

"Yes, this thing is only absorbing aura and not spitting it out, what is it trying to do? This is indeed nothing if you look at it for a short period of time, but if they keep on absorbing aura non-stop, then it will still be scary after a long time!"

Master Yates said with a frown again after thinking about it.

"Young Master Jack, what about you? Do you have any other views, or thoughts?"

Master Yates asked Jack again after thinking about it.

Chapter 1581

Jack smiled bitterly. "I've just obtained this thing several days ago. I've studied it during these two days and have gotten some information about it, but not as much as you did. I concluded the same thing as you did!"

Harry and the others were not surprised at Jack's reply. After all, they had studied the stone ball for so many days and all of them were experienced, but they still failed to get anything. Jack had just gotten the stone ball, and he only had one ball. Without extra balls, it was natural he did not dare to do anything to it in fear of accidentally destroying it.

On the contrary, Harry and his people had three balls. They were able to take one for testing and to see if it could be easily destroyed.

They did not expect, however, for Jack to speak up after a moment of silence, "I have a bold idea."

"What is it?" Harry and the others immediately asked.

Jack thought about it and said, "I'm thinking that we won't be able to get anything out of it if we

continue to study it like this but if we can take all seven stone balls out, I wonder what'll happen if we placed them together? What do you think?"

"Place all seven together?" Harry frowned, obviously troubled at the thought. After all, it was great enough for the other forces to get one ball each, while their Divine King Sect had three of such stone balls.

These three stone balls were obtained at the cost of many masters from their ancient clan. They even suffered the deaths of many of their disciples.

It was not cost-effective for them if they were to lend the balls. They had suffered a huge loss for visiting three dangerous areas. If that was the case, they should have just visited one instead.

Jack instantly understood the other party's difficulties when he saw how Harry frowned. He smiled with uncertainty and said, "Of course, this is just a thought of mine. You can consider them later, Master Harry, while we conduct our research separately. After all, both our families have a total of four out of those seven stone balls right now. Who knows whose hands the remaining three are in."

"Yes. We also heard that the eight shadow families got two dangerous areas while the three remaining ancient clans got two dangerous areas, too!" Harry nodded before turning to look at Jack in admiration. "I was thinking back then why the three ancient clans promised to give you guys two of the dangerous areas so easily instead of asking for three themselves. It looks like your strength was one of the reasons they gave way, right?"

"Haha! Then I'll make my move now. I believe I'll soon learn which forces got the other stone balls," said the smiling Jack.

"You don't need to make guesses. The Supreme Clarity Sect got one while the Flying Eagle Sect got one as well. People from those two ancient clans had just visited us for a chat two days ago, wanting to know if we had any development since we got the stone balls first." Harry smiled and continued, "I'm just wondering which family among your aristocratic families got the remaining balls."

Jack was stunned before he laughed loudly with alacrity. "If that's the case, does the Cloud Sky Sect get nothing? Joel Collins must be vomiting blood out of anger right now! Haha!"

Chapter 1582

"Haha!" Harry burst out laughing as he added, "That old weasel Joel is very cunning. He'd want to get a stone ball through whatever means necessary if he hadn't had one already, so you best be on your guard. He won't dare steal from us, the three ancient clans, but I'm not so certain about your White family. That is, if he doesn't have a clear idea of your true strength."

"Hmph! Unless he doesn't come over. If he dares come to our White family, I'll make him regret it!" scoffed Jack, absolutely confident with his current strength

Harry nodded thoughtfully and replied, "Yes, and I heard that the Cloud Sky Sect had lost six masters in the peak stage of the true god-level. When they traversed the dangerous area, they encountered numerous strong monster beasts and fought with two other ancient clans. The Cloud Sky Sect suffered the biggest loss this time, and they might not dare confront your White family."

"That'll be for the best. Although I'm not afraid of them, the White family will suffer greatly if they go all out on us, and I don't want our people to be sacrificed. Our White family is growing speedily right now, training rigorously since we have martial enhancement materials." Jack then threw out his sword and, jumping on it, gestured with his hands to Harry. "I'll be taking my leave now, Master Harry. Let's contact each other if anything arises."

With that, Jack flew out on his sword and left.

Harry was silent as he watched Jack leave before he commented, "It's difficult for the White family to not progress with this young man in their family. Such a person looks at the bigger picture. Although they have the strength to defeat the Cloud Sky Sect right now, Jack doesn't act out of impulsiveness and instead wants to buy more time for the White family so they can grow stronger. They won't be defeated easily, even if they're to fight the Cloud Sky Sect."

Meanwhile, at the Cloud Sky Sect.

Joel glowered intensely.

“Jack is the one to be blamed. If it wasn’t for him, we don’t need to only get two dangerous areas for three ancient clans. There isn’t enough to go around, and it’s bad enough that we had to fight those from the other clans, but we still had to fight those strong monster beasts. Ah, curses! Not only did we lose a few thousands of people, but we even lost many from the true god-level!” Joel grew angrier the more he thought about it, dumping the blame entirely on Jack. If that young man did not have such astonishing combat power and made them temporarily back down, their ancient clans would not suffer such a huge loss.

“That’s right. It’s all because of Jack, and we should blame it all on him. If it wasn’t for him, our Lagorio family wouldn’t be suffering. I heard that my father followed them to the so-called Bright Snow Mountain and many people died there. My father, especially, was badly wounded and almost died there!” growled Lily, wanting nothing more than to tear Jack into shreds.

Joel glanced at Lily, who was beside him, as his heart was filled with extreme regret. Why did he allow his lust to consume him when he married this woman? He would not have to go through so many problems had he not.

Chapter 1583

As he grew angrier at the thought, Joel mumbled, “My Cloud Sky Sect wouldn’t have been afflicted greatly if it weren’t for you.”

Lily, however, heard it all as her head whipped toward Joel furiously. “Joel Collins, what are you talking about?” she hissed. “How can you blame this on me? Who could’ve known that a few indomitable monster beasts would appear when you sent six masters to ambush those three from the White family, killing all six in the process? Can I be blamed for that? I’m not those monster beasts!”

Lily’s eyes turned red from anger as she continued, “Also, I’m not the one who forced you to go to Bright Snow Mountain this time. How can you blame me when you guys were the ones who went by yourself? I

only asked you to help me kill Jack and the others...”

The sight of a teary Lily softened Joel’s heart as he coaxed, “Alright, alright... Everything is my fault, alright? I won’t blame it on you next time.”

Joel paused momentarily before he continued lamenting, “Still, we’ve suffered a devastating loss, and three masters in the peak stage of the true god-level had died there. We’re only left with seven people, so we’re not able to avenge you and wipe out the White family right now. We can only consider this at length.”

Lily’s anger subsided little by little at his words, thus she walked toward him and wrapped her arms around his neck, coquettishly saying, “Honey, we aren’t in a hurry- we can take it slow. The most important thing right now is to see if the White family had obtained the stone ball upon entering the dangerous area. Apart from that, we need to see the situation of their losses. What if they have suffered even greater losses? Won’t we have an opportunity then?”

Joel sneakily grabbed Lily by her beguiling waist before he smiled. “Don’t worry, I’m no fool. I’ve already sent people to inspect and ask around, and I believe we’ll have results soon. I’ll surely take action if there’s an opportunity, but if there’s none, we’ll have to bear with it for now. The White family dare not attack us right now, after all. We’ll think of a way to take a stone ball for ourselves. It’ll be in our best interest if I manage to break through to the ultimate god-level.”

“Yes, honey, work hard! I believe in you, and you’ll surely be the first to break through to the ultimate god-level!” spoke Lily encouragingly as she pumped her fists.

At that moment, two disciples of their ancient clan rushed in.

Joel instantly glowered in the interruption, and with Lily still in his arms, he eyed the two in disbelief. “Why did you both rush in so hastily? You’re both awfully rude! Speak up, what happened?!”

Those two knelt down on one knee and said, “Clan master, we’ve finished the investigation. This time,

the people who went to Bright Snow Mountain are mainly people from the Hunt family, and almost half the families went with them. The Hunts didn't obtain the stone ball, but nobody knows who has the stone ball right now."

"Impossible! Nobody knows who got the stone ball?" Joel frowned. "If the Hunts didn't get the stone ball, could it be people from the other first-class aristocratic families? As long as it's in the hands of some first-class aristocratic family, it'll be difficult to take the stone ball from them. We've suffered too much and we can't afford to go head-to-head with first-class aristocratic families. They surely won't go out alone after obtaining the stone ball, either. They'd stay in their house to study the ball together!"

"It looks like the other first-class aristocratic family didn't get it, too," said one of the kneeling disciples. "We don't know if the third-class or second-class aristocratic families got it!"

Chapter 1584

"You mean that the other first-class aristocratic families that entered Bright Snow Mountain with the Hunts didn't get the stone ball either, and no one knows which aristocratic family got it?" The news shocked Joel for a moment before the joy settled in his system. "If it's not with first-class aristocratic families, it might be in the hands of someone from the second or third-class aristocratic families. If that's the case... Haha! What good news! We still have the chance to ask around, and I believe news of who has it will be revealed. We'll then take it from whoever has it once we know who has the stone ball!"

Joel thought about it and asked, "By the way, how about the White family? Which dangerous area did they go to? Any news about their situation?"

"Members from the White family, Cabello family, Lucas Family, Lanaster family, and several smaller families went to Black Windy Island together. I think the White family didn't want to enter the same dangerous area as the Hunt family. After all, the dangerous area is immensely treacherous, and they'd suffer another great loss if they get into another fight with the Hunt family, thus they went to Black Windy Island instead," reported another disciple as he gestured with his hands.

"They went to Black Windy Island?" Joel frowned. "If that's the case, is there any news on who got the stone ball?"

“We haven’t got news about this yet, but we’ll surely hear about it soon. We’ve visited about two dozen forces,” replied the disciple.

“Alright, then you both can go get your reward and continue to ask around for news. As long as it’s news about the stone ball, ask around about it. You’ll be greatly rewarded once there is useful news.” Joel waved his hand to dismiss them.

“The situation of the White family isn’t clear, but the Hunts suffered quite the loss apart from not getting a stone ball. They must be depressed! Haha!” Joel found it hilarious when he recalled how the Hunt family went to Bright Snow Mountain in an aggressive manner yet failed to obtain the stone ball.

Lily, on the other hand, scowled, “You truly are something. Why are you taking pleasure when the Hunt family didn’t get any benefits? Why are you so happy? Mind you, the Hunts are our allies!”

“Allies?” Joel was stunned. “Us, the ancient clans, have always been superior. Since when are we placed on par with those from aristocratic families and are allies with them?”

Dumbfounded, she rolled her eyes at Joel. “You...! Do you understand that the situation is different right now? Our Cloud Sky Sect and other families had lost so many masters, but there are families that didn’t suffer much losses and might take this opportunity to rise up. The future setup of this world isn’t clear, and it all depends on who breaks through into the ultimate god-level first. Every second counts, do you understand?”

Lily paused for a moment before she added, “The Hunt family and the White family are enemies. Jack killed both sons of the family master, so it’s natural for the Hunt family to want to get rid of the White family. As we also wish to get rid of the White family badly, we’re allies by nature!”

“That’s true.” Joel nodded. “Let’s wait for a couple of days and see if we’ll hear about who has the stone ball from Bright Snow Mountain. We can then try to take it from them.”

Time slowly passed and Jack returned to the White family during noon the next day. He had also

informed Nash and the others about his trip to the Divine King Sect.

Of course, he did not forget to include the part where he killed many of the masters from the Hall of Divine Royal.

“Father, this is for you!” Jack chuckled, “The weapon that once belonged to the Hall Master of the Hall of Divine Royal is an ultimate-grade spiritual tool!” Jack smiled as he took the weapon that once belonged to the Hall Master of the Hall of Divine Royal and passed it to his father.

“Really? You’ve just given me an upper-grade spiritual tool a couple of days ago. Never thought I’d get to swap it for an ultimate-grade spiritual tool so quickly. Haha! After all, this is quite a rare item!” Nash held the sword as he beamingly inspected it from all angles.

He then took his upper-grade spiritual tool out and passed it to the First Elder next to him.” First Elder, it looks like I can only give this upper-grade spiritual tool to you. I’ll be using this ultimate-grade spiritual tool in the future; keeping the upper-grade spiritual tool would be useless for me.”

The First Elder was stunned for a short while before he took the sword happily. “For me? Great!” He laughed with mirth. “I won’t reject it then. This shall increase my combat power greatly!”

Chapter 1585

All of a sudden, a young man from the White family rushed in and reported, “Master, Young Master Jack, several people are... are outside, wishing to have an audience with you.”

“Who’d visit our White family at this hour?” Nash frowned before he questioned the young man who bore the announcement, “Only several people came?”

“Yes, and there are only five or six of them, yet they’re acting awfully mysterious!” responded the man with an awkward smile

Jack frowned as he immediately continued asking, "Mysterious? What do you mean by that?"

"They wear large bamboo raincoats and all of them have hats that cover themselves. It seems as though they don't want to be recognized," the man explained

Deliberating his thoughts, Nash then waved his hand. "Go and bring them in."

Once the man who made the report left, the First Elder immediately said, "It must be somebody from other families who wishes to ask about the stone ball. They must be here to ask if Young Master Jack managed to study anything from it."

"I don't think so. They don't need to cover themselves if that's the case," replied Jack smilingly.

Moments later, those people were led in.

They took off their huge bamboo raincoats and hats after they entered the door.

"The Hemperly family?" Nash slightly frowned upon recognizing the members of the Hemperly family.

"Greetings, Master Nash. Greetings, Young Master Jack and the elders of the White family!" The family master of the Hemperly family immediately led his son to greet Jack and the others politely with a hand gesture.

"Haha! Please, be seated. Serve them tea!" Nash gestured for them to sit down before asking, "I do wonder what business Master Hemperly has for coming to our White family today?"

The family master of the Hemperly family, Darcy Hemperly, nodded at Nash. "To be frank, Master White, we're here to ask for a favor, and we hope that the White family is willing to give us a hand. Of course, we'll repay your kindness with spirited grass if you're willing to."

“You’re here to ask for a favor?” Nash was slightly puzzled. The Hemperly family was a second-class aristocratic family and had been developing nicely for the past few years. The young master of the Hemperly family, Paul Hemperly, could be considered a rare master. The Hemperlys had always been very low-profile and had not offended any other forces, so they did not have many enemies.

No one thus knew why they came to the White family for help.

Darcy stayed quiet for a couple of seconds before speaking up about the situation, “To be frank, we went to Bright Snow Mountain to test our luck, but none of us expected my son to be so lucky and get the stone ball in the end. Right now, only a couple of people in my family know about this as Paul only informed us about this yesterday.

Chapter 1586

Nash was shocked. He then said, “We received news a couple of days ago that the first-class aristocratic families that went to the Bright Snow Mountain did not obtain the stone ball and we have no idea who from which family obtained the ball. Who would have expected that somebody from your Hemperly family got it!”

Nash frowned as he paused. He then continued, “However, how can our White family help you? You guys are ballsy for coming here with only a couple of people. Aren’t you afraid that we will rob you?”

Darcy laughed before he spoke again, “To be frank, Master White, we’ve thought of this possibility. My son, Paul, and I had discussed at length before we agreed unanimously that your White family is the most reliable family right now. The reason we come to you and not other ancient clans is because we don’t know them well, what if they snatch our stone ball away?”

Darcy paused momentarily before he continued to speak, “As for the Hunt family and others, they obviously would not be of much help. Why would they agree to help us when they don’t have any stone balls with them? Only the White family possesses a stone ball and we’ve witnessed how powerful Young Master Jack was the other day. We have unanimously agreed that the White family would be the most reliable one!”

Paul, who was standing aside, also added, "Apart from that, Master White had always been open and candid. Since you have a stone ball with you, we believe that Master White would not do anything despicable!"

Jack glanced at Paul. It had to be mentioned that this young master of the Hemperly family was not only a man of striking appearance but also had a meticulous mind. Not only did he praise Nash with his words, but he was also implying that they would be considered despicable if they snatched the ball from the Hemperly family. They would have to think twice with consideration of the White family's honor!

Jack thought about it and replied to the other party, "Master Hemperly, I wonder what sort of favor do you need from us?"

"It's very simple. I will return while my son and a couple of our elders stay here to study the stone ball in peace. Don't worry as the other members of our family have no idea that the stone ball is in our hands. Hence, as long as both our people keep quiet, the others would not come searching here!"

"Certainly, allowing us to stay here would cause your family to face a certain degree of danger. If we are being pinpointed by the Hunt family or other ancient clans, I hope that the White family will help us. I believe that with Young Master Jack's strength and how strong the White family is right now, the Hunt family or Cloud Sky Sect would not dare to cause any trouble for you guys!" Darcy smiled indifferently and told them about his intentions.

"This is quite troublesome as the Cloud Sky Sect, Hunt family and many other first-class aristocratic families had not obtained this stone ball. The easiest target right now would be the one in your hands. There's a possibility that even some second-class aristocratic families have their eyes on this stone ball of yours. I'm afraid that this would really bring us unwanted trouble!" Nash frowned as he dared not simply agree to this as it was quite a huge issue.

He thought about it and finally looked toward Jack. "Jack, what do you think?"

The others also glanced toward Jack. It was obvious that Jack had become the backbone of the crown at

that moment as he had the highest combat power among them.

“Let me see how much resources you can give us!” Jack kept quiet a moment before he spoke while looking at Darcy and the others.

Darcy immediately took out two martial rings and passed them to Jack. “One of these contains spirited grass while the other contains some weapons. Young Master Jack, please take a look!”

The other members of the Hemperly family were obviously nervous. It was true that they had brought quite a lot of precious treasure over but nobody would want to cause themselves trouble under normal circumstances. On top of that, the White family had just returned from the Black Windy Island not long ago and it was rumored that they had greatly benefited from that trip. Hence, they might not have much regard for the items the Hemperly family had to offer!

Chapter 1587

Jack examined the items for some time before a smile appeared at the corners of his mouth. “Haha... Master Hemperly, there isn't a lot of spirited grass here but they are attractive enough. Hence, I agree to your terms!”

The members of the Hemperly family relaxed when they saw that Jack had agreed to their suggestion.

Master Hemperly immediately stood up and gestured with his hands to Jack as he voiced out his appreciation. “Thank you, Young Master Jack. If that's the case, I shall leave my son and the others here with a reassured mind. I believe that they will be safe as Young Master Jack promised us!”

“Haha... I can only assure you that nothing would happen to them while they are with the White family as we will try our best to protect them!” Jack laughed before he continued speaking slowly. “However, there's nothing I can do if they leave the White family by themselves. After all, we can't restrict them with a rope, right?”

“That is true, that is true. We promise to not simply run around!” One of the elders from the Hemperly

family nodded in satisfaction.

“If that’s the case, let me arrange accommodations for your people!” Nash nodded. He ordered a member of the White family to lead the Hemperlys out and arrange accommodations for them.

After the other party left, Nash turned around to ask Jack, “Jack, have you thought this through? If we don’t promise them, we can slightly relax when the other first-class aristocratic families or Cloud Sky Sect that did not obtain the stone ball focus on the Hemperly family. You also mentioned that they did not give us a large amount of spirited grass and we aren’t suffering from a shortage, why did you choose to get involved in this trouble?”

The First Elder, Kenneth, also immediately spoke up with a frown on his face. “That’s true, Young Master Jack. If we ignore them, we would benefit from this. We don’t owe the Hemperly family anything. On the contrary, we would have more time to focus on studying this stone ball if the others had them as targets!”

“They didn’t give us a lot of spirited grass but they were not stingy either!” Jack started explaining. “What is important is that a lot of the gifted spirited grass were suitable to be cultivated into pills. These items were separated and placed aside. They know that I’m an alchemist and they specially arranged these gifts. The most critical part of everything is that two of these items are auxiliary materials required when cultivating a fourth-grade elementary pill, the resurrection pill.”

“I see!” Nash and First Elder exchanged glances as they finally understood Jack’s intention. After all, the fourth grade elementary pill known as the resurrection pill was indispensable if they wanted to save Fernando’s life. Based on Jack’s temperament, he would not pass on the auxiliary materials even if there was only a slim chance for them to succeed in cultivating the pill.

“That would be fine then. Some of our masters had continuously broken through these few days, and our overall strength is still improving. We also have an increasing number of people in the initial stage of the true god level. Apart from that, who would know that we have hidden a few people at our place if we kept this a secret?”

Even if they learn about this later on, who knows when that would be!” In the end, Nash smiled and said.

Chapter 1588

After their accommodations were arranged, Master Hemperly left that afternoon. As for Young Master Hemperly and his other elders, they stayed in the White family to continue studying the stone ball in peace.

Certainly, Jack also went over in the evening to have a chat with them and asked about the situation after they went to the Bright Snow Mountain.

It turns out that everybody acted on their own after they reached Bright Snow Mountain.

After encountering several dangers, Young Master Hemperly had also wandered away from the other members of the Hemperly family. Luckily, he had high fighting prowess and managed to spot the ancient tree in the end after he continued the journey on his own.

He was obviously not an opponent of the ancient tree and many other masters also discovered the ancient tree at the same time. All of them fought the ancient tree individually and many died.

In the end, a master from the Cloud Sky Sect that was in the peak stage of the true god-level finally obtained the stone ball and was preparing to fly off.

However, that person was killed by the ancient tree's roots as he was about to escape, and that benefited Paul, who hid in the dark.

There were not many people at that time and apart from him, the others were all dead. Hence, no one else knew that he managed to obtain the stone ball except for himself.

Naturally, Paul put the stone ball away without demur after obtaining it and left Bright Snow Mountain speedily. He only informed his father and several trusted elders when he returned to the Hemperly family after several days.

The members of the Hemperly family were naturally delighted when they learned of the news. However, they were also worried that this item would cost them their lives. Hence, they asked the White family for a helping hand after a discussion.

It was obvious that Paul and the others did not manage to learn anything about the stone ball.

However, when Jack mentioned that they should gather all seven stone balls to study them together in the future, Paul agreed without hesitation.

The next couple of days, Jack handed the stone ball to Nash and the others for them to continue studying it. As for himself, he visited the Supreme Clarity Sect and Flying Eagle Sect respectively to inform them about his thoughts.

Both ancient clans were quite unwilling when Jack suggested placing all seven stone balls together to study them. However, they insisted on studying the stone balls by themselves and that everything can be discussed later.

Jack could only helplessly return to the White family and get some rest

Jack could not even train as there were no more levels for him to advance to. He could only look on as the other younger masters continued improving.

Jack felt as if he was being tortured as time passed by. After all, the Cyro Pearl had a limited time. Based on what Nash mentioned about it losing its effect after two years, he only had one and a half years left.

Jack felt hopeless as he had to obtain the third-grade premium items, common life fruit and thousand year thrive grass, on top of cultivating a fourth-grade elementary pill, the resurrection pill, within one and a half years.

Even the third-grade premium spirited grass was nowhere to be seen, let alone the fourth-grade pill. Apart from that, even if he broke through into the ultimate god level, where shall he search for these items?

However, Jack refused to give up when he thought of Fernando, who was frozen and lying helplessly in the cave. He did not want to give up as long as there was a slight hope.

“Honey, this is great. I’ve finally broken through into the initial stage of the demi-god level!” Another day had passed, Selena ran in and jumped in excitement while holding Jack’s hands.

“Really? That would be great. Before I realized it, you have already broken through and become a master in the initial stage of the demi-god level. As for myself, I can’t continue training and can only observe as everybody else trains!” Jack smiled as he felt happy for Selena

After all, breaking through to the demi-god level meant that the person was a true master.

The capability to fly when one reaches the demi-god level was not something a normal person could achieve.

Chapter 1589

“By the way, where’s Ben? I’ve seen him training recently and it looks like he’s working hard. He even asked for two pills from me two days ago!” Jack soon thought of Ben and asked curiously

“He’s not bad as he’s already a seventh-grade grandmaster. He has been working even harder when he saw that I’ve broken through to the initial stage of the demi-god level. He even said that he’s gonna catch up to you as you can’t train right now and is waiting for us!”

Selena smiled and glanced at Jack flirtatiously before she continued to speak. “Honey, I’ve never dreamt of breaking through to the initial stage of the demi-god level! Apart from my talents, I have to thank you

for constantly cultivating pills for me to break through so quickly!”

“This is all because of your hard work. Even if you have great talents and resources, your fighting prowess would not breakthrough by itself if you did not train hard!” Jack said with a smile.

At this moment, an old man rushed out from the nearby houses and came flying over in excitement.

“This is great! I’ve made it! I’ve finally made it! Jack, I’ve succeeded!” This old man was none other than the First Elder of the Cabello family, Kevin Cabello. Jack remembered something a couple of days ago and sent someone to invite him over.

After all, Jack promised Kevin that he would teach him how to cultivate the second-grade intermediate pill if Kevin borrowed him the ancient tome.

The old man was really into cultivating pills. He tried cultivating for the past two days but failed and Jack originally thought that Kevin would take a couple more days before he would be able to comprehend how to successfully cultivate the second-grade intermediate pill. Jack did not expect him to succeed so quickly.

“Congratulations, First Elder Cabello! You’re also a second grade intermediate alchemist now!” Jack happily congratulated Kevin with a polite gesture with his hands.

“Haha... This is all thanks to you as you’re a great teacher. If not, I would not have succeeded so quickly!” Kevin smiled happily with a satisfied look on his face.

“This is great. After succeeding in cultivating one particular second-grade intermediate pill, it would be easier when learning how to cultivate other second-grade intermediate pills. After all, the level of difficulty is almost the same and there would be some similarities!”

“That’s for sure!” Jack said with a smile.

“By the way, Young Master Jack, you guys have been studying the stone ball for so long, have you managed to learn anything from it?” Kevin soon thought of something and asked Jack.

“We have yet to learn anything from that thing. If anybody is capable of learning something from it, it would be the people from the Pavilion of Kings and Gods. After all, they have three of those stone balls!” Jack smiled bitterly as he also felt helpless about the situation.

At this moment, a large group of people was seen flying over from the other side.

“Who are those people?” Jack looked ahead and his facial expression soon darkened. Unexpectedly, it was the Hunt family who had gathered several families that were close to them and came together.

Chapter 1590

The members of the Hunt family led those from the Lagorio family, the Trevino Family, and even those from the Norman family to the White family residence.

“Jack, what should we do? There are so many of them! This is worrisome as they seem to be here to cause trouble!” Kevin had a darkened look on his face after he looked at the situation in front of him. Although not all members of the other party were present, those who came were masters. There were around one hundred thousand people from those four families combined.

“There’s no need to be afraid! There’s a lot of them but not many are in the peak stage of the true god level. Recently, many of our White family’s members have broken through into the true god level. On top of that, some of my nine disciples have achieved the intermediate stage of the true god level and their combat power is incomparable!” Jack, however, smiled indifferently.

“They are so shameless. Aren’t aristocratic families banned from taking action against each other without a valid reason? Are they going to break this tacit understanding?” Kevin clenched his fist. “F*ck! Unfortunately, we can’t contact the Cabello family and Tudor Family. There is no way a water source far

away is capable of quenching our thirst!”

“Haha, don’t worry! I know that these four families have suffered huge losses when they went to Bright Snow Mountain previously. They thought that a combination of several families could attack our White family? They are being naïve! What’s more, there are several masters from the Hemperly family here so we have quite a large number of masters!” Jack still smiled and acted indifferently.

Whoosh! Whoosh! Whoosh!

The other members of the White family soon discovered the situation as well. After notifying each other, they all flew up and gathered together.

“It’s over! A big group of people are heading over, what should we do?” Inside a courtyard house, an elder from the Hemperly family immediately asked the others.

“There are quite a lot of them. I knew that the Hunt family would come looking for us but I didn’t expect them to come so quickly!” Paul also had a darkened expression on his face. He then continued, “Let’s not go out first. If we go out now, it is equivalent to a silent admission. Let’s wait and see what the other party is here for. If the other party is here for us or wants to take action against the White family, we must go out and help the White family!”

The First Elder of the Hemperly family frowned and said in embarrassment after hearing that. “Young master, what if they aren’t here for us, but because of their grudges with the White family? After all, the Hunt family knows that it was Jack of the White family who killed their two sons. Moreover, in the previous competition between the aristocratic family, the main reason the Lagorio family, the Trevino Family, and the other families suffered huge losses is because of Jack. Hence, there’s a huge possibility that they aren’t here for us!”

The Second Elder also immediately spoke up. “That’s right, young master. If the other party is not here for us, there’s no need for us to take action, right? If a fight happens later, it’s best if we just find an opportunity to sneak out. There are too many people on the other side. How can the White family be their opponent? We will be in trouble if we get involved!”

“Haha... Sneak out? How should we sneak out? With so many people staring at us, can we just disappear into thin air?” Unexpectedly, Paul sneered and said, “We are already involved. Once we leave, the members of the Hunt family would see us. They aren’t stupid so they would certainly know that the stone ball from Bright Snow Mountain is in our hands. When the time comes, do you think they would just let us go? They only need to kill a few more people. If they are daring enough to come directly to the White family, would they even care if they had to kill a couple more of us?”

Chapter 1591

The facial expressions of the other Third Elder turned unsightly.

At this moment, Paul put his hands behind his back and said, “We have no other choice. If there is a fight, whether it is because of us or due to the hatred between the White family and the other families, we should all step up and take the White family’s side and fight the others together with the White family! Only if we fight, there is hope for us to live. Even if we don’t want to, we have no other choice!”

“But I’m afraid that it’s difficult to survive this fight. The White family’s alliances are not here. If the Hunt family were the only one here, the White family would be able to handle it. But... but there are four families here! Even worse, three of them are first-class aristocratic families! And they outnumbered us by many too. How is it possible for us to make it through?”

The First Elder was obviously not confident and even felt regretful in his heart. Why did he choose to come to the White family and ask for help from them? If he had just found a remote place to hide, it would be a lot safer!

“The only thing we can do now is to believe in the White family. Jack must have something up his sleeve, otherwise, he wouldn’t dare to give us his words! Do you really think that just because we offered them some spirited grass, they would be tempted and promised to help us? They must have weighed their strengths beforehand! Do you know how many fighters at the peak stage of true god-level they have right now in the White family?”

Paul looked at the Third Elder before him and popped up the question.

“Hmmm. For this matter, I truly don’t have any idea. But it’s certainly not as many as the other four families combined!”

A bitter smile surfaced on the First Elder’s face, and he muttered, “In my opinion, if we want to win this battle, the White family must reduce the number of the true god-level fighters in the four families quickly, and kill them in a blink of an eye. Otherwise, there’s no hope at all! Sigh! But now, the other party has more fighters at true god level and they obviously outnumbered the White families by a lot. Even if we help the White family, it would be in vain!”

“As the saying goes, to shoot a rider, first shoot his horse; to capture a gang of bandits, first capture its leader! If Jack is smart and able to kill the head of the Hunt family and several other top fighters in the other party, the other party would lose their boss and they’d certainly fall into chaos. Their fighting spirit and morale will be greatly impacted! Then it won’t be impossible for us to win this fight!”

After giving the matter some thought, Paul then spilled out his analysis

At this time, the strongest fighters in the White family flew into the sky, and those fighters with lower combat ability and cultivation level gathered at the square beneath. Gloominess covered the crowd’s faces as they stared intensely at the enemy before them.

In the main branch of the White family, there were not many people. However, Jack had long predicted that there would be a time that someone or some families would seek trouble with them. Hence, Jack had gathered a lot of demi-god and true god-level fighters from the branch families some time ago, and they were living in the main White family.

Therefore, there were now more than forty thousand people of true god-level flying in the sky and this number was considered extremely impressive.

“Oh? There are quite many of you, aren’t there? So are you guys prepared for this? Impressive!”

Hahaha!”

The Hunt family head looked at the White family before him and then said with a peal of sinister laughter.

“You have many men with you too. It looks like the only ones left in your family as well as the other families are those with low combat prowess and strength. Or perhaps the remaining are from the branch families!”

Jack laughed fearlessly in return.

“Master Hunt, I wonder, what are you doing here in our White family residence with Master Norman, Master Church, and Master Lagorio? Judging from this melodramatic situation, I’m afraid you’re not here for a friendly visit, right? If you’re only visiting the White family, you’ve certainly brought too many people with you.”

Nash stepped forward and asked in a stern tone, his face cold.

Chapter 1592

“What are we here for? Master White, let’s just cut to the chase. Your son killed my two sons and made several families here suffer great losses in the competition! It’s time for us to settle this matter, right?”

Quentin chuckled aloud, and ruthlessness appeared in his eyes.

“Jack, we’ve finally found out the killer of my three sons! And it’s you! I demand a confession and explanation from you!”

Darryl—the head of the Norman family, stood forward and questioned Jack with vicious stares. His tone was full of hatred.

“Yes! I killed the three of them. The life-and-death rule of the tournament allowed me to do that. Besides, your sons wanted to kill me, I couldn’t possibly stand there and let them kill me, right?”

Jack shrugged his shoulders nonchalantly. He dared to admit his deed, without the slightest hesitation.

“Humph! You nasty brat! It’s you! I knew it! You do have some guts to admit the killing, don’t you?”

Anger poured through Daryl like lava upon hearing Jack’s confession. He was so angry that he clenched his fists so tightly. The other Norman family members were staring at Jack angrily as well.

“I merely followed the competition rules. Why can’t I say it?”

Jack smiled blandly and then added, “What’s the matter? Master Hunt, this particular rule was set by you from the beginning. It hasn’t been long since the tournament, and you’re already going back on your word?” Jack paused before continuing, “Didn’t you say so at the beginning of the competition? That no revenge nor trouble shall be sought privately after the competition. Look at your behavior today, aren’t you afraid of being spat upon by the other families?”

However, as he heard Jack’s words, Quentin thought that Jack was afraid of them.

He immediately laughed out loud, “Jack, you killed my two sons, and even more so, you made us, the prominent Families, suffer great losses! We lost a lot of masters of the younger generation! And yes, you’re right about the competition rules. It was indeed like that at that time. However, that was one situation, and this is another. The situation has changed, and you know it. So, tell me, do you think we’re still abiding by the previous rules?”

Daryl balled his fists firmly and yelled at Jack, “Jack, today I must avenge my three sons! I need you dead, for your death would be a catharsis for me!”

Trenton Lagorio stepped forward and supported, "Jack, today is your last day on earth! If you obey us, hand us the stone ball and come forward to kill yourself before us. We promise to spare the rest of the White family."

"Tsk tsk. I would say your plan is pretty good. But do you think I 'd fall for it?"

To everyone's surprise, Jack was not intimidated at all, instead, he laughed coldly upon hearing them. "The main purpose for all of you here is to obtain the stone ball, am I right? And avenging your whatever sons is only the second goal."

Jack paused for a few seconds before continuing, "You all know that I'm the strongest here, and I can fend off several fighters at the peak stage of True God Realm by myself. So you want to trick me into killing myself on the spot, and when I die, it'll be even easier for you to exterminate our White family, am I right?"

Once Jack's words fell, the corners of Quentin's mouth twitched in voluntarily a few times. He did not expect that his and the others' plan would be seen through by Jack in such a short time.

"Jack, don't worry. We're men of our words. As the head of the Hunt family, I can guarantee you that as long as you do as we say, hand over the stone ball and kill yourself in front of us, whatever happened during the competition, we'll write it off. How does it sound?"

Quentin looked at Jack and assured him with a faint smile on his face.

"You bullsh*t!"

Chapter 1593

Nonetheless, Jack sneered at Quentin's offer. "Before the competition started, you guys set the rules and agreed not to pursue further privately after the competition ended. Competition rules are such a formal and important thing, but you guys still went back on your words. So, what makes you think that I will trust you?"

“Quentin Hunt, you underestimated our White family! Do you think we’ll be afraid of you just because you have more people than we do? Let me tell you, you better not regret your presence here in the White residence today once the war starts!”

Nash, too, stared at the other party icily. “You know that my son is the strongest in the White family, so you want to trick him into cutting his own throat. Do you really think that we’re so stupid?”

“Master Hunt, are you not afraid of being laughed at by the world for what you have done today? I don’t think you know which family had obtained the stone ball from the Bright Snow Mountain, am I right? And you're afraid that the White family would discover something out of the stone ball and break into the ultimate god realm. If this truly happened, it would affect the first position of the Hunt family among the eight shadow families. Hence, you’re using revenge as an excuse to get the stone ball from us, right?”

Kevin could not stand the other party’s bullsh*t anymore. He stared huffily at the other party.

“Aren’t you the First Elder of the Cabello family? Why are you here?”

Quentin squinted at Kevin and stated. “You’re an excellent alchemist. It’d be too bad for the world to lose an alchemist like you. So, let me advise you, leave this place at once and save yourself from the battle later. If you die in the battle, we won’t be able to do anything about it!”

“Elder Kevin, this matter has nothing to do with you. I think you should leave!”

After pondering for a few seconds, Nash said to Kevin.

“Master Cabello had stated that the Cabellos and the White are no longer enemies; we’re one big family. So, since I’m here today, I’m not gonna leave. And I believe that if Master Cabello was here today, he would stay on and help the White family!”

However, Kevin responded in a determined manner after giving the matter some thought.

“Thank you so much!”

Nash arched his hands and gave a fist-to-palm salute to Kevin, feeling moved in his heart.

“Oh no, oh no! What should we do now? They’re going to start a fight! What can we do?”

Joan, Ben, and the others were watching the whole ordeal from a room in the residence. Fiona, too, was trembling with fear and worry. Although she had purified her body and could be considered a martial arts practitioner, her strength and cultivation level were just too weak. Those with low strength and combat ability could only hide inside the room; not able to step foot out.

Seeing that the other party had brought so many people; the sky appeared dark as they filled the air space above as if it was going to rain soon. The other party had outnumbered them by two or even three times! Fiona blanched just by looking at the situation.

“Oh, God! What should we do? Selena is still outside? What should we do?”

Fiona paced back and forth, looking panicked

“Stop pacing up and down. You're making me even more anxious right now. Why don't we rush out and fight with them?”

Ben clenched his fists, and his eyes showed the aura of determination.

“No! We can't go out there. If we do so, we're digging our own graves! Other fighters with low combat

prohess are hiding in rooms as well, and Jack and the others will not let them come near to us! They will be able to stop them at the gates from coming in, and if we go out, we' 'll only be a burden and drag them down!"

Nonetheless, Joan stopped Ben and the others immediately. Selena is outside with others, and her combat prowess is not weak, so don't worry about her. Jack and the others will definitely take care of her. The only thing we can do is to wait here and pray for them!"

Chapter 1594

"Mom, I think Aunty Joan is right. We'd better wait here!"

After thinking about it, Ben sat down and said, "Worst comes to worst, we'll all die together! If they were killed by the enemy, we won't be spared anyway!"

"Ugh! Why am I so unlucky? I've just become a martial artist, hoping to live a longer life. I didn't expect to die this soon at all! Why is my life so unfortunate, so bitter!"

Fiona was getting more upset the more she thought about it. She straightaway plopped onto the floor and started to whine like a kid.

"Mom, stop it! It's annoying!"

Ben barked at Fiona, his tone unfriendly. "Dammit! I'm still too weak. I'm only a grandmaster at the moment and can't help much! If I were in the demi-god realm right now, I would have rushed out and fought with them!" Ben bellowed, clenching his fists.

"Are you trying to upset me even more? Your sister is outside right now, and I'm already worried sick! Yet you still want to go out? You unfilial brat!"

Fiona, who was throwing a tantrum on the floor, immediately reacted upon hearing Ben's words. Her temper sparked and spiked, shaking with fury.

Ben looked at his mother and switched his gaze to the outside, and then said, "Elaine is out there too! If she dies, I don't want to live either!"

At this time, inside a room of another courtyard.

The First Elder of the Hemperly family looked at Paul and said, "Did you hear that? They're here for Jack, for the White family, and not for us! Jack offended the four families. No wonder these four families joined forces together and came here to cause trouble!"

"In that case, a fight is unavoidable. Listen to me, later when the battle starts, we will rush out and help the White family. Hearing Jack's boastful tone, I think, perhaps the White family may not lose in the battle. I think that Young Master Jack does not even see us as his opponents at all."

Paul smiled faintly in return. Hints of wisdom shone in his eyes.

"What? No way! The young man, Jack, is that powerful?"

The First Elder of the Hamperly family frowned as he heard. However, he was still worried about the upcoming fight. After all, the disparity in numbers was too great.

At this moment, up in the sky, both parties were glaring at each other heatedly. A solemn and tense aura was swirling in the air.

Old Master Hunt stood out at this time and said with a cold smile on his face, "Jack, I guess you've heard that the Hunt family suffered great losses in the excursion to the Bright Snow Mountain, and among them, two true god-level fighters had died. So, you thought there are only three fighters at the peak level of True God Realm left in the Hunt family, right?"

Old Master Hunt halted a few seconds before continuing, “Unfortunately, you’re so wrong! You underestimated our Hunt family. Recently, another elder in the Hunt family had broken through to the peak stage of True God Realm, and several true god realm breakthroughs happened in the other families too! We, the Hunt family, have four true god peak level fighters, while the Church and the Norman family each have three. That makes ten! Oh! And the Lagorio family has another two! Hahaha! We have twelve fighters at the peak stage of True God Realm! How can you fight us?”

Jack’s brows puckered together upon hearing the new information. “The Lagorio family has two of them? Wow, it’s quite surprising. Hmm. It seems like the news of the ultimate god realms and the stone ball have pressured you all, forcing out all your potential.”

Anger welled up in Trenton’s chest and the corners of his mouth twitched vigorously. “Jack, what do you mean by that? Are you looking down on the Lagorio family? My wife broke into the peak of true god status too, you can’t imagine it, right? Humph! Now I’m truly anticipating seeing how the White family is going to fight us!

“Hahaha! Your true god-level fighters are inferior to ours, and the number is lesser than ours too! Tsk, tsk. I wanna see how you are going to overcome this wide gap to fight us! Jack White, one last chance! Kill yourself in front of us in exchange for the lives of the White family members! If you don’t agree to it, we’ll launch an attack!”

Old Master Hunt flipped his palm and took out a precious sword, pointing it at Jack. His tone was rude and aggressive.

“Haha! Let me tell you, don’t look down on us! Do you really think that only the First Elder and I are at the peak stage of the True God Realm?”

Jack snickered and sneered in a cold voice.

“Hahaha! Let’s fight them to death!”

The Second and the Third Elder of the White family—Titus and Wade—exchanged a glance then stepped forward in unison, emitting a powerful and domineering aura within them.

“What? No way! They have another two in the peak stage of True God Realm?”

The people from the Hunt family looked at both elders in surprise; shock dawned upon them that their eyes widened.. They had thought that the White family had only three true god peak level fighters. And even if one of them had broken through to that stage, there would be four of them at most! But they did not expect there were actually five of them!

Furthermore, adding the First Elder of the Cabello family—Kevin Cabello—into the list, there are six of them in total! Not to mention that Jack’s combat prowess was so powerful that he could fight three or four elite fighters of the same realm. Following closely to this train of thought, although the four families may win this battle, they would suffer humongous loss!

“Everyone, calm down! We have more fighters at the middle and the late stage of True God Realm than they have! We don’t . have to be afraid! In terms of numbers, we have an absolute advantage! Now, kill ‘em all!”

Quentin took out his long sword, waved it, and yelled, “Avenge your family! Avenge your sons!”

Swoosh, swoosh, swoosh!

When the battle was about to start, four other people flew out from a room of another courtyard and stood next to Jack and the others.

“Young Master Hamperly?”

Jack was taken aback. “They’re not here for you, you could have just stayed in the room. Even if you do that, we’ll not blame you!” Jack said.

“Heh! Young Master Jack, since we’re here in the White family, we can’t just sit back and do nothing. And I don’t think they will spare us if you lose the battle. So, let’s fight them together!”

Paul chuckled warmly, looking fearless.

“Sorry to disappoint you, Master Hunt. You are going to face another fighter at the peak stage of True God Realm now.”

The First Elder of the Hamperly family stepped forward and released the frightening aura. Within him. He was also a strong elite fighter in the peak stage of True God Realm.

“You’re actually...”

Nash was stunned at the newly learned news, he was truly surprised. The Hemperly family was merely a second-class family, and they had always stayed low profile. None of them had heard that the Hamperly family had any fighters at the true god peak level. The First Elder actually hid his ability secretly.

“Haha! I broke through a year ago. Just that the Hemperly family has always stayed low profile and does not wish to offend any families. Naturally, we do not wish to expose our strength too.”

Since he had already made up his mind, the First Elder of the Hemperly family expressed his thoughts without hesitation. “Dang it. I’ve broken through to the peak stage a year ago, yet I’ve not tested my current strength! So, the battle today is just nice! And perhaps I would die in this battle, but I will enjoy

this fight to the fullest! Let's fight to our contentment!"

"That's right! Let's fight to our fullest ability! Haha!"

Jack laughed wholeheartedly. With the fine sword in his hand, he injected Chi energy into it. The sword trembled slightly, emitting a terrifying aura.

Chapter 1596

"Kill!"

With a command from the Old Master Hunt, the order to attack was announced.

"Hahaha! Kill 'em all!"

Jack laughed and then looked over to the First Elder by his side and said, "First Elder, please take good care of Selena, so that I can fight without worries. I'll let them know how useless their fighters at the peak stage of True God Realm are!"

Once the last syllable of his word fell, Jack flickered and appeared at the front of the battlefield within seconds.

"Besiege this brat and kill him! One strong fighter at the peak of the true god-level strength from each family will handle the others, and the remaining six will surround this brat and kill him!"

Quentin asserted after giving the situation some thoughts.

“Count the two of us in!”

Trenton and his wife-Diana flew over and stood beside Quentin.

“Count me in as well! I have to kill this punk myself!”

Darryl from the Norman family flew over together with his First Elder too.

“Great! I’ll join in too!”

The First Elder of the Hunt family came over as well. Soon, six strong people with the strength of the peak stage of True God Realm were gathered together, ready to besiege Jack and kill him.

“Great, that’s great! You guys came just in time. Since you guys see me as your enemy and vice versa, I won’t let any of you leave here alive today!”

Seeing the six strong fighters standing in front of him, not only did Jack not have the slightest fear, but he sneered coldly in return.

“Can Young Master Jack fight so many of them? Shall I go over and help him?”

The First Elder of the Hemperly family peeped in the direction of Jack and got a little worried. Jack was alone, facing six strong elite fighters. That seemed a little too overwhelming.

“Don’t go over. Maybe you haven’t seen him fight before, our Young Master Jack is extremely powerful!”

Kenneth however chuckled aloud. “Don’t worry about him. We just need to focus on the enemies before us. The White family, indeed, is under great pressure this time, but I believe that Jack will be the key to victory in this battle. As long as he wins against the six of them, the victory is ours!”

Upon hearing Kenneth’s words, the Hemperly family froze in surprise. If they wanted to win this battle, Jack had to kill those six elite fighters! And not only so, but he also had to do it quickly. Only then Jack could free up his hands and help the others. Only then, the White family would have a chance to win the battle.

“White, fight!”

Lancelot roared with all his strength, his eyes glowing red. One by one, the White family members and several alliances charged toward the front and fought. They believed that if they had won this tough battle, the future of the White family would be a strong force to be reckoned with! Even the four ancient clans had to pay respects to them.

After all, to be able to face four families all at once—three of which were first-class families, and obtain victory was not something any ancient clan could do.

Of course, what Lancelot did not know was that the last time Jack killed a group of powerful fighters from the Hall of Divine Royal, it made the people from that hall terrified of him. They feared his strength and power..

“Blade Wave!”

Jack did not test the waters this time; he directly swung his sword toward the opponents, executing the most terrifying attack, the Blade Wave.

In front of him, a frightening and powerful gigantic dragon formed by thousands of flying sword auras, heading straight ahead and even covering a large area of space.

“What a powerful attack but don’ t panic, everyone! The six of us will strike him at the same time! I don’t believe that he can take six attacks from us all at the same time!”

Quentin was startled at Jack’s attack, but he quickly calmed himself down and chopped out with his sword. “Hundred Leaves Chop!”

As he performed the Hundred Leaves Chop, hundred aura leaves flew out. These seemingly floating aura leaves were surprisingly fast, carrying huge amounts of Chi energy and heading straight at the aura Sword dragon.

Roar!

In another direction, Trenton from the Lagorio family cast out a long aura dragon. As soon as the long aura dragon appeared, it let out a terrifying dragon roar and charged directly toward the aura sword dragon.

Chapter 1597

“Feral Slash!”

The fighter from the Norman family, on the other hand, cast out his family’s martial technique, the Feral Slash!

Boom, bang, boom!

At once, a terrifying boom rang out in the sky, and the air particles vibrate vigorously as though the sky was boiling. It was extremely horrifying.

“What? Im-impossible! Our attacks are being devoured little by little!”

Quentin took a look at the current situation and color drained from his face, feeling as if his heart was about to explode. The attacks from the six of them did not gain an upper hand in the battle!

The attacks from both parties stayed mid-air for a while and after a short moment of stalemate, Jack's attack had overpowered the others, gaining the upper hand.

"What the f*ck! We have people attacking at the same time here! Even if each of our attacks can only weaken his attack a little, logically we could still outperform him! How can his power and strength be so terrifying?"

Diana's eyes widened as large as saucers and her jaw dropped to the ground at the scene before her.

"He's too powerful!"

In the distance, after Paul had killed a man at the middle stage of the true god level, he could not help but look over to Jack's direction. It would be fine if he did not glance over, but that one glance tormented him alive. The battle there was extremely horrendous and gruesome; the flare and glow emitted from the clashing of martial techniques almost blinded the others.

Rumble!

The startling rumble continued, and after several more seconds of stalemate in the sky, Jack's attack completely defeated the attacks from the six of them.

"Sh*t! There's still a lot of residual Chi energy!"

"Many residual flying swords are coming straight at us! Run!"

“It’s too late. The swords are too fast! Everyone, create the aura shield! Quick!”

Six people peered at the situation, they were in a complete state of panic.

Bang, bang, bang!

Trenton and Diana were stabbed in the chest by several flying swords, leaving a huge. Bloody hole in their chests. Their eyes were full of terror and fear, and within a second, they fell onto the ground.

Likewise, Daryl and the First Elder from the Norman family were straightaway decapitated by Jack.

Whereas Quentin and the First Elder of the Hunt family were slightly luckier. Although they did not die immediately, both of them were blown far away and fell heavily to the ground. Mouthfuls of fresh blood gushed out of their mouths and the severe wounds on their bodies were bleeding incessantly too.

“No way!”

Many others witnessed the gruesome scene and were even more frightened. Six strong fighters at the peak of True God Realm and four were easily killed by Jack just like that; while the other two were severely injured, lying on the ground unable to move an inch. They were not much different from being dead.

Swoosh!

Under the watchful eyes of the crowd, Jack flung out two consecutive sword attacks, and two sword auras were shot out, heading straight at Quentin and First Elder Hunt. They died on the spot.

“No way! No freaking way! How can he be so strong?”

Whether it was the people of the Hunt or Lagorio family, each of them stood frozen at the scene before them. How could they continue on?

“Dios mio! Young Master Jack is so awesome! He’s so strong!”

After witnessing the ultimate battle, the White family members were bursting with excitement and joy. The other party had too many people with them, so much so that the White family was at a disadvantage at the beginning., The White family suffered a few hundred casualties.

However, within a short period of time, Jack had killed six strong fighters and the fighting morale among the White had increased tremendously.

“Go to hell!”

With another swing of his sword, he cast out sword attacks at the crowd of those four families in front of him. The flying sword, once again, killed them all at once.

Chapter 1598

“Attack, attack them now!”

Those who were at the front lines were weighed down by dread and terror and several old men in the late true god realm shouted

Unfortunately, none of them knew what to do next. Facing such a terrifying attack, some of them actually fled farther to the side, trying to dodge the attack.

Boom, boom, boom!

Several people clench their fists and gritted their teeth, casting out their attacks.

Nevertheless, these attacks were like a giant in the presence of a super-giant paled into insignificance. The attacks were destroyed instantly in a destructive manner. Meanwhile, those flying swords of Jack continued to travel forward at full speed, charging into the crowd.

Bang, bang, bang!

Some fighters of true god elementary level and demi-god advance level were directly blasted away by the flying swords and exploded in the air, while those who were in the middle or late stage of True God Realm did not manage to dodge the attack but at least they died with their body staying intact

Blood splattered all over the place. More than two hundred men from these four families were instantly killed by Jack in one round

Furthermore, among these two hundred men, there were several expert fighters at the late stage of True God Realm, as well as a dozen elite fighters who were in the mid and early stage of the true god level.

“Ugh! I want to take revenge for my sons!”

Old Master Hunt could no longer hold his anger back upon seeing Quentin’s body on the ground. He immediately ceased fighting the opponent before him and rushed toward Jack.

“Old Master Hunt, you’ve lost your mind.”

Looking at Old Master Hunt who charged toward him, Jack spilled several words indifferently and then

chopped forward with another swing of his sword.

Boom!

A huge explosive sound rang out, Old Master Hunt had fallen.

“What now? Master and Madam are both dead! Run!”

Once the people of the Lagorio family looked at the current position, they knew they were no match. Once the backbones of the Lagorio family, Trenton, and Diana had died, the fighting morale and spirit were severely impacted; many of them had already lost their motivation to continue fighting and were planning to retreat.

Not only the Lagorio family experienced the loss of fighting spirit, the Norman and the Hunt family felt demotivated as well. The morale was dead. Jack alone had killed so many strong fighters, and he did not stop. He kept killing the other party's strong fighters, incessantly. soon Lancelot, Kenneth, and the other strong fighters of the White family would be able to free up their hands and fight the others. The people of the four families who had hopes of victory at the beginning of the battle slowly felt feelings of despair and hopelessness.

“Oh yay! Motherf*cker! We're winning now!”

First Elder Hemperly, who thought it was his last day on the earth, was flabbergasted with joy at that moment, so much so that he did not know what to say but cursed. It was the first time he had encountered a battle where they were at a disadvantage in terms of the number of people

Nevertheless, it was mainly because of Jack. Jack's combat ability was overly powerful, at the same time, frightening. Although he had not met any of the ultimate god-level fighters and certainly did not know how powerful they were, he thought that Jack's current combat prowess was, perhaps, already at the ultimate god level.

First Elder Hemperly killed two men of the early stage of True God Realm, and he could not help but stare at Paul who was fighting at the side.

Respect and admiration came over him for Paul; it seemed like Paul's decision to help Jack was wise and a smart one. The Hemperly family stepped up and helped the White family in such a tough time, naturally, the White family would feel grateful toward them.

Now that Jack was so powerful, if they could have the White family to back them up, they would not have to be afraid anymore. He suddenly remembered how he was not supportive of the White family earlier and felt foolish.

Chapter 1599

"Kill!"

Seeing that some of the people from the four families had already started to flee, Jack was even more delighted in his heart. Obviously, once the other party started fleeing for their lives, Jack and the others would not have to lose any more of their men.

Of course, Jack would not spare any of the four families who were in the peak stage or late stage of True God Realm. Jack then charged toward those people and terminated them instantly.

Those strong fighters, one by one, were killed by Jack instantly. Nash and the others, who had now freed up their hands, frantically chased those of the true god-level strength and killed them. This caused the four great families to lose seventy to eighty thousand strong men. Only then did the battle end.

Of course, the White family lost several thousand men, and a few thousand men were injured throughout the battle as well.

However, after the startling battle, the status of the White family in this martial world would be greatly

strengthened. Even the four ancient clans would be afraid of them then onwards.

In the end, the people from the four families scattered and fled in all directions. Only those fighters with low martial levels were fortunate to be spared. However, the great loss they had suffered eventually impacted their status; they were even worse than some third-class families now, and could only be deemed as ordinary hidden martial families – they could no longer be prominent families.

“Everyone, hurry up and clean up the place!”

Nash commanded as he looked at the corpse scattered on the ground

“Sigh! These four families came to us a little too early. If they were to come one or two months later, I think we wouldn’t have lost so many great men!”

Jack gazed at some of the White family members’ bodies; his face turned solemn, and his heartfelt heavy.

After all, the White family was growing and developing rapidly lately, and the number of fighters who had broken through to True God Realm was increasing speedily as well. Nash was right. If they were given another month or two, they would not have lost so many men in that battle.

“We should be satisfied with the outcome today. Such a huge difference in numbers and we only lose around five thousand men. This is considered good enough. Fortunately, you had long been prepared for such a fight and assembled a lot of strong fighters from the branch families. Otherwise, I think the outcome would not be like this today. even if we win the battle, we’ll be on the verge of losing the whole White family. Today, we only lost a few strong ones, and those who died were at the demi-god level. The result is good!”

Lancelot glanced at Jack who was in front of him and comforted him with great emotion in his heart. “Of course, it’s also fortunate that the other party underestimated us, so they only brought the elite fighters from the main family but not from the branch families. Otherwise, we wouldn’t have obtained such a

victory!”

“You’re right. As for the rest of their people, let them go. They’re only some remnants with low martial levels. Their strong fighters are all here, lying lifelessly on the ground. And these four families, sigh, they won’t be on the list of the hidden families anymore.”

Jack spilled out his thoughts slowly after thinking about it.

“Mmhmm!”

Lancelot bobbed his head to show agreement.

Jack then flew off and landed in front of Selena. “Dear, are you alright? Is everything fine?”

“I’m fine. Just a shallow cut on my arm from the sword aura. Oh ya! I managed to kill several others with the same martial level as me! It looks like my combat power is quite good!”

Selena chuckled. “Hehe. We’ve won the battle! If my dear husband says that we can win, we can definitely win!”

“Selena, come down now, come here! The battle just now almost frightened us to death!”

Fiona and the others ran out from the rooms and gathered at the square. Fiona yelled at Selena who was still in mid-air.

“Elaine! My dear Elaine! You’re okay, you’re okay!”

Ben's eyes frantically searched for Elaine and finally found her flying down from the sky. A grown man like him actually cried out of joy and excitement.

Chapter 1600 Medz

"The people of the branch families, listen! This time you've put in a lot of effort in this battle, and that's why we could win this battle. To reward your indelible credit in this battle, the main family and the branch families will share the spoils of war equally! I believe each branch family can obtain a lot from this battle. After all, many of the strong fighters from the four families have died here, and their martial rings must have a lot of cultivation resources and treasure!"

Seeing that the spoils of war were almost collected, Nash immediately flew into the air and announced loudly.

"Yay! That's great!"

"Ya! Master White is the best! And he is really sensible and wise! Although the branch families have experienced great loss, it's worth it! I truly believe that the White family will only grow stronger and stronger!"

The people of the branch families were elated upon hearing the latest announcement. They could hardly contain their excitement.

"First Elder Cabello, and gentlemen from the Hemperly family. I, on behalf of the White family, thank you dearly for helping us out this time!"

Jack smiled as he walked over to thank Kevin, Paul, and the others.

"Hehe. You're welcome! We're your friends after all. Right and your combat power. Wow! I don't know how to describe it. It's amazing!"

Kevin chuckled.

“After today, the news will surely spread widely. The four families will be removed from the first tier list, and the White family’s reputation will be enhanced! This will certainly alarm other forces!”

Paul, on the other hand, shared his thoughts emotionally. The White family had lost a few thousand men, but the people who survived the tough battle were all elite fighters. Not to mention that the White family did not lose any fighters of the late or peak stage of True God Realm. So, the top fighters of the White family were still alive; the other forces would not dare to mess with the White family anymore.

Now, the people of those four families were merely a bunch of people without a head to lead them. After they returned to their families from the deadly battlefield, they began to divide the treasures and resources of the family. Some of them were afraid that the White family would come and take revenge, so they fled.

As for avenging the dead ones, they did not dare to even think about it at all.

Other than that, the remaining remnants of the Lagorio family did not flee, instead, they came together and discussed their future fate. In the end, they went to Cloud Sky Sect to find Lily Lagorio to seek refuge with the Cloud Sky Sect.

“What! My...my parents, and my grandfather...are all dead?”

When Lily was told about the battle, terror and disbelief stabbed her heart that she almost fainted. She could not believe the truth; her hands went cold and clammy and dread twisted in her gut.

“That’s impossible! Four families went there! F*cking four! They had around 120 thousand fighters with them! How could they lose the battle so badly? What’s more ridiculous is that the White family had only lost around five thousand people? And they managed to kill all your strong fighters, leaving 40 thousand remnants who barely escaped from the deadly fight? What a joke! There were people from the Hunt,

the Norman, and the Church families too!”

Joel was not convinced. Disbelief and shock were written all over his face, finding the news hard to believe.

“Sigh! What to do? Kevin Cabello and several fighters from the Hemperly family were there too. The most important thing is that the Young Master of the White family is extremely strong! Six strong fighters at the peak stage of True God Realm besieged him, and logically he would be dead in no time. But he managed to turn the table around and kill all six of them within a minute!”

“Six in one minute?”

The buzzing sound was ringing inside Joel’s head, trying to comprehend reality. He was the master of one of the four great ancient clans, and his combat power was definitely stronger than the average fighters with the true god peak level!

Chapter 1601

However, even so, if he could kill two fighters at the peak of true god-level by himself or even deal with three of them on his own, it would already be considered exceptional!

Six of them together? That was ridiculous! He would surely die.

What was even more unbelievable? Jack’s opponents were not just ordinary fighters at the peak of true god-level, but one of those strongest people in that realm-old Master Hunt, Quentin Hunt, who was also the head of a first-class family.

Their combat power was much more powerful than those who had just broken through to the peak

stage of the true god realm.

However, in the end, these well-known strong fighters, in front of Jack, were as weak as a kitten-could not even withstand a single blow.

“Wait. What if the six elders of the true god-level that we sent out to intercept and kill the White trio before were also killed by him?”

After a moment of silence, a frightening thought appeared in Joel’s mind and his face blanched instantly.

“No...no way! Didn’t the scouts say that there were some kind of sharp claw wounds on their body? Judging from the state of the corpses, they should be killed by some powerful demonic beasts!”

An elder of the Skies Pavilion frowned and spilled out his confusion aloud after thinking about it.

“Nothing is impossible. Jack, that brat, he is capable of killing six opponents of true god peak level now, and even if he could kill six of our elders that time, there was still Nash White and Kenneth White helping him. Nash and Kenneth could have helped to stall two of them!”

As Joel continued to analyze the situation, he felt that the possibility of Jack killing their elders increased tremendously. With his eyes narrowed, he analyzed, “It is also very possible that Jack has some powerful ultimate martial technique, and could perform claw-like attacks.”

“Honey, I don’t care. I don’t freaking care!”

Lily, who plopped onto the ground sobbing, crawled over to Joel and hugged his thigh. With a pleading expression hung on her face, she begged, “Honey, you have to avenge my family. Avenge my father, mother, grandfather, and the rest! They can’t just die like that. And they died because they wanted to avenge me! Please, I beg you, please, avenge them! You’re the only hope I have now!”

Joel went speechless for a while and then let out a long breath, "Sigh! Dear, it's not that I don't want to help you. I have the same feeling as you, I can't wait to kill him right now. But... but the current Skies Pavilion is simply not their opponent at all. I'm already thankful if the White family doesn't come to us for trouble."

"Humph! Revenge is a dish best served cold! I'll avenge my family one day!"

Lily clenched her fists and gritted her teeth as she bellowed. "Honey, you must work extra hard to break through to the ultimate god realm! Strive to be the first to breakthrough! By that time comes, kill that b*stard for me!"

"All right, all right. My dear wife, don't worry. When I break through to the ultimate god realm, I'll definitely kill that brat for you. Sigh! Take a good rest and calm yourself down. I'm, too, feeling angry and upset about your parents' death, but now we really can't afford to do anything to Jack nor the White family! Not only Skies Pavilion, but I bet the other three ancient clans feel the same. All the four ancient clans have to bow down to the White family and be polite to them from now on!"

Helplessness surged through Joel. The tables had turned dramatically to the point that he was not prepared for it. In the past few months, the situation that was peaceful at the beginning started to tremble and was in constant turmoil. Nobody knew what would happen in the future.

"Fine!"

Lily sighed and left the space to rest.

However, when she was just about to leave, she quickly thought of something and wheeled back, "Wait. In the conversation just now, you mentioned that Kevin Cabello and some people from the Hemperly family were there too? They helped the White family in the battle?"

One of the old men from the Lagorio family who had come to seek refuge nodded and said, "Yes, the

First Elder of the Hemperly family is actually a strong fighter who's at the peak of the true god realm. Moreover, the young master of the Hemperly family, although he had only broken through to the late stage of the true god realm not long ago, his combat power is very strong too. He killed many of our people!"

Chapter 1602

"The Cabello family is really close to the White family now. The situation is completely different from before. So, it also makes sense for Kevin Cabello to be at the Wood's residence. But why was the Hemperly family there in the White residence?"

Several horizontal lines formed on Lily's forehead as she thought about the matter. She muttered with some doubts.

"Right. If you didn't mention it, I would not have noticed that too. It's really strange. Why are the Hemperly family members there? Furthermore, they offered to help the White family in the battle!"

Joel's brows snapped together upon listening to Lily's reminder. He began to think.

"The Hemperly family has always been in a neutral position and they were usually low-profile, not offending nor intentionally trying to please other families. So, why are they there in the White residence?"

An old man of the Lagorio family could not help but mutter a few words.

Soon, Lily quickly thought of something, and her eyes lit up." Wait! I know! It must be this. Haven't we been unaware of which family who had obtained the stone ball inside the Bright Snow Mountain? Now it seems that the stone ball must be in the Hemperly's hand! They're the ones who got it!"

"The Hemperly family?"

The Lagorio family members were startled and puzzled at Lily 's words, they exchanged glances in confusion.

Finally, a man broke the silence. "Indeed, the Hemperly family was in the Bright Snow Mountain excursion team with the Hunt family. They didn't choose to go to the Black Windy Island at that time."

Lily nodded before saying, "Let's think of it this way. If we were the Hemperly family, we'd definitely avoid seeking help from the ancient clans after we got the stone ball because we're too weak. And as for the Hunt family, it'd be useless to find them because they don't have a stone ball at all! So, the only family that could help the Hemperlys would only be the White family. And the Hemperly family wouldn't have to fear that the White family will snatch their stone ball because the White have one themselves. As long as the Hemperly family offers great benefit to the White family, the White would naturally agree to protect them!"

"So that's how it is! It seems that the other stone ball is in the hands of the Hemperly family. And those Hemperlys who are staying at the White residence, one of them must have had the stone ball!"

Joel bobbed his head in agreement, however, he soon furrowed. "If that's the case, it's almost impossible for us to snatch the stone ball since the White family is willing to take them in. If we head over to snatch the stone ball, we're basically looking for death!"

A man from the Skies Pavilion expressed his thoughts after thinking about the matter." Master, how about this? The Hemperly family only sent a few people to the White family, and Master Hemperly is still in the Hemperly residence. This Hemperly family is merely a second-class family. Why don't we go to the Hemperly residence and capture the young master's parents, then force Young Master Hemperly to hand over the stone ball? What do you think?"

Before Joel could react, Lily interceded and barked, "No! It can't be done that way! The most important thing in this battle is that the four great families are going after the White family not the Hemperly family. It was the Hemperly family who offered to help the White family! So, both families must be on good terms right now. If we kidnap the Hemperly family members, the White family might come at us!"

"Lily is right! We'd better not fight with the White family. If we really do that, most likely we won't be

able to defeat them, instead, we would suffer great loss!”

Joel could not help but let out a long breath again. How could he have imagined that it had only been a short period of time but the White family, which he had not put in his eyes before, had now reached such a level that they all had to be afraid of?

“That would be bad. In that case, wouldn’t that mean that we can’t get any of the stone balls at all?”

One of the elders of the Skies Pavilion said in a gloomy tone.” If we don’t have any stone balls, we won’t be able to stay ahead of the curve. And if the White family or any other families who possess the stone ball, discovers something from the stone ball and takes the lead in breaking through to the ultimate god realm, I’m afraid that they won’t even let us off! After all, we’ve sent someone to assassinate them before, right?”

Chapter 1603

“Yes, Master. That brat hasn’t broken through to the ultimate god realm, yet he is already overwhelmingly powerful. If he truly managed to reach the ultimate god realm, nobody could defeat him anymore! And by then, we’ll have to hide from him!”

Another elder chimed in, expressing his concern.

“Sigh! There’s nothing we can do now. Let’s wait. We can only pray that they don’t discover anything. We must keep an eye on those families with stone balls more often now. We’ve to know their latest progress and situation at all times!”

This was the first time Joel had felt the feeling of despair and powerlessness. “Those of you who are from the Lagorio family, listen up. Although there are quite many of you, I have to say honestly that there are not many fighters with the cultivation of true god and semi-god realm. I’ll have someone arrange a place for you to stay. Please train hard and strive to breakthrough!”

“Thank you so much, Master Collins!”

Those remnants who came from the Lagorio family bowed and thanked Joel.

Joel shot them a faint smile. Although the remnants of the Lagorio family were not strong in combat power, it was always better to have more people. Then at least the overall combat power of the Skies Pavilion can be increased even just by a little, and to cover the loss they suffered previously

The other families and the other three ancient clans were shocked to the core when they found out what had happened.

Two more days had passed. The people of the Pavilion of Gods and Kings could not stay still anymore. They went to Jack, discussing whether they should gather seven stone balls together and investigate the stone balls.

After all, they had analyzed, studied, and examined the stone ball for so many days but all their efforts were in vain.

Jack had long been expecting their arrival. Without any hesitation, Jack agreed to the plan; Paul responded similarly as well-he agreed to it without the slightest hesitation.

However, Harry Yeagar, the Master of the Pavilion of Gods and Kings, did not expect Jack to tell them that they had to report the research progress to the Cabello family and some other families. After all, Jack had had the agreement with them.

Upon hearing this, Harry felt a flicker of irritation. But after giving the matter some thought, he finally nodded to agree.

After the discussion, Harry went to meet the people of the Pavilion of Divinity and the Pavilion of Soaring Eagles to talk over this matter. He planned to get the other two ancient clans to gather at the Pavilion of Gods and Kings, take out the seven stone balls, and analyze these balls together. He wanted to know if anything different would happen if these seven stone balls were gathered.

Two days after Harry left the White residence, Jack and Paul were in the room, studying the stone balls in front of them

“Young Master Jack, I have a bold idea. What do you think will happen if we put our palms on the stone ball and inject our Chi energy into it?”

After studying at the stone balls for a while, Paul suddenly expressed a bold thought. “These two stone balls can absorb the Chi energy pretty fast, and one similar thing between these two stone balls is that their speed of absorbing the Chi energy is even!”

Jack frowned at this sudden idea. “You mean, we inject Chi energy to break this uniformity?” Jack asked.

Chapter 1604

“Hehe, I suddenly thought of this idea. But I don’t dare to try it, because I don’t know what’s going to happen!”

Paul chuckled warmly.

Surprisingly, Jack’s eyes became determined and firm after a moment of doubt. “I think we can give this a try!”

“Wait, Young Master Jack, we shouldn’t act recklessly. This thing absorbs spiritual energy, and it’s actively absorbing! If you suddenly inject some Chi energy into it, disrupting the balance in it, who knows what’s the consequences? What if the consequence is so grave that it’s unmanageable? It’d be troublesome!”

The First Elder of the Hemperly family instantly jumped and panicked upon hearing this bold suggestion and stepped forward to advise them.

“He’s right, Young Master Jack. We can’t act impulsively. We don’t know what will happen. What if the stone ball explodes? Or becomes a monstrous ball that sucks all the Chi energy out of your body? Then you’ll be doomed!”

Titus also immediately chimed in and warned Jack. “Young Master Hemperly’s idea is too bold and too risky! Besides, even if you want to try it, it’s better to find a random branch family member to do it! You’re the future head of the White family, you’re too important and the entire White family is depending on you! We can’t afford any mishap to happen to you!”

Jack, too, knew that the idea was bold and perilous.

However, when he thought of time slipping by like sand through an hourglass and yet to find a way to break through to the ultimate god realm, he grew anxious.

And when he thought of Fernando Campbell, who was still frozen in ice, his heart sank to the deepest, at the same time, it made him more determined

He extended one of his hands, placed it atop the stone ball in front of him, and then began to inject Chi energy into it.

“Don’t do it, Young Master Jack!”

Titus and the others stood frozen by his action. Jack’s behavior was too sudden! When the others reacted, Jack had already injected his Chi energy into the stone ball.

“Young Master Jack, you’re being too hasty!”

Paul’s heart leaped into his throat when he saw what Jack had done. What if Jack died because of this

impulsive behavior? Then he was definitely responsible for it! At that time, the White family would kill him!

“Ten days have passed! For God’s sake, we can’t continue to drag on like this! I can’t! I must try every possible way!”

Jack’s eyes were firm and determined as he continued to inject more Chi energy into the stone ball.

Soon, he found that the absorption power coming from the stone ball grew stronger and started to absorb Jack’s Chi energy even faster!

“The speed is getting faster and faster! It’s actively sucking the Chi energy right now! That’s bad!”

Titus was frightened by the scene before him. He immediately rushed out in a flash, flew into the air, and shouted, “Master White, it’s bad! Master White, come here quickly! It’s really bad! Young Master Jack is too reckless!”

Not long after, Nash as well as many other elders rushed over to their room, while plenty of others surrounded the room outside.

“Jack, you’re too reckless! If you want to try it, you should let others do it! You’re so young and talented, how could you do this yourself? What if something bad happens to you, then what can we do?”

When Nash came into the room, he was worried, fearing that something bad might happen to Jack.

“I’m fine, Dad. I’ll hold on a little longer!”

Jack gritted his teeth, and soon there were beads of sweat dripping down from his forehead.

Buzz!

At this time, the stone ball, which had never reacted to anything else, let out a slight tremor, and a powerful force was emitted. It directly blasted Jack several meters away.

Bang!

The blast was so sudden that Jack was not prepared for it. He flew away for several meters and almost plopped onto the ground.

Chapter 1605

Jack shook his palm, trying to ease the numbness on his palm. "This stone ball actually shook me off by its own will. Could it be...could it be that there's really something alive in the stone ball?"

"Ya! It also made a sound!"

Nobody expected this outcome at all. But it made the crowd breathe a sigh of relief when the stone ball pushed Jack away and stopped sucking his Chi energy.

Buzz!

Again the stone ball sounded. And a red beam of light shot out directly from it and straight up into the sky.

The beam of light was thick and bright to the point that it could be seen from a far distance.

“Oh my goodness! What’s that beam of light?”

From ten thousand miles away, the master of the Pavilion of Gods and Kings who had just returned to his residence spotted the red beam of light and exclaimed aloud.

“It shot out from where the White family is situated! My goodness! It’s from the White family! Why did such a red light suddenly appear out of nowhere?”

An elder of the Pavilion of Gods and Kings said in a daze.

Harry quickly thought of something, and he took a sharp intake of breath. “It must be like this! It must be that brat from the White family or Paul from the Hemperly family... They must have discovered something from the stone ball that caused such a vision to appear! Otherwise, there wouldn’t be such a light!”

“My God! Could it be that one of them has found the way to break through to the ultimate god realm? If this light is a sign of breaking through to the ultimate god realm, it’s too scary! Ultimate god realm...somebody has already reached that realm?”

Another old man of the same Pavilion boldly guessed after pondering on it, his voice trembling

“Move...move...let’s move! Take the people and we’ll head over to the White family immediately! We must go and see what’s going on. We must know if it is Jack who has broken through to the ultimate god realm!”

Harry had long been impatient. He then led a large group of people, heading straight in the direction of the White family.

Not only the Pavilion of Gods and Kings had acted this way; the other clans and families went straight in the direction of the White family after seeing such a sight in the sky.

Of course, the news spread like a wildfire.

“Look! Oh my god! A red beam of light shot out from the direction of the White family! Could it be that someone from the White family has discovered something out of the stone ball?”

Joel and the others from the Skies Pavilion also noticed the bright red light emitting from the direction of the White family. They exclaimed aloud in shock.

“This won’t do! We must...must go! Let us go and see what’s going on. That brat from the White family, he can’t have broken through to the ultimate god realm!”

Joel quaked.

“Honey, I’m going with you!”

Lily immediately ran to Joel upon hearing his words. “I want to go, even if I could only stay outside and watch from a distance!”

Joel’s forehead puckered together. “You have not even reached the grandmaster level. You trained so hard and could barely reach the seventh-grade martial level. It’s not good for you to go. If Jack has truly broken into the ultimate god level, and fight with us, I don’t think I’ll be able to protect you at that time!”

Nonetheless, Lily was dead determined. “Honey, I must go! We have so many people with us, I can disguise myself as a commoner and blend in with the crowd, and they may not even spot me. Besides, we can stay at the mountain farther away from the White family and send a few strong people to scout and inquire about the red light, can’t we?”

“Alright, let’s go then!”

Seeing that Lily was so resolute, Joel could not do much. Soon, they brought strong men with them, heading straight in the direction of the White family.

Of course, those remnants of the Lagorio family were put on the Skies Pavilion’s disciple clothes, disguised as one of them. Although there were not as many strong people as before, the Skies Pavilion team had a great number of people.

Chapter 1606

No matter which clans or families the people belong to, they all witnessed that bright red beam of light above the sky. Some third-class families knew that it would be useless for them to go to the White residence, but they could not resist wanting to go over to witness the fun. Or perhaps, they wanted to know about the ultimate god realm. Hence, one by one, clans and families headed toward the direction of the White family.

“Look! There’s another beam of light, just of a different color!”

At this time, Harry Yeager, the Master of the Pavilion of Gods and Kings, who was heading to the White residence with his men, found out there was another beam of light that shot out of the White residence. They exclaimed aloud.

“It must be another stone ball; it must be the other one! It looks like the Hemperly family does have a stone ball! I heard that they hid in the White residence and now they must have all discovered something out of the stone ball!”

Harry yelled; his voice trembled with excitement. If Jack and Paul had truly discovered something out of it, he must make them tell him, and he would have a share of that hope too.

Sure enough, the only thing that he worried about was that Jack was not willing to tell him the method to break through to the ultimate god realm. Nevertheless, Harry had already planned within his heart; he had three stone balls in total, and if Jack did not want to tell him the method, he would offer him one stone ball to exchange the secret behind it. In this way, Jack and the others would definitely agree to it.

“Look, Master! Two beams of light!”

The Hemperly family, who was rushing toward the White residence, also noticed the two beams of light that were shot into the sky. They were jumping with joy that their feet barely touched the ground. They understood what those two beams of light meant!

“Hahaha! It was the wisest choice to let Paul and the others stay there and get protection from the White family! Everyone, remember, from now on, we must pay our utmost respect to the White family whenever we meet them! They helped and saved us! So we must have a good relationship with them!”

Darcy Hemperly-the head of the Hemperly family-laughed out loud. His looks told everyone that he was intoxicated with joy and excitement.

“Dad, look, look over there! Another ray of light...”

Likewise, the Cabello family, who was heading toward the White residence, was flabbergasted with joy.

“Yes! I saw it! Hahaha!”

Alejandro chuckled aloud; he looked at his youngest daughter, Daniella, and said, “My little Daniella, I heard that you’ve been training really hard lately, and you have broken through to the late stage of true god realm, just like your second sister!”

Daniella felt proud of herself and said in a prideful tone, “of course! I’m talented by birth and you all know that! If I wasn’t playful and didn’t slack off before, I must have long broken through to the late

stage of the true god realm! But late-stage means nothing, I have to work harder and harder, to break into the peak of the true god realm! And even to the ultimate god realm one day!”

Helena, who stood beside Daniella, rolled her eyes at Daniella’s boastful remark. “I think you’re just afraid that when someone breaks through to the ultimate god realm, he gets to live two hundred years of life but you don’t have two hundred years to spend with him and grow old together!”

Although Helena did not announce their relationship to the others, most of the Cabello family members knew that Helena was playing a fake couple with Jack, and the person who truly liked Jack was their third young lady, Daniella Cabello!

But Daniella was not mad at all, instead, she felt happy that most of them already knew about it! There were already quite a few people who knew that she was in a relationship with Jack, and they were the real couple!

As for Helena, she was calm. The Hunt family could be considered as finished right then and there; that family was completely delisted from the prominent family list. And families like the Lagorio, Church, and Norman family, faced the same ending as the Hunt family. These four great families disappeared from history just like that. Therefore, she did not have to continue to be a fake couple with Jack anymore.

Chapter 1607

Helena was happy for Daniella; her heart was full of joy, at the same time, envy. She was envious that her little sister could find such a good man.

“Nonsense, stop it! I just want to become stronger!”

Daniella’s face was suddenly kissed pink upon hearing Helena’s words. She responded; her tone full of embarrassment.

But at this time, Venus thought of something and turned to Alejandro, “Dad, why are there two lights? Does that mean it’s some magical treasure instead of martial technique? If it’s not a martial technique,

likely, we can't learn it! And that also means that a single light can only allow one person to break through to the ultimate god realm! Wouldn't all our effort, including going there right now, be in vain?"

Alejandro's face sank immediately after hearing Venus's words. He and the other, whose faces were full of excitement, had now been overwritten by gloominess.

However, after a short period of silence, Alejandro smiled and shrugged nonchalantly. "No matter what the situation is, we have to go over and take a look. Even if only seven people can break through to the ultimate god realm with the seven stone balls, it'd be God's will. I can only say that some things may be predestined, and we can't help it, right?"

Venus bobbed her head, showing understanding. "Well, I just want to remind you all of it. I'm afraid that everyone might have too much hope and in the end, when we can't get what we desire, we'll fall into the abyss of despair."

"Thanks, but don't worry. We understand the situation very well!"

Alejandro, the First Elder, and others exchanged glances and bitter smiles were plastered on their faces. "After all, Jack had promised to share with us if the method is some sort of martial technique. He's kind enough to be willing to share the tips. But if the ultimate clue is not a martial technique, then we can't help it either! Everyone has to abide by the original agreement!"

The Pavilion of Gods and Kings was the closest clan to the White residence, and because they marched day and night and took no rest, they finally arrived at the White residence on the second day.

Along the way, the people of the Pavilion of Gods and Kings were feeling strange, because the two beams of light had not disappeared at all, so they did not know what the situation was.

"These rays of light shot into the sky and stayed there for a whole day! But, other than that, there's nothing special about it. If the lights continue to stay on, I'm afraid that the other clans and families would see it and all come over to the White residence. Sigh! What should we do?"

Looking at the two stone balls and the two beams of light before him, Paul rubbed his temple, not knowing what to do. Yesterday, after Jack caused the stone ball to emit the first beam of light, he naturally followed Jack's practice and began to actively inject Chi energy into the other stone ball. Of course, the end result was similar to Jack's another beam of light shot up into the sky.

However, up until now, they did not know what these lights were for and what it could do.

"Right. Other clans and families will definitely come here after spotting this vision in the sky. Sigh! And I think some of them are already arriving!"

Jack flashed a bitter smile. Up until now, they did not find out any other peculiarities other than the lights. Instead, they drew the attention of other clans and families, and they would surely come here to know what had happened.

"Young Master Jack, Master White, there are many people outside the gate! They seem to be people from the Pavilion of Gods and Kings!"

Just as Jack's last word fell, a few young men from the White family ran in and reported.
