

# The Charismatic Charlie Wade Chapter 3880

skuna said: "The length, wheelbase, and tire width of the car that Charlie drove is the top-notch in BMW. I just compared it. This car is the top model of last year's BMW 760. But the one posted on the back of the car is a BMW 520."

Fei Kexin was taken aback for a moment, then smiled: "It seems that he is really not an ordinary low-key, and he has to cover it up when driving a BMW."

As she said, she remembered something and said to skuna, "Sskuna, connect your mobile phone to the driving recorder, and look for it to see if you have photographed Charlie's appearance just now."

skuna chuckled, and handed the phone to Fei Kexin, and said, "Miss, when you and Charlie went in just now, I had already exported the pictures from the driving recorder, and I chose some of them with clearer shots. Take a look."

Fei Kexin said admiringly: "Yes, skuna, I'm getting more and more active."

skuna smiled and said, "Miss, by following you, the speed of progress is very fast."

Fei Kexin smiled slightly, took the phone and looked through it seriously.

Since Charlie arrived first, and Charlie was waiting outside the car, Cadillac took very clear images when approaching Charlie, and the photos taken by skuna were also very clear.

Fei Kexin said with satisfaction: "I have to meet Smith of the FDA and show him these photos to see if Director Wade was Charlie when he was negotiating with Jiu Xuan Pharmaceutical."

With that, she said to skuna: "skuna, help me contact Smith, ask him out to meet him, and say I have something to ask him in person."

“good!”

...

at the same time.

Charlie always felt something was wrong on the way back.

The driver of Fei Kexin suddenly appeared in his mind, and he suddenly realized it.

What’s wrong is that this young woman can carry a six-star warrior by her side.

This is almost the strongest bodyguard he has seen so far.

A six-star warrior can stay by his side and be a bodyguard. From this perspective alone, the strength of the family behind Zhan is likely to be far above that of the Wade family.

If the Wade family could have a six-star warrior opposing the formation, Salmaan of the Wanlong Palace would never dare to bring the coffin directly to the Wade family mansion.

And there is also a very important key point, that is, Zhan is still very young, and it is absolutely impossible to be the head of the family. If she can even be equipped with a six-star warrior as a bodyguard, then the master of this family, I am afraid. It's not just a six-star warrior.

It is even possible to have multiple six-star warriors, or even higher-level warriors.

According to the market price of the six-star warrior in the Wanlong Palace, at least 200 million US dollars a year will start.

Moreover, the six-star warriors in the Wanlong Palace are all serving as generals leading troops to fight, and it is impossible to accept employment alone, so it is even more impossible to serve as bodyguards.

If a family raises three or five six-star warriors, the cost for that year may exceed one billion U.S. dollars.

This amount is definitely a staggering astronomical figure. There are many large families worth hundreds of billions of dollars in China, and their net profit throughout the year is not one billion US dollars.

Take the Moore Group as an example. Although it has a market value of 100 billion yuan, its annual net profit is only 3.5 billion yuan. This is still a good market situation.

If Jasmine were to hire a six-star warrior, the cost of this individual might have caught up with half of the net profit of the entire Moore Group.

Thinking of this, he immediately called Abbas.

As soon as the phone was connected, Charlie directly ordered: "Abbas, you can find out if there is a Chinese family in France with the surname Zhan, and by the way, find out how strong this family is!"
