

## Chapter 2351

Everyone was stunned at those words.

The masked man saying he wanted to kill Fane might not have elicited much of a reaction, but Fane saying that he wanted to kill the masked man as well had definitely shocked everyone.

After all, Fane seemed to be behind the masked man in every way, but when he said those words, his tone was incredibly calm, and there were no emotions on his face.

The fact that he behaved like that meant the words he said was not for the sake of honor, but really because he did want to kill the masked man!

Graham took a deep breath and said, "It's time the two of you stop bickering."

He no longer wanted to listen to the two of them talk.

After all, it felt like he was not on their level when they did so.

Just as Graham finished his sentence, the old voice was heard again, "Will the two who have passed please ascend to the peak!"

The moment he said that, everyone took a deep breath.

It was finally time! They would see who was stronger among the two geniuses at the peak.

Whether or not Fane could create a miracle again, and whether or not the masked man could deal with Fane.

Fane did not bother seeing how shocked everyone was, nor did he bother looking at how furious the masked man was.

He calmly walked toward the peak of the Divine Void Slope.

There were countless rays of light on the Divine Void Slope.

The glows had treasure after treasure within them.

If he had won the battle, then all of it would be his.

Possibly intentional, the glow had obscured everyone's visions.

They did not know what kind of treasures were hidden behind the lights.

However, that had actually arouse their interest even more.

They might covet those treasures, but they had already lost. All they could do was look at Fane and the masked man's backs with jealous gazes.

The two of them finally reached the peak of the Divine Void slope.

They looked around.

Those treasures shrouded in the lights dispersed far away, giving them more than enough space to fight it out.

The masked man narrowed his eyes, retrieving a purple ring from his storage space.

Looking at it closely, there were flashes of lightning within the ring.

That was the masked man's main weapon, the Purple Thunder Rings.

The masked man was so skillful in using the Purple Thunder Rings that it was not just the southern disciples, even the northern disciples knew that the Corpse Pavilion's strongest disciple's main weapon was called the Purple Thunder Rings.

Of course, Fane was not included among them. After all, Fane had only arrived in Hestia Continent not too long ago, not even one year in total.

He had just started to understand the rules and common sense of the world. Hence, he did not know much about things like that. However, despite the fact that he did not know, Fane could still tell

that the Purple Thunder Rings was very compatible with the masked man.

With the Purple Thunder Rings, the masked man was much stronger.

However, Fane had already expected that the masked man would absolutely fight him at his strongest state!

At that moment, the masked man suddenly asked, "I'm very curious. Before you came to the Divine Void Slope, why did you run?"

Those words had Fane stumped. In his mind, the masked man's pursuit of him before he encountered the nine-clawed python flashed.

If he was the masked man, he would have been curious as well. After all, if he was so strong, he would have fought the masked man back then. Why did he constantly flee? It looked like he had no confidence in beating the man.

He probably would never have dared to fight the masked man! That impression had been too strong, which was why the masked man had never bothered with Fane before.

## Chapter 2352

It was not until Fane revealed his true skills for the masked man to realize that Fane was almost at his level!

However, the more he thought about it, the more confused and frustrated he felt. That was why the masked man had to ask.

It was not just the masked man who was confused, all those who were present then also looked at Fane with curious looks.

Fane's lips twitched as he touched his nose helplessly. Back then he had only been able to condense fifteen Soul Swords! He was truly running for his life because it was impossible for him to fight the masked man then.

Yet, it was something he was not able to explain, so he was forced to make up something

"It wasn't the right place to fight!"

Those words caused everyone to pause. A thoughtful look flashed in the masked man's eyes. What did he mean by it was not the right place? Did the location really matter?

"What do you mean?"

Fane let out a slight cough. A single lie would set off many more lies to cover it up.

He continued with some exasperation, "There's no other meaning to that. It means exactly what I said. I don't want to

waste any more time, are we fighting?"

Those words successfully ignited the anger within the masked man. He let out a cold laugh as he raised his hands. The Purple Thunder Rings were suddenly covered in purple light.

After that, the crackle of lightning could be heard. The Purple Thunder Rings were like a monster that had been stirred awake as they radiated the lightning into the skies!

The masked man let out a small shout. Blood red flashes of lightning started to form between his fingers. Everyone's eyes widened as they looked at the masked man with incredibly heavy expressions.

The person with the most complicated feelings in his heart was the traitor, Griffin.

Griffin took in a deep breath, praying in his heart that the masked man would kill the person he hated the most. As long as Fane died, nothing would happen to him in the future.

All he needed to do was deal with Nelson and Isaiah in secret, and he would be able to return to the Dual Sovereign Pavilion in peace.

Griffin was no idiot. He knew very well that he had betrayed his clan. However, it would definitely end up badly for him if he followed the masked man back to the Corpse Pavilion.

After all, the skills and techniques he was trained in were far too different from those from the Corpse Pavilion. Even if

the other clans went back and spread the news, he would be able to cover it up with some lies.

After all, he had the elders behind him. As long as no one from his own clan did anything to him, he would not be in danger!

Thinking about that, he could not help but shout, "He has to die! He absolutely has to die!"

Even though he shouted very loudly, it did not attract any attention from those around him.

It was not that no one heard him, but rather that everyone's thoughts were all on the Divine Void Slope at that moment.

Fane took a deep breath, putting all his focus on the Purple Thunder Rings. The purple lightning seemed to be mingling with the colored lightning.

The Purple Thunder Ring seemed to be a pure source of lightning birthed by nature at that moment! The crackling sound filled his ears, and the light from the Purple Thunder Rings illuminated the whole Divine Void Slope.

#### Chapter 2353

Even Fane was being enveloped by the purple and red glows. The masked man was already at full force at that moment."

I don't want to spend too much time on

you! I'll kill you with this one strike!"

As he said that, he constantly formed seals. Lightning constantly poured into the Purple Thunder Ring!

"I won't hide anything from you. I'll let you die with a clear understanding! The Evil Blood Thunder that I'm training on is a middle-tier Earth rank technique!

Furthermore, I'm already at the proficient level! I'm just barely short of perfection!" Fane raised an eyebrow after hearing that.

He did not have much of a reaction to it, since it was more or less what he had expected. He had already speculated on the masked man's level before.

After hypothesizing, he had ascertained that the masked man was definitely incredibly strong since he had already been in the spring solidifying realm. The masked man definitely stood at the top among everyone there. Yet, no matter among everyone

what, his skills and abilities were still restricted. There was no way the masked man could not possibly have cultivated any upper-level Earth rank skills.

However, there was still something that Fane was surprised by. Fane had thought that the masked man's technique was at the middle-tier Earth rank, but the masked man should have already reached the second level of perfection.

The masked man would absolutely not lie or hide his true skills at a time like that, so it seemed like the masked man really did stop at the first stage.

Even though the second stage was not too far away from the first, after absorbing those memories, Fane knew very well that it was no easy feat to reach the second stage from the first.

The only reason Fane did not have any barriers in doing that was that he had absorbed the memories of the great master. To Fane, there were no bottlenecks in Destroying the Void. He already understood everything, and merely lacked the time and spiritual energy.

He was different from the rest! Fane estimated in his heart that if the masked man managed to survive, it would take him at least one or two years to pass that stage!

Thinking about that, Fane could not help but let out a cold laugh. The masked man had a deathly stare on Fane.

The masked man had thought that his words would shake Fane. At the very least, he wanted to let Fane know that he was no ordinary person that could be casually dealt with.

Yet, Fane actually managed to laugh. To the masked man, it was a slap to the face. He felt humiliated.

The masked man was so angry his entire body was shaking. He looked like a

balloon on the brink of exploding.

"You're looking for death!" The masked man shouted angrily.

He surged forward, and he flew up in the air. His hands constantly danced around as lines of red lightning surged around him. At that moment, the Purple Thunder Ring had already gathered enough energy. It was so bright that no one could even look at it!

All they heard was crackling, and countless strands of electricity formed into attacks, heading straight for Fane. Fane let out a small laugh, having already been prepared. He clutched the black sword tightly on his right hand. Sixty Soul Swords formed into a huge spiritual blade and merged with the black sword!

Fane had already entered the second stage of Destroying the Void! Before, he was not able to determine what level of skill Destroying the Void was due to lack of information.

Based on the various skills and powers in this world, he was already able to estimate what rank Destroying the Void was at!

Chapter 2354

Before, Fane thought that it was at least an ultimate god realm skill.

After mulling over it further, he determined it was at the upper-tier ultimate god level! An upper-tier ultimate god level skill against an earth rank skill. And Fane was already at the perfection stage of the skill!

His skill was already one whole realm

higher, and it was a stage higher too!  
Even though Fane's strength was not equal to the masked man, the skill Fane used was so much stronger than the one the masked man was using! Comparing it in those ways, Fane was not afraid of the masked man at all!

He coldly snorted as he raised his sword with both his hands. Aiming at the incoming lightning, he slashed out! Everyone heard the attacks clashing as the space was covered with the light from the blood-red lightning!

The lightning split up, and constantly danced on the peak of the Divine Void Slope! It actually looked incredibly beautiful however, even with the colorful dancing lightning, no one bothered to look at it.

All of them were focused on whether or not Fane could block the attack! Benjamin could not help but say, "A middle-tier earth skill.. and it's already at the proficient level! It's only one stage away from perfection! He would absolutely be the strongest, no matter what clan he's in!

"Even the strongest disciple from our clan would not be able to compete with the masked man. I wonder if Fane would be able to stand this..."

At that moment, all that could be seen in the Divine Void Slope was blood-red lightning. The two of them were enveloped within, and the glow was so bright that nothing could be seen. All they

could do was listen to the sound of crackings!

Everyone was incredibly anxious. After Zamian heard Benjamin's words, he loudly shouted, "He'll definitely beat that brat! Have you not heard him say that he has a middle-tier earth technique That was the level of skill that he longed for.

If he managed to master such a technique, he would stand at the top of the Dual Sovereign Pavilion's disciples! Nelson shrugged helplessly. At that moment, he had already lost all hope. However, he still said with a resolved tone, "I have faith in Fane."

Graham stopped at where he was. Just like everyone below him, he had complicated feelings in his heart as he looked up at the Divine Void Slope.

On one hand, he hoped that Fane would win. At least that would relieve his burdens. On the other hand, he did not want Fane to have that level of talent and skill. If Fane won, it would prove that Fane was the strongest.

Even the top disciple of the Thousand Leaves Pavilion would not be able to compete against Fane, let alone himself. If Fane really won, it meant that Fane could truly stand at the top.

Chapter 2355

Thinking about that caused Graham to feel like he was being weighed down by many large rocks! At that moment, a cry came out from within the lightning!

Due to the loudness of the clash, no one could tell who that cry was from. Just as everyone got incredibly anxious, the lightning that had dispersed throughout the battlefield had slowly began to weaken.

Two people stood in the middle of the peak of the Divine Void Slope. One stood to the west and one stood to the east. The one on the west had a sword in hand, which had pierced through the eastern one's chest! The one standing in the east was still holding the Purple Thunder Rings.

Everyone's jaws dropped at the scene. Even the masked man looked at Fane who was in front of him with an expression of disbelief!

Blood flowed down from the corner of his mouth. The face behind the mask had long since been covered with shock. '

Why? I actually couldn't beat you! Who are you? Impossible! Absolutely impossible!

"The Evil Blood Thunder is a middle-tier earth-level technique! What kind of skill are you raining in? It actually broke Evil Blood Thunder and pierced into my chest!" After the battle started, Fane actually used two strikes. The first strike had broken through Evil Blood Thunder, while the second strike was right into the masked man's chest!

After all, it was an ultimate god level technique. What was Evil Blood Thunder in front of Destroying the Void?

However, the masked man did not know any of that. At that moment, the masked man's whole body was twitching in pain. After all, Destroying the Void had destroyed his soul, that pain was not something a regular person would be able to withstand.

He was also filled with shock at the result. He could not imagine what kind of technique Fane had used, and what kind of power it had! Even Evil Blood Thunder and what kind of was not able to stand against it!

Fane laughed coldly, and sighed somewhat helplessly. At that moment, his whole body was trembling slightly. Wave after wave of numbness wrecked his nerves.

Even though he had slashed past Evil Blood Thunder, he was still hit with the aftermath. Countless tiny bolts of electricity had penetrated his defense, seeping into his body.

Thankfully, the electricity was merely the ripples of a skill. It would not cause any real harm to Fane.

"Why should I tell you?" Fane said with a cold smile.

The masked man's whole body was shaking. In truth, he knew that he was definitely dead. Fane's technique was incredibly sinister, and it was destroying

and strangling his soul. He was already in too much pain to fight back.

He just wanted to know the truth. After meeting Fane, he had never been able to pull one up on Fane. It was as if Fane was filled with secrets, no matter on Mount Beasts or where they were at at that moment.

"Who are you? Why are you so strong?! Do you have an ultimate god level technique?" The masked man widened his eyes.

He did not wait for Fane to answer. He coughed intensely before saying, "That's it! It has to be that. Otherwise, it would not beat my Evil Blood Thunder so badly.

"I did not even have the chance to fight back! However, you're just at the middle-stage of the innate level, how could you have such a skill? You have to be the top genius in the whole continent!" After that, he no longer had much strength left.
