

## Chapter 1661

The great ape roared and shook it directly. The aura on the palm converged into a light red aura light ball. After the light ball appeared, it flew straight to Jack.

"This beast still knows how to attack like this!"

Jack didn't dare to be careless at first glance, and another wave sword was stretched out. After a long time, it blocked the opponent's attack.

After blocking it, he looked at the distance again, and he was relieved. At least Alejandro and his people have now flown far away. It is not so easy for the great ape to catch up with him. As long as he persists for a while, Selena and others are safe.

Of course, the premise is that they will no longer meet more powerful monsters. In this forest, there are many treasures, but there seem to be many powerful monsters, comparable to Ultimate God Realm monsters, but I didn't expect that there were also them.

"There is no need to fight with the beasts. If I delay for a while, I can escape. This guy is bulky. Although the speed is not slow, I have a sword and just fly in the other direction. It is full of injuries. If it keeps bleeding, I'm afraid it won't continue to chase me after chasing him!"

Jack soon thought of something, and a smile on the corners of his mouth aroused a smug smile. Seeing the giant ape punched again, he directly flashed to the other side, and then a sword on the back of the great ape, leaving a wound again.

"Roar!"

The great ape roared, and the injured became more and more angry. He suddenly slapped Jack again with a backhand.

"Boom!"

Jack immediately stepped back and took another sword. A terrible sword spirit flew out, but it was patted by the great ape.

One person, one animal, fought for several minutes, and Jack also found the opportunity from time to time, leaving shocking wounds on the ape.

Jack could feel that the great ape seemed to be exhausted. Judging from its attack speed, it was obviously not as good as before. He believed that as long as he persisted for a period of time, he might consume the great ape.

However, at this time, it was obviously not easy. Although he was not hurt, the aura in his body was consumed a lot because of constant attacks. Similarly, he should be vigilant at all times. This feeling is not good. If you don't pay attention to it a little, he will be firmly formed by this ape. If so, that will be troublesome.

After all, his body is not comparable to this great ape.

It is estimated that the time is almost enough. Jack no longer continues to waste time here. He directly controls the flying sword and turns to Selena and others to escape in the opposite direction.

Seeing Jack want to leave, he was not a very big ape with great wisdom. He thought that Jack's reiki had almost been consumed. He had been injured. Naturally, he chased Jack without thinking about it.

"Boom!"

Jack kept flying in front of him. Behind him, a huge object kept beating the ground, and deep pits appeared one by one. Many tall and incomparable trees were also directly broken by the waist. The great ape rushed across, destroying everything under his feet all the way, which seemed very violent.

However, Jack has the help of the best spirit weapon, and the speed is naturally fast. In addition, the blood flowed on the ape, the speed of the ape is getting slower and slower.

Finally, the great ape could only look at Jack, gradually opened the distance and disappeared in front of its eyes.

"Ha ha, kung fu, it's kung fu!"

"It's mine!"

Jack flew forward. When the reiki was almost recovered, he continued to look for treasure. Unexpectedly, he was just about to take a detour to Selena and chase him in the direction, but heard a fight coming from the front.

"How to do it?"

When Jack heard these two words, even his breath became a little short. Is there a skill that breaks through to Ultimate God Realm that can attract the crowd in front of him to compete?

Chapter 1662

The word "kung fu" made Jack's heart boil with blood. He flew along the voice and found that there were many masters here to grab it.

Among them, there are several elders of small families, in addition to several elders of the Lucas family and several elders of the Canmore family.

In the middle position, there is an ancient stone platform. Above the platform, there is a light blue light ball, in which there is an ancient book floating in it, obviously mostly a skill.

"It seems that this forest is indeed a good treasure hunt place, and it is really good!"

Jack is about to fly out in a flash.

However, at this time, in the other direction, the head of the Canmore family, rushed out of the woods next to him and went straight ahead.

"Ha ha, the skill is the skill, this skill should also be our Canmore family!"

head laughed, not fast enough.

"Don't think!"

There is an old man in the late stage of the Lucas family's realm. His cultivation is quite good. Seeing that he is very close to that skill, he did not expect that at this time, master would suddenly kill him.

He immediately turned around and was about to stop the other party.

"Looking for death?"

eyes were slightly condensed, with a little disdainful color. With a grip on his fist, the aura poured out, with a faint golden color.

"Boom!"

A strong man who was about to break through to the peak of the realm was blown out by Zhuge Master, hit the ground heavily, spurted blood out, and died.

"Sky-level cultivation!"

Many people exclaimed one by one when they saw this situation.

And the master also knew that his combat effectiveness would scare everyone. Instead, he stopped without worry and put his back on his back and said, "Ha ha, you never thought that Victor Canmore would be the first person to break through to heaven-level cultivation, right? However, I'm sorry, I want this skill. For our elders of the Canmore family, we can have another strong man with Ultimate God Realm!"

"It's a 'Don't!"

However, what Victor never thought was that at this time, someone dared to rush out directly against the skill.

"Can't you find death?"

Seeing that the other party was getting closer and closer to the skill, Victor was so angry that he immediately shouted softly and glared at the front.

However, Jack did not intend to stop. He flew directly to the photoball, grasped it hard, crushed it, and took the skills inside in his hand.

Chapter 1663

"Did, don't you hear that I am on the Ultimate God Realm?"

Victor gritted his teeth and felt that the guy in front of him was too disreheing.

"Jack?"

At this time, Jack also slowly turned around, and Victor also recognized the people who came.

"Zhuge, this thing is a masterless thing. Now I have grabbed it, so that's mine!"

Jack smiled faintly and looked at Victor in front of him and said.

"Ha ha, little brother Jack, I really didn't expect it, it's really you!"

At this time, another elder of the Canmore family, who was at the peak of the real world, laughed first:  
"When you are outside, your combat effectiveness is the highest, and everyone respects you. That's because you have to be respected. After all, even our masters, perhaps even the masters of the four ancient sects, are not your opponent so everyone listens to you!"

At this point, the old man paused and then sneered, "However, after we enter here, the situation is different. Especially since our master is now a strong man of Ultimate God Realm. Do you think we still need to give you face?"

After listening to this, Jack sneered in his heart and ignored the other party. Instead, he looked at Victor Canmore : "Zhuge Master, what do you think? Are you elders right?"

The master showed his hands: "Isn't this an obvious fact? This world is so cruel. Whoever has a hard fist has the right to speak. Haha, let's not talk about anything else, Jack. Before that you said that our Canmore family did not go to Windy Island with you, and there was no bullshit agreement, so when you

go to your White family, let's only three people in. Other people who have a good relationship with you can enter. Go to twenty people, in this regard, I have already seen you unhappy!"

the master smiled coldly and continued, "However, what else can we say if we knew you were good at the beginning? But now, the times have changed. Victor is lucky to be the first strong man to break through to the heavenly level of cultivation. No matter how powerful you are, you can't be my opponent. If you are funny, you'd better hand over your skills.

"Victor Canmore, are you too inhuman?"

There was an old man from the Lucas family who couldn't stand it any more. He couldn't help but say, "This time, you can come in here and break through to the Ultimate God Realm. Jack has made great contributions. If they hadn't found this place, they could have come in with those of our forces who had not received stone balls. In this case, do you have a chance to break through to the Ultimate God Realm?"

Another second-class family owner couldn't help but say: "Yes, Zhuge Master, you can enter here and break through the current cultivation. Master Jack has a lot of credit. If you don't appreciate it, just forget it. Isn't it good to say such a thing?"

"Ha ha, what's not so good about this?"

However, Victor laughed: "I can enter here, which is also my life. I'm lucky, I'm lucky, can't I?"

At this point, he pointed directly to Jack and said, "Today, I will not only grab the skill, but also kill this boy. This boy's talent is amazing. If he gets the skill, it may not be a few days later, he can break through to the cultivation of heavenly grade. At that time, the cultivation of heavenly grade. I'm afraid it's hard for him to be his opponent!"

"Yes, yes, the master is so right. Grab the skills for us. At that time, more people in our Canmore family will break through to the Ultimate God Realm. Haha, in the future, our Canmore family will be the

masters here. At that time, do you family's dare not listen to us?"

The old Victor's parents at the peak of the real world laughed, their eyes were full of excitement, and obviously they had begun to look forward to a better future.

"It's really beautiful!"

Jack said with a cold smile, "Have you forgotten the strong people who entered here many years ago? Even if some people have died after many years, will their descendants practice in such an environment, will there be fewer strong people in heaven and strong people in the soul world? Still want to dominate here, dream!"

Chapter 1664

Hearing this, Victor's mouth immediately twitched a few times fiercely. Unexpectedly, he forgot about this matter and forgot about it. There are many predecessors. Now their descendants are also breeding here. I don't know how many forces there are.

However, he soon laughed again and said, "I don't care. Anyway, I am the first to break through the people we come in with. In the future, no matter what the ancient sect or your family forces, you must obey my words. I want to establish a big force!"

Jack smiled coldly: "The idea is very beautiful, and the reality is very boney. For example, if you can't get through this skill!"

While Jack spoke, his palm turned so much that he directly included the skill into the commandment.

Of course, he also glanced casually at it. The ancient book said that Eternal Reiki skill sounded good, but he didn't know what the skills was, but it was definitely the skills that could break through to the heavenly level.

"Is it? I really didn't expect that in the face of me, a strong man with Ultimate God Realm, you didn't take the initiative to beg for mercy. In this case, I'm welcome!"

Victor felt a little surprised. With a clench, the faint golden aura on it surged, and then he flashed to Jack's front of him and hit Jack angrily.

"Young Master Jack is powerful, but in the face of the strong cultivation of heavenly level, I'm afraid he is not the opponent. The aura of this Ultimate God Realm is obviously different, not only the color is a little different, but also the fluctuation of the aura is not the same. This seems to be only one step away, in fact, in fact, There is a big gap!"

There was an old man of the Zhou family who couldn't help sighing in his heart that if Master Jack chose to escape, he might have a chance to escape with him with the help of the best spiritual weapon.

However, this guy looked like this. Not only did he not choose to escape, but he actually wanted to fight with the other party. Isn't it looking for death?

In the face of the opponent's unreciated punch, Jack did not dare to be careless. Although he almost killed a monster comparable to heavenly grade before, Victor in front of him is also a Ultimate God Realm. Once he is careless, he may kill himself.

Jack's fist was full of aura, and one punch was directly bombarded with the opponent.

"Boom!"

As the fists of the two people bombarded together, a terrible roar sounded directly, and a powerful wave also emanated from the junction of their fists, and the surrounding fluctuations made the leaves on the ground fly with them.

"Well, what's the reason to bombard our master?"

The elder of the Canmore family, after seeing this scene, hummed coldly and his face was full of complacency.

However, the next second, his smile completely solidified, because the scene of Jack being bombarded did not appear in his imagination. The person who was bombarded was Victor, the owner of their Canmore family.

"No way!"

Not only him, but also the onlookers around him were also surprised. The boss with an open mouth almost petrified on the spot.

"The master of the Cannore family was actually blown away?"

Someone swallowed the saliva for a long time before he said such a word in a trembling voice.

"Impossible!"

Chapter 1665

Victor flew out ten feet backwards, which barely stabilized his figure, and his heart surged into waves. He looked at Jack incredulously. He thought that he had broken through to the Ultimate God Realm, and Jack would definitely not be able to beat him. However, the person who was blown up was himself.

Jack looked at his fists, but his eyes were a little more surprised: "It seems that your combat effectiveness, which has just broken through, is really not good. It's really not comparable to the monster of that grade! It's a little far!"

"Ye, Master Jack, what do you mean? Have you fought with the monster of Ultimate God Realm before?"

The old man of the Lucas family beside him was once again surprised by Jack's words. He was a monster with extremely powerful physical strength, and his ability to resist attacks was far from comparable to human beings.

I'm afraid that a monster with a celestial level and one product can be subdued by several human monks.

"If I don't think it's troublesome, I'll kill the monster!"

Jack looked at the other party and answered truthfully. The expression was called a plain one.

However, his plain sentence shocked everyone present again. Jack actually said, "It was troublesome, so did he let the monster go?" This breath is too big.

"Impossible! Boy, you must be lying!"

Victor immediately clenched his fist and glared at Jack and said, "Huh, bastard, do you think I will be afraid of you and let you go? Dream, I just underestimated you. You don't know at all that if we are strong in Ultimate God Realm, the aura in our bodies, if displayed, is not small for the improvement of martial arts combat effectiveness!"

Victor said, and directly took out a sword, which was actually the best spiritual weapon.

"The best spirit weapon?"

Jack's eyes lit slightly when he saw it.

"Ha ha, boy, do you think you are the only one? This best spirit weapon, I got in this forest, may be much better than the one in your hand. Well, with this treasure and my current cultivation, I don't believe it. I can't kill you!"

Victor smiled, and he was obviously more sure of holding the best spirit weapon.

"Your sword is good, but it seems that it is relatively small, and it is obviously suitable for women to use?"

Jack couldn't help laughing.

Victor's mouth twitched slightly. This treasure is indeed suitable for women and obviously for women. However, of all his weapons now, the highest level is the best spirit weapon that he only got yesterday.

He gritted his teeth and pointed his sword at Jack: "Well, this sword is really not easy to use, but it can improve my combat effectiveness. I killed you later. The sword in your hand is naturally mine!" Haha, don't worry, I will use your sword to kill your White people, including your father and your women!"

Jack also sneered: "I'm afraid you don't have that opportunity. The sword in your hand is quite suitable for my wife. If such a gift is given to my wife, I believe she will like it!"

Jack said, injecting reiki into the sword in his hand, and the sword made a soft sound of sword, and Jack's somewhat obscure momentum was also climbing up little by little. For Victor Canmore 's ungrateful guy, he would never be soft.

Chapter 1666

"Ha ha, you still want to grab the sword in my hand?"

After Victor listened, it was like he was listening to a big joke and quickly injected the reiki into the sword. One sword was cut at Jack in front of him: "Flying dragon cut!"

With Victor's soft drink, in front of him, a large sword spirit flying dragon soon appeared.

After the appearance of the flying dragon, it actually carried a faint golden color, giving people a sense of hegemony.

"Ha ha, boy, just wait to die. This is our master's most powerful move. Coupled with this time, his cultivation and the increase of this sword, humph, see if you are not unloaded?"

The elder of the Canmore family laughed again, his eyes were full of madness.

"Wave Sword!"

Jack smiled coldly and also injected reiki into the sword and cut it out in front of him.

"It's a 'Don't!'"

A reiki sword with a handle appeared and rushed out in front of him, like a terrible sword dragon. From a distance, it looked like two sword dragons impacting together, to divide them into height and bottom.

"Boom!"

A terrible roar sounded. Unexpectedly, Victor's attack, whose cultivation had reached the top grade of heaven, was only a few seconds deadlocked in front of Jack's attack, and gradually defeated by Jack's attack, and then completely defeated.

"No, it's impossible. Is my attack not as good as his attack?"

Looking at his sword-spirited dragon being defeated little by little, Victor shook his head one after another, his face was full of incredible color, and he could not believe it at all. After breaking through, he was still not Jack's opponent after the help of an excellent spiritual weapon.

"Boom!"

The terrible roar continued to sound, and Victor's sword spirit flying dragon was finally defeated by Jack's attack, turned into powder. Jack's attack was still one-third of the flying sword left. He rushed straight to him and had already reached his face in a blink of an eye.

Seeing the flying sword coming straight, Victor was scared and stood on his head. Seeing that he had no time to perform martial arts again, he could only grit his teeth and quickly condensed a thin reiki light mask outside his body.

After the reiki mask was condensed, Victor's heart was also relieved.

He believes that with his own reiki mask, it should not be a big problem to block Jack's next attack. After all, the reiki he has cast now is different from the previous reiki, but it is more or less gold, so that the mask on his body now looks like a kind of Light golden yellow.

"Boom!"

Just after his reiki mask was condensed, the terrible attack fell on his mask and made a terrible roar.

"Click!"

The first flying sword was resisted. However, Jack's second flying sword fell directly in the same position and directly broke it. A crack appeared, which spread constantly and finally dissipated.

"No!"

Victor's eyes were big. He never thought that after Jack launched an attack, after such a long distance, he could easily control the flying sword so that the flying sword could attack at the same point. This can only show that Jack's spirit is really too powerful, at least harder than him. Too much harm.

"Boom!"

A flying sword with a handle fell directly on Victor's body, and he flew out backwards.

Chapter 1667

Victor kept spitting blood in his mouth. Finally, on his chest, he was directly bombarded out of a blood hole and hit the ground. His eyes were still filled with fear before he died. He lay there, but he did not move.

"No way, Victor Canmore was actually killed?"

"Yes, looking at this, Master Jack did not lie before. He really has the ability to skip the level to kill the enemy. Moreover, he can actually kill the strong man of heaven and grade at the peak of his real real world!"

The people around them were shocked one by one. This scene was unexpected by them.

"Gul!"

Several people of the Canmore family looked at each other one by one and swallowed the saliva fiercely.

And the elder of the Canmore family from before, who also thought of something first, turned around and went straight ahead to escape.

He is not stupid. With what he said before, I'm afraid Jack will not let him go.

"It's a 'Don't!'"

However, a sword spirit caught up directly, and the speed was so fast that he was killed in an instant.

In addition, the Canmore family members also failed to escape, and were directly killed by Jack.

The other family members turned pale with fear, because they didn't know whether Jack would continue to attack them. After all, everyone has been in for two days, and they got some three kinds of spirit grass or something more or less. In case Jack wanted to kill them and rob the treasure on him, then I'm afraid none of the people here can escape.

"Ye, Master Jack, can we go?"

There was an old man of the Lucas family, who had been helping Jack speak before, and finally summoned up his courage and asked Jack softly.

Jack looked at each other's party and nodded gently: "You go!"

"Thank you, Master Jack!"

The people around them, one by one, breathed a sigh of relief and quickly prepared to fly forward.

"Wait!"

However, as soon as they flew not far, they heard Jack's voice again.

The people who had just flown out not far away took a breath one by one, scaring their backs to get a little cold. Could it be Jack that he could not go back on his word so soon?

"Ye, Master Jack, what else can I do with that?"

Everyone looked back at Jack in a little fear. As long as Jack did not kill them, at worst, he would hand over the three pieces of spiritual grass he got. Almost at this time, everyone thought so in their hearts.

Jack smiled and reminded everyone: "By the way, I also said before, in the world we came in, there are strong people who came in before, their descendants, etc. They are considered indigenous people here now. There are many strong people, and even sent two people to guard the entrance here, but no one knows what's the reason. The people we came in did not appear at the entrance. I guess it was caused by the formation time being too long. Everyone was just separated. But those people are not friendly to us. When you meet your masters and yours, you must tell them, be careful!

Speaking of which, Jack paused and then continued to say, "However, those two people were killed by me. Now this forest is basically safe. Everyone try to find resources and improve their cultivation!"

"Thank you, Master Jack, for reminding me!"

After listening to it, everyone was relieved one by one. Originally, they thought Jack regretted it, but unexpectedly reminded them kindly, which made many people's hearts, and their manners, have to look

up at Jack again.

Jack smiled and then flew down to get his own trophy.

## Chapter 1668

"There are really three kinds of spirit grass in Victor's Ring!"

Jack brought all the treasures in the other party's Ring. After he brought Victor's Ring, the harvest actually showed a satisfied smile on his face.

It seems that after Victor became a strong man of Ultimate God Realm, he was afraid that he robbed many other people's things, but he did not expect that he would die under Jack in the end, but instead, Jack got a lot of benefits.

"Go, there is a skill. They went to find the rhyme of poetry!"

What makes Jack most excited is naturally that he can break through the heavenly level of cultivation. Victor's skill can be completely given to Nash and them to practice. In addition to this set, he also has a set of skills in his hand, which can be called perfect.

Nash and others finally came to the foot of the mountain the next morning, and also met a lot of spiritual grass along the way. Fortunately, the monsters they met were not particularly powerful. In addition, with the help of Alejandro and others from the Cabello family, they came here very safely.

But along the way, Daniella and Alejandro and others were all very worried. After all, the monster's body was too strong and very anti-ant.

"This mountain is too big. Waiting at the foot of the mountain, and it's also very wide. If we wait here,

can he find us? Besides, how many days will it take?"

After a while, a man from the Cabello family couldn't help asking, "In case, in case Jack was killed by the monster, we don't know that it's impossible to wait here all the time, right?"

Hearing this, Daniella was so angry that she stared at the other party fiercely: "What are you talking about? Jack is not going to die. Even if he can't kill the monster, can't he escape?"

The man immediately smiled bitterly and said, "Miss Three, don't be angry. I'm just saying that in case, in case, Master Jack was in danger to save us. Naturally, I don't want him to make any mistakes!"

"It must be all right. I said it would be fine, so it would definitely be fine!"

Daniella pouted and sat down under a big tree: "We'll wait here, at least five days!"

Alejandro and others are ashamed, five days, which is a little too long. After all, if Jack is alive, he can't have not caught up for so long.

"So, you are here!"

Unexpectedly, at this time, Jack stepped on the flying sword and finally found them.

"That's great. I knew it. You'll definitely be fine!"

Seeing Jack coming, Daniella immediately got up, smiling: "You fought against the monster to save me. If you die, I'm afraid I will feel guilty in my life!"

"Don't worry, the monster was almost consumed by me. I don't want to waste time. I just left."

Jack jumped off the flying sword, then put away the flying sword and said to everyone, "Guess, who did I meet later?"

"Who did you meet? It's not my sister, is it?"

Daniella frowned and guessed.

"No, I met the old guy Victor and killed him and several Canmore family members."

Chapter 1669

Jack shook his head and came to Selena. Then his palm turned over, took out the smaller sword, and handed it to Selena: "Wife, this sword is just for you, just suitable for women, or the best spirit weapon!"

"Is it?"

Selena's eyes lit up, happily took over the sword, and looked carefully: "It's really good-looking, or the best spirit weapon, husband, you're too awesome!"

Daniella, beside her, was vaguely envious when she saw the love of the couple. Although Helena broke up with Jack, many people know that they are not lovers.

But her relationship with Jack, but now no one knows about them, which makes her heart a little sour.

At this time, Jack took out a skill and handed it directly to Nash: "Dad, this skill I got from Victor Canmore . I took a look. This skill can not only be cultivated to the heavenly nine products, but also to enter the soul world. Haha, you take it!"

"Mys!"

Hearing this, everyone took a breath of cold air. Unexpectedly, Jack got such a powerful skill.

However, think about it, Victor can break through to the heavenly level of cultivation, naturally because of this skill, and Jack killed him. How can such treasures be unwanted?

"That's great. Let's copy two more copies later. The elders, the elders, the second elders and the third elders can all practice. If they can break through to the heavenly level of cultivation, it would be perfect. Our White family must walk ahead!"

Nash laughed and his eyes were full of hope.

"That's great. If I can break through to the heavenly level of cultivation, I will have a longevity of 200 years!"

Kenneth went crazy after he listened, it was a happy moment. Now he is in his seventies and has long been looking forward to such a day.

"I found that after Victor broke through to the Ultimate God Realm, his whole person looked several years younger and in good spirits!"

At this time, Jack said with a smile, which made the people here more excited one by one.

Alejandro and others beside him, that's called an envy, opened their mouths, but were embarrassed to

open their mouths.

Jack has seen through the other party's thoughts and smiled at Alejandro and said, "Master Cabello, when the time comes, I will give my father this skill. Come and copy it. After all, we are also friendly forces. Last time, thanks to your marrow washing psychic water, it was my father-in-law, mother-in-law and my mother who could successfully practice and become a practitioner!"

Hearing this, Alejandro's heart was ecstatic and immediately said, "How can this be good?" Well, thank you!"

"Ha ha, we can still trust the Lord Cabello family. We entered here together mainly for heavenly skills. I don't want our two families to grab them for the sake of skills or something. We have skills and practice together. Maybe we can help each other in the future. After all, we are not very clear about the specific situation in this!

Nash laughed and said to Alejandro.

"Yes, yes, yes, we must help each other!"

Alejandro nodded one after another. The people of the White family were actually willing to take out such treasures and share them, which made him grateful.

Jack looked at the sky and then said, "Let's go. For the safety of the next road, let's find a bigger cave first, hide in it and practice well for a period of time, and see if we can strive to break through to the sky-level cultivation as soon as possible!"

Chapter 1670

Jack and others found a more remote cave, let several people patrol outside and leave guard, and others hid in it, and several of their masters of the peak cultivation in the real real real realm began to prepare

to try to break through to the heavenly level of cultivation.

Nash originally wanted to copy a copy of the skill to Jack, but unexpectedly, Jack still had one in his hand.

Jack sat down cross-legged and carefully looked at the skills in his hand.

In front of this skill, it is described very powerfully. As long as you practice this set of skills, you can make your body very powerful. You will nourish the body with reiki all the time, and even a reiki whirlpool will appear in your own body, so that the whirlpool will keep rotating, even if it is not practiced in the future. When sleeping, the whirlpool will also keep rotating, and a little bit of initiative helps the practitioners absorb the aura between heaven and earth.

However, the only drawback of this skill is that ordinary people really can't practice, and they need people with relatively strong mental power to practice, because when this small whirlpool is condensed, it is not something ordinary people can do for the control of spiritual power.

Because he couldn't wait to break through to the heavenly level of cultivation first, Jack did not look at the content behind this skill, but thinking that the skill was very powerful, he was ready to practice this skill.

As soon as his palm turned over, he directly took out a second-grade elixir, then swallowed it, closed his eyes, and according to what was said in the technique, he began to let the aura emitted by the elixir step by step, flow along a specific vein route, and pulled it to the center of Dantian little by little.

Because it is a new skill, which is completely different from the previous practice, Jack dares not be careless. When tractioning these auras, he is also very careful and afraid of making any mistakes.

The energy of the second high-grade elixir is obviously very strong. At the beginning, because Jack's speed of traction of reiki was a little slow, the energy in his body made him feel a little uncomfortable and blushed.

"What's wrong with Jack? Will he have no problem with his skill?"

Someone soon found Jack's face turned red, his face was solemn, and there were bean-sized sweat on his forehead and began to drip down.

"No way, he should practice my father. After all, Victor Canmore has tried this skill before. It shows that this skill must be good to practice. I don't know whether it will be difficult to practice this skill he is practicing now. I heard that some powerful skills, although powerful, are also very complicated to practice, which is not something ordinary people can practice!"

After Daniella saw this scene, she couldn't help frowning and worrying.

Listening to Daniella, Selena also frowned slightly, and she was also worried about Jack. If something went wrong with this skill, she heard that if she was slightly injured or her cultivation would be regressive. In serious cases, I'm afraid she would go crazy and directly become insane. Son.

However, with the passage of time, Jack's face gradually improved, because he was becoming more and more familiar with the vein route, and the speed of traction of reiki was obviously several times faster than before.

Seeing Jack's face return to normal, everyone's heart was slightly relieved.

Time flies, unconsciously, it has passed three days.

In Jack's Dantian, there is now a small whirlpool. However, the whirlpool seems to have some erratic, which makes Jack's heart worry, and he has to use mental force to assist the rotation of the whirlpool and keep its center of gravity.

Another day passed, and the whirlpool was a little bigger than before. Jack withdrew his mental strength little by little, and unexpectedly found that the whirlpool could still rotate independently, and the aura

of the whirlpool unconsciously added a faint golden yellow.

## Chapter 1671

Jack's mouth evokes a faint smile, and he finally succeeds.

Moreover, at the moment of this breakthrough, he seemed to have come to a dark world. Photospheres floated in front of him, like meteors, and disappeared thousands of miles in the blink of an eye.

However, the picture stayed for a second or two, and suddenly disappeared.

A powerful fluctuation emanated from Jack's body, making the surrounding space slightly swung.

This powerful fluctuation was collected back by Jack in an instant. If everyone hadn't felt the terrible momentum, I'm afraid they would have doubted whether this fluctuation had ever appeared.

At this time, Jack also opened his eyes and stood up slowly. He had a somewhat unusual temperament on his body, which seemed to give people a more ethereal feeling.

"It's successful. It must be successful. This is too fast. It's only four days before it's successful!"

Daniella almost jumped up when she saw the smile at the corners of Jack's mouth.

Jack smiled indifferently. He was very clear in his heart that the main reason was that this skill was indeed a little profound. If you want to practice, it is very complicated, and there are many veins that are needed. Otherwise, I would have succeeded long ago.

However, since this skill is so complicated, it can only show that this set of skills is very high and quite good.

"Husband, how's it going? Dad and several of them are still practicing. It seems that I'm afraid they will have at least a day or two!

Selena also came over and said with a gentle smile, "Luckily, this cave is relatively remote. No other person has broken in these two days, and no monster has found it here. Now that you have broken through, our hearts are relieved!"

Jack nodded: "Breakthrough, and finally break through to the cultivation of heaven-level products. The main reason is that this is a new skill, which is completely different from the previous skill. It's a little complicated. It took so long, otherwise, it should not take long!"

"Yes, this first time must take a lot of time, and it is estimated that the practice will be much better in the future!"

Selena laughed.

Unexpectedly, at this time, a terrible fluctuation in another direction spread out, and was quickly collected again.

Looking at the past in the direction of this fluctuation, Jack and others were happy. This time it was Nash who broke through.

"That's great, Dad. You are also a strong man of Ultimate God Realm now!"

Jack said excitedly.

## Chapter 1672

Nash's fist shook his fist, and his body's sense of power soared several times in an instant, which made his heart also excited.

His mind moved, and immediately appeared some reiki on the palm of his hand. The reiki jumped, with a faint golden color on it. He was sure to be in the Ultimate God Realm, and his eyes were slightly red.

"Well, it's a breakthrough. This feeling is really cool. It feels like there is a tacit understanding between this world!"

Nash nodded and said again, "It's very strange that at the moment I just broke through, I seemed to have come to another world at once. In that world, there were photospheres passing by me, like meteors. In the blink of an eye, there was no trace! Maybe it's a breakthrough, and I have hallucinations!"

After listening to this, Jack took a breath of cold air, and his whole body was stunned and exclaimed, "Dad, you, you have also been to that space? When I broke through, I also saw the same picture as you. Later, I thought it was an illusion, and I thought it was the only one I met. Unexpectedly, you actually saw the same picture!"

"No way? Have you seen such a picture?"

After listening to Nash, he was really surprised by taking a breath of cold air.

He thought that only he had seen that moment, but he didn't expect that Jack also saw that moment, which made his heart wonder for an instant.

After a while, he frowned and said, "Is it that people who have broken through to Ultimate God Realm will enter that place? Will all let the soul enter that place?"

"This is not clear. Maybe so, otherwise, how can we both see the same picture?"

Jack frowned, looked at Alejandro and others who were trying to break through, and then said, "If they break through later, ask them and see how they are doing!"

After almost half an hour, Alejandro stood up with a smile. He looked very energetic. Like Nash, he seemed to look much younger all of a sudden.

"Dad, did you break through too? Great, you look younger than before!"

Daniella immediately ran over and looked excitedly at her father's Ultimate God Realm, which was what everyone dreamed of. Before, she tried her best to find the stone ball and the clue to break through to the Ultimate God Realm. Now, it is finally done.

This means that my father also has a longevity of more than 200 years. Now my father is only in his forties. Isn't it that as long as he is not lucky enough to be killed, there are at least more than 150 years of longevity left. There are so many longevity yuan left. As long as you work hard, you can break through to a more enviable entry. The soul is in place.

"Ha ha, it's a breakthrough, it's a breakthrough, grandma's, this level of cultivation is good, it feels completely different, it feels more tacit understanding with this world. I feel that now I can play the previous seven or eight me!"

Alejandro laughed and was full of joy.

He soon arched his hand directly to Nash again, "Thank you, Master White, for your kindness, and shared copies of the skills with our Cabello family. Otherwise, I Alejandro still don't know if I have a

chance to break through to the Ultimate God Realm in my life!"

## Chapter 1673

Nash smiled indifferently and waved, "The Lord of the Cabello family is welcome. Even if we don't give you this skill, I believe you will soon get the skill in the forest. Therefore, it should also be a matter of time to break through the Ultimate God Realm. It seems that this should be a treasure hunt place. There must be a lot of treasures in it, otherwise Jack would not have two skills in such a quick hand!"

"Ha ha, that's not necessarily true. It's still necessary to break through to Ultimate God Realm as early as possible, and be more secure. Otherwise, if you meet a monster comparable to Ultimate God Realm, as before, it really has no resistance. If you break through now, even if you can't beat it, you can drag the other party, at least you can fight!"

Alejandro laughed. Unfortunately, other strong people who practiced the peak of the real real realm of the Cabello family did not see it. Otherwise, let them practice with it. Maybe now the Cabello family can have two, or even three strong people with one-class cultivation!

Nash and Jack looked at each other, and then asked Alejandro, "By the way, Master Cabello, when you broke through the heavenly level of cultivation, did you have a flash of eyes and felt that the whole soul had entered another space?"

"Another space? What space?"

To Jack and Nash's surprise, Alejandro looked at them confusedly. Obviously, he did not know what they were talking about.

Nash felt a moment in his heart, and then he asked the other party, "That is, like a black starry sky, surrounded by photospheres, flying like meteors. Such photospheres are large and small, and the color is different. They fly by in a flash, but in a flash, they disappear. That's it."

"Yes, my father, too, had such a feeling at the moment of breakthrough!"

Jack immediately asked, "We thought that everyone who broke through to Ultimate God Realm could see this scene. Didn't the Master of the Cabello family really see it?"

"No, I broke through like this!"

Alejandro looked puzzled and did not know what the situation was.

After a while, Kenneth, the elder of the White family, actually stood up with a smile: "Ha ha, that's great, breakthrough. I'm finally a strong man of heaven, the strong man of heaven, I finally achieved it!"

Looking at Kenneth's crazy excited appearance, everyone's faces showed a smile. They were all very clear that this kind of cultivation is more and more expected for the older people.

"Big elder, your gray hair is much less!"

Selena looked at the other party and indeed seemed to be much younger, so she said with a smile.

"Is it?"

Kenneth immediately couldn't wait to take out a mirror. After looking carefully, he said, "Sure enough, he looks much younger and energetic. Although he is still a bad old man, he looks much better than before, and the appearance feels much greater!"

After saying that, he looked at Jack with envy: "It's still Jack's better. You broke through to Ultimate God Realm at such a young age. A Genius like you will break through into the soul world in the future. Sooner or later, it's also a matter of time. You can really retain your youthful face!"

## Chapter 1674

"Ha ha, this is the way talent is like this. People are more popular than people!"

Alejandro laughed and said to Kenneth wildly again, "However, I am very satisfied that we can break through to the Ultimate God Realm. Not to mention Ultimate God Realm, there are many practitioners who can't even break through the real realm in their lives, so old!"

Kenneth immediately nodded with a smile and said, "What the Lord of the Cabello family said is that this man, you should know how satisfied you can be. I am very happy to achieve it now. By the way, the talent of the girl Selena is also excellent. She competes with the three daughters of the Cabello family. I guess it won't be long before she can break through to the heavenly level of cultivation!"

After listening to Kenneth, Selena reluctantly smiled. After all, her curse could not be eliminated. After a day, it was one less day, and several days had passed before. Now Jack and others practiced, and four days have passed. She has not had much time left. If she can't lift the curse, it's true. What is that you can only wait to die.

Seeing Selena's slightly bitter smile, Jack naturally knew what Selena was thinking and immediately changed the topic and said, "By the way, elder, did you see a picture when you broke through?"

Kenneth was crazy, and then he said in surprise, "Young Master Jack, have you seen it? I thought it was an illusion. When I broke through, I arrived in a mysterious space. In that space, there were photospheres with different eyes, flying quickly from my side..."

After listening to it, Nash frowned deeper: "It's strange why did the three of us see that scene, but the Lord of the Cabello family did not see this scene?"

Alejandro looked a little worried: "I don't know whether it's good to see that scene or not. The three of you have seen such a scene, all of which seems to have come to a special space, but I don't! However,

my cultivation is really real and breaks through to the top of the sky? Needless to say, Jack's skills practiced by you two are the same as those of mine! Why is there such a difference?"

Everyone, look at me, I look at you, it's really puzzling. Finally, everyone's eyes on Ye Wuyi and Lancelot, who have not yet broken through.

Before long, Ye Wuyi broke through and broke through to the heavenly level of cultivation, and he was also very happy.

However, what is surprising is that he, like Alejandro, did not see that picture and did not enter the mysterious space.

"Sneering!"

However, at this time, Lancelot spurted out a mouthful of blood. He opened his eyes and was reluctant to see more: "Oh, it was almost that, I didn't expect that in the end, it was a failure!"

Lancelot's impact cultivation failed, and his body was also injured. He had to swallow a healing pill immediately to heal the wound first.

When he learned that several other people had broken through to Ultimate God Realm, don't mention envy him. Six people hit the Ultimate God Realm together, and all five succeeded, but he did not succeed, which made his heart feel more or less frustrated.

Chapter 1675

Jack smiled, and then comforted Lancelot and said, "Don't worry, Third Elder. It's not been a long time since you broke through to the peak of the real world. Take a break first and try to break through the next time. After all, this is a big realm. If everyone can easily succeed, it's not very present. It's true.

Lancelot nodded and then said, "That's right. Now our White family, at least we have four strong people with one-class cultivation. I believe that among the forces that come in together, our White family should run the fastest!"

"Ha ha, this can't be said. After all, many people have gone away. This time we have delayed here for four days. I'm afraid everyone has gone away even more. I don't know the situation of others! Here, the people of the White family and the Cabello family add up to only a few hundred people!"

Nash smiled and said modestly.

Alejandro also nodded: "Oh, I don't know where Helena and Venus are now. They have come in for so many days and haven't met them. Now we are here, and we have delayed four days or four days. Some people estimate that they have gone further. I hope I have never met them. What kind of cultivation is good to see!"

Daniella quickly comforted and said, "Dad, don't worry. My sisters, their cultivation is not bad. As long as it's not too bad luck, there should be no problem. Besides, the elder sister has been the peak of the real world. Maybe she has broken through to the Ultimate God Realm now? That's also possible!"

"Let's go. We have also lost a lot of time. Now it's only one or two o'clock in the afternoon. At this time, we should find a lot of spiritual grass before dark. There are a lot of people here. We can be slightly separated and have a care for each other. I'm going to look for spirit grass during the day, and at night, I can try the refining of three low-grade Pills !"

Jack smiled indifferently, and then said, "For those who practice in the false or real world, the elixir of these two products are very fast. However, for those who have Ultimate God Realm, although they can also improve their cultivation, the effect is not obvious. If I could refine the grade three pills earlier, That would also be of great benefit to people with Ultimate God Realm!"

"Grade Three products!"

After Alejandro and others listened, they took a breath of cold air one by one. Such a level of elixir was scary to think about before, because outside, I have never seen much of the three products of spiritual herbs, let alone the grade three products of elixir pills .

Now, Jack, whose talent for alchemy is amazing, has unconsciously become a senior alchemist of the second grade. He can indeed say that under his hard research, he may really become a third alchemist in the near future.

Selena frowned slightly. She was very clear in her heart that Jack couldn't wait to improve his alchemy level as soon as possible, and it must be closely related to the desire to refine four-pin elixir as soon as possible to help her lift the curse.

Although all this may be difficult and difficult to do, Salena is also very satisfied with his efforts for her.

"By the way, Master Jack, we have also got a lot of three kinds of spirit herbs these days. Look at whether the spirit herbs we have got are suitable for you? If so, you just need to take it directly. After all, if it weren't for you, we wouldn't have had skills to practice so soon, and I wouldn't have broken through to the sky-level cultivation so soon!"

Alejandro quickly thought of something, hurriedly took out his commandment ring, and then handed it to Jack.

## Chapter 1676

"Is this not very good? You have worked so hard to find the spiritual grass!"

Looking at the spiritual grass in front of him, Jack said embarrassedly.

"Hey, what's wrong with this? No matter how many spiritual grass there are, there are no more valuable skills you share with us. The skills you give are not only the Ultimate God Realm method, but also the

practice method of entering the soul. There is no problem practicing the nine grades into the soul world!"

Alejandro said with a smile. Speaking of this, he couldn't help looking at Daniella beside him, and then said with some pointing, "Besides, we are not just friendly forces now. Maybe we will be a family in the future. Why do we see each other like this?" Right?"

Daniella beside him suddenly looked shy, which was called shy.

"Yes, yes, yes, the Lord of the Cabello family is so right. We should have helped each other in the first place! Right?"

Nash immediately smiled happily, and then said again, "Because of them, you can use those materials from the Lord of the Cabello family. When you refine the three-pin elixir in the future, won't you give him one or two?"

"That's true. If I can become a third-grade alchemist, it will naturally not be much difficult to refine elixir!"

Jack nodded, then looked carefully at the spiritual grass in front of him, and then selected two or three useful spiritual grasses.

Hearing what the two said, the people of the Cabello family were excited one by one. Yes, the third-pin elixir was completely the treasure in the treasure. In the future, the two families got along well, and Jack casually threw them two or three pills. Is that okay?

They are even more sure that if Jack becomes a third-class alchemist, I'm afraid that no one can stop the development of the White family.

After all, although you haven't seen the third-grade elixir, you can think of it. The energy must be

extremely majestic. Even a third-grade low-grade elixir may suddenly make people break through the cultivation of two or even third-grade elixir. In that case, the speed of cultivation will be particularly fast.

And if people with Ultimate God Realm can only rely on some spiritual herbs to practice without the three-grade elixir, the speed of cultivation will naturally be much slower.

"Let's go, let's go!"

Jack waved his hand and set off again with everyone.

Sure enough, after everyone walked out of the cave this time, they felt that the fighting sound that happened everywhere a few days ago had become much less. Moreover, the direction of some fighting sounds was far away from here. It was difficult to tell whether it was a fight between any monster or between monks because of robbing treasures. The fight that happened.

Jack and others identified the opposite direction of coming in here and went all the way forward. At night, everyone had also gained a lot.

However, in the afternoon, I also met a few monsters, but their cultivation was not high. Basically, they were comparable to monsters in the middle or late stage of the real world. Now for everyone, there is no need to pay too much attention to such monsters.

## Chapter 1677

In order to adapt to the newly increased strength in their bodies and better control the soaring strength, whether it is Alejandro or Ye Wuman and others, every time they meet monsters, they rush up one by one to fight against monsters.

The people of the Cabello family will take out some of the spiritual grass they got after night, so that Jack can see if there is anything suitable for alchemy. If so, they will simply give it directly to Jack.

After all, they all know that Jack and others asked them to copy a copy of that skill, which is a great kindness for their Cabello family.

At night, when everyone sat down to rest, Jack also began to study the third-grade low-grade elixir.

In the first half of the night, he mainly familiarized himself with the elixir prescription and some steps of alchemy, reaching the point of being cooked. By the second half of the night, Jack began to try refining.

In one night, he refined it three times and failed three times. Although this was also expected by himself, Jack couldn't help but have a burst of meat pain.

Because this is used to refine three low-grade elixir, it not only needs one three-grade low-grade spiritual herb as the main material, but also some second-grade spiritual herbs as auxiliary materials, and some suitable herbs to match the refining.

Once you fail once, the loss will really be huge. If you fail three times in a row, you will lose at least three third-grade low-grade spiritual herbs and more than a dozen second-grade spiritual herbs. How can such a loss not make people heartbroken?

Seeing that the sky had lit up, Nash also came to Jack and comforted Jack: "The difficulty of refining the third-grade elixir must be more than ten times that of refining the second-grade elixir, or even more than that. This second-class senior alchemist, to the third-grade low-level alchemist, is also an essential improvement. It's a jump. Failure is inevitable. Don't worry about it.

Jack nodded: "Yes, the second-grade senior alchemist is also a second-grade alchemist, and he can refine a third-grade low-grade elixir, that is, the third-grade alchemist, which is different. It's nothing wrong with this failure. The main reason is that I really love these spiritual grasses.

"It's okay. We can find a lot of Sanpin spiritual herbs every day, among which are also many materials suitable for you to use for alchemy. As long as you are willing to work hard, I believe that you will be able to continue to break through and become a third-grade alchemist. After all, I think when you

refined for the third time, that technique was much more proficient than the first refining!"

Nash smiled and patted Jack gently on the shoulder.

"Sister Selena, don't worry too much. Jack's talent is one of the best in cultivation and alchemy. I believe he will definitely help you solve the black spots on your face and help you lift this curse within a year!"

On the other hand, Daniella persuaded Selena next to her.

Selena nodded with a smile, and then said to Daniella, "You, don't be so shy. When you are free, chat more with Jack. What can you do if you always have your side?"

Speaking of this, Selena paused and then whispered, "Although I also believe that Jack will try his best to help me lift the curse, there will be so few days in a day. The fourth-grade intermediate elixir is not so easy to refine, not to mention that Qingyunzong in such a short time. Baby, why is it easy to talk about it? If, if I die, you don't have to be sad for me. I know you are a good girl, and You will definitely take good care of Jack and Kylie for me!"

As soon as Daniella heard this, her face suddenly darkened: "Selena, don't talk nonsense. You will definitely be fine. Your relationship with Jack is so good, and he won't let you have an accident. What's more, even if you are for Kylie, you have to work hard to survive, okay? Don't think nonsense or affect your cultivation, okay?"

Chapter 1678 WIP

Looking at Daniella's excited appearance, Selena's heart warmed slightly. She could see that Daniella not only really liked Jack, but also was indeed an innocent and simple good girl.

Selena smiled bitterly and then said, "Don't worry, I will definitely not give up easily. After all, Kylie is still waiting for me at home, saying that I should also work hard to live, and my parents are waiting for me to go back home!" What I said is just in case!"

"Sister Selena, I believe this will definitely not happen!"

Daniella smiled and put Selena's arm and said.

The group continued to set off. Unexpectedly, at noon, there was a fight in front of them.

Jack and others looked at it from afar and frowned immediately, because he found that it was Venus and several young people of the Cabello family surrounded in the middle, and the people who surrounded them were also from the Cabello family.

"What's going on? Why did the elders of the Cabello family surround Miss Venus and them in the middle?"

Jack frowned, a little confused.

"I'll go over with you first to see what's going on, and the rest of you will come later!"

Alejandro also frowned and said to everyone that he flew straight ahead with Jack.

Under a big tree, Venus, the second daughter of the Cabello family, and several young people were surrounded in the middle by the second elders of the Cabello family and several people of the Cabello family. Moreover, Venus's mouth was still with blood on the corners, which was obviously seriously injured.

"Second Elder, don't go too far. I won't agree!"

Venus looked at the man in her fifties in front of her and said angrily.

"Ha ha, Miss Venus, do you think it's the same as when you were outside? It has been here for so many days. Maybe your father and others have died here long ago."

The second elder of the Cabello family in front of him laughed and looked proud: "Don't you know yet? Since entering this new world, everything has begun to be reshuffled. Not to mention the size of this forest, can we still meet your father and others? Even if we meet, what can we do? I'm now a strong man of Ultimate God Realm. Even if your father is here, he is not my opponent. At that time, he can only be killed by me?"

Hearing this, Venus's face turned gloomy. Yes, the second elder of the Cabello family, not long after he came in, had broken through the cultivation of heavenly first-class. Even if her father is here now, what if so? Can you still play against opponents who have supernatural cultivation?

However, if she marries such an old man in front of her, she can be her father's old guy. She might as well die.

After all, when they were outside, their three sisters were recognized as the three golden flowers of masters. Over the years, many talented young masters have been flattering them. They have not answered the answer, and they have not met the right person. How can they marry such a bad old man?

She bit her sexy red lips before frowned and said, "Er., when you were in our Cabello family, our Cabello family was good to you. I didn't expect that you were such a person!"

"Ha ha, how's I done? These people are all my cronies. I pulled them up in one hand, so they are willing to fool around with me!"

## Chapter 1679

The second elder laughed and looked at dozens of masters around him, and then shouted, "Besides, my fair lady, gentleman is good. After my cultivation breaks through to the second grade and the third grade, I will not only accept you as my daughter, but also let your eldest sister and your sister be My

woman, let you three golden flowers serve me well!"

Speaking of this, he clenched his fist again, and then said confidently, "At that time, all the other people of the Cabello family will listen to me. Those who obey me will prosper, and those who rebel against me will die. If anyone dare not listen to me, there will be only one end at that time, die!"

"Yes, yes, yes, this position of the head of the Cabello family should have been replaced for a long time, and my master should be replaced!"

Next to the second elder, a man smiling and slugged, "In the past, the Cabello family was indeed good to my master, but if there was any good thing, the first thing that came to mind was the Elder Cabello Kevin. Ha ha, why? Isn't it because my master's surname is Chu? Is it a person with a foreign surname?"

"That's right. What's the result of saying it's good to me? Is there anything good? Why don't you think about the elder first?"

The second elders also sneered, and then said to the young people of the Cabello family in front of him, "You, I still hope you can be more interesting and don't resist stubbornly in the corner. At that time, there will be only one dead word!" If you arrest Miss Venus, I can let you go and save you a life!"

"Roy Bentian, if you like women, young and beautiful women, some of them, and more importantly, can't you find a good-looking woman with your current status? Why do you have to do it with our second lady? You go too far!"

A young man from the Cabello family said angrily that although other young people of the Cabello family were surrounded in the middle and had been killed before, no one still has planned to surrender.

"Ha ha, that's true!"

Robben laughed, and then looked at Venus with a playful face before saying, "However, there are not many beautiful women like your three ladies of the Cabello family. The only pity is that the eldest lady had fallen in love with the boy surnamed White before. Although she has broken up now, most of them have. Have you fallen asleep? However, it's not bad. Miss Second and Third Miss are still perfect, and they are still waiting for me to pick!"

"Bonnah!"

The young man was so angry that he cursed with hatred.

"I think you're looking for death!"

Robben's weather was not good. He flashed directly and rushed over. He suddenly got stuck in the man's neck and shook it hard. There was a crisp click, and the man was directly angry.

"Cousin!!"

As soon as she saw her cousin, was killed like this. Venus was so angry that she clenched her fist and attacked this way with one punch.

"Ha ha, I just broke through to the peak of the real divine realm and also want to fight with me?"

In the face of Venus's attack, Robben sneered unintentionally. He shook his fist and didn't even use Reiki. He punched Venus directly.

"Bang!"

A slightly dull voice sounded. The next second, Venus flew directly backwards and spewed out a mouthful of blood. Her already pale face looked even whiter.

## Chapter 1680

"Whew!"

However, just as Venus was about to land, two figures galloped over, one of which directly put around her waist, which made her fall to the ground safely.

Venus saw that it was Jack, and she suddenly felt a little embarrassed. She couldn't help blushing and standing in a hurry.

Jack turned over the palm of his hand and directly took out a healing pill, and handed it to the other party: "Little beautiful girl, take this pill to heal the wounds. Just give it to us here!"

"Well, thank you, Master Jack!"

Venus took the pill embarrassedly, and then found that the other figure turned out to be her father. Suddenly, she looked at Alejandro slightly red in her eyes and said, "Dad, that's great. I finally saw you. I'm afraid that something will happen to you. I heard that the Canmore family owner had already broken through to the Ultimate God Realm. I'm afraid there are many breakthroughs to Ultimate God Realm here. I even heard that some time ago, someone saw you and Daniella being chased and killed by a monster!"

At this point, she looked around anxiously: "By the way? Where's the third sister? She won't have an accident, will she?"

"Don't worry, your third sister and others will come in a moment. We were indeed chased and killed by

a monster that day, but thanks to the help of Master Jack, we were out of danger!"

Alejandro looked at his daughter and was relieved. Fortunately, he and others came here properly, and he happened to see this scene. If it was a little late, it would be really troublesome. I'm afraid that he would not be able to see his daughter again.

Seeing Alejandro and Jack appearing at the same time, the second elders were immediately shocked, and his face also sank in an instant.

But when he thought of his current cultivation and that he was no longer the same as before, he had a little more confidence in an instant and sneered, "Alejandro, long time no see. I really didn't expect that you would appear at this time!"

Speaking of this, Robben paused and continued, "That's good. I'm looking for you everywhere. You happen to be here and kill you. At that time, I will be the head of the Cabello family. Of course, if you are willing to abdicate voluntarily and marry all three of your daughters to me, I can consider letting you go!"

"Well, Robben, I really didn't expect that you would be such a person. Your cultivation and combat effectiveness were not as good as mine before. That's why you were so obedient when you were in the Cabello family. Unexpectedly, as soon as the cultivation broke through to the first grade of heaven, your fox tail was exposed. I, Alejandro, I really misunderstood!"

Alejandro snorted coldly and turned blue with anger: "Do you still want me to marry all three daughters

to you? I think you are such a fool's dream!"

"Ha ha, obsession. Since you and the boy of the White family are here, I will kill both of you. In the future, let me see who dares to oppose me!"

Robben laughed, stretched out a hand, and the aura poured out with a faint gold on it. Then he smiled at Alejandro and said, "Do you see the golden aura of heaven-level first-class cultivation? Do you envy it? Give you a last chance. If you are still obsessed, I will take action!"

"It's really crazy!"

Alejandro sneered and also stretched out a hand. Soon, on the palm of his hand, there was also a light golden aura, and began to surge.

"You, have you also broken through the Ultimate God Realm?"

Seeing the faint golden aura in Alejandro's hand, Robben took a breath of cool air, and his face was so gloomy in an instant.

In the past, when he was in the Cabello family, his cultivation, like Alejandro, was the peak of the realm, but his combat effectiveness was much worse than Alejandro, and there were more powerful elders of the Cabello family, so this was also one of the reasons why he had never dared to think anything wrong.

Originally, I thought that Alejandro was definitely not his opponent when he broke through the cultivation of the heavenly god realm. Unexpectedly, Alejandro is also the cultivation of Heavenly god realm now, which made him, who had been under Alejandro under his feet, instantly lost confidence.

However, he soon showed a little viciousness in his eyes: "What if you break through? Well, the skills I got this time may not be worse than yours, so now you may not be my opponent!"

The confidants of the second elders were originally a little worried, but when they heard this, they were finally relieved.

#### Chapter 1681

"Is that right? Then try it and you will know!"

Alejandro sneered, clasped his fist, and rushed directly to Robbe.

"Ha ha, give it to me for the rest of these people!"

Jack smiled indifferently, clasped his fist, and the aura surged. In that aura, there was also a little gold. Even this kind of gold looked much more obvious than Alejandro's gold.

"No way? Did he break through, too?"

Seeing Jack also breaking through to the Ultimate God Realm, those people who used to be with Robbentian were looking ugly one by one.

"Master Jack, no, no, we were also forced by the second elders. We didn't want to rebel!"

The previous apprentice of Robbentian, when he saw that Jack was also a heavenly strong man, knew that he and others were sure to lose, so he immediately waved his hand and said.

"Ha ha, am I a fool?"

Jack sneered and no longer talked nonsense to the other party. He rushed up like a wolf into the sheep. After a moment, dozens of strong people of the Cabello family actually lay on the ground like this and became corpses.

After killing these guys, Jack also looked at the battle between Alejandro and Robbentian on the other side.

Obviously, the skill practiced by Alejandro is obviously higher than that of the opponent. Robbentian was directly crushed by Alejandro. Although he has not been able to distinguish the winner or loser for a while, it is estimated that the other party will also lose.

"Master Jack, thank you for your help!"

Venus's face at this time was much ruddy than before. The healing pill given by Jack was obviously unusually good.

"Ha ha, you're welcome. Our two family's are friendly forces!"

Jack said with a smile.

At this time, Daniella, Nash and others also rushed over.

"Second sister, that's great. I finally saw you!"

After seeing Venus, Daniella immediately rushed up and hugged Venus excitedly: "A few days ago, we were chased and almost killed by a monster. Fortunately, Jack appeared in time. Otherwise, I'm afraid I will never see my second sister again!"

"Well, I also heard that! it's great to see you. I really didn't expect that my father and Jack broke through to Ultimate God Realm. Now, our safety factor is much higher!"

Venus looked at Jack and envied her sister. It was really her blessing that her sister could find such an excellent man.

"Ha ha. Sister, it's not just the two of them. Uncle White, as well as the elders and the second elders of the White family, have broken through to the first grade. The third elder, almost broke through a little bit, but I guess it's also a matter of time sooner or later!"

Aww

Daniella said with a smile.

Chapter 1682

After Venus heard this, the gap in her mouth could almost stuff an egg.

After several seconds, she said, "My God, plus Jack, and Lord White, aren't they four heavenly strong people with first-class cultivation? That's awesome!"

Daniella looked at Jack beside her sweetly, and then said proudly, "Yes, thanks to Jack, He got two sets of skills, and they asked us to copy one set. Otherwise, how can my father break through to the heavenly level of cultivation so quickly?"

"Is that right? That's really great. In this way, won't I be able to practice this skill in the future? At that time, can I also break through to the Ultimate God Realm?"

After Venus listened to it, her eyes lit up in an instant.

"Sister, didn't you just break through to the peak of the real divine realm? You came in here and then broke through to the peak of the real divine realm. Even if you want to impact cultivation, you have to wait a few more days no matter how much you are. When the realm is completely stable, do you dare to try impact cultivation, right?"

Daniella's mouth beeped. Thinking of the cultivation in the middle or the later stage of the real world, she vaguely envied Venus.

"Yes, I mean, now that you have skill, you are not afraid. You only need to practice for a period of time, at least you don't have to worry about finding the skill again!"

Venus smiled, and then smiled at Daniella slightly provocatively and said, "Sister, you are going to cheer up!"

After saying that, she undoubtedly saw Selena standing behind. She was stunned and exclaimed, "Well, isn't this Selena? She, what's going on?"

Selena sighed silently in her heart. Such a big black spot on her face completely ruined her appearance. The black spot looked even a little scary.

And every time she was seen by the previous people, she still needed to explain it, which made her

heart even more painful.

Only then did Daniella hurriedly pull Venus aside and explain it to Venus.

"No way, so many things have happened here, and what other people have they met? Jack killed two more? Tut, Jack, now his combat effectiveness, I'm afraid it's easy to kill people with heavenly first-class cultivation, right?"

After listening to this, Venus looked at Jack beside him again in shock.

"Tian-class Yipin? Ha ha, sister, when he killed the heavenly first-class strongman, he was really the cultivation at the peak of the divine realm. Now he has broken through to the heavenly first-class. I think it shouldn't be difficult for him to kill the heavenly second-class, or even the heavenly third-class cultivation!"

Daniella said with a smile. When talking about Jack, her face was full of pride. After all, this is the man she recognizes. Such a man is too excellent. She believes that whether it is her eldest sister or second sister, she must envy her for finding such an excellent man.

"No way, this, this is awesome!"

Venus looked at Jack's eyes, as if there was a little more worship.

"You two, what are you talking about over there?"

Jack saw the two of them hiding aside, and Venus stared at him from time to time. She couldn't help laughing bitterly and said, "Looking at Cabello's master about to win, you can have another skill!"

"Of course we are talking about someone's great achievements!"

## Chapter 1683

Daniella gave Jack a look full of amorous feelings, and her hands were behind her back, and she walked over here.

"Boom!"

As Jack expected, Robben couldn't hold on quickly and was directly bombarded by Alejandro. The body fell directly from the air to the ground, and a huge blood hole appeared on his chest.

"It's so cool. This Robben's combat effectiveness is not much worse than mine. It's so enjoyable to fight, haha!"

Alejandro flew down and took Robbentian's Ring off before flying to Jack and others, with a smile on his face.

"Hey, don't mention it. I can't wait to try it. If it weren't for your own business, I would have rushed up!"

Ye Wu said with a wild smile that after the strength in his body increased, his hands had already itched. Under the same combat effectiveness just now, it was just right for practicing.

"Well, I didn't expect that this second elder, when he was in the Cabello family in the past, was so honest and never had any bad-mindedness. After breaking through to Ultimate God Realm, he would actually become like this!"

After all, Alejandro was still a little uncomfortable and couldn't help sighing after following his Cabello family for so many years.

"That's because his combat effectiveness was not as good as you and the elder before, so he didn't expose his nature. Not long after he came in, he had broken through. Naturally, he thought that the

opportunity would come and his nature would be exposed!"

Daniella shook her head helplessly, and then said, "Luckily, we happened to find the second sister and them. Otherwise, the second sister and the others would be in trouble."

"Well, I don't know. How's your elder sister now? I don't know where the others have gone!"

Alejandro nodded, and his heart was full of emotion.

"Don't worry, Dad, elder sister, they will definitely be fine. She has long been the peak cultivation of the real world. Maybe now she is a heavenly first grade, and may even be a heavenly second grade! Are you still worried about her? Maybe you are not her opponent now!"

Daniella came forward and comforted Alejandro with a smile.

At this time, Alejandro took out a skill from Robbentian's acceptance ring. He looked carefully and quickly frowned again: "It's strange that I can only practice to the nine heavenly grades after looking at this skill. There is no practice method of soul state behind it. Moreover, if this skill is not as good as the previous practice of Lord White. It seems that the skill level is indeed not high. No wonder Robbentian is not my opponent at all!"

"How useful is this skill to keep? At least, you can exchange it for some spiritual grass or something!"

After thinking about it, Jack said.

"Let's go, let's continue to look for treasures!"

Finally, Nash waved his hand, and then everyone continued to fly forward.

In the afternoon, Jack and others actually got a four-grade low-grade spiritual grass, which made Jack extremely excited. Such spiritual grass can be regarded as a treasure in the treasure. Moreover, if there are four-grade low-grade spiritual grass, isn't that there may be four-grade intermediate spiritual grass? At that time, let's see if we can get the elixir that treats Fernando's body or Selena's curse.

Chapter 1684

When the sky faded at night, Jack and others were ready to start resting.

After arranging a few people to take turns to watch the night, Nash and others were busy practicing. After all, this forest is really dangerous. There are even monsters with Ultimate God Realm. Everyone dares not take it lightly, and the aura is too strong here. It is the first time I met such aura and new skills. Naturally, they can't wait to break through the cultivation of Tianshi Second Grade as soon as possible, even Tianshi Third Grade.

Jack did not practice, but continued to try the refining of three low-grade elixir.

He found that the skill he practiced was really quite good, because the cyclone in his body was spinning non-stop. Even when eating, sleeping or doing other things, it would absorb the aura little by little and then change his cultivation.

Of course, the speed of practice is definitely not as fast as that when taking the initiative to practice, but the advantage is that it can keep practicing. After a long time, the speed is still considerable.

Seeing Jack refining elixir, no one went to disturb him, and even his heart was full of expectations.

After all, once Jack can refine the three-grade low-grade elixir, it is not a problem for people with Ultimate God Realm, even one, to improve the cultivation of the two products at once.

The second-class advanced elixir is very helpful and effective for people who cultivate in the real divine realm, but for people with Ultimate God Realm, the effect is not very obvious.

At the beginning, Jack failed to refine two furnaces of elixir, which made him, Nash and others a little meaty. After all, every time he failed, the wasted spiritual grass or something was not one or two plants.

However, what was unexpected was that Jack finally succeeded when he finished for the third time!

"Get up!"

Jack waved with one hand, and an elixir pill flew directly, and then floated in front of him. A faint red fragrance emanated like this.

"Successful? Oh, my God, that's great!"

Nash, who had been watching, stood up directly excitedly and was extremely happy.

"Oh, my God, it really succeeded, Jack, your talent is also very good!"

Kenneth's face was also full of joy, and he was almost crazy. Jack could refine grade three elixirs. What does this mean? It means they can't be clearer, which means that they can break through quickly in Ultimate God Realm.

In the past, when we were outside, everyone practiced very slowly. The first reason was that even in the owner of the White family, the intensity of the aura did not dare to be compared with this place. The intensity of the aura here was simply more than ten times that of the outside.

In addition, it is a cultivation of resources. It is difficult to see even three-grade low-grade spiritual grass outside. Among them, three-grade high-grade or even four-grade low-grade spiritual grass have been obtained today. With cultivation resources and skills, the speed will naturally not be too slow.

If there is Jack's elixir it would help again, it will really be like adding wings to a tiger.

"Ha ha, the rise of my White family is really within reach!"

Ye Wulang also laughed.

"See? Sister Selena, Jack is already a third-grade low-level alchemist. He can refine three-grade low-grade elixir! You must believe in him, believe that he can grow up in a short time, help you lift the curse, and return your beauty to the past!"

Daniella was also extremely excited. She immediately ran over and took Selena's hand and said cordially.

"Well, I saw it. I saw it. He made progress again!"

Selena's eyes turned slightly red. Although it was quite difficult for Jack to become an intermediate alchemist of the fourth grade and refine the elixir she needed, at least Jack was moving towards his goal step by step.

She believes that whether Jack can do it or not at that time, it is also a good thing for Jack. At least, Jack's efforts have made her die without regret.

Chapter 1685

“This is great! You’ve finally succeeded! Even if my current success rate is low, I’d definitely be able to cultivate the second and third pill with the experience of succeeding with this pill. If I continue to cultivate this type of pill, my success rate will increase indefinitely!” Jack clenched his fists as determination flared in his eyes.

It had to be mentioned that the cultivation of thirdgrade pills was much more difficult compared to the cultivation of second-grade pills. Hard work paid off, however, and Jack finally succeeded in cultivating a third-grade elementary pill.

“Let’s store it for now. Everyone had just broken through into the First-grade ultimate god-level recently, and your realms have yet to stabilize. Nobody can use this pill for the time being.” Jack smiled bitterly and carefully put away the pill in his hands.

Instead of resting, Jack continued to cultivate twice instead, but it was to his disappointment that both processes failed.

Sure enough, Jack did not give up after these two failures as he discovered that there was only a slight difference in both failures.

Jack would have continued cultivating the next two groups of ingredients had the sun not risen.

When everyone was prepared to leave, Yolanda, Titus, and about 100 members of the White family spotted them. “What a joyous event, Master Nash! Who knew that we’d bump into you here!”

“This is wonderful! Butler Titus and Elder Yolanda, I never thought that we’d meet you here!” exulted Nash excitedly when he spotted the members of the White family.

Yolanda immediately walked one step forward and said, “Master, Young Master, we have special news we’d like to tell you. It’s something that’s worth being extremely happy about!”

“Really? Tell us about it!” Nash and Jack exchanged glances as a hint of curiosity appeared in their eyes

“Haha... There’s more than one happy event. Firstly, I’ve broken through into the peak stage of the true god -level. Secondly, Butler Titus had broken through into the First-stage ultimate god-level as he obtained a martial art technique. How about that? Isn’t it exciting?” beamed Yolanda in excitement.

“Titus broke through? That’s great!” The members of the White family were delighted when they heard the news.

However, Yolanda and Titus frowned.

“What’s going on? Butler Titus, why are you unhappy when you’ve broken through and obtained a martial art technique?” asked Nash curiously at the sight of them both frowning.

Titus smiled bitterly as he confessed, “It’s not that I’m unhappy, Master. I just feel that everyone doesn’t look as excited as we anticipated you’d be after hearing the news. After all, I’ve obtained a martial art technique that helped break through into the ultimate god-level, so shouldn’t you guys be jumping from excitement? Anyway, I feel that the degree of your happiness is slightly different from what I expected.”

Yolanda pouted as she crossed her arms at her chest, saying, “That’s right. It’s also very much different from what I’ve expected!”

Chapter 1686

Kenneth laughed so loudly that his stomach hurt when he saw the facial expressions on their faces.

He then said, “If we haven’t broken through into the ultimate god level, we would definitely jump in excitement when we hear this incredibly good news of yours. However, you guys have no idea that several of our people here have broken through into the First -grade ultimate god level and we have

gotten hold of a martial art technique. That is why we did not react so excitedly!”

“How’s that possible?!” This time, Titus and Yolanda opened their mouths widely as they were the ones who were surprised.

Kenneth was satisfied with the surprised look on their faces and spoke to these two with a smile. “I am the one with a piece of exciting news to tell the both of you. You guys will be extremely excited when you learn about it!”

“Really? There’s even surprising news compared to how several of our people from the White family have broken through into the ultimate god level?” Yolanda and Titus exchanged glances as they suspected they were dreaming.

“Young Master Jack is already a third-grade alchemist and he’s capable of cultivating third-grade elementary pills now!” Under the extremely expectant eyes of those two, Kenneth purposely smiled mysteriously before telling them about the situation.

“Hiss!” After they heard this, Yolanda, Titus, and the others inhaled deeply as the expression on their faces differs.

After some time, Titus pinched himself on his thigh and discovered that it really hurt. Only then did he ask Kenneth, “First Elder, you...you aren’t joking, are you? Young Master Jack can even cultivate third grade elementary pills? If that’s the case, would we be able to use third-grade elementary pills in the future?”

Kenneth coughed twice and said in a pretentious way, “According to usual reasoning, that is the case. However, all of this depends on how happy Young Master Jack is. After all, you would only have the opportunity if he’s willing to give it to you. If he isn’t, how would you have the chance to train with such high-grade precious items like the third-grade elementary pills?”

Titus immediately smiled embarrassingly and said, “ Haha, that is true! After all, it’s not easy to cultivate

a third-grade elementary pill!”

Jack also felt happy when he saw how those two old men were enjoying their conversations. He smiled at Titus. “Butler Titus, you just need to focus on training. Don’t worry, after my success rate has increased in cultivating this pill, it wouldn’t be an issue to give you one or two of them.”

Jack paused here before he continued speaking, “ However, it’s best if you search for the ingredients needed to cultivate such pills!”

“Sure, this is good... This is good! It would work even if it was three groups of ingredients in exchange for a pill!” Titus’s eyes lit up after he heard this. Although it was tiring to search for ingredients, training with spirited grass and third-grade pills were two different things. If this was another alchemist, they might not be willing to exchange pills at all, even if an abundance of ingredients was provided.

“Butler Titus, this doesn’t sound right. Jack cultivated several groups of ingredients last night and only succeeded once. If you want him to give you one pill with every three groups of ingredients, wouldn’t Young Master Jack suffer a huge loss by then?” On the other hand, Kenneth had a darkened expression on his face. He directly stretched out his hand and said to Titus, “You need to prepare five sets of ingredients. In that case, Young Master Jack might be able to earn some ingredients for other pills!” “Sure, five sets wouldn’t be an issue either!”

## Chapter 1687

Titus nodded in succession and agreed to it as he was afraid that Jack would refuse to help him cultivate pills if he was slow in making his promise.

Jack smiled when he saw how the two of them acted. “Don’t worry. Just give me the materials you find in the future. My success rate should also increase over time. Hmmm... Members of the White family only need to provide me with three sets of materials. I will work hard to cultivate a pill for you guys. As for our friendly forces, if they can provide materials, give me five sets of ingredients and I will strive to cultivate a pill!”

“Young Master Jack, you mean to say that you would give us one pill made out of that particular

material as long as we give you five sets of such materials?” Alejandro was originally envious of the White family in his heart. He was so excited that his pupils widened when he heard what Jack said.

After all, it was a third-grade elementary pill.

“Haha, that wouldn’t be an issue!” Jack laughed out loudly.

He understood clearly that he would definitely be tired if he did this. However, he would not be out of materials if he needed to cultivate pills in this case. Somebody would help him look for materials to cultivate pills and he could also save more time.

The time he saved could be used to cultivate pills continuously and after increasing his success rate of cultivation, he could start to try cultivating pills of higher level.

This was the only way for him to try cultivating fourth -grade pills within a shorter period of time.

“This is great! Brother Jack, just tell us what materials you need when you plan to cultivate any pills. In this case, our people will pay special attention when they go out searching for spirited grass and other materials!” One of the middle-aged men from the Cabello family also said with a smile.

Not only were those in the intermediate stage of the true god level like him excited, but those in the semi God realm were also excited.

This was because the third-grade elementary pills were important treasures. If they managed to exchange a pill from Jack, they could keep it for the future even if they could not immediately use it. If that did not work, they could still exchange it with others for some second-grade pills that were suitable for them to train with. That was also a good way to use the pill.

“Haha... Alright! I shall write down the materials of the third-grade elementary pill I’m cultivating now and two other types of third-grade intermediate pills for you guys to take a look at. You can help search

for the materials!” Jack laughed happily and everybody there was filled with passion and excitement.

In the afternoon, Jack and others continued to search for precious items. In the evening, he continued to cultivate the third-grade elementary pill as he wanted to increase his success rate.

However, Jack was quite satisfied this time. He cultivated five sets of materials continuously and he succeeded twice, obtaining two third-grade elementary pills.

It had to be understood that such a success rate was not achievable by average alchemists. It could only be achieved by repeatedly cultivating one type of pill multiple times. Therefore, Jack was quite satisfied that he was able to have such improvement in such a short period of time.

Not long after Jack and the others set off, they discovered a type of spirited grass. However, there was a monster beast, a two-headed blood-red python, with the fighting prowess comparable to human’s second-grade ultimate god level next to this third-class intermediate spirited grass.

## Chapter 1688

Jack and the others had never seen the two-headed blood-red pythons in the real world, but these creatures were mentioned in the book before.

If one were to meet a monster like this outside this place, its existence was equivalent to legendary. It was a monster in the ultimate god realm, after all. It frightens one just thinking about it.

Here, the two-headed blood-red python was guarding the area around the third-grade intermediate spirited grass. Its entire body was red in color, and it appeared especially eye-catching when one looked at it.

“That thing has a big body. The slight resonance from its body means that it’s definitely a monster in the second-grade ultimate god realm. A monster like that is probably as good as a third-grade ultimate god

level! It's so frightening!"

Alejandro studied the huge red python from a distance and told Jack in the end, "Young Master Jack, there's plenty of spirited grass in the forest, so I think we should just give up on this patch. Let's go look for it somewhere else. It'll be a lot easier. This monster is too strong and dangerous!"

"I'd probably give up if it were some other spirited grass. But I definitely will not be on this path!"

Jack looked at the patch of spirited grass from afar, passion blazing in his eyes. "That patch of spirited grass is not just any third-grade intermediate spirited grass. It just so happens to be the main ingredient in a type of third-grade intermediate pill that I know. Besides, these spirited grass are hard to come by in the first place. It won't be easy for us to find another once we miss out on this one. Furthermore, there's less spirited grass that's guarded by monsters, and most of them are not high in grade. Spirited grasses like these are more likely to be guarded by a monster!"

Alejandro could not help but nod when he heard this. "So that's the case. Then let us of the ultimate god status attack it together. The rest can stay behind. It'd be too dangerous for them if they come along!"

Yet he did not expect Jack to give a wan smile. "It's fine if I go by myself. It'll be pretty dangerous for all of you to go too. Ever since I broke into the first grade ultimate god realm, I have yet to put my fighting power to the test. It works out great that I can use this monster to test it out!"

"Then you have to be careful. This thing has two heads, not just one after all. So it's different from the usual serpentine monsters!"

Nash on the side nodded his head and warned Jack.

"Don't worry. It won't be a problem!"

Jack smiled and got ready to rush forward.

Whoosh!

Yet at this moment, a purple silhouette flew out from another side, heading straight toward the monster.

Jack, who had been just about to fly out, could not help but frown. "No way. There's actually someone who dares to head in?".

"Who's that?"

Daniella, who was next to him, also frowned. "Everybody came to this place at the same time. We weren't even here for ten days. Don't tell me that they've already broken into the second-grade ultimate god realm? Or even the third grade? Why would they dare to fly in otherwise?"

"No way. We were all lucky enough to break into the first-grade ultimate god realm. Even if the people who had come in with us had broken into the first grade ultimate god status, they would only be able to stabilize their power now. There's no way that they'd be able to break into the second-grade ultimate god realm, right?"

Alejandro nodded his head and spoke as he watched the silhouette. "Besides, judging from their form, it looks like a young lady at the peak of the True God Realm that we've never seen before. Is that right?".

"That person should be a second-grade ultimate god fighter. I've already sensed the resonance coming from her body!"

Jack carefully used his mental strength to sense the person's resonance before declaring confidently.

Chapter 1689 WIP

"No way, Master Jack, can you feel that kind of fluctuation so far away? Your spiritual power is too

strong!"

There was a young man from the Cabello family who couldn't help exclaiming.

"Nonsense, he is a third-class alchemist. Can a person like us speculate about his strong spiritual strength?"

Another young man looked at Jack with a worshipful face.

"Heavenly second-class? Jack, don't care. Since this spiritual grass is so important, this is an opportunity. The other party is only a heavenly second-class product, not necessarily the opponent of the monster. You can find the right time and rob the spiritual grass at that time. Anyway, it looks like that. It must not be a White family or a Cabello family!"

After thinking about it, Alejandro suggested it to Jack.

Nash was silent for a while before he said, "It should be from the Supreme Clarity Sect, right? After all, more than 90% of the disciples of Supreme Clarity Sect are women, but I remember that none of the elders of Supreme Clarity Sect wear this purple dress, right?"

Yolanda said, "That's not necessarily true. There are more than a dozen people who practice at the peak of the Qingzong realm, and these days when they come in, I'm afraid some people have also broken through. Not to mention those people, there should be some of those who have broken through to the Ultimate God Realm, but this has broken through to the second level. The cultivation of the product is too fast. As for the purple skirt, it's normal for people to come in for so many days and maybe they have changed a suit?"

"Let's take a look first!"

Jack was not sure who the other party was. First, it was a little far away from this side. Second, the other

party kept his back to this side, and could only see a purple skirt plus a shawl of black hair.

"Roar!"

At this time, the young woman was not far away from the pair of red-blooded pythons. After the python found the other party, it also made a direct roar, and immediately moved the long body the size of a bucket, straightened up, and glared at the purple skirt woman in front of him.

"Beast, if you know interesting things, get out of the way quickly, otherwise, I will kill you!"

The young woman shouted softly and turned her palms over. In her hand, there was a sword which was a heavenly spiritual weapon.

"Roar!"

However, how can those red-blooded pythons leave? It roared again, and a fireball suddenly spewed out of one of its mouths. The fireball fluctuated strongly, but condensed with aura with a hot temperature.

"Humph!"

The woman hummed softly and quickly injected Reiki into the sword in her hand. The sword suddenly trembled and made a soft sound of the sword, which immediately became much larger.

"Whew!"

Seeing that the fireball reached the middle position, the woman cut it out in front with a sword. Suddenly, a terrible sword gas chop flew out like this, with a momentum of indomitation, which was too fast.

"Who the hell is this woman? This attack is not weak!"

After seeing such a scene, Jack couldn't help frowning. He didn't remember that there was such a powerful young woman in the Supreme Clarity Sect. Most of the elders of the Supreme Clarity Sect were old women in their forties and fifties, or even 60s and 70s. There were only two or three young women, but Jack really had never seen this figure.

Chapter 1690 WIP

Just as Jack's voice fell, the attack of the purple skirt woman had been bombarded with the other party.

"Boom!"

A huge roar sounded, and the huge fireball was directly penetrated by the woman's sword spirit. After the fireball exploded, it was completely defeated, and the long sword spirit, with some remaining power, rushed straight ahead and landed on the huge two-headed red-blooded python.

"Roar!"

The python roared, and the violence in it was even more fierce, and the woman's attack was on it, leaving a cut more than 20 centimeters long, where blood flowed out.

Such a wound is actually not small, but for the huge double-headed red-blooded python, it is nothing at all, but completely angers it.

The two huge mouths actually roared again, and at the same time, they spewed out a basketball-sized huge fireball from two different directions against the purple skirt woman in front of them.

In the face of such an attack, the purple-skirt woman obviously did not dare to be careless. She desperately injected the aura into the sword, and then waved out with a sword. In front of her, a fast aura wall appeared. After the wall appeared, it blocked her in front like a barrier.

"Boom!"

After a while, two huge fireballs finally landed on the huge barrier, which kept fluctuating, but finally took over the attack of the two red-blooded pythons, and then the barrier continued to move forward, and the woman followed not far from the barrier, approaching the python little by little.

"This woman is very strong. She is the cultivation of Heavenly Second Grade, and this monster is also the cultivation of Heavenly Second Grade. Generally speaking, it is difficult for human monks to deal with monsters of the same level. Without two or three people working together, it is difficult to be her opponent, but this woman obviously still has the upper hand!"

After looking at it for a while, Nash said to Jack worriedly, "Jack, I think you'd better not take action easily. This woman is very powerful. If you rob the spiritual grass she likes at that time, you will really offend her."

"Dad, don't worry, I know it's acting according to the opportunity!"

Jack smiled, and he knew very well in his heart that Nash was afraid that he would not be an opponent of this woman at that time.

"Boom!"

The woman's barrier fell directly on one of the heads of the red-blooded python, hitting its huge head directly to the ground, and she flashed straight to the direction of the spiritual grass.

However, at this time, the mouth of the red-blooded python with both hands took the opportunity to

shake it like a huge whip, and quickly pulled it over to the purple skirt woman.

"Damn it, this beast is really difficult to deal with!"

Obviously, the woman didn't want to fight with such a powerful monster. She couldn't wait to get the spiritual grass immediately and leave here. Unexpectedly, the python attack came again.

She had to stop again immediately, and then quickly continued to display an aura barrier in front of her. After the huge barrier appeared, she rushed to the monster.

"Boom!"

There was another loud noise. This time, the barrier was blown up by the huge tail, and the python's tail was directly bounced open.

But the two heads of the python, with a huge mouth open, rushed over to this side again.

"Whew!"

When the purple skirt woman looked at it, she had to go back up and temporarily avoid the attack of the Python.

"Roar!"

However, the python took the opportunity to chase, and the speed suddenly accelerated a lot. It rushed up again, and one of the heads hit the girl hard.

"Bang!"

A slightly dull voice sounded, and the purple skirt woman was directly hit and sprayed out with a mouthful of blood.

"Go to hell!"

Chapter 1691 WIP

However, while the purple-skirt woman was hit and flew away, she also cut it out with a sword. A terrible behead flew out directly and landed on the body of the python. This time, there was a huge cut left on it. Blood flowed out of there, which looked a little shocking.

"Roar!"

This time, although the python was only slightly injured, it was completely angered by the woman. After roaring again, it accelerated and rushed to the woman in the purple skirt, opening its mouth to swallow the woman in one bite.

"Damn it!"

As soon as the woman fell to the ground, another mouthful of blood spewed out, and her face turned pale in an instant.

As soon as she stood up, she wanted to immediately run Reiki to fight back, but at this time, she found that she was already seriously injured, and it was suddenly difficult to run Reiki and had to take a break.

However, at this time, it is obvious that this situation is extremely deadly.

"I'm going to die here?"

The woman regretted it. She knew to rob the spiritual grass. She must have taken some risks, but she still wanted to try it. Unexpectedly, this monster, after being provoked, became stronger and more terrible to fight.

"Whew!"

Jack hesitated for a moment, but still rushed out. He estimated that this woman should be an elder of the Supreme Clarity Sect. After all, the Supreme Clarity Sect gave him an extremely good feeling. If he had a good relationship with the other party, everyone would take care of him in this unknown world in the future.

"Roar!"

Seeing that the huge mouth of the huge blood basin was about to swallow the woman, Jack finally rushed over and cut it directly in front with a sword.

"Sword of Wave!"

With Jack's soft shout, Jack suddenly appeared without the python's notice. After a sword was thrown out, a flying sword rushed out like a dragon and rushed into the python's mouth.

"Boom!"

The surface of the python's body is obviously very hard, with very strong scales, but the flying swords that hit it from its mouth can easily pierce its body and cause the most fatal damage to it.

The flying sword flew in one after another, constantly attacking, and actually pierced the other party's head directly.

"Roar!"

The two-headed red-blooded python roared, and the other head actually went straight to Jack.

"Humph!"

Jack snorted coldly and threw it out with another sword.

"Bang!"

Two huge heads fell from the air and fell under Jack's feet. The huge body looked so shocking.

"Why!"

Seeing that he suddenly appeared, Jack also exhaled a heavy breath of breath when he easily gave a fatal blow to the python

He flew straight over, picked the spirit grass, and put it into the ring before he slowly turned around.

"Are you?"

After he turned around, he looked at the purple skirt woman in front of him, and his heart suddenly trembled. This woman was obviously not from the Supreme Clarity Sect, and he remembered that there was no such a girl among the strong men who came in with them.

Chapter 1692 WIP

Jack was a little confused. He thought that this woman must have come in with himself and others, but

she was lucky and got skills. Maybe she got some treasures, which broke through the cultivation of Heavenly Second Grade. Moreover, this woman is mostly an elder of the Supreme Clarity sect.

Unexpectedly, after seeing the front of the other party, he was a little stunned, because the woman in front of him looked only 17 or 18 years old, and there was no such a young master among the people who came in with everyone.

"This girl, thanks to my son's timely appearance just now, which saved your life. You should not blame my son for robbing your spiritual grass, will you?"

At this time, Nash and others also flew over here, and he immediately said with a smile.

However, when he saw the other party's face clearly, the smile on his face also stiffened in an instant.

Because he also feels that the woman in front of him looks too young, and she has no impression at all.

The girl looked carefully at the people in front of her, and finally opened her mouth in surprise: "You, so many of you, where did you come from? Which village in Jiuzhai?"

"It's over, house owner, this woman, it seems to be the indigenous people here!"

Ye Wuma reacted, his face dulled, and immediately said softly to Nash.

The corners of Nash's mouth immediately twitched a few times. Unexpectedly, he met the indigenous people here again. What if the other party also doesn't like them from outside?

"We don't know which village we came from!"

Finally, Nash rubbed the bridge of his nose and said hesitantly.

The girl was not stupid. Soon, a pair of beautiful eyes opened the boss: "You, you can't come from that abandoned world, can you? Oh, my God, it must be. Why are there so many people coming from there?"

Looking at hundreds of people here, the girl's red lips were slightly opened in surprise and couldn't help stretching out her hand to cover her mouth.

Alejandro's face melted , and then said to Jack, "Master Jack, this woman is obviously an indigenous person here. There are no other accomplices here. I think for everyone's safety, I'd better kill this woman. Anyway, she is seriously injured now. Keep it, it's too dangerous for us. It's over!"

"Yes, yes, yes, we have to kill her, otherwise we will be in danger!"

Another elder of the Cabello family also said immediately.

Hearing this, the girl was so scared that she immediately clenched the sword in her hand and stepped back in a hurry: "You, don't go too far. I didn't offend you. I won't tell the guarding league!"

"Guard the League?"

Jack frowned even more about this girl's words. It was a little unclear. Therefore, the woman mentioned something about Jiuzhai before, but now there is another guard alliance, which makes him confused.

But obviously, what this woman said should be the power in this space.

After thinking about it, he said to the girl, "As long as you tell us something about it and let us know what's going on here, we can let you go!"

Chapter 1693 WIP

"What you said is true? Can't you go back on your word?"

The girl looked at Jack and asked suspiciously.

"Don't worry, I will naturally keep my word!"

Jack smiled indifferently, turned his palms, and directly took out a healing pill and threw it to the other party: "This is my healing pill. If you are injured, you can take it first!"

"Well, what kind of poison is this in case you lie to me?"

The girl snorted coldly and looked on guard.

"Ha ha, if I want to kill you, now you are seriously injured, I just need to do it directly. Why waste my so-called poison? Isn't that superfluous?"

Jack smiled and said with a little laughter.

The girl frowned and swallowed the pill doubtfully.

She looked at Jack and others before sneering and said, "Let's talk to you this way. Fortunately, you met me. I belong to Jiuzhai. Outside this forest, there are nine villages and nine punitivators between nine villages. When you have nothing to do, you will come to this forest to look for spiritual grass or something. Used for cultivation! So, at first, I thought you were from Jiuzhai, but it seems that you are not!"

Jack suddenly found that there were still nine villages outside the forest. The girl looked so young and

her cultivation was so high. I don't know how many people and masters there were in the nine villages.

"So what do you mean by Guarding League?"

After thinking about it, Jack asked the girl in front of him again.

"Ha ha, it's just a group of people, just self-proclaimed!"

The girl smiled bitterly, went to the bluestone beside her and sat down. Then she said, "I don't know how many years ago. This space here is actually with your abandoned space. However, for some reason, this aura is getting less and thinner and thinner every day. If it goes on like this, it will be more and more difficult to break through to the Ultimate God Realm, or even enter the soul realm!"

"What about it?"

Hearing these words, Jack and others took a breath of cool air. It seemed that from the girl's mouth, they should be able to ask something about the past.

The girl looked at Jack and said, "Then, there is a powerful man who is almost dead. Before he died, he separated the heavens and earth and isolated such a small world alone. In this small world, the aura is stronger than outside. By the way, you can get in here, which means you have also found those seven stone balls, right? Ha ha, I might as well tell you that the seven stone balls are constantly absorbing aura, and the absorbed aura has reached the world. After so many years, only those in our space can have cultivation resources, and only in this way can there still be three or even four-pin spiritual grass!"

The girl's words made everyone present feel turbulent. Unexpectedly, the aura outside was so thin. It was for this reason that this world was stealing the aura from their side, resulting in fewer and fewer practitioners.

If it goes on like this, there is no way to inherit it.

Everyone's faces were not very good-looking. If they hadn't found seven stone balls and learned something about it, they would have entered here, no one would have broken through the Ultimate God Realm in their lives.

Seeing Jack and others' faces so ugly, the girl smiled bitterly, "I can't help it. People are selfish. Otherwise, how can your world be called the abandoned world by us?"

Chapter 1694 WIP

"It seems that those strong people many years ago really planned to abandon us!"

Nash sighed with his face. If it hadn't been for the spread of the legend of Ultimate God Realm, and everyone had been looking for a way to break through the Ultimate God Realm, I'm afraid that with the passage of time, there would be no matter of Ultimate God Realm in a few more years, and no one could reach this place.

"Well, you guys came in with so many people all of a sudden. If the people who are guarded by the alliance know, it will be troublesome. There are too many people!"

Looking at the hundreds of people in front of her, the girl frowned and looked a little ugly.

However, after thinking about it, she looked at Jack again and said, "That's all right. If you hadn't appeared in time just now and saved my life, I wouldn't have been too lazy to help you!"

"Girl, you, are you deciding to help us?"

Ye Wurao heard this, his eyes lit up, and even his words became polite.

"If there are hundreds of people, I can still help you. It's very simple. Follow me to our village. I beg for mercy for the owner of the village. It's no problem to take you in. At that time, you will say that the

people in our village should not expose your identity, that's all!"

The girl smiled, and then felt her body again. Suddenly, she was surprised and said, "No, boy, you give me this pill. The effect is quite good. My injury is obviously much better. It's really amazing. The people in us, the wound- healing pills refined, don't have such an effect!"

"Ha ha, this is the young master of our family. Naturally, what he refines!"

Ye Wu laughed crazily, and then looked at the girl in front of him. Then he said, "Girl, can you really convince your village owner? It can't lie to us, can it? What's going on with the Guardian Alliance?"

"If you guard the alliance, they are the people who came in together in those years, as well as their descendants. Anyway, it's completely against people outside to enter here and form an alliance in the name of guarding this holy place. If I see you, I will definitely kill you without hesitation!"

The girl smiled, and then thought of something again, exclaimed, "Why, no, how did you come in? If you come in, shouldn't you be at the entrance? There should be someone there to guard it. Although your cultivation is not high, if no one breaks through to the Ultimate God Realm before you enter here, you can't kill the other party.

Jack rubbed the bridge of his nose, and then slowly said, "In this way, the blood evil sect should be regarded as the guardian of the alliance!" There were indeed two disciples of the Blood evil Sect before and found us, but I killed them. Of course, when they were killed at that time, there was a sneak attack. I don't know what's going on. When I came in here, it deviated from the position of the entrance, at the foot of the mountain at the top of the entrance!"

"My God, you killed both of them? If you let the people of Xueshazong know it in the future, it will be troublesome."

The girl took a breath of coolness.

"Don't worry about this. There are many monsters here. Some of them are very powerful. The bodies of those two people should also be eaten by monsters. Even if the people of the Blood Shadow Sect know that their disciples are dead, they don't know that we did it. Maybe they thought they were killed by monsters!"

After thinking about it, Nash said aside.

Chapter 1695 WIP

"That's right. There should be no problem! You guys are also lucky, because no one has been able to find this place all the time, so no one comes in! There used to be a lot of people who stayed there, but later there were fewer and fewer people. Moreover, they used to be strong people with soul cultivation, who guarded the entrance!"

The girl smiled and then said again, "However, year after year, I find that no one comes in, no one cares. Those sent to guard are all disciples with low cultivation. Otherwise, most of you will die when you come in. Moreover, it is precisely because no one cares about it that the formation there is estimated to be a little problem, so when you came in, they didn't appear on the top of the mountain, but some deviations in the position!"

"So that's it, tut-tut, thanks to our luck. If there were people who entered the soul to protect the past, we would come in and appear on the top of the mountain. If we appeared at the entrance, wouldn't we be sure to die?"

Everyone took a breath of coolness. The girl's words made everyone afraid for a while.

"So, you are really lucky that you came here, and some people are even luckier to break through to heavenly practice!"

The girl smiled, but soon felt something wrong, and immediately frowned and said, "No, logically, if you are outside, it is at most the peak cultivation of the real divine realm. Among the hundreds of you, there is not much cultivation of the peak of the real divine realm, are there? Those seven stone balls are put in a more dangerous place, just to prevent you from finding seven stone balls if you people, and there are

not many strong ones?"

Jack smiled bitterly before he said to the other party, "This girl, in fact, the only people we have come in, but also hundreds of people have come in. Almost 400,000 people have come in. In addition, I'm afraid there are 500,000 or 600,000 people sneaking in by the sea forces!"

"Hiss!"

As soon as this was said, the girl in front of her immediately took a cold breath, which was really shocked by Jack's words.

She swallowed her saliva and said incredibly, "No way? Are you sure you didn't lie to me? Come in, 500 to 600,000 people? Oh, my God, if there are so many people, I can't help you. Why don't you go back quickly? Otherwise, if found by the people who guard the alliance, it will die!"

"It's impossible. We finally came here. Even if we die here, we can't go back now! When I got back there, there was not so much spiritual grass or something. How could I continue to practice?"

There is an old man of the Cabello family, even if he said.

"Yes, there are so many of us. It's not so easy for them to catch us. Just act separately!"

Alejandro obviously has no intention to go back now. Everyone came here with a lot of pain. It was more uncomfortable to let them go back at this time than killing everyone.

"I have to go back. Fernando's body is still waiting for me to go back for treatment. But it's not now!"

Jack also smiled bitterly and then said.

"There are so many people in, so what about the others? It should have been separated, right? This forest is quite big, and there are many monsters, and you rob each other. I don't know how many people can leave this forest alive!"

The girl looked at Jack and others, bit the sexy red lip and said.
