "Tom, have you broken through to the God Becoming Level?"

Tom shook his head and said, "No, I'm still at Half-step God Becoming Level."

"It's impossible!" Legend screamed out in a low voice, "How can you be powerful when you are still at Half-step God Becoming Level!"

It seemed that he couldn't accept it. In his opinion, he was a genius and there were not many people in the world who could surpass him.

Even if others could surpass him, they were not much powerful than him. But Tom was so powerful that he could never keep up with him...

## Chapter 1139

Tom gave a faint smile. He was not surprised that Legend would be shocked, as he had made such rapid progress that any normal person would be startled or even scared.

In fact, if he was on earth, he would not have progressed so fast. The Secret Realm had such profound impact on him that he progressed rapidly every day.

Soon, he looked at the remaining Strong from indigenous peoples. He was the most powerful of the five, and also their leader.

Now the Strong trembled when Tom was looking at him, his face became

even paler.

He turned around and ran away at once, rather than fought against Tom.

He ran as fast as his legs could carry him.

He was both scared and regretful now. If he had known that Tom was so powerful, he would not have set himself against Tom!

Tom was not astounded, as something like that had happened several times since he came to the Secret Realm.

Of course, Tom wouldn't let him go so easily. It wasn't because he was cruel, but that because he thought that he must wrench the fruit from the Strong.

He took a breath, and it took only two or three seconds for him to catch up with the Strong as he moved at breakneck speed. Then he grabbed the Strong and said, "Give me the fruit, and I'll spare you."

After being caught, the Strong could feel the chasm between him and Tom, his face turned ashen.

He immediately gave the fruit to Tom rather than resisted.

"Here you are. Please don't kill me..."

The Strong quailed in front of Tom.

"Get out."

He waved his hand and let him go when he took the fruit.

With this fruit, Tom once again had that strong desire. Fortunately, he had preparations in advance, and immediately entered a state of super calm. He closed his eyes, just standing there. Even Legend did not know what he was doing.

After a long time, he had resisted that terrible desire!

The torture bolstered his willpower with telling effect. Every time he toughed it out, he could feel that his willpower was much stronger.

Now that he had six fruits, he was still in high spirits.

When he returned to Legend, he said in a flat voice, "It's all right. Let's go."

"Okay."

Hearing this, he subconsciously followed Tom away without thinking too much.

Now he had an unspeakable reverence for Tom, and took a more modest posture.

The strength that Tom shown just now was too terrifying. He thought, judging from the vibe Tom sent, that Tom could stand alongside to Albert.

He even outshone Albert!

He would believe that Tom had reached the God Becoming Level, but Tom didn't make it yet, which scared him the most.

Moreover, he had just noticed that Tom had got six fruits!

He was astonished, as he had only got one fruit with tremendous efforts, even if he had been in the Secret Realm for so long!

If Tom swallowed these six fruits, then he could step into the God Becoming Level.

Tom was so powerful when he was only a Half-step God Becoming Level master. What if he reached the God Becoming Level? How formidable he would be?

They left the city, and Legend couldn't help but ask, "Have you got six fruits?"

"Yes." Tom nodded and answered in a flat voice. He didn't hide the truth.

Hearing his affirmative answer, Legend was surprised and envious.

If he could also get six fruits, then he must be very powerful after reaching the God Becoming Level!

At least he would be stronger than Albert, who had only swallowed three fruits at that time.

But only three fruits enabled Albert to be so strong that he could become the Invincible fighter in H Country, being admired by the whole country.

But Tom had six now!

Soon, he continued to ask, "Since you

have already got six fruits, why don't you swallow them?"

Tom said in a faint voice, "Not enough."

Legend was stunned for a moment and said, "Six fruits are not enough? Are you trying to gather ten fruits?"

There was a hint of joke in his question. He thought Tom would not be so arrogant as to swallow up ten fruits, which was too difficult and dangerous for him.

How much energy could ten fruit generate? Even a Half-step God Becoming Level master would burst his body, so he didn't think Tom would want to gather ten fruits.

However, Tom nodded and said, "Yes."

He was dumbfounded.

Legend was stunned again. His eyes widened, and he said, "Are you kidding me? Ten fruits! Not to mention the difficulty of getting them, even if you really got them, you may not be able to bear them. It would be a big loss if you explode because of them."

Legend thought himself to be highly ambitious, but he didn't dare to gather ten fruits. Even if he had ten, he did not dare to swallow them, as he would die of explosion.

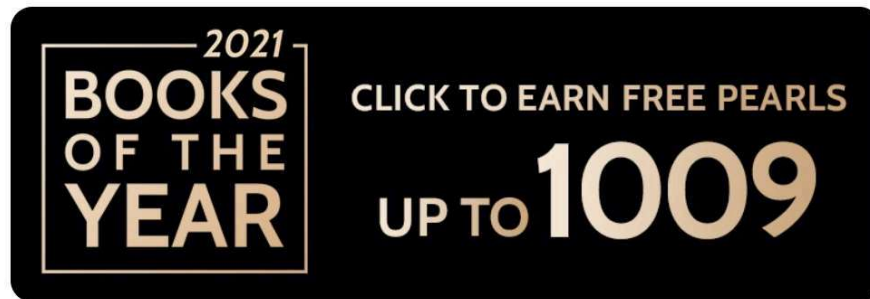

But Tom said that he wanted to gather ten fruits, a madcap ambition that would risk his life.

Faced with his doubts, Tom did not

explain but gave a faint smile.

Legend finally realized that Tom was not joking, but really planning to do so.

In this way, he thought that Tom looked more like a lunatic than a monster.

## Chapter 1140

Half a month passed. In this month, the whole Secret Realm was extremely restless.

All the remaining Chosen Ones were trying their best to collect the fruits, and at the same time, the List of Masters of the Secret Realm on earth was constantly changing!

But Tom was always been on the top.

Many people were already numb to see it.

They had already recognized Tom's strength.

The Great King once got two fruits and became the top one, but after he was

surpassed by Tom's three fruits, he never surpassed Tom again.

They watched Tom's fruits increase. They were shocked and incredible at the beginning, but then they slowly became numb.

Especially today, it was written on the list that Tom had already gotten eight fruits!

Eight fruits!

What did this mean? It was probably that even all the Strongs who went into the Secret Realm before did not get so much fruits.

It was remembered that the previous record was seven, which was set by Cassio of the Blood Thirst Sect.

In the end, Cassio succeeded in swallowing these seven fruits and became a super Strong of the God Becoming Level!

Now, Tom broke Cassio's record. It was conceivable that if Tom did not have an accident and successfully swallowed the eight fruits, he would definitely be a Strong after he came out of the Secret Realm.

However, it was soon discovered that Tom did not choose to swallow them after he got the eight fruits, instead, he continued to collect fruits!

"It's been two days, and Tom still hasn't chosen to swallow these eight fruits. Could it be that Tom isn't satisfied with

the eight fruits and wants to continue searching? Isn't he afraid of exploding and dying?"

Someone on earth exclaimed.

"I heard that in the Secret Realm, the limit of the fruits that a master of the Half-step God Becoming Level can swallow is ten. If a person can successfully swallow ten fruits, he can directly become the a master of God Becoming Level. The meridians and physiques of his whole body will be greatly forged, and he can directly surpass countless people. However, this is just a theory. The Secret Realm has been opened for so many years, and no one has successfully tried to swallow ten fruits!"

"Yes, ten fruits. This is too unbelievable. I heard that each of these fruits in the Secret Realm contains a huge amount of energy. If you are a master of the Innate Realm, you can't bear to swallow one. And people in the Innate Grand Perfection can barely swallow two. As for the people of the Half-step God Becoming Level, they can only swallow three or four. But that was the limit. Cassio was the chosen son of that era, so he only swallowed seven, which was enough to make him dominate the world. Now, Tom, who had collected eight fruits, was not satisfied, and he still tries to continue to collect more?"

"Tom doesn't know chalk from cheese. He thinks he's really invincible. I bet if he collected ten fruits, he would

explode and die!"

"You don't know that. In the Secret Realm, every time you collect a fruit, you will face a huge enchantment from the heart demon. And the more fruits you have, the greater the power of enchantment! Now Tom has eight fruits., and by the time he has collected the ninth, the heart demon he will face will be unprecedented. By then, he will be unable to bear it, and he will be mentally deranged and become a lunatic!"

"Really? Are these fruits in the Secret Realm so evil?"

"Of course, the fruits in the Secret Realm are all spiritual. They can only be formed in the Secret Realm, a brand

new world, and they cannot be formed on earth."

Such a similar discussion began to happen everywhere on earth.

Many hidden old monsters began to pay attention to this.

Tom now had eight fruits and continued to collect more. It was too shocking for them!

Especially for those who had entered the Secret Realm before, it was even more unbelievable.

It was because they had entered the Secret Realm and had fruits that they knew how evil these fruits were.

Most of them only had two fruits.

When they collected the third, they couldn't help but swallow them.

Tom was able to collect eight, which meant that his will was much stronger than them!

They couldn't accept this.

They were even jealous of Tom and wished he would explode and die immediately. Otherwise, when Tom really swallowed ten fruits and became the most powerful person in the world, they would lose face.

At the same time, The Great King also got seven fruits. He did not choose to swallow the fruits either, but continued to look for more.

Besides them, many people had

already chosen to swallow their fruits.

Like Emmett, after he collected five fruits, he had already chosen to swallow them and become a Strong of God Becoming Level!

Soon after he became a Strong of God Becoming Level, he was rejected by the Secret Realm and returned to earth because that his breakthrough could not be accepted by the Secret Realm.

The Secret Realm had such a mechanism. There were fruits that could make people become a master of God Becoming Level in the Secret Realm, however, once people broke through to the God Becoming Level, they would be repelled by the Secret Realm and soon be sent back to their

original world.

Not only Emmett, but also others.

For example, Alistair, who had also collected five fruits, could not resist the strong enchantment of the fifth fruit. He was directly invaded by the heart demon, and then chose to swallow them.

Besides the two of them, many people also did that.

Take an example of Legend. After getting three fruits, he couldn't help but swallow them. Then he was repelled by the Secret Realm and returned to earth.

When he returned to earth, he had become a super Strong of God

Becoming Level.

He felt he was much stronger, and he even had a feeling that he was invincible in the world. He could even move away a mountain!

If it had been any other time, he would have been very happy. But now, he was not happy, because he had fallen too much behind compared to Tom.

Tom had gotten eight fruits, but he was not bewitched and could still keep his heart. Legend, on the other hand, could not help it just with three fruits.

The gap between them was too big.

In the next three days, the Chosen Ones in the Secret Realm were gradually excluded. On the fourth day,

only Tom and The Great King were left...
