

# The Return of the God of War [The Protector]

## Chapter 3312

Several people almost vomited blood.

It's too Versailles, isn't it?

Your daughter's roots are not only good, but also so good.

This is definitely the top root bone!

If the people from Zhen Mosi saw it, which one would not want to own this bone.

I can't wait to dig it out on the spot.

Xu Qingya smiled: "The word side by side with the king is a bit of a joke, Levilia's talent is really terrible! Even if we are the Suppression Magic Division!"

Xu Longri couldn't help but reminded: "The king of the word side by side should take good care of Levilia! If you have such a top-level root bone and are known, there will be many people to snatch it!"

Levi Garrison was stunned for a moment, and couldn't help but ask, "What do you mean? That someone has a fancy for my daughter's top root bone and wants to take it back and cultivate it?"

Xu Longri laughed and said, "If you just grab it back and cultivate it, that's fine! Don't worry, the key spiritual root and bone can be transplanted!"

"Can the root bone be transplanted?"

Levi Garrison's expression changed slightly.

Xu Longri nodded: "For example, your root bones are not good, but you can completely dig out the better root bones of others and transplant them on your own! Then you will have good root bones! Everything will be yours!"

"But this method is too cruel! Shame on us! We hear that very few people use this method! Or almost none at all!"

"It doesn't mean there won't be any! That may be because you haven't encountered any tempting spiritual bones! If you know the top root bones, I believe there are still many people who are tempted! In particular, there are some extreme powerhouses in Zhen Mosi, they There will definitely be ideas!"

Xu Qingya added: "Recently, the super-god plan of the War Bear Kingdom is actually to know the real secret of the gods, which is the reason for the spiritual roots and bones.

However, their method is only to optimize and improve these root bones, there are always limitations! If they were given a little more time, they might actually figure out a way to transplant the root bone. "

...

With such an explanation, Levi Garrison understood everything.

There are good and bad people in that place.

The Town Demon Division is no exception.

Judging from these people, Zhen Mosi is a group of super powerful beings.

For such things as root bone grafting, it is estimated that it is very light.

Just do it.

Just like home cooking.

Ethics do not exist before absolute power.

So what they said was right, be careful that Levilia has a top root bone.

Once someone from Zhen Mosi finds out, they will definitely come and take Levilia away.

It's fine if you cultivate it well, but if the root bone is transplanted, Levi Garrison will be so angry.

He would never allow this to happen.

Levilia is just poisoned, and can no longer be in trouble.

He absolutely doesn't allow it.

Therefore, Levi Garrison stared at Xu Qingya and the others.

Of course, it is impossible for him and his own people to say that Levilia has top-notch roots.

Then there are only Xu Qingya four.

Being stared at by Levi Garrison, everyone seemed to be pressing down on the mountains in the ten directions.

Almost burst.

powerful!

too strong!

Levi Garrison is stronger than they thought!

Xu Qingya hurriedly explained: "We will never tell you about the root bone of Levilia, and if we have other ideas, we will not tell you about the root bone transplant!"

Others were quick to point out the issue.

Only then did Levi Garrison take away his breath.

Otherwise, he must kill all these people.

From the beginning of these few people to the present.

Levi Garrison is watching them all.

Mind is pretty good.

If you really have crooked thoughts about Levilia, you will never remind yourself.

“As long as the top of my daughter’s roots is revealed, I will trouble you!”

Levi Garrison said coldly.

“We all understand!”

Several people nodded.

“Right, I have a question...”
