

Chapter 2501

Those words were shoved right into Grayson's face. Suddenly, he did not know what to say. Fane no longer bothered sparing Grayson another glance as he walked toward the door of the vessel.

The other three were stunned, not knowing what Fane was doing. They frowned as they stared at Fane.

Rudy asked, "Fane, what are you trying to do?"

Fane did not answer Rudy. Instead, he took out a spirit crystal from the Mustard Seed very calmly before placing it into the array. When the three of them saw that scene, they had a flash of panic on their faces.

They suddenly understood what Fane was trying to do.

Hansel looked up and shouted, "Are you trying to open the door? Have you gone "

Rudy shouted even louder, "Are you trying to die?! Is there something wrong with your head?!"

There was nothing wrong with Fane's mind.

He indeed wanted to open the door.

Hansel struggled to stand up from the ground as he bore with the pain of the wounds on his body opening up and grabbed Fane's arm.

He continued, "Why are you opening the door? Do you really want to die now?! Could it be that you didn't manage to absorb the Scarlet Blood Crystal and you're now at risk of exploding? Is that why you don't even want to live anymore?"

From the moment Fane insisted on absorbing the Scarlet Blood Crystal, Hansel had already assumed that Fane would die.

The Scarlet Blood Crystal was no ordinary treasure. Absorbing it would definitely technique as support to explode.

That was why Hansel felt no greed at all after he saw the Scarlet Blood Crystal. Yet, he did not expect that Fane would be ignorant and insist on absorbing the Scarlet Blood Crystal after he had made things so clear.

He had been waiting all along for Fane's body to explode, but it had not happened. Everything had happened too fast earlier, and he had not reacted to anything after Fane suddenly started speaking again.

It was only when Fane wanted to open the door that Hansel remembered that Fane should have been injured after absorbing the Scarlet Blood Crystal!

Without the support of an incredibly strong technique, Fane would absolutely be injured after absorbing the Scarlet Blood Crystal!

At Hansel's words, Rudy and Grayson felt like Hansel was right. Fane just wanted to kill everyone with him after suffering fatal injuries!

Rudy jumped up furiously and said, "Fane! If you want to die, I can help you right now! I've always known you weren't a good

person, and now it looks like I'm right! Not only are you a bad person, but you're also a madman as well. If you don't want to live anymore, then go die yourself. Don't drag me with you!"

Grayson emotionally shouted, "If you've been injured, then it's your problem. We'd already given you advice, but you were the one who refused to listen. You insisted on absorbing the Scarlet Blood Crystal! Now you're heavily injured, but you're trying to drag us down with you! You're too despicable!"

Fane looked at those three helplessly. He glanced at Hansel's hand which was on his arm. At that moment, Hansel looked pathetic. That guy was probably cursing all three of them in his heart.

After all, Grayson had just caused trouble, and Fane was about to open the door. No one would be able to stand it. Fane let out a slight laugh as he reached out and grabbed Hansel's arm, pushing it aside before he placed his hand back on the array.

He quickly formed a few seals, and with a click, the door opened again. At that moment, the other three were almost unable to grasp what was happening.

To stop Hansel from interfering, Fane had his other hand stopping Hansel's arm. Hansel was unable to get close to the array. He then took a step forward and stood in front of the array, causing the three of them to not be able to close the door.

The three of them were suddenly in a massive panic then. None of them expected Fane to be so crazy, insisting on having them die with him.

Rudy was so anxious that he was about to cry. He shouted, "Fane, you're crazy! If you want to die, then just go ahead and die yourself. Why are you trying to drag the three of us with you?!"

He cried as he frantically rushed toward Fane. Grayson clenched his teeth as he thought about rushing past Fane to close the door.

However, Fane was like a steel wall. He stood in front of the array, not allowing the three of them to shut the door!

After a few clicks sounded, the door finally opened. A familiar chill rushed in from the outside.

Fane let out a cold smile as he turned to look outside the ship. Fane saw a blue colored chill as Rudy and the other two's shouts could still be heard. Hansel grabbed his arm, a bit crazed.

Fane did not care what everyone around him was saying or shouting at him. He left the vessel in a flash.

A roar came from that bundle of frost. After a howl, the icy chill slowly dissipated. A strong figure appeared in front of Fane. The one-eyed frost wolf's sole eye looked at Fane in suspicion.

It was not stupid and was quite curious.

The door had clearly just closed, so why was it suddenly opened again so quickly? Why did that guy in front of it rush out? Was the guy looking to die?

Fane took a deep breath as he took out the gray sword from Mustard Seed and held it tightly in his hand. He looked right up at the one-eyed frost wolf that was as tall as three people.

"You're the strongest being I've faced since I was born." Fane's tone was light as if he was talking about something very simple.

The one-eyed frost wolf's suspicion intensified. It walked two steps forward as a mocking smile suddenly appeared on its face.

Even though the one-eyed frost wolf was already in the spring-solidifying realm, it had not attained a human form yet. It could not communicate in human language, and could only answer Fane with its expressions.

Fane knew that the one-eyed frost wolf had already regarded him as a little mouse to toy around with. It could kill Fane with one claw, yet Fane still took out a weapon. It amused the one-eyed frost wolf a lot.

"Do you think I'm not on your level?" Fane's tone was calm as always.

The one-eyed frost wolf's mocking smile deepened.

The disdain in its eyes was incredibly obvious.

Fane let out a slight laugh before nodding and said, "Then let's try it out."

"Is Fane crazy? Is something wrong with his head? Why is he talking to the one-eyed frost wolf with this tone? It's as if he's the spring solidifying realm expert!" Rudy said with widened eyes.

Chapter 2503

Fane's actions earlier had completely stumped the three of them.

They saw that the wolf had not attacked the three of them, so they had held back the fear in their hearts, not shutting the door immediately.

The three of them stood inside the vessel, looking at Fane standing in front of the wolf with widened eyes. They were shocked at Fane's challenging tone toward the wolf.

Hansel's mouth twitched, feeling like he no longer knew what to think, and said, "I really admire Fane's mental strength. If I was about to explode, I would never be able to speak in such a calm tone to a beast that could kill me at any time. Even if I wanted to die, I would not be so calm!"

Hansel's words did not have a hint of mockery at all. He really did admire Fane. Fane was doing something he would never be able to do.

Fane seemed way too calm.

The calmness was as if Fane was not facing a spring solidifying realm beast, but an innate stage. one.

The wolf let out a breath of frost air as it looked at Fane as if he was an idiot. Even though he felt like Fane was an idiot that did not know his place, those words still hurt the wolf's pride.

It would not allow an ant of a human to speak to it like that! Since he wanted to try, then it would bite off his throat in a flash and put Fane in his place.

Thinking about that, it raised its hind leg a little. The next second, it leaped forward like a cannonball, heading straight for Fane.

It opened its jaws, revealing its teeth as chills came out of its mouth.

Fane had already been prepared. He clenched the gray sword in his hand tightly as sixty Soul Swords fused into one, heading into the gray sword!

He raised his hand and slashed it at the wolf! Destroying the Void turned into a flash of light as he clashed with the wolf in the air.

The one-eyed frost wolf did not even turn its head as it looked at the ray of light. Its sole eye suddenly let out a radiant blue glow. An ice arrow the size of an arm shot out. It was a natural skill of the wolf!

The ice arrow contained a coldness that would stop any human from breathing. It clashed with Destroying the Void! When Rudy and the others saw that, they thought about how Fane would die instantly after being struck by that arrow!

After that, a huge boom was heard as the two attacks clashed followed by a cracking sound as the blue ice arrow suddenly shattered!

It had turned to dust in a flash.

The wolf had been incredibly confident in its technique. It had never expected its skill to fail.

After the arrow was destroyed by Destroying the Void, it was stunned for a second.

Right at that second, Fane bent the laws of space and disappeared from his spot! The next second, he appeared in front of the wolf.

After attacking the ice arrow, there was nothing stopping Destroying the Void anymore. With a speed that could not be seen with the naked eye, it appeared in front of the wolf with Fane in a flash.

The wolf only reacted after Fane appeared in front of it!

It prepared to jump away, but it was already too late! Destroying the Void slice right into the wolf's chest, causing the wolf to let out a sharp wail

At that moment, the one-eyed frost wolf lost all its strength. It could not stop Fane at all. Fane emotionlessly stabbed it with his sword, which still contained the power of Destroying the Void.

The gray blade viciously stabbed into the one-eyed frost wolf's chest, causing blood to splash onto Fane's body.

The pain of its soul being destroyed not only caused the wolf to wail in agony, but also caused it to lose all rational thought.

Chapter 2504

After a bang sounded, the one-eyed frost wolf fell from the sky to the ground. It squashed a patch of grass.

Fane fell from the sky. As a precaution, he pulled out the sword from the wolf's body before stabbing it a few more times.

Stab after stab, he aimed right at the one-eyed frost wolf's fatal spots. After two or three times, the wolf could not even call out in agony anymore. Its legs curled up as it dies!

Everything had happened far too swiftly. The three people within the vessel had not even had a chance to react before the one-eyed frost wolf that had been so impressive to them, died.

It was a spring solidifying realm beast. To Rudy and Grayson, a beast-like that was probably something they would never be able to defeat in their lifetime. Yet, Funny Had dealt with it in just a flash!

If they had not personally witnessed how powerful the one-eyed frost wolf's attack had been, they would have been doubting if the one-eyed frost wolf was really in the spring solidifying realm.

It had died far too easily!

"Is this all real? Could I be hallucinating?!" Grayson said as he trembled.

At that moment, his eyes had never left the one-eyed frost wolf's corpse. He could not believe that he had actually witnessed a spring solidifying realm beast being defeated so easily by Fane.

It was far too strange! It was so absurd that he would never have believed it if he had not witnessed it for himself. Rudy pinched himself.

The pain told him that everything was true. "How did he kill a spring solidifying realm beast? Isn't he at the early stage of the innate level? Am I crazy, or has the world gone crazy? How could something so absurd like this happen?"

Rudy felt like the whole world had gone mad. Fane might be stronger than the two of them, but he could not be that strong! At the most, Fane should have been at the middle stage of the innate level.

Yet, how was it possible for a spring solidifying realm beast to fall in just one strike?!

Hansel put a hand against the door as he forced himself to stand up. He listened to the constant comments from the other two.

After a while, he said in disbelief, "Who said he's at the innate level? He's clearly a spring solidifying realm fighter..."

Those words stunned Grayson and Rudy.

Fane was a spring solidifying realm fighter? How could that be?! The two of them hurriedly sent out their divine senses to check Fane's level. As they checked, they were surprised to notice that they were not able to determine Fane's level. It was as if Fane was different internally than other people.

Rudy said anxiously, "I can't tell how strong his strength is!"

Grayson nodded right after, "I can't see it either! Can you?"

The two of them were forced to suspect if Fane's level was too high for them to check his strength.

Hansel took a deep breath, his voice was a bit raspy, "I can't tell how powerful he is either. He must have been injured earlier.

"However, it's not just your senses that can determine a person's realm. You can also see it from the strength of his attacks! The strength behind his attacks was not something that can be done merely being at the early stage of the spring solidifying the realm."

Chapter 2505

After saying that, Hansel felt his breathing get heavier.

Hansel might be injured, but he was still a spring solidifying realm expert. He was a chosen disciple of a fifth-grade clan.

His words naturally had some authority behind them.

Hansel had seen many spring solidifying realm experts. He could naturally tell what Fane's approximate level was based on the skills Fane had used. After hearing Hansel's words, Rudy and Grayson felt their breathing stop.

Fane was a spring solidifying realm expert? He was not some normal early spring solidifying realm expert either? He was actually that strong? He did not look that old.

He was a year or two younger than them at most. However, his strength was so

much higher than theirs! It had completely proven how talented Fane was in martial arts! Rudy took a deep breath, not knowing what to say. He felt like he had experienced more in the past few days than he had in his twenty-odd years of life!

Grayson was not willing to believe the truth. He shook his head as he said, "Impossible! He's not that talented! He could not possibly be so strong!"

Hansel could not help but let out a cold laugh, "Then can you please explain to me how did that spring solidifying realm beast die in Fane's hands?"

Grayson was rendered silent by Hansel's words.

Hansel took a deep breath and continued, "Did you see the wolf's expression before it died? I saw it clearly..."

Hansel's words caused Rudy and Grayson to go quiet again. The two of them had seen the wolf collapse on the ground as well.

The Wolf had looked up and stared viciously at Fane.

That wolf's eyes were filled with fear and shock. It was obvious that it had not been able to react to that attack earlier. It had never expected that its skill would lose to Fane's.

It had also never expected that the brat would be that strong. Before it died, shock filled its eyes.

The three of them could see how confused the one-eyed frost wolf was. Fane took a deep breath as he raised his left hand, pulling out the gray sword from the wolf's body. He had expected the battle to go that way. The wolf had underestimated him.

If the wolf had known his strength, the battle would probably have lasted longer. Yet, that one-eyed frost wolf had obviously treated him like a little rat that did not fear death.

Hansel was right, Fane had already entered the spring solidifying realm.

After being transferred to Middle Province, he was only a sliver away from the spring solidifying realm. Absorbing so much power from the Scarlet Blood Crystal had allowed him to easily level up.

Fane was already firmly in the early stage of the spring solidifying realm. He had the most basic ability to protect himself in Middle Province.

The innate stage could only be considered the lowest rank of fighters. In third and fourth-grade clans, they would only be able to be disciples. Meanwhile, spring solidifying realm experts could become caretakers.

Many fighters were stuck in the innate level, never able to get into the spring solidifying realm. Fane clutched his hands, feeling like he had an abundance of energy.

That was the confidence that strength gave him.

He did not even bother turning back to see how the other two were looking at him. Before absorbing the Scarlet Blood Crystal, he had already been planning his next steps after breaking through.

He would first solve his big headache before leaving this place. Even though he would be able to protect himself if he stayed around the area, he could not guarantee there would be no other dangers around.

Chapter 2506

Before he broke through to the divine solidifying realm, he could not afford to cause trouble within Grand Yorn Mountain. He knelt down before retrieving a dagger from his storage space. He aimed it at the wolf's eye and easily dug it out.

The eye was the most valuable thing other than the wolf's spirited core. If he sold it at the market, it would fetch a good price.

What he needed the most at that moment were spirit crystals. Even the most minuscule amount could not be given up. After taking out the wolf's eye, he pierced out the wolf's spirit core and gave it a simple wash. Then, he kept all those valuable things.

After doing that, he turned around to look at the other three who were still stunned. At the moment, the three of them looked at Fane with a complicated and speechless expression.

"The one-eyed frost wolf is dead. Are you still going to stay here?" Fane said in a calm tone.

Fane's sudden words broke the strange silence. At that moment, Rudy and Grayson no longer dared to even raise their heads to look at Fane. Fane was too strong.

They had dared to speak to Fane as they did before because they had thought Fane would be at around their level, not that much different in talent.

Yet, they found out that Fane was actually in the spring solidifying realm. He was not much different from them when it came to alchemy as well. The arrogance in their hearts was no longer applicable to Fane.

Hansel let out a slight cough as he said, "Since the one-eyed wolf is already dead. then we're out of danger for now. We can leave now."

Fane nodded, glancing at Rudy and Grayson. When the two of them felt Fane's gaze, they stiffened. Even their breathing became erratic.

They could feel that Fane did not want to bring the two of them along. After all, the two of them were burdens to the two spring solidifying realm experts.

At that moment, the arrogance they had earlier had completely disappeared. They were scared that Fane would leave the two of them behind and leave with Hansel.

Fane sighed. He had not wanted to bring the two of them along, but if he did not, there would be some problems later on.

His next step had already been determined the moment he broke into the spring solidifying realm. The other two were still useful, so he was forced to bring the two of them along.

"Let's hurry up and leave, Hansel, you lead the way," Fane said coldly.

Hansel hurriedly nodded. At that moment, Grayson and Rudy were incredibly quick to rush forward and grab one of Hansel's arms. each, helping him move in front.

That way, they would at least be able to show that they were somewhat useful. The four of them moved forward carefully, worried they would encounter any dangers. After all, they were not in a safe spot.

Probably because they had been around the one-eyed frost wolf's territory before, it had taken them three or four kilometers before noticing another beast.

The beasts were incredibly sensitive. When Fane unleashed his strength, the weaker beasts immediately avoided the group.

Chapter 2507

After walking for half a day, they finally left the area where spring solidifying realm beasts dwelled. They arrived at the outskirts, where the beasts around were weaker. They would all flee the moment Fane unleashed his aura.

Probably because the danger had greatly reduced after arriving at the outskirts, the tension between the four of them had disappeared. Initially, none of them spoke to each other, but Rudy had wanted to start a conversation.

He still did not dare to look at Fane. He let out a slight cough as he looked forward and asked, "Do you all have any plans after leaving Grand Yorn Mountain?"

That question was actually targeted at Fane

and Grayson. Grayson furrowed his eyebrows before saying, "Once we're out, I want to go look for a transfer array. I don't want to spend another moment outside. I want to go back to Rosefinch Pavilion immediately." He did not plan on leaving again in his whole lifetime.

Rudy sighed, "I want to return to Golden Pills as well. I feel like the outside is too dangerous. I'd rather stay at Golden Pills as a student. Even though there aren't that many resources there, I'd still be able to live a peaceful life."

The journey had dealt them too big of a blow. Students of the Middle Province Alchemist Alliance could definitely receive a lot of benefits, but they might face even greater dangers. It caused the two of them to be unsettled.

Fane frowned, saying in a low voice, "I know you really want to go back, but there's something you haven't made clear yet. You're current students of the Middle Province Alchemist Alliance.

"Even though you still have your old identities, you're already part of the Middle Province Alchemist Alliance. It's incredibly inappropriate for the two of you to just head back like that. No matter what, you need to give the alliance an explanation."

Rudy and Grayson looked at Fane with a stunned expression after hearing that.

Fane sighed and continued, "If the two of you quietly head back to your original places just like that, what would happen once the higher-ups in the alliance find out?"

"After all, the sudden incident probably means the two deacons are unlikely to be alive. The alliance is probably still trying to figure things out. If the two of you go back quietly, do you think the alliance will just let you be? What would they think of you?"

Fane's explanation forced the two of them to wake up. Fane was right! If they went back to their original places without saying anything, the alliance would definitely think there was something wrong with them.

After all, the vessel had gotten into an accident. They had been attacked after all. If nothing wrong happened to them, they would not return quietly at all!

If they ever gave the alliance that sort of impression, it would be incredibly hard for them to explain their way out of it in the future. It would burden the forces backing them. Grayson slapped his head and said, "How could I forget that?! If I return just like that, I'd definitely invite suspicion. They would definitely end up linking everything to us!"

E Rudy nodded, "Then what do we do? Why don't we delay our return to our clans and head to the branch to make a report?"

Fane frowned and said earnestly, "Just a few miles away will be the Seven Absolutes Pavilion's territory. The Seven Absolutes Pavilion is like Rosefinch Pavilion, you're both fifth-rank clans.

"They both have branches from the alliance as well. If we want to prove ourselves, why don't we just head to the Seven Absolutes Pavilion's branch to explain everything?"

Rudy and Grayson nodded, agreeing with Fane's idea. When Fane saw that the two of them had agreed, he was relieved. The incident definitely required witnesses for others to not be suspicious of them.

Chapter 2508

Grayson and Rudy had already been completely frightened by what had happened before. They wanted nothing more than to retreat. However, Fane could only move forward.

Yet, there were some things he could not help but care about. If he went to Phoenix Valley alone, he would definitely be suspected of what had happened before.

If there were witnesses present, the matter could still be explained. Phoenix Valley was already somewhere Rudy and Grayson no longer cared about, but it was still where Fane absolutely had to go.

Only by going to Phoenix Valley would Fane be able to receive the nurturing necessary to become a seventh-grade alchemist. Only by becoming a seventh-grade alchemist would Fane be able to earn a lot of spirit crystals.

He would then be able to obtain the ninth grade spirit crystals and make his preparations to enter Wild Gorge Path.

With that amount of spirit crystals, anyone would end up being unable to cope, but Fane did not feel that much pressure.

Even though it was an incredibly large amount, Fane felt like he would be able to earn it as long as he put his mind to it. Rudy walked forward with a frown, thinking about something.

After a while, he suddenly said, "I feel like it's a bit of a pity if I just give up like that, but I also feel like Wild Gorge Path really isn't that great a place to me.

"That place will definitely be filled with talented people. I might not be able to receive much attention even if I do go there. It's probably better to go back to Golden Pills. Even though I'd be berated, I would still be given a lot of attention."

Rudy could not help but look a little guilty as he said that. In the end, he was still a little hesitant about his decision. Before he had come here, he had felt like he would definitely be able to excel in Phoenix Valley.

He would be able to become a subject of admiration even among the older students. Yet, what had happened completely changed Rudy's thoughts.

In the end, he was still reluctant. Grayson was more or less in the same mood as Rudy. After nodding, he continued Rudy's words.

"Our life is the most important. Even though we might receive a lot of attention. After going to Phoenix Valley, Phoenix Valley will definitely have a lot of talented people around since it's so important to the alliance. We might just be buried in the crowd."

After saying that, Grayson looked over at Fane. Fane's expression was calm as if what they were talking about did not affect Fane at all.

Feeling Grayson's look, Fane let out a slight laugh as he calmly said, "Don't you know that there are some things you can't control?"

Those words were meant for Rudy and Grayson. They were stunned when they heard that, not knowing what to say.

Fane let out a sigh, "It's fine if you don't understand. You'll know after a while. There are a lot of things that won't go the way you want them to. Things have their own courses and movements."

Fane's words were incredibly vague, causing Grayson and Rudy to be even more puzzled.

They did not know why Fane said that even though Fane had his reasons.

The two of them could not help but sulk.

Rudy gulped as he walked forward to Fane's side. He looked up and wanted to ask in detail, but as he was about to do so, he heard a series of footsteps in front.

The four of them looked toward where the sound was coming from. They saw a man in a green robe walking toward them.

Chapter 2509

After seeing the face of the man in green robe, Fane and the others furrowed their eyebrows. They did not have any other particular reactions, but Hansel looked like a cat that just had its tail stepped on. He was suddenly incredibly nervous.

He suddenly retrieved his sword from his spatial ring and placed it in his palm.

The calm look on his face had turned into a hateful one.

The change in Hansel's attitude had been too obvious.

The other three next to him could feel it completely.

They knew the moment they saw such a large change that the green-robed man was definitely not friendly.

Hansel shouted in a heavy tone, "I really can't get rid of you! Malcolm Granger, I never knew you would be so despicable! You're not giving up on trying to kill me!"

The person called Malcolm let out a snide smile after he heard Hansel. He looked at Hansel as if he was looking at an idiot.

"Hansel, you've never disappointed me. You always act like an idiot. If I don't kill you off completely, wouldn't you just run back to the clan to reveal everything I've done?"

Hansel was so furious that his whole body was shaking. He was about to shout when someone slowly walked over from afar. That person was dressed up similarly to Malcolm. It was just that he looked a few years younger than Malcolm.

He slowly walked next to Malcolm. He was like a resolved bodyguard as he stood behind Malcolm.

When Hansel saw the other person, his face soured even more, and shouted, "Jordan! I can't believe you're one of Malcolm's accomplices!"

Jordan shook his head and said, "Hansel, you're wrong about that. I'm not Malcolm's accomplice. I'm just a warrior who's here to get rid of a traitor."

After those words were spoken, Hansel suddenly laughed out loud. Only, the laugh was full of helplessness and hatred. Fane and the others could clearly hear that Hansel was not in a good state at that moment.

However, his wounds were still not recovered. The laughing and his mental state aggravated his wounds. It caused his face which had already regained its color to turn pale once again.

Fane frowned, looking at Malcolm and Jordan who had very relaxed expressions on their faces. When he checked out their strength, Fane understood why they were acting so casually.

Malcolm's strength was about equal to Hansel's. He had already entered the spring solidifying the realm and was at the early stage.

Even though Jordan had yet to break into the spring solidifying realm, he was still at the peak of the innate stage.

On their side, Fane had deliberately left scars internally, so they could not see how strong he was. Grayson and Rudy were not even worth mentioning. The two of them were practically ants.

The two of them were at the early stage of the innate level. In front of Malcolm and Jordan, they did not amount to everything. Even though Hansel was around the same level as Malcolm, Hansel should be stronger than Malcolm.

Yet, Hansel was heavily injured. It was impossible for him to use all his strength. Even being able to fight at half his level was already quite good.

That was why their group was no threat at all to Malcolm and Jordan. That was why the two of them were so relaxed as they talked.

It was as if everything was already in their hands, and that there would not be any changes.

Chapter 2510

Ever since Malcolm appeared, Fane and the others were ignored. He did not see Fane and the others as humans at all.

Hansel was incredibly emotional when he said, "Getting rid of a traitor! I can't believe you could actually say something like that. The others don't know, but don't you know how the eighth elder died?!"

"The two of you had plotted against me and I actually fell for it so stupidly!" After saying that, Hansel's eyes reddened.

He felt like he had been incredibly lied to and framed. He was in a bad state.

Malcolm let out a cold smile as he said, "Stop trying to act like a good person. Every time, you act like a righteous and noble person. Only I know how fake you are."

"We never set a trap for you at all. You were the one who did it all to yourself because of your actions! Don't think we don't know anything just because you've hidden it. I've long since sent someone to check your plot with the alliance!"

Fane was stunned at those words. Plot with the alliance? Even though Malcolm only mentioned the alliance, Fane's mind immediately jumped to the Middle Province Alchemist Alliance.

Only the Middle Province Alchemist Alliance would be able to be referred to so simply. Could Hansel have some dealings with the alliance?

Hearing Malcolm's words, it seemed like there were a lot of hidden secrets. Thinking about that, Fane could not help but purse his lips as he quietly stood by the side, looking at the fellow disciples.

Hansel waved his hands around and said, "The ones who are dirty think of everyone else as dirty. How could I have a deal with the alliance? In their eyes, I'm just a little minnow."

"The elders were the ones who allowed me to help the alliance out with something. As the eldest disciple of the Seven Absolutes Pavilion, I have my responsibilities. It's nothing like what you think!"

Malcolm let out a cold laugh as he said, "Stop with your dumb excuses. You're just trying to push all the responsibilities away. The alliance has been through so much lately, everyone knows it has something to do with that group."

"Don't think that we'll believe you just because you're randomly spouting out some nonsense excuse! You've already been the eldest disciple for so many years.

"No matter what, the eighth elder's death is related to you! We did not scheme against you at all. You were the one who decided to go right into it! It's time for you to die now. Allowing you to live for so long is our gift for you." Hansel felt like those words were incredibly hard to listen to. It was as if someone had delivered several slaps to his face. Hansel was so angry his whole body was shaking.

"I knew you left a tracker on me. Otherwise, you would never have been able to appear right after I walked out! I really underestimated you!" Hansel said a little hopelessly.

He started to tear up as Malcolm snorted, not saying anything. His attitude made it clear that he did leave a tracker on Hansel.

At that moment, Malcolm seemed to have just noticed that Hansel had others next to him. He turned his gaze to Fane.

"Who are these minnows? I can't believe you actually managed to bring out a few minnows from the Grand Yorn Mountain? However, those minnows don't even seem like they can compare to the beasts nearby, They're not even firmly at the early stage of the innate level... they're such rubbish!"
